Office (239) 829-5457

ATMO - Maintenance Group | You, Don, Joe, +3

John Spears 3/23 2:17 PM  
Jeremy is checking.

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 3/23 2:16 PM  
are the airlines 1/4"?

ATMO - Maintenance Group | You, Don, Joe, +3

John Spears 3/23 2:16 PM  
That'll do!

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 3/23 2:16 PM  
John Spears How long to get it here? Amazon, says tomorrow...

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 3/23 2:15 PM  
Plenty of them out there <\$50... just need to find the specs and get one or two...

ATMO - Maintenance Group | You, Don, Joe, +3

John Spears 3/23 2:15 PM  
Russell Tidaback heres another one... [image] How long to get it here?

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 3/23 2:14 PM  
Max input 250 psi, out 60 psi... from the pic of the one using right now.

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 3/23 2:13 PM  
heres another one... [image]

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

Russell Tidaback (You) 3/23 2:12 PM  
haha, good question...

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

John Spears 3/23 2:12 PM  
Russell Tidaback We need to get one quickly for the 4th floor compressor but we also need to be cognizant of cost... Is that one coming from China with a big shipping fee?

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

Russell Tidaback (You) 3/23 2:12 PM  
If I am not mistaken the regulator on the 4th floor is leaking, the bigger regulator is leaking... just trying to figure out how many we need to replace.

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

Russell Tidaback (You) 3/23 2:10 PM  
We need to get one quickly for the 4th floor compressor but we also need to be cognizant of cost... [image]

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/26 12:01 PM

Gage Wheeler I am very disappointing in hearing this and your two week notice. I had higher hopes and expectations for you. I hope this is due to you moving back to Arkansas / family related / etc and not due to the job. Will you be there at the Mill tomorrow?

ATMO - Maintenance Group | You, Don, Joe, 13

GW 2/26 11:51 AM

I just spoke with John I am in Arkansas also as of effective tomorrow I am putting in my two week notice...

ATMO - Maintenance Group | You, Don, Joe, 13

JS 2/26 10:34 AM

Gage Wheeler RJ and I are at the mill replacing a couple of power cords. RJ is going to help you with the bagger/packer today.

ATMO - Maintenance Group | You, Don, Joe, 13

JS 2/25 7:41 PM

Russell Tidaback hmmm... I told him that we need to get the bagger up and going before 8am Monday. Not at 8am, but before, production is scheduled to start at 8am. I've never used the ATF-Acetone...

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/25 7:40 PM

hell of a lot cheaper than Kroil too.

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/25 7:39 PM

John Spears Kroil is good stuff. Yeah, I'm going to try the ATF-Acetone next time for penetrating fluid.

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/25 7:39 PM

hmmm... I told him that we need to get the bagger up and going before 8am Monday. Not at 8am, but before, production is scheduled to start at 8am.

ATMO - Maintenance Group | You, Don, Joe, 13

JS 2/25 7:37 PM

Russell Tidaback Did Gage Wheeler reply to you? Not yet.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

Seneca, MO 64865  
Office (239) 829-5457

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 2/25 7:37 PM  
Did Gage Wheeler reply to you?

ATMO - Maintenance Group | You, Don, Joe, +3

JS John Spears 2/25 7:36 PM  
Kroil is good stuff.

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 2/25 4:53 PM  
Something to think about... kroil is still widely used today but is expensive! (Selected photo)

ATMO - Maintenance Group | You, Don, Joe, +3

JS John Spears 2/25 3:43 PM  
Gage Wheeler Good afternoon. What time do you plan to be here tomorrow so I can coordinate some help for you?

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 2/24 9:31 PM  
John Spears just so I don't forget... I just spoke with Gage Wheeler, he will not be available Saturday and should be available Sunday. I asked him to post here the game plan so you can coordinate to have someone else assist him on Sunday to get the bagger working before Monday morning.

ATMO - Maintenance Group | You, Don, Joe, +3

GW Gage Wheeler 2/23 11:46 AM  
Also got done two electrical citations done as well...

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 2/21 8:48 AM  
John Spears on the old light fixtures that we just replaced, please take a couple pictures of the bulb sockets from different angles. I need to show that by manufacturer design they aren't a shock hazard.

ATMO - Maintenance Group | You, Don, Joe, +3

JS John Spears 2/20 4:38 PM  
Gage Wheeler I wired in a light switch lol i just need the air on to test so does have to be tomorrow after the inspection? Cause if it does no big deal cause if it doesnt work now i just have to make a 4in jumper... Very good. Thank you.

**ATMO - Maintenance Group** | You, Don, Joe, 13

**JS** John Spears 2/13 11:54 AM  
Russell Tidaback It probably has to do with the cold weather/temp of the fuel coming in. I was thinking the same thing about the cold and not being used for two days.

**ATMO - Maintenance Group** | You, Don, Joe, 13

**Russell Tidaback (You)** 2/13 11:44 AM  
It probably has to do with the cold weather/temp of the fuel coming in.

**ATMO - Maintenance Group** | You, Don, Joe, 13

**Russell Tidaback (You)** 2/13 11:43 AM  
Robert Baumann for now, lets not turn the valve to idle. Just stop just short of idle in case there is carbon build up in the valve.

**ATMO - Maintenance Group** | You, Don, Joe, 13

**JS** John Spears 2/13 11:17 AM  
I'll get a hold of Chuck from American Boiler and see if he thinks the valve is sticking.

**ATMO - Maintenance Group** | You, Don, Joe, 13

**RB** Robert Baumann 2/13 11:01 AM  
It keeps backing off even when it is set now something has to be going out and it seems like it's getting worse  
John Spears it will run fine for only a minute or two now temp keeps backing off randomly...

**ATMO - Maintenance Group** | You, Don, Joe, 13

**JS** John Spears 2/13 10:56 AM  
I tapped on the green valve that has the modulator/actuator attached to it and the valve opened up. The modulator or the valve is sticking when the burner is reduced to idle.

**ATMO - Maintenance Group** | You, Don, Joe, 13

**Robert Baumann** 2/13 10:45 AM  
[Selected photo] [Selected photo] [Selected photo] Can't get the regulator to work on the burner system usually you tap on the regulator and it gets it going but now it won't work at all. Was working fine til now...

**ATMO - Maintenance Group** | You, Don, Joe, 13

**Russell Tidaback (You)** 2/13 10:12 AM  
They are in Colorado, i believe, so they are an hour behind. Troubleshoot what you can from the books, prepare your questions and call them in an hr.

- 
- Gage Wheeler 2/13 10:07 AM  
i can ensure you that i didnt cross a hose or wire cause i didnt mess with anything like that pretty much all ive done with make the air automated with a solinoid and make the mottor mannualy controled...
- 
- ATMO - Maintenance Group** | You, Don, Joe, + 3
- 
- Russell Tidaback (You) 2/13 10:07 AM  
when looking at the baggers.... keep in mind they are two seperate pieces of equipment. with the jerry rigging thats been done to them. Try to isolate the two machines and troubleshoot from there. We only have 3-4 days left of bulk bag orders so this needs to be an immediate priority.
- 
- ATMO - Maintenance Group** | You, Don, Joe, + 3
- 
- Russell Tidaback (You) 2/13 10:06 AM  
We are contemplating one going ahead buying these, just to have as a contingency plan for the two we have now.
- 
- ATMO - Maintenance Group** | You, Don, Joe, + 3
- 
- Russell Tidaback (You) 2/13 10:05 AM  
Russell Tidaback it will take them 4-6 weeks to get the packer to us. Lets focus on getting the packer working. They have to replace the controllers and have us send them a 50# and 100# bag to program it.
-

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 2/13 10:02 AM  
plus, someone mentioned something "started working" that jim states hasnt worked in years... what was that something and lets turn that off as it may be related electrically to the issue we are experiencing with the bagger.

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 2/13 10:01 AM  
I dont think the PLC programming is the issue. Since we didnt mess with it, my thoughts are someone cross hooked a plug, wire, hose, etc on the machines while trying to help troubleshoot the valve issue.

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 2/13 9:59 AM  
Make sure to call the PremierTech guys this morning. They are pretty good about helping. Just be advised that they will push to have one of their guys come out at \$15k for 2-3 days (air flights, hotels, per diem, etc). Thats a no-go at this time. 🙄

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 2/13 9:57 AM  
it will take them 4-6 weeks to get the packer to us. Lets focus on getting the packer working.

ATMO - Maintenance Group | You, Don, Joe, +3

John Spears We found them. Just as we opened the box I knew right away we had them. Whew, thank you for double checking. 🙌

**ATMO - Operations** | You, Don, Gwen, 1-4

John Spears 4/11 1:47 PM

I'll give it a try.

**ATMO - Operations** | You, Don, Gwen, 1-4

Russell Tidaback (You) 4/11 1:46 PM

try it and see but I do think it will scan two sides.

**ATMO - Operations** | You, Don, Gwen, 1-4

Russell Tidaback (You) 4/11 1:46 PM

now that I think about it... the auto feeder detects two sided scans as well...

**ATMO - Operations** | You, Don, Gwen, 1-4

John Spears 4/11 1:46 PM

Ok...

**ATMO - Operations** | You, Don, Gwen, 1-4

Russell Tidaback (You) 4/11 1:46 PM

to scan 2 sided, can use the glass, not the auto feeder...

 **ATMO - Operations** | You, Don, Gwen, 14

 John Spears 4/4 5:53 PM

Yes. We finished SQ-316 and moved on to SQ-323.

 **ATMO - Operations** | You, Don, Gwen, 14

 Jordan Tidaback 4/4 5:52 PM

Were we able to start on SQ-323 today?

 **ATMO - Operations** | You, Don, Gwen, 14

 John Spears 4/4 5:02 PM

I'll pass that along to Rob.

 **ATMO - Operations** | You, Don, Gwen, 14

 John Spears 4/4 5:01 PM

Good plan.

 **ATMO - Operations** | You, Don, Gwen, 14

 Jordan Tidaback 4/4 5:00 PM

No, to keep from having that void, let's do 2, 2, and then 14 stacked double high. That way if they tip over, they'd be tipping onto another pallet rather than onto the floor of the container.

 **ATMO - Operations** | You, Don, Gwen, 14

 John Spears 4/4 4:58 PM

Jordan Tidaback Yes, that's fine. It should be 18 pallets each on 4 containers and 20 pallets on the 5th container. Very good. Will we need to put the big blow up pillows in the void space so that the top pallets of row 4 do not tip over?

 **ATMO - Operations** | You, Don, Gwen, 14

 Jordan Tidaback 4/4 4:54 PM

Yes, that's fine. It should be 18 pallets each on 4 containers and 20 pallets on the 5th container.

 **ATMO - Operations** | You, Don, Gwen, 14

 John Spears 4/4 4:52 PM

Will it be OK for the containers being used for SQ-316 to be lite on one end? We're going to be putting 360 bags each on four separate containers and 400 bags on the fifth.

**Mailing Address:**

Russell Tidaback (You) 4/14 10:10 AM  
Check the **ATMO Safety** chat... Jessie was inquiring as well.

---

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 4/14 10:09 AM  
Oh no, I think you are doing a stand up job... State to State will have different "guidelines". Unfortunately, from an inspectors point of view, to protect yourself as an inspector, you need to be sure of your source and reference that source.

---

**ATMO Safety** | You, Don, John, 12

Jessie Molesi 4/14 10:07 AM  
Sorry just checking so many sources that i feel like differ or state different than others...

---

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 4/14 10:06 AM  
Yes that is my understanding as well. A 104 (b) is not a withdrawal order... a 104(d), 104(g), and a 107(a) ORDERS are withdrawal orders. [https://www.law.cornell.edu/cfr/text/30/104.2...](https://www.law.cornell.edu/cfr/text/30/104.2)

this is why we hardly ever choose Jim to wear a monitor. Jim attracts the dust...

ATMO Safety | You, Don, John, +2

Russell Tidaback (You) · 4/13 4:54 PM  
If they werent wearing a monitor... they wont be included.

ATMO Safety | You, Don, John, +2

JM · 4/13 4:54 PM  
I believe so just based looking off the chart i posted earlier...

ATMO Safety | You, Don, John, +2

JS · 4/13 4:53 PM  
We'll need at least 4 units. I'm afraid MSHA will ask us about the maintenance personnel. I'm sure they'll be next to be tested.

ATMO Safety | You, Don, John, +2

Russell Tidaback (You) · 4/13 4:53 PM  
The 3M 2097 filters can be bought at lowes, ace hardware, etc...

ATMO Safety | You, Don, John, +2

Russell Tidaback (You) · 4/13 4:52 PM  
HEPA equivalent to P100, yes?

ATMO Safety | You, Don, John, +2

JS · 4/13 4:51 PM  
I'm sure as long as it is a HEPA.

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 4/13 4:50 PM

Everyone agree the 3M P100 2097 filters should be sufficient?

**ATMO Safety** | You, Don, John, +2

John Spears 4/13 4:48 PM

Yes. N95.

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 4/13 4:47 PM

N95v ?

**ATMO Safety** | You, Don, John, +2

Jessie Moles 4/13 4:46 PM

Yes for the Admin office an N95v mask or half mask with dual respirators works...

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 4/13 4:46 PM

I am having her double check the on-hand inventory... she has 4 larges but is confirming this.

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 4/13 4:45 PM

John is good with the normal N95 as he did not test over due to going to the admin bldg etc throughout the day.

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 4/13 4:44 PM

Its not EVERYONE ... only those tested to be over exposed.

I will check with Keith to find out what his exact source was and send it to you. I hate being confused and what to make sure I understand...

 **ATMO Safety** | You, Don, John, 12

 Russell Tidaback (You) 4/12 2:28 PM

Keith likes to add too much of his own opinion rather than keeping to what the regulation guidelines are.

 **ATMO Safety** | You, Don, John, 12

 Russell Tidaback (You) 4/12 2:27 PM

Jessie Molesi Can you provide the reference to where the CFR states that we NEED to purchase the PAPR system? Im not trying to be a pain, I just dont think we need to purchase \$12k worth of equipment which the company has never used.

 **ATMO Safety** | You, Don, John, 12

 Russell Tidaback (You) 4/12 2:25 PM

unless I am reading it wrong.

 **ATMO Safety** | You, Don, John, 12

 Russell Tidaback (You) 4/12 2:25 PM

Again, reading the CFR, it does not state that it is a requirement to purchase a PAPR system.

 **ATMO Safety** | You, Don, John, 12

 Russell Tidaback (You) 4/12 2:23 PM

Hmmm, interesting, what is "progression on working with our dust ventilation systems"? Opening the doors, windows, and turning on the exhaust fans... this has always worked in the past...

 **ATMO Safety** | You, Don, John, 12

 Jessie Molesi 4/12 2:20 PM

This sucks but I don't think MSHA is wrong they gave us time to show progression on working with our dust ventilation systems but we have not, therefore at that rate even with windows and doors open we will never be under the threshold limit for silica concentration. Also as far as the respirator Markeson explained to...

 **ATMO Safety** | You, Don, John, 12

 Russell Tidaback (You) 4/12 2:14 PM

Russell Tidaback because once again we're back to the hand grinder scenario.

**ATMO Safety** | You, Don, John, +2

**JS** John Spears 4/12 2:12 PM

Russell Tidaback John Spears I'd like your thoughts on this too. I'm not very happy about this one bit. We requested a retest and time to get everyone health tested. Doing a "fit test" is useless until we find out what forms of breathing apparatuses we are able to use. I figured Mr. Pratt and Mr. Simms would have...

**ATMO Safety** | You, Don, John, +2

**Russell Tidaback (You)** 4/12 1:57 PM

John Spears I'd like your thoughts on this too.

**ATMO Safety** | You, Don, John, +2

**Russell Tidaback (You)** 4/12 1:33 PM

Jessie Molesi Have you read over the referenced sections of the CFR (56.5001 (a) / 56.5005)? I'd like to get your thoughts on this citation/order:

**ATMO Safety** | You, Don, John, +2

**Russell Tidaback (You)** 4/12 1:31 PM

Thanks. I moved them to a 12APR2023 folder. Its understandable that this MSHA stuff is frustrating and aggravating. We can only do what we can do. I guess Mr. Markeson didnt think ordering more M95 masks, the ear plugs, researching to have the Gibraltar calibration done or the scheduling of the cardio tests is effort...

**ATMO Safety** | You, Don, John, +2

**JM** Jessie Molesi 4/12 1:13 PM

done...

**ATMO Safety** | You, Don, John, +2

**Russell Tidaback (You)** 4/12 1:08 PM

Jessie Molesi Its okay, if he issued the order to be closed down, just scan it to a 12APR2023 folder and let me know when this is completed. I have already spoken with Mr. Pratt this morning and will call him again once I see the order. John Spears...

**ATMO Safety** | You, Don, John, +2

**JM** Jessie Molesi 4/12 1:05 PM

Yes 220 is the correct amount...

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,

Office (239) 829-5457

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 4/12 1:05 PM

This is why we have to read and understand the CFR... [image] <https://www.law.cornell.edu/cfr/text/30/56.5001>  
56.5001 Exposure limits for airborne contaminants. "Except as permitted by § 56.5005 -"  
<https://www.law.cornell.edu/cfr/text/30/56.5005> "(a) Respirators approved..."

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 4/12 1:04 PM

So I guess the Shipping info is how we want it sent back to us? I need the measurement of the box so we can look at method of shipping and costs. And the cost is \$220 for the recalibration? Is that correct to put on the PO?

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 4/12 12:51 PM

Jessie Molesi I need the PAPR systems to do fit tests on them. Also he said based on the concentrations of silica we have in the air we are required per MSHA to have either a PAPR system or SCBA system until levels can be lowered. WE have the environmental controls in place... we need to use them and have a resample.

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 4/12 12:39 PM

Yes, I'll look at that form. One moment...

**ATMO Safety** | You, Don, John, 12

**JM** **Jessie Molesi** 4/12 12:33 PM

Well for now could you help me with this form so i can get the Gilibrator sent in for recalibration. We need to get the sampling and analysis set up so we can get Citation #9539788 terminated...

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 4/12 12:20 PM

I honestly don't think we'll be going that way, but we will see. That was the whole point of the resample.

**ATMO Safety** | You, Don, John, 12

**JM** **Jessie Molesi** 4/12 12:17 PM

I need the PAPR systems to do fit tests on them. Also he said based on the concentrations of silica we have in the air we are required per MSHA to have either a PAPR system or SCBA system until levels can be lowered.

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 4/12 12:14 PM

Have we done the fit tests yet?

**Mailing Address:**

**ATMO Safety** | You, Don, John, 12

Jordan Tidaback 4/12 12:11 PM

We'll have to see what they say when we hear back from them. Those systems weren't required before and there is nothing in the regs that requires it. Based on our micron size, N95 masks meet that requirement. \$12K is not pocket change.

**ATMO Safety** | You, Don, John, 12

JM 4/12 12:01 PM

The MSHA inspector informed me that the doors and windows were open along with exhaust fans on the day they did sampling. He also said that we cannot do production until we have the PAPR systems and everybody is medically evaluated and fit tested.

**ATMO Safety** | You, Don, John, 12

Jordan Tidaback 4/12 11:53 AM

We've been in contact with MSHA and will let you all know what we hear.

**ATMO Safety** | You, Don, John, 12

Jordan Tidaback 4/12 11:52 AM

The point of their revisit was to do a resample. Since we weren't running, they should have come back later. When we were cited for this last month, it's possible the "engineering controls" (open doors, windows, exhaust fans) weren't being used, thus resulting in a higher concentration. When the engineering controls are...

**ATMO Safety** | You, Don, John, 12

JM 4/12 11:48 AM

The systems could be overnighted but it is an extra \$2,000 or we have to wait until the 19th of April for the \$0 option...

**ATMO Safety** | You, Don, John, 12

JM 4/12 11:38 AM

Sent an email that has the PAPR systems we need to get up and running again...

**ATMO Safety** | You, Don, John, 12

JM 4/11 3:35 PM

Also I talked to Joplin Fire Protection and they said if we bring both fire extinguishers in it would cost \$45 to recharge them.

**ATMO Safety** | You, Don, John, 12

JM 4/11 3:14 PM

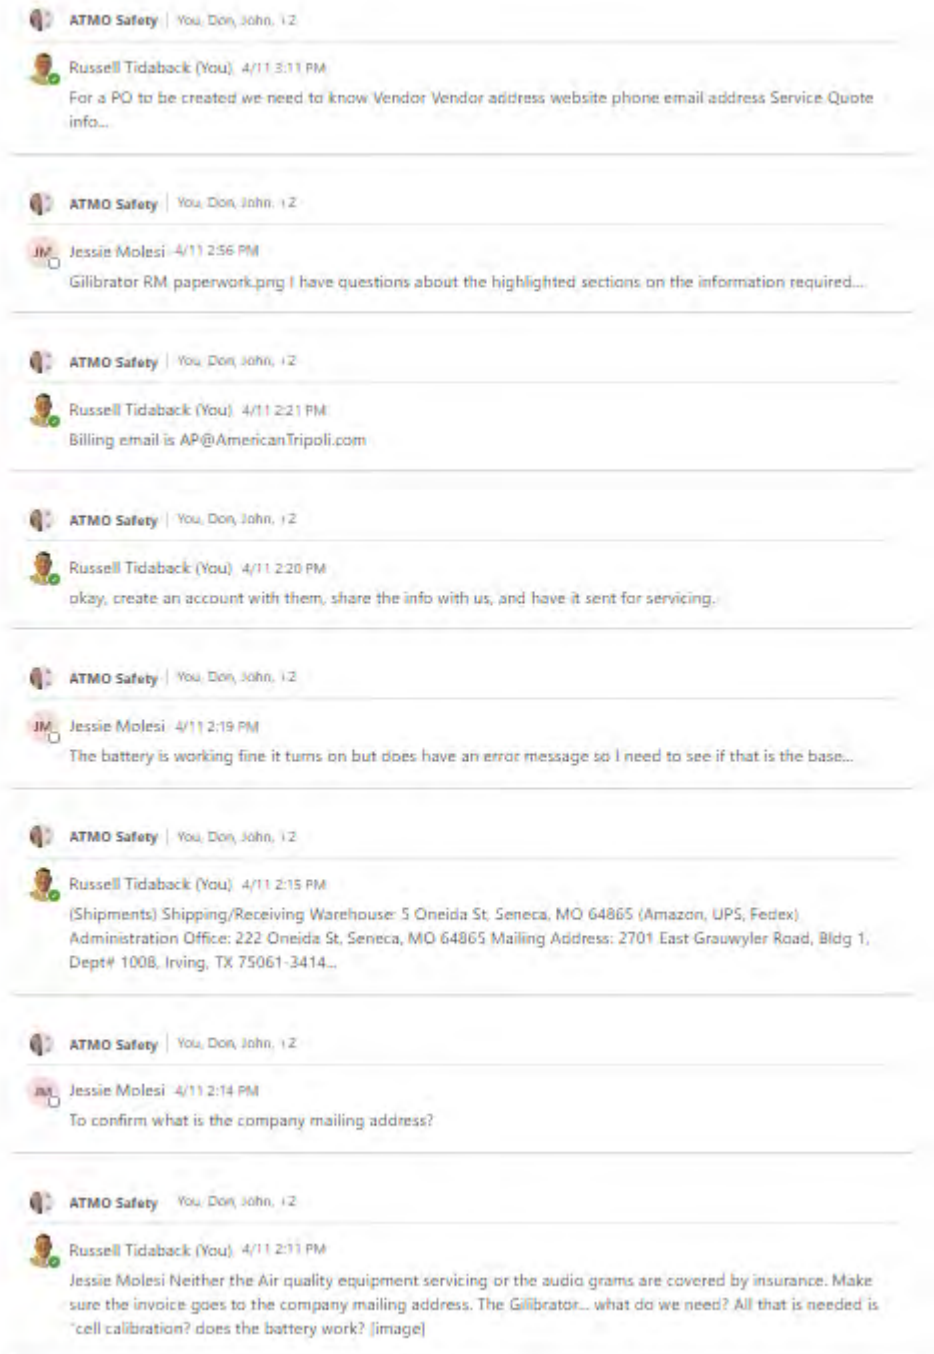

so would we do a credit card or do you want me to get the info for the PO. Also not sure what to put for carrier and shipping method.

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/31 2:03 PM

Lets wait until we hear back from Norman Z.

**ATMO Safety** | You, Don, John, +2

Jordan Tidaback 3/31 1:52 PM

...I'm updating the training plan with the "Live interactive instructor led videoconference" teaching method and also including Jessie as a **Safety** POC....

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/31 1:13 PM

It takes time... but we will get there. Any training or related MSHA questions dont hesitate to reach out to Norman Zeman, Zeman.Norman@DOL.GOV, he has always been a good reference for things MSHA related. He usually responds with 24 hrs where other people... it make take weeks.

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/31 1:08 PM

Again, you are part of the operations team that keeps the employees safe and keeps the company compliant with outside organizations. As you learn the role and its responsibilities, you will understand more of whats right and whats wrong. 99% of the time we receive a citation... its going to be an oversight because...

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/31 1:05 PM

Jessie Molesi Anytime you receive a MSHA citation, Always look at the I use the Cornell Law School library for the e-CFR, as they have it broken down to an easier to read format... <https://www.law.cornell.edu/cfr/text/30/56.5001> you can jump to specific sections quickly (see arrows)

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/31 12:53 PM

IMO, I dont know why they, who ever built the building, just didnt run chain link fencing around the bottom of the building and remove the floor level walls of the bldg. Air flow problem resolved.

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/31 12:51 PM

windows, doors, and exhaust fans... is the "engineering control" to address the air quality issue.

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/31 12:50 PM

I wouldnt be suprised if they dont, and I wouldnt put too much effort into them. Again, from previous owner and mill management... they were never used in the Mill.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

**ATMO Safety** | You, Don, John, 12

Jessie Molesi 3/31 12:49 PM

Acknowledged. For now i have these 4 PAPR systems i found and i am seeing if they work...

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/31 12:47 PM

Jessie Molesi please acknowledge.

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/31 12:47 PM

but for the immediate fix... as I dont think, and if I remember correctly, we have those PAPRs but have never used them... have all the doors and windows open anytime the mill is operating AND have all the exhaust fans on. This is part of the Mill start up and shut down steps Rob should be ensuring is done everyday.

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/31 12:45 PM

I will stress with you... any MSHA inspector is not your friend. Anything you say to or in their presence can AND WILL be used against you in a court of law. Hopefully, this will never be needed BUT just be well aware.

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/31 12:43 PM

Jessie Molesi Keith is a good guy, you may want to connect with him on how to build a good tracking and managing system for the citations.

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/31 12:42 PM

Travelers is our carrier. I'll look into this... never heard of this being done but learn something new everyday when dealing with MSHA. 🤔

**ATMO Safety** | You, Don, John, 12

Jessie Molesi 3/31 12:41 PM

Russell Tidaback who is our carrier insurance the MSHA inspector told me that I could contact them and see if they offer programs to send us the equipment we need to do air surveys and send the equipment back for analysis.

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/31 12:39 PM

Hi Jessie... With the MSHA citations today... "Engineering Controls" are easier and more effective that a respirator. The thing to take in consideration is the amount of air flow through the building during an air sampling. eg open all doors, open all windows on all floors, and turn on all exhaust fans... this probably...

have to know the team members weaknesses and strenghts...

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/30 5:04 PM  
Thats just part of leadership...

**ATMO Safety** | You, Don, John, 12

JM Jessie Molesi 3/30 5:03 PM  
That is very much true...

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/30 5:02 PM  
also, all guys seem to think we are all a bunch of 15-years old, can conquer the world and lift a million lbs... but afterwards... age reminds us that we arent teenagers anymore. With the guys in the mill, you will have to "hold their hand" and remind them to stretch, eat right, get enough sleep each night, etc...

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/30 5:00 PM  
Reminder... we need to perform stretching exercises every morning. As the temperatures start to change, so does what our body requires. Drink plenty of water, stretch the muscles you know you are using, especially your legs, back, arms, and neck.

**ATMO Safety** | You, Don, John, 12

There are some ergonomics pdfs in the folders that RJ should read over. Go over these ergonomics points with him, ask him to stretch his muscles in the morning. He may not be stretching or use to using those muscles. Tomorrow morning you should speak with RJ, and ask him about the stretching exercises you two discuss.

Office (239) 829-5457

**ATMO Safety** | You, Don, John, +2

Jessie Molesi 3/28 1:22 PM

Do you know where i can find the list for the electrical systems grounding test?

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/28 1:16 PM

Yep, with a 150+ year old company, believe me, it will happen more than once. This is why it is best to create a paper trail when working with a govt agency. Dont be suprised 6 months down the road, you receive an email stating they need an update on the stormwater permit application.

**ATMO Safety** | You, Don, John, +2

Jessie Molesi 3/28 1:08 PM

Copy that they sent me through the ringer and checked everywhere including old systems and found nothing..

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/28 1:07 PM

No worries. If you called OK and they cant find a permit, they wont be coming to look for one.

**ATMO Safety** | You, Don, John, +2

Jessie Molesi 3/28 1:06 PM

Ok all I could find was the Missouri no exposure certification for the mill. Can't find any previous storm water certificates for OK. May be looking in the wrong places. 🤔...

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/28 1:05 PM

I assume that at one time, MO & OK required one but that requirement faded away. Yes, as long as we have the certificate just in case we get asked.

**ATMO Safety** | You, Don, John, +2

Jessie Molesi 3/28 1:04 PM

Okay so can I take that off the reporting schedule since we don't need a storm water permit there...

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 3/28 1:03 PM

And since we do not generate any type of waste... MO states we do not need one...

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

**ATMO Safety** | You, Don, John, + 2

**Russell Tidaback (You)** 3/28 1:02 PM  
or the drying sheds, which are located in MO...

**ATMO Safety** | You, Don, John, + 2

**Russell Tidaback (You)** 3/28 1:02 PM  
yep, the Quarry is in Oklahoma and we do not do any type of manufacturing there. Only excavation of material. We do not generate any stormwater runoff at the quarry.

**ATMO Safety** | You, Don, John, + 2

**JM** 3/28 1:00 PM  
Just a little confused I contacted the Oklahoma Department of Environmental Quality and got ahold of a Misty Johnson in Stormwater permit and she could not find any permits with us at all.

**ATMO Safety** | You, Don, John, + 2

**JM** 3/28 12:27 PM  
The certificate for the Missouri No Exposure Certification is in the Mo department of natural resources folder.

**ATMO Safety** | You, Don, John, + 2

**Jordan Tidaback** 3/28 12:25 PM  
Jessie Molesi Now i just have to check for Oklahoma that was for Missouri. Ohr...

**ATMO Safety** | You, Don, John, + 2

**Jordan Tidaback** 3/28 12:25 PM  
Is it a physical piece of paper? If so, would you mind scanning a copy and putting it in one of the **safety** files in teams?

**ATMO Safety** | You, Don, John, + 2

**JM** 3/28 12:25 PM  
Now i just have to check for Oklahoma that was for Missouri.

**ATMO Safety** | You, Don, John, + 2

**Jordan Tidaback** 3/28 12:24 PM  
oh sweet! Thanks! Glad you found it.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,

Office (239) 829-5457

**ATMO Safety** | You, Don, John, 12

**JM** | Jessie Molesi | 3/28 12:20 PM

I updated the reporting schedule with the information on the No Exposure Certification and i found the certificate and we have till 02/14/2027 until it has to be renewed.

**ATMO Safety** | You, Don, John, 12

**R** | Russell Tidaback (You) | 3/28 11:51 AM  
for Missouri...

**ATMO Safety** | You, Don, John, 12

**R** | Russell Tidaback (You) | 3/28 11:50 AM

If you look through the documents, the last **safety** tech chased this down and found that we do not have to have a stormwater permit... the document should be in the files.

**ATMO Safety** | You, Don, John, 12

**JM** | Jessie Molesi | 3/28 11:48 AM  
Thank you again...

**ATMO Safety** | You, Don, John, 12

**J** | Jordan Tidaback | 3/28 11:48 AM  
Stormwater Permitting - Oklahoma Department of Environmental Quality

**ATMO Safety** | You, Don, John, 12

**J** | Jordan Tidaback | 3/28 11:47 AM  
The agency says ODEQ (Oklahoma Dept of Environmental Quality), so i assume that's for the quarry. It may be a similar situation to the mill... This has been replaced with the No Exposure Certification (MONX00844), which has to be renewed every 5 years proving we don't have anything that would expose stormwater to...

**ATMO Safety** | You, Don, John, 12

**JM** | Jessie Molesi | 3/28 11:41 AM  
I was just looking at the one on the reporting schedule.

**ATMO Safety** | You, Don, John, 12

**J** | Jordan Tidaback | 3/28 11:40 AM  
Was that for Oklahoma? i know the MQ one was good.

 **ATMO Safety** | You, Don, John, +2

 JM Jessie Molesi 3/24 2:48 PM  
Yes I did see it from John's desk and I always love help...

 **ATMO Safety** | You, Don, John, +2

 Jordan Tidaback 3/24 2:47 PM  
Did you see the 5000-23 book yesterday and the task trainings in it? The MSHA inspector recently showed me how to fill it out. I can show you, if needed.

 **ATMO Safety** | You, Don, John, +2

 JM Jessie Molesi 3/24 2:45 PM  
Of course just want to stay productive...

 **ATMO Safety** | You, Don, John, +2

 Jordan Tidaback 3/24 2:44 PM  
Great, thank you!

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,

Office (239) 829-5457

**ATMO Safety** | You, Don, John, 12

**JM** Jessie Molesi 3/24 2:33 PM  
Awesome thank you for all your help gonna make sure to get those updated...

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 3/24 2:13 PM  
Looks to be a word doc in there already for that one. Standard Operating Procedures I also see a duplicate pdf of the Emergency Action Plan.

**ATMO Safety** | You, Don, John, 12

**JM** Jessie Molesi 3/24 2:03 PM  
Under SOP folder...

**ATMO Safety** | You, Don, John, 12

**JM** Jessie Molesi 3/24 2:02 PM  
2022 Mill Regulatory and **Safety** Program.pdf 2022 Mill Regulatory and **Safety** Program.pdf

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 3/24 1:52 PM  
I added the word version of the Emergency Action Plan to the folder: Emergency Action Plan Can you point me to where the Mine **Safety** Reg procedures document is? I might be overlooking it.

**ATMO Safety** | You, Don, John, 12

**JM** Jessie Molesi 3/24 1:47 PM  
Jordan Tidaback For the emergency action plan along with the mine **safety** regulation procedures do you know where i can find version I can edit and work on to get those updated and current?

**ATMO Safety** | You, Don, John, 12

**JM** Jessie Molesi 3/24 12:33 PM  
Okay copy that sir while i work on that i guess my next stop is making sure our mine **safety** and regulatory procedures along with our emergency action plan are up to date and current...

**ATMO Safety** | You, Don, John, 12

**JS** John Spears 3/23 11:52 AM  
Jessie Molesi check for PPE.

ATMO - Operations You, Don, Gwen, +4

Russell Tidaback (You) 9/28/22 9:54 AM

Hi everyone. Just to give everyone a little insight as to why the **CILAS reports** are important for us to generate and keep accurately....There have been times where a customer states that the material is different and caused damage to their machines. This is where the **CILAS reports** come into play....We need to keep the **CILAS**...

## Welcome

Hello and welcome! Thank you for joining the American Tripoli team, where we strive to emphasize product quality, consistency, and excellent customer service. We can't wait to see what you will achieve with us.

This associate handbook defines who we are and how we work together. We will do everything possible to create a fair and productive workplace, but we need your help. We've created this handbook to guide you.

This handbook isn't a contract or a guarantee of employment. It's a collection of the expectations, commitments, and responsibilities. Please read this associate handbook carefully and consult it whenever you need to.

## Getting To Know The Company

American Tripoli has been in business since 1869. It has been sold and changed ownership numerous times throughout its history. The underlining purpose of the company has not changed through all of this. The company surrounds itself in the basic concept of open-pit mining, processing, manufacturing, advertising, selling, and distributing the product(s).

Make sure you utilize the company website to learn about the product(s) we manufacture and sell.

We are a growing company that will be using all available resources to make this company grow and multiple in not only in gross revenue but also global market share.

## Employment Basics

In this section, we explain the associate contract types and define the basic employment policies.

### Employment Contract Types

Full-time associates work at least 30 hours per week or 120 hours per month on average.

Independent Contractor - common situations may arise when we need for projects of short or specific

Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

duration where specialize knowledge or expertise is required or exigent circumstances such as meeting the operational needs when an associate goes on an extended leave of absence. Part-time associates are those who work fewer than 30 hours per week.

Full-time and part-time associates can have either temporary or indefinite duration employment contracts. Full-time associates under an indefinite duration contract are entitled to the company's medical and dental benefits package after their first 90-day employment period.

We remind you that, in the U.S., employment is "at-will". This means that you or the company may terminate the employment relationship at any time and for any non-discriminatory reason(s).

## Equal Opportunity Employment

American Tripoli is an equal opportunity employer. We don't tolerate discrimination against protected characteristics (gender, age, sexual orientation, race, nationality, ethnicity, religion, disability, veteran status). We want all associates to treat others with respect and professionalism. In practice, this means that we:

- Hire and promote people based on skills, experience or potential and try to reduce bias in every process (e.g. through structured interviews.)
- Make accommodations to help people with disabilities move about safely on the premises and use the products, services, and equipment.
- Use inclusive, diversity-sensitive language in all official documents, signs and job ads.
- Conduct diversity and communication training.

Apart from those actions, we commit to penalizing every discriminatory, offensive, or inappropriate behavior. To do this properly, we ask you to report any discriminatory action against yourself or your colleagues to your manager. If it is your manager, report it to their manager. The company will not retaliate against you if you file a complaint or discrimination lawsuit. Any associate who retaliates or discriminates will face disciplinary action.

## Recruitment and Selection Process

The hiring steps might vary across roles, but we always aim for a process that is fair and effective in hiring great people. As a Department Manager, If you are hiring for an open role, you will likely go through these steps:

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- I. Identify the need for a new job opening.
  - II. Decide whether to hire externally or internally.
  - III. Review job descriptions and write a job ad.
  - IV. Get approval from Senior Management for your job ad.
  - V. Select appropriate sources (external or internal) to post your job opening.
  - VI. Decide on hiring stages and possible timeframes.
  - VII. Review resumes in the company database.
  - VIII. Source passive candidates.
  - IX. Shortlist applicants.
  - X. Screen and interview candidates.
  - XI. Run background checks and check references.
  - XII. Select the most suitable candidate.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

**XIII. Make an official offer.**

Steps may overlap, so skip steps when appropriate. Each member of a hiring team might have different responsibilities (e.g. recruiters source and hiring managers interview candidates.)

Throughout this process, we aim to keep candidates informed, communicate well with each other, and give everyone an equal opportunity to work with us. Ask the recruiters for help whenever you need to enhance candidate experience or write an inclusive job description.

**Background checks**

If you want to run background checks on candidates, ask the Operations Manager for guidance. This process is sensitive, and we must always abide by laws and ensure candidates understand the intentions. As a rule, commission a background check for finalists only. Use the contracted provider and ensure you have your candidates' permission.

**Referrals**

If you know someone who you think would be a good fit for a position at the company, feel free to refer them. If we end up hiring your referred candidate, you are eligible for \$600 referral bonus. The associate referral rewards may be higher if we hire your referred candidate in a hard-to fill role. For example, if we hire your referral for the position of Manager, you may receive \$1200.

**Additional rules for rewards:**

- Reward payout schedule is 1/3 within a month of the date we hired a referred candidate. Second 1/3 at the completion of the referred candidates first 180 days of employment. If Candidate quits, resigns, or is terminated for any reason before the completing first 180 days of employment the second ½ reward is provided. Final 1/3 at the completion of the referred candidates first 360 days of employment. If Candidate quits, resigns, or is terminated for any reason before the completing first 360 days of employment the second and or final 1/3 reward is provided

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- There is no cap on the number of referrals an associate can make.
  - If two or more associates refer the same candidate, only the first referrer will receive the referral incentives.
  - Candidates can only be referred once; all referrals are recorded.
  - Referrers are still eligible for rewards even if a candidate is hired later for same position. It is the referrers responsibility to keep a record of who they refer and when. Any discrepancy, results go to the company.

**Who can be referred?**

We have two conditions for candidates who can qualify you for the rewards. They should:

- Have not applied to the company before
- Be hired as permanent full- or part-time associates (not as temporary associates or contractors)

The company may use an online form or a platform where associates may refer candidates. You can also reach out directly to your Manager with referrals. Generally, we encourage you to check the open positions and consider your social networks and external networks as potential resources for referred candidates. Keep in mind that rewards may be subject to taxation. Please contact your Manager for more information.

**Attendance Policy**

Team Members' absence/ tardiness will be assessed using a points system. This points system starts after the first 90 days of employment. The occurrence of point 1 is forgiven, the occurrence of point 2 is a verbal warning, the occurrence of point 3 is a "written" warning, and the occurrence of point 4 results in termination. This point system resets every year, for example, if a Team Member started work on March 1st, their 90-day mark would be May 30th and they would begin the points system. Any points accrued between May 30th and May 29th of the following year would drop off, and the Team Member would restart with 0 points on May 30th that next year.

Absences count as points when they are non-approved and non-PTO. Unexpected absences still count as points, even if the Team Member notifies their manager prior to the start of the shift. Missed work without notification is a serious offense. More than 2 days in a row missed without giving notification will result in immediate termination.

Tardiness over 15 minutes will be counted as 0.5 points. Leaving work early or for some time during the day is also generally 0.5 points, but will be counted as 1 full point, if more than 2 hours of work are

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

missed. Excessive tardiness where less than 15 minutes of work is missed can still be grounds for termination.

If an emergency occurs, Team Members are allotted 2 emergency days per year. These are days missed for good reason that will not count as points. The year for emergency days works the same as the year for points, starting at the 90th day of employment.

Overtime, not to exceed 50 hours per week, may be required. If overtime is required, Team Members will be given at least 2-day notice. Required overtime is considered working hours, and the points system will still apply. Volunteers may be taken for overtime work that comes up without a 2-day notification.

Absences within the first 90 days of employment are more serious. More than one absence within the first 90 days may be grounds for termination, depending on the situation.

## Workplace Policies

This section describes policies that apply to everyone at the company: associates, contractors, volunteers, vendors, and stakeholders alike. These policies help us build a productive, lawful, and pleasant workplace.

## Confidentiality and Data Protection

We want to ensure that private information about clients, associates, partners, and the company is well-protected. **Examples of confidential information are:**

- Associate records
- Unpublished financial information
- Data of customers/partners/vendors
- Customer lists (existing and prospective)
- Unpublished goals, forecasts and initiatives marked or unmarked

As part of the hiring process, we will ask you to sign non-compete and non-disclosure agreements (NDAs.) We are also committed to:

- Restrict and monitor access to sensitive data.
- Develop transparent data collection procedures.
- Train associates in online privacy and security measures.
- Build secure networks to protect online data from cyberattacks.
- Unpublished goals, forecasts and initiatives marked or unmarked

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

We also expect you to act responsibly when handling any company internal information and treat it all as confidential information.

**You must:**

- Lock or secure company information at all times.
- Make sure you view confidential information on secure devices only.
- Only disclose information to other associates when it's necessary and authorized.
- Keep confidential documents inside the company's premises unless it's necessary to move them.
- There should be NO or absolute minimal printing of anything. Printing is ONLY allowed for customer shipping documents or for MSHA documentation (since they like to have a hard copy on each inspection).
- If you acquire a receipt from a purchase, delivery, mail, etc., scan the document into the system. The easiest method to do this is by using your cellphone's camera to take a picture, then upload the picture straight into the respective folder in Teams or by using the scanner in the admin building. Once you have verified the receipt is scanned and stored online, throw the paper copy away.
- We do not want paper copies of anything. We want a digital copy of every document. We want the administration of the business to be as lean as we possibly can. We want all documentation stored online. 100% no paper office is the goal. This is very important, and we cannot stress this enough. We want the assurance that if something such as a flood, a fire, a tornado, or we build a new mill building we will not be lost or struggling to quickly break from the Seneca location.
- It is your responsibility to preserve, scan, verify and store the documentation in the approved file storage provided.

**You must not:**

- Use confidential information for your personal benefit or profit.
- Disclose confidential information to anyone outside of the company.
- Replicate confidential documents and files and store them on insecure devices.

This policy is important for the company's legality and reputation. We will terminate any associate who breaches the confidentiality guidelines for personal profit and seek legal recourse. We may also

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

discipline any unintentional breach of this policy depending on its frequency and seriousness. We will terminate associates who repeatedly disregard this policy, even when they do so unintentionally.

## Harassment and Violence

To build a happy and productive workplace, we need everyone to treat others well and help them feel safe. Each of us should do the part to prevent harassment and workplace violence.

### Workplace harassment

Harassment is a broad term and may include seemingly harmless actions, like gossip. We can't create an exhaustive list, but here are some instances that we consider harassment:

- Sabotaging someone's work on purpose.
- Commenting derogatorily on a person's ethnic heritage, religious beliefs, or sexual preference.
- Train associates in online privacy and security measures.
- Starting or spreading rumors about a person's personal life.
- Ridiculing someone in front of others or singling them out to perform tasks unrelated to their job (e.g. bringing coffee) against their will.

Sexual harassment is illegal, and we will seriously investigate relevant reports. If an associate is found guilty of sexual harassment, they will be terminated immediately.

If you're being harassed, whether by a colleague, customer, or vendor, you can choose to talk to any of these people:

- Offenders. If you suspect that an offender doesn't realize they are guilty of harassment, you could talk to them directly to resolve the harassment. This tactic is appropriate for cases of minor harassment (e.g., inappropriate jokes between colleagues. It may not seem inappropriate to those in the conversation where it is being said but can be inappropriate to those overhearing the conversation).
- Your manager. If customers, vendors, or team members are involved in your claim, you may reach out to your manager. Your manager will assess your situation

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Senior Management. Feel free to reach out to Senior Management in any case of harassment no matter how minor it may seem. For your safety, Senior and may his/her manager if appropriate.
- Starting or spreading rumors about a person's personal life.
- Ridiculing someone in front of others or singling them out to perform tasks unrelated to their job (e.g. bringing coffee) against their will.

Management as soon as possible in cases of serious harassment (e.g., sexual advances) or if your manager is involved in your claim. Anything you disclose will remain confidential.

**Workplace violence**

Violence in the workplace is a serious form of harassment. It includes physical and sexual assault, destruction of property, threats to harm a person or property and verbal and psychological abuse. We want to avoid those incidents altogether, but we also want to be ready to respond if needed.

For this reason, we ask you to:

- Report to Senior Management if you suspect or know that someone is being violent. Your report will be confidential, and we will investigate the situation with discretion
- Call 911 if you witness incidents of severe physical violence (e.g., ones that involve a lethal weapon.) For your safety, avoid getting involved.

We will treat associates who verbally threaten others as high risk and they will receive an appropriate penalty. If Senior Management finds that an associate commits an act of violence, we will terminate that associate and seek to press criminal charges. Associates who damage property deliberately will be solely responsible for paying for it.

Supporting victims:

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

To support victims of workplace violence, we may, provide victims with the lawyer's services to help them file lawsuits.

Get help early on :

Seek help from others early on to mitigate conflicts. For example:

- If you experience conflicts with a colleague, ask your manager for advice before tensions escalate. If these conflicts persist, ask Senior Management whether you could attend conflict resolution seminars with your colleague.
- If you are experiencing personal or work troubles, ask for help from a mental health professional. Check with your insurance provider to determine whether cover any mental health services. Your discussions will remain confidential.

The workplace is founded on mutual respect, and we won't allow anyone to compromise this foundation.

## Workplace Safety and Health

The company is committed to creating a hazard-free workplace. To this end, we will ensure workplace safety through preventative action and emergency management.

### Preventative action

Preventative actions are any actions we take to avoid injuries or illnesses related to the workplace. We will periodically conduct risk assessments and job hazard analyses through a workplace safety committee to uncover health risks to associates. And we will establish preventative measures to address risks accordingly

At a minimum, we will:

- Hold associate training sessions on safety standards and procedures

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Make sure associates who work in dangerous locations are safe.
  - Provide protective gear like gloves, protective uniforms and goggles.
  - Direct inspectors and quality control associates to evaluate equipment and infrastructure regularly.

We also expect you to take safety seriously. Always use protective equipment and follow standards whenever necessary. If you deliberately disregard the guidelines, we may terminate you for your own and others' safety.

**Emergency management**

Emergency management refers to the plan to deal with sudden catastrophes like fire, floods, earthquakes, or explosions. The emergency management provisions include:

- Functional smoke alarms and sprinklers that are regularly inspected.
- Technicians (external or internal) available to repair leakages, damages, and blackouts quickly.
- Fire extinguishers and other fire protection equipment that are easily accessible. An evacuation plan posted on each floor and online.
- Fire escapes and safety exits that are clearly indicated.

**Smoking**

American Tripoli is a smoke-free workplace. You can smoke in designated smoking areas and outer premises, like sidewalks. Any other area in the workplace (like restrooms, lobby, offices, staircases, warehouses) is strictly smoke-free to protect non-smokers.

**Emergency management**

Emergency management refers to the plan to deal with sudden catastrophes like fire, floods, earthquakes, or explosions. The emergency management provisions include:

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

We also advise you to:

- Extinguish your cigarettes and discard them appropriately.
- Avoid smoking when you have scheduled meetings.
- Avoid smoking near flammable objects and areas.

Setting off fire alarms and causing fires by smoking are serious offenses. If you are found responsible, you may face disciplinary action up to and including termination.

**Drug-free workplace**

American Tripoli is a drug-free workplace. Whether you are an associate, contractor, or visitor, you must not bring, use, give away or sell any drugs on company premises. If you are caught with illegal drugs or show that you are under the influence of substances, you will face disciplinary action up to and including termination.

A list of prohibited drugs and substances includes, but isn't limited to, in any form:

- Heroin .
- Cocaine
- Methamphetamine

**Alcohol:**

We prohibit associates from consuming alcohol during working hours, but they may consume alcoholic drinks in moderation at company events.

**Prescription drugs:**

If you feel that a prescription drug (e.g. an anxiety medication) unexpectedly affects your senses, thinking or movement, ask for the rest of your day off. If your manager suspects substance abuse, you may face disciplinary action.

You **MUST NOT** use medical marijuana in the workplace. We have the right to terminate you if your off duty use of medical marijuana makes you unable to complete your job duties correctly.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

We expect associates who hold safety-sensitive jobs (e.g., machine operators or drivers) to be fully alert and capable of always performing their duties. We may terminate you if we conclude your prescription drug use creates severe safety risks. If you need to use prescription drugs for a limited time and you think they may impair your abilities, use your PTO.

If your job includes secondary tasks that are safety-sensitive and your prescribed drugs affect your ability to perform these tasks, we can make reasonable accommodations to ensure you and your colleagues' safety. If your job includes secondary tasks that are safety-sensitive and your prescribed drugs affect your ability to perform these tasks, we can make reasonable accommodations to ensure you and your colleagues' safety.

**Dealing with addiction :**

Being sober is a prerequisite to thriving at the company and we want to help you as much as possible.

We won't tolerate substance addiction that results in violent, offensive, or inappropriate behavior.

## **Expense Approval and Reporting Policy**

**Purpose of Policy**

This policy outlined applies to all employees who spend money on work-related activities. It is used to standardize the procedure for getting pre-approval, making payments, and submitting documentation for work-related expenses.

**Scope of Policy**

**This policy applies to the following expense types:**

- Immediate expenses necessary for daily operations.
- Procurement for non-immediate needs
- Service providers and other specific expenses
- Expenses needing reimbursement

**Procedure**

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

**The approval process for immediate expenses necessary for daily operations:**

- Expenses under \$50 may be purchased without pre-approval.
- Expenses over \$50 should be submitted to the Operations Manager via Teams direct message for approval BEFORE purchase.
- The Operations Manager will then submit the expense request to a Managing Member.
- The Managing Member will communicate the approval or denial of the request to the Operations Manager, who will share it with the team member who requested the expense.

**The approval process for non-immediate procurement needs:**

- Expenses of this type require a quote from THREE DIFFERENT VENDORS.
- All vendor quotes and the selected vendor should be submitted to the Operations Manager via Teams..
- The Operations Manager will communicate with the Manager Member for approval of these expenses.
- The Operations Manager will share the approval or denial of the expense with the requesting team member. The Managing Member may also be a part of this communication..

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

**Documentation process for all expenses once approved:**

- The requestor should communicate the approved requests to the Front Desk Team Member who will create a PO.
- Receipts for expenses purchased via credit card, including those under \$50, should be signed and submitted to the Front Desk Team Member within 24 hours.
- Receipts or invoices with PO numbers will be scanned or saved by the Front Desk Team Member and added to Teams in the appropriate folder.

**Service providers and other specific expenses:**

- Service providers that require payment at the time of service should be approved BEFORE BOOKING to ensure payment is available at that time.
- Using service providers for non-immediate needs should follow the same process as the other non-immediate expenses. Therefore, three quotes are needed..
- Immediate need service providers charging via invoice will be documented by the Front Desk Team Member.
- Non-immediate expenses of goods that cannot be purchased from more than one location still need approval and to follow the same process, but only one quote is required.

**Expenses needing reimbursement:**

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Expenses needing reimbursement may include expenses purchased before receiving a company-issued credit card or mileage reimbursement, among other things.
- All vendor quotes and the selected vendor should be submitted to the Operations Manager via Teams..
- Expenses of this kind require PRE-APPROVAL, following the same approval process as other expenses.
- Documentation of these expenses, which must have receipts, should be documented by the team member responsible for the charges and submitted to the Front Desk Team Member for reimbursement via check once per month.

## Associate Code of Conduct

As an associate, all company policies mentioned above apply to you. We have some additional expectations about your behavior at work, which we outline here. We can't cover every single case of conduct, but we trust you to always use your best judgement. Reach out to your manager if you face any issues or have any questions.

### Dress Code

The company's official dress code is casual. This includes shoulder covered t-shirts, shorts no shorter than mid-thigh and open toed shoes (admin staff only). However, an associate's manager may also inform how they should dress. If you frequently meet with clients or prospects, conform to a more formal dress code. If you work in the Mill/Plant or the Quarry you are required to wear appropriate clothing with safety first in mind and as directed by your manager. We expect you to be clean when coming to work and avoid wearing clothes that are unprofessional (e.g., workout clothes, holes in clothing, tank tops, revealing or dirty, smelly clothing.) Dress code is ultimately the responsibility of the department manager.

### Cyber Security and Digital Devices

This section deals with all things digital at work. We want to set some guidelines for using computers, phones, the internet connection, and social media to ensure security and protect the assets.

#### Internet usage

The corporate internet connection is primarily for business. But you can occasionally use the connection for personal purposes as long as they don't interfere with your job responsibilities. Also, we expect you to temporarily halt personal activities that slow down the internet connection (e.g., uploading photos) if you're asked to.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

You **MUST NOT** use the internet connection to:

- Stream music or videos.
- Make or receive personal video calls.
- Send confidential information to unauthorized recipients.
- Invade another person's privacy and gain access to sensitive information.
- Download or upload pirated movies, music, material, or software.
- Visit potentially dangerous websites that can compromise the network and computers' safety.
- Perform unauthorized or illegal actions, like hacking, fraud or buying/selling illegal goods.

**Cell phone**

We allow use of cell phones at work. But we also want to ensure that your devices won't distract you from your work or disrupt the workplace. We ask you to follow a few simple rules:

- Use your cell phone in a manner that benefits your work (business calls, productivity apps, calendars).
- Keep personal calls brief and use an empty meeting room or common area so as not to disturb your colleagues.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Avoid playing games on your phone or texting excessively.
- Avoid using your phone for any reason while driving a company vehicle.
- Don't use your phone to record confidential information.

Also, you must not use your phone in areas where cell phone use is explicitly prohibited (e.g. laboratories, meetings, driving company vehicles, or operating company equipment.)

**Corporate email**

Email is essential to the work. You should use your company email primarily for work, but we allow some uses of your company email for personal reasons.

- Work-related use. You can use your corporate email for work-related purposes without limitations. For example, you can sign up for newsletters and online pservices that will help you in your job or professional growth.
- Personal use. You can use your email for personal reasons if you keep it safe and avoid spamming and disclosing confidential information. For example, you can send emails to friends and family and download eBooks, guides, and other safe content for your personal use.

The general expectations

No matter how you use your corporate email, we expect you to avoid:

- Signing up for illegal, unreliable, disreputable, or suspect websites and services.
- Sending unauthorized marketing content or emails.
- Registering for a competitor's services, unless authorized.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Sending insulting or discriminatory messages and content.

- Intentionally spamming other people's emails, including your coworkers.

In general, use strong passwords and be vigilant in catching emails that carry malware or phishing attempts. If you are not sure that an email you received is safe, ask the IT support team.

**Social media**

We want to provide practical advice to prevent careless use of social media in the workplace.

We address two types of social media uses: using personal social media at work and representing the company through social media.

**Using personal social media at work**

You are permitted to access your personal accounts at work. But we expect you to act responsibly, according to the policies and ensure that you stay productive. Specifically, we ask you to:

- Discipline yourself. Avoid getting sidetracked by your social platforms.
- Ensure others know that your personal account or statements don't represent the company. For example, use a disclaimer such as "opinions are my own."
- Avoid sharing intellectual property (e.g. trademarks) or confidential information. Ask your manager first before you share company news that's not officially .
- Avoid any defamatory, offensive, or derogatory content. You may violate the company's anti-harassment policy if you direct such content towards colleagues, clients, or partners.

**Representing the company through social media**

If you handle the social media accounts or speak on the company's behalf, we expect you to protect the company's image and reputation. Specifically, you should:

- Be respectful, polite, and patient.
- Avoid speaking on matters outside your field of expertise when possible."

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Follow the confidentiality and data protection policies and observe laws governing copyrights, trademarks, plagiarism, and fair use.
- Coordinate with the Marketing department when you're about to share any major-impact content.
- Avoid deleting or ignoring comments for no reason.
- Correct or remove any misleading or false content as quickly as possible

**Conflict Of Interest**

When you are experiencing a conflict of interest, your personal goals are no longer aligned with your responsibilities towards us. For example, accepting a bribe may benefit you financially, but it is illegal and against the business code of ethics. If we become aware of such behavior, you will lose your job and may face legal trouble.

For this reason, conflicts of interest are a serious issue for all of us. We expect you to be vigilant to spot circumstances that create conflicts of interest, either to yourself or for your direct reports. Follow the policies and always act in the company's best interests. Whenever possible, do not let personal or financial interests get in the way of your job. If you are experiencing an ethical dilemma, talk to your manager and we will try to help you resolve it.

**Associate Relationships**

We want to ensure that relationships between associates are appropriate and harmonious. We outline the guidelines, and we ask you to always behave professionally.

**Fraternization**

Fraternization refers to dating or being friends with your colleagues. In this policy, "dating" equals consensual romantic relationships and sexual relations. Non-consensual relationships constitute sexual violence, and we prohibit them explicitly.

**Dating colleagues**

If you start dating a colleague, we expect you to maintain professionalism and keep personal discussions outside of the workplace.

You are also obliged to respect your colleagues who date each other. We won't tolerate sexual jokes,

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

malicious gossip, and improper comments. If you witness this kind of behavior, please report it your Manager or Senior Management.

**Dating managers**

To avoid accusations of favoritism, abuse of authority and sexual harassment, supervisors must not date their direct reports. This restriction extends to every manager above an associate.

Also, if you act as a hiring manager, you aren't allowed to hire your partner to your team. You can refer them for employment to other teams or departments where you don't have any managerial or hiring authority.

**Friendships at work**

Associates who work together may naturally form friendships either in or outside of the workplace. We encourage this relationship between peers, as it can help you communicate and collaborate. But we expect you to focus on your work and keep personal disputes outside of the workplace.

**Gifts**

Nothing valued at more than \$25 from a customer, vendor, or other third party can be accepted by an associate. Gifts are allowed but "significantly expensive ones, greater than \$25" must be reported to HR. Guidelines say no gifts can be solicited, and only gifts of minimal value can be accepted.

**Employment of relatives**

Everyone in the company should be hired, recognized, or promoted because of their skills, character, and work ethic. We would not like to see phenomena of nepotism, favoritism, or conflicts of interest, so we place some restrictions on hiring associates' relatives.

To the company, a "relative" is related by blood or marriage within the third degree to an associate. This includes parents, grandparents, in-laws, spouses or domestic partners, children, grandchildren, siblings, uncles, aunts, nieces, nephews, stepparents, stepchildren and adopted children.

As an associate, you can refer your relatives to work with the company. Here are the only restrictions:

- You must not be involved in a supervisory/reporting relationship with a relative.
- You cannot be transferred, promoted, or hired inside a reporting relationship with a relative.
- You cannot be part of a hiring committee, when your relative is interviewed for that position.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

If you become related to a manager or direct report after you both become employed by the company, we may have to transfer one of you or transfer report responsibility.

## Workplace Visitors

If you want to invite a visitor to the offices, please ask for permission from your manager first. Your manager will need to notify the Operations Manager. Also, inform the front office/reception area of your visitor's arrival. Visitors are required to sign in and show identification. You will be asked to return your visitors to front office and have them sign out once their visit is complete.

When you have office visitors, you also have responsibilities. You will be responsible for:

- Always tend to your visitors, especially when they are underage, Never leave a visitor unattended, anywhere on company property, inside or outside the building
- Keep your visitors away from areas where there are dangerous machines, chemicals, confidential records, or sensitive equipment.
- Prevent your visitors from proselytizing your colleagues, gathering donations, or requesting participation in non-company related activities while on the premises.

Anyone who delivers orders, mail or packages for associates should remain at the admin building's reception area. If you are expecting a delivery, the front office will notify you so you may collect it.

## Solicitation and Distribution

Solicitation is any form of requesting money, support or participation for products, groups, organizations or causes which are unrelated to the company (e.g. religious proselytism, asking for petition signatures.) Distribution means disseminating literature or material for commercial or political purposes.

We don't allow solicitation and distribution by non-associates in the workplace. As an associate, you may solicit from your colleagues only when you want to:

- Ask colleagues to help organize events for another associate (e.g., adoption/birth of a child, promotion, retiring).

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Seek support for a cause, charity or fundraising event sponsored, funded, organized, or authorized by the company.
- Invite colleagues to associate activities for an authorized non-business purpose (e.g., recreation, volunteering.)

In all cases, we ask that you do not disturb or distract colleagues from their work.

## Compensation & Development

In this section, we outline the guidelines for compensating associates according to their employment status. We also describe the performance management and associate development policies.

### Compensation Status

Department of Labor & Industrial Relation.

General for further details.

There are two types of associates under FLSA guidelines:

- Non-exempt associates, who are covered by the FLSA's minimum wage and overtime provisions.
- Exempt associates, who aren't covered by the FLSA because they meet three exemption criteria: (a) they are paid at least \$23,600 per year (\$455 per week), (b) they are paid on a salary basis, and (c) they perform exempt job duties ("executive," "professional" and "administrative.") Most associates must meet all three criteria to be exempt.

If you are unsure as to whether you should be exempt or not, please ask your manager to clarify your status.

The FLSA excludes some types of jobs (e.g. railroad workers, truck drivers) because they are covered by other federal laws. Some other workers, like outside salespeople, are excluded. Feel free to ask your manager for clarifications any time.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

**Overtime**

Occasionally, we may need you to work more than your regular working hours. The US Fair Labor Standards Act (FLSA) states unless exempt, employees must receive overtime (OT) pay for hours worked over 40 in a workweek at a rate not less than time and one-half their regular rates of pay.

It is a supervisory responsibility to justify and reduce costs everywhere possible. Therefore, it is at the supervisor's discretion to offer the opportunity for an associate to work for overtime pay. The supervisor should be managing the workload across the team members to avoid burnout.

No overtime is automatically authorized. Any requested overtime is required to get written prior approval with both the requesting department manager and senior management signatures. Any department manager submitting a timesheet with OT on it will need to provide the admin office team with the signed authorized OT letter.

If you are an exempt associate, you are not entitled to overtime pay by federal law. If an exempt associate must work overtime, we will set a cap for overtime hours at 10 hours per week to prevent overworking and burnout.

If you are a non-exempt associate, you are entitled to overtime pay of one and a half times your wage. Please record your overtime hours accurately, so we can calculate your pay correctly. We also ask you to work overtime only after its authorized by your supervisor to make the record-keeping easier.

Am I an exempt employee? In summary, to be an exempt employee must (a) be paid at least \$23,600 per year, and (b) be paid on a salary basis, and also (c) perform exempt job duties. These requirements are outlined in the FLSA Regulations (promulgated by the U.S. Department of Labor).

**Payroll**

For hourly and salary associates, wages are paid biweekly by direct deposit. Please notify your manager if your banking information has changed.

**Performance Management**

We have built the performance management practices to:

- Ensure you understand your job responsibilities and have specific goals to meet.
- Provide you with actionable and timely feedback on your work.

**Mailing Address:**

2701 East Grauwylers Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Invest in development opportunities that help you grow professionally.
  
  - Recognize and reward your work in financial or non-financial ways (e.g. associate awards.)

**To meet these objectives, we have:**

- Established quarterly performance reviews. During these reviews, your manager will fill out your performance report and arrange a one-on-one meeting with you to discuss it. Through these discussions, managers aim to recognize associates who are good at their jobs, identify areas of improvement and talk about career moves. Pay increases or bonuses are not guaranteed. But we encourage managers to recommend rewards for their team members when they deserve them. There won't be any forced ranking or other comparison between associates, as the goal is to help all associates improve and develop their careers.
  
- All managers have been instructed to meet with their team members once per month to provide feedback and talk about their work and motivations. These usually are informal and unscheduled. This way, you can receive feedback in a timely manner and avoid surprises during your quarterly performance preview. If an associate feels that they need feedback they should ask their manager for additional feedback.

**How we expect managers to lead associates**

If you manage a team, you are responsible for your team members' performance. To conduct effective regular meetings and performance evaluations, we expect you to:

- **Set clear objectives.** Your team members should know what you expect of them. When you first hire someone to your team, ensure they understand their job duties. Set

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

specific goals for each team member (and team-wide if applicable.) Revisit those goals during quarterly performance reviews.

- **Provide useful feedback.** During scheduled meetings with your team members, give them both guidance and praise, as appropriate. Be fair and specific to help them understand and implement your feedback.
- **Keep your team members involved.** There should be two-way communication between you and your team. Make your expectations clear, but always take your team members' motivations and aspirations into account. Discuss training and development opportunities that may interest your team members.
- **Keep detailed online notes with important incidents about each one of your team members.** These notes help you evaluate your team, but may also prove useful when rewarding, promoting, or terminating your team members.

## Associate Training and Development

We owe the success to the associate's. To show the gratitude, we want to invest in the associate's professional development. We want associates to feel confident about improving their efficiency and productivity. We also want to help the associates achieve personal growth and success.

We will match up to \$500 annually for each associate to spend on educational activities or material. Talk with your manager about this as the educational activity or material must be beneficial to your position and/or development plan. E.g., if you are a quarry associate it would not be beneficial for your position to be requesting history or art classes.

### Apart from online courses, we offer these training opportunities:

- Formal training sessions

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Associate coaching and mentoring.
- Seats at industry conferences.
- On-the-job training
- Job shadowing
- Job rotation

Development is a collective process. Team members and managers should regularly discuss learning needs and opportunities. And it is your managers responsibility to facilitate any development activities and processes.

Required Training for certain roles:

[MSHA CFR 30 Part 48\(b\) Training and Retraining of Miners](#)

## Benefits And Perks

In this section, we describe what we offer to the associates. We provide information on the health insurance plans and benefits like work from home options and company issued equipment.

## Retirement

The company wants to help you invest in your future as you grow with the company. You can join the American Tripoli 401(k) plan once you work 90 days during a 12 month period with the company. Additionally, the company offers employer matching on your 401(k) contributions up to 5%. The company will make a matching contribution in an amount equal to a percentage of your salary deferrals, the specified matching percentage for the corresponding level of your salary deferrals as shown in the following table. However, any salary deferrals that are "catch-up contributions" will not be matched. Please speak with your manager about enrolling in the 401(k) plan or scheduling time with our plan administrator to discuss how much to contribute or how to invest.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

Salary Deferral Tier	Match
First 4	
Next 2	

**Associate Health**

American Tripoli offers medical and dental insurance. Eligible employees may participate in either plan or both plans subject to all terms and conditions of the agreement between American Tripoli and the insurance carrier. A change in employment classification that would result in loss of eligibility to participate in the plan(s) may qualify an employee for benefits continuation under the Consolidated Omnibus Budget Reconciliation Act (COBRA).

**Dental Plan – Mutual of Omaha****Medical Plan – Anthem**

American Tripoli currently offers the following insurance premium coverage. This is for the total premiums, not for each insurance premium. For additional questions about the insurance package, talk with your manager.

Contribution	Single Coverage
Employer Premium Contribution	83%
Employee Premium	17%

You must submit your insurance enrollment form(s) for before your 90th day of employment with American Tripoli to join the insurance plans. Once you have reached your 90th day, your insurance should become effective on that date, unless notified otherwise. Failure to submit the appropriate

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

Seneca, MO 64865  
Office (239) 829-5457

forms before your 90th day will require you to wait until the open enrollment period to enroll on the insurance plans.

If you need health insurance before your 90th day or need it before the open enrollment period, please contact Natalie Miller, [Natalie.Miller@HealthMarkets.com](mailto:Natalie.Miller@HealthMarkets.com), (816) 868-6350. She will be able to discuss individual plan options available to you.

American Tripoli will annually review employee/employer contributions against the Kaiser Family Foundation Employer Health Benefits Report<sup>1</sup> for the physical year to provide employees the best benefits.

## **Workers' Compensation**

We strive to keep the workplace safe, but accidents may happen occasionally. Associates who are injured at work can receive wage replacement, medical care, and rehabilitation benefits according to workers' compensation laws, when appropriate. Please inform your manager of your injury as soon as possible. Ask your manager for forms that you need to file a claim or contact your state agency for workers' compensation.

The company has a workers' compensation policy according to guidelines of the state of Missouri.

## **Work From Home**

If your position doesn't require you to be present at the premises, you can occasionally work from home (WFH). We normally allow one day per week, with manager approval. If you need to telecommute for more days per week, talk to your manager.

Please inform your manager that you want to work from home at least one week in advance. You can also set a recurring WFH day per week. If there's a rare emergency, you may work from home without having received prior approval but call or email your manager as soon as possible.

When you are working from home, please use an internet connection and devices that are fast and secure. Choose a place without loud noises or distractions. And check in with your manager frequently to make collaboration easier.

If there is inclement weather (e.g., a blizzard) please check your Teams account to see if the office is officially closed. If you judge that your commute during inclement weather is dangerous, let your manager know. We will not force you to come to work if your safety is at stake or if there is an official travel warning.

## **Remote working**

Remote working refers to working from a non-office location on a temporary or permanent basis.

If you're an office-based associate, you may work remotely for a maximum of two consecutive weeks per year. You may arrange this if you are a new parent or suffer from a short-term disability. If you have another reason, talk to your manager. Submit your remote working requests through your

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

manager at least one week in advance.

If you're an office-based associate, you may work remotely for a maximum of two consecutive weeks per year. You may arrange this if you are a new parent or suffer from a short-term disability. If you have another reason, talk to your manager. Submit your remote working requests through your manager at least one week in advance.

If you work remotely permanently, we ask that you adhere to the security, confidentiality, and equal opportunity policies just like your office-based colleagues.

## **Associate Expenses**

There are some expenses that we will pay directly on your behalf (e.g., hotel rooms for work-related travel.) But we ask you to keep track and report on those reimbursable expenses that you pay yourself. We reimburse associate expenses that are related to:

- Business travel
- Relocation
- Education and training
- Upon approval, outings with business partners or colleagues
- We use the General Services Administration (GSA) per diem rates, excluding incidentals.

To review rates: <https://www.gsa.gov/travel/plan-book/per-diem-rates>

Not all travel expenses are reimbursable. For example, we will pay for your transportation to an airport for work-related travel, but not to a museum for a personal visit. Before traveling for business, ask your manager to clarify which expenses are reimbursable within your trip.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

Please keep an online copy of receipts for all reimbursable expenses. You can submit them to your manager within 5 business days after the date of each expense. If your manager approves your expenses, you will receive your reimbursement within two pay periods by check.

Remote working refers to working from a non-office location on a temporary or permanent basis.

If you're an office-based associate, you may work remotely for a maximum of two consecutive weeks per year. You may arrange this if you are a new parent or suffer from a short-term disability. If you have another reason, talk to your manager. Submit your remote working requests through your manager at least one week in advance.

If you work remotely permanently, we ask that you adhere to the security, confidentiality, and equal opportunity policies just like your office-based colleagues.

**Company Car**

**You may drive a company car if you:**

- Need it as an indispensable part of your job (e.g., truck drivers and delivery drivers).
- Receive it as a benefit attached to your position.

Either way, your car belongs to the company. You may use your company vehicle for personal reasons as the policy permits. You will get reimbursed only for approved, business-related expenses.

To get a company car, you should have a valid driver's license and a clean driving record for at least two years. Drive safe and sober and respect traffic laws and fellow motorists. You should also check your car regularly to ensure gas, tire pressure and all car fluids are at appropriate levels.

**We expect you to avoid:**

- Smoking in a company vehicle.
- Leasing, selling or lending a company car.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Using a company car to teach someone how to drive.
  - Leaving your company car unlocked, unattended or parked in dangerous areas.
  - Allowing unauthorized people to drive a company car unless an emergency mandates it.

On the part, we will ensure that the cars are safe and in good condition, as well as appropriately insured.

**Accidents**

If you are involved in an accident with a company car, contact your manager immediately, so we can get in touch with the insurance provider. You shouldn't accept responsibility or guarantee payment to another person.

Follow this policy's guidelines to avoid disciplinary action. For minor offenses, like allowing unauthorized people to drive a company car, we will reprimand you or reclaim your car. But for more serious offenses, like causing an accident while intoxicated, we may terminate you.

**Parking**

We will prioritize parking spaces on a first-come, first-served basis. If you want to receive a reserved parking spot, file your request with your manager to start the approval process.

We expect you to keep the parking lot clean and not park in assigned spaces. Please behave responsibly to avoid causing damage, injury, or loss of property.

We will not assume any liability for theft, vandalism, fire, or damage regarding an associate's vehicle in the parking lot.

**Company-Issued Equipment**

As an associate, you may receive a company cell phone, a laptop, or other device. Unless otherwise mentioned in your contract, any equipment we offer belongs to the company and you may not sell it or give it away. You are also responsible for keeping the equipment safe and in as good condition as possible. If your equipment breaks or malfunctions, let your manager know so they can arrange to get it repaired.

If you are part of the corporate cell phone plan, please use your phone within the plan's restraints. You may have to pay any extra charges yourself.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

**Theft and damage of company equipment**

The equipment is insured for theft and damage. We ask you to inform us within 24 hours if your equipment is stolen or damaged. We might be able to trace stolen laptops and cell phones. Please also file a theft statement (affidavit) with the police and submit a copy to us.

**Security of company issued devices**

We advise you to keep your company-issued computer, tablet, and cell phone secure. **You can do this if you:**

- Keep all devices password protected.
- Ensure you do not leave your devices unattended.
- Install security updates for browsers and other systems as soon as updates are available.
- Log into company accounts and systems through secure and private networks only.
- Follow all instructions for disk encryption, anti-malware protection and password management that you received along with your equipment.

**Position-Related Clothing Allowance**

If an associate is a quarry or mill associate, they are required to wear steel toe boots while working. We want to ensure they have the appropriate high quality protective footwear for their position. Per OSHA rule 1917.96 - Payment for protective equipment, An employer is not required to pay for non-specialty safety-toe protective footwear (including steel-toe shoes or steel-toe boots) and non-specialty prescription safety eyewear, provided that the employer permits such items to be worn off the job-site.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

With this regulation noted, the company will reimburse the associate for one pair of boots up to \$200.00 annually. The only brand of reimbursed steel-toe boots is Red Wings, no exceptions unless prescribed by a doctor and get this prescription gets preapproved by their manager.

Once the associate signs the steel-toe boot reimbursement agreement they will be required to not wear these boots home or leave the worksite with them. If the associate decides to wear the boots home, they are forfeiting the reimbursement agreement and will not be allowed to participate in the reimbursement program at any future date. This is an annual agreement. The agreement states the associate is responsible for the care and security of his/her work boots. Lockable storage lockers are provided in the Mill and the Maintenance shop; the associate will need to provide the lock.

After your 90-day probationary period, you will receive a digital voucher to present at the Red Wing store. If the associate resigns or is terminated prior to the annual agreement completion date the reimbursement will be prorated over the 12 month period and the remaining balance will be withheld from the associates last paycheck. If you need to purchase boots before your 90th day and wish to be reimbursed, submit your Red Wing boot purchase receipt to the Safety Manager. After your 90th day, the Safety Manager will submit your receipt to the finance department for reimbursement on your following paycheck for up to the reimbursable limit.

## Time

### Working Hours

The company operates between 8:00 a.m to 4:30 p.m on Monday through Friday. We try our best to not work evenings or weekends.

Some departments may work after hours(e.g., customer support, shipping, marketing). If you work in these departments, you will follow a shift schedule as needed.

#### Time Clock for Hourly Employees

Hourly employee are required to clock in and clock out for their shifts and lunch break. Here are the instructions listed in the picture below.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

## Clock in

1. In Shifts, tap  **Time clock**, and then select the shift you want to clock in for.
2. Press and hold down  under  **Shift**, and you'll be clocked in.

**Note:** GPS locations are approximate. Occasionally you may be inaccurately marked as off location. Notify your manager if this happens.

## Take a break

- Press and hold down  under  **Break**, and you'll be clocked out to start your break.

From there, you can end your break by pressing and holding down  under  **Break**.

## Clock out

- Press and hold down  under  **Shift** when you're ready to clock out.

## Time sheet

You can view previous time clock activity or correct your information using the time sheet.

- In Shifts, select **Time clock**, tap  at the upper right corner to open your time sheet.

From here, you can view your time sheet, add missing clock-in and clock-out information using the + button at the top right corner, and edit or confirm existing time clock activity from up to a month earlier.

**Note:** Any changes you make using Time Sheet will be recorded on your manager's exported time clock report.

## Paid Time Off (PTO)

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

PTO means just that, paid/personal time off. PTO accrual begins on your 90th day of employment, after the probationary period. Your PTO will increase on your work anniversary based on the corresponding years described below.

Years of Service	0-3 *	4-10	11-20
Hours Accumulated Per Pay Period	3.08	4.62	6.15
Maximum Hours Allowed	80	120	160
Maximum Days Allowed	10	15	20

\*PTO accrual begins on 90th day of employment, after probationary period.

We highly encourage every associate to use earned PTO as they see fit throughout the year. PTO is accrued per pay period. Associates and their manager are responsible to ensure they successfully utilize the associates' PTO throughout the year and not all at once or all at the end of the year. Associates cannot transfer any remaining PTO to the next year. There is no cash out of unused PTO. It is a use-or-lose policy.

If an associate leaves the company, any unused accrued PTO will be pro-rated and the company may compensate accrued PTO to associates who were not terminated for cause. Missouri state law does not require payment of earned PTO time at the time of termination. It is at the company's discretion to provide vacation pay, holiday pay, or severance pay benefits.

We advise every associate to properly utilize their earned PTO. Everyone will abide by the Handbook PTO allotment.

To request time off, please submit a request to your manager via the Shifts app in your Microsoft Teams mobile or desktop app. [Click here for the instructions](#)

**Working Remotely vs PTO**

Some positions have the capability to work remotely. Remote work is approved at the senior managers' discretion.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

A couple of questions the senior manager will need to be answered first would be:

When and how many business days are you planning on being away from the office?

What is the Operations/Mill/Quarry department schedule for that timeframe?

Are all issues and processes foreseeably covered?

Are you going to be "remote working" or taking PTO?

## Holidays

**The company observes the following holidays:**

- New Year's Day
- Memorial Day
- Independence Day
- Labor Day
- Veterans Day
- Thanksgiving Day
- Day before or Day after Thanksgiving depending on where the long weekend falls
- Christmas Eve
- Christmas Day

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

If you want to observe a religious holiday that isn't included in the list, we may allow you to take unpaid time off for that day. Or you may use your PTO. Coordinate the approval through your manager.

**Holiday pay**

- Exempt associates are entitled to their normal compensation without any deductions.
- Permanent, non-exempt associates may receive their regular hour rate for their normal workday hours as a benefit after they have worked with us for more than 90 days.

**Working on a holiday**

These holidays are considered "off-days" for most associates. [Managers] If you need a team member to work on a holiday, inform them at least three days in advance.

Holiday pay rate is 1.5 times regular hour rate for hourly associates. We will not count hours you worked on a holiday to decide whether you are entitled to overtime pay.

**Bereavement Leave**

Losing a loved one is traumatizing. If this happens to you while you work with us, we want to support you and give you time to cope and mourn.

**For this reason, we offer three days of paid bereavement leave. You may take your bereavement leave on consecutive days to:**

- Arrange a funeral or memorial service.
- Attend a funeral or memorial service.
- Resolve matters of inheritance.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Fulfill other family obligations.
  
  
  
  
  - Mourn

If you must travel long-distance for a funeral or service, you can take two additional unpaid days off. If you require more time, please use your PTO.

**Jury Duty and Voting**

As an exempt associate, if you are called for Jury Duty, you can take one day off without deduction from your salary. Anything beyond one day should be through PTO or unpaid leave.

As an hourly associate, at the discretion of your manager, if you are called for Jury Duty, if Jury duty is less than 4 hours and you were able to put in 4 hours of work that day, you will be paid for the full 8-hour day. If you are not able to put in 4 hours of work that day, due to Jury duty and all full days missed should be considered unpaid leave or at managers discretion, use of PTO.

To keep good records, all associates need to provide the company a copy of your summons for jury duty and a document that proves you served.

One election day, Managers will try to schedule the workload for the day to end one hour early so everyone has the opportunity to vote. If you need to travel a distance greater than one hour to vote, request to use your PTO.

Missouri Juror Info: [https:// www.courts.mo.gov/ page.jsp?id=103118](https://www.courts.mo.gov/page.jsp?id=103118)

**Parental Leave****Paternity and maternity leave**

The company does not offer paid maternity and paternity leave. We ask you to be proactive in your use of PTO. If timing of end of year PTO carry over becomes an issue, please discuss with your manager.

If you are about to be a new mother or father (either through childbirth or adoption), talk with your manager to arrange your leave. Please give at least three months' notice before your leave begins.

If you suffer complications during childbirth or have other issues, you can ask for an unpaid leave extension of up to two months. Contact your manager as soon as possible to arrange this.

**Leaving The Company**

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

In this section, we describe the procedures regarding resignation and termination of the associates. We also refer to the progressive discipline process that may sometimes result in termination.

We remind you that in the U.S. employment is “at-will.” This means that you or the company may terminate the employment relationship at any time and for any non-discriminatory reason.

## Progressive Discipline

The progressive discipline process has three steps of increasing severity. **These steps are:**

Here we outline steps we will take to address associate misconduct. We want to give associates a chance to correct their behavior when possible and assist them in doing so. We also want to ensure that we thoroughly investigate and handle serious offenses.

- i. Verbal warning
- ii. Formal meeting with supervisor and written reprimand
- iii. Termination

If you manage associates, inform them when you launch a progressive discipline process. Be direct that you are giving them a verbal warning reprimand. Pointing out a performance issue is not necessarily a verbal warning and may be part of your regular feedback. If you judge that progressive discipline is appropriate, let your team member know and ask your manager to help you explain the full procedure.

Managers may skip or repeat steps at their discretion. The company may treat circumstances differently from that described in this policy. But we are always obliged to act fairly and lawfully and document every stage of the progressive discipline process.

Keep in mind that the company isn’t obliged to follow the steps of the progressive discipline process. As you are employed “at-will” in the U.S, we may terminate you directly without launching a progressive discipline process. For serious offenses (e.g., sexual harassment), we may terminate you without warning.

## Resignation

You resign when you voluntarily inform your manager that you will stop working for the company. We also consider you resigned if you don’t come to work for two consecutive days without notice.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

You are not obliged to give us advance notice before resigning. But, for efficiency's sake, and to make sure the workplace runs smoothly, we ask that you give at least two weeks' notice, if possible. If you hold a highly specialized or managerial position, we ask that you give us at least a month's notice, when possible.

We accept verbal resignations, but we prefer that you submit a written and signed notice of resignation for the HR records. We will reply with an acceptance of resignation letter within two days. Whether you want to announce your resignation to your team is up to you, but we encourage you to be open. Doing so helps squelch the rumor mill.

**Tuition or relocation reimbursement**

If you have relocated or studied at the company's expense, you are bound by your contract to remain with us for at least two years or year for year of expense. If you resign before that period, you may have to reimburse us for all these expenses.

**Forced resignation**

You can resign anytime at your own free will and nobody should force you into resignation. Forcing someone into resigning (directly or indirectly) is constructive dismissal and we won't tolerate it. Specifically, we prohibit associates from:

- Creating a hostile or unpleasant environment.
- Demanding or coaxing an associate to resign.
- Victimizing, harassing, or retaliating against an associate.
- Forcing an associate to resign by taking unofficial adverse actions (e.g. demotions, increased workload).

**Termination**

Terminating an associate is always unpleasant but sometimes necessary. If that happens, we want to ensure we act lawfully and respectfully.

**We may terminate an associate either for cause or without cause**

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- For cause termination is justified when an associate breach their contract, engages in illegal activities (e.g., embezzlement), disrupts the workplace (e.g. harasses colleagues), performs below acceptable standards or causes damage or financial loss to the company.
- Without cause termination refers to redundancies or layoffs that may be necessary if we cease some of the operations or re-assign job duties within teams. We will follow applicable laws regarding notice and payouts.

We will offer severance pay to eligible associates. We may also help associates who were terminated without cause to find work elsewhere, if possible.

We may also compensate accrued vacation and sick leave upon termination, depending on local law. Whenever local law doesn't have relevant stipulations, we will pay accrued leave only to those who weren't terminated for cause.

If you manage team members, avoid wrongful dismissal. When you terminate an associate for cause, we expect you to be certain you made the right choice and keep accurate performance and/or disciplinary records to support your decision.

## References

When we terminate associates, we may provide references for those who leave in good standing. This means that associates shouldn't have been terminated for cause. If you are laid off, you may receive references. Please ask your manager.

If you resign, you may ask for references and your manager have a right to oblige or refuse.

## Policy Revision

We will always strive for fairness and equal opportunity and penalize offensive and illegal behaviors. But, as laws and the environment change, we may revise and modify some of the policies.

We have established an annual revision of the handbook to bring it up to date with legislation and employment trends. We also ask you to notify your manager if you recognize any inconsistencies or mistakes. And, if you have any ideas about how to improve the workplace, we are happy to hear them. Please relay these ideas through your manager.

Event No. 7027977\_026

Closeout Conference	Date 4/12/2023	Event No. 7027977
Attendees Paul Dunk - MSHA, Keith Markeson - MSHA, Jessie Molesi - EHS Specialist, Rob Baumann - Miners Representative		

## Operator/Miners Representative/Inspector Comments

Delivered Orders 9539789 and 9539790 and extension 9539788-01 to the mine operator and miner's representative. Reviewed all orders and extension with the operator. Explained that "Closed" tags can only be removed by an Authorized Representative and that when the mine operator has evaluated all affected miners to be able to wear a respirator, obtained approved respirators for all miners, and fit tested all affected miners the 104(B) order would be modified to allow the operator to run and to affect repairs to the dust controls in the Mill Building. Explained that the extension was for the operator to get their calibrator calibrated and to make arrangements for sampling supplies and lab analysis. Once this was completed an additional extension would be issued to allow the operator time to conduct their own sampling. Reviewed Section 111 of the Mine ACT and the entitlement of miners to pay for the remainder of this shift and up to four hours of the next shift should the closure from the 104(B) order extend that long. Also reviewed the process for paying miners for an additional week should the order extend further.

Notified of possible special assessment?	Yes <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>
Notified of possible knowing/willful violation?	Yes <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
Notified operator they can request safety & health conference?	Yes <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>
Best practices reviewed?	Yes <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>

14:00 Arrived at Mine Site

Met With: Rob Bowman - Production Supervisor  
John Spears - Operations Manager

Delivered terminations, citations, and orders to John Spears. Sat in the conference room with him while he reviewed all of them.

Fire Ext inspection found three that were not in fire ready condition.

Notified John of Special Assessments Review and PIW.

14:30 Left Mine Site

Re: Letter of Reprimand

This letter is a formal reprimand for the performance you have exhibited on the job. Your work, despite encouragement and guidance given, is not improving. In the employee hand book it outlines the 3-step progressive discipline process.

We have expressed on numerous occasions that we are a collaborative and team work based company. As part of this collaborative and team work based environment it is the management teams responsibility to provide tasking/responsibility direction and assistance and then to hold employees accountable for the tasks/responsibilities given. We strive to create a healthy, positive environment and do everything we can to help you succeed.

When your manager, or one of the company owners, specifically task you with something you need to ensure the task(s) are completed efficiently and effectively in a timely manner. We will address a few instances where this type of incident has come up.

- The natural gas contract. You were tasked to reach out to vendors and when asked the status you stated you hadn't heard anything and would follow up. This occurred numerous times. We eventually had to resolve this tasking at the management level.

- Having Teams on your phone for collaboration. This has been an ongoing issue since October. The last response from you when inquired is that you just didn't want to as it caused you to check it all the time. Having Teams on your phone and being collaborative is part of the job responsibilities and team work.

- Preparing the smaller retail bags for inventory. This was asked of you for more than a month. We had to do this at the management level to get it done.

- Taking the provided company laptop home with you each evening. We have been discussing the purpose of taking the company laptop home each evening since June 2021. Now that the company has provided a laptop, when asked why you are not taking the laptop home each night, the response from you was that you just didn't want to.

All of these incidents are taken as either not understanding the company hierarchy, tasks and responsibilities, what being a team player is, or blatant disrespect.

You have approximately thirty days, although if we don't see early progress, you will not get the full thirty days, to demonstrate that you can perform this job, effectively complete the tasks given, and participate as a company team player. If you don't demonstrate immediate progress, we will terminate your employment.

We will place a copy of this formal, written reprimand in your personnel file in Human Resources.

Date prepared: 06/06/2022  
Letter of Termination

This letter is formal documentation of the poor performance you have exhibited on the job leading to termination. Your work, despite the encouragement and guidance given, is not improving.

We have expressed on numerous occasions that we are a collaborative and teamwork-based company. As part of this collaborative and teamwork-based environment, it is the management team's responsibility to provide tasking/responsibility direction and assistance and then to hold associates accountable for the tasks/responsibilities given. We strive to create a healthy, positive environment and do everything we can to help you succeed.

Specific areas of complaint include:

- Not finishing tasks in a timely manner
- Talking back when directions are given
- Spending extended periods of time in your supervisor's office despite signage stating not to and being told not to multiple times
- Looking through your supervisor's computer when he was not present, and permission was not given
- Using a pair of needle-nose pliers to stab other employees' legs while they were in the restroom
- Harassing other employees to look through their phones to see if they said negative comments about you
- Asking your supervisor to look through his phone to see if he said negative comments about you

Your termination is effective immediately due to your behavior. Your behavior continues to happen despite several warnings, including a written warning given via message from Russell Tidaback on 05/31/2022.

Dear Camrin Bindel,

This is regarding your resignation notice on 6/7/2022 wherein you requested to be relived of your services immediately. We want to inform you that your resignation is accepted, and you're relieved from your position as Mill Associate with American Tripoli with the effective date 6/7/2022.

We sincerely appreciate your contributions to American Tripoli for the following time period 3/28/2022 – 6/7/2022. To receive a professional recommendation will require a more personal relationship with someone within the company.

Respectfully,

Christine Schreiber  
Operations Manager

RE: Letter of Reprimand

This letter is to inform you that your performance is not meeting the expected requirements for your position as a maintenance technician. We're concerned and want to see you succeed.

You are officially failing to perform for the following reason(s):

- Understand the priority of maintenance needs for production
- Complying with responding to maintenance calls
- Demonstrating lack of sense of urgency
- Demonstrating lack of maintenance experience as represented on resume

Based on position description, role discussions, verbal, and written communications, you are failing to meet the performance measurements for your role. These performance requirements affect not only the success of American Tripoli's operations but also the success of our customer which rely on our products to be produced and delivered so they can support their employees and customers.

As a result, If we do not see improvements immediately, additional disciplinary action will occur up to and including termination of employment. This letter will be added to your personnel file.

What can we do to support you in your role? Comment below.

Re: Letter of Reprimand for performance **ATTENTION** **4/21/2023 5/8/2023**  
**4/27/2023 5/9/2023**

This letter is an official written reprimand for your failure to perform the functions of your mill associate position appropriately. Your consistency and dependability are a problem when we are trying to fill customer orders. We can't count on you to do your part.

You have received verbal counseling before this letter. There is a daily performance production goal and tasks that must be completed by you. By not following the instructions and guidance given by your supervisor or a teammate placed in position to make things happen you are jeopardizing operations and the safety of all. This cannot be tolerated.

You have approximately two weeks, although if we don't see early progress, you will not get the full two weeks, to demonstrate that you are fully trying to improve on your performance of this job. If you don't demonstrate immediate progress, we will be forced to terminate your employment. We do not want this.

Please take this advice seriously as our preference is always to have you succeed and be happy while at work.

We will place a copy of this formal, written reprimand in your personnel file.

Re: Failure to communicate and follow planned instructions

Dear Jim Hoover,

This is a warning letter that your failure to adhere to Standard Communication practices and planned instructions will no longer be tolerated. The management team has been closely monitoring your performance over the past few months and it has been concluded that you have failed to meet the standards expected of you.

In our last meeting you and I discussed your failure to communicate your intentions as they pertain to production in the mill. These include leaving your work station, leaving company property, not following planned maintenance, et al. You were also informed that due to frequent absenteeism, you are unable to manage the workload and as a result, you are unable to meet the standards. Considering your situation, you were numerous opportunities to correct these actions which has caused serious loss to the company and still the production was behind schedule.

You must understand that this kind of poor performance adversely affects the company and individual employee performance affects the company financially.

Reminder, our standard of conduct and disciplinary process is a 3-step process. 1<sup>st</sup> offense is a verbal warning. The 2<sup>nd</sup> offense is a written warning letter and the 3<sup>rd</sup> offense is termination.

We are hopeful that you will be more sincere and dedicated in your job and will meet all your standards within the given time frame or else we will have to the next step disciplinary actions. You will have 10 business days to correct the unsatisfactory performance noted in this letter. If you fail to improve despite everything then this can even lead to your termination. In case, you have any doubts on being able to complete your taskings within the standards then please let me know.

John Spears  
Operations Manager  
American Tripoli

I Agree / Disagree (Circle one) with the issue as state above and agreeing to remediate the behavior as stated above. If I disagree with the statement above, I will provide a written statement to the Operations Manager before the close of the next business day. This written statement can be on the back side of this letter.

Jim Hoover / Date signed

Note: One copy of this letter given to employee and one copy place in employee personal HR file.

Re: Failure to communicate and follow planned instructions

Dear Raneldon Williams,

This is a warning letter that your failure to adhere to Standard Communication practices and planned instructions will no longer be tolerated. The management team has been closely monitoring your performance over the past few months and it has been concluded that you have failed to meet the standards expected of you.

Last week, you had stated that were not going to perform the tasks as asked due to you not getting paid a maintenance wage. The taskings of your position include assisting maintenance. You are not trained or experience to perform maintenance tasks alone or without instruction and supervision from a maintenance team member. Failure to comply with directions from your supervisor is a dereliction of duty and will not be tolerated. Also you and I discussed your failure to communicate your intentions as they pertain to production in the mill. These include leaving your work station, leaving company property, et al. You were also informed that due to frequent tardiness and or absenteeism, you are unable to manage the workload and as a result, you are unable to meet the standards. Considering your situation, you were numerous opportunities to correct these actions.

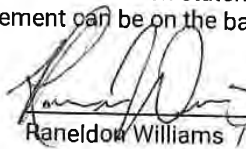

You must understand that this kind of poor performance adversely affects the company and individual employee performance affects the company financially.

Reminder, our standard of conduct and disciplinary process is a 3-step process. 1<sup>st</sup> offense is a verbal warning. The 2<sup>nd</sup> offense is a written warning letter and the 3<sup>rd</sup> offense is termination.

Considering your situation, you were numerous opportunities to correct these actions.

You must understand that this kind of poor performance adversely affects the company and individual employee performance affects the company financially.

Reminder, our standard of conduct and disciplinary process is a 3-step process. 1<sup>st</sup> offense is a verbal warning. The 2<sup>nd</sup> offense is a written warning letter and the 3<sup>rd</sup> offense is termination.

We are hopeful that you will be more sincere and dedicated in your job and will meet all your standards within the given time frame or else we will have to the next step disciplinary actions. You will have 10 business days to correct the unsatisfactory performance noted in this letter. If you fail to improve despite everything then this can even lead to your termination. In case, you have any doubts on being able to complete your taskings within the standards then please let me know.

  
John Spears  
Operations Manager  
American Tripoli

I Agree / Disagree (Circle one) with the issue as state above and agreeing to remediate the behavior as stated above. If I disagree with the statement above, I will provide a written statement to the Operations Manager before the close of the next business day. This written statement can be on the back side of this letter.

  
Patrick Lewis / Date signed

Note: One copy of this letter given to employee and one copy place in employee personal HR file.

"Production Lead, Seneca, MO" - Posted on April 17, 2023 Job Details \_ Indeed.com.pdf

Additionally, the mine operator utilized various online platforms, including Facebook community and job posting groups, to reach a broader audience for job postings and employment opportunities. These platforms were chosen to maximize the visibility of the job openings and attract potential candidates.

While the mine operator did post these job openings to replace Robert Baumann, it's important to note that records of job offers made to the numerous prospective employees who were not accepted with the intent to replace Robert Baumann were not retained by the mine operator. However, the mine operator can provide the names of the individuals who received job offers and subsequently accepted employment with the company:

Aaron Duke

Alex Snodgrass

David Dagle

Richard McClelland

Will Shallenburger

These individuals were extended job offers and accepted positions with the mine operator. Any additional details or documents related to these job offers or the hiring process can be provided upon further request.

**INTERROGATORY NO. 2:** To the extent you are making a financial hardship claim in this case, describe how the proposed penalties in this docket would affect Respondent's ability to remain in business, including a description of the current business climate as it relates to your business and how that has changed in the past two years. Such description should include any sales increases or decreases, opening/closing of different mines, and any unexpected expenses or loans.

**ANSWER:** In response to the interrogatory and regarding the financial impact of the proposed penalties, it is imperative to highlight the severe adverse effects that these penalties would have on American Tripoli's ability to remain in business. The current business climate has presented numerous challenges, and the imposition of substantial penalties would exacerbate the company's precarious financial situation.

Over the past two years, American Tripoli has faced several significant challenges that have strained its financial stability. These challenges include:

Employee High Turnover and Quiet Quitting: American Tripoli has experienced a high turnover rate among employees, with over 30 employees leaving the company since June 2021. This level of turnover is exceptionally high for a small company that typically employs 12-15 workers. The phenomenon of "quiet quitting," where employees disengage and become less productive, has also been a significant concern.

Impact of COVID-19: The aftermath of the COVID-19 pandemic has had a lasting impact on the business. The pandemic disrupted the labor market and created uncertainty in the workforce, making it challenging to attract and retain skilled workers.

Supply Chain Disruptions: The global supply chain disruptions in 2022 further compounded the challenges faced by American Tripoli. The costs of building a new mill, which might have allowed for expansion and increased revenue, were estimated to be prohibitively high, hindering any expansion plans.

Operational Shutdowns: The company has experienced prolonged operational shutdowns due to ongoing MSHA inspections and enforcement actions. These interruptions have cumulatively resulted in approximately 12 weeks of downtime, during which the company missed out on an estimated \$3,000,000 in revenue-generating operations. The company has asked the district numerous times for assisted visits to help us but to no avail.

Accumulated Debt: American Tripoli is currently burdened with a debt of approximately \$900,000, not including the \$2,000,000 balance on notes acquired to purchase the business.

Given the aforementioned challenges and the delicate financial state of the company, the proposed penalties in this docket would have a devastating impact on American Tripoli's ability to remain in business. These penalties would further exacerbate the company's debt burden, potentially pushing it towards bankruptcy.

The imposition of substantial fines by MSHA would strain the already limited financial resources, making it increasingly difficult for American Tripoli to meet its financial obligations, retain employees, and continue its operations. The company urges a thorough consideration of these

extenuating circumstances and the potential dire consequences of imposing such penalties.

### DECLARATION

I, RUSSELL TIDABACK state that I am authorized to answer the foregoing interrogatories on behalf of MoSenecaManufacturer Limited Liability Company d/b/a American Tripoli. I have read the foregoing interrogatories and answers thereto and know the content thereof. Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing answers to the interrogatories are true and correct.

## **REQUESTS FOR PRODUCTION OF DOCUMENTS**

1. Produce all documents identified or referred to in your answers to the interrogatories above.

RESPONSE: The inquiry and request for information regarding Interrogatory No. 1. To assist you in obtaining the necessary details related to this matter, we kindly direct your attention to the uploaded documents contained in our case file. These documents are organized into folders labeled "Interrogatory 1" and "Interrogatory 2."

For your convenience and to facilitate your review, we have included the relevant documents in the respective folders as follows:

### Interrogatory 1 Folder:

June 13, 2022 - Robert Baumann Application - Candidates \_ Indeed.com.pdf

August 1, 2022 - Production Controller, Seneca, MO - Job Details \_ Indeed.com.pdf

August 1, 2022 - Production Control Manager, Seneca, MO - Job Details \_  
Indeed.com.pdf

August 1, 2022 - Production Supervisor, Seneca, MO - Job Details \_ Indeed.com.pdf

April 17, 2023 - Production Lead, Seneca, MO - Job Details \_ Indeed.com.pdf

Aaron Duke\_American Tripoli\_Offer Letter\_25APR23 - signed.pdf

Alex Snodgrass Resume.pdf

David Daigle Employment Offer Letter.pdf

Richard McClelland\_American Tripoli Position Offer Letter.pdf

Will Shallenburger - American Tripoli Position Offer Letter.pdf

### Interrogatory 2 Folder:

MOSENECAMANUFACTURER LLC - 2021 Balance Sheet.pdf

MOSENECAMANUFACTURER LLC - 2021 Income Statement.pdf

MOSENECAMANUFACTURER LLC - 2021 Tax Returns.pdf

MOSENECAMANUFACTURER LLC - 2022 Balance Sheet.pdf

MOSENECAMANUFACTURER LLC - 2022 Income Statement.pdf

MOSENECAMANUFACTURER LLC - 2022 Tax Returns.pdf

MOSENECAMANUFACTURER LLC - 2023 Balance Sheet.pdf

MOSENECAMANUFACTURER LLC - 2023 Income Statement.pdf

These documents contain relevant information pertaining to the job postings, hiring process, and financial records as outlined in Interrogatory No. 1 and Interrogatory No. 2.

We encourage you to refer to these documents to access the specific details requested.

Should you require any further clarification or additional information, please do not hesitate to reach out to us. We are committed to providing a comprehensive and accurate response to your inquiries.

2. Produce documents reflecting the final paycheck provided to Robert Baumann, including any associated pay stub.

RESPONSE: We have reviewed our records and have identified that the requested document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf" was already included in our initial response within the "First Interrogatories Responses" submission. This document was attached for your reference in that submission.

3. Produce records of hours worked by Baumann on a weekly or bi-weekly basis, including any pay stubs showing hours worked for each pay period.

RESPONSE: We have reviewed our records and have identified that the requested document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf" was already included in our initial response within the "First Interrogatories Responses" submission. This document was attached for your reference in that submission.

4. Produce each pay stub related to each payment made by Respondent to Robert Baumann.

RESPONSE: Upon reviewing your request, we have noted that Request Number 4, which seeks "each pay stub related to each payment made by Respondent to Robert Baumann," appears to be a duplicate of Request Number 2, where we have already provided the requested document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf."

To avoid redundancy and to streamline the document retrieval process, we kindly refer you to our response for Request Number 2, where you will find the document you are seeking. This document includes the necessary information related to Robert Baumann's pay stubs during the specified period.

5. Produce Respondent's No Gossip Policy or any similar policy and/or procedure regarding gossiping, including any documents regarding when this policy was implemented.

RESPONSE: The request for the production of documents, specifically regarding Respondent's No Gossip Policy or any similar policy and/or procedure related to gossiping.

We would like to inform you that the No Gossip Policy, which you have requested, was discussed and implemented at our organization with due consideration for guidelines set forth by the National Labor Relations Board (NLRB). Our intention in crafting this policy was to ensure a productive and respectful work environment, in compliance with the law and the protection of our employees' rights.

The No Gossip Policy was introduced during an employee meeting on 9th August 2022. This policy aligns with the NLRB's rulings and adheres to their guidelines, which we take very seriously. We recognize the importance of allowing employees to discuss work-

related matters, including wages, benefits, and terms and conditions of employment, without interference or discouragement.

To maintain clarity and transparency, our policy clearly is not intended to discourage concerted activity or the discussion of working conditions. It provides specific examples of prohibited conduct, such as abusive and profane language towards another individual not present or in a negative light, to ensure that our employees understand the boundaries of respectful communication.

Additionally, the policy avoids overly broad or ambiguous language, as we understand that ambiguous rules can be construed against the employer. We have taken care to define permissible conduct clearly to encourage a safe and open workplace environment where employees feel comfortable discussing protected activities.

Please see the file labeled “No gossip letter.pdf”.

6. Produce the original documents, including the Word documents, Excel spreadsheets, Microsoft Teams Notes from which such PDF’s originated, with all metadata intact for the following documents you produced in response to the Acting Secretary’s First Requests for Production of Documents: Carson Allman – 4NOV2022 -Termination Letter; Terry Newborn – 4NOV22 Termination Letter; Christine Schreiber Russell Notes; Jim Hoover Russell Notes; Daily Workplace Inspections 1JUNE2022 – 17APR2023; American Tripoli Employee Handbook; Robert Baumann\_American Tripoli Position Offer Letter; and 13OCT2022- Carson Allman – Letter of Reprimand.

RESPONSE: We appreciate your follow-up request regarding the production of original documents, including Word documents, Excel spreadsheets, and Microsoft Teams Notes, along with all metadata intact, for the documents previously provided in response to the Acting Secretary's First Requests for Production of Documents.

As you are aware, we take your requests seriously and have been diligently working to ensure full compliance with your inquiry. It's important to clarify that the documents you have listed, including termination letters, notes, workplace inspections, our Employee Handbook, position offer letters, and letters of reprimand, were provided in PDF format as part of our initial responses.

Regrettably, the documents you requested were initially produced as PDFs, and they were not originally created as Word documents or Excel spreadsheets. Additionally, the information contained in our Microsoft Teams Notes is not stored in a format that allows for direct extraction as Word or Excel documents.

Given the nature of these documents and the format in which they were originally created, we trust that the provided PDFs accurately represent the content and intent of the materials requested. However, if you require any specific information or additional details related to these documents, we are more than willing to assist you in any way possible to address your needs.

7. Produce the training documents you allege were used to provide New Miner Training to Robert Baumann on July 5, 2022.

RESPONSE: In response to your request for the production of training documents related to the New Miner Training provided to Robert Baumann on July 5, 2022.

The New Miner Training for Robert Baumann on July 5, 2022, was documented by Bonnie Bainter, our Safety and Environmental Specialist at the time. Mrs. Bainter followed the established training protocols and utilized a variety of training materials and documents to ensure that Mr. Baumann received comprehensive training in compliance with the required subjects.

It is important to note that during the New Miner Training sessions, trainers like Mrs. Bainter often employ a range of training aids, presentations, and reference materials to cover the necessary topics thoroughly. These training aids and documents may include, but are not limited to, written materials, presentations, handouts, safety guidelines, and other instructional resources. All the training files the company maintains were submitted in the first response files.

Given the dynamic nature of the training process and the need to adapt to participants' questions and specific needs, it is challenging to identify and isolate specific training documents that were utilized during a particular training session. Each instructor may use their own resources that fits best for their class and attendees. Furthermore, our training records encompass a wide array of subjects, which are part of the standard curriculum for New Miner Training, the specific subjects required by MSHA.

While we maintain records of training sessions, including signed forms such as the MSHA 5000-23, we do have a specific set of documents that represents the materials that could have been used during Mr. Baumann's training session on July 5, 2022. The training process is dynamic and customized to address the unique circumstances and questions that may arise during each training session. We would not have a record of the specific questions Mr. Baumann may have asked during the training that may have directed Mrs. Bainter to utilize different training resources.

However, we would like to highlight that Mr. Baumann verified his completion of the documented training by signing the MSHA 5000-23 form, which attests to his acknowledgment of having received the training and his understanding of the subject matter covered during the session on 07/05/2022. This form is a standard practice in our

training procedures, ensuring that employees acknowledge their training and affirm their commitment to safety.

We want to assure you that our commitment to safety and training is unwavering, and we take all necessary steps to ensure that our training programs comply with MSHA regulations and provide our employees with the knowledge and skills required for their roles.

8. Produce documents reflecting the Paid Time Off or vacation leave Baumann had accrued as of April 17, 2023, and any documents reflecting any payments to Baumann for any such accrued Paid Time Off or vacation leave.

RESPONSE: Upon reviewing your request, we have noted that Request Number 8, which seeks "reflecting the Paid Time Off or vacation leave Baumann had accrued as of April 17, 2023", please see document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf."

9. To the extent you are making a financial hardship claim in this case, produce the following financial records for Respondent:

- a. Respondent's state and federal tax returns for the past three years.
- b. Any Tax Form K-1 for American Tripoli from the past three years.
- c. The balance sheets for Respondent, including year-end assets and liabilities of Respondent from the past three years.
- d. Income Statements, showing all revenue and expense items for Respondent from the last three years.
- e. Respondent's most recent auditor's report and footnotes, including details about the methods used to compile the accounting data.
- f. Any bankruptcy petition(s) filed by Respondent.

- g. Chart of the accounts, disbursements ledgers, journal entries, and general ledger, and accounting work papers for Respondent since June 2021.
- h. Documents showing any loans made to owners or managers of the company from Respondent from the past three years.
- i. Transfers of funds from Respondent to related companies or owners from the past three years.
- j. Transfers of funds from Respondent to any entity owned by any owner of Respondent from the past three years.

RESPONSE: In response to Request for Production No. 14 and in accordance with the financial hardship claim made in this case, please note that while American Tripoli is committed to providing the requested financial records, some records may not be immediately available, and the production timeline may vary depending on the complexity and availability of the documents. American Tripoli will make a good-faith effort to produce the requested financial records in a timely manner. If you have any further specific requests or need additional information, please feel free to contact us to facilitate the process.

10. Produce an unredacted, complete copy of Russell Tidaback's Microsoft Teams' communications with Jim Hoover from April 17, 2023 through May 7, 2023.

RESPONSE: Please see the following chat:

April 17

4/17 10:51 AM

Changes made. Hopefully you like them.

Jim Hoover 4/17 12:36 PM

What you mean

4/17 12:53 PM

We are making a change... or have made a change.

Unfortunately, we had to let Rob go today. The data shows he wasn't meeting the daily quotas, or responding to John's suggestions and advice.

So... we are going to change how we operate.

When we get back to producing... probably Wednesday... We will have you run the control room.

YOU HAVE TO UNDERSTAND. the daily quota, per the production schedule is 42k lbs per day.

Some days it's 40k. some days 42k...

We cannot keep pushing production days back, and back, and back...

You won't have to do the computer work...

this will be for the Production Assistant...

The production assistant will be responsible for the administrative computer work. You will need to inform this person on how what was produced, how many bags produced, weights, etc. But this can be communicated via Teams.

or in person

each day

Jim Hoover 4/17 1:10 PM

Wait what are we talking about brother..

Jim Hoover 4/17 1:26 PM

So I'm guessing we are going to come to some sort of negotiation because from a year ago or even from June 15 two years ago I have learned more than you can imagine and worked with John on several projects and I know the mill office and I take maintenance to what needs fixed every time I know the flow of the product and will and can do anything in the mill that you ask and have so I want the mill running like it was a year ago and I know I can get those numbers without a doubt when John and I and RJ was running and I had John sit in the mill and had 20 pallets at lunch, it has been held back so we will need to talk before then, I am very confident and what can be produced at this mill.

Jim, you kill me sometimes with these conversations... I have to assume you are referencing a pay increase.

A promotion in pay should be when you have proven yourself in a certain position.

We gave you a promotion last time to do certain things... and you didnt do so well at all of the expected tasks.

Then we had to hire Rob. We didnt want to take pay away from you so we left you at the \$20 /hr.

Now, we are making changes to accomodate or address your short comings with leadership of people, organization, and lack of computer skills.

You wont be managing people. You wont be responsible for using the computer. You will only be responsible for daily production of product, per the production schedule.

Im not saying that you cannot get a pay increase BUT we need you to be successful in this newly assigned position for you to earn a pay increase.

lets give yourself 12 months in this position, successfully meeting the production calendar quotas, getting product successfully out the door, working with John and the rest of the team, again successfully... THEN we can talk about a pay increase.

Jim Hoover 4/17 5:58 PM

So this 12 months again with the mill production like the last time around it wasn't the problem me running the mill that was the problem brother and you know that and so do I also you didn't fill your side of the deal within 90 days like you said . I let that go because I knew you wouldn't hold up your side of the deal. I always bend over backwards to you and Jordan to help you guys and I. The very first meeting you told us we wouldn't go backwards and that is all that has happen accept the boots you have done that for us better but I just bought a different pair because the ones I got from red wings suck, you said we wouldn't go backwards and my pay has my insurance has nothing has went up my pay should of never went down period you have hired maintenance people after maintenance and then they watch me do there job and they are making more than I am for some reason I shouldn't be making less than what I was 2 years ago now for sure I have learned 10 times what I knew 2 years ago when you bought this company and what have I got for this like you said more I learn the better pay comes with learning I got the little mac air problem.fixed back to where it was after 8 maintenance guys look at it and still didn't fix it I run and go right to the problem everytime boss and do everything that you would expect me to do it as loyal to you guys as they come but damn. I know you don't have money coming in I understand that and you have a scroll not paid for but I go in and give my all to keep hour business going, you taking me out of control room and putting rob in there caused more problems than you realize and I'm sure there will be more to come from that with him. he wasn't going to push to get a high count for you and push the fuck to get caught up there were days he didn't have shit running until I saw something then I would go fix it and then go tell him .

Jim Hoover 4/17 6:06 PM

I have done the mill for a year and I can run it great no questions ask so I think the negotiation that you have just told me isn't correct at all considering the things I do for you and Jordan. im not mad or pissed boss but I do things you don't even know about to keep this place going because one I love my job and two I want this place to be here a whole long ass time after im done and gone you need Saturdays im there you need Sundays I would be there you known will do whatever it takes to get us caught up...

Jim Hoover 4/17 6:12 PM

I'm not arguing with you but we are going to talk about this brother because this isn't a one sided conversation and there why you and I talk and why we are a great team.. I'm not mad or pissed boss but you just assume the worst out of me u guess when we talk.. Rob fucked you over so many times but if I would of told you that you wouldn't of listen to me would you the next one to go needs to be Ronald he calls msha every freaking day and it's bullshit

Worthless

Jim Hoover 4/17 6:19 PM

Anyway I will let you be boss im.sure you are busy, but we need to discuss what you want from me since you just put someone else in there that shouldn't of been there in first place and never lifted a finger to go and find the problem or the solution to fix it.. Anyway I will let you go and we can talk later I have worked with John 7 months and everytime I have ran this mill when rob was gone I got better numbers and know the numbers you want are reachable that is if equipment holds up which I think will just need to get the motor and that would help ten fold

👍 1

Talk to you later brother

👍 1

4/17 6:59 PM

Yep, now out of all that. Prove yourself, and let's get things done.

April 19

Jim Hoover 4/19 8:48 PM

This is some shit boss

👍 1

4/19 8:49 PM

Yes it is!

I am trying my best to get you guys back to work brother.

Jim Hoover 4/19 8:50 PM

If I would of told you this shit was going to happen would you of believed me

4/19 8:50 PM

no, because this should have never happened

what you guys don't see is that we requested an extension...

to resolve these issues when the citation was given to us.

we requested this the day of the citation

Jim Hoover 4/19 8:51 PM

I'm talking as this whole bullshit mega

Msha

Someone that was making it worse

Is what im talking about

4/19 8:52 PM

as we knew it was going to take longer than a week to complete...

what? I don't know what you are referring to.

Jim Hoover 4/19 8:52 PM

Fueling the fire

4/19 8:52 PM

?

Jim Hoover 4/19 8:54 PM

Not getting numbers., licking main down instead of just locking tube mill out. you lock it down we don't run didn't have to lock mains down

Locking mains

4/19 8:54 PM

Are you referring to Rob?

Jim Hoover 4/19 8:54 PM

Yes

4/19 8:55 PM

yea I don't understand that who thing either...

to me, that was dumb on both Rob and the inspector...

there is a whole big case building on on this...

I've already got Senators involved and the heats coming...

they are fucking with your guys livelihood and that is wrong!

this is fucked up

I am fighting every single citation given...

I am doing everything I possibly can to get you guys back to work and us producing...

Jim Hoover 4/19 8:58 PM

Boss I was trying to tell you straight up months ago but you wouldn't of believed me but out of everyone there you should know my loyalty by now

4/19 8:59 PM

I've never questioned your loyalty Jim.

Jim Hoover 4/19 8:59 PM

The dust collector is firing like a mother fucker

👍 1

Like awesome as fuck

I haven't heard it fire that good in long time

Every 24 seconds

4/19 8:59 PM

that's good... now we just need to get past this air sample

as we've discussed before... maintenance has been the problem... since day one!

Jim Hoover 4/19 9:00 PM

Donaldson every four seconds and little mac every five seconds.

We just need the big mac firing I think it needs a memory board

4/19 9:00 PM

MSHA just compounds the problem 10x but not working with us and being fucking dicks

Jim Hoover 4/19 9:01 PM

100% agree

4/19 9:01 PM

This Keith jackass... he gets his jolly off handing out citations....

this fucker is a snake. When he's around, you'd better watch what you say and do...

he is out to fuck you or anyone else he can

Jim Hoover 4/19 9:02 PM

That is bullshit and you tell me how rob test came back the worst and full of shit you know and I know that was done on purpose and he didn't ever get dirty

4/19 9:03 PM

I don't know what was up with Rob. Why was he disgruntled?

Jim Hoover 4/19 9:03 PM

I don't talk to him really msha guy

👍 1

4/19 9:03 PM

I don't get it...

I talked to Rob repeatedly about having the doors and windows open and the exhaust fans on...

I don't understand why he just didn't do as he was told...

John and I had been discussing him and counseling him for months now...

Jim Hoover 4/19 9:06 PM

I will tell you this I have went around behind and have had to turn on green dust collector green air compressor he doesn't turn on in order and that is how shit has got tore up and im being dead serious

That's was a lot of the problem

4/19 9:06 PM

then we had a guy who was suppose to replace him... he was supposed to start Monday and the fucker didn't show up for the training or call or respond to calls... nothing.

I knew Rob was lacking... but didn't know it was that bad.

I don't like letting people go but at some point... you just gotta cut the cord

this is why I think the best thing to do is ha e you in the control room... possibly the 6am-230pm shift like we talked before...

Jim Hoover 4/19 9:08 PM

You can't start the flour elevator first thing man he was doing that I said rob it's going over the screens and screens aren't moving yet he said he was doing it that way I said well your going to fuck it up

4/19 9:09 PM

have a shift lead do all the shipment QC, time keeping, computer work etc...

good point about the flour elevator

that might be why the screens deteriorated so fast...

holding the weight of the cold material...

ripping the edge...

until the system heated up...

Jim Hoover 4/19 9:11 PM

There is a order to do this shit and it's in place for a reason I turn on and turn off same way everyday no questions ask and it doesn't take one hour and thirty minutes to clean out it takes 20 minutes period (FACT) .

That is correct

I would go up there and blow of that shit to get what we got

4/19 9:12 PM

Jim Hoover 4/19/2023, 9:11 PM  
There is a order to do this shit and it's in place for a reason I turn on and turn off same way everyday no questions ask and it doesn't...

Yep, I agree. I believe Rob was just being lazy

We will fix this...

I believe we learn from each new person we go through there...

Jim Hoover 4/19 9:13 PM

I was fighting a battle that shouldn't of been there you know

4/19 9:13 PM

Jim Hoover 4/19/2023, 9:13 PM  
I was fighting a battle that shouldn't of been there you know  
I know now...

we are going to try things different now...

Jim Hoover 4/19 9:13 PM  
That's why I would take off running to top floor and unclog shit  
👍 1  
Number one priority shit has to be hot

4/19 9:14 PM

to get better you have to make mistakes and learn from them.

Jim Hoover 4/19/2023, 9:14 PM  
Number one priority shit has to be hot.  
exactly

Jim Hoover 4/19 9:15 PM  
I told him a thousand times rob it has got to be hot if that yellow pipe is not hot you will have problems he didn't understand hot  
👍 1  
I took Jeremy over to pipe said put hand on this you want to know the secret about Tripoli this is it, he said fuck that is hot as fuck I said that's the secret lol

4/19 9:17 PM

I don't think he or anyone else (MSHA fuckers) are understanding that when it's hot, the material flows like water and doesn't create a lot of dust in the air.

Jim Hoover 4/19/2023, 9:16 PM  
I took Jeremy over to pipe said put hand on this you want to know the secret about Tripoli this is it, he said fuck that is hot as fuck I...  
yep... that is the secret!  
but we need to be efficient with the heat... we spend anywhere between \$8k - \$20k a month on natural gas for that heat.

Jim Hoover 4/19 9:18 PM  
That's the difference between rob and me he didn't understand the material or the flow of the product or what breaker fixed what and so on you know you got to know that to run the mill.

4/19 9:19 PM

I don't think he was taking the time to learn it either...

Jim Hoover 4/19 9:19 PM  
Once it gets hot you back down to where the percent can be as low as 60% and still hold best

4/19 9:19 PM

I think he had the best intentions at first but something feel apart. What? I don't know.

Jim Hoover 4/19 9:19 PM  
Heat

4/19 9:19 PM

Jim Hoover 4/19/2023, 9:19 PM  
Once it gets hot you back down to where the percent can be as low as 60% and still hold best  
yep, I agree.  
If we make it through this MSHA bullshit and get back to producing... part of our plans before it gets cold again is to enclose the classifier elevator etc outside...  
To retain the heat when it's cold outside...  
this winter was a bitch...

Jim Hoover 4/19 9:21 PM

 Jeremy is smart as hell to fixing shit and working on it for real I like the hell out of him we worked on dust collector today sharp he worked out on oil rigs where my brothers did but at different times

Boss I will be honest with you if you don't mind me saying

4/19 9:22 PM

That's cool, I like him too, I just hope he isn't a sprinter and can keep up the work ethic for the long haul

Jim Hoover 4/19/2023, 9:22 PM

Boss I will be honest with you if you don't mind me saying

yes, this is a private chat, I always want you to be honest with me.

I may not do as you say or think that I should do but I do appreciate your input.

Jim Hoover 4/19 9:24 PM

 We never EVER took days off because cold its been below zero and the shit ran just fine we just have to have people get their earlier and tube mill running early to get hot

We have got to get the dry insulated this summer at some point

4/19 9:25 PM

I do not like to make decisions solely based on my opinions, I want feedback so I can make the best decision I can

Jim Hoover 4/19/2023, 9:24 PM

We never EVER took days off because cold its been below zero and the shit ran just fine we just have to have people get their earlier...

I agree

Jim Hoover 4/19/2023, 9:25 PM

We have got to get the dry insulated this summer at some point

I agree... the maintenance team and John are discussing it.

Jim Hoover 4/19 9:29 PM

 I promise you we do not need to shut down if its below 45 that's crazy talk the tube mill needs to be running everyday possible including Saturdays tell these orders are caught up my opinion just saying Sundays if need be but these customers have waited long enough damn brother 6 months who is going to wait 6 months from something to be delivered from Amazon NO ONE!! SO Let's get this shit out the door

 1

That's what I think about all this bullshit going on

 1

Jim Hoover 4/19 9:40 PM

 Boss the palletizer I know you don't like it because old and all but less than a year ago I packed and put 140 bags a hour on myself that's why I know the numbers, also I will tell you this if we stack five highs on the palletizer two people would have to be down there and I would have to stop bagging because they couldn't keep up man couldn't keep up with the machine so I know 100 percent that is not the problem yes it's old but that bitch will run you just have to love on her you know

4/19 9:47 PM

its not that I dont like the palletizer... its just hard to get replacement parts for,

Jim Hoover 4/19 9:49 PM

 She will run if we take care of her

4/19 9:49 PM

Just like this motor... there were none available when ours went bad. There was one available but no gear...

Jim Hoover 4/19 9:49 PM

 Just like tube mill it will last as long as we take care of her you know

4/19 9:49 PM

I have found a couple but they are the 3HP and not the 5HP.

Jim Hoover 4/19/2023, 9:49 PM  
Just like tube mill it will last as long as we take care of her you know

I know... the problem since we bought the company has been maintenance personnel.

plain and simple

Jim Hoover 4/19 9:50 PM

Jeff had one ordered but not sure where he had it ordered from

Correct

Motor for palletizer

4/19 9:51 PM

we have a good team now... we just need to get through the MSHA BS... understand WHY I tell you guys to do the shit on the board in the breakroom....doors and windows...

and get back to producing...

It isnt that we dont have Sales... we have plenty of sales...

we just cant seem to get a break on the production side.

Jim Hoover 4/19 9:52 PM

Oh I know we could have more if you open the flood gates

👍 1

4/19 9:52 PM

Common sense would tell you... no product going to the customers means no money coming in to replace equipment, parts, etc

Jim Hoover 4/19 9:52 PM

But producing is killing us and msha

I agree

4/19 9:52 PM

Jim Hoover 4/19/2023, 9:52 PM  
Oh I know we could have more if you open the flood gates

OH YES WE COULD!!!

This is why we need to follow the instructions given... to make sure MSHA stays off our back

so we can produce...

Jim Hoover 4/19 9:54 PM

I know your philosophy I believe you that's why im still here

4/19 9:54 PM

but think about it... we have been through a lot of people this past year...

Jim Hoover 4/19 9:54 PM

To many

4/19 9:54 PM

you are our most experienced person...

you cant run the entire show off of one persons experience.

Jim Hoover 4/19 9:55 PM

I know I have learned that one loud and clear

4/19 9:55 PM

This is why its good that Patrick has hung around, John has hung around, Max...

we need RJ to stick around and work

Jim Hoover 4/19 9:55 PM  
 I was showing pat the control room 2 weeks ago and the flow of things  

4/19 9:55 PM  
 we need Ronnell to mature some, grow up and hang around  
 We need Jessie to hang around and do his part...

Jim Hoover 4/19 9:56 PM  
 He needs to stop calling MSHA.

4/19 9:56 PM  
 EVERYONE needs to stop calling MSHA.

Jim Hoover 4/19 9:56 PM  
 No shit  
 Pisses me off.

4/19 9:56 PM  
 I cannot terminate Ronnell just because he has called MSHA.

Jim Hoover 4/19/2023, 9:56 PM  
 Pisses me off  
 Me too!

Jim Hoover 4/19 9:57 PM  
 I have been there along time and never have called them  

4/19 9:57 PM  
 He will either get on board on he will get fired.  
 I know Ronnell is looking for work elsewhere...

Jim Hoover 4/19 9:58 PM  
 I will go for second one one  

4/19 9:58 PM  
 I see his FB posts and even called him out on it.

Jim Hoover 4/19 9:58 PM  
 What you mean  
 LAZY LAZY LAZY BAD  

I was wrapping ten highs today and he wouldn't even do that he thought to high I guess so I said I will do it if your worried about it

4/19 10:00 PM  
 he's such a pussy.

Jim Hoover 4/19 10:00 PM  
 I'm saying lazy he was in break room a lot

4/19 10:01 PM  
 Let john know... so John can counsel him and we can let him go

Jim Hoover 4/19 10:01 PM  
 I heard him say I wish dozer would get fixed

4/19 10:01 PM  
 He doesnt know it yet but we have a new quarry guy starting Monday.. Ronnells dozer days are pretty much done for a while

Jim Hoover 4/19 10:01 PM  
 I already did today he saw him in there eyes shut im pretty sure to me he is dead weight  
 Don't need him don't want him but I will make him or break him I will give him a chance and see if he can step up to plate  
 Like I always tell you I know who the next one will be brother

4/19 10:04 PM

Share with John your thoughts and what you see, in private of course.

I have no problem letting go dead weight.

Jim Hoover 4/19 10:05 PM

I always talk to John I really respect John damn good man

We talk in private a lot brother

4/19 10:05 PM

we just have to do the right process and the right thing. Counsel him and then let him go.

Jim Hoover 4/19/2023, 10:05 PM

I always talk to John I really respect John damn good man

I agree and that is good you guys talk.

Jim Hoover 4/19 10:05 PM

Our daughters are same age

4/19 10:06 PM

I didnt know that.

Jim Hoover 4/19 10:06 PM

He calls his daughter Button lol

🤔 1

Boss im telling you if that palletizer was going and msha wasn't on our ass being dicks I would gamble and say the equipment is at point when we would be running over 60K or better I haven't been able to talk to you but after I got the little mac suction going it takes longer that fuck to get the socks to fill-up on flour elevator

4/19 10:11 PM

yep, we will get there.

Jim Hoover 4/19 10:11 PM

I only ran one day for 3 hours I set up for John when rob wasn't there and it was John rj and myself and we kicked ass so I know for a fact it is doable

4/19 10:12 PM

I too believe that we will start doing really well once we get past this MSHA BS. This shit has been going on with them since January...

Jim Hoover 4/19/2023, 10:11 PM

I only ran one day for 3 hours I set up for John when rob wasn't there and it was John rj and myself and we kicked ass so I know f...

That was the deciding factor for John and I to terminate Rob.

Jim Hoover 4/19 10:12 PM

Yes it's costing me money and I don't like that

4/19 10:13 PM

Yes, it is! It really is...

Jim Hoover 4/19 10:14 PM

Oh shit my bad doesn't mean for him to look bad I just ran it like I do there is no other way to run it accept full throttle

I didnt mean to make him look bad I mean

4/19 10:14 PM

Nope... John and I were discussing Robs issues a long time ago... we just didnt know how to approach it.

You just put the icing on the cake.

Jim Hoover 4/19 10:15 PM

Oh shit

4/19 10:15 PM

It had nothing to do with you.

We knew there needed to be change but wanted to give the guy an opportunity to fix the issues we were seeing.

He didnt make improvement and... got terminated,

Jim Hoover 4/19 10:16 PM

I mean I had to tell him to put rock in to charge tube mill it was below 50 I said damn man we got to charge this

4/19 10:16 PM

yep, thats why he is no longer with us.

Tomorrow is a new day

Jim Hoover 4/19 10:17 PM

Yes sir

So are we going to do Saturdays or what's your game plan after this horse shit with msha when can we start running production

Jim Hoover 4/19 10:26 PM

Tomorrow is a new day also attitude is 95% of how your day is going to turn out good or bad, have good attitude have great day have bad attitude have bad day try learning something new everyday challenge yourself and things will be okay I have learned one day at a time brother

Sometimes hour by hour lol

4/19 10:26 PM

So... for the next two days we are only allowed to run to make repairs and adjustments to the filtration systems and the engineering controls (windows, doors and exhaust fan)

We will run as normal, get the system hot, produce and bag as instructed by Jessie and John.

Jim Hoover 4/19 10:27 PM

Good or bad we are in it together so let's just get this shit done and go sit on the beach

Sounds good to me

4/19 10:28 PM

We will need to stop the feed at noon, let maintenance do their checks, adjustments, and any repairs needed. Then we will start the feed again and produce until 3:30 as normal, shut down, let maintenance do their checks, adjustments, and any repairs needed.

and repeat Friday.

Jim Hoover 4/19 10:31 PM

Okay wait a second I was told we are doing a whole lot of cleaning tmrw so we are running from 8-12 then let them do there things then run tell 3:30 ?

4/19 10:31 PM

just follow Johns guidance tomorrow.

Jim Hoover 4/19 10:31 PM

Okay

So did you get assholes to let us take locks off yet

Msha I mean lol

4/19 10:32 PM

tomorrow morning...

Jim Hoover 4/19 10:32 PM

Good deal

So hopefully they will be there at 7:30

So msha said the control room doesn't have to have one of the new breathing things on when MSHA called Jessie this morning I had him ass them that and they said we didn't have to have on in mill control room break room or bathroom

Ask lol

4/19 10:37 PM

no, its based on position not people... so the bagger, palletizer and forklift driver...

dumb I know.

Jim Hoover 4/19 10:40 PM

Keith said the bagger would never pass one I call bullshit on that I have been studying that out if we put a bigger fan up where it would blow from the east to west up high blowing at angle down the bagger person would not get any of the dust because we get a little bit so if we could do that I think that would be a game changer for that spot you know

4/19 10:40 PM

Keith is a jackass...

Jim Hoover 4/19 10:40 PM

That is what rob said Keith said he didn't tell me that because I would of said bullshit to him

👍 1

4/19 10:40 PM

I pesonally... would just stay away from that guy. Intentionally, stay away

Jim Hoover 4/19 10:41 PM

Oh I know he thinks he is something

He has rob in back pocket

👍 1

Jim Hoover 4/19 10:48 PM

Well brother im going to get off here, I will talk to you tmrw brother at some point. Hopefully goes good tmrw, we need to get like 20 more double stacked pallets wrapped they were doing a pallet at a time not picking up the double stacked and setting up there to wrap. I said what are you doing pick the shit up and go guys come on.. They are afraid they will fall I said that is why when you double stack you make them straight and on top of each other perfect so you can double stack and wrap them together..

👍 1

Also did you see the picture on mill group chat in the green dust collector I put in there

4/19 10:49 PM

Jim Hoover 4/19 10:50 PM

👍 1

4/19 10:50 PM  
I dont know what that is.

Jim Hoover 4/19 10:51 PM

Those bars running across there with the holes facing down into the socks

That's the bars on side that hold them up they are all rusted out bad and one of those bars falls out of the slots

4/19 10:52 PM Edited  
You'll need to show Ryan/Jeremy

Jim Hoover 4/19 10:53 PM

Jeremy and I were discussing it today when we were up there

👍 1

I just wanted you to be aware of it to put your thinking cap on about what you think you would want to do with it if that is replaceable at some point

I'm sure Jeremy can design something he is pretty awesome at that shit he is by far better than anyone you have had in past as far as hands on and getting shit done ten fold

April 20

4/20 7:29 PM  
Better day?

April 28

Jim Hoover 4/28 8:49 AM

We are rolling

👍 1

4/28 8:50 AM  
Hey hey brother... let's do good things okay. Have a good day

Jim Hoover 4/28 8:50 AM

No dust either

👍 1

We will boss

👍 1

I gotcha you

4/28 8:51 AM  
We need you to make that place rock and roll. I need the justification since Robs complained to MSHA about being let go...  
just need you to put the cherry on the cake that's all.

Jim Hoover 4/28 8:58 AM

Alright I will do my best we are rocking I haven't shut feed off yet and socks are still down so that's good

👍 1

4/28 8:59 AM  
RJ & Patrick bagging?

Jim Hoover 4/28 9:01 AM

Yes sir

4/28 9:02 AM

pretty steady?

Jim Hoover 4/28 9:02 AM

Yes sir

Im going to put load of rock in Saturday or Sunday going to have Rj jhelp me

Also still feeding socks still down whoop whoop

Jim Hoover 4/28 10:09 AM

8 ,000 pounds first hour

Jim Hoover 4/28 12:26 PM

On pallet 15

4/28 12:56 PM

Make sure to share this info in the Mill Group Chat.

Keep your and I chat as personal private.

Jim Hoover 4/28 1:38 PM

Ok

Jim Hoover 4/28 10:10 PM

Hey Brother how was your day

4/28 10:10 PM

Good and you?

Jim Hoover 4/28 10:11 PM

Oh well , not to bad

I think you will be happy with the number we got for today

4/28 10:12 PM

I heard... 52k lbs. Fucking ridiculous!!!!

Jim Hoover 4/28 10:12 PM

No we got 56

28 pallets

4/28 10:13 PM

Oh shit. that's awesome!

Jim Hoover 4/28 10:13 PM  
 Not to bad, ran like gravy

4/28 10:14 PM  
 That's awesome. You feel good about that.

Jim Hoover 4/28 10:15 PM  
 Not one over flow or anything  
 1  
 Oh well we could of done a couple things different . but first day we for sure are moving in right direction

4/28 10:17 PM  
 Like what?

Jim Hoover 4/28 10:21 PM  
 we just need another body out there because I packed 99% of the bags and ran the mill but I temped out a couple of times when I was bagging it kicked out, but the other person would be labeling and wrapping because they didn't get labeled or wrapped yet  
 But I'm not complaining for first day they did pretty good.

4/28 10:22 PM  
 I agree. Hopefully by next week. 2 peeps applied today so that's good...

Jim Hoover 4/28 10:23 PM  
 For sure . John helped out a lot and so did Jeremy

4/28 10:23 PM  
 that's good.

Jim Hoover 4/28 10:27 PM  
 Jeremy stacked for me , he went over to yellow air pipe and felt pipe and goes damn . I said now you know secret to tripoli now .  
 1  
 He couldn't believe the difference in flow  
 1

4/28 10:28 PM  
 yep...gotta be hot to flow

Jim Hoover 4/28 10:28 PM  
 He is damn good maint.  
 1  
 Ryan I think is great in his own way  
 1  
 As well

4/28 10:29 PM  
 Me too. He's just quiet

Jim Hoover 4/28 10:29 PM  
 He is more electronic and Jeremy more hands on get shit done  
 1  
 Well maybe at first lol  
 We would of Dust test today boss  
 100% for sure  
 The environmental lady came by did you hear about this

4/28 10:33 PM  
 Yep from what I understand she was very pleased as well

Jim Hoover 4/28 10:33 PM  
 Yes sir

4/28 10:34 PM  
 Jim Hoover 4/28/2023, 10:31 PM  
 We would of Dust test today boss  
 all good, leta just repeat that one Monday

Jim Hoover: 4/28 10:36 PM  
 We would of passed the Dust Test I mean . For sure will do as well or better

4/28 10:36 PM  
 Yep, we will get it monday

Jim Hoover: 4/28 10:37 PM  
 The low bin light didnt come on one time before noon .

4/28 10:37 PM  
 Hmmm...

Jim Hoover: 4/28 10:41 PM  
 Boss have good evening just wanted you to have some positive things from here I'm sure it has been awhile you know . also just wanted to thank you and Jordan for the paychecks im sure you haven't heard that in awhile but appreciate you guys hanging in there for me but us as a team .

4/28 10:41 PM  
 Brother, it's been tough. But we will get better  
 have a good night

Jim Hoover: 4/28 10:47 PM  
 Thank goodness you two are tougher than the situation you know .

4/28 10:48 PM  
 I'm glad you think so. I dont do failure very well...

Jim Hoover: 4/28 10:53 PM  
 I have noticed that lol ... As Im not a person that gives up and just quits when times get rough  
 1

May 1

Jim Hoover: 5/1 5:07 AM  
 Hey I can text you private brother it's locked on adm. Side and mill side under mine anyway

5/1 6:28 AM  
 Did you call John?

Jim Hoover: 5/1 6:04 PM  
 Hey Brother

5/1 6:33 PM  
 What's up.

May 2

Jim Hoover: 5/2 9:12 AM  
 Hanger Be'ing out on scroll bringing all the dust collector product in saw when doing walk thru this morning Jeremy is fixing it now . we have product coming out of finish pipe on outside from fourth floor socks one must have hole in it but blowing product out of it .

Jim Hoover: 5/2 6:16 PM  
 Hey

Where is it to where I can text you private

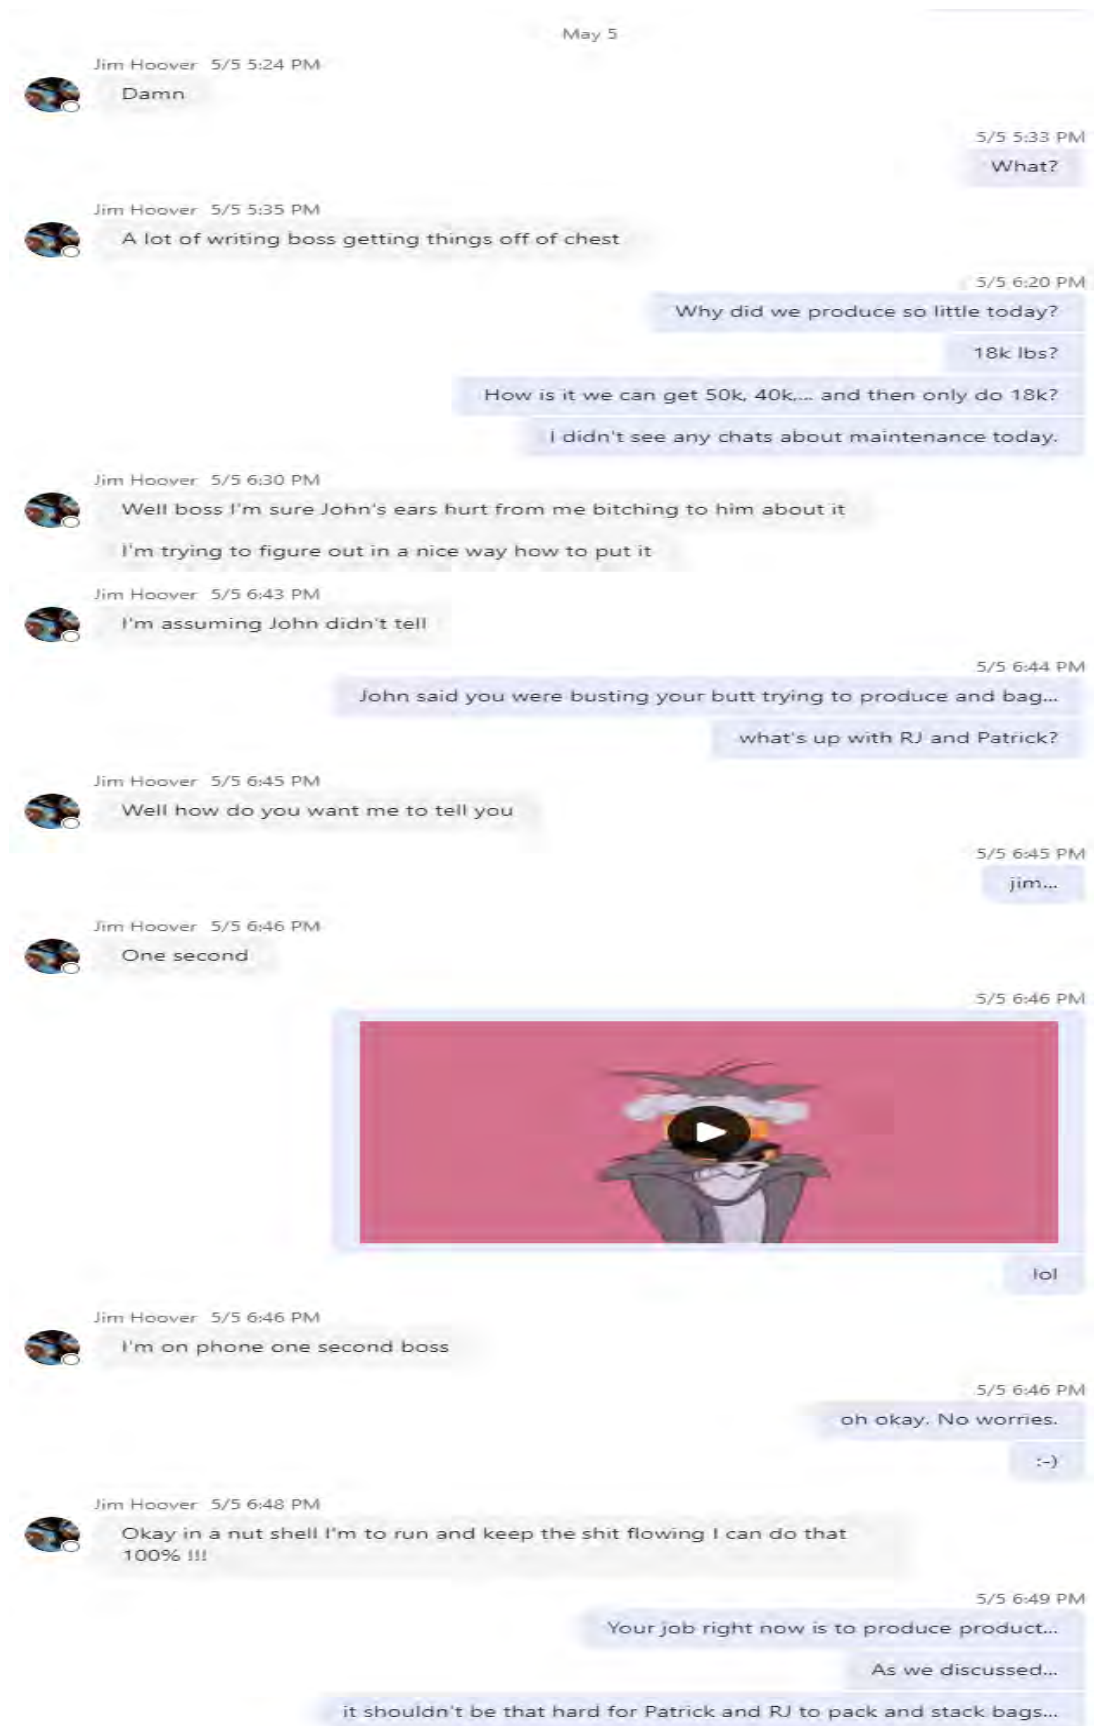

5/2 7:30 PM  
 This is private, Just me and you.

May 3

Jim Hoover: 5/3 8:52 PM  
 Hey boss

5/3 10:16 PM  
 What's up

Jim Hoover 5/5 6:49 PM  
 What I have a problem doing is I haven't to do the control room , then I go and pack bags , then I go hand stack then I go wrap the fucking pallets  
 I can't be in four places at once

5/5 6:49 PM  
 that's exactly what John said...

Jim Hoover 5/5 6:49 PM  
 I'm not cussing at you  
 1

5/5 6:50 PM  
 you can't do it all

Jim Hoover 5/5/2023 6:49 PM  
 I'm not cussing at you  
 I know. I'm not taking it that way.

Jim Hoover 5/5 6:50 PM  
 But I know boss but if you need a number it's my job to make sure it's done

5/5 6:50 PM  
 I'm upset with RJ and Patrick

Jim Hoover 5/5 6:50 PM  
 You don't know how pissed I am

5/5 6:50 PM  
 Jim Hoover 5/5/2023, 6:50 PM  
 But I know boss but if you need a number it's my job to make sure it's done  
 yep and I'm not faulting you.

I just don't understand...

Jim Hoover 5/5 6:51 PM  
 At 3oclock I shut it off  
 1

5/5 6:51 PM  
 what's up with these two guys...  
 I don't understand...

Jim Hoover 5/5 6:53 PM  
 Because I was wasting your money by running product then going out and bagging 4 bags then running around over there and stacking them so I said fuck it and I went and staged SO-323 A,B they are ready and weighed

5/5 6:53 PM  
 I guess we're are going to have to hire some contractors...

Jim Hoover 5/5 6:54 PM  
 They were pissed about there hours

5/5 6:54 PM  
 if RJ and Patrick pull this BS Monday, they are done.  
 what about their hours?

Jim Hoover 5/5 6:54 PM  
 John had a talk with them I think

5/5 6:54 PM  
 they were offered to work this weekend and turned it down.

Jim Hoover 5/5 6:54 PM  
 I was staging the orders

5/5 6:55 PM  
I can't help people who don't want to help themselves

Jim Hoover: 5/5 6:55 PM  
And I'm going to work tmrw

5/5 6:55 PM  
you can't go in by yourself

Jim Hoover: 5/5 6:56 PM  
I have got to get some room people fucking run into pallets some how  
fn stupid  
I know that boss  
👍 1  
You think I'm new hire lol  
👍 1

5/5 6:56 PM  
Make sure you work it out with John

Jim Hoover: 5/5 6:57 PM  
I already told him I will call him later I was pissed

5/5 6:57 PM  
PLUS... gotta wear that fing mask

Jim Hoover: 5/5 6:57 PM  
Only if we are running  
No machine is running

5/5 6:57 PM  
oh that's right...  
you are right.

Jim Hoover: 5/5 6:57 PM  
I think John and myself could run more by ourself

5/5 6:58 PM  
I agree  
I don't understand what up with Patrick. Do you?

Jim Hoover: 5/5 6:59 PM  
I get it they are tired of stacking I get it but they go to break lunch or  
whatever and they watch me go in control room keep in running go  
and put bags on them go stack them and move them with fork truck so  
tell me what the fuck is wrong with this picture brother  
I'm 50 and out work these two figure this one out

5/5 7:00 PM  
Yeah I don't understand where the laziness comes in...

Jim Hoover: 5/5 7:00 PM  
In a nut shell that is why we only got 18 john wasn't there to help me  
with the control room  
But also I kept on having to go in control room because the product  
was damp or was different than normal and temperature dropped fast  
as shit you know  
Not making excuses for this just telling you

5/5 7:03 PM  
oh yeah I understand...  
I just don't understand wtf is up with these two guys...  
we have the palletizer motor on order...

Jim Hoover: 5/5 7:04 PM  
I know my job is to produce what you need me to do but am I to tell  
them to speed the fuck up or what I know what you ask of me as to  
keep the shit going if I just do that it will be on the floor  
👍 1

Jim Hoover 5/5 7:04 PM

I know my job is to produce what you need me to do but am I to tell them to speed the fuck up or what I know what you ask of me as to keep the shit going if I just do that it will be on the floor

👍 1

5/5 7:04 PM

we can make them ship it any fmg faster...

you are doing fine... just keeping working with john...

Patrick and rjs days are probably done.

if they don't want to work then we will just get rid of them.

I told John to have a talk with all the guys...

on Monday morning

Jim Hoover 5/5 7:06 PM

Good deal...

5/5 7:06 PM

it's everyone's responsibility to ensure product gets produced and out the door...

if this doesn't happen everyone's job is in jeopardy.

too simple

Edited

we will replace those that don't want to work with the rest of the team

Jim Hoover 5/5 7:07 PM

I know without a shadow of doubt we can produce more than 50 thousand

👍 1

If we can just hang in there tell that motor

5/5 7:07 PM

I believe we can too... just need the right people with the right attitudes

the motor or palletizer shouldn't be the crutch...

I'm sure the motor will be delivered next Thursday, I believe

Jim Hoover 5/5 7:10 PM

I think there is other issues going on also

5/5 7:10 PM

What issues?

Jim Hoover 5/5 7:10 PM

If it was Rj and myself it's good

If it's pat and myself it's good

5/5 7:10 PM

??

RJ and Pat don't get along?

Jim Hoover 5/5 7:11 PM

But it's like those two together it's like pat and Landry if you get what I'm saying

Yes they get along to good

5/5 7:11 PM

??

Jim Hoover 5/5 7:11 PM

It's like if me and you are working we get shit done right

👍 1

Jim Hoover 5/5 7:11 PM  
 It's like if me and you are working we get shit done right  
 1

5/5 7:12 PM  
 who's making who lazy?  
 who's the bad seed?

Jim Hoover 5/5 7:13 PM  
 No grab assing just work right that is not the way it is if they are together

5/5 7:13 PM  
 or should i ask... who's next jim?  
 lol  
 50 = 50 guess or???

Jim Hoover 5/5 7:14 PM  
 That's funny shit  
 Well I will say this I could tell you that

5/5 7:15 PM  
 but...???  
 what's your guess?

Jim Hoover 5/5 7:15 PM  
 It's no guess  
 1

5/5 7:16 PM  
 I gotta run here in a few minutes...  
 who do you think "is next"?

Jim Hoover 5/5 7:18 PM  
 But If I tell you something you can not do anything about it , also you don't pay me enough to put up with this bullshit that happen I will talk to you in a bit boss text me when you are done  
 I'm serious  
 Text me later okay

5/5 7:19 PM  
 Tell me now... I'll be out for a couple of hours... probably after midnight.  
 You've got my attention... what's up?  
 jim???  
 Playing games huh???  
 unprofessional...  
 you don't end a conversation that way  

May 6

5/6 12:24 AM  
 So???

5/6 9:21 AM

May 7

Jim Hoover 5/7 1:31 PM

Hey sorry boss

5/7 1:32 PM

lol...slacker. 🤔

Jim Hoover 5/7 1:32 PM

I will take care of the situation brother

5/7 1:32 PM

How was your weekend?

What was/is the situation?

Jim Hoover 5/7 1:36 PM

Oh same as always doing some things with Kennedy she walked up to me Saturday morning and gave me this

5/7 1:36 PM

So cute!

Girls will always love their dad!

Jim Hoover 5/5/2023, 7:18 PM

But If I tell you something you can not do anything about it , also you don't pay me enough to put up with this bullshit that happen...

Jim Hoover 5/5/2023, 7:10 PM

I think there is other issues going on also

What issues are you referencing?

Jim Hoover 5/7 1:40 PM

And this with a bracelet it was good I never think I'm doing enough for her that's for her we go on long walks in evening I got that good advice from you and Jordan and you don't think I listen to you.

👍 1

Well the Friday thing that was a problem

5/7 1:41 PM

just like planting a seed. If you take care of it while its young then it will grow bountiful.

the time you spend with her now, will pay off in the long run.

sometimes its hard to see but the simple things matter the most.

TIME/memories is more important than any object that can be bought.

Jim Hoover 5/7 1:43 PM

Pat is going thru some shit not good but we had a talk Saturday I can't go into detail because I just can't it wouldn't be a good thing but he surprised me after the fact of what happen but long story short I will nip it in the bud

👍 1

True story

Boss this MSHA thing can I speak to you freely without you thinking I'm on there side because I'm not I always tell you what I hear

Those other guys think I'm a company man , if you want to call me that for doing what I do then I guess I am but I know that you ask of me to get a certain number and I know how to do that and she happens and I'm pushing them to get there ass in gear and I'm going out there and packing bagging and hand stacking and fork trucking pallets because I know if I don't go out and do that it will over flow that's how I run it I don't shut it off tell it can't handle no more you know but the shit is hot and I can't touch the yellow pipe you know

5/7 1:57 PM

Its not necessarily a MSHA thing or a "company man" thing...

hear me out...

Do you remember me talking with you a long time ago about Robs general negative attitude about everything?

Jim Hoover 5/7 1:58 PM

I didn't read the book on it rob telling them something and it not being true brother

Oh I know

You didn't have to tell me I worked with him

Or around him more less

5/7 1:59 PM

Well, IMO, this attitude bled over to RJ and I do believe Carson and Terry... then Patrick, and probably Gage too

John and I both spoke to Rob about it many times...

Jim Hoover 5/7 2:00 PM

I had to go behind and fix shit

5/7 2:00 PM

he wanted to blame you guys all the time about not being able to get things done

stupid things like... cleaning the bathroom.

He lacked leadership skills

Jim Hoover 5/7 2:01 PM

I didn't know you all did I was trying to stay in my lane but I didn't want to be down longer

Jim Hoover 5/7 2:01 PM

I didn't know you all did I was trying to stay in my lane but I didn't want to be down longer

I agree

5/7 2:01 PM

I told him he needed to get use to reading online books

he told me he didnt like reading online

he was advised to take some leadership classes online...

I gave him plenty of resources to read about.... plenty of free classes

Jim Hoover 5/7 2:02 PM

Oh wow

5/7 2:02 PM

Then the whole MSHA thing in February...

Jim Hoover 5/7 2:02 PM

Oh he fucked us over on that deal sorry for cussing

5/7 2:03 PM

thats when Rob started to really buck back against what John was telling him to do

Jim Hoover 5/7/2023, 2:02 PM

Oh he fucked us over on that deal sorry for cussing

Oh I know...

again... we had to prioritize things...

Jim Hoover 5/7 2:03 PM

He was yelling at john alot screaming

5/7 2:03 PM

we were constantly looking at how to replace him

Alex was being trained to replace Rob...

then Alex quit

Jim Hoover 5/7 2:04 PM

Wow

5/7 2:04 PM

We thought Kensley could...maybe... but she didnt work out either...

so, then we hired this last guy... what a f-ing hassle

We have requested MSHA to give us an exception to policy and let us fall under the Part 46 training requirements...

that way we would just have to provide 4 hours of initial safety training and then have the guy start working...

this way if he/she decided it wasnt for them we werent out the 3 days paid training AND the \$250 - \$400 instructor expense for EACH new hire.

MSHA is f-ing choking us out...

Rob's issues go way back, even before starting days...

Christine wanted to replace him...

Jeff didnt like him

Jessie didnt either...

Carson thought Rob was lazy

Jim Hoover 5/7 2:09 PM

Man if you put all his days together he wouldn't get as Dirty as Jordan working one day brother

5/7 2:09 PM

Rob's problem was he didn't want to take the advice of anyone else and thought he knew it all.

Jim Hoover 5/7/2023, 2:09 PM

Man if you put all his days together he wouldn't get as Dirty as Jordan working one day brother

Oh I know...

and now...

that he has made a friend at MSHA... Keith... Robs a fool to think Keith is his friend.

Im just glad Rob is gone. That was a longggg time coming.

Jim Hoover 5/7 2:12 PM

Rob didn't know a thing .... My opinoin he would always come and ask me what to do or how to fix it I really wanted him to burn after the third day there when he started he told my guys I didn't know anything . and then he comes and ask me shit 2 seconds later I just blew it off

5/7 2:12 PM

August of last year. Christine was telling me we need to replace Rob.

Jim Hoover 5/7 2:13 PM

I could of told you boss but you wouldnt of believed me

5/7 2:13 PM

Jim Hoover 5/7/2023, 2:12 PM

Rob didn't know a thing .... My opinoin he would always come and ask me what to do or how to fix it I really wanted him to burn afte...

yea, he was full of himself. I could see it back when we were having screen problems...

Jim Hoover 5/7/2023, 2:13 PM

I could of told you boss but you wouldnt of believed me

Its not that... its there are a lot of other pieces moving behind the scenes too

Jim Hoover 5/7 2:14 PM

I see these people come and go brother

Everyone of them

5/7 2:14 PM

See, im having to now fight MSHA because Rob thinks he was discriminated against

Jim Hoover 5/7 2:14 PM

I can tell you in the first 2 days if they will make it because of all the hear say bullshit

5/7 2:15 PM

I just dont understand why they cant just do what they are asked to do...

Jim Hoover 5/7 2:15 PM

Well probably are to lazy mother fuckers I can't stand shit like that

Lol

Do you want to know what he told me

5/7 2:16 PM

I just hope Patrick and RJ arent too infected by his BS

Jim Hoover 5/7/2023, 2:16 PM

Do you want to know what he told me  
whats that?

Jim Hoover 5/7 2:17 PM

That you wanted to fire me long ass time ago then when Sara was here he told me again

That you told him this

5/7 2:17 PM

Jim Hoover 5/7/2023, 2:17 PM

That you wanted to fire me long ass time ago then when Sara was here he told me again

uh, no Rob and I were never that close...

Jim Hoover 5/7 2:17 PM

I said well it's his company to do with what he feels will help the company

I didn't lose any sleep over it brother

5/7 2:18 PM

I have only mentioned letting you go when you were having feet problem and not showing up to work as scheduled.

As ive told you before, its not personal

Jim Hoover 5/7 2:18 PM

I know I got a new pair of boots by the way lol

A lot better now.

5/7 2:19 PM

I like you. or we wouldnt be chatting like we do...

Jim Hoover 5/7 2:19 PM

I know.

5/7 2:19 PM

Jim Hoover 5/7/2023, 2:18 PM

I know I got a new pair of boots by the way lol about time.

did you get to see a foot Dr?

Jim Hoover 5/7 2:19 PM

Wolverines

👍 1

I went to Dr. Just the one in Seneca

👍 1

5/7 2:19 PM

Hey if thats what you like... then thats your decision

Jim Hoover 5/7 2:20 PM

Witch doctor

👍 1

5/7 2:20 PM

Gotta take care of those feet.

Jim Hoover 5/7 2:20 PM

That's why the young guys can't keep up with me boss.

She gave me witch med.

👍 1

5/7 2:21 PM

the younger guys just didnt have a good upbringing in my opinion... the work ethic isnt there for most of them.

Jim Hoover 5/7 2:21 PM

I feel no pain

❤️ 1

That's a fucking fact AMEN AMEN AMEN PREACH IT.

👍 1

5/7 2:22 PM

So...

Jim Hoover 5/7 2:22 PM  
so what are we looking at how far down

5/7 2:22 PM  
Dude... we are REALLY behind...

Jim Hoover 5/7 2:22 PM  
4 months

5/7 2:23 PM  
no, more like 5 1/2 months behind

Jim Hoover 5/7 2:23 PM  
Is that about right

Oh shit 6months half a year

5/7 2:23 PM  
put in an order today and it gets scheduled for mid-september

yep, pretty much

AND that is with NO SALESMEN!

Jim Hoover 5/7 2:24 PM  
We were only down 4 when I was in mill we were catching up

5/7 2:24 PM  
just repeat business

Jim Hoover 5/7 2:24 PM  
That won't work

5/7 2:24 PM  
Jim Hoover 5/7/2023, 2:24 PM  
We were only down 4 when I was in mill we were catching up  
we will get there....

Jim Hoover 5/7 2:24 PM  
Yes, we will

5/7 2:24 PM  
it takes time... now, just as before, we need people to stay and just work...

thats it.

We have to keep MSHA off our back....

keep the maintenance team happy

keep production pumping... EVEN when we are tired.

I want to replace the palletizer...with a robotic one but we have to catch up...

the schedule is FULL everyday.

we can have these half-ass days....

each day, the minimum is 40k lbs.... per the sales orders....

that is what we have scheduled for...

just 40k lbs

Jim Hoover 5/7 2:27 PM  
Boss I have done 140 a hour on palletizer find the parts and I will make it run 100 run great on it swear

5/7 2:27 PM  
if we do 50k, hey thats great

The palletizer motor will be here this week.

Jim Hoover 5/7 2:27 PM  
We don't have all pieces it though

5/7 2:27 PM  
the guys just need to know and take care of it when it is working...

Jim Hoover 5/7 2:27 PM  
For it though

5/7 2:28 PM  
you talking about the gear?

Jim Hoover 5/7 2:28 PM  
Yes and break

5/7 2:28 PM  
this isnt just any motor... its the same one that came off of it...

Jim Hoover 5/7 2:28 PM  
And another piece I heard

5/7 2:28 PM  
there is only one like it being sold...  
the palletizer is old  
thats why it took so long to get...  
the old one we have at CEMCO is/has been rebuilt

Jim Hoover 5/7 2:29 PM  
I know but john said there is parts on the other one up there that he needs for the motor

5/7 2:29 PM  
we are working with CEMCO to get the gear...  
the gear isnt the problem... its the motor  
the motor manufacturer has an 18-month backlog...

Jim Hoover 5/7 2:30 PM  
Okay awesome when that things gets going that will be a game changer

5/7 2:30 PM  
the factory rep says he has 6,000+ motors that he is being told not to expect delivery until 2025-26  
thats a lot of machines not running... and thats across the US

Jim Hoover 5/7 2:31 PM  
The guys will be much happier and less bitchy they tell me I'm working them like niggars I said I have to make up for robs lack of effort

5/7 2:31 PM  
stacking 5 highs... really?

Jim Hoover 5/7 2:32 PM  
They said that N word not me lol  
👍 1

5/7 2:32 PM  
thats not that damn hard...  
I mean come on...

Jim Hoover 5/7 2:32 PM  
I know right..  
I forgot to tell you something  
So you know how I do my calculations on the packer

5/7 2:33 PM

I also want to have a framer come in and give us a quote to frame and drywall off the production floor from the rest of the area so we can eliminate the air quality BS

Jim Hoover 5/7/2023, 2:32 PM  
I forgot to tell you something

whats that?

Jim Hoover 5/7 2:33 PM

I heard you telling john something how many bags we are doing time wise

Well so I timed it thru the day several times and I'm packing 3 bags in one minute 7 seconds

So not bad I think you had us only doing 2 bags a minute I think

5/7 2:35 PM

OGX, DGX, AFX, PremiumX, TrifilX:  
50 bags per hour production

Microgrades (X45 - X30):  
20 bags per hour production

Microgrades (X15 - X10):  
10 bags per hour production

Bulk bags:  
6 bulk bags per hour

Jim Hoover 5/7 2:35 PM

Plus socks are taking long ass time to feel up now

5/7 2:35 PM

thats good

Jim Hoover 5/7 2:36 PM

Which is good on elevator

5/7 2:36 PM

fixing the air leaks i think solved a lot of issues.

Jim Hoover 5/7 2:36 PM

Yes sir

So I think I got this insurance thing called AmBetter have you heard of it

5/7 2:38 PM

? no

Jim Hoover 5/7 2:38 PM

Which will pay for my insurance and Kennedy insurance so I won't have to carry it thru work

5/7 2:39 PM

If its cheaper... then by all means go for it;

Jim Hoover 5/7 2:39 PM

It's something you told me to look into so I did boss

5/7 2:39 PM

thats good.

Jim Hoover 5/7 2:40 PM

Just another example of me LISTENING to the man

Lol

5/7 2:40 PM

IMO, since the OBAMAcare BS... where the government requires you to have health insurance...

its sometimes better to get your own plan than it is through a company.

Jim Hoover 5/7 2:41 PM

God gave me two ears to listen more and one mouth to talk less

That's how I take it anyway

5/7 2:41 PM

let us know your premiums... so we can share with the rest of the guys....

Jim Hoover 5/7/2023, 2:41 PM

God gave me two ears to listen more and one mouth to talk less

only if we all took this advice more often...

me too

Russell Tidaback 5/7/2023, 2:41 PM

let us know your premiums... so we can share with the rest of the guys....

if they can get cheaper rates then we should cancel the company plan.

Jim Hoover 5/7 2:43 PM

5/7 2:44 PM

as a company, we have to jump through hoops for insurance, that you don't as an individual.

Jim Hoover 5/7 2:44 PM

I hate that

I have another paper I'm looking for for you to see

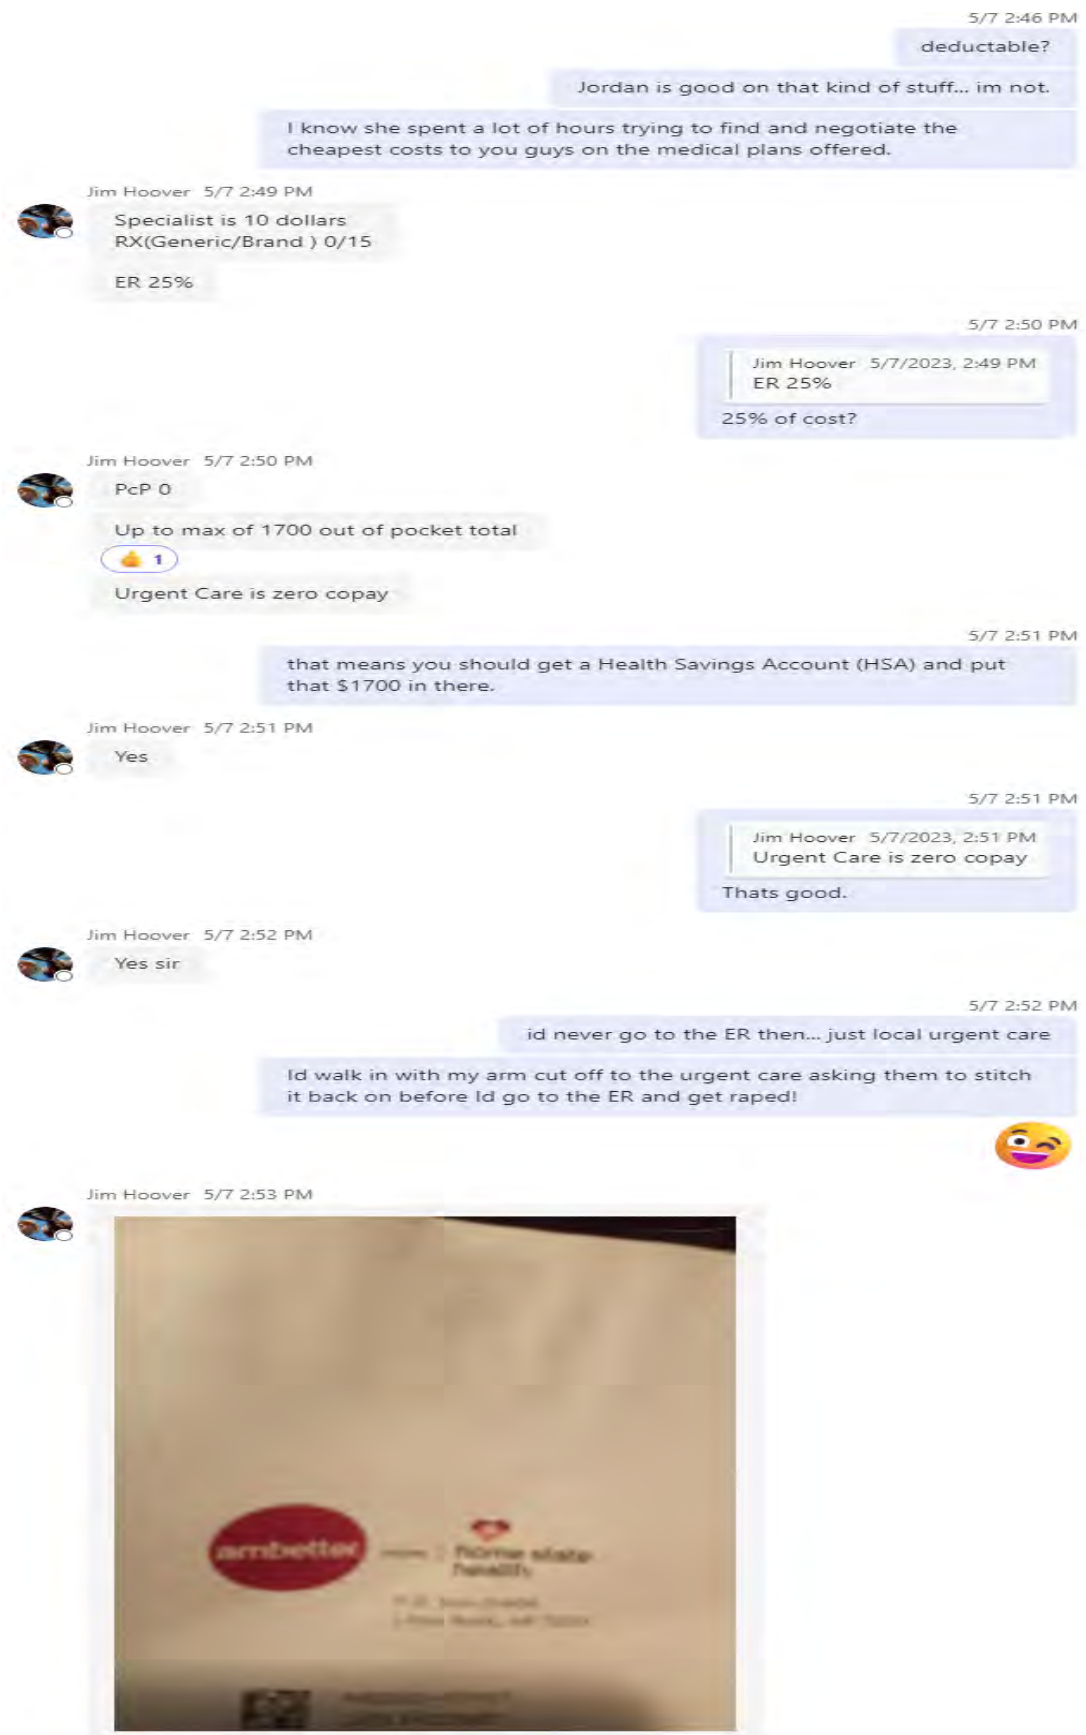

5/7 2:45 PM

that looks like it \$900 monthly but at the end of the year they give you a tax credit...

Jim Hoover 5/7 2:45 PM

Max out of pocket is 1,700 I think

Just showing if it helps

5/7 2:55 PM

if they are cheaper... thats good.

yeah

Jim Hoover 5/7 2:56 PM

Anyway so what is on your mind just keep running running running mill

5/7 2:58 PM

so, with the Mill.

We are interviewing a Production Assistant on Monday....

Jim Hoover 5/7 2:58 PM

Oh boy

5/7 2:58 PM

I think the PA, needs to be your back up...

you run the control room and just produce material....

Jim Hoover 5/7 2:59 PM

Yes

5/7 2:59 PM

the PA manages the workload

does all the paperwork

the QC

Jim Hoover 5/7 2:59 PM

100%

5/7 2:59 PM

etc...

Jim Hoover 5/7 2:59 PM

That's good

5/7 2:59 PM

BUT... he needs to know how to run the control room so when you take a vacation, sick, etc...

then John would be the PAs backup for the control room

I think your strength is producing product.

You can help the guys understand the machines... when issues arise

but you are at your best when producing product

NO EATING OR DRINKING IN THE CONTROL ROOM!

I repeat

Jim Hoover 5/7 3:01 PM  
 Yes sir glad you think that  
 I hear you

5/7 3:01 PM  
 NO EATING OR DRINKING...

Jim Hoover 5/7 3:01 PM  
 No eating or drinking

5/7 3:01 PM  
 okay so you hear me!

Jim Hoover 5/7 3:01 PM  
 Got that

5/7 3:02 PM  
 Now...

Jim Hoover 5/7 3:02 PM  
 GD IT JIM  
 🤔 1  
 Now ....?

5/7 3:02 PM  
 my thoughts are if we could get you and possibly Jeremy to come in at 6am and get the mill ready to produce...  
 at 8am...  
 then you two leave at 230pm...  
 that would, I believe help you with production numbers but also...  
 allow you to leave earlier in the day, when you start to peter out (tired)....  
 just my thoughts...  
 the mill associates and PA would come in at 8am - 430.  
 the PA would do the shut down...

Jim Hoover 5/7 3:05 PM  
 It takes 30 mintues to get the mill to roll 7 is plenty it would be rolling by 7:30

5/7 3:06 PM  
 7 would work too..

Jim Hoover 5/7 3:06 PM  
 I can have it rolling really in less than 20 mintues

5/7 3:06 PM  
 700 - 330

Jim Hoover 5/7 3:06 PM  
 Sure

5/7 3:06 PM  
 lets give the PA some time to get use to the shut down process... and then bring it to John.

Jim Hoover 5/7 3:07 PM  
 If that's what you want I will work tell 4:30 to help us get more of a number tell we start catching up

5/7 3:07 PM  
 would need to work it out with Jeremy or someone else to come in at 7am.

Jim Hoover 5/7 3:08 PM

I was thinking and talking to John the other day I have been walking Jeremy thru with me in mornings and since Ryan is there tell 4:30 having him walk with me at shut down what's your thoughts

I have been doing that

5/7 3:09 PM

either way... the maintenance guys need to know the start up and shut down process too.

the PA is your backup though.

Jim Hoover 5/7 3:09 PM

That's what I was thinking

Yes

WWRD

WHAT WOULD RUSS DO !!

That's what I came up with so I did that

5/7 3:10 PM

lol... you wouldnt want to know sometimes!!!

Jim Hoover 5/7 3:10 PM

With the maintenance

Lol your probably right

5/7 3:11 PM

Jim Hoover 5/7 3:11 PM

Tube mills is full charge 120 rolling

5/7 3:12 PM

yep, John sent a pic of it.

Jim Hoover 5/7 3:12 PM

Not below 100

5/7 3:12 PM

we need to watch the dates to see how long it lasts...

Jim Hoover 5/7 3:14 PM

See how the holes are rounded at some of the ends like a bigger hole

That's not good it's letting some of the small rocks get thru there but we got in there and fixed the serious problems that's for sure I told Jeremy we needed to get in there and look at that end and we found the problem it was killing the screens

On the fourth I told Rob the scrolls needed to be cut shorter he said no it will be alright I told him the product is going past the hole and covering the screens and making everything go back into return and he said how do you no that and I showed him and still blew me off

5/7 3:20 PM

he was a dick wad...

Jim Hoover 5/7 3:20 PM

It just really pissed me off that I would find the problem and he would just ignore it

I agree

Jim Hoover 5/7 3:25 PM

Also just to let you know robs BS TALK ABOUT taking 1:30 mins to shut down and run product all out is total BS it takes 20 mins from start to finish approximately 30 at most

5/7 3:39 PM

30 mins is what we discussed before Rob... he was just lazy

Jim Hoover 5/7 4:03 PM

True

May 9

11. Produce an unredacted, complete copy the Mill Group Chat, Microsoft Teams chat, from June 26, 2023.

RESPONSE: Please see the chat on June 26, 2023:

June 26

Jim Hoover 6/26 8:19 AM

So who is helping Ron and Rj today do we have any takers since pat is crushing

John Spears 6/26 8:20 AM

Pat can get us started in the crush room. Jeremy can take over after he does his maintenance rounds. Ryan can run the packer of and on as well.

Jim Hoover 6/26 8:27 AM

Alrighty thanks 🙌

Jim Hoover 6/26 8:59 AM

Delta we have a problem , we are losing a lot of heat

John Spears 6/26 9:01 AM

That needs looked into. [Jeremy Talbert](#) go see Jim. I'm on my way.

Jim Hoover 6/26 9:02 AM

Ryan is down there

John Spears 6/26 9:03 AM

Very good.

Jim Hoover 6/26 9:23 AM

We are going to be down for a little to repair the dryer

6/26 2:06 PM

Everyone make sure we are using LOTO and the established safety procedures. There is no reason for anyone to get injured at our location.

<https://www.msha.gov/data-reports/fatality-reports/2023/june-8-2023-fatality/fatality-alert>

You should expect MSHA to be diligently looking in the causes of this fatality at our location.

John Spears 6/26 2:09 PM

Russell Tidaback 6/26/2023, 2:08 PM

You should expect MSHA to be diligently looking in the causes of this fatality at our location.

That would not surprise me that we would be picked out.

I am running samples on the Cilas machine.

June 27

12. Produce documents related to the fatality referred to in John Spears' Mill Group Chat message on June 26, 2023, produced by Respondent in the document titled ALL Communications regarding MSHA.

RESPONSE: In response to your request for the production of documents related to the fatality referred to in John Spears' Mill Group Chat message on June 26, 2023. We appreciate your inquiry and the opportunity to clarify the information requested.

In the Mill Group Chat conversation on June 26, 2023, the mine operator posted a link to the June 8, 2023, fatality alert notice issued by the Mine Safety and Health Administration (MSHA). The referenced fatality is the same incident that is detailed in the MSHA's official alert notice.

As the requested documents are directly related to the MSHA fatality alert notice, we would like to clarify that the details and information regarding this fatality are available in the official MSHA documentation, including the alert notice itself. We do not possess any additional internal documents or materials related to this specific incident beyond what has already been publicly communicated by MSHA.

To provide you with the most accurate and complete information regarding this fatality, we recommend referring directly to the official MSHA fatality alert notice dated June 8, 2023. This notice contains all relevant details and findings related to the incident, as compiled and reported by the regulatory authority responsible for investigating and documenting such events.

Should you require access to the official MSHA fatality alert notice or have any further questions related to this incident or other matters, please do not hesitate to let us know.

13. Produce the Microsoft Teams chats regarding the following incidents/entries into the document titled Rob Baumann-Notes from Russell Tidaback employee journal:

- a. 26JUL2022 - Jeff states the shaker screen ripped because Rob didn't put bolts back in and just ran it like that. Rob told Miguel that he didn't care and that Miguel needed to get down. Rob shut things down sent everyone home early.
- b. 27JUL2022 - Christine states Rob is having the guys run straight 8 hours and bypassing the given break so they can go home earlier. I explained the break should be rotated so we can continue to produce for the 8.5 hours. The breaks are precautionary for employees dust exposure too. MO doesn't require breaks to be given. Plus they are only running bulk bags and that can be done with two people.
- c. 1AUG2022 - Christine states If Rob cannot get it done, we just need to replace him.
- d. 5AUG2022 - Jessie states there is no emphasis for the guys to help him. When he brings it to Rob, he shrugs his shoulders and walks away.
- e. 8AUG2022 - Christine wants to bring Rob to first shift as she doesn't believe Rob is doing what he is suppose to be doing without someone overseeing him. We cannot put Jim on nights due to being a single father and a young child at home.
- f. 9AUG2022 - Christine thinks we should train someone to replace Rob on the night shift.
- g. 16AUG2022 - Advised Christine to counsel Rob regarding shutting down and letting people go earlier than scheduled.
- h. 25AUG2022 - Rob needs counseling on filling out the BOL correctly. A shipper complained that he did it wrong and wasted their time.
- i. 31AUG2022 - Had discussion with Rob on the importance of inputting the daily production information in the spreadsheet. He said he would log in and get it done.
- j. 3SEP2022 - Had discussion with Rob regarding the daily production numbers and updating the spreadsheet accurately. I don't know if he is incompetent or just lazy.
- k. 28SEPT2022 - Rob not doing the CILAS reports as required for orders produced.
- l. 8OCT2022 - Jessie and Carson were waiting for Rob to get there. Rob was late getting there.
- m. 12OCT2022 - Had discussion with Rob regarding notifying and working with Carson to address the maintenance issues. Carson said Rob gets mad at everything and is hard to work with. I explained that getting angry and combative with others is not going to solve the issue any quicker.
- n. 13OCT2022 - Had to counsel Rob on following the production schedule as it is presented. He was not producing what was on the schedule. Rob said he didn't like having to check the computer or phone to do his job. I explained that the computer work was part of the role.
- o. 17OCT2022 - Had to explain Rob about the flow of the system and asked him why he wasn't reviewing the operating documents in the maintenance team files. His excuse was he didn't like to read on a computer.
- p. 26OCT2022 - Had to explain to Rob why the MAC vacuum system was spewing dust from the exhaust and that we had to shut the system down so DEQ doesn't get called. Jim states Rob doesn't know what he is doing.
- q. 2NOV2022 - John mentioned Rob showing his poor attitude again.

- r. 5NOV2022 - Had to get onto Rob about not properly keeping team shift hours correct in Shifts. He was writing them down on scratch paper and forgetting to update shifts. I don't know if he is just lazy or what. I explained that he can do this any time from the computer or his phone.
- s. 8NOV2022 - Had to inquire with Rob if he was shutting down early letting people go home early. The systems were showing shut down before the end of the shift.
- t. 1DEC2022 - While at AT had a discussion with Rob regarding his lack of attentiveness regarding ensuring the proper things were done with his team. The checklists werent being completed. The inspections werent being completed. The breakroom was a disaster. The fridge was disgusting. The trash wasn't taken out the day before, some of the windows were still open. The production floor was a mess. The back roll up door was off track. The bathroom was disgusting. The circuit breakers in Warehouse A was blocked by slip sheets.
- u. 16DEC2022 - Discussion regarding keeping the production team informed of what is expected to produce that day. Rob is lacking in managerial purpose for his team members.
- v. 26DEC2022 - Discussion with Rob regarding not meeting the daily production goals, team members complaining that he doesn't know what he is doing and that he just gets angry and stomps around like a child. He isnt a leader and allows his team to push him around. His response was just nodding his head. I stressed filling out the tasking board everyday and making sure the things get done. If he has problems with someone, take it to John and John will get it resolved. Jim blames Rob.
- w. 20JAN2023 - Kensley posted in the Ops chat group a pic of dust blowing out the back of the bldg. Again, had to stress to Rob that he needs to watch for any dust blowing out of the building. We cant have the Sheriff or DNR receiving complaints about us. We had to reiterate in the group that it was Robs responsibility to be inputting in the daily production worksheet what was produced each day before he leaves for the day. This wasn't been done.
- x. 25JAN2023 - Had to get onto Rob regarding keeping the completed bag inventory up to date. John and I discussed Robs attitude.
- y. 28FEB2023 - discussed with Rob about the task board. Starting to think we need to let Rob go. His attitude is one that he doesn't care about getting things done. He jokingly mentioned he liked being paid for not working.
- z. 20MAR2022 - Alex Snodgrass hired to eventually replace Rob.
- aa. 24MAR2023 - Discussion with John regarding Robs push back on stacking the bags today. I believe Robs attitude is infectious. We need Alex to take over for Rob and just let Rob go for performance issues.
- bb. 30MAR2023 - ATMO Safety discussion with Jessie about ensuring that Rob gets the tasks done. The tasks are established, just not getting enforced by Rob.
- cc. 5APR2023 - Alex informed us regarding accepting a neurology position at a hospital in Little Rock. Neurology is his degree is in. John and I discussed just letting Rob go.
- dd. 7APR2023 - John, Jordan and I discussed letting Rob go.
- ee. 12APR2023 - Time to let Rob go. He is afraid to make the system work and cant meet the simple daily quotas. If Jim can get it done why cant Rob. Need to look at the mill structure again. Jim can run the Mill, we just need to get a manager of people to manage the team. Hopefully, Brian Edwards can do it. He can manage the people, QC, inventory and the reporting. Jim can run the mill. Brian will need to learn how to as a back up to Jim.

ff. 14APR2023 - Warned John about an MSHA complaint when we let Rob go. Robs termination will be based on production performance, not following guidance given by management, not ensuring the safety of the mill associated by utilizing the proper controls, etc. Send John the termination letter.

gg. 16APR2023 - Ask Keith about miner pay and withdrawal order. Robs termination letter sent to John.

RESPONSE: These notes were from Mr. Tidabacks personal daily notes journal which is done on a Rocketbook wipeable notebook. These were not input into a Microsoft Teams Chat.

14. Produce all Microsoft Teams chats between Robert Baumann and any owner, supervisor or manager of Respondent.

RESPONSE: In your request for the production of all Microsoft Teams chats between Robert Baumann and any owner, supervisor, or manager of Respondent. We appreciate your patience as we work diligently to fulfill this highly technical request.

Due to the specialized nature of retrieving Microsoft Teams chats, we are currently in the process of coaching our managers and supervisors on the necessary steps to access and compile the requested information. This process involves ensuring that all relevant chats are securely retrieved and properly documented to meet your requirements.

We understand the importance of providing a comprehensive and accurate response to your request and are committed to delivering the requested Microsoft Teams chats as soon as they are available. Our team is actively working on this matter, and we anticipate completing the retrieval process within a reasonable timeframe.

Please be assured that we take your request seriously and are making every effort to facilitate the retrieval of the requested chats efficiently and effectively. We will notify you as soon as the information is ready for submission.

Fixed flat tire on forklift, crushed, pulled more filters out of the green monster, finished cleaning WHSE-B, fixed more leaks, leveled out big dumpster which is ready for pick up, working on dock plate, Josh, Ben, and Patrick all left at noon.

Cleaned filters for big green

Fixing air leaks, fixed dock plate, worked on air tank on 4th floor, pulled more filters out of green monster, worked on c-15 filters, and consolidated all rework bulk bags out of the way.

Cleaned filters for big green, got dock plate down and put at nw door, finished loading trash off 2nd floor

Pulled 200 filters, installed 400 filters, fixed air leaks on the vacuum system, Jim, Josh were both out, and Landry left at noon.

Installed the rest of the undamaged filters and tightened them down.

Worked on the quincy and aircel dryer. Worked on the big mac intelligent board error.

Cleaned outside under macs ,got area cleaned for instulation of scroll

Patched vacuum leaks, worked on tube mill door, messed with finding gas leaks

Cleaned top of bagger, sorted filters for big green, patched mutiple leaks on flour elevater

Fixed vacuum leaks, fixed garage door, gas leaks again, put the donaldson back together, worked on 4th floor compressor for the vibrator

Worked on vibrator compressor and got it put back together, patched vacuum leaks, painted weak spots on floor, pulled more duct down to unclog, Pat and Landry were both out all day.

Cleand 4th floor crusher elevator, flour elevator, patched more leaks

## **REQUESTS FOR PRODUCTION OF DOCUMENTS**

1. Produce the document, attached hereto as Exhibit A, which was produced by Respondent in docket CENT 2023-0196 in response to discovery, for the time period of January 1, 2022 through August 1, 2023. As the time period of November 3, 2022 through March 31, 2023 has already been produced in Exhibit A, to the extent it is easier to exclude these time periods from this production, that is acceptable.

RESPONSE: Attached is the document, labeled “Daily Production JAN 2022 - NOV 3 2022 AND APR 2023 - AUG 2023.xlsx” with the time periods as requested, January 1, 2022 – November 3, 2022, and April 1, 2023 – August 1, 2023.

RB

Rob >

Thanks man.

Wed, Apr 12, 9:00 PM

No work tomorrow. We're trying to get us back in the building.

👍 to "No work tomorrow. We're trying to get us back in the building. "

Ok we can go into the building just no electric and we can load trucks and he would probably let us turn the wrapper on if I call him to finish that order for shipment if they don't figure crap out I can check and work at least getting that ready Friday if he would at least like that done since he has to pay us anyway

Text Message

April 14

John Spears 4/14 8:18 AM

JS

We're headed to the PFT test now.

From Rob.

Looks like we are in titled to up to a week pay because nothing was done about the safety situation until we were under the withdrawal. But legally have to pay us for the 12 hrs then we all file for the other hours and technology we ran illegal on Monday and Tuesday. Don't really want to have to file with msha but we the mine workers were not at fault

4/14 8:59 AM

I cant see the attachment.

John Spears 4/14 9:08 AM

JS

#### Miners' Representatives - Participating in Inspections

Your miners' representative has the right to accompany an MSHA inspector during activities that involve enforcement of health and safety standards and to participate in conferences before and after the inspection occurs.

Your representative participates in our inspection without loss of pay under certain circumstances.

Every shift should have a miners' representative available to participate in an inspection. If there is no representative available at your mine, two or more miners may select one to travel with the MSHA inspector. Should you decide not to select a representative (or a representative is not available) the MSHA inspector will talk with a reasonable number of miners about health and safety matters at the mine.

#### Reporting Possible Violations and Imminent Dangers

You may tell MSHA at any time about a violation of the Act, violation of health and safety standards, or the existence of an imminent danger. You can do this by word of mouth or by calling or writing any MSHA inspector or office. Your identity remains confidential. To report a mine accident or a mine hazard, "One Call Does It All" at 1-800-746-1553.

#### Can I Receive Pay If I Miss Work Because of a Withdrawal Order?

If:

You are working on the shift when a withdrawal order is issued and you are idled by the withdrawal order, you are entitled to full regular pay for the time lost, but only for the balance of the shift.

The order is not terminated before the next shift, all the miners on the next shift are entitled to be paid at their regular rate for the time they are idled, up to four hours.

You are withdrawn from the mine or part of the mine and idled because the operator does not comply with any mandatory safety or health standard, you are to be paid for lost time at your regular rate for the time you are idled, or for one week, whichever is the lesser.

The operator fails to comply with a withdrawal order issued under the Act and keeps you working in the area to which the order applies, you are entitled to receive double pay for the time you worked while the withdrawal order was in effect. NOTE: If you are working to correct the condition that resulted in the withdrawal order, then you are not working in violation of the order and are not entitled to double pay.

You or your representative believe you are entitled to compensation, and have not been paid, you must file a complaint with the Federal Mine Safety and Health Review Commission. Your complaint must be filed within 90 days after the idle period began or should have begun. For additional information, please visit the Commission's Web site at [www.fmshrc.gov](http://www.fmshrc.gov).

#### Training (Part 48 and Part 46)

Here it is.

4/14 9:09 AM

Yes, I understand...

#### 30 CFR § 104.2 - Pattern criteria.

##### § 104.2 Pattern criteria.

(a) For each violation, the MSHA inspector will determine if the violation is a pattern violation. A pattern violation is one that is repeated, systematic, or willful.

(b) The following are examples of pattern violations:

- (1) Repeated violations of the same or similar nature.
- (2) Repeated violations of the same or similar nature occurring over a period of time.
- (3) Repeated violations of the same or similar nature occurring in the same area.
- (4) Repeated violations of the same or similar nature occurring in the same shift.
- (5) Repeated violations of the same or similar nature occurring in the same mine.
- (6) Repeated violations of the same or similar nature occurring in the same district.
- (7) Repeated violations of the same or similar nature occurring in the same region.
- (8) Repeated violations of the same or similar nature occurring in the same country.

(c) If the MSHA inspector determines that a violation is a pattern violation, the inspector will issue a citation for the violation.

<https://www.law.cornell.edu/cfr/text/30/104.2>

Check the ATMO Safety chat... Jessie was inquiring as well.

John Spears 4/14 9:11 AM

JS

Looks good.

4/14 9:12 AM

By all means, if Rob thinks we did something "illegal", then he should bring it up...

From Rob:

Looks like we are in titled to up to a week pay because nothing was done about the safety situation until we were under the withdrawal. But legally have to pay us for the 12 hrs then we all file for the other hours and technology we ran illegal on Monday and Tuesday. Don't really want to have to file with msha but we the mine workers were not at fault

Again, it isnt that the 104(b) states we cannot work in the Mill. It states that we cannot create the hazard, aka create a dusty atmosphere.

We can pay the guys to come in an do other things... but this is as I mentioned previously... we need them to be productive towards production...

John Spears 4/14 9:13 AM

JS

Russell Tidaback 4/14/2023, 9:12 AM

We can pay the guys to come in an do other things... but this is as I mentioned previously... we need them to be productive towards...

Yes I agree.

4/14 9:14 AM

expect a MSHA complaint when Rob is let go... the writing is on the wall.

John Spears 4/14 9:15 AM

JS

Russell Tidaback 4/14/2023, 9:14 AM

expect a MSHA complaint when Rob is let go... the writing is on the wall.

Yes sir, I see that same writing.

4/14 9:16 AM

Lets have our meeting rescheduled to this afternoon, since you are at an exam.

Jordan Tidaback 4/14 9:16 AM

ok

John Spears 4/14 9:16 AM

JS

Yes sir.

4/14 9:18 AM

Rob's termination will be based on production performance, not following guidance given by management, not ensuring the safety of the mill associated by utilizing the proper controls, etc. He doesn't have to sign it, we just need to have a document of why he was let go.

John Spears 4/14 9:56 AM

JS

Russell Tidaback 4/14/2023, 9:18 AM

Rob's termination will be based on production performance, not following guidance given by management, not ensuring the safety...

Yes sir.

John Spears 4/14 12:10 PM

JS

**Russell Tidaback** We are back at the mill. @

I emailed Mr. Markeson and said I would be here until 5:30pm.

4/14 12:14 PM

Did he say he'd be coming to the mill?

I got your email... sorry.

John Spears 4/14 12:15 PM

JS

He would today but it would be after hours.

# AMERICAN TRIPOLI

**Mailing Address:** 2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:** 5 Oneida Street, Seneca,  
MO 64865

April 17, 2023, 9:00 AM

Dear Robert Baumann,

I regret to inform you that your employment with American Tripoli will be terminated effective immediately due to poor performance, lack of leadership skills, and for failure to follow procedures and guidance given by your supervisor.

We have made several attempts to address these issues with you through coaching, feedback sessions and open communication channels, but unfortunately, we have not seen any improvement in your performance and the data reflects this.

Please note that you will receive your final paycheck, as scheduled, on the upcoming pay date, which will include any accrued benefits owed to you.

I am very disappointed that this opportunity did not work out as I had high hopes for you.

If you have any questions or concerns about this decision, please do not hesitate to contact me.

Sincerely,

*Russell Tidaback*

smith.elaine.m@dol.gov

Dear Ms. Laura Orielly,

Responding to the interrogatories, requests for production of documents, and requests for admission on behalf of Respondent American Tripoli:

### **INTERROGATORIES**

**INTERROGATORY NO. 1:** State the facts you contend support your claim that you did not violate Section 105(c) of the of the Mine Act, 30 U.S.C. § 815(c), by terminating Robert Baumann.

**ANSWER:** The termination of Mr. Robert Baumann was not related to his engagement in protected activities under the Mine Act, but rather due to his consistently poor performance and the necessity for an appropriate timing of a new hire to replace him.

1. **Performance Issues:** Throughout Mr. Baumann's employment at American Tripoli, there were ongoing documented performance issues that were discussed for months prior to his termination. These issues included concerns about his competence, work ethic, and ability to fulfill his role as a shift lead. The decision to terminate Mr. Baumann's employment was primarily based on his performance during his tenure at American Tripoli. Numerous personal notes and discussions over the months prior to his termination demonstrate that his job performance was consistently unsatisfactory. These records attest to his inability to perform his duties satisfactorily as a shift lead, including failing to ensure proper work was completed within his specified work group, missing deadlines, and displaying an inability to accept

---

and provide feedback to his team members.

Mr. Baumann consistently demonstrated incompetence and a poor work ethic, as evidenced by the excessive number of citations received for his area of responsibility during his relatively short employment with American Tripoli.

2. **Replacements and Competency:** American Tripoli made multiple efforts to find a suitable replacement for Mr. Baumann. The hiring of Mr. David Daigle in April 2022 was part of these efforts. Unfortunately, Mr. Daigle resigned a week later. Subsequent hires in August 2022 (Mr. Will Shallenburger), November 2022 (Mr. Richard McClelland), and March 2023 (Mr. Alex Snodgrass) were also made in an attempt to replace Mr. Baumann, each candidate demonstrating greater competency and leadership skills than Mr. Baumann. It is important to note that it was Mr. Alex Snodgrass's hiring in March 2023 that seemed to signal to Mr. Baumann that his tenure was being challenged, leading to a further decline in his attitude.
3. **Proactive Safety Measures:** American Tripoli is committed to maintaining a safe and compliant work environment. We have established policies and procedures that encourage open communication and reporting of safety concerns by all employees, including Mr. Baumann. Active communication channels were in place for all miners to express their concerns regarding safety and compliance. During his tenure, Mr. Baumann and other miners were encouraged to bring forward safety issues, and the mine operator consistently took swift action to address these concerns.
4. **Absence of Official Engagement in Protected Activities:** It is imperative to emphasize that Mr. Baumann did not serve as a designated representative of miners, nor did he submit any relevant information to the MSHA District Manager or to the mine operator, as required by 30 CFR Part 40. Every miner possesses the right to engage and accompany an MSHA inspector during an inspection, as stipulated by the Miner's Act. However, it's important to clarify that mere participation in such activities does not automatically confer upon a miner the designation of a miners' representative. In his claim, he states that he served as a representative of miners in an official capacity. However, the mine operator had no prior knowledge of any such intent or stated performance. If the mine operator had been

[CustomerService@AmericanTripoli.com](mailto:CustomerService@AmericanTripoli.com)

Exhibit P-39, Page 0002

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

informed of Mr. Baumann's desire to act as a miners' representative, they would have readily provided support and assistance to facilitate their involvement. This support would have included a more comprehensive briefing on the operations, ensuring that the designated person had the necessary insights to effectively address any inquiries from an inspector. This, another example of Mr. Baumann's lack of communication and leadership skills or experience. Regrettably, the mine operator was only made aware of Mr. Baumann's claim or supposed intention to serve as a representative of miners when the complaint was received by the commission. These points clarify the timeline and the lack of awareness regarding Mr. Baumann's purported role as a representative of miners and that his termination was entirely unrelated to protected activities under the Mine Act.

5. **Inconsistent Claims:** Mr. Baumann's current assertions about unaddressed safety concerns are inconsistent with the documented history of safety communication and resolution during his tenure. It is crucial to consider the inconsistency between his current claims and the historical record of safety communication and resolution within the company.
6. **Questioning the Timing:** We urge you to consider the timing of Mr. Baumann's claims about any unresolved safety issues. The mine operator offers numerous communication channels to express or bring forward and safety concerns. If Mr. Baumann had concerns, he did not utilize any of the available opportunities. Notably, he has only made any claims such claims after his termination. This timing raises questions about his motives and the credibility of his assertions.
7. **Notice of Termination:** Mr. Baumann received his notice of termination on April 17, 2023. It is notable that, as evidenced by the Kansas Department of Labor's rules and Unemployment Benefits Form 2023, Mr. Baumann applied for unemployment insurance benefits on April 16, 2023, potentially indicating his intention to quit the next day. Therefore, his termination was not related to his protected activities, but rather based on his poor performance.

[CustomerService@AmericanTripoli.com](mailto:CustomerService@AmericanTripoli.com)

Exhibit P-39, Page 0003

Seneca, MO 64865  
Office (239) 829-5457

- 
8. **Legal and Ethical Obligations:** The mine operator has a legal and ethical obligation to ensure a safe work environment for all employees. We remain committed to supporting employees' rights to report safety issues without fear of retaliation.

In conclusion, American Tripoli vehemently denies that Mr. Baumann's termination was in violation of Section 105(c) of the Mine Act. The decision to terminate Mr. Baumann was a result of his consistent poor performance, inability to fulfill his responsibilities, and the company's efforts to maintain the safety and efficiency of its operations, and not because of any protected activities he may have engaged in under the Mine Act. The proposed civil penalty is excessive and unwarranted, considering the specific circumstances of the case.

**INTERROGATORY NO. 2:** State the facts you contend support your claim that you did not violate Section 105(c) of the Mine Act, 30 U.S.C. § 815(c) by interfering with miners' rights at the MoSenecaMfr LLC dba American Tr mine, as outlined in Count II of the Complaint filed in this docket.

**ANSWER:** In response to Count II of the Complaint, which alleges interference with miners' rights under Section 105(c)(1) of the Mine Act, the Respondent vehemently denies the allegations and submits the following arguments and facts to refute the claim of interference.

**1. INTENT OF COMMUNICATION:**

The primary argument against the interference complaint centers around the intent behind Mr. John Spears' message to Mr. Gage Wheeler during the MSHA inspection on 14FEB2023. The message was not intended to interfere with miners' rights but rather to facilitate communication and ensure accurate information transfer to the MSHA inspector. We want to clarify that the communication on February 14, 2023, was directed to a specific miner, Gage Wheeler, and was not a message sent to all miners. Mr. Gage Wheeler, who had a history of being confrontational during past MSHA inspections. Therefore, it was crucial to address potential issues in communication. This communication has been included in the "ALL Communications regarding MSHA.pdf, 14FEB2023 - John message to Gage about MSHA inspector.png, 14FEB2023 - John message to Gage about

[CustomerService@AmericanTripoli.com](mailto:CustomerService@AmericanTripoli.com)

Exhibit P-39, Page 0004

**Mailing Address:**

2701 East Grauwylers Road, Bldg 1,

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

MSHA inspector 2nd part.png, 14FEB2023 - Russell message to John about not telling Gage to speak with MSHA inspectors.png" document for your reference. See folder "Request for Documents 20". Therefore, it was crucial to address potential issues in communication. This is a testament to the mine operator's commitment to ensuring smooth inspection processes.

**2. RESPECT FOR MINER RIGHTS:**

The Respondent reaffirms its unwavering commitment to respecting miners' rights to report safety or health issues to MSHA and to participate in inspections without interference. The mine operator has always upheld these rights and encouraged employees to express their concerns regarding safety and compliance without fear of retaliation. This commitment to miner rights was consistently maintained throughout Mr. Baumann's tenure, as well as during the MSHA inspection in question. There were no actions taken to undermine miners' rights to engage with MSHA inspectors.

**3. DISMISSAL OF INTERFERENCE CLAIM:**

The allegations in the interference complaint, as detailed in Count II, are not substantiated by concrete evidence or facts. While the complaint alleges that Respondent interfered with miners' statutory rights, there is no proof that Mr. Baumann was told not to speak with MSHA inspectors or that his rights were compromised in any way. Furthermore, the Respondent addressed any potential misunderstandings with miners, such as Mr. Gage Wheeler, to clarify that they were free to speak with MSHA inspectors. Mr. Gage Wheeler, having undergone MSHA training on miners' rights, confirmed that he did not feel that Respondent's message interfered with his rights.

In conclusion, the interference allegations in Count II of the Complaint lack substantial evidence and should be dismissed. The Respondent's actions have consistently been aimed at ensuring safety and compliance while respecting miners' rights. The complaint does not establish any violation of Section 105(c)(1) of the Mine Act. The proposed civil penalty is unwarranted in this case, as there is no basis for the interference claim, and the Respondent remains committed to maintaining a safe and healthy work environment.

**INTERROGATORY NO. 3:** Set forth the job duties, title and responsibilities of Robert Baumann while he was employed by Respondent, including the dates of his employment in each role.

**ANSWER:** Mr. Robert Baumann served as a Shift Lead at our facility from June 16, 2022, to April 17, 2023. As a Shift Lead, Mr. Baumann had specific responsibilities to ensure the efficient and safe operation of our mill facility. His duties and responsibilities included but were not limited to the following:

**Shift Lead Duties:**

**Oversee Mill Associates:** While Mr. Baumann was not a supervisor, he provided guidance and support to Mill Associates, ensuring they carried out their tasks efficiently and complied with safety and operational guidelines.

**Daily Assignment of Start-Up and Shut-Down Tasks:** On a daily basis, Mr. Baumann was tasked to assign and ensured the completion of start-up and shut-down tasks on the boards located in the breakroom, contributing to the mill's daily operations efficiencies.

**Rotation Schedule and Task Assignments:** Daily, Mr. Baumann was tasked to assign roles, follow rotation schedules, and delegate specific tasks to Mill Associates to ensure the smooth functioning of the mill.

**Time Tracking:** Mr. Baumann was tasked to maintain records of worked hours, paid time off (PTO), or unpaid leave for Mill Associates, which was crucial for time management and payroll purposes.

**Enforcement of Safety Procedures:** He was responsible for reminding Mill Associates to wear appropriate personal protective equipment (PPE) and collaborated with the Environmental and Safety Specialist to ensure compliance with MSHA and company safety regulations. Which he lacked tremendously and the citations received during his tenure exemplify this.

**Utilization of MS Teams for Collaboration:** Mr. Baumann was tasked to actively use Microsoft Teams to foster collaboration and communication among team members, contributing to a cohesive and efficient work environment for which he failed at.

---

**Control Room Backup:** He was tasked as the backup for the control room, which entailed operating the control room in the absence of the more experience Mill Associate.

**Control Room Operation:** In the absence of the more senior Mill Associate due to leave or other circumstances, Mr. Baumann was tasked for operating the control room, which is a mission-critical aspect of mill operations.

**Startup and Shutdown Procedures:** Mr. Baumann was tasked with the startup and shutdown procedures of the mill, ensuring they were executed according to established protocols.

**Collaboration with Quarry Associate/Operations Manager:** He was tasked to collaborate with the Quarry Associate and Operations Manager, specifically regarding material deliveries, crushing operations, and any material-related requirements for mill production.

**Mill Product and Production Supply Inventory:** Mr. Baumann was tasked to conduct monthly inventory counts for various supplies and materials, including bags, pallets, stretch wrap rolls, slip sheets, and oil, ensuring accurate records for operational purposes for which he failed at miserably.

**Shipping/Receiving Paperwork:** He was tasked in the preparation and verification of shipping and receiving paperwork, ensuring all relevant documents were complete and accurate. He also assisted truck drivers with paperwork-related inquiries and processing for which he struggled with the entire time.

**Mailing/Preparing Easy-to-Handle Bags:** Mr. Baumann was tasked with preparation of easy-to-handle retail bags, contributing to our efficient order fulfillment process for which his performance was so lacking that we were never able to get him to do this tasking.

**Quality Control/CILAS Reports:** He was tasked to run CILAS (Coupled Ion Chromatography and Light Scattering) reports after each grade of product was produced, maintaining quality control records. Again his performance was so lacking that we were never able to get him to do this tasking.

**Preventive Maintenance Schedule:** Mr. Baumann was tasked to collaborate with the maintenance team to update the preventive maintenance schedule as tasks were completed or needed to be added, ensuring the

Office (239) 829-5457

equipment's reliability and longevity. Again, his performance was so lacking that we were never able to get him to do this tasking.

Mill Parts/Supplies Requests: He was tasked to work closely with the maintenance team to identify and request necessary parts and supplies, including online searches and submission of quotes to the Operations Manager for approval and purchasing. Again, his performance was so lacking that we were never able to get him to do this tasking.

Additional Tasks: Mr. Baumann struggled with effectively completing the above tasks and responsibilities as requested by different departments, showcasing his flexibility and dedication to the smooth operation of the facility that he was not respected by his peers.

Professional Development Counseling: He was tasked to work with the Operations Manager to conduct professional development counseling sessions, focusing on the growth and development of Mill Associates. These, due to his poor performance, never happened.

While Mr. Baumann was a shift lead, not a supervisor, this role is instrumental in various aspects of mill operations. This detailed overview of his job duties during his employment at our facility accurately represents the nature of his role at American Tripoli.

**INTERROGATORY NO. 4:** If Respondent claims that a defense or affirmative defense is applicable to the claims at issue in this case, please identify each such defense and state with particularity the material facts supporting such defense.

**ANSWER:** While we understand the need for transparency and adherence to legal processes, we firmly contend that requiring the immediate identification of defenses with particularity may not be suitable for the complex and evolving nature of this case. It is essential to uphold the principles of fairness, due process, and the right to develop a comprehensive defense. We propose that the Respondent be allowed to identify defenses as the case unfolds, ensuring that both parties have an equal opportunity to present their positions

effectively. This approach will safeguard the integrity of the legal process while preserving the rights of all parties involved.

**INTERROGATORY NO. 5:** Set forth the reasons Robert Baumann was terminated, who participated in the decision to terminate Robert Baumann, and the date such decision was made.

**ANSWER:** The termination of Mr. Robert Baumann was based on well-established principles of employment and operational policies. The decision to terminate an employee is never taken lightly and is made in consideration of multiple factors, including the overall safety and efficiency of our operations. Below, we provide a general outline of the principles that guided Mr. Baumann's termination and the individuals involved in the decision.

**Principles for Termination:**

Mr. Baumann's termination was the result of several factors, including but not limited to:

- **Poor Performance:** Mr. Baumann's performance as a shift lead consistently fell below acceptable standards, demonstrating an inability to fulfill his role effectively.
- **Lack of Leadership Skills:** Mr. Baumann's performance was hindered by a lack of leadership skills, which were essential for his position.
- **Failure to Follow Procedures and Guidance:** Despite several attempts to address these issues through coaching, feedback sessions, and open communication channels, Mr. Baumann did not exhibit any signs of improvement in his performance or attitude.
- **Safety Concerns:** Safety is a paramount concern in our operations. Mr. Baumann's disregard for safety guidelines, and failure to take safety matters seriously, created an unsafe work environment for himself and his colleagues.
- **Also following the Missouri Department of Labor Discharged Employees and Final Wages,** Missouri follows the Employment-At-Will doctrine. This means that both the employer and

---

employee can terminate the employment relationship at any time and for any reason, as long as there is no employment contract to the contrary, there is no discrimination under civil rights laws (based on race, color, age, national origin, religion, ancestry, sex, or physical/mental disability), no merit laws apply, or the state's limited public policy exception does not apply.(  
<https://labor.mo.gov/dls/general/termination-final-wages>)

**Participants in the Decision:**

The decision to terminate Mr. Baumann was made collectively by management personnel within our organization. It is important to emphasize that the decision was based on a thorough assessment of Mr. Baumann's performance, through different managers' feedback, in alignment with established company policies.

**Date of the Decision:**

The decision to terminate Mr. Baumann was made in accordance with company protocols and procedures, and it was communicated to Mr. Baumann on April 17, 2023. It is important to note that termination is not an abrupt action but a culmination of ongoing discussions, evaluations, and attempts to improve an employee's performance over time.

In conclusion, the decision to terminate Mr. Baumann was based on general principles of employment and operational policies to ensure the safety and efficiency of our operations. We remain committed to safeguarding both individual rights and operational integrity while adhering to legal and ethical standards.

**INTERROGATORY NO. 6:** Identify by name, job title, job duties, dates of employment, phone number, email address, and home address, each individual employed by Respondent at the MoSenecaMfr LLC dba American Tr mine from June 1, 2022 through April 17, 2023.

**ANSWER:** Respondent provides the following information regarding individuals employed at American Tripoli from June 1, 2022, through April 17, 2023:

**REQUESTS FOR PRODUCTION OF DOCUMENTS**

1. Produce all documents identified or referred to in your answers to the interrogatories above.

**RESPONSE:** In response to your request for production of documents, we have provided attachments that include all documents identified or referred to in our answers to the interrogatories. Please find these documents attached to this response in the respective labeled folder. If you have any specific questions or require further clarification regarding any of these documents, please do not hesitate to reach out, and we will be happy to assist further.

2. Produce the documents related to the terminations identified in response to Interrogatory No. 7.

**RESPONSE:** In accordance with your request to produce documents related to the terminations identified in response to Interrogatory No. 7, You will find these letters in the attached document labeled '*Individual name* - date - Termination Letter' in folder labeled "Request for Documents 2". If you require any further information or have additional questions, please feel free to contact us for clarification or any other assistance needed.

3. Produce all documents which you contend support any claims or defenses you have or may raise to the claims at issue in this docket.

**RESPONSE:** In response to your request to produce documents that support any claims or defenses we have or may raise in this docket, we acknowledge the importance of transparency and cooperation in the legal process. While we understand your desire for particularity, it's crucial to note the complex and evolving nature of this case. Requiring the immediate identification of defenses may not align with the principles of fairness, due process, and the right to develop a comprehensive defense.

We propose an approach that allows both parties to identify defenses as the case unfolds, ensuring a balanced opportunity to present positions effectively. This approach will safeguard the integrity of the legal process while respecting the rights of all parties involved.

We are fully committed to complying with our legal obligations and cooperating in the discovery process. As such, we are providing all relevant documents and will promptly provide any additional relevant documents as they become available and maintain open communication with your team. If you require specific documents or have further inquiries related to this request, please do not hesitate to reach out to us for clarification and assistance.

4. Produce the documents pertaining to any of Respondent's denials that it did not commit the alleged 105(c) violations set forth in the Complaint in this docket.

**RESPONSE:** In response to your request to produce documents related to any of our denials concerning the alleged 105(c) violations set forth in the Complaint in this docket, we understand the significance of transparency and adherence to the legal process. We are fully committed to cooperating and complying with our legal obligations.

We have provided the Operator's Answer, Document No. CENT 2023-0251 – Operator's Answer.pdf, to the complaint, located in folder "Request for Documents 4", and will continue to promptly provide documents related to any denials as they become available in the course of this legal proceeding. This approach ensures that both parties have equal opportunities to present their positions effectively and maintains the integrity of the legal process.

If you require specific documents or have further inquiries concerning this request, please feel free to contact us for clarification and assistance. We are dedicated to upholding the principles of due process and a fair legal process, and we look forward to working cooperatively with your team throughout the discovery process.

5. Produce Robert Baumann's personnel file.

**RESPONSE:** In response to your request for Robert Baumann's personnel file, please find attached the requested personnel file for Robert Baumann labelled "Request for Documents 5". This file contains all

relevant information regarding his employment, performance, and any related matters during his tenure with our organization.

We are committed to providing the necessary documents and information as part of our cooperation in this legal process. If you have any further requests, require additional information, or have any specific questions regarding the personnel file, please do not hesitate to contact us. We are dedicated to ensuring a transparent and fair process throughout the course of this legal proceeding.

6. Produce the documents showing all training provided to Robert Baumann while he was employed by Respondent.

**RESPONSE:** We acknowledge your request for all training records related to Robert Baumann during his employment with our company. Please be advised that Robert Baumann received mandatory training required by the Mine Safety and Health Administration (MSHA) during his tenure with our organization. This training includes but is not limited to new miner training and other MSHA-required safety and health courses.

It's important to note that our company primarily provides MSHA-mandated training, and any additional training is often self-driven or related to specific tasks and equipment operation.

We will provide all records related to the MSHA-required training received by Robert Baumann as part of this response. However, please understand that there may be limited records for additional training beyond MSHA requirements as most of his responsibilities were covered by the mandatory safety training. All presented and available 24/7 employee training, see the documents in the attached folder labeled "Request for Documents 6".

If you have specific questions or require further clarification regarding the provided training records, please do not hesitate to contact us. We are dedicated to ensuring transparency and compliance with all aspects of this legal proceeding.

7. Produce the documents showing all payments and compensation made to Robert Baumann by Respondent.

**RESPONSE:** We acknowledge your request for documents showing all payments and compensation made to Robert Baumann by our company. Please find attached the document 'Robert Baumann Payroll Detail 07.01.22-04.21.23.pdf,' in folder "Request for Documents 7", which contains the relevant payroll information for Mr. Baumann during his employment with us.

The attached document includes detailed payroll records, payment history, and compensation breakdowns, and it should address your request adequately.

We are committed to providing any additional information or clarifications you may require during the discovery process. If you have any further questions or need additional documents, please don't hesitate to reach out.

8. Produce the documents showing all benefits provided to Robert Baumann by Respondent, including insurance benefits, retirement benefits, and paid leave.

**RESPONSE:** We provided Robert Baumann with the opportunity to enroll in medical and dental insurance benefits; however, he chose not to apply for these benefits during his employment with us. Additionally, Mr. Baumann was offered a Red Wing boot voucher but did not utilize it.

For a comprehensive overview of Mr. Baumann's benefits, including insurance benefits, retirement benefits, and paid leave, please refer to the attached document labeled "American Tripoli Employee Handbook.pdf." This document outlines the summary of benefits made available to him during his employment with Respondent.

In addition, for Mr. Baumann's accrued paid time off, consult the attached document titled "Paid Time Off Accruals for Mr. Baumann.pdf." This document provides details about his paid time off accruals. Both of the above-mentioned documents are in folder labelled "Request for Documents 8".

**Mailing Address:**

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

9. Produce the documents showing the hours worked by Robert Baumann while he was employed by Respondent.

**RESPONSE:** Please find attached the document labeled "Robert Baumann Payroll Detail 07.01.22-04.21.23.pdf." located in folder labelled "Request for Documents 9". This document provides a detailed record of the hours worked by Robert Baumann during his employment with Respondent, covering the period from July 1, 2022, through April 21, 2023. The hours worked are accurately recorded in this document.

10. Produce your employee handbook and/or any other documents which set forth the conditions and/or terms of employment for employees at the MoSenecaMfr LLC dba American Tr mine in effect at any time from June 1, 2022 through April 17, 2023.

**RESPONSE:** See attachments Robert Baumann\_American Tripoli Position Offer Letter.pdf and the American Tripoli Employee Handbook.pdf in folder labelled "Request for Documents 10".

11. Produce the documents reflecting any discipline of Robert Baumann.

**RESPONSE:** We acknowledge that there were instances where disciplinary actions were taken concerning Mr. Robert Baumann; however, it is important to note that the company's disciplinary process, as outlined in the employee handbook, allows for flexibility in addressing employment issues. While the handbook provides for a progressive discipline process, it also clarifies that the company is not bound by a specific sequence and reserves the right to address matters promptly, in accordance with the "at-will" employment relationship. We are committed to providing any available records reflecting the disciplinary actions taken. Please note that while the "written" part of the progressive discipline process was not consistently documented, appropriate actions were taken to address the concerns and maintain compliance with company policies.

**Mailing Address:**

Seneca, MO 64865  
Office (239) 829-5457

---

12. Produce the documents reflecting any safety complaints made or safety concerns raised by Robert Baumann to any of Respondent's managers, owners or supervisors.

**RESPONSE:** While we take safety concerns seriously and maintain a robust system for addressing them, we do not have specific documentation of safety complaints or concerns raised by Mr. Robert Baumann. Our safety protocols encourage open communication, and our managers, owners, and supervisors are committed to promptly addressing any safety-related matters. While we have not found records of such complaints or concerns pertaining to Mr. Baumann, we emphasize that we actively encourage employees to report any safety issues, and we remain vigilant in ensuring a safe working environment. If any specific concerns emerge during the course of this case, we will promptly provide relevant documentation.

13. Produce the documents reflecting Robert Baumann's designation as a representative of the miners at the MoSenecaMfr LLC dba American Tr mine.

**RESPONSE:** Mr. Robert Baumann never provided any documents designating himself as a representative of the miners at the MoSenecaMfr LLC dba American Tr mine. The first indication of such a designation came to our attention when the complaint was received by MSHA. We have not found any records or documents related to Mr. Baumann's official designation as a miner representative.

14. Produce the native document, in its native format with all metadata, of the PDF document Respondent produced to MSHA during the investigation of this case titled "Rob Baumann-Notes".

**RESPONSE:** The PDF document titled "Rob Baumann-Notes" produced to MSHA during the investigation of this case is the native document in its original format. Mr. Tidaback's personal notes regarding personnel matters are periodically transcribed from a Rocketbook wipeable notebook he carries with him. The PDF provided accurately represents the content and format of the original notes.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

15. Produce Robert Baumann's "employee journal" or any other document where you kept notes and/or information about Robert Baumann and his job performance.

**RESPONSE:** The document titled "Rob Baumann Russell Notes.pdf" produced to MSHA during the investigation of this case is the employee journal or document where notes and information about Robert Baumann and his job performance were kept. Please refer to this document for the requested information.

16. Produce the "employee journal" or any other documents where you kept notes and/or information about employees employed by Respondent at the MoSenecaMfr LLC dba American Tr mine at any time from June 1, 2022 through April 17, 2023.

**RESPONSE:** The attached documents titled "Rob Baumann Russell Notes.pdf," "Christine Schreiber Russell Notes.pdf," and "Jim Hoover Russell Notes.pdf", see folder labelled "Request for Documents 16", are the employee journals or documents where notes and information about employees employed by Respondent at the MoSenecaMfr LLC dba American Tr mine from June 1, 2022, through April 17, 2023, were kept. Please refer to these documents for the requested information.

17. Produce the workplace examinations and/or workplace inspections from the MoSenecaMfr LLC dba American Tr mine from June 1, 2022 through April 17, 2023.

**RESPONSE:** The workplace examinations and workplace inspections conducted at the MoSenecaMfr LLC dba American Tr mine from June 1, 2022, through April 17, 2023, are contained in the attached document titled "Daily Workplace Inspections 1JUNE2022 - 17APR2023.pdf.", see folder labelled "Request for Documents 17". Please refer to this document for the requested workplace examination and inspection information.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

18. Produce the Microsoft Teams chats or messages involving any employee of Respondent, including owners, managers, supervisors, maintenance personnel, etc., regarding Robert Baumann's discrimination complaint, Robert Baumann's termination, Robert Baumann's job performance, safety related concerns or complaints raised by Robert Baumann, complaints about Robert Baumann, and/or Robert Baumann's workplace examinations.

**RESPONSE:** Producing the entire Microsoft Teams chats or messages involving any employee of Respondent, as specified in your request, is overly broad and would entail disclosing vast amounts of irrelevant information. Unfortunately, we do not have the capacity to retrieve messages from employees' accounts, as they are maintained on their individual devices. Also unless Mr. Baumann's name is specifically in the messages there is no way to search for generics. To maintain the integrity of the discovery process, we propose a more targeted approach.

Given that the only employees still employed by Respondent since the termination of Mr. Baumann are Mr. Williams, and Mr. Spears, we can provide group messages involving these individuals for the specified purposes. If you could kindly specify the date ranges, topics, or any other relevant details for these chats and messages, we will make a good faith effort to assist in obtaining any relevant messages. In the folder labeled "Request for Documents 18", there is a document titled "Communication between Jim are Russ regard Rob post 17APR2023.pdf", this running conversation points out Mr. Jim Hoover's opinions, distrust, aggravation and hassle when dealing with Mr. Baumann. Mr. Hoover was the most senior employee with over four years of experience at the mine site.

19. Produce the documents reflecting any "counseling and guidance" provided to Robert Baumann while he was employed by Respondent.

**RESPONSE:** While we acknowledge that counseling and guidance were provided to Robert Baumann during his employment, these interactions were primarily conducted verbally, and no formal written records were maintained. Any guidance or counseling discussions were aimed at improving his job performance, ensuring compliance with safety protocols, and fostering a better work environment. We

remain committed to maintaining open lines of communication and providing support to our employees as needed.

20. Produce the text messages, emails, Microsoft Teams chat, and/or any other communication from John Spears to any employees regarding MSHA inspections, including the February 14, 2023 message to miners regarding MSHA's inspection.

**RESPONSE:** All communications related to MSHA inspections and interactions with MSHA inspectors have been consolidated into a comprehensive document labeled "ALL Communications regarding MSHA.pdf." This document contains a thorough record of all communications, including Microsoft Teams chats, text messages, and emails exchanged between employees of Respondent at the MoSenecaMfr LLC dba American Tr mine concerning MSHA inspections and interactions with MSHA inspectors.

By consolidating these communications into a single document, we aim to provide a complete and organized account of our interactions with MSHA and MSHA inspectors. This approach is intended to streamline the document production process and ensure clarity in our responses.

If you have any specific questions or need further information regarding these communications, please do not hesitate to contact us. We are committed to transparency and open communication throughout this process.

21. Produce the text messages, emails, Microsoft Teams chat, and/or any other communication from and/or between Robert Baumann, Respondent, John Spears, Russell Tidaback, and/or Jordan Tidaback regarding the MSHA 104(b) Order issued on April 12, 2023 or payment during the withdrawal order.

**RESPONSE:** Please find attached the requested communications regarding the MSHA 104(b) Order issued on April 12, 2023, and payment during the withdrawal order, "Request for Documents 21". We wish to emphasize that, in full compliance with MSHA regulations and with a commitment to the well-

being of our miners, Respondent promptly paid the miners as required by the 104(b) Order, without any delay.

1. Chat messages between Robert Baumann to John Spears and John Spears to Ms. Tidaback and Mr. Tidaback (labeled as "14APR2022 – Chat messages showing Robs misunderstanding regarding a 104(b) order and pay.pdf").
2. Email chain involving Mr. Markeson, Respondent, John Spears, and Russell Tidaback (labeled as "Email Chain w Markeson regarding miner compensation - RE\_ 12APR2023 - B Order #9539789 & 9539790.pdf").
3. Text messages between Robert Baumann and John Spears (labeled as "12APR2023 - Text message between Mr. Baumann and Mr. Spears regarding work and being paid.png").

These documents encompass the pertinent communications and discussions surrounding the MSHA 104(b) Order and issues related to payment during the withdrawal order. We would like to reiterate that all miners were paid appropriately and without delay in accordance with MSHA regulations. Should you require any further specific information or have additional inquiries, please do not hesitate to reach out.

22. Produce Respondent's disciplinary policy in effect at the MoSenecaMfr LLC dba American Tr mine at any time from June 1, 2022 through April 17, 2023.

**RESPONSE:** Our disciplinary policy in effect at the MoSenecaMfr LLC dba American Tr mine during the specified period can be found in the attached document titled "American Tripoli Employee Handbook.pdf.", see folder labeled "Request for Documents 22". The relevant information regarding our Progressive Discipline policy can be located in the handbook, specifically in the paragraph that addresses Progressive Discipline.

23. Produce the documents reflecting any discipline given to employees of Respondent at the MoSenecaMfr LLC dba American Tr mine at any time from June 1, 2021 through April 17, 2023.

24. Produce the documents reflecting any communications, including Microsoft Teams chats, text message, emails, to employees of Respondent at the MoSenecaMfr LLC dba American Tr mine regarding MSHA inspections and/or any MSHA inspectors.

**RESPONSE:** All communications related to MSHA inspections and interactions with MSHA inspectors have been consolidated into a comprehensive document labeled "ALL Communications regarding MSHA.pdf.", in folder labeled "Request for Documents 24". This document contains a thorough record of all communications, including Microsoft Teams chats, text messages, and emails exchanged between employees of Respondent at the MoSenecaMfr LLC dba American Tr mine concerning MSHA inspections and interactions with MSHA inspectors.

By consolidating these communications into a single document, we aim to provide a complete and organized account of our interactions with MSHA and MSHA inspectors. This approach is intended to streamline the document production process and ensure clarity in our responses.

If you have any specific questions or need further information regarding these communications, please do not hesitate to contact us. We are committed to transparency and open communication throughout this process.

If you have any additional requests or require further documents related to this matter, please feel free to specify your needs, and we will do our best to accommodate them. Your understanding and cooperation in this matter are greatly appreciated.

25. Produce the documents discussing Robert Baumann's termination.

**RESPONSE:** We appreciate your request. We want to clarify that discussions related to Mr. Baumann's termination primarily took place in person or during video calls, which may not have generated electronic records.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,

---

Should you need further clarification or additional information, please feel free to contact us, and we will do our best to assist.

26. Produce the documents you intend to use at the hearing in this matter.

**RESPONSE:** We are fully committed to complying with our legal obligations and cooperating in the discovery process. As such, we are providing all relevant documents and will promptly provide any additional relevant documents as they become available and maintain open communication with your team. If you require specific documents or have further inquiries related to this request, please do not hesitate to reach out to us for clarification and assistance.

### **REQUESTS FOR ADMISSION**

1. Admit that the MOSenecaMfr LLC dba American Tr mine is a mine as defined in Section 3(h) of the Federal Mine Safety and Health Act of 1977, 30 U.S.C. § 802(h).

**ANSWER:** Admit. The operator acknowledges that the MOSenecaMfr LLC dba American Tr mine falls within the definition of a mine as provided in the Mine Act. This acknowledgment is consistent with the operator's understanding of its activities and operations. However, this admission should not be construed as an admission of liability or wrongdoing with respect to the allegations in this case. The operator maintains that its operations have consistently aimed to comply with the Mine Act and relevant regulations, ensuring the safety and well-being of its workforce.

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

2. Admit that the products of the MOSenecaMfr LLC dba American Tr mine enter commerce or the operations or products thereof affect commerce within the meaning and scope of the Federal Mine Safety and Health Act of 1977.

**ANSWER:** Admit. The operator acknowledges that, in the ordinary course of its mining operations, its products may be intended for commercial use or distribution, and as such, they have the potential to enter or affect commerce. However, this acknowledgment should not be construed as an admission of liability or wrongdoing with respect to the allegations in this case. The operator maintains that its operations have consistently aimed to comply with the Mine Act and relevant regulations, ensuring the safety and well-being of its workforce and the quality of its products.

3. Admit that MOSenecaManufacturer Limited Liability Company d/b/a American Tripoli is the operator of the MOSenecaMfr LLC dba American Tr mine and was the operator of the mine from at least June 1, 2022 through April 17, 2023.

**ANSWER:** Admit. MOSenecaManufacturer Limited Liability Company d/b/a American Tripoli, herein referred to as 'the operator,' is the entity responsible for the operation of the MOSenecaMfr LLC dba American Tr mine. The operator acknowledges that it assumed the role of the mine operator at the specified mine location, and this responsibility was held from at least June 1, 2022, through April 17, 2023.

While the operator admits to its role as the mine operator during the specified time frame, it is important to clarify that this acknowledgment does not constitute an admission of liability or wrongdoing with respect to the allegations contained within the case. The operator is committed to maintaining a safe and compliant workplace for its employees and remains steadfast in its position that the actions taken during this period were in accordance with applicable regulations and without any intent to discriminate or infringe upon the rights of miners.

Seneca, MO 64865  
Office (239) 829-5457

---

4. Admit that while Robert Baumann was employed by Respondent at the MOSenecaMfr LLC dba American Tr mine he was a “miner” as defined in Section 3(g) of the Mine Act, 30 U.S.C. § 802(g).

**ANSWER:** Admit. While Robert Baumann was employed by Respondent at the MOSenecaMfr LLC dba American Tr mine, he met the criteria to be considered a 'miner' under the definition provided in Section 3(g) of the Mine Act, 30 U.S.C. § 802(g). The operator acknowledges that Mr. Baumann was an employee involved in mining operations at the specified mine location during the relevant timeframe.

It is essential to clarify that the acknowledgment of Mr. Baumann's status as a 'miner' does not alter the operator's position that the actions taken regarding his employment were based on performance issues and not related to any form of discrimination or interference with miner's rights. The operator remains committed to providing a safe and compliant workplace for all its employees, including those meeting the definition of a 'miner' under the Mine Act.

5. Admit that Robert Baumann served as a representative of miners at the MOSenecaMfr LLC dba American Tr mine from March 21, 2023 through April 17, 2023.

**ANSWER:** Deny. The mine operator was not made aware of Robert Baumann serving as a representative of miners at the MOSenecaMfr LLC dba American Tr mine from March 21, 2023, through April 17, 2023. To the best of our knowledge and records, no formal notification or communication regarding Mr. Baumann's representation of miners was received by the mine operator during the specified period.

The mine operator is committed to adhering to all relevant regulations and compliance requirements under the Mine Act, including those pertaining to miner's representatives. In the absence of formal notice or awareness of Mr. Baumann's role as a representative of miners, the operator was unable to address any concerns or considerations related to his representation.

[CustomerService@AmericanTripoli.com](mailto:CustomerService@AmericanTripoli.com)

Exhibit P-39, Page 0035

**Mailing Address:**

2701 East Grauwylers Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

It is crucial to clarify that the mine operator is dedicated to maintaining a safe working environment and complying with all applicable legal obligations. We welcome a comprehensive review of the facts and evidence related to Mr. Baumann's representation during the specified timeframe to ensure a just and equitable resolution.

6. Admit that the Federal Mine Safety and Health Review Commission has jurisdiction over this case under Section 105(c)(2) and 113 of the Mine Act, 30 U.S.C. §§ 815(c)(2), 823.

**ANSWER:** Deny. The mine operator contests the assertion that the Federal Mine Safety and Health Review Commission (FMSHRC) has jurisdiction over this case under Section 105(c)(2) and 113 of the Mine Act, 30 U.S.C. §§ 815(c)(2), 823. The mine operator believes that the actions taken, including the dismissal of the miner, were solely based on performance issues and not discriminatory in nature. As such, it is our position that the circumstances of this case do not fall within the purview of the aforementioned statutory provisions.

The mine operator strongly maintains that the miner's dismissal was a result of legitimate performance-related concerns in accordance with the established company policies, the state of Missouri guidelines and not a violation of any miner's rights under the Mine Act. Therefore, we contend that the jurisdiction of the FMSHRC does not apply in this case. However, we are open to a thorough examination of the facts and circumstances surrounding this matter to arrive at a just resolution.

You understand that this statement will be held in confidence by the United States Government and will not be disclosed as long as the case remains open unless it becomes necessary for the Government to produce the statement in a formal proceeding. After the case is closed, the information will be held in confidence to the extent provided by law.

GIVEN ☒ NOT GIVEN ☐

Exhibit No 5 Pg No 1

MEMORANDUM OF INTERVIEW OF [REDACTED]

Case No. MADI-CD-2023-03

GENERAL BACKGROUND:

Question: How long did you worked at the American Tripoli Company?

Response: [REDACTED]

Question: What jobs did you conducted at the American Tripoli Mine?

Response: [REDACTED]

Question: Please describe your duties in this position.

Response: [REDACTED]

Question: Who is your immediate supervisor?

Response: [REDACTED]

ALLEGED COMPLAINT CIRCUMSTANCES:

[REDACTED] tell me of the transpiring events that you believe lead to Robert Baumann filing this complaint.

[REDACTED]  
This company was very difficult to work for, very. [REDACTED]  
[REDACTED]

[REDACTED] This place was different than any place than [REDACTED] had ever worked. Company was tight screwed in the sense that they weren't very open with any ideas other than their own. It was a very unpleasant place to work. Russell and Jordan were onsite to train [REDACTED] for a week and then left for a couple of months. They wouldn't let you manage or listen to ideas.

Rob was on second shift and Jim Hoover was on day shift. Actually Rob and Jim was doing a good job but Rob was doing a better job than Jim [REDACTED] wanted to switch shifts with them because Rob was more adamant and better at the job performance.

[REDACTED] disciplinary actions but only thru Russell. Each employee has a personnel file. The file had hiring information, tax records, training records. Also if an employee was disciplined there was usually a three step process. Verbal, written then potential termination. They would type the action up in Microsoft Word document and have the employee sign the document and put into their

MEMORANDUM OF INTERVIEW OF [REDACTED]

**Case No. MADI-CD-2023-03**

casefile. When you would ask Russell specific questions if he didn't want to answer you he would skirt around the question and not be specific. It wouldn't be surprising if the company didn't have a secret file on everyone writing down things of interest to them.

**CLOSING:**

Question: Is there anything that you expected me to ask, that I did not ask?

Response: I don't think so

Questions: Do you have any questions or concerns?

Response: No

Question: Have I or any other MSHA personnel threatened or intimidated you in any way?

Response: No

Question: Has anyone not with MSHA threatened or intimidated you or instructed you on how to respond to any of the questions that you may be asked in this investigation?

Response: No

Question: Have you been offered any rewards, or promises of reward, in return for this statement?

Response: No

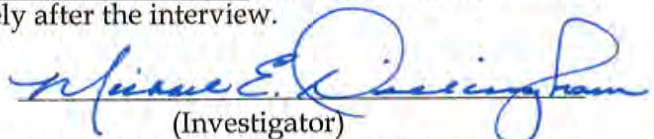

Question: Have you given this statement freely and voluntarily?

Response: Yes

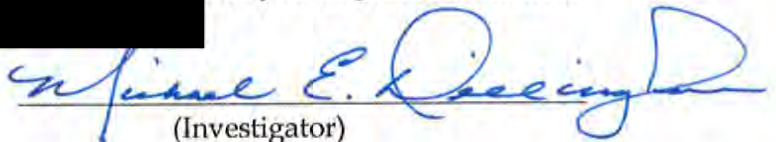

Question: Is there anything you care to add for the record?

Response: Just that Russell is intimidating. [REDACTED]

I have prepared this memorandum of [REDACTED] after refreshing my memory from notes made during and immediately after the interview.

  
(Investigator)

MEMORANDUM OF INTERVIEW OF [REDACTED]

Case No. MADI-CD-2023-03

GENERAL BACKGROUND:

Question: What is your hometown?

Response: [REDACTED]

Question: Where did you go to school?

Response: [REDACTED]

Question: What was the highest grade level completed?

Response: [REDACTED]

Question: Did you graduate?

Response: [REDACTED]

Question: How long have you worked at the American Tripoli Company?

Response: [REDACTED]

Question: What jobs have you conducted at the American Tripoli Mine?

Response: [REDACTED]

Question: What is your present position?

Response: [REDACTED]

Question: How long have you been in that position?

Response: [REDACTED]

Question: Who was your immediate supervisor at American Tripoli?

Response: [REDACTED]

MEMORANDUM OF INTERVIEW OF [REDACTED]

Case No. MADI-CD-2023-03

ALLEGED COMPLAINT CIRCUMSTANCES:

[REDACTED] tell me of the transpiring events that you believe lead to Robert "Rob" Baumann filing this complaint.

Rob complained about unsafe acts and conditions. He didn't want anyone to get hurt. He was the only one that would speak up cause everyone else would just keep their heads down and go on so they would get paid. Everyone was there for a paycheck. Jim Hoover has been with Tripoli longer than anyone else. Even before Russell bought it. There was a lot of animosities. Jim was nice most days but I'm pretty sure he was on drugs most days [REDACTED] thinks he was angry with Rob because he took Jim's position. Rob always stuck up for the workers to John and Russell. They didn't like that. Russell would ignore Rob for this via Teams Chat. Rob would talk to John and John would talk to Russell, but the end result was whatever Russell said do. It was a mess [REDACTED] stated the only other way [REDACTED] could say it is that it was a shit show. That's why [REDACTED] couldn't take it [REDACTED] feels there were several employees on drugs from their actions, so [REDACTED] figured it was time to leave.

On a personal level John Spears was good to work for but he didn't know what he was doing. He would do anything Russell Tidaback told him to do. Safe or not [REDACTED] didn't know how many times [REDACTED] said, John we don't need to do that, and his reply was we have to Russell said we did. John's job was Operation's Manager, so he basically managed everybody. He would take over someone's job and do it if they thought it was unsafe. If an employee would say to him, this is not safe he would take it over and do it anyway. He even would bribe people with saying ah go ahead and I'll got to Dairy Queen and get you a hamburger. That's sad but it was going to get done if Russell said get it done.

John is a competent person, but he makes the decisions he makes from Russell's directions. He does everything Russell tells him to do. Other than John, Rob was the only other levelheaded person there.

[REDACTED]  
There were probably 100 or more and there wasn't around 4-5 people who worked there in the plant. It was a revolving door because the workplace and atmosphere was so toxic.

[REDACTED] John would have Teams chats with Russell, but he would close his door so [REDACTED]

MEMORANDUM OF INTERVIEW OF [REDACTED]

Case No. MADI-CD-2023-03

no one could hear the conversation. [REDACTED]

[REDACTED] the switchboard room in the plant and it looked like something out of the 1940's. Some buttons worked. Some didn't. They have wired things out, so it was a nightmare. Half of them didn't work. Nothing worked. That's why they went through so many maintenance people. They would have an outside company come in and work on stuff, then wouldn't pay them or wouldn't pay to buy parts. Just limped it through the best they could to keep from spending any money to repair. It was old and outdated. [REDACTED]

They didn't do any x-rays [REDACTED] started or during employment [REDACTED] was not sure if they did anyone else. [REDACTED] thought they were supposed to. Just a poor job. Very bad [REDACTED] couldn't handle this place. It was very poorly run and operated. The people that were supposed to know and manage weren't very efficient in their capacity. Horrible environment. Rob was the only one who was trying to make it right. Even other employees who asked questions were ridiculed. Just going downhill.

The people from MSHA were trying to call so they just turned off that number. Then Inspectors show up and then we were shutdown. We received notifications from Missouri Department of Natural Resources, [REDACTED]

[REDACTED] It was something to do about they hadn't paid something, and they were shut down until they paid. So, they changed the name of the company to MO Seneca Mfr LLC to evade. But they used lots of different names and had multiple places in different states. And most of them didn't do anything. Something like a management company, partners or investors. But something wasn't right about this.

People were getting sick in the town. Cops showed up and was going to take us all to jail for dust coming out of the plant and exhaust stacks [REDACTED] Russell would swing thru there like over the weekend when no one was there and when we would come in on Monday filing cabinets of stuff would be like gone. Shadiest people [REDACTED] has ever worked for.

Exhibit No. 6 Pg. No. 4

MEMORANDUM OF INTERVIEW OF [REDACTED]

Case No. MADI-CD-2023-03

Multiple times a day Rob would come into John's office with concerns or work issues. He would tell John we need this to run, we need this to work properly, or we need this to be safe. Multiple reasons all the time to try and make things right but nobody wanted to fix anything. Especially Russell because he was just trying to save a dime.

On the Jan 20, 2023 per a deficiency written up about Rob which stated: "Kensley posted in the Ops chat group a pic of dust blowing out the back of the bldg.. Again, had to stress to Rob that he need to watch for any dust blowing out of the building. We can't have the Sherriff or DNR receiving complaints about us. We had to reiterate in the group that it was Robs responsibility to be inputting in the daily production worksheet what was produced each day before he leaves for the day. This wasn't done."

[REDACTED] "Let me tell you what really happened." [REDACTED] dust was boiling out the top of the exhaust stacks, what they call the Big Mac. [REDACTED] asked Rob what was going on and he told [REDACTED] he kept trying to shut it down but they, John and Russell wouldn't let him. [REDACTED]

[REDACTED] didn't recall everything in the conversation, but they were chatting, no we need to get this running. Got to get this product out the door. Got to get this money. Bla,Bla, Bla,Bla, Bla,Bla, Bla,Bla, Bla,Bla,Bla. We got to have this production. Got to have this money. But Rob wanted to shut it down, and most of the time he didn't because they wouldn't let him. He said I don't know what to do they won't let me shut down. It was just a mess. Everything was a mess all the time.

On the Jan 25, 2023, per a deficiency written up about Rob which stated: "Had to get onto Rob regarding keeping the completed bag inventory up to date. John and she discussed Robs attitude." Rob kept things up and [REDACTED]

[REDACTED] They never taught us how or trained us [REDACTED]

On the Dec 26, 2022, per a deficiency written up about Rob which stated: "Discussion with Rob about not meeting the daily production goals, teams members complaining that he doesn't know what he is doing and that he just gets angry and stomps around

Exhibit No 6 Pg No 5

MEMORANDUM OF INTERVIEW OF [REDACTED]

Case No. MADI-CD-2023-03

like a child. He isn't a leader and allows his team to push him around. His response was just nodding his head. She stressed filling out the tasking board every day and making sure the things get done. If he has problems with someone, take it to John and John will get it resolved. Jim blames Rob." [REDACTED] they always blamed Rob. Rob always had to be parenting everyone else. Rob repeatedly had to keep everything going and everyone working.

[REDACTED] had anyway to get to the Teams chats it would be differently from what [REDACTED] was sent by Russell. Russell was always blowing up the phone with team chats of do this, do that and sometimes at 4 o'clock in the morning. You know we can't do this if we don't have that so how are we supposed to do that. We'll, figure it out. We did what we could within reason, but we didn't have anything to do with. It was chaotic to say the least.

Bottom line is Rob was a stand-up guy. He stood up for the workers. He stood up for what was right. He stood up for the health and safety [REDACTED] stated that firing Rob was a bad mistake because it will be hard to find anyone who knows about the operation that Rob does. He literally figured it out on his own. He had no help from Jim because he was strung out. You have to be smart to figure out that switchboard and all of them buttons and what they operated and know the sequences in which to start and shutdown. John didn't know how, he was learning. Rob was there before John. You would've thought he would have got the Operations manager job over John, but Russell wanted someone who was a yes man and do whatever he said, so he got John. Rob wouldn't have been that. He was a standup guy.

MEMORANDUM OF INTERVIEW OF [REDACTED]

Case No. MADI-CD-2023-03

CLOSING:

Question: Is there anything that you expected me to ask, that I did not ask?

Response: No

Questions: Do you have any questions or concerns?

Response: No

Question: Have I or any other MSHA personnel threatened or intimidated you in any way?

Response: No

Question: Has anyone not with MSHA threatened or intimidated you or instructed you on how to respond to any of the questions that you may be asked in this investigation?

Response: No

Question: Have you been offered any rewards, or promises of reward, in return for this statement?

Response: No

Question: Have you given this statement freely and voluntarily?

Response: Yes

Question: Is there anything you care to add for the record?

Response: No

I have prepared this memorandum on [REDACTED] after refreshing my memory from notes made during and immediately after the interview.

MEMORANDUM FOR EVERT H. VAN WIJK  
Associate Regional Solicitor

*Kelvin B. Blue*  
FROM: For THOMAS W. CHARBONEAU  
Director, Office of Assessments

SUBJECT: Assessments Information for Section 105(c)  
Secretary of Labor obo Robert Baumann v. American Tripoli  
MO Seneca Mfr LLC dba American Tripoli Mill, Mine ID 23-00504  
Case Number: MADI-CD-2023-03

This office has reviewed your request for proposed civil penalties on the subject case. Based on the criteria outlined in 30 C.F.R § 100.3 and the information available to the Office of Assessments, we recommend civil penalties for American Tripoli of \$15,000 (retaliation) and \$17,500 (interference).

In arriving at the recommended penalty amounts, the following information was considered:

Size of Mine	Hours/Tonnage 2022	Points Under 30 C.F.R § 100.3(b) and (c)
Mine	17,509	2
Controller	17,509	0
Violation History	Previous 15 Months	
Number of violations	9	
Number of inspection days	37	
Violations per inspection	0.24	0
10 Year 105(c) Violation History	Mine	Controller
Total number of Section 105(c) Violations	0	0

Please contact Venkatrao Thummala at (202) 693-9625 if you have any questions.

<p>1 attorney with regard to this deposition, 2 personally or otherwise? 3 A. I do not have an attorney -- 4 Q. Representing you with regard to this deposition in 5 this case. 6 A. No, I do not. 7 Q. I'm going to kind of go over some of the ground 8 rules for deposition just briefly. 9 If you do not understand a question, please 10 tell me and I will attempt to rephrase it. 11 If you answer a question, it's going to be 12 assumed that you understood and meant to give the 13 answer that you gave. 14 Do you agree to let me know when you do not 15 understand a question? 16 A. Yes. Yeah. I'll ask -- you should know that. 17 Thank you. 18 Q. Also, at any time please let me know if you want 19 to take a break. The only thing I will ask is 20 that you finish answering whatever pending 21 question there is and then we can take a break 22 after that. 23 A. Okay. 24 Q. As a general rule, we need to be careful not to 25 talk over one another since the court reporter is</p>	<p>1 paper--you can do that--but you shouldn't have any 2 documents open on your computer or other 3 applications or any other physical documents in 4 front of you. 5 A. Not even my notes that I've already made about 6 this? I can't refer to those notes? 7 Q. No. Not unless you're, like, actively writing. 8 Like something that you're writing right now, like 9 if you just wrote, She told me not to write notes, 10 or, She told me that I could take notes. Like 11 that's different than -- but if you brought in 12 notes from outside, you shouldn't be looking at 13 those. 14 A. But they were notes about this complaint. So I 15 can't use the notes I've already created about 16 this complaint? 17 Q. Correct. 18 A. So I can't use my notes. Okay. That doesn't make 19 any sense. But I can still use my computer to 20 take notes during this deposition. 21 Q. Correct. To take notes, yeah. 22 A. Okay. 23 Q. So do you agree to not look at other documents or 24 applications during this deposition? 25 A. Yes.</p>
Page 7	Page 9
<p>1 taking this down. So I'll ask my question and 2 then I'll give you a chance to answer the question 3 before speaking over you. 4 And all answers need to be given verbally so 5 the court reporter can take it down. 6 Do you understand that you are under oath? 7 A. Yes. 8 Q. And is there any reason today why you cannot give 9 full and truthful answers? 10 A. No. 11 Q. And you are not under the influence of any 12 substance or suffering from any condition or 13 illness that would impair your ability to give 14 full and truthful answers to my questions today? 15 A. No. 16 Q. And this is a remote deposition, so during this 17 statement I would ask that you not look at any 18 documents or have any other documents or 19 applications open on your computer. Can you agree 20 to that? 21 A. Oh, you don't want me to have the complaint or 22 anything in front of me so I can read it? 23 Q. No. You shouldn't have any documents. If we need 24 documents, I'll share my screen. Other than, 25 like, notes that you may want to take on</p>	<p>1 Q. Okay. 2 A. I'm closing it clean so. . . . 3 Q. Okay. And where are you located right now -- 4 A. Today we're in -- 5 Q. -- for this deposition? 6 A. -- southwest Florida. 7 Q. And are you in, like, your office or is that -- 8 A. Yes, we're in an office. An office. 9 Q. And is anyone there with you? 10 A. Like, Jordan Tidaback. She can be in and out 11 throughout the day. 12 Q. And I would just ask that you not speak with her 13 during the deposition or have her tell you answers 14 or give you advice during the deposition. 15 A. Yes. 16 Q. Okay. Did you do anything to prepare for today's 17 statement? 18 A. Yes. Made notes, reviewed the complaint. 19 Q. Did you do anything else? 20 A. No. 21 Q. Did you speak with anyone about this deposition to 22 prepare for the deposition? 23 A. No. 24 Q. And could you give me your education history after 25 high school?</p>

Page 10	Page 12
<p>1 A. Dealing with -- dealing with what, should I say, 2 because there's a lot. 3 Q. Like, any degrees you have. 4 A. Okay. So I have a -- let's see here, an undergrad 5 in computer science, a master's degree in 6 business, a pilot's license, helicopter commercial 7 pilot's license. Is that what you want, just 8 my -- education-wise? 9 Q. Yeah. Yeah. That's fine. 10 Okay. And your master's in business, is that 11 an MBA? 12 A. Yes, it is an MBA. Mm-hmm. 13 Q. And are you currently employed? 14 A. No. 15 Q. Okay. And so what would you consider your role 16 with American Tripoli to be? 17 A. I'm a managing member of an entity that owns 18 MOSenecaManufacturer. 19 Q. And what is that entity? 20 A. Omphalos Limited Liability Corporation. 21 Q. And where is that company registered, Omphalos? 22 A. Wyoming, if I'm not mistaken. Yeah. 23 Q. And do you have a job title or any title other 24 than managing member with American Tripoli? 25 A. No.</p>	<p>1 A. Consulting, research, advisory, acquisitions. 2 Q. And what fields are you doing consulting work in? 3 A. Acquisitions. 4 Q. And what fields are you doing research and 5 advisory? 6 A. Different industries. We're industry agnostic. 7 Q. And is that through a company? 8 A. Omphalos. 9 Q. So Omphalos does consulting work, too? 10 A. Yes. 11 Q. Does Omphalos do any other work other than 12 consulting and research and advisory and 13 acquisitions? 14 A. No. It's for our own entity structure. 15 Q. And who are all the members of Omphalos? 16 A. Jordan Tidaback and myself. 17 Q. Is there anyone else in management of Omphalos? 18 A. No. 19 Q. Does Omphalos have any direct employees? 20 A. No. 21 Q. When did you -- when did Omphalos first acquire 22 American Tripoli? 23 A. Without my notes, I -- I'd be guessing. I would 24 have to say it was either 2020 or 2019. 25 Q. Okay. And were you a member of Omphalos when that</p>
Page 11	Page 13
<p>1 Q. And do you work for any other companies other than 2 American Tripoli? 3 A. I don't work for American Tripoli. 4 Q. Okay. Do you have an ownership interest in other 5 companies that you do work on? 6 A. Yes. 7 Q. And what are those? 8 A. Omphalos, LLC. 9 Q. Any other companies? 10 A. No. 11 Q. So Omphalos, LLC and American Tripoli are the only 12 two companies that you have ownership interest in? 13 A. No. MosenecaManufacturing is owned by Omphalos, 14 LLC. 15 Q. So the only company you have an ownership interest 16 in is Omphalos, LLC? 17 A. Yes. 18 Q. And does Omphalos, LLC own any other companies? 19 A. No. 20 Q. And how much of your time in any given week is 21 spent working on American Tripoli matters? 22 A. Maybe a couple hours. 23 Q. Do you do any other work? 24 A. Yes. 25 Q. What other work do you do?</p>	<p>happened? 2 A. Yes. 3 Q. When it acquired American Tripoli? 4 A. Yeah, we're founders. 5 Q. And I'll just pause and note Quinlan Moll has 6 joined. He's an attorney with the U.S. Department 7 of Labor as well. I just wanted to note that for 8 the record. 9 And then how was American Tripoli originally 10 financed? 11 A. Debt. Debt and equity. 12 Q. And how is it currently funded? Is it the same 13 way? 14 A. Yeah. Mm-hmm. 15 Q. Okay. While Omphalos owned American Tripoli, did 16 American Tripoli get any PPP funds? 17 A. Omphalos doesn't own American Tripoli. American 18 Tripoli is -- does business as 19 MOSenecaManufacturer and Omphalos owns 20 MosenecaManufacturing, and, no, we didn't get any 21 PPP funds. 22 Q. Did MOSeneca get any PPP funds? 23 A. No. No. We've never taken any government 24 funding. 25 Q. Okay. Who would you consider to be in management</p>

<p style="text-align: right;">Page 14</p> <p>1 of American Tripoli?</p> <p>2 A. John -- Mr. John Spears is the operations manager.</p> <p>3 Q. Is anyone else in management?</p> <p>4 A. At this time, Mr. Don Hale is the assistant</p> <p>5 manager.</p> <p>6 Q. Anyone else?</p> <p>7 A. No.</p> <p>8 Q. Would you consider yourself in management of the</p> <p>9 company?</p> <p>10 A. Only like, as we talked before, the managing</p> <p>11 member. Yeah.</p> <p>12 Q. Is Jordan Tidaback also a managing member?</p> <p>13 A. She's a member, yes.</p> <p>14 Q. Not a managing member?</p> <p>15 A. Not a managing member.</p> <p>16 Q. Okay. And who would you consider to have been in</p> <p>17 management in April of 2023 at American Tripoli?</p> <p>18 A. Only John Spears.</p> <p>19 Q. Was Robert Baumann considered to be in management?</p> <p>20 A. No.</p> <p>21 Q. Prior to your work with American Tripoli, did you</p> <p>22 have any experience in mining?</p> <p>23 A. Not specifically mining, no.</p> <p>24 Q. What sort of training have you had in mining since</p> <p>25 working for American Tripoli, or even before, if</p>	<p style="text-align: right;">Page 16</p> <p>1 Q. And during what time period were you -- was your</p> <p>2 job focused on, like, OSHA safety?</p> <p>3 A. Two thousand -- specifically OSHA titles? The</p> <p>4 civil service technician was 2005 to 2009, '10.</p> <p>5 Q. Okay.</p> <p>6 A. Because I went in aviation, which dealt with</p> <p>7 aviation safety and OSHA, and that went on until</p> <p>8 2017. So, I mean, there's a lot.</p> <p>9 Q. Did you have my special --</p> <p>10 A. Go ahead. Sorry.</p> <p>11 Q. Did you have any, like, special area of focus when</p> <p>12 you did the OSHA work for the military?</p> <p>13 A. Yes. Aviation training, safety, SOPs, the</p> <p>14 management side, budget side, and then up to OSHA</p> <p>15 30 training.</p> <p>16 Q. Okay.</p> <p>17 A. Motorcycle safety, heavy vehicle safety, heavy</p> <p>18 equipment safety.</p> <p>19 Q. And when you said you used to give OSHA training,</p> <p>20 what was that in context of?</p> <p>21 A. Training classes, whether it be a new hire, from</p> <p>22 two people up to 300, maybe a little larger, for</p> <p>23 safety stand-downs and safety seminars.</p> <p>24 Q. And what sort of OSHA standards would you be going</p> <p>25 over in that -- those type of classes?</p>
<p style="text-align: right;">Page 15</p> <p>1 there was any before?</p> <p>2 A. As far as -- I mean, there's so much to mining,</p> <p>3 depends on what you're talking about. Are you</p> <p>4 talking about safety training?</p> <p>5 Q. Sure, safety training.</p> <p>6 A. Yeah, just MSHA-provided training.</p> <p>7 Q. Had you received any miner's training?</p> <p>8 A. You said safety training. Sorry. You said</p> <p>9 safety?</p> <p>10 Q. Yeah.</p> <p>11 A. Safety is totally different thing because I'm</p> <p>12 OSHA-certified. I was OSHA instructor for the</p> <p>13 Department of Defense, the Oklahoma Army National</p> <p>14 Guard, the Oklahoma Military Department. There's,</p> <p>15 let's see, 13 years of experience in safety on the</p> <p>16 OSHA side.</p> <p>17 Q. Okay. So let's talk about that. When did you do</p> <p>18 that OSHA safety work?</p> <p>19 A. That started in 2000, if I remember correctly, and</p> <p>20 when I left the Oklahoma Army National Guard, that</p> <p>21 was in 2013, and then my military service started</p> <p>22 in 1997 and it ended -- if I remember correctly,</p> <p>23 it was in 2018. So all the military safety</p> <p>24 training and OSHA training that they provided, I</p> <p>25 was an instructor for them as well.</p>	<p style="text-align: right;">Page 17</p> <p>1 A. Can you repeat that question?</p> <p>2 Q. Yeah. What sort of OSHA standards would you be</p> <p>3 going over when you were giving that kind of</p> <p>4 training?</p> <p>5 A. Up to OSHA 30 standards.</p> <p>6 Q. So would it be, like, general OSHA or, like,</p> <p>7 construction stuff? Was there any -- like, all of</p> <p>8 that?</p> <p>9 A. Yes. It depended on the audience whether it be</p> <p>10 building safety, heavy equipment safety,</p> <p>11 operational safety, aviation safety, combat arms</p> <p>12 safety, personal safety. That kind of stuff,</p> <p>13 yeah.</p> <p>14 Q. Okay. Are you familiar with OSHA's manufacturing</p> <p>15 safety standards?</p> <p>16 A. Yes and no. Not as far as on the civilian side,</p> <p>17 depending on the contract that we had. We'd have</p> <p>18 to go in there and look at their safety.</p> <p>19 Q. Had you ever dealt with OSHA's, like,</p> <p>20 lockout/tagout standards?</p> <p>21 A. Yes.</p> <p>22 Q. How familiar were you with those?</p> <p>23 A. Familiar enough to train it.</p> <p>24 Q. Okay. So you did training on lockout/tagout --</p> <p>25 A. Yes.</p>

<p style="text-align: right;">Page 18</p> <p>1 Q. -- for OSHA?</p> <p>2 A. Mm-hmm.</p> <p>3 Q. And did you do machine guarding training for OSHA?</p> <p>4 A. Yes.</p> <p>5 Q. Do you have any experience in geology, either work</p> <p>6 or education?</p> <p>7 A. I studied it a couple of years, but no -- no</p> <p>8 additional -- no official, like, degree or</p> <p>9 certification or anything, no.</p> <p>10 Q. And when you say studied it, was that at a</p> <p>11 university?</p> <p>12 A. Yes, the University of Texas of El Paso and the</p> <p>13 University of Oklahoma. I don't remember the</p> <p>14 professor's name--I could find it for you--that I</p> <p>15 spoke with and communicated and. . . .</p> <p>16 Q. Were you enrolled in any geology classes?</p> <p>17 A. No.</p> <p>18 Q. So this is -- this is just your personal research?</p> <p>19 A. Yeah.</p> <p>20 Q. And when did you do this?</p> <p>21 A. It started probably 2008, 2009, when we were being</p> <p>22 deployed back to Iraq as aviation unit, part of</p> <p>23 the safety to figure out what's going on in the</p> <p>24 dust and stuff like that.</p> <p>25 Q. Okay. Prior to working with American Tripoli, did</p>	<p style="text-align: right;">Page 20</p> <p>1 A. Correct.</p> <p>2 Q. Okay. Did you have any experience with MSHA or</p> <p>3 MSHA standards prior to starting working with</p> <p>4 American Tripoli?</p> <p>5 A. (Shakes head.)</p> <p>6 Q. Sorry. What was that? I think you cut out a</p> <p>7 little bit.</p> <p>8 A. No.</p> <p>9 Q. Okay. And did Jordan Tidaback have any mining</p> <p>10 experience or experience with MSHA prior to</p> <p>11 working with American Tripoli?</p> <p>12 A. No.</p> <p>13 Q. And you live in Florida, correct?</p> <p>14 A. I have a residence in Florida. I don't</p> <p>15 necessarily consider myself -- as my home of</p> <p>16 record and stuff like this.</p> <p>17 Q. And do you do work for American Tripoli while</p> <p>18 you're in Florida?</p> <p>19 A. Like I said, it just depends on what's needed from</p> <p>20 John. Normal operations, yeah. Like I said, it's</p> <p>21 a few minutes here there, here there, whatever's</p> <p>22 needed.</p> <p>23 Q. And how often do you come to the mine location in</p> <p>24 Seneca?</p> <p>25 A. That is as needed. You know, it could be a couple</p>
<p style="text-align: right;">Page 19</p> <p>1 you have any experience in manufacturing?</p> <p>2 A. As far as owning it? No.</p> <p>3 Q. Working in --</p> <p>4 A. Yes.</p> <p>5 Q. -- manufacturing?</p> <p>6 A. Yeah. I worked at Frito-Lay before joining the</p> <p>7 Army in their Orlando manufacturing plant.</p> <p>8 Q. And when was that?</p> <p>9 A. That would have been '92.</p> <p>10 Q. And what was your role there?</p> <p>11 A. I don't really remember the position title. My</p> <p>12 mother worked there, got a job there, and then the</p> <p>13 management staff had a management program, like</p> <p>14 shadowing new managers coming down, and that's --</p> <p>15 that's what I got sucked into, their program for</p> <p>16 leadership and management.</p> <p>17 Q. Okay. Were you working in the manufacturing plant</p> <p>18 for Frito-Lay --</p> <p>19 A. Yes. Mm-hmm.</p> <p>20 Q. -- or any manufacturing areas? Okay.</p> <p>21 And did you deal with safety in that role.</p> <p>22 A. Yes, attended safety meetings and briefings and</p> <p>23 stuff like that, daily.</p> <p>24 Q. And those dealt with, like, OSHA manufacturing</p> <p>25 standards, like lockout/tagout, machine guarding?</p>	<p style="text-align: right;">Page 21</p> <p>1 days at a time. Not very often. That's not how</p> <p>2 we do business.</p> <p>3 Q. Okay. How often would you say you come, I guess,</p> <p>4 per month?</p> <p>5 A. Zero per month. It's maybe once -- well, like</p> <p>6 John was gone for a week this year for his</p> <p>7 vacation, so we came in, since there was no</p> <p>8 manager to back him up, before we hired Mr. Hale.</p> <p>9 Actually, I think he was there but he was fairly</p> <p>10 new.</p> <p>11 Q. Okay.</p> <p>12 A. So five days this year, I do believe.</p> <p>13 Q. You were there five days?</p> <p>14 A. I do believe.</p> <p>15 Q. In 2023?</p> <p>16 A. I think so, yes.</p> <p>17 Q. Were you there at any other time in 2023?</p> <p>18 A. Not that I can recall. I'd have to look back</p> <p>19 through the notes.</p> <p>20 Q. Do you know about how many days you would have</p> <p>21 been there in 2022?</p> <p>22 A. No, but I know it was -- I think it was more.</p> <p>23 Yeah. More than that. I would say probably 10</p> <p>24 days. I'm not sure.</p> <p>25 Q. Okay. Did you ever meet Robert Baumann in person?</p>

<p style="text-align: right;">Page 22</p> <p>1 A. Yes. Yes.</p> <p>2 Q. How many times?</p> <p>3 A. I couldn't tell you. I mean, every time that I</p> <p>4 was there, logically we met. We discussed things,</p> <p>5 how things were going, operations, counsel him,</p> <p>6 mentor him. I don't think I interviewed him. I</p> <p>7 may have interviewed him, depending on the timing.</p> <p>8 I'd have to look back in my notes. Because we</p> <p>9 went -- 2022 -- 2021, 2022 we went -- even 2023 we</p> <p>10 went through a high turnover. Employee turnover</p> <p>11 was really high. So I'd have to look back at the</p> <p>12 details to see who was the operations manager at</p> <p>13 that time when Mr. Baumann was hired to see if I</p> <p>14 would have done the interviews or not.</p> <p>15 Q. Okay. And if you would have done interviews,</p> <p>16 would that have been in person?</p> <p>17 A. We did some in person and then we did some over --</p> <p>18 just like this call here, video call, conference</p> <p>19 call. Phones calls, too.</p> <p>20 Q. And when you -- oh. Go ahead. Sorry.</p> <p>21 And when you're at the mine, are you usually</p> <p>22 there -- like when you come to Seneca, are you</p> <p>23 usually there -- at the mine the whole day or what</p> <p>24 are you doing when you're there?</p> <p>25 A. Yes. When we're there, we're there for the whole</p>	<p style="text-align: right;">Page 24</p> <p>1 all sides bay, if you want to call it that, and</p> <p>2 it's dried for 9 to 12 months.</p> <p>3 And then, based on sales demand and needs, we</p> <p>4 load it back into a dump truck, take it to the</p> <p>5 mill, which is approximately two -- I think it's</p> <p>6 two, two and a half miles away, where it then gets</p> <p>7 processed. So that's -- that's really the</p> <p>8 difference between -- oh, and the plant is in</p> <p>9 Newton County, Missouri. You walk out our front</p> <p>10 of our admin building and you take two steps in</p> <p>11 the road, you're in Oklahoma. The border's that</p> <p>12 close. So we're in Oklahoma and Missouri. It's</p> <p>13 right on the border.</p> <p>14 Q. And is -- the mill is located in Missouri; is that</p> <p>15 right?</p> <p>16 A. Yes. The mill and the admin building, the garage</p> <p>17 and the warehouse is all in Seneca, Missouri.</p> <p>18 Yeah.</p> <p>19 Q. And do you have, like, a specific set of employees</p> <p>20 that work in the -- on the Oklahoma side versus</p> <p>21 the Missouri side, or does everyone kind of do</p> <p>22 everything?</p> <p>23 A. I -- so the progression plan established before us</p> <p>24 was that the mill associates start at the entry.</p> <p>25 They're right off the street. They don't really</p>
<p style="text-align: right;">Page 23</p> <p>1 day, and then depending on the period, if it's</p> <p>2 just a couple days or if it's a week, you know,</p> <p>3 we're at the mine every day. In the mill every</p> <p>4 day, you know.</p> <p>5 Q. Have you ever personally -- did you ever</p> <p>6 personally observe Robert Baumann, like, actively</p> <p>7 working, doing his job?</p> <p>8 A. Oh, yes. Yes. I mentored him.</p> <p>9 Q. And the mine is located in both Oklahoma and</p> <p>10 Missouri; is that correct?</p> <p>11 A. Yes. So American Tripoli started in 18 -- it was</p> <p>12 founded in 1869, and at one time they owned 36,000</p> <p>13 acres in the area, and over time the companies</p> <p>14 have sold it off and it's got down to the 1200</p> <p>15 acres that is left in Ottawa County, Oklahoma.</p> <p>16 It's an open pit mine. There is no underground</p> <p>17 work at all. They excavate the Tripoli by using a</p> <p>18 bulldozer removing the overbrush and front-end</p> <p>19 loader it into a dump truck.</p> <p>20 That dump truck takes it -- I do believe it's</p> <p>21 eight -- it's either eight or ten miles to Seneca</p> <p>22 at our drying sheds, which is a separate location</p> <p>23 from our plant, which we call the company</p> <p>24 stockyard, where it is placed underneath drying</p> <p>25 sheds, which is just a cover, like a -- open on</p>	<p style="text-align: right;">Page 25</p> <p>1 have a lot of experience needed for the position.</p> <p>2 They get trained at MSHA training and safety</p> <p>3 training, and then the machine operator training,</p> <p>4 which is a position that they're in.</p> <p>5 And then as they progress and learn that</p> <p>6 position, there's different things in that</p> <p>7 position as well, such as being a bagger and then</p> <p>8 being a forklift operator, being a warehouse</p> <p>9 operator, and then also being a crusher operator.</p> <p>10 And then after you learn all those tasks, you</p> <p>11 move out to the quarry position, which is in</p> <p>12 Oklahoma, the open pit, where you learn --</p> <p>13 eventually these guys would learn to operate the</p> <p>14 heavy equipment.</p> <p>15 And then from that, now that you learned the</p> <p>16 heavy equipment side, how to identify tripoli, how</p> <p>17 to excavate the material, how to get your CDL so</p> <p>18 that you can drive the dump trucks on the public</p> <p>19 roads, taking it to the drying shed and taking it</p> <p>20 to the mill, that's how they progress.</p> <p>21 And then after they progress from the quarry,</p> <p>22 they come back to the mill and then their next</p> <p>23 progression steps would be trainer positions,</p> <p>24 safety positions, and then hopefully into a</p> <p>25 management-type position. That's the whole entire</p>

<p style="text-align: right;">Page 26</p> <p>1 plan.</p> <p>2 Q. And who runs the mill on a daily basis?</p> <p>3 A. We have Don -- Mr. Don Hale is the assistant</p> <p>4 manager now that runs the mill.</p> <p>5 Q. And what is what's John Spears' role?</p> <p>6 A. John Spears is the operations manager, the</p> <p>7 administrative operations manager.</p> <p>8 Q. And are you aware -- like, are you generally kept</p> <p>9 involved in what's going on at the mine on a daily</p> <p>10 basis?</p> <p>11 A. Yes. We use Microsoft Teams for that</p> <p>12 collaboration normally, and as they're asked and</p> <p>13 tasked you put everything in Teams so that</p> <p>14 everybody knows. The mill associates have the</p> <p>15 same access to that mill -- group mill chat group,</p> <p>16 I think it's called. That way all the</p> <p>17 communications is flowing through there so that</p> <p>18 everybody is kept informed of what's going on.</p> <p>19 Q. And when you say all communications are in there,</p> <p>20 what do you mean by that?</p> <p>21 A. For the mill associates. That way if something's</p> <p>22 going on in the mill, everybody knows what's going</p> <p>23 on. They put it in there, whether it be</p> <p>24 themselves or Mr. Baumann or Mr. Hale or</p> <p>25 Mr. Spears or Jordan or myself, asking questions,</p>	<p style="text-align: right;">Page 28</p> <p>1 A. Sometimes -- because sometimes --</p> <p>2 Q. Oh.</p> <p>3 A. Because sometimes Teams just doesn't work. So</p> <p>4 sometimes the phone's better.</p> <p>5 Q. So Teams is kind of the first line of</p> <p>6 communication --</p> <p>7 A. Mm-hmm.</p> <p>8 Q. -- with the mine?</p> <p>9 A. Correct.</p> <p>10 Q. And how often would you say you talk on the phone</p> <p>11 to anyone at the mine?</p> <p>12 A. Again, that depends on need.</p> <p>13 Q. Would you say you're on the phone with someone</p> <p>14 from the mine daily?</p> <p>15 A. No, not daily. Not even --</p> <p>16 Q. Weekly?</p> <p>17 A. I wouldn't even say weekly. Yeah, I would say</p> <p>18 maybe every couple weeks somebody may make a phone</p> <p>19 call.</p> <p>20 Q. And who would that be?</p> <p>21 A. Any of them. Anybody. Any of the -- any</p> <p>22 employee. They have direct access to call me.</p> <p>23 Q. Okay. Do you use email at the mine to</p> <p>24 communicate?</p> <p>25 A. No, we don't. It's -- we use email for external</p>
<p style="text-align: right;">Page 27</p> <p>1 what's going on, what shipments are coming out,</p> <p>2 hey, I need new bags -- or more bags, I need more</p> <p>3 pallets, that kind of stuff. That's what that</p> <p>4 group's for.</p> <p>5 Q. Okay. And so if something's going on at the mine</p> <p>6 that needs, like, management attention, you would</p> <p>7 expect that to be in the Teams chats?</p> <p>8 A. Well, we hired Mr. Spears to do his role, so we</p> <p>9 expect him to do his role. If something is needed</p> <p>10 that he can't do or has questions on, logically,</p> <p>11 then he asks. Yeah.</p> <p>12 Q. So he -- John Spears and Don Hale kind of run the</p> <p>13 mine on a daily basis, and if they need to elevate</p> <p>14 something to you, they will, but they don't tell</p> <p>15 you everything that's going on --</p> <p>16 A. No.</p> <p>17 Q. -- throughout the day.</p> <p>18 A. That's correct. Yeah.</p> <p>19 Q. And is Teams your primary means of communication</p> <p>20 to know what's going on at the mine?</p> <p>21 A. Mm-hmm.</p> <p>22 Q. Are you ever talking on the phone to anyone at the</p> <p>23 mine?</p> <p>24 A. Yeah. It just depends on what's going on.</p> <p>25 Q. Do you talk on the phone with --</p>	<p style="text-align: right;">Page 29</p> <p>1 purposes and chat and Teams for internal.</p> <p>2 Q. Okay. And what about text messaging? Is that</p> <p>3 ever used to communicate with employees at the</p> <p>4 mine?</p> <p>5 A. Yes. Some employees like to use that because</p> <p>6 that's what they're used to. So I -- you know, we</p> <p>7 try to push them all towards Teams and eventually</p> <p>8 they get on Teams and stuff like that.</p> <p>9 Q. How often are you text messaging with someone at</p> <p>10 the mine?</p> <p>11 A. Again, that's -- same thing with the phone calls.</p> <p>12 That's very sporadic, just like -- we're trying to</p> <p>13 push everybody to Teams so that it's one</p> <p>14 communication channel.</p> <p>15 Q. So maybe every couple of weeks there's text</p> <p>16 messages?</p> <p>17 A. Yeah. It's usually when they first start, you'll</p> <p>18 get a few text messages as the group, and then</p> <p>19 once they get accustomed to Teams, they all use</p> <p>20 Teams.</p> <p>21 Q. Okay. And how many times does -- has Jordan come</p> <p>22 to the mine? Does she come with you whenever you</p> <p>23 go?</p> <p>24 A. Yes. Yeah. Any time that we travel there, we're</p> <p>25 together.</p>

Page 30	Page 32
<p>1 Q. Has she ever gone without you?</p> <p>2 A. No.</p> <p>3 Q. Okay. And what activities do you perform</p> <p>4 specifically for American Tripoli? Is there any</p> <p>5 roles or jobs that have to get done that only you</p> <p>6 do?</p> <p>7 A. Oh, that only I do?</p> <p>8 Q. Or that you have a hand in, I guess.</p> <p>9 A. I'm sorry. Say again.</p> <p>10 Q. That you have a hand in.</p> <p>11 A. Well, I have a hand in everything.</p> <p>12 Q. Okay. What type of things do you -- what type of</p> <p>13 activities do you perform for American Tripoli?</p> <p>14 A. Only -- only what's needed.</p> <p>15 Q. Okay. Do you participate in hiring employees?</p> <p>16 A. Do I participate in it? Yes. Yeah. We assist</p> <p>17 John where he needs assistance. For example, if</p> <p>18 he -- if we are hiring a maintenance guy and</p> <p>19 there's no maintenance guy on staff, then we're</p> <p>20 looking through the Indeed applicants and stuff</p> <p>21 like that, establishing the initial contact,</p> <p>22 giving them John's information so they can contact</p> <p>23 John and set up the phone interviews, stuff like</p> <p>24 that.</p> <p>25 All the financials. Those are done internal</p>	<p>1 company?</p> <p>2 A. Same. It's outsourced or we're handling it</p> <p>3 internally, mm-hmm.</p> <p>4 Q. And what is -- how is sales outsourced?</p> <p>5 A. Through contractors? Is that what you mean? Yes.</p> <p>6 Q. Like sales managers or sales --</p> <p>7 A. Yeah.</p> <p>8 Q. -- members?</p> <p>9 A. Yeah.</p> <p>10 Q. And does Jordan do anything different from those</p> <p>11 activities that you just described?</p> <p>12 A. Different in -- what do you mean by "different"?</p> <p>13 Q. You listed some things you do like financials and</p> <p>14 administrative.</p> <p>15 A. Mm-hmm.</p> <p>16 Q. Is there anything that she's also doing for</p> <p>17 American Tripoli that you're not doing that you</p> <p>18 didn't already describe?</p> <p>19 A. I wouldn't think so. I think we both do the same.</p> <p>20 One focuses more on the other, back each other up,</p> <p>21 stuff like that. I think we're both doing</p> <p>22 acquisition research.</p> <p>23 Q. Is that acquisition research for MoSeneca?</p> <p>24 A. No, to try to -- acquiring new businesses.</p> <p>25 Q. For Omphalos?</p>
Page 31	Page 33
<p>1 to the bookkeepers and us. You know, the</p> <p>2 administrative side. This past year, since John's</p> <p>3 been there, short on staff, so a lot of the</p> <p>4 administrative stuff is passed off to us.</p> <p>5 Q. And when you say "us," you mean you and Jordan?</p> <p>6 A. Yes. Sorry. Yeah. Jordan and I.</p> <p>7 Q. What sort of administrative stuff are you talking</p> <p>8 about?</p> <p>9 A. SOPs, you know, quotes for parts and stuff like</p> <p>10 that. John will get them; we'll put them into</p> <p>11 business central so that they get processed.</p> <p>12 Receipts, we process all the receipts. Just the</p> <p>13 administrative stuff.</p> <p>14 Q. Okay.</p> <p>15 A. Dealing with the bookkeepers and sales, quotes,</p> <p>16 stuff like that.</p> <p>17 Q. And do you have bookkeepers for American Tripoli?</p> <p>18 A. Yes.</p> <p>19 Q. Do they work at American Tripoli?</p> <p>20 A. No. They are -- they're remote.</p> <p>21 Q. And are they direct employees of the company or is</p> <p>22 that something, like, you've outsourced to a third</p> <p>23 party?</p> <p>24 A. Outsourced. Contractors, yeah.</p> <p>25 Q. And what about sales? Who handles sales for the</p>	<p>1 A. Yes.</p> <p>2 Q. Who has the ultimate hiring employee -- hiring</p> <p>3 authority when you're hiring employees?</p> <p>4 A. You -- for American Tripoli?</p> <p>5 Q. Yeah.</p> <p>6 A. Yeah. So John -- John would be there locally so</p> <p>7 he's doing the interviews with them so he's -- he</p> <p>8 really has the last say. Of course, if, you know,</p> <p>9 something was blatantly wrong, I guess he would</p> <p>10 say I don't really know, and then I could make</p> <p>11 that decision, but he has the decision.</p> <p>12 The pay rates and stuff, I would say that</p> <p>13 that would be us based on the market research and</p> <p>14 everything that we're doing since we're dealing</p> <p>15 with the budgets and stuff.</p> <p>16 But the person individually--to answer your</p> <p>17 question--he would -- he kind of has the say since</p> <p>18 he's there locally, hands-on.</p> <p>19 Q. Does he have to run hiring decisions by you?</p> <p>20 A. As far as -- what do you mean? That's a loaded</p> <p>21 question.</p> <p>22 Q. Let's say he's interviewed someone; he thinks that</p> <p>23 they're great; he wants to hire them. Does he</p> <p>24 have to run that by you before he makes a job</p> <p>25 offer?</p>

<p style="text-align: right;">Page 34</p> <p>1 A. Oh, no. No. Yeah. That kind of thing we talk 2 about so it's not like -- I don't consider running 3 by me; it's just like, This is who I'm going to 4 hire. 5 Okay. 6 This is what we're going to hire him for. 7 And we may discuss with that individual his 8 pay rate or what other benefits he's looking for 9 and stuff like that. 10 Q. So you'd expect him to run that by you but that 11 just sort of happens naturally as well, about who 12 he's going to hire? 13 A. Yeah, I don't -- yeah. I respect John's decision 14 on that. Yeah. 15 Q. Do you typically hire employees that have mining 16 experience? 17 A. We would prefer to, yes. That's part of our 18 search criteria. There's just not very many 19 people in that area that have mining experience 20 that want to work, if you want to call it that. 21 Or apply to work. 22 Q. Have you ever hired an employee that had mining 23 experience prior to working for American Tripoli? 24 A. I do believe so. I'm not sure. I'd have to go 25 back and look at the records but I do believe so.</p>	<p style="text-align: right;">Page 36</p> <p>1 based off our training plan, which MSHA approves, 2 and any additional training for that is more of 3 safety rather than a mining environment because, 4 like I said, we don't -- it's not really a mine as 5 in coal mining; it's a manufacturing plant. 6 But I understand what the Mine Act states, 7 so -- so yes. 8 Q. Do you have any formal, like, new employee 9 orientation or new employee training? 10 A. Yes. Yes. 11 Q. And what is that? 12 A. Yeah. Even during the interview process, John 13 walks the -- John or Mr. Townsend, Joshua 14 Townsend, the safety environmental health 15 specialist, they will walk them through the mill 16 showing them the process and explaining how the 17 mill completely works. 18 And then, like myself, if -- I've been there 19 a couple times with new hires -- I'll even take 20 them to the quarry so they have an understanding 21 of where the material's coming from in its raw 22 state, coming to the drying sheds and going 23 through the whole entire process so that they 24 understand, you know, where it comes from out of 25 the ground into a bag. That's basically what we</p>
<p style="text-align: right;">Page 35</p> <p>1 Because it's part of our -- 2 Q. Do you -- 3 A. Say again? 4 Q. Can you think of anyone specifically? 5 A. Yeah, I can't think of anybody specifically. Not 6 off the top of my head, no. 7 Q. So would you say -- 8 A. Like I said, there's a lot -- 9 Q. Would you say most employees do not have mining 10 experience when they start working for American 11 Tripoli? 12 A. Unfortunately, yes. 13 Q. Given that lack of mining experience, do you do 14 anything to familiarize employees with mining when 15 they start? 16 A. Oh, yes. Yeah. So it's just like -- I don't 17 consider our mill plant a mine because of the 18 general terms of mining is we're mining something 19 out of the ground, okay, because we're bringing in 20 the material, then we're pulverizing it, 21 basically, and then we're manufacturing it. We're 22 putting it in bags. We don't really do anything 23 with the material or in a mining sense, such as 24 coal mining. 25 So the training that the individuals get is</p>	<p style="text-align: right;">Page 37</p> <p>1 do. 2 So, yes, they get a -- they get a 3 walk-through first, and then during their 4 training, they get all the MSHA-required training, 5 and then they get specialized training specific to 6 our plant for safety purposes. 7 Q. And how long has that sort of program been in 8 place? 9 A. How long has it been in place? Oh. Well, as far 10 as I know, the existence of MSHA, because it 11 was -- 12 Q. No, your specific -- your specific program that 13 you provide to new employees that you were just 14 describing. 15 A. Yeah. That was given to us and we just expanded 16 on it. When we acquired the business in 2021, 17 that was already established. 18 Q. So you just kept their kind of program for new 19 employees? 20 A. Yes. Yeah. What was the basis of it all, we just 21 critiqued it and made it better based on feedback 22 from the employees that were there. 23 Q. And whose job is it to communicate to employees 24 what their job duties are? 25 A. John Spears.</p>

<p style="text-align: right;">Page 38</p> <p>1 Q. And how is that done?</p> <p>2 A. How is that done? Well, I mean, he's doing the</p> <p>3 interviewing process so it's explained to them in</p> <p>4 that process, and then, like Mr. Baumann, since</p> <p>5 the mill associates -- since he was a shift lead,</p> <p>6 he would help show them their OJT on how to do</p> <p>7 their job and the safety aspects behind it, and</p> <p>8 the safety person would help them with their</p> <p>9 safety side and the forklift training side, the</p> <p>10 guarding side -- trying to think of all the other</p> <p>11 stuff that each individual person does, but that's</p> <p>12 how they get their training, the specialized</p> <p>13 individual training.</p> <p>14 Mr. Jim Hoover was our senior employee and he</p> <p>15 had been with American Tripoli before we bought</p> <p>16 the company. He was the most experienced person,</p> <p>17 even more than John, and he would be the person</p> <p>18 that any new hire would go to to ask about, you</p> <p>19 know, what is this and how does this work and Jim,</p> <p>20 or Mr. Hoover, would show them: This is how you</p> <p>21 slide a bag on; this is where you pick up a bag;</p> <p>22 this is where you get pallets from, stuff like</p> <p>23 that.</p> <p>24 Q. And is there any sort of document that shows an</p> <p>25 employee what all of their job duties are, like</p>	<p style="text-align: right;">Page 40</p> <p>1 at least?</p> <p>2 A. I know it's more than a year but I'm not sure.</p> <p>3 It's not two years.</p> <p>4 Q. And did you personally hire him?</p> <p>5 A. Yes. Shared -- that was shared with -- that</p> <p>6 decision was shared with Jordan, of course, just</p> <p>7 for clarity.</p> <p>8 Q. And why did you hire him for the job?</p> <p>9 A. I -- the experience that Mr. Spears has, he was a</p> <p>10 U.S. postal master, postmaster, and he also had</p> <p>11 experience in shop class dealing with the young --</p> <p>12 younger generation, and the experience that he had</p> <p>13 managing operations and budgeting and his</p> <p>14 background experience, stuff like that, was one of</p> <p>15 our major factors of hiring him.</p> <p>16 The operations manager that we had prior to</p> <p>17 Mr. Spears, Christine Schreiber, if I remember</p> <p>18 correctly her name, she was hired as a operations</p> <p>19 person because she had operations background but</p> <p>20 she didn't have manufacturing background, or, as</p> <p>21 she stated, managing a team of men. That's</p> <p>22 basically what she said.</p> <p>23 So one of the reasons that we hired John was</p> <p>24 learning from the mistakes with Christine to make</p> <p>25 sure that we covered what she lacked so that we</p>
<p style="text-align: right;">Page 39</p> <p>1 what they're expected to do in a day or a week or</p> <p>2 a month?</p> <p>3 A. Yes. They get the position description when</p> <p>4 they're hired and then that's available -- if I'm</p> <p>5 not mistaken, that's available in Teams as well so</p> <p>6 they can see it 24/7.</p> <p>7 Q. And how long has that been the case?</p> <p>8 A. Oh, yeah, since day one. Yeah. Since January of</p> <p>9 2021 -- or, excuse me --</p> <p>10 Q. Are the employs at -- go ahead.</p> <p>11 A. Sorry.</p> <p>12 Q. Are the employees at American Tripoli part of a</p> <p>13 union?</p> <p>14 A. No.</p> <p>15 Q. And when did John Spears start working for</p> <p>16 American Tripoli?</p> <p>17 A. Yeah, without looking at notes, I wouldn't -- I</p> <p>18 don't recall.</p> <p>19 Q. Has he been there since Omphalos has owned the</p> <p>20 company?</p> <p>21 A. Yes. Oh, what do you mean? Omphalos was</p> <p>22 established before we purchased American Tripoli.</p> <p>23 Q. Right. Did you hire John Spears?</p> <p>24 A. Yes. There was a operations manager before him.</p> <p>25 Q. And has he been there for a couple of years now,</p>	<p style="text-align: right;">Page 41</p> <p>1 could move forward, make the company more</p> <p>2 successful.</p> <p>3 So Mr. Spears is experienced in managing</p> <p>4 people, dealing with</p> <p>5 high-school-graduate-educated-level personnel, and</p> <p>6 his experience in senior management of a large</p> <p>7 corporation is the reason we hired John.</p> <p>8 Q. And does he have any mining experience?</p> <p>9 A. Did he have any mining experience? No, his was</p> <p>10 based off operations.</p> <p>11 Q. And did he have any manufacturing experience?</p> <p>12 A. I would have to look back at the resume. I don't</p> <p>13 remember that.</p> <p>14 Q. And what are John Spears' job duties?</p> <p>15 A. Without looking at the position description, I'd</p> <p>16 have to -- it's basically operations.</p> <p>17 Q. What do you expect him to do on a given day or</p> <p>18 week?</p> <p>19 A. So in a production environment, we have a</p> <p>20 production line and we have a production schedule.</p> <p>21 I expect John to manage the people there that</p> <p>22 fulfill all the duties of that production line,</p> <p>23 which includes safety, quarry operations,</p> <p>24 shipping, and the production line itself. Yeah.</p> <p>25 Q. So is he in charge of production, generally?</p>

<p style="text-align: right;">Page 42</p> <p>1 A. Yes. Yeah. The production schedule is driven off</p> <p>2 of sales, which is driven off of customer demand,</p> <p>3 and the -- it's what John uses as his guide for</p> <p>4 what's going on that day.</p> <p>5 Q. Is it his job to ensure production is, like,</p> <p>6 running smoothly and continuing to go forward</p> <p>7 according to that schedule?</p> <p>8 A. Well, with the assistance of the shift lead. The</p> <p>9 shift lead is really the one that actually makes</p> <p>10 sure that things are getting done in the mill.</p> <p>11 Because John's not really in the mill every day</p> <p>12 unless it's needed because we're short-handed.</p> <p>13 The shift lead is the one that makes sure the</p> <p>14 mill associates show up on time, you know, they go</p> <p>15 to their breaks, they -- you know, they come back</p> <p>16 from lunch. They make sure all the bags, pallets,</p> <p>17 slip sheets, all the stuff is there. The shift</p> <p>18 lead is it the one that is monitoring the</p> <p>19 production schedule. The shift lead is the one</p> <p>20 that's doing the quality control to make sure what</p> <p>21 gets loaded in the truck to be shipped is accurate</p> <p>22 and stuff like that.</p> <p>23 So he -- John is the backup for the shift</p> <p>24 lead. So if the shift lead, you know, needs to</p> <p>25 take vacation, John would step in his place and</p>	<p style="text-align: right;">Page 44</p> <p>1 somebody and the counseling. Mr. Hale now is</p> <p>2 required to do the written counseling, verbal</p> <p>3 counseling, stuff like that.</p> <p>4 Q. And then these job duties that --</p> <p>5 A. Sorry. I didn't mean to interrupt. I just wanted</p> <p>6 to add to that. We assist as they need help. So</p> <p>7 if there's a counseling statement that Mr. Hale</p> <p>8 needs, it gets communicated and we type up the</p> <p>9 document and then present it in Teams and then</p> <p>10 they issue it from there.</p> <p>11 Q. And these job duties that you've been describing</p> <p>12 for John Spears, have those always been his job</p> <p>13 duties? Have they changed during his employment?</p> <p>14 A. I don't think anything's changed. I'd have to</p> <p>15 look back at documents, of course.</p> <p>16 Q. Is John Spears the supervisor of any employees</p> <p>17 currently?</p> <p>18 A. Yes. Direct reports? Is that what you mean?</p> <p>19 Q. Who would those direct reports be?</p> <p>20 A. Max Drake, Joshua Townsend, Mr. Hale. Yeah.</p> <p>21 Q. So is he the supervisor over all the employees at</p> <p>22 American Tripoli?</p> <p>23 A. Yes. Yeah. He's the operations manager. Mm-hmm.</p> <p>24 Q. Does Don Hale supervise any employees directly?</p> <p>25 A. Yes, the mill associates.</p>
<p style="text-align: right;">Page 43</p> <p>1 run the operations for that shift lead. That's</p> <p>2 the dynamics between those two types of positions.</p> <p>3 Q. Who is the current shift lead?</p> <p>4 A. Current shift lead is Mr. Don Hale.</p> <p>5 Q. And I believe you had said he was like an</p> <p>6 assistant operations manager, or does he have two</p> <p>7 titles?</p> <p>8 A. That -- no. He is the assistant manager. We --</p> <p>9 learning from Mr. Baumann, termination and</p> <p>10 experience there, we needed to hire somebody that</p> <p>11 would be in a -- an assistant manager role so that</p> <p>12 the mill associates would have a manager over</p> <p>13 them.</p> <p>14 Q. So previously the shift lead was not in a</p> <p>15 management position.</p> <p>16 A. No, that is correct.</p> <p>17 Q. And did not supervise employees?</p> <p>18 A. No, he did not. He did not counsel; he did not,</p> <p>19 you know, do write-ups, you know, did any hiring</p> <p>20 or firing. That was all related to Mr. Spears,</p> <p>21 the operations manager.</p> <p>22 Q. So those were not part of the shift lead's role</p> <p>23 until now with Don Hale.</p> <p>24 A. No. The only thing that has been added to that is</p> <p>25 the feedback for hiring somebody or firing</p>	<p style="text-align: right;">Page 45</p> <p>1 Q. And who are those?</p> <p>2 A. Oh, let's see here. I know -- I know -- I don't</p> <p>3 know their -- I think it's Lance. I'd have to</p> <p>4 look back in documents for the last name. Brian</p> <p>5 and Ron. I think that's it. I'd have to look</p> <p>6 back at the documentation.</p> <p>7 Q. So Don Hale supervises different employees than</p> <p>8 John Spears supervises.</p> <p>9 A. Yes. Yeah. So it goes mill associates, the shift</p> <p>10 lead or the assistant manager, and then John</p> <p>11 Spears. That's the chain.</p> <p>12 Q. Okay. Who was Rob Baumann's direct supervisor?</p> <p>13 A. John Spears, the operations manager.</p> <p>14 Q. And Baumann did not -- okay. And Baumann did not</p> <p>15 supervise any employees --</p> <p>16 A. No.</p> <p>17 Q. -- directly, correct?</p> <p>18 A. He did not do any type of counseling or anything</p> <p>19 like that.</p> <p>20 Q. And he didn't have any responsibilities to</p> <p>21 supervise employees, correct?</p> <p>22 A. He did not have -- he did -- he was not tasked, if</p> <p>23 that's what you're asking me. He did have</p> <p>24 responsibilities such as training people, making</p> <p>25 sure they're safe, making sure they show up,</p>

Page 46	Page 48
<p>1 reporting to John who's there, who's not there, 2 why they weren't there, stuff like that. 3 Q. But Baumann was not directly tasked with 4 supervising employees, correct? 5 A. Okay. So give me your definition of "supervising 6 employees." I guess that would be a better 7 question. 8 Q. While Rob Baumann was employed, did any -- was any 9 employee at American Tripoli -- was Rob Baumann 10 any employee's supervisor while he was employed? 11 A. As far as counseling and progression of growth and 12 pay, I'm not -- because there's so much that -- to 13 me, that's a wide open question because 14 Mr. Baumann was not, as far as pay and counseling 15 and mentoring -- well, even -- that's a great 16 example, even mentoring. 17 Mr. Baumann was tasked to mentor his -- the 18 people that worked with him to make sure things 19 were getting done. So is that a manager role? 20 Yes. Mr. Baumann did not have management 21 experience and this tasking or training was to 22 make him a better manager so eventually he could 23 progress and become a operations manager. That 24 was the whole intent of hiring Mr. Baumann. 25 Q. So would you agree that every employee at American</p>	<p>1 high school shop class teacher, but I'd have to 2 look back at his résumé to give you those details. 3 Q. And did John Spears have a role with regard to 4 compliance with MSHA regulations and maintenance 5 during Baumann's employment as well? 6 A. Yes, just like everybody there did. 7 Q. And where does John Spears spend most of his day? 8 Is he in an office? Is he walking around? Do you 9 know? 10 A. Yeah. Again, that depends on the amount of 11 personnel that we have that day, and that day -- 12 and its operations that are happening that day. 13 You know, Mr. Baumann -- or Mr. Spears may spend, 14 you know, most of his day in the admin building, 15 which is a separate building from the mill plant, 16 but if, for example, something breaks and if we 17 needed, let's just say, a new motor replaced and 18 we don't have a maintenance guy, Mr. Spears may be 19 the one that's replacing that motor. 20 Q. Does he have an office? 21 A. Yes, he does. 22 Q. And where is that located? 23 A. It's in the admin building. 24 Q. And is the admin building, is that connected to 25 the mill?</p>
Page 47	Page 49
<p>1 Tripoli has a supervisor? 2 A. Yes, a direct report supervisor. 3 Q. Was Rob Baumann a direct report supervisor for any 4 employee at American Tripoli? 5 A. No. No. 6 Q. Is one of John Spears' duties to ensure compliance 7 with MSHA regulations? 8 A. Yes. 9 Q. And does he have any duties with regard to 10 maintenance? 11 A. Yes. 12 Q. What would those be? 13 A. Being in the operations, we have to make sure that 14 it's running, and if he doesn't have a maintenance 15 person there, he takes on the tasks, you know, 16 making sure that we get maintenance done. 17 Q. Does he have any maintenance experience? 18 A. Yes. 19 Q. Prior to working at American Tripoli? 20 A. Yes. Yeah. He's also a -- 21 Q. And what is that? 22 A. He's also a farmer. 23 Q. So his prior farming experience is his prior 24 maintenance experience? 25 A. I'd have to look back at -- well, he's got the</p>	<p>1 A. No, it's probably a hundred feet, two hundred feet 2 from the mill. 3 Q. In a totally separate building? 4 A. Yes. It's separate, yeah. Detached and -- yeah. 5 Q. How much product does the mine produce in a 6 typical week, would you say? 7 A. Forecasted or capability or actual? I don't -- 8 because it's three different things. 9 Q. Actual. 10 A. That would -- without looking at the records, we'd 11 have to see. I don't have that information here. 12 Q. You can't -- you don't have any idea what the 13 general average production is for the mine? 14 A. No, because there is -- 15 Q. Is it -- 16 A. -- no average. It varies -- 17 Q. There's no average? 18 A. It really varies. Yeah. I can tell you 19 forecasted, if you'd like. 20 Q. Sure. What's the forecasted? 21 A. Okay. So we the machinery is capable of producing 22 up to 100,000 pounds per day, which is 50 tons, 23 and we forecast for 40,000 pounds per day. 24 Q. And when you say "per day," is that 24 hours or -- 25 A. No, that's an eight-hour shift. Yeah. And you</p>

<p style="text-align: right;">Page 50</p> <p>1 got to take into consideration, even in that</p> <p>2 eight-hour shift, we give them an hour in the</p> <p>3 morning for startup and hour in the evening for</p> <p>4 shutdown. So it's six hours of production. And</p> <p>5 we --</p> <p>6 Q. How many shifts run?</p> <p>7 A. One. And we schedule six hours of production per</p> <p>8 day. So six times six is 36,000, rounded up to</p> <p>9 40,000 is what we schedule for customers.</p> <p>10 Q. And is that given ideal conditions that could be</p> <p>11 done?</p> <p>12 A. Yes, that would be -- yeah. That would be what we</p> <p>13 are told from history with the experienced people</p> <p>14 there, experienced miners as it's called here,</p> <p>15 that 6,000 pounds an hour is pretty normal. With</p> <p>16 lack of experience that we had in 2022 with the</p> <p>17 high turnover employees, that is significantly</p> <p>18 less. And all these other MSHA issues.</p> <p>19 Q. Have you ever met the goal of 6,000 pounds per</p> <p>20 hour?</p> <p>21 A. Oh, yes. Yeah.</p> <p>22 Q. How often?</p> <p>23 A. Again, that fluctuates based on temperature, based</p> <p>24 on humidity, based on the team that's actually</p> <p>25 working there and the people that are there, too.</p>	<p style="text-align: right;">Page 52</p> <p>1 quarry operators or even the operations manager.</p> <p>2 So that's where we get our guidance from is the</p> <p>3 experience that they've had before us.</p> <p>4 Q. And who are those people?</p> <p>5 A. Randy Drake, and the other gentleman I have to</p> <p>6 look at the documents and so I got to see who we</p> <p>7 talk to, but Randy Drake is the main person that</p> <p>8 we usually call when we're having issues. He was</p> <p>9 a maintenance person; he was the mill manager at</p> <p>10 the time; he was -- he -- from what I understand,</p> <p>11 he retired from the place after being there for</p> <p>12 40-something years. So. . . .</p> <p>13 Q. So he never worked for the company while you've</p> <p>14 been involved in the company.</p> <p>15 A. No. No. He retired in 2018, if I remember</p> <p>16 correctly.</p> <p>17 Q. Is he the person that told you about the machine's</p> <p>18 capability?</p> <p>19 A. Yes. Yes.</p> <p>20 Q. And did you get any documents?</p> <p>21 A. No. They were terrible about any type of</p> <p>22 documentation. Any type of documentation that we</p> <p>23 have provided in Teams now is either documents we</p> <p>24 found or documents that we have generated based on</p> <p>25 the information that we receive.</p>
<p style="text-align: right;">Page 51</p> <p>1 Q. Does that happen over 50 percent of the time --</p> <p>2 A. Oh, yeah.</p> <p>3 Q. -- that you reach that 6,000 goal?</p> <p>4 A. Yes. Yeah depends on product, because we offer 13</p> <p>5 different grades of product. So -- actually 26</p> <p>6 grades of product. So it just depends on the</p> <p>7 product that's running, the people that are there,</p> <p>8 air temperature, density, and the temperature of</p> <p>9 the material, which they --</p> <p>10 Q. Are those things --</p> <p>11 A. I'm sorry. Go ahead.</p> <p>12 Q. Are those things factored into the goals that you</p> <p>13 set?</p> <p>14 A. Yes.</p> <p>15 Q. So the goal wouldn't always be 36,000 per shift</p> <p>16 because the temperature might be different, the</p> <p>17 product might be different; is that correct?</p> <p>18 A. Yes. The biggest thing -- the biggest hurdle that</p> <p>19 we've had other than MSHA in 2023 is experience,</p> <p>20 because we have employees -- or retired employees</p> <p>21 from American Tripoli that assist us as we need</p> <p>22 it. We'd call them and they would tell us</p> <p>23 different things and that's where we're getting</p> <p>24 our guidelines from is based on those gentlemen</p> <p>25 that have been maintenance or mill operators or</p>	<p style="text-align: right;">Page 53</p> <p>1 Q. So this 36,000 pounds per shift is just kind of</p> <p>2 word of mouth from former employees?</p> <p>3 A. No. Mr. Drake, Randy Drake, stated that the</p> <p>4 machines are -- or were capable of doing 100,000</p> <p>5 pounds per day, that that's what they used to do</p> <p>6 previously. So. . . .</p> <p>7 Q. And does he have any documents to prove that?</p> <p>8 A. I would assume that there are production schedules</p> <p>9 and stuff like that way back. His company was</p> <p>10 terrible about documenting processes and I don't</p> <p>11 have those, no.</p> <p>12 Q. And you never saw them?</p> <p>13 A. No. No.</p> <p>14 Q. So you're just basing that 100K off of what you</p> <p>15 were told from Mr. Drake?</p> <p>16 A. Yes. That's correct. And the last mill manager,</p> <p>17 Doug Kohler. These were a lot of his notes when</p> <p>18 we were -- freshly after acquiring the business,</p> <p>19 getting all the information, pulling it out of his</p> <p>20 head before he retired.</p> <p>21 Q. And then have you ever experienced these</p> <p>22 production levels, like, of 100K per day --</p> <p>23 A. Oh, no.</p> <p>24 Q. -- while you've been with the company?</p> <p>25 A. No.</p>

Page 54	Page 56
<p>1 Q. And what's the most you've ever seen produced with</p> <p>2 the --</p> <p>3 A. If I remember correctly, our largest amount per</p> <p>4 day is 62,000 pounds. So we know the machines are</p> <p>5 capable of doing it; it just has to do with</p> <p>6 people, timing, weather, humidity.</p> <p>7 Q. And was that on an eight-hour-shift day or was</p> <p>8 that a day you were running more than one shift?</p> <p>9 A. No, that was a -- if I remember right, it was just</p> <p>10 a normal six-hour -- eight-hour shift but six-hour</p> <p>11 production. Mm-hmm.</p> <p>12 Q. And so it sounds like there's a lot of factors</p> <p>13 kind of outside of your control--like the weather,</p> <p>14 the humidity--that can affect production even if</p> <p>15 everything else is going perfectly, correct?</p> <p>16 A. That is correct. Just like last week with the</p> <p>17 temperatures dropping below 35 degrees in air</p> <p>18 temperature, we had to shut down. We can't</p> <p>19 produce when the temperature drops below 35</p> <p>20 degrees.</p> <p>21 We also have to monitor the air humidity</p> <p>22 because on heavy humidity days we have to apply</p> <p>23 more heat to dry the material.</p> <p>24 So, yes, there are a lot of factors that we</p> <p>25 can't control that affect the production.</p>	<p>1 is, and we weren't getting anybody that was</p> <p>2 qualified at all. We actually went to an</p> <p>3 employment agency. They gave us the -- I can't</p> <p>4 remember his name. Joe was the last maintenance</p> <p>5 person that we had. And, yeah, maintenance has</p> <p>6 been the Achille's heel so far.</p> <p>7 Q. So you really need, like, a good qualified</p> <p>8 maintenance person --</p> <p>9 A. Oh, yes.</p> <p>10 Q. -- to get your production goals met, too?</p> <p>11 A. Yes. Yeah.</p> <p>12 Q. And have you ever had a really good maintenance</p> <p>13 person in the time you've owned -- since you've</p> <p>14 owned the company?</p> <p>15 A. No. No. It's something in the area, as far as we</p> <p>16 understand, because we're not --</p> <p>17 Q. If the mine is --</p> <p>18 A. Sorry.</p> <p>19 Q. Go ahead.</p> <p>20 If the mine's down for a day for maintenance</p> <p>21 or some other reason, how much money does that</p> <p>22 cost the mine, like, for a day of missed</p> <p>23 production?</p> <p>24 A. So, on average, if I'm not mistaken, I do believe</p> <p>25 that the daily -- or the monthly operations</p>
Page 55	Page 57
<p>1 Q. Is there, like, a heat that you can't -- like, you</p> <p>2 know, if it's a 100-degree day, does that affect</p> <p>3 it, or no?</p> <p>4 A. No. The heat days are actually -- spring, summer,</p> <p>5 early fall is really our best manufacturing days.</p> <p>6 Q. And when you say what you forecast, do you have</p> <p>7 any -- is that different from any sort of, like,</p> <p>8 goal that you have set for production? Do you</p> <p>9 have any sort of goals, or is that what you mean</p> <p>10 by forecasting?</p> <p>11 A. Right. So it is based on demand. We forecast</p> <p>12 40,000 pounds per day. That way -- that way we</p> <p>13 can give our customers a production schedule of</p> <p>14 when it's supposed to happen, but we do share with</p> <p>15 them that if something breaks, the production</p> <p>16 schedule gets pushed back and so does their order.</p> <p>17 Q. So production can be affected by, like,</p> <p>18 maintenance issues, too.</p> <p>19 A. Oh, yes. Yes. Which maintenance --</p> <p>20 Q. How often do those occur?</p> <p>21 A. Yeah, maintenance issues is our biggest problem,</p> <p>22 probably going where your question is, and getting</p> <p>23 experienced maintenance personnel is very</p> <p>24 difficult. We've had a maintenance position open</p> <p>25 for the last four and a half months, I think it</p>	<p>1 expenses are 140,000 -- thousand. I'd have to</p> <p>2 look back. Somewhere between 120-, and \$140,000.</p> <p>3 So any time -- if you basically divide that by 20,</p> <p>4 that'll tell you how much our operations daily</p> <p>5 cost because we have, you know, fuel, insurance,</p> <p>6 all the stuff that's normal in a manufacturing</p> <p>7 plant.</p> <p>8 Q. Do you -- is having enough raw material ever an</p> <p>9 issue in production?</p> <p>10 A. No. Mr. Drake -- Randy -- excuse me, Max Drake</p> <p>11 operates the heavy equipment out in the quarry and</p> <p>12 he worked for American Tripoli 20, 30 years before</p> <p>13 he came back and worked for us as a contractor.</p> <p>14 So he manages that whole department and need</p> <p>15 without any problems.</p> <p>16 Q. So raw material isn't the holdup ever on</p> <p>17 production issues?</p> <p>18 A. No, ma'am.</p> <p>19 Q. Okay.</p> <p>20 A. Our holdup is always experience and maintenance.</p> <p>21 MS. O'REILLY: Okay. I'm going to share</p> <p>22 my screen with you to show you an exhibit</p> <p>23 that I've pre-marked as Exhibit 1.</p> <p>24 I'm going to do that right now. Let me</p> <p>25 pull that up.</p>

<p style="text-align: right;">Page 58</p> <p>1 (Exhibit No. 1 marked for identification.)</p> <p>2 Q. (By Ms. O'Reilly) And I'm going to let you have</p> <p>3 control over this so you can scroll through it if</p> <p>4 you want. Let me see if I can do that. So if you</p> <p>5 want to scroll through that, you can, but I've</p> <p>6 marked this document as Exhibit 1, and once you've</p> <p>7 had a chance to look through it, just let me know.</p> <p>8 A. Is this the response? Yeah. Okay.</p> <p>9 Q. Okay. So do you know what this document is?</p> <p>10 A. Yeah. It's the answer for productions of</p> <p>11 documents.</p> <p>12 Q. Okay. And who prepared this document?</p> <p>13 A. Myself.</p> <p>14 Q. And, starting on page 4, if you can go to page 4</p> <p>15 of the PDF, it's -- it lists, like, a date in one</p> <p>16 column and then pounds produced in another column.</p> <p>17 A. Yes, ma'am.</p> <p>18 Q. Do you see that?</p> <p>19 A. Mm-hmm. Yes, ma'am.</p> <p>20 Q. Did you compile this data?</p> <p>21 A. What do you mean by "compiled"?</p> <p>22 Q. Well, you put -- somebody put this data into this</p> <p>23 document, correct?</p> <p>24 A. Yeah. Okay. So these -- we have a daily</p> <p>25 production spreadsheet, and that -- that's where</p>	<p style="text-align: right;">Page 60</p> <p>1 was not IT-savvy so we really had to struggle with</p> <p>2 him to get the data in there. Even Mr. Hoover was</p> <p>3 not and is not computer-savvy. So it was probably</p> <p>4 a mistake, because it's probably 80 -- like on</p> <p>5 28 January, 80,000, we know that's not true. It's</p> <p>6 probably 8,000. I don't know where 800 -- 80,000</p> <p>7 came from.</p> <p>8 Q. Okay.</p> <p>9 A. And then on March 1st, it was probably 10,000 and</p> <p>10 then something broke, like during the production</p> <p>11 time something broke and they had to replace a</p> <p>12 motor or a bearing or something, and then after</p> <p>13 they got it fixed, they started a new line showing</p> <p>14 that they started more after that. Yeah.</p> <p>15 Q. So would that be, like, March 1st would that --</p> <p>16 A. 36,000 --</p> <p>17 Q. -- you're adding those numbers together?</p> <p>18 A. Yes, ma'am. Yeah.</p> <p>19 Q. Okay. And so would you agree that this document</p> <p>20 is a true and accurate copy of the document that</p> <p>21 you prepared containing these production records</p> <p>22 for January 1st of 2022 through January 1st of</p> <p>23 2023?</p> <p>24 A. Can you repeat that question?</p> <p>25 Q. Yeah. Would you agree that this is a true and</p>
<p style="text-align: right;">Page 59</p> <p>1 this information came from.</p> <p>2 Q. So you took information from the daily production</p> <p>3 spreadsheet and put it into this document.</p> <p>4 A. Yes. The --</p> <p>5 Q. Okay.</p> <p>6 A. -- shift lead is the one that puts the information</p> <p>7 in the spreadsheet.</p> <p>8 Q. Okay. But you took the information from the</p> <p>9 spreadsheet to this document to respond to the</p> <p>10 discovery, correct?</p> <p>11 A. Yes. Mm-hmm.</p> <p>12 Q. Okay. And what does "pounds produced" mean?</p> <p>13 A. That's how much they produced in that -- on that</p> <p>14 day. So, for example, in January 24th, 2022, they</p> <p>15 produced 16,500 pounds.</p> <p>16 Q. Okay.</p> <p>17 A. Yeah.</p> <p>18 Q. And then on, like, January 27th, you see that</p> <p>19 there's two numbers? What would that mean?</p> <p>20 A. I don't know. I'd have to -- let's see here.</p> <p>21 Q. And again you can see that on March 1st.</p> <p>22 A. March 1st. It may have been where they stopped</p> <p>23 production. Well, first answer, 27 January,</p> <p>24 that's probably a typo. Again, depending on who</p> <p>25 was inputting the data -- for example, Mr. Baumann</p>	<p style="text-align: right;">Page 61</p> <p>1 accurate copy of the document you prepared</p> <p>2 containing --</p> <p>3 A. Oh.</p> <p>4 Q. -- the production records from January 1, 2022,</p> <p>5 through January 1, 2023?</p> <p>6 A. Yes, with --</p> <p>7 Q. Okay.</p> <p>8 A. -- obviously some mistakes noted in there, but,</p> <p>9 yes. Yeah, it's just the exact -- whatever they</p> <p>10 had. Yeah.</p> <p>11 MS. O'REILLY: Okay. I'm going to stop</p> <p>12 sharing this document.</p> <p>13 Okay. And I'm going to show you another</p> <p>14 document which I'm going to -- which I've marked</p> <p>15 as Exhibit 2.</p> <p>16 (Exhibit No. 2 marked for identification.)</p> <p>17 Q. (By Ms. O'Reilly) I'm going to give you control</p> <p>18 over this document, too, if you want to look at</p> <p>19 it.</p> <p>20 And do you -- do you know what that document</p> <p>21 is?</p> <p>22 A. Yeah. That's the production report. Looks like</p> <p>23 it.</p> <p>24 Q. Is this the date -- go ahead.</p> <p>25 A. Looks like it's the production report from</p>

<p style="text-align: right;">Page 62</p> <p>1 2022/11/1 through 2023/3/31.</p> <p>2 Q. And is this the daily production spreadsheet you</p> <p>3 were talking about when we were talking about</p> <p>4 Exhibit 1?</p> <p>5 A. Yeah, I would assume.</p> <p>6 Q. Okay. Is this -- what is this document used for?</p> <p>7 A. This is where the shift lead inputs the data for</p> <p>8 what is going on that day.</p> <p>9 Q. And is this maintained, like, on American</p> <p>10 Tripoli's computer system and the employees go</p> <p>11 into that and input the data in here?</p> <p>12 A. They can access it. If they've got Teams on their</p> <p>13 phone or -- you know, they can access it from</p> <p>14 anywhere. Yeah.</p> <p>15 Q. Okay.</p> <p>16 A. It's in Teams.</p> <p>17 Q. So they can input data in here via Teams?</p> <p>18 A. Yes.</p> <p>19 Q. Okay.</p> <p>20 A. Yeah. There were numerous times where we had</p> <p>21 to -- I had to work with Mr. Baumann to get data</p> <p>22 input in this because he couldn't figure out how</p> <p>23 to do it while he was --</p> <p>24 Q. And did he have -- go ahead.</p> <p>25 A. Sorry.</p>	<p style="text-align: right;">Page 64</p> <p>1 their production schedule, they're instructed to</p> <p>2 fill this out so that, you know, the operations</p> <p>3 side will know what's going on, and then how they</p> <p>4 can explain to the customers why their order got</p> <p>5 delayed, and then I assume that is Column T on the</p> <p>6 far right. Those are for any notes that are</p> <p>7 added.</p> <p>8 So during the normal production, if something</p> <p>9 was to break, just like we talked about earlier,</p> <p>10 they would add a second line. So if they ran from</p> <p>11 9:00 a.m. to noon and then something broke at</p> <p>12 noon, they shut down for an hour, two</p> <p>13 hours--60 minutes is always the guideline that</p> <p>14 they have--they would start a new line on the same</p> <p>15 day and then continue on.</p> <p>16 As you can see here on 11/3, they went</p> <p>17 through -- "from stock" means that they were</p> <p>18 putting it into inventory, the 100-pound bags,</p> <p>19 then they started working on SO-268 from that</p> <p>20 time. Yeah.</p> <p>21 Let's see here. Since it's the same,</p> <p>22 without -- oh. Okay. Back in those -- back in</p> <p>23 11/3 of 2022 there was actually two shifts. We</p> <p>24 tried to do that as well. That didn't work out.</p> <p>25 So the first shift did the first three lines and</p>
<p style="text-align: right;">Page 63</p> <p>1 Q. Did he have a computer to input data on?</p> <p>2 A. Yes. Mm-hmm. Yeah, there's a computer in the</p> <p>3 control room.</p> <p>4 Q. And what is the expectation for filling in this</p> <p>5 data? Is this, like, something that's filled in</p> <p>6 daily --</p> <p>7 A. Yes.</p> <p>8 Q. -- during the same day that it occurred?</p> <p>9 A. Yes. Part of the normal procedures is they start</p> <p>10 their production; date; orders that they're</p> <p>11 working on based off the production calendar;</p> <p>12 logically, if they've finished the production or</p> <p>13 not; start time; end time; customer name based off</p> <p>14 the production schedule; material that they're</p> <p>15 producing; bags -- size that they're using off the</p> <p>16 production schedule; the number of bags that were</p> <p>17 made; the number of pounds that were made per that</p> <p>18 one order; and if there were any number of bags</p> <p>19 ripped; the pallet type, since we do export, they</p> <p>20 have different types; any types of pallets that</p> <p>21 were broken or trashed to keep accountability; the</p> <p>22 slip sheet that was used; and then the number of</p> <p>23 slip sheets.</p> <p>24 And then Column S is the major down time</p> <p>25 events. So if there's anything that breaks during</p>	<p style="text-align: right;">Page 65</p> <p>1 the second shift did the bottom two lines.</p> <p>2 Q. Okay. So there was a time period when you were</p> <p>3 doing two shifts.</p> <p>4 A. Yeah, we tried that. Yeah. Couldn't get people</p> <p>5 to work.</p> <p>6 Q. And what were those shift times?</p> <p>7 A. If I remember correctly, it was 8:00 to 4:30 and</p> <p>8 then 4:00 to midnight or -- I think it was --</p> <p>9 whatever that next shift was.</p> <p>10 Q. Okay.</p> <p>11 A. Yeah.</p> <p>12 Q. Okay.</p> <p>13 A. It was two eight-hour shifts.</p> <p>14 Q. Okay. And did you pull this document from</p> <p>15 American Tripoli, what -- I guess it would have</p> <p>16 come from the Teams database? Is that where that</p> <p>17 came from?</p> <p>18 A. Yes. Yes.</p> <p>19 Q. Okay. And would you agree, is this a true and</p> <p>20 accurate copy of the production report for</p> <p>21 November 1 of 2022 through March 31 of 2023?</p> <p>22 A. Yeah. That's what they put in there, yes.</p> <p>23 Q. Okay. Do you have any sort of regularly scheduled</p> <p>24 meetings or phone calls with any of the employees</p> <p>25 at American Tripoli?</p>

<p style="text-align: right;">Page 66</p> <p>1 A. Mr. Spears, we have a end-of-week closeout 2 meeting. That's every Friday. I think it 3 actually used to be Monday but it's every Friday 4 now. 5 Q. And what does that entail? 6 A. It's a closeout of the week. Basically the 7 production schedule -- I don't have my notes here. 8 I normally have that documented down. Basically 9 just what's happening during the week; is there 10 any issues that we need to be -- you know, 11 address, brought forward, discussed; any, you 12 know -- yeah. That's really it, just operations. 13 Q. And who attends that meeting? 14 A. Jordan, John and myself, and sometimes the 15 bookkeeper, just depends on what's being 16 discussed. 17 Q. And how long have you been having those meetings? 18 A. I would assume that right after we acquired the 19 business, so -- that's been once a week. 20 Q. Has anyone else ever been involved in those 21 meetings? 22 A. As far as the operations meeting, the weekly 23 operations meeting? Is that what you mean? 24 Q. This closeout meeting that you're talking about. 25 A. No. No. It's just the operations manager and us.</p>	<p style="text-align: right;">Page 68</p> <p>1 Microsoft. 2 Q. But they can't continue to -- they can't continue 3 to, like, participate in the mill group chat. 4 A. No, no, no. No. 5 Q. Like you remove them from that. 6 A. Right. 7 Q. Okay. So it's safe to say that the Teams messages 8 that we've received are all messages by and among 9 employees, contractors or owners of American 10 Tripoli about American Tripoli and the work 11 they're doing there. 12 A. Yes. Yes. 13 Q. Okay. 14 A. Now, we do have a chat group that's public -- not 15 public. It's -- I think we call it -- I don't 16 even know what they call it. No one really uses 17 it, but certain people have over time. It's just 18 a open chat that's not business related. They can 19 really talk about anything. I think Mr. Spears 20 talks about barbecuing and fishing and just 21 generic stuff that's not business related, but 22 it's still controlled by -- 23 Q. And what's -- 24 A. I'm sorry. 25 Q. And what's that chat called?</p>
<p style="text-align: right;">Page 67</p> <p>1 Like I said, occasionally, depending on what's 2 needed, the bookkeeper might be. That's about it. 3 Q. Oh, right. Yeah. Are there any other sort of 4 regularly scheduled calls or meetings with the 5 employees at American Tripoli? 6 A. Not scheduled calls, no. 7 Q. In this case, you've produced various Teams chats. 8 And would those all be Teams chats among American 9 Tripoli employees and then, you know, Jordan and 10 yourself as owners? 11 A. Yes. 12 Q. No one but employees would have access to that? 13 A. The contractors would. 14 Q. Okay. So people who work for American Tripoli, 15 either as a contractor or employee or an owner, I 16 guess -- 17 A. Yes. 18 Q. -- have access to those? 19 A. Yes. 20 Q. And if somebody's no longer an employee, they 21 wouldn't still have access to those Teams chats? 22 A. As far as I understand, the Teams that they have 23 when they -- their license gets terminated or 24 whatever, they have access to those Teams chats, 25 as far as I know. That's what I was told by</p>	<p style="text-align: right;">Page 69</p> <p>1 A. I'd have to look at it, to be honest with you. We 2 don't use it so it's -- you know, it's for them to 3 chat in there, you know. 4 Q. Okay. So it's an employee chat that you don't 5 participate in. 6 A. Yeah. I mean, it's -- I see it but I -- it's not, 7 you know -- if there's something that comes across 8 like, oh, for MSHA -- MSHA -- what do they call 9 those newsletters? Fatal reports, or whatever. 10 If we get those, we'll share that. Hey, guys, be 11 safe, whatever, this happened, just so they know. 12 Q. Okay. 13 A. Just -- that's the type of thing. 14 Q. Okay. But you're not sure what the name of that 15 chat is? 16 A. Say that one more time. 17 Q. But you're not sure what the name of that chat is, 18 that group? 19 A. No. I'd have to look at it again. 20 MS. O'REILLY: Okay. We've been going 21 for about an hour and a half so I'm going to 22 say let's take, like, a 15-minute break. Is 23 that okay with everybody? And then we can 24 get back on in about 15 minutes? So 10:40 25 Central time? I don't know if you're in</p>

Page 70	Page 72
<p>1 Eastern time. So 11:40 Eastern? Is that</p> <p>2 okay?</p> <p>3 THE WITNESS: Yeah.</p> <p>4 MS. O'REILLY: We'll go off the record</p> <p>5 and we'll come back in 15 minutes, then.</p> <p>6 THE WITNESS: Okay. Thank you.</p> <p>7 MS. O'REILLY: Thank you.</p> <p>8 MS. SMITH: And then I would suggest</p> <p>9 don't leave the Zoom. You can just mute and</p> <p>10 stop sharing your video. That will just keep</p> <p>11 the -- it'll be easier to reconnect, I think.</p> <p>12 THE WITNESS: Okay.</p> <p>13 (A recess was taken from 10:24 a.m. until</p> <p>14 10:40 a.m.)</p> <p>15 MS. O'REILLY: I'm going to pull up</p> <p>16 another exhibit that I've marked as Exhibit</p> <p>17 Number 3.</p> <p>18 (Exhibit No. 3 marked for identification.)</p> <p>19 BY MS. O'REILLY:</p> <p>20 Q. I'm going to let you have control over this</p> <p>21 document, too, if you want to take a look at it.</p> <p>22 A. Okay.</p> <p>23 Q. Okay. Do you know what this document is?</p> <p>24 A. Looks like you'd requested 30 November '20 email</p> <p>25 request, or should I say search for all terms for</p>	<p>1 A. Okay.</p> <p>2 Q. You agree with that?</p> <p>3 A. Yes.</p> <p>4 Q. Okay. And how did you create this document?</p> <p>5 A. Searching for the words "Baumann" or "Rob" in</p> <p>6 Teams, setting the parameters June 1st, 2022,</p> <p>7 through April 30th, and then if there was anything</p> <p>8 that came up like it shows here, I highlighted,</p> <p>9 copied/paste, copied/paste, all 467 pages, Laura.</p> <p>10 Yeah. It's crazy.</p> <p>11 Q. So you copied and paste that from Microsoft Teams?</p> <p>12 A. Yes, ma'am.</p> <p>13 Q. Okay. So all of these things that show up as</p> <p>14 these kind of chat boxes, those came directly from</p> <p>15 Microsoft Teams?</p> <p>16 A. Correct.</p> <p>17 Q. Okay. And it looks like this first part is a</p> <p>18 request for Teams chat with the words "Baumann" or</p> <p>19 "Rob" from June 1st, 2022, through April 30, 2023.</p> <p>20 Would you agree that you conducted that search and</p> <p>21 provided all such documents in response to that?</p> <p>22 A. Well, what do you mean by "all documents"?</p> <p>23 Q. Yeah. That's the wrong word. Would you agree</p> <p>24 that you provided all the Teams chats that hit</p> <p>25 with the words "Baumann" or "Rob" from June 1 --</p>
Page 71	Page 73
<p>1 Baumann or Rob from June 1. Yeah, just what it</p> <p>2 states.</p> <p>3 Q. Okay. Have you seen this document before?</p> <p>4 A. I don't remember it but I'm sure I have.</p> <p>5 Q. Would you have provided this document, created it?</p> <p>6 A. If you requested it, yes, I would have. I'll go</p> <p>7 ahead and say that. But I don't remember it, is</p> <p>8 what I'm saying.</p> <p>9 Q. And if you see, it's more than just this page. If</p> <p>10 you want to scroll it, feel free. It's like 467</p> <p>11 pages, I believe --</p> <p>12 A. Oh.</p> <p>13 Q. -- of different chats.</p> <p>14 A. Okay. Okay. Yeah.</p> <p>15 Q. So do you recall this document?</p> <p>16 A. I remember sending you a large document but I</p> <p>17 don't remember the document itself. Yes.</p> <p>18 Q. Okay. Does this appear to be that document?</p> <p>19 A. This one page could be part of that document, yes.</p> <p>20 Q. Okay. Well, feel free to scroll through them all</p> <p>21 because I'd like an answer to that question.</p> <p>22 A. Yeah. Like I said, I -- if it's a document that</p> <p>23 came from me, then, yes, I'm the one that put it</p> <p>24 together and sent it to you, yes.</p> <p>25 Q. As part of discovery in this case?</p>	<p>1 A. Yeah.</p> <p>2 Q. -- 2022 through April 30th, 2023?</p> <p>3 A. Yes.</p> <p>4 Q. Okay. And then I believe, if we scroll down, you</p> <p>5 know, there were several messages with those hits,</p> <p>6 and then there was a separate request in here for</p> <p>7 Teams chats with specific topics from specific</p> <p>8 days.</p> <p>9 A. Mm-hmm.</p> <p>10 Q. Do you see that on page 435 here?</p> <p>11 A. Yes.</p> <p>12 Q. And then I'll just go, like, 436, there's a</p> <p>13 separate one. Do you recall kind of this process</p> <p>14 and doing this?</p> <p>15 A. Yeah. I remember searching for what you asked</p> <p>16 for, yes.</p> <p>17 Q. Okay. And so is it fair to say that anything --</p> <p>18 any Teams chat that had a hit with any of these</p> <p>19 words, for example, on page 436 from July 27,</p> <p>20 2022, you put in here, and it looks like that --</p> <p>21 in this instance there were none, correct?</p> <p>22 A. Yes, and this one right here, as the results</p> <p>23 showed, we couldn't find any results for the key</p> <p>24 words that you were looking for.</p> <p>25 Q. Okay. And you did -- and you personally did these</p>

<p style="text-align: right;">Page 74</p> <p>1 searches, correct?</p> <p>2 A. I did.</p> <p>3 Q. Okay. And could there be other Teams messages</p> <p>4 between and among American Tripoli employees that</p> <p>5 would have had these words on this date, or are</p> <p>6 you able -- or were you able to search through all</p> <p>7 the Teams messages, I guess?</p> <p>8 A. Again, Teams that I belong to, they should show up</p> <p>9 here, yes.</p> <p>10 Q. And would it also show any, like, direct messages</p> <p>11 you have? Like, I know there's Teams Groups, but,</p> <p>12 like, if one employee just messaged you outside of</p> <p>13 a group, would that have been captured in the</p> <p>14 search?</p> <p>15 A. As far as I understand in the search, yes.</p> <p>16 Because it picks up the key words that you put in</p> <p>17 the search box.</p> <p>18 Q. Okay.</p> <p>19 A. Yeah.</p> <p>20 Q. And so you were part -- if you were a part of a</p> <p>21 message or a group and it had these words, it</p> <p>22 would have shown up.</p> <p>23 A. Correct.</p> <p>24 Q. Okay.</p> <p>25 A. Goes back to that question that you had asked</p>	<p style="text-align: right;">Page 76</p> <p>1 copy of those Teams chats that you pulled and</p> <p>2 created to respond to these discovery requests?</p> <p>3 A. Can you put that in non-lawyer terms? Does</p> <p>4 this --</p> <p>5 Q. Is this an accurate copy of the -- of the Teams</p> <p>6 chats that you pulled --</p> <p>7 A. Yes.</p> <p>8 Q. -- and the document you created to respond to</p> <p>9 these discovery questions?</p> <p>10 A. Yes. Yeah.</p> <p>11 Q. Okay. And I think we've already kind of discussed</p> <p>12 this, but using Teams was a regular part of the</p> <p>13 business at American Tripoli, correct?</p> <p>14 A. Is it a regular part of business? Yes. Can't</p> <p>15 force them to use it but we try training them to</p> <p>16 use it.</p> <p>17 Q. And you use Teams to kind of keep in regular and</p> <p>18 frequent kind of communication with employees; is</p> <p>19 that correct?</p> <p>20 A. It's more for internal communications amongst</p> <p>21 themselves to collaborate and communicate so that</p> <p>22 part of their progression path, like we talked</p> <p>23 about, they can communicate with the quarry, or if</p> <p>24 somebody's going to do a parts run, they can</p> <p>25 always be communicating without having a separate</p>
<p style="text-align: right;">Page 75</p> <p>1 about giving you access to -- or somebody else's</p> <p>2 Team chat or whatever, Microsoft support states</p> <p>3 that we can't do that. I don't I don't have</p> <p>4 access to those. So I couldn't --</p> <p>5 Q. So if --</p> <p>6 A. I couldn't go in --</p> <p>7 Q. If there was a message --</p> <p>8 A. -- chat, yeah.</p> <p>9 Q. So if there was a message between, like, Rob and</p> <p>10 another employee, just those two, you wouldn't</p> <p>11 have access to that.</p> <p>12 A. I would not.</p> <p>13 Q. Okay. You would have to have been involved.</p> <p>14 A. Yeah. According to Microsoft, I would not have</p> <p>15 access.</p> <p>16 Q. And that's your understanding from the searches</p> <p>17 you did, too, correct?</p> <p>18 A. That is correct.</p> <p>19 Q. Okay.</p> <p>20 A. Because I tried to do what you asked and I had to</p> <p>21 get Microsoft support to help with that and they</p> <p>22 said I can't do that. And that was the message</p> <p>23 I -- back to you.</p> <p>24 Q. Okay. And is this document here in Exhibit 3, you</p> <p>25 know, all the pages as well, a true and accurate</p>	<p style="text-align: right;">Page 77</p> <p>1 tool, is the purpose. Yes.</p> <p>2 Q. And these messages are usually sent kind of in</p> <p>3 real time. If somebody has a problem, they're</p> <p>4 going to send a message, you know, about that as</p> <p>5 that kind of is going on; is that true?</p> <p>6 A. That's not necessarily a hundred percent accurate</p> <p>7 because there are times where Microsoft Teams is</p> <p>8 down, you know, and it may -- may be minutes, it</p> <p>9 may be hours. That has happened, yes. So it's</p> <p>10 not instant always.</p> <p>11 Q. Okay. But other than, like --</p> <p>12 A. Yeah, I wouldn't use it as an emergency tool --</p> <p>13 Q. Right.</p> <p>14 A. -- and that is part of our thing. If there's an</p> <p>15 emergency, don't rely on Teams. Call that person.</p> <p>16 Q. Right.</p> <p>17 A. That's -- we have to share knowledge, yes.</p> <p>18 Q. And you keep track of these messages. It's like a</p> <p>19 regular practice to keep -- just keep these</p> <p>20 records. These records are maintained on the --</p> <p>21 whatever, Microsoft Teams database?</p> <p>22 A. I don't -- no, we don't keep track of them.</p> <p>23 Q. They're maintained. Like, you were able to search</p> <p>24 back to August of 2022. You keep those records.</p> <p>25 A. I don't know what the -- not the -- whatever --</p>

Page 78	Page 80
<p>1 retention. I don't know what the retention date</p> <p>2 is, or recycle or whatever.</p> <p>3 Q. Okay.</p> <p>4 A. It might be a year. I don't -- I don't know.</p> <p>5 Q. Okay. I'm going to -- I just have a couple</p> <p>6 questions about some of these groups so I'm going</p> <p>7 to go to page 15 of this Exhibit 3. If you see</p> <p>8 here at the top, it says AT MO dash mill</p> <p>9 management. Do you see that?</p> <p>10 A. Yes.</p> <p>11 Q. Who was in that group? It says you -- and then</p> <p>12 "you" would be you, Russell Tidaback, correct?</p> <p>13 A. Yeah. Yep, because I did the search. Don, John.</p> <p>14 Let's see here. Currently it would probably be,</p> <p>15 let's see, Don, John, mill management, Jordan.</p> <p>16 Oh, and Josh Townsend. That's who that shows.</p> <p>17 Q. And it looks like it says 3/30 but it doesn't have</p> <p>18 a year. Would that be 3/30/23 because you did the</p> <p>19 search in 2023?</p> <p>20 A. Yeah, I'd have to go back look at the search</p> <p>21 criteria. Can -- do you want me to scroll up?</p> <p>22 Q. Yeah. It's page 1.</p> <p>23 A. Yeah. So that would be the dates that these</p> <p>24 search criteria was, yes.</p> <p>25 Q. Got it. Okay. That makes sense. So when it</p>	<p>1 Q. Okay.</p> <p>2 A. Josh Townsend, being the safety person, he would</p> <p>3 be in there.</p> <p>4 Q. And would John be in that one, too?</p> <p>5 A. Yes.</p> <p>6 Q. And it looks like Baumann was in that one when he</p> <p>7 was --</p> <p>8 A. Yes.</p> <p>9 Q. -- employed because I see a message from him?</p> <p>10 Okay. Okay.</p> <p>11 And let me see. Who's Brian? I see a Brian</p> <p>12 in here.</p> <p>13 A. Brian is one of our mill associates.</p> <p>14 Q. Okay. And he's still an employee?</p> <p>15 A. Yes. Yeah.</p> <p>16 Q. Okay.</p> <p>17 A. As far as I know.</p> <p>18 Q. I'm going to go to page 17 and just ask about</p> <p>19 another group. I see an AT MO maintenance group.</p> <p>20 Do you know who is in that? It says you, Don,</p> <p>21 Joe, plus three. So you again is you, Russell</p> <p>22 Tidaback. Don I imagine is Don Hale?</p> <p>23 A. Joe is the maintenance guy, the contractor we had</p> <p>24 from the employment agency. I don't -- I haven't</p> <p>25 looked at the name. And then most likely John,</p>
Page 79	Page 81
<p>1 doesn't have the year here, like 4/9 it would be</p> <p>2 4/9/23 because that was the only April included in</p> <p>3 that --</p> <p>4 A. Yes.</p> <p>5 Q. -- criteria.</p> <p>6 Got it. Okay.</p> <p>7 I guess here on page 5, there's another chat</p> <p>8 that says "mill group chat."</p> <p>9 A. Yes.</p> <p>10 Q. Who would --</p> <p>11 A. That would be -- that would be everybody in the</p> <p>12 mill. So that would be --</p> <p>13 Q. Okay.</p> <p>14 A. Actually that would be everybody that's -- that</p> <p>15 wouldn't be Max because he's out in the quarry.</p> <p>16 That wouldn't be the -- you know, the bookkeeper.</p> <p>17 That's just strictly for the mill operations.</p> <p>18 Q. Okay. So that would be, like, the mill</p> <p>19 associates, and then you would be in it, and would</p> <p>20 Jordan also be in that one?</p> <p>21 A. Yes. Well, there are certain groups that she</p> <p>22 doesn't belong to.</p> <p>23 Q. Okay.</p> <p>24 A. She volunteers, backs out, whatever, and then</p> <p>25 Josh --</p>	<p>1 Don -- or Joshua and Jordan.</p> <p>2 Q. Okay. And at this time it looks like maybe</p> <p>3 Baumann and Jessie Molesi were in that?</p> <p>4 A. Yes, Jessie Molesi was our safety and health</p> <p>5 person at one time, and then Rob being the shift</p> <p>6 lead.</p> <p>7 Q. So he would have been in the maintenance group,</p> <p>8 then, too --</p> <p>9 A. Yes.</p> <p>10 Q. -- at this time?</p> <p>11 A. Yeah. Because he would have communicated with the</p> <p>12 maintenance team about, hey, this is not working</p> <p>13 right, we need to come look at this, or this needs</p> <p>14 to be replaced, or whatever.</p> <p>15 Q. So Baumann didn't do the actual maintenance work,</p> <p>16 but if he noticed an issue, he was supposed to</p> <p>17 communicate that to maintenance people?</p> <p>18 A. Yes, because maintenance is on another floor.</p> <p>19 They're on the first floor. Baumann or the</p> <p>20 production floor is on the second floor.</p> <p>21 Q. Okay. And a Jessie Molesi, was he considered to</p> <p>22 be in management --</p> <p>23 A. No.</p> <p>24 Q. -- at the company when he was employed?</p> <p>25 A. He's safety, environmental health. He is what</p>

<p style="text-align: right;">Page 82</p> <p>1 Joshua Townsend is today.</p> <p>2 Q. And what were Jessie's job duties?</p> <p>3 A. Safety.</p> <p>4 Q. Okay.</p> <p>5 A. Yeah, everything related to safety and MSHA, EPA,</p> <p>6 Department of Natural Resources.</p> <p>7 Q. Okay. And does he have any prior experience with</p> <p>8 MSHA compliance?</p> <p>9 A. I don't think MSHA. He was OSHA certified.</p> <p>10 Q. Okay. And did he have a role with regard to</p> <p>11 maintenance?</p> <p>12 A. As far as doing the maintenance? No, he was not</p> <p>13 mechanically inclined. He's safety.</p> <p>14 Q. Okay. Why was he in the maintenance group?</p> <p>15 A. To make sure that they were doing things safely.</p> <p>16 So if they were tasked to change a motor or</p> <p>17 anything like that, he would know where they were</p> <p>18 going and go check on them.</p> <p>19 Q. Okay. I'm going to go to page 65, and in here I</p> <p>20 see a AT MO operations group. Do you know who</p> <p>21 that would be?</p> <p>22 A. That would be John, myself, Jordan, Don. Lynn was</p> <p>23 a salesperson at the time. Yeah. It's just the</p> <p>24 people that would be dealing with the overall</p> <p>25 operations of everything.</p>	<p style="text-align: right;">Page 84</p> <p>1 and then two others. Do you know who the two</p> <p>2 others would be?</p> <p>3 A. I assume it would be Andrew Wasson, which was the</p> <p>4 quarry operator at the time.</p> <p>5 Q. Okay.</p> <p>6 A. And I think Rob Baumann. I don't know. Or, no,</p> <p>7 it would be -- no, I don't know. Let's see here.</p> <p>8 Me, Gwen, John, Jordan, and Andrew I guess. Yes.</p> <p>9 That would be the people that are showing there,</p> <p>10 plus two.</p> <p>11 Q. Okay. Well, and I guess maybe since Andrew</p> <p>12 Wasson's saying Rob Baumann, should I bring</p> <p>13 another load? Was maybe Rob in that group maybe?</p> <p>14 A. Yeah. That's what I said --</p> <p>15 Q. Okay.</p> <p>16 A. -- yeah, Andrew Wasson was part of the last two</p> <p>17 there.</p> <p>18 Q. Okay.</p> <p>19 A. And it shows that Rob was communicating with</p> <p>20 Andrew to bring another load of material from the</p> <p>21 drying sheds.</p> <p>22 Q. Okay.</p> <p>23 A. That's what that is.</p> <p>24 Q. Then I'm going to go to page 179 and there's a AT</p> <p>25 MO safety. It looks like you, Don, John, Jessie,</p>
<p style="text-align: right;">Page 83</p> <p>1 Q. Would Baumann have been a part of that group when</p> <p>2 he was employed?</p> <p>3 A. I don't know. That would be a good question</p> <p>4 because as we're -- as we're growing and making</p> <p>5 operations smoother, people would get added to</p> <p>6 different groups and stuff like that. So he may</p> <p>7 have been added but not at that time.</p> <p>8 Q. Actually, I think -- if we look down, it looks</p> <p>9 like he might have been. If you go down here, do</p> <p>10 you see this?</p> <p>11 A. Yeah.</p> <p>12 Q. So that would mean that he was in that group?</p> <p>13 A. Correct.</p> <p>14 Q. Okay.</p> <p>15 A. And that --</p> <p>16 Q. And then I see -- oh. Go ahead.</p> <p>17 A. I think he actually asked me to take him out of</p> <p>18 that group because he didn't want to know all the</p> <p>19 operations stuff, just the basic stuff. So that's</p> <p>20 fine.</p> <p>21 Q. Okay. And then I see quarry operations here --</p> <p>22 A. Yeah.</p> <p>23 Q. -- on page 65. What's that?</p> <p>24 A. That's that pit that's in Oklahoma.</p> <p>25 Q. Okay. And it looks like it says you, Gwen, John,</p>	<p style="text-align: right;">Page 85</p> <p>1 and then do you know who the other person -- one</p> <p>2 other person would have been?</p> <p>3 A. So Jordan. Most likely Jordan.</p> <p>4 Q. Okay. And would Rob have been in that group?</p> <p>5 A. I don't think so. I don't think so.</p> <p>6 Q. Okay.</p> <p>7 A. Again, it was one of those things that -- Rob did</p> <p>8 ask to be removed from a lot of groups and we had</p> <p>9 to explain, You really want to know what's going</p> <p>10 on in all this so that you know part of that</p> <p>11 mentoring and leadering so you can become a good</p> <p>12 leader. So some of this stuff -- some of these</p> <p>13 groups I know he belonged into and then was</p> <p>14 removed and then we need to add him back. So it</p> <p>15 was back and forth. So. . . .</p> <p>16 Q. Okay.</p> <p>17 A. Some of these will be tagged differently. That's</p> <p>18 why they show different.</p> <p>19 Q. Okay. I'm going to stop sharing this document and</p> <p>20 I'm going to pull up another document which I'm</p> <p>21 going to label -- which has been labeled as</p> <p>22 Exhibit 4.</p> <p>23 (Exhibit No. 4 marked for identification.)</p> <p>24 Q. (By Ms. O'Reilly) Let me share this. I'll give</p> <p>25 you control to move through this document if you</p>

<p style="text-align: right;">Page 86</p> <p>1 want to.</p> <p>2 And this document, do you know what this</p> <p>3 document is?</p> <p>4 A. Not off the top of my head, no.</p> <p>5 Q. Okay.</p> <p>6 A. Looks like --</p> <p>7 Q. Looks like --</p> <p>8 A. Yeah. It looks like a chat response to a request.</p> <p>9 It's just different formatting.</p> <p>10 Q. Okay.</p> <p>11 A. I don't have access --</p> <p>12 Q. So looks like --</p> <p>13 A. I can't control.</p> <p>14 Q. Oh, you can't? Here. Let me let go of my mouse.</p> <p>15 Can you scroll now?</p> <p>16 A. No.</p> <p>17 Q. Hmm.</p> <p>18 A. Oh. Maybe I had to click on it.</p> <p>19 Q. Oh, there you go. Yeah. Just go ahead and scroll</p> <p>20 through that.</p> <p>21 A. Yeah, I think it's the same chat search that you</p> <p>22 were looking for, it's just a different</p> <p>23 formatting.</p> <p>24 Q. Okay. So do you recall -- would you have been the</p> <p>25 person that put this document together?</p>	<p style="text-align: right;">Page 88</p> <p>1 A. Anybody can create a chat group, just like an</p> <p>2 individual. So. . . .</p> <p>3 Q. Okay.</p> <p>4 A. But the original ones, yes, I was the one that</p> <p>5 created it.</p> <p>6 Q. Okay.</p> <p>7 A. I had to get the --</p> <p>8 MS. O'REILLY: Okay. I'm going to stop</p> <p>9 sharing this document.</p> <p>10 I am going to pull up another document marked</p> <p>11 as Exhibit 5.</p> <p>12 (Exhibit No. 5 marked for identification.)</p> <p>13 BY MS. O'REILLY:</p> <p>14 Q. I'm going to share this one and I can give you</p> <p>15 control over it as well, if you want to scroll</p> <p>16 through it. I don't think there's anything to</p> <p>17 scroll, actually, in this one.</p> <p>18 A. Okay.</p> <p>19 Q. And then this one is kind of in a different</p> <p>20 format. It was a -- like a JPEG. It's not a PDF</p> <p>21 but it looks like it's some more Teams messages;</p> <p>22 is that correct?</p> <p>23 A. Yes. Looks like Teams messages, yeah.</p> <p>24 Q. Okay. And do you know why this one is in, like, a</p> <p>25 JPEG format versus Teams? Is it just the way that</p>
<p style="text-align: right;">Page 87</p> <p>1 A. Yes.</p> <p>2 Q. Okay. And this is just kind of the same process?</p> <p>3 You would have been looking for messages and then</p> <p>4 kind of pulled them into this document; is that</p> <p>5 correct?</p> <p>6 A. If I remember correctly, it was the -- I just did</p> <p>7 the Control A, shift, print, and that was it. I</p> <p>8 think I was under a time line.</p> <p>9 Q. Okay.</p> <p>10 A. I think I was under a deadline to get this to you.</p> <p>11 Q. And so is this a true and accurate copy of the</p> <p>12 Teams chats you pulled from the mill group chat?</p> <p>13 A. Yes.</p> <p>14 Q. Okay. And I think we maybe had talked about this,</p> <p>15 but the mill group chat, that's the one where,</p> <p>16 like, all the employees that work in the mill</p> <p>17 would be on?</p> <p>18 A. Yes.</p> <p>19 Q. Okay.</p> <p>20 A. Quarry guys wouldn't be there. The bookkeeper</p> <p>21 wouldn't be there.</p> <p>22 Q. Okay.</p> <p>23 A. Everybody else would be.</p> <p>24 Q. And who, like, creates these chat groups? Is that</p> <p>25 you?</p>	<p style="text-align: right;">Page 89</p> <p>1 you captured it?</p> <p>2 A. Probably.</p> <p>3 Q. Okay. And do you know what this document is?</p> <p>4 A. Do I know what the document is?</p> <p>5 Q. Yeah. Did you -- have you seen this before?</p> <p>6 A. Yeah. It looks like chat messages.</p> <p>7 Q. Okay. And did you pull this from the Teams</p> <p>8 platform?</p> <p>9 A. Yeah. Mm-hmm.</p> <p>10 Q. And it lists, let's see, John Spears here, and</p> <p>11 then it has, like, purple. Who is -- do you know</p> <p>12 what the purple is? Is that you?</p> <p>13 A. Yeah, the purple would be me, and John Spears</p> <p>14 would be the grays. The unknown user I'm assuming</p> <p>15 is Gage, Gage Wheeler.</p> <p>16 Q. Okay.</p> <p>17 A. Yeah, Gage Wheeler? Yeah.</p> <p>18 Q. Okay. And it says "unknown user," and is that</p> <p>19 because he wasn't employed anymore when you pulled</p> <p>20 this?</p> <p>21 A. Yeah, I don't know why Teams does that. I</p> <p>22 don't -- it --</p> <p>23 Q. Okay.</p> <p>24 A. He was just no longer in the database or something</p> <p>25 and it just shows unknown.</p>

<p style="text-align: right;">Page 90</p> <p>1 Q. Okay. Okay. So is this a true and accurate copy 2 of the Teams chat with John Spears, and then Gage 3 Wheeler is unknown user, and you from 4 February 14th? 5 A. Yes. Yeah. 6 MS. O'REILLY: I'm going to stop sharing 7 this document and then I'm going to share 8 another document which I have marked as 9 Exhibit 6. 10 (Exhibit No. 6 marked for identification.) 11 THE WITNESS: You don't want any 12 explanation on Exhibit 5? There's a lot more 13 to that one. I know that's why we're here. 14 MS. O'REILLY: Oh. Nope. That's okay. 15 Q. (By Ms. O'Reilly) Okay. I've marked this next 16 document as Exhibit 6. I'm also going to give you 17 control, but I believe it's just this one page. 18 It's another JPEG of a Teams chat. Do you -- have 19 you seen this document before? 20 A. Can you bring up -- and then last one was 2 14, 21 11 49. Can you bring up Exhibit 5 again? 22 Q. I'm going to stick with this document right now. 23 A. I'm talking about the -- so the time line, so we 24 can see the time line? You know what I'm saying? 25 Q. I'm not worried about that right now. This is a</p>	<p style="text-align: right;">Page 92</p> <p>1 And then I'm going to share what I've marked 2 as Exhibit 7. 3 (Exhibit No. 7 marked for identification.) 4 Q. (By Ms. O'Reilly) Okay. I'll give you control as 5 well. Oops. Maybe not. Okay. Now I'm giving 6 you control, too, if you want to look at it. This 7 is another one of those JPEG ones. Do you know 8 the difference between how you got these -- these 9 ones kind of were produced as JPEGs versus doing 10 it as a PDF? 11 A. Yeah. It was probably learning how to do the 12 search and stuff that you were asking for. That's 13 all. 14 Q. Okay. And again here, would you be the purple? 15 A. Yes. 16 Q. Okay. And then is this a true and accurate copy 17 of looks like messages from February 14th between 18 you and John Spears? 19 A. Yeah, I would assume that it's a follow-on to that 20 same messaging. 21 MS. O'REILLY: Okay. I'm going to stop 22 sharing that one, and then I'm going to show 23 you another document here marked as 24 Exhibit 8. 25 (Exhibit No. 8 marked for identification.)</p>
<p style="text-align: right;">Page 91</p> <p>1 document that was produced to us. 2 Do you know what this document is? 3 A. John message to Gage? Yeah. I'm assuming it's -- 4 Q. And again -- 5 A. Yeah. Since the title states "John's message to 6 Gage about MSHA inspection second part," I would 7 assume that it's the follow-on to the other -- 8 Exhibit 5. That's all. 9 Q. And this would have been something you captured 10 from Teams to produce; is that correct? 11 A. Yes. 12 Q. And, again, would the "unknown user" be Gage 13 Wheeler here? 14 A. I have to assume yes. 15 Q. And the purple would be you? 16 A. Me. Mm-hmm. 17 Q. Yourself? 18 A. Yes. 19 Q. Okay. And is this a true and accurate copy of 20 these Teams messages between Gage Wheeler, 21 yourself, and then it looks like Jordan Tidaback 22 at the bottom? 23 A. Yes. 24 MS. O'REILLY: Okay. I'm going to stop 25 sharing that.</p>	<p style="text-align: right;">Page 93</p> <p>1 Q. (By Ms. O'Reilly) And do you know what this 2 document is? I'll give you control because this 3 one has a couple pages. 4 A. Yeah. So I can't read the title. I don't -- I'm 5 not sure what it is, but -- 6 Q. I'm not sure if I can -- well, are these Teams 7 chat messages? 8 A. They appear to be, yes. 9 Q. And would you have been the one to have pulled 10 these? 11 A. Yes. If I sent them to you, yes, it's me. 12 Q. Okay. And these -- this purple again, that would 13 be what you're communicating? 14 A. Yes. 15 Q. Okay. And would this be a true and accurate copy 16 of it looks like chats between John Spears and 17 yourself on April 14th? 18 A. It appears, yes. 19 Q. Okay. And do you know what year this would have 20 been? 21 A. I assume by the title it -- since it says 22 Exhibit 8 dash 14 April 2022, that it's 2022. 23 Q. And it looks like, you know, there's a discussion 24 with Rob. I don't -- I don't believe Rob was 25 employed in April of 2022, correct?</p>

<p style="text-align: right;">Page 94</p> <p>1 A. It could have been the group that Rob had. I</p> <p>2 don't know. Because they can add -- you know what</p> <p>3 I'm saying? They can add me to the group later on</p> <p>4 if they had a chat group, or if all three had a</p> <p>5 chat group with Rob. You know what I mean?</p> <p>6 Q. And it looks like -- in this first discussion, it</p> <p>7 says it looks -- it's from Rob: Looks like we're</p> <p>8 entitled to a week's pay because nothing was done</p> <p>9 about the safety situation until we were under the</p> <p>10 withdrawal, but legally they have to pay us for 12</p> <p>11 hours, and it kind of goes on.</p> <p>12 Does that kind of give you context? Because</p> <p>13 it sounds like this might be 2023, is I guess what</p> <p>14 I'm trying to understand.</p> <p>15 A. Yeah. Let's see here. Looks like we're --</p> <p>16 I'm assuming that's from Rob, and it looks</p> <p>17 like we're -- we are entitled up to a week's pay</p> <p>18 because nothing was done about the safety</p> <p>19 situation until we were under withdrawal, but</p> <p>20 legally they have to pay us up to the 12 hours.</p> <p>21 Yeah. I think I remember something about Rob</p> <p>22 asking about that, and I said we'd have to find</p> <p>23 out.</p> <p>24 Q. So does this look like it would have been April of</p> <p>25 2023, then?</p>	<p style="text-align: right;">Page 96</p> <p>1 titles, too, so I wouldn't necessarily rely on the</p> <p>2 title because I added the exhibit number as well</p> <p>3 so I had to shorten them, so -- but, just</p> <p>4 generally, are these more Teams chats?</p> <p>5 A. Yeah. So this one looks like you asked for the</p> <p>6 term "MSHA" because "MSHA" is highlighted here.</p> <p>7 Let's see here.</p> <p>8 Q. Okay.</p> <p>9 A. It's going to highlight the key words from the</p> <p>10 search.</p> <p>11 Q. Got it.</p> <p>12 A. So I probably just did a, you know, copy/paste and</p> <p>13 put it in a Word document.</p> <p>14 Q. Okay. So that's what this highlighted -- the</p> <p>15 highlighting means that you must have done a</p> <p>16 search for "MSHA" and this is what the hits were?</p> <p>17 A. Yes, ma'am.</p> <p>18 Q. And you would have done the search and compiling</p> <p>19 this document, correct?</p> <p>20 A. Correct. That's correct.</p> <p>21 Q. Okay. So would you say this is a true and</p> <p>22 accurate document of the Teams chats -- of Teams</p> <p>23 chats between and among American Tripoli employees</p> <p>24 where "MSHA" was a hit word?</p> <p>25 A. Yes.</p>
<p style="text-align: right;">Page 95</p> <p>1 A. I don't -- I don't -- off the top of my head, I</p> <p>2 don't even know when Rob was terminated, so I</p> <p>3 don't know. I would assume. I would assume. I</p> <p>4 can assume.</p> <p>5 Q. Okay. Okay. I'm going to stop sharing this</p> <p>6 document.</p> <p>7 A. Only reason I say 2022 is because that's the way</p> <p>8 that the date across the top.</p> <p>9 Q. Yeah. Yeah. That's why I was kind of asking</p> <p>10 because I think that's incorrect because I don't</p> <p>11 believe Rob was employed at that time.</p> <p>12 A. Okay.</p> <p>13 Q. I think he wasn't employed until June of '22.</p> <p>14 A. I'd have to look.</p> <p>15 MS. O'REILLY: And then I'm going to</p> <p>16 stop sharing this one, and then I'm going to</p> <p>17 pull up another document, Exhibit 9.</p> <p>18 (Exhibit No. 9 marked for identification.)</p> <p>19 Q. (By Ms. O'Reilly) And then I'm going to let you</p> <p>20 have control over this as well if you'd like to</p> <p>21 look through it.</p> <p>22 Do you know what this document is?</p> <p>23 A. Not without the -- I can't see the title, so --</p> <p>24 just says --</p> <p>25 Q. And I will say I may have changed some of these</p>	<p style="text-align: right;">Page 97</p> <p>1 MS. O'REILLY: Okay. I'm going to stop</p> <p>2 sharing this one.</p> <p>3 (Exhibit No. 10 marked for identification.)</p> <p>4 Q. (By Ms. O'Reilly) All right. I'm going to pull</p> <p>5 up a document that is labeled as Exhibit 10, and I</p> <p>6 will give you control to kind of scroll through</p> <p>7 this one again.</p> <p>8 Does this look like some more Teams chats?</p> <p>9 A. Yeah. This appears to be the chat group -- or the</p> <p>10 chat Jim Hoover started with me.</p> <p>11 Q. Okay.</p> <p>12 A. I don't know if anybody else is --</p> <p>13 Q. Okay. So in the purple again, that would be you?</p> <p>14 A. That is correct.</p> <p>15 Q. Okay. And it looks like this was in April of</p> <p>16 2023; is that correct?</p> <p>17 A. It's -- yes, based on the title.</p> <p>18 Q. Okay. Well, and I see, like, on this page 6, it</p> <p>19 looks like --</p> <p>20 A. I'm sorry.</p> <p>21 Q. If you go to page 6. That's okay. Like it</p> <p>22 says -- like you would copy Jim Hoover and it says</p> <p>23 4/19/2023.</p> <p>24 A. Yeah.</p> <p>25 Q. Okay. So would this be a true and accurate copy</p>

Page 98	Page 100
<p>1 of Teams chats that you had with Jim Hoover</p> <p>2 from --</p> <p>3 A. Yeah.</p> <p>4 Q. -- April of 2023?</p> <p>5 A. Yes.</p> <p>6 Q. And what was Jim Hoover's job title at this time?</p> <p>7 A. Yeah. So Jim Hoover was hired as a mill</p> <p>8 associate. Like I said, he worked for American</p> <p>9 Tripoli before we bought the company, and then he</p> <p>10 was a mill associate. We tried to promote him</p> <p>11 into the -- a shift lead position because he has</p> <p>12 the most experience there. So we put him into</p> <p>13 that position, and over time Christine Schreiber</p> <p>14 was the operations manager at the time, tried</p> <p>15 mentoring him and guide him along, and he</p> <p>16 basically admitted that he does not have the</p> <p>17 management aptitude or desire. He wants the pay</p> <p>18 but not the work.</p> <p>19 So we hired Rob to replace Jim and Rob went</p> <p>20 to the night shift, which is one of the reasons</p> <p>21 that we thought we could run two shifts because</p> <p>22 Rob wanted to manage the night shift, and since</p> <p>23 Jim didn't work out during the day shift, we had</p> <p>24 to close the night shift due to people not showing</p> <p>25 up and work, and then Rob took Jim's place. So</p>	<p>1 this document. I'm going to show you what's</p> <p>2 been marked as Exhibit 11.</p> <p>3 (Exhibit No. 11 marked for identification.)</p> <p>4 Q. (By Ms. O'Reilly) I'm going to share this. And</p> <p>5 I'll give you the ability to scroll through this</p> <p>6 if you want to.</p> <p>7 Do you know what this document is?</p> <p>8 A. The interrogatories that you requested.</p> <p>9 Q. Okay. So would this have been prepared by you --</p> <p>10 A. Yes.</p> <p>11 Q. -- this document?</p> <p>12 A. Mm-hmm.</p> <p>13 Q. Okay. And then if you scroll down, let me see, a</p> <p>14 little further, it looks like there's some Teams</p> <p>15 chats pasted into here. I think it's towards the</p> <p>16 bottom, but go ahead and take your time.</p> <p>17 Okay. So starting on page 16, do you see</p> <p>18 some Teams chats? At the top it says April 17th?</p> <p>19 A. Yes.</p> <p>20 Q. And this kind of looks like it's another copy of</p> <p>21 those chats between Jim Hoover and yourself; is</p> <p>22 that correct?</p> <p>23 A. Yes. I don't know who else would be in the group</p> <p>24 at that time. It doesn't mean specifically it's</p> <p>25 just me and Jim. It could be just us inputting</p>
Page 99	Page 101
<p>1 Rob was the shift lead and Jim went back to being</p> <p>2 a mill associate.</p> <p>3 Q. So during this time period, he would have been a</p> <p>4 mill associate; is that correct?</p> <p>5 A. When is this here? April?</p> <p>6 Q. Looks like April.</p> <p>7 A. I'd have -- yeah, I'd have to look back at the</p> <p>8 dates --</p> <p>9 Q. Okay.</p> <p>10 A. -- but I'd assume that, yes, Jim --</p> <p>11 Q. Okay.</p> <p>12 A. -- reported to -- yeah. He was not the -- if Rob</p> <p>13 was there during the day, then Jim was not the</p> <p>14 shift lead.</p> <p>15 Q. Okay. And then I'm going to direct you to</p> <p>16 page 11, and I see -- let me see. Kind of like</p> <p>17 towards the bottom it says that he's made a</p> <p>18 friend, it's in highlighting, at MSHA, Keith. Who</p> <p>19 would "Keith" be when you're referring to Keith</p> <p>20 there?</p> <p>21 A. That's a long discussion.</p> <p>22 Q. Just the name. Who -- is that -- are you</p> <p>23 referring to Keith Markeson?</p> <p>24 A. Yes.</p> <p>25 MS. O'REILLY: I'm going to stop sharing</p>	<p>1 conversations in that group. You know what I</p> <p>2 mean?</p> <p>3 Q. Got it. Okay. So this could have come from a</p> <p>4 group chat but you two appear, at least on page</p> <p>5 16, to be the only ones communicating at the time.</p> <p>6 A. Yeah, during that time, yeah.</p> <p>7 Q. Okay. That makes sense.</p> <p>8 And then would you say that this is a true</p> <p>9 and accurate copy of these Teams messages between</p> <p>10 you and Jim Hoover?</p> <p>11 A. Yes. Yeah. If that's the only two people in it,</p> <p>12 yes.</p> <p>13 Q. Okay. If you want to keep scrolling, you can;</p> <p>14 otherwise, I'm going to move on to another</p> <p>15 document. It's up to you.</p> <p>16 A. Yeah, I'm just -- I was just browsing.</p> <p>17 MS. O'REILLY: Okay. No problem.</p> <p>18 All right. I'm going to stop sharing this</p> <p>19 document and I'm going to move to a document</p> <p>20 marked as Exhibit 12.</p> <p>21 (Exhibit No. 12 marked for identification.)</p> <p>22 Q. (By Ms. O'Reilly) And I'll share my screen here.</p> <p>23 And I'll also give you access to kind of scroll</p> <p>24 through this.</p> <p>25 And do you know what this document is?</p>

<p style="text-align: right;">Page 102</p> <p>1 A. Yes. Your first discovery requests.</p> <p>2 Q. Okay. And would you have been the person who</p> <p>3 prepared this document?</p> <p>4 A. Yes.</p> <p>5 Q. Okay. And I think if you could scroll down a</p> <p>6 little bit towards page 8, there's some more Teams</p> <p>7 chats in there.</p> <p>8 A. Mm-hmm.</p> <p>9 Q. And, actually, I see -- if look at page 8, it</p> <p>10 starts -- sorry. Kind of made it -- I'm confused.</p> <p>11 Okay. And if you kind of scroll up a little bit</p> <p>12 there, it says -- do you see request number 24</p> <p>13 where it says: Produce the documents reflecting</p> <p>14 any communications, including Teams chats,</p> <p>15 regarding MSHA inspections and any MSHA</p> <p>16 inspectors, and then it looks like there was an</p> <p>17 additional, like, clarification to do a search for</p> <p>18 these specifics names of inspectors. Do you see</p> <p>19 that?</p> <p>20 A. Yes.</p> <p>21 Q. Okay. And so, starting on page 9, is that -- are</p> <p>22 those the Teams chats that you pulled that had</p> <p>23 those hits?</p> <p>24 A. Yeah. So you see on the bottom of page 8 where it</p> <p>25 says "Keith," then it shows the highlighted</p>	<p style="text-align: right;">Page 104</p> <p>1 Do you know what this one -- were you the one who</p> <p>2 prepared this document?</p> <p>3 A. Yes.</p> <p>4 Q. Okay. And this one just looks a little bit</p> <p>5 different, so is it just a different way of kind</p> <p>6 of --</p> <p>7 A. It could have.</p> <p>8 Q. -- compiling them?</p> <p>9 A. Could have been from a different computer.</p> <p>10 Q. Okay.</p> <p>11 A. Tablet. Yeah.</p> <p>12 Q. Okay. And it looks like it says "mill group chat"</p> <p>13 at the top. Do you see that --</p> <p>14 A. Yes.</p> <p>15 Q. -- on page 1?</p> <p>16 A. Mm-hmm.</p> <p>17 Q. So would these all be mill group chats, or I guess</p> <p>18 maybe it would just depend on what it says at the</p> <p>19 top of any of the chats? I guess you can scroll</p> <p>20 through and see --</p> <p>21 A. Yeah.</p> <p>22 Q. -- maybe they're not all mill group chats.</p> <p>23 A. Yeah. These look like a normal mill chat group.</p> <p>24 Q. Okay.</p> <p>25 A. Yeah.</p>
<p style="text-align: right;">Page 103</p> <p>1 keyword?</p> <p>2 Q. Okay. So it's got -- you organized it by the</p> <p>3 search and then the hit, it looks like?</p> <p>4 A. Mm-hmm. Yeah.</p> <p>5 Q. Okay. So, yeah, that's -- the first one is</p> <p>6 "Keith," then we go to "Markeson" and then there's</p> <p>7 some with Markeson, and then "Brian." Okay.</p> <p>8 And did you compile all of those Teams</p> <p>9 messages?</p> <p>10 A. What do you mean "compile"?</p> <p>11 Q. Did you do the search and then pull them over and</p> <p>12 put them in this document?</p> <p>13 A. Yeah, copy/paste. Yeah.</p> <p>14 Q. So would these Teams chats be a true and accurate</p> <p>15 copy of the Teams chats that you pulled from</p> <p>16 Microsoft Teams that had these hits?</p> <p>17 A. Yes.</p> <p>18 MS. O'REILLY: Okay. And then I'm going</p> <p>19 to stop sharing this one and I'm going to</p> <p>20 show you another document.</p> <p>21 (Exhibit No. 13 marked for identification.)</p> <p>22 Q. This next document I have marked as Exhibit 13.</p> <p>23 I'll share my screen and I'll give you control</p> <p>24 over this one as well.</p> <p>25 And this looks like some more Teams chats.</p>	<p style="text-align: right;">Page 105</p> <p>1 Q. And that's the group, again, that's kind of all</p> <p>2 the employees that work in the mill, right?</p> <p>3 A. Mm-hmm. Mm-hmm.</p> <p>4 Q. Okay. And you're also part of that. That's why</p> <p>5 you were able to pull this?</p> <p>6 A. Yes.</p> <p>7 Q. Okay. And is this a true and accurate copy of</p> <p>8 these mill group Teams chats?</p> <p>9 A. Correct.</p> <p>10 MS. O'REILLY: Okay. Okay. I'm going</p> <p>11 to stop sharing this one and show you another</p> <p>12 document which I have marked as Exhibit 14.</p> <p>13 (Exhibit No. 14 marked for identification.)</p> <p>14 Q. (By Ms. O'Reilly) And I'll let you have control</p> <p>15 over this one, too, if you want to look at it.</p> <p>16 And are you familiar with this document in</p> <p>17 Exhibit 14?</p> <p>18 A. Yes.</p> <p>19 Q. Okay. And is this -- what is it?</p> <p>20 A. It's a no-gossip policy. They were having</p> <p>21 issues -- what day was this? In 2022, July and</p> <p>22 August of 2022, they were having a lot of</p> <p>23 gossiping issues amongst themselves and creating</p> <p>24 hostility between themselves, the mill associates</p> <p>25 and the quarry manager at the time, so we brought</p>

<p style="text-align: right;">Page 106</p> <p>1 this forward just to calm everybody down, stop,</p> <p>2 you know, the bickering and people wanting to</p> <p>3 fight each other and want to quit and this and</p> <p>4 that. So that's what this was: Guys, just calm</p> <p>5 down. So. . . .</p> <p>6 Q. Okay.</p> <p>7 A. That's what this was for. This is not for --</p> <p>8 Q. And did you --</p> <p>9 A. Sorry.</p> <p>10 Q. It's not for what?</p> <p>11 A. Yeah, I said it wasn't for everybody. I mean, we</p> <p>12 haven't used it again. It was just at that time</p> <p>13 to calm everybody down. I don't know if anybody</p> <p>14 signed it ever after this time.</p> <p>15 Q. Okay. So is this a current policy at American</p> <p>16 Tripoli?</p> <p>17 A. It's a policy but we -- we don't have anybody sign</p> <p>18 it because there's not the issue that's -- that's</p> <p>19 there.</p> <p>20 Q. Okay.</p> <p>21 A. So yes and no.</p> <p>22 Q. And who created this policy?</p> <p>23 A. I -- yeah, I assume I did. Yeah.</p> <p>24 Q. Do you know if you ever disciplined anyone as a</p> <p>25 result of --</p>	<p style="text-align: right;">Page 108</p> <p>1 (Exhibit No. 15 marked for identification.)</p> <p>2 Q. (By Ms. O'Reilly) I'll share my screen and I will</p> <p>3 give you remote access to this as well. Let me</p> <p>4 see if I can -- okay. You should have remote</p> <p>5 access now.</p> <p>6 Do you know what this document is?</p> <p>7 A. Yes. It's a Word version of our website employee</p> <p>8 handbook.</p> <p>9 Q. Okay. And was this employee handbook the one that</p> <p>10 was in effect when Rob Baumann was an employee of</p> <p>11 American Tripoli?</p> <p>12 A. Yes.</p> <p>13 Q. Okay. And who created this document?</p> <p>14 A. I believe Jordan and I did back in 2021.</p> <p>15 Q. And then if you go to page 43, is this the</p> <p>16 company -- it says progressive discipline. Is</p> <p>17 this the company's disciplinary policy?</p> <p>18 A. Yes, ma'am.</p> <p>19 Q. Okay. And was this in effect during Baumann's</p> <p>20 employment?</p> <p>21 A. Yes, ma'am.</p> <p>22 Q. Okay. And is this a true and accurate copy of the</p> <p>23 company's employee handbook?</p> <p>24 A. Yes, ma'am.</p> <p>25 Q. Okay. I will stop sharing that.</p>
<p style="text-align: right;">Page 107</p> <p>1 A. No.</p> <p>2 Q. -- not following this policy?</p> <p>3 A. No. Even at this date when we had a meeting</p> <p>4 about, you know, the issues that the people were</p> <p>5 having and this and that and everything else,</p> <p>6 Mr. Hoover didn't want to sign it. Mr. -- I can't</p> <p>7 remember his name, Roger Chester, he didn't want</p> <p>8 to sign it, this and that and everything else, but</p> <p>9 it's okay. Guys, we got our point across. It's,</p> <p>10 you know --</p> <p>11 Q. Mm-hmm.</p> <p>12 A. -- trying to make sure everybody's not so mad at</p> <p>13 each other for nothing. So that's what this was</p> <p>14 for. But no, no other workers -- yeah.</p> <p>15 Q. Okay.</p> <p>16 A. Yeah.</p> <p>17 Q. And so is this a true and accurate copy of the</p> <p>18 no-gossip policy for American Tripoli?</p> <p>19 I'm sorry. Did you respond to that? I might</p> <p>20 have missed it?</p> <p>21 A. I'm sorry. Yes. Yes. It is.</p> <p>22 MS. O'REILLY: Sorry.</p> <p>23 Okay. I'm going to stop sharing that</p> <p>24 document. I'm going to pull up another document</p> <p>25 which I've marked as Exhibit 15.</p>	<p style="text-align: right;">Page 109</p> <p>1 A. There have been changes since the printing of that</p> <p>2 document, but --</p> <p>3 Q. Okay.</p> <p>4 A. Because they view it live online. It's on the</p> <p>5 website, the employee handbook.</p> <p>6 Q. Okay. When would changes have been made, do you</p> <p>7 know?</p> <p>8 A. I think it was December 31st or January 1st of</p> <p>9 this year.</p> <p>10 Q. Of 2024?</p> <p>11 A. Yes, ma'am.</p> <p>12 Q. Okay. And so there was some recent changes to</p> <p>13 this. Prior to that?</p> <p>14 A. No. It should have been the same since 2021.</p> <p>15 MS. O'REILLY: Okay. Thank you.</p> <p>16 And I'm going to show you a document which</p> <p>17 I've labeled as Exhibit 16.</p> <p>18 (Exhibit No. 16 marked for identification.)</p> <p>19 Q. (By Ms. O'Reilly) I'll share my screen and I'll</p> <p>20 let you have --</p> <p>21 A. Okay.</p> <p>22 Q. -- control over the document if you want to look</p> <p>23 at it.</p> <p>24 Do you know what this document is?</p> <p>25 A. Yeah, 5000-23.</p>

<p style="text-align: right;">Page 110</p> <p>1 Q. And what is that?</p> <p>2 A. Certificate of training for Mr. Baumann, his new</p> <p>3 miner's training, it appears.</p> <p>4 Q. Okay. And it says, like, on Part 6 there's</p> <p>5 someone that signed that. Do you know whose</p> <p>6 signature that is?</p> <p>7 A. Bonnie Bainter.</p> <p>8 Q. And who is she?</p> <p>9 A. She was the safety and health and -- specialist at</p> <p>10 the time.</p> <p>11 Q. Okay. And so would she have provided Baumann with</p> <p>12 this training that's listed on here?</p> <p>13 A. Yes. Yeah. She was the training -- I don't know</p> <p>14 if it was Roger Chester or if it was Bonnie that</p> <p>15 did the training, but Roger was the certified</p> <p>16 trainer.</p> <p>17 Q. Okay.</p> <p>18 A. Bonnie was just responsible for the training to</p> <p>19 happen.</p> <p>20 Q. Okay. And is this a true and accurate copy of</p> <p>21 Baumann's, I guess, certificate of training?</p> <p>22 A. Yeah, his new miner training? Yes.</p> <p>23 MS. O'REILLY: Okay. And then I'm going</p> <p>24 to pull up a document which I've marked as</p> <p>25 Exhibit 18. Oh. No. 17. Sorry.</p>	<p style="text-align: right;">Page 112</p> <p>1 didn't put anything.</p> <p>2 Q. And so are they inputting the information directly</p> <p>3 into this document or -- it sort of sounds like --</p> <p>4 is there another form that this pulls from?</p> <p>5 A. Yes. There's a form that -- a front-facing form</p> <p>6 that they put data in that fills the database and</p> <p>7 this is the report from that database.</p> <p>8 Q. Okay.</p> <p>9 A. Yeah, this looks like --</p> <p>10 Q. So it's like an app -- like is it -- go ahead.</p> <p>11 A. No, this is a Microsoft form that --</p> <p>12 Q. Okay.</p> <p>13 A. I'm assuming it's a SharePoint database. I</p> <p>14 don't -- I don't know where it comes from, but we</p> <p>15 just run the report off the form. That's all it</p> <p>16 is.</p> <p>17 Q. And then do you keep copies of the actual form?</p> <p>18 A. The actual form is a front end so that they can</p> <p>19 access it through Teams. Yeah. And then --</p> <p>20 Q. So it's more like an application.</p> <p>21 A. Yes. Yeah.</p> <p>22 Q. Okay.</p> <p>23 A. It's a -- I think it's called an application.</p> <p>24 Q. Okay. So that doesn't really generate a document;</p> <p>25 it just pushes it into this. But they're looking</p>
<p style="text-align: right;">Page 111</p> <p>1 (Exhibit No. 17 marked for identification.)</p> <p>2 Q. (By Ms. O'Reilly) I'll give you access.</p> <p>3 And do you know what this document is?</p> <p>4 A. This -- it appears to be the report from a daily</p> <p>5 workplace exam. Let's see here. Yeah.</p> <p>6 Q. Okay. And where is this document maintained?</p> <p>7 A. Well, the report is pulled from Teams. When they</p> <p>8 do their daily workplace exams, it's on a form so</p> <p>9 that they can use their cell phones or tablets</p> <p>10 while they're walking around doing the exams. So</p> <p>11 this one here --</p> <p>12 Q. So --</p> <p>13 A. So this one here shows that Bonnie Bainter signed</p> <p>14 in on the form on this -- on the inspection date</p> <p>15 at 8:00 a.m. and the exam in the break room, and</p> <p>16 note any safety issues is the question. So the --</p> <p>17 her response would have been: Floor 1 could use</p> <p>18 some attention around the tube mill, along with</p> <p>19 floor 2 around bagger west side. That would be</p> <p>20 question number one.</p> <p>21 Question number two would be: Examine the</p> <p>22 floor -- or production floor east storage area.</p> <p>23 Note any safety issues. And she wrote "yes."</p> <p>24 Question three would have been: Examine the</p> <p>25 loading dock. Note any safety issues. And she</p>	<p style="text-align: right;">Page 113</p> <p>1 at something a little bit different --</p> <p>2 A. Yeah.</p> <p>3 Q. -- when they're filling the data in?</p> <p>4 A. Yeah. Correct. Yeah, they don't see --</p> <p>5 Q. Okay.</p> <p>6 A. It's just a question. They don't even show that</p> <p>7 they log in. It automatically does that by --</p> <p>8 their name, date, and time is automatic. It's</p> <p>9 recorded automatically.</p> <p>10 Q. Okay.</p> <p>11 A. The questions are the only thing that they see and</p> <p>12 it's just a question and a block that they can</p> <p>13 input data.</p> <p>14 Q. Okay. And when it says here "name" and then,</p> <p>15 like, you know, for these first few ones, it's</p> <p>16 Bonnie Bainter, does that mean that's the person</p> <p>17 who did the workplace exam?</p> <p>18 A. Yes. Yeah.</p> <p>19 Q. Okay. And it looks like, if you scroll down a</p> <p>20 little bit, Rob Baumann did workplace exams for a</p> <p>21 period of time; is that correct?</p> <p>22 A. Yes. It appears that way, yes.</p> <p>23 Q. Okay.</p> <p>24 A. It was part of their task -- yeah, I think the</p> <p>25 shift lead is supposed to do the overall daily</p>

<p style="text-align: right;">Page 114</p> <p>1 workplace inspection, making sure all the</p> <p>2 equipment is safe and the guarding is on and</p> <p>3 there's nothing going to hurt the mill associate,</p> <p>4 and then the mill associate gets told, hey, you're</p> <p>5 going to be working bagger or you're going to be</p> <p>6 working stacker or you're going to be working the</p> <p>7 forklift. Okay. Well, that person then is</p> <p>8 supposed to do a workplace exam as well. And</p> <p>9 Mr. Baumann is supposed to check behind -- or</p> <p>10 shift lead is supposed to check behind that person</p> <p>11 to make sure that they're doing their inspections</p> <p>12 as well.</p> <p>13 Q. Okay.</p> <p>14 A. Yeah. That's why sometimes you'll see Ronnell</p> <p>15 Fondren and Jim Hoover, R.J. Williams. Those are</p> <p>16 just mill associates but follow behind Rob</p> <p>17 Baumann. And it's one of those things I think in</p> <p>18 the conversation from the text, if I remember</p> <p>19 correctly, they were talking about that Jim and</p> <p>20 them didn't have to do an inspection if Rob did an</p> <p>21 inspection, which is true per the regulations,</p> <p>22 just someone needs to do one. But, like we</p> <p>23 explained, they should be doing it themselves to</p> <p>24 make sure that there's nothing that got overlooked</p> <p>25 or something that's going to hurt them. So that's</p>	<p style="text-align: right;">Page 116</p> <p>1 Q. -- to the categories above; it's just because of</p> <p>2 the way it printed.</p> <p>3 A. Yeah, I don't -- I don't know why it --</p> <p>4 MS. O'REILLY: Okay. Okay. That's</p> <p>5 helpful to know. Thank you. I'm going to</p> <p>6 stop sharing this document.</p> <p>7 Okay. I'm going to show you another</p> <p>8 document. I'm going to go to Exhibit Number 19.</p> <p>9 I know I'm skipping 18, just -- I don't know that</p> <p>10 I'm going to use the one that I had previously</p> <p>11 marked as 18. I'm going to share my screen with</p> <p>12 that.</p> <p>13 (Exhibit No. 19 marked for identification.)</p> <p>14 Q. (By Ms. O'Reilly) So this is Exhibit 19. I'm</p> <p>15 going to share my screen with that, and I'll let</p> <p>16 you have control over this document.</p> <p>17 A. Yeah.</p> <p>18 Q. Do you know what this document is?</p> <p>19 A. Yeah. This looks like the document that you were</p> <p>20 asking about earlier for production lead duties.</p> <p>21 Q. Okay.</p> <p>22 A. I said I'd have to go look.</p> <p>23 Q. Okay. And when we were talking about production</p> <p>24 lead, we've been using the word "shift lead," too.</p> <p>25 Is that the same thing?</p>
<p style="text-align: right;">Page 115</p> <p>1 why --</p> <p>2 Q. Okay. And so you pulled this document from, I</p> <p>3 guess, where it's maintained in Teams? Is that</p> <p>4 correct?</p> <p>5 A. I don't think it's stored in Teams. I think it's</p> <p>6 stored in the Microsoft cloud. I'm not sure.</p> <p>7 Q. Okay.</p> <p>8 A. Just in the form it has a report button. We</p> <p>9 generate a report based on the date and that's</p> <p>10 what it was --</p> <p>11 Q. Okay. So this -- is this a true and accurate copy</p> <p>12 of the workplace exam records from, it looks like,</p> <p>13 June 21st of '22 through --</p> <p>14 A. Yes. Yeah, it appears --</p> <p>15 Q. -- April 11th, 2023?</p> <p>16 A. Yeah. I guess the second page here at the bottom</p> <p>17 is the next questions that they didn't finish.</p> <p>18 Q. Okay.</p> <p>19 A. Yeah.</p> <p>20 Q. Okay. I see that.</p> <p>21 A. I guess it wraps around.</p> <p>22 Q. Page 2. Okay. So some of them you can see stuff.</p> <p>23 A. Yeah.</p> <p>24 Q. And that would correlate --</p> <p>25 A. Yes.</p>	<p style="text-align: right;">Page 117</p> <p>1 A. Correct. Yes. Yeah.</p> <p>2 Q. Okay. And who created this document?</p> <p>3 A. Yeah, I -- I think it was actually before us. We</p> <p>4 just edited it to fit our documents. I don't</p> <p>5 think we created it.</p> <p>6 Q. Okay. And is this the job title that Baumann</p> <p>7 would have had, would have been production lead,</p> <p>8 or shift lead?</p> <p>9 A. Yeah, shift lead.</p> <p>10 Q. Okay. And is this something -- I think you had</p> <p>11 mentioned -- is this something maintained</p> <p>12 somewhere that employees can access?</p> <p>13 A. Yeah, this should be available to them in Teams in</p> <p>14 their -- I think it's the safety folders that has</p> <p>15 all the --</p> <p>16 Q. Okay.</p> <p>17 A. -- and SOPs and everything for them. But, yes,</p> <p>18 this would have been --</p> <p>19 Q. And -- okay. And is this the production lead</p> <p>20 duties document that would have been in place</p> <p>21 during Rob Baumann's employment?</p> <p>22 A. Yes.</p> <p>23 Q. And do you know if he was -- if Rob was ever</p> <p>24 provided with this -- a copy of this document?</p> <p>25 A. We don't print, so "provided a copy" would be</p>

<p style="text-align: right;">Page 118</p> <p>1 misleading. Access to the documents, yes.</p> <p>2 Explained where the documents were, yes. Because</p> <p>3 we've actually had conversations, him and I, about</p> <p>4 going in there and reading the documents. Not</p> <p>5 necessarily this specific document but all the</p> <p>6 documents in there so that he can relate to his</p> <p>7 people about how do we request time off? How do</p> <p>8 we do this? How do we do that? That kind of</p> <p>9 stuff.</p> <p>10 Q. So do you know if anyone ever specifically told</p> <p>11 him to look at this document?</p> <p>12 A. Specifically? I -- well, really, I would have to</p> <p>13 say that I -- me and Rob probably went over this</p> <p>14 document so that he would know what he was</p> <p>15 supposed to do. I can't tell you when, a date,</p> <p>16 but I'm -- based on our conversations, I would say</p> <p>17 that we did go over this document one on one.</p> <p>18 Q. And would that have been in person?</p> <p>19 A. I would -- I -- matter of fact, I think it was. I</p> <p>20 think it was in the control room when we put the</p> <p>21 new computer in there for him and we went over</p> <p>22 this. I think we actually went over this with</p> <p>23 both him and Jim Hoover. For some reason that</p> <p>24 rings a bell.</p> <p>25 Q. At the same time?</p>	<p style="text-align: right;">Page 120</p> <p>1 Q. I'll give you access.</p> <p>2 A. Yeah.</p> <p>3 Q. Sorry.</p> <p>4 A. No, that's fine. Yeah.</p> <p>5 Q. Okay.</p> <p>6 A. Yeah. Yeah, I can say that this would be an</p> <p>7 accurate one.</p> <p>8 Q. Okay. And is this -- does this document capture</p> <p>9 all of the job duties that Rob Baumann had while</p> <p>10 he was employed with American Tripoli?</p> <p>11 A. This document is stored online so it is a live</p> <p>12 document that they can edit and add things to.</p> <p>13 That was part of the things that we talked about</p> <p>14 so that we can review this when we go to their</p> <p>15 quarterly performance reviews and annual</p> <p>16 performance reviews so that they can detail all</p> <p>17 the things that they do so that we have more, as I</p> <p>18 call it, ammunition so they can get promoted or a</p> <p>19 bigger pay raise.</p> <p>20 So this would have been edited by them as</p> <p>21 well. So I have to say yes, he has access to it.</p> <p>22 Is this everything that he does? I would have to</p> <p>23 assume, but again, they add and put more details</p> <p>24 to it. So. . . .</p> <p>25 I would hope that they put more details in it</p>
<p style="text-align: right;">Page 119</p> <p>1 A. We -- I do believe that I -- I do believe it was</p> <p>2 at the same time because Mr. Hoover added a lot of</p> <p>3 stuff to this as well, added a lot of smaller</p> <p>4 details.</p> <p>5 Q. And when would that have been? Would that have</p> <p>6 been towards the beginning of Baumann's</p> <p>7 employment? Towards the end? Somewhere in the</p> <p>8 middle?</p> <p>9 A. Yeah, I would assume that that would have been</p> <p>10 more when Rob was at nights and Jim was during the</p> <p>11 day, that transition period of timing.</p> <p>12 Q. And do you know approximately when that was?</p> <p>13 A. Not without looking at documents.</p> <p>14 Q. Would that have been towards the end of Baumann's</p> <p>15 employment --</p> <p>16 A. No.</p> <p>17 Q. -- or would that --</p> <p>18 A. No. The begin -- that was the very beginning.</p> <p>19 Q. Okay. Is this a true and accurate copy of the</p> <p>20 production lead duties documents that American</p> <p>21 Tripoli has?</p> <p>22 A. I -- yeah, I'm -- safe to say yes. I can't scroll</p> <p>23 up or down, but yes.</p> <p>24 Q. Oh.</p> <p>25 A. It's okay. It looks --</p>	<p style="text-align: right;">Page 121</p> <p>1 but I'm not sure because, like I said, him and</p> <p>2 Mr. Hoover worked on this as well, or at least we</p> <p>3 all discussed it.</p> <p>4 Q. So since this is a live document, can you be sure</p> <p>5 that this is in the form that it would have been</p> <p>6 when Baumann was employed?</p> <p>7 A. Yeah, that's a good question. I can't say that</p> <p>8 it's not. I would assume that it would be.</p> <p>9 Q. Okay.</p> <p>10 A. You know, I don't know why anybody would take --</p> <p>11 take anything out of it. I mean, we just add to</p> <p>12 it.</p> <p>13 Q. So -- but job duties could have been added since</p> <p>14 Baumann was employed?</p> <p>15 A. Let's see. Who's there now? Don Hale? No. No.</p> <p>16 He's still -- he's still learning his job.</p> <p>17 He's -- he hasn't added anything.</p> <p>18 MS. O'REILLY: Okay. I'm going to stop</p> <p>19 sharing this document and move to the next</p> <p>20 one.</p> <p>21 So I'm going to share with you a document</p> <p>22 marked as Exhibit 20.</p> <p>23 (Exhibit No. 20 marked for identification.)</p> <p>24 Q. (By Ms. O'Reilly) And I'm going to let you have</p> <p>25 control over this, too.</p>

<p style="text-align: right;">Page 122</p> <p>1 A. Mm-hmm.</p> <p>2 Q. And do you know what this document is?</p> <p>3 A. It appears to be the interrogatories you</p> <p>4 requested.</p> <p>5 Q. And would you have prepared this document?</p> <p>6 A. Yes, ma'am.</p> <p>7 Q. Okay. And then if you go down to interrogatory</p> <p>8 number 3 --</p> <p>9 A. Mm-hmm.</p> <p>10 Q. -- I think that's just a bullet point from one of</p> <p>11 your answers. If you go down a little further.</p> <p>12 Oh, no. I think that's still a bullet point.</p> <p>13 Here, I can scroll down. Oh. Yeah, so</p> <p>14 interrogatory number 2 is on page 5 and then --</p> <p>15 okay. Interrogatory number 3 on page 6.</p> <p>16 A. Mm-hmm.</p> <p>17 Q. It says: Set forth the job duties, title, and</p> <p>18 responsibilities of Robert Baumann while he was</p> <p>19 employed by Respondent, including the dates of his</p> <p>20 employment in each role, and then here it looks</p> <p>21 like you listed his dates -- Baumann's dates of</p> <p>22 employment, and then the shift lead duties.</p> <p>23 A. Mm-hmm.</p> <p>24 Q. And so would these duties be -- capture all the</p> <p>25 duties, maybe from that other document or not,</p>	<p style="text-align: right;">Page 124</p> <p>1 maintenance team, supply requests, yes.</p> <p>2 Additional tasks, yeah. Professional development</p> <p>3 counseling, yes. Work with John. Again, working</p> <p>4 with Mr. Baumann trying to give him experience and</p> <p>5 a little help with being a manager, he just --</p> <p>6 he's just not an experienced manager. That's all</p> <p>7 it was. Shift lead not a supervisor. Yep. Yeah.</p> <p>8 I agree. Yeah.</p> <p>9 Q. Okay. And these are -- so I'm just going to kind</p> <p>10 of go through a few of these just to get some more</p> <p>11 information.</p> <p>12 First, how many hours a week did Baumann</p> <p>13 work? Did he do all these duties within, like, a</p> <p>14 40-hour work week?</p> <p>15 A. Mm-hmm.</p> <p>16 Q. Was he expected to work more?</p> <p>17 A. No. We didn't request any overtime or work at</p> <p>18 nights or weekends. You know, just their shift is</p> <p>19 all they did.</p> <p>20 Q. And do you know what his shift was?</p> <p>21 A. At the end was 8:00 to 4:30, 30 minutes --</p> <p>22 Q. Is there a lunch break in there?</p> <p>23 A. Yes, a 30-minute lunch.</p> <p>24 Q. Okay. So on here -- let's see. Under time</p> <p>25 tracking it said that Baumann was tasked to</p>
<p style="text-align: right;">Page 123</p> <p>1 that Baumann had during his employment? Did you</p> <p>2 list all those here?</p> <p>3 A. I -- yeah, I don't know if I referred back to that</p> <p>4 document. I just thought about the duties that he</p> <p>5 did. Let's see here.</p> <p>6 Q. Okay.</p> <p>7 A. Mm-hmm. Duties, startup, yeah; time tracking,</p> <p>8 yeah; safety, yes, yep; control room backup.</p> <p>9 Let's see here. Control room backup? What did I</p> <p>10 mean by that? He was tasked as the backup -- oh.</p> <p>11 Okay. So at that time, since there was the</p> <p>12 control room backup, Jim would have been the more</p> <p>13 experienced person in the control room so Rob</p> <p>14 would have been the backup. Yeah. Makes sense.</p> <p>15 Probably got that from the notes.</p> <p>16 Let's see here.</p> <p>17 Q. Okay.</p> <p>18 A. Control room operation, yes. Yeah, the senior</p> <p>19 mill associate would have been Jim Hoover. Okay.</p> <p>20 Startup/shutdown procedures, yes; collaboration,</p> <p>21 yes; mill production, yes; shipping/receiving.</p> <p>22 Mailing/preparing handles -- oh, the filling the</p> <p>23 small bags, yes. CILAS reports, yes. I don't</p> <p>24 think he ever did those, but yes. Preventive</p> <p>25 maintenance schedules, yes. Yeah. Cooperate with</p>	<p style="text-align: right;">Page 125</p> <p>1 maintain records of hours worked.</p> <p>2 A. Mm-hmm.</p> <p>3 Q. How was he supposed to keep track of the hours</p> <p>4 worked by employees?</p> <p>5 A. In Microsoft Teams, there is a time tracker. I</p> <p>6 don't know what it's called but it's -- I think</p> <p>7 it's called time tracker. I think it's what it's</p> <p>8 called. But it's an app within Microsoft Teams.</p> <p>9 So he has access to it.</p> <p>10 Q. And is that something that employees would clock</p> <p>11 in or clock out from, or was he supposed to be</p> <p>12 watching, like, the moment that somebody arrived?</p> <p>13 A. Right. So the way that the mill is laid out,</p> <p>14 everybody in the mill, mill associates, to get to</p> <p>15 the break room, which is where their lockers were</p> <p>16 initially during Mr. Baumann's time, they walked</p> <p>17 by what is considered the control room. So they</p> <p>18 would have to see Baumann as they walked in.</p> <p>19 Q. So the employees didn't clock in but Baumann would</p> <p>20 just -- was supposed to see them --</p> <p>21 A. Correct.</p> <p>22 Q. -- come in and know when they came in?</p> <p>23 A. Yep. Yeah. So --</p> <p>24 Q. Is that --</p> <p>25 A. -- the normal process -- I'm assuming that's where</p>

Page 126	Page 128
<p>1 you're leading with the next question, normal  2 process, is at 8 o'clock everybody shows up in the  3 break room, which is next to the control room.  4 That way there's a board on the wall that he  5 assigns the tasks out that day. So if he wanted  6 Jim to be the bagger and Ronnel be the forklift  7 driver, whatever, he would task that out by  8 writing it on a white wipe-off board. That way  9 the guys didn't have to keep hounding him about  10 what do you want me to do? What do you want me to  11 do? It would be on that board so that they can be  12 easily tasked out.  13 And then the same thing -- there was a board  14 in the break room that showed the guys which  15 orders we were working on, which Mr. Baumann got  16 from the production schedule before he put it in  17 the production schedule spreadsheet, or form.  18 Okay? So that's a normal startup procedure.  19 And then as he's tasked them out, whether  20 they be in greasing or they're going to get  21 pallets or bags or whatever, that's that  22 first-hour startup, they're supposed to do their  23 workplace inspections, the forklift inspection,  24 and then go get the supplies for the run.  25 And then, once everybody comes back after</p>	<p>1 complete this duty?  2 A. As far as what?  3 Q. Well, looks like he was tasked to collaborate with  4 the safety specialist about MSHA compliance. What  5 sort of training did you provide him on that?  6 A. The MSHA training itself is what provides that  7 training. The communication between the  8 environmental safety specialist and the shift lead  9 is just communications. That's a relationship  10 that they -- they're taught to have with each  11 other.  12 Because a safety specialist, you got to  13 take -- he comes in and out of the mill all day  14 long. It's part of his job duties.  15 Q. And did Baumann receive any different or more  16 training on MSHA --  17 A. Yes. Yeah.  18 Q. -- standards than, like, a regular mill associate?  19 A. Yes. The mill associates are not in a position  20 for a leadership or a management role so they  21 wouldn't receive the additional counseling and  22 mentoring and private conversations to make sure  23 that production works. So, yes, Mr. Baumann did  24 receive additional training.  25 Q. And was that additional training specific to MSHA</p>
Page 127	Page 129
<p>1 finishing their specific task, then they start  2 production.  3 And then, at the end of the day, 3:30, an  4 hour before going home, is the shutdown  5 procedures. Well, Mr. Baumann, the shift lead,  6 lets the equipment run so that it cleans itself  7 out, but the mill associates may be tasked with  8 cleaning the bathrooms, cleaning the break room,  9 taking back the supplies that weren't finished for  10 that order that day, assisting maintenance, you  11 know, assisting Mr. Baumann, whatever he may need,  12 or the shift lead, whatever they may need.  13 So that's the whole process, but it is  14 written down by the shift lead in the control --  15 or the break room so that the mill associates know  16 what's going on throughout their entire shift,  17 startup and shutdown. Does that help?  18 Q. Sure.  19 And then another one, it says that -- let me  20 see where it says this -- under enforcement of  21 safety procedures, that he was supposed to  22 collaborate with the environmental and safety  23 specialist to ensure MSHA -- compliance with MSHA.  24 A. Correct.  25 Q. Did you provide Baumann with any training to</p>	<p>1 standards?  2 A. Specific to MSHA standards? Mr. Baumann was  3 explained -- even during the training, I know I  4 personally went through the MSHA little book that  5 they gave us at the -- I can't think of what the  6 little book's called, the regulations, showing him  7 how to read through those and go through them so  8 that he could find different things as he has  9 questions and stuff like that.  10 So, yes, he was -- he was shown how to read  11 the MSHA regulations. I even showed him how to  12 research online, which is quicker than reading the  13 book. So, yes, Mr. Baumann was shown how to  14 ensure compliance with MSHA.  15 The -- there's a guarding book that we have  16 that was sent to Mr. Baumann. I asked him to read  17 it and let's discuss it in the chat group so that  18 the mill associates would have a better  19 understanding of guarding, too. And I think that  20 link is out there.  21 Q. When did you send him -- when did you guys discuss  22 that guarding book?  23 A. Yeah, I'd have to -- it was in one of his  24 counseling calls. I don't know what date. I'd  25 have to look back at the date on the file that</p>

<p style="text-align: right;">Page 130</p> <p>1 that was put there. I put it there for that</p> <p>2 specific reason for Mr. Baumann to read over it.</p> <p>3 So whatever the date stamp on that file is.</p> <p>4 Q. And did you read that book?</p> <p>5 A. Yes.</p> <p>6 Q. And then you just mentioned during one of the</p> <p>7 counseling calls. What are you referring to? Did</p> <p>8 you have regularly scheduled counseling calls</p> <p>9 with --</p> <p>10 A. Not scheduled calls. Mr. Baumann, you know, like</p> <p>11 he would miss inputting the data into the daily</p> <p>12 production, so of course we'd have to reach back</p> <p>13 out to him because our reports aren't being</p> <p>14 generated properly and he would explain, Oh, I</p> <p>15 forgot. You have to explain to him that you can</p> <p>16 fill this out at home. You can fill this out at</p> <p>17 the park, at your mom's house, at a library. You</p> <p>18 don't have to be in the control room, you know,</p> <p>19 part of that helping him understanding that it's</p> <p>20 internet-based, not computer-in-the-office-based.</p> <p>21 And then those -- those were random. You</p> <p>22 know, there was no set thing. You know, there</p> <p>23 were times that, you know, times he called me, you</p> <p>24 know, at the very beginning and would just ask</p> <p>25 questions about this and about that and, you know,</p>	<p style="text-align: right;">Page 132</p> <p>1 was -- that was about it.</p> <p>2 Q. And would you be calling his personal phone on</p> <p>3 that time or did you have a work --</p> <p>4 A. No, that would have been either through Teams or</p> <p>5 to my cell phone. Yeah. Because they all had --</p> <p>6 they all had my cell phone number at the time.</p> <p>7 Q. And if you were talking to him on the phone, he</p> <p>8 would be on his personal phone or would he be on,</p> <p>9 like, an American Tripoli phone?</p> <p>10 A. I -- yeah, I don't -- I don't remember if he had a</p> <p>11 company phone or not at that time. I don't -- I</p> <p>12 don't know. Don't remember.</p> <p>13 Q. Okay. And then I think you had brought up, I</p> <p>14 think at the top of page 7, control room operation</p> <p>15 and it mentioned when there was -- in the absence</p> <p>16 of a more senior mill associate. When -- was that</p> <p>17 if somebody was on vacation or what was that?</p> <p>18 A. No. So Mr. Hoover is notoriously -- missed a lot</p> <p>19 of work, late, you know, disappears. So, in a</p> <p>20 production environment, you just can't walk away</p> <p>21 from the equipment because you're putting other</p> <p>22 people in danger, so Mr. Baumann had to, you know,</p> <p>23 step up and say, hey, you know, where's Jim? or,</p> <p>24 you know, why is Mr. Hoover not here today? You</p> <p>25 know, and he would come in and do that kind of</p>
<p style="text-align: right;">Page 131</p> <p>1 everything was provided online so we just had to</p> <p>2 refer him to where it's at and how to get there.</p> <p>3 Like I said, he's just not computer savvy.</p> <p>4 So. . . .</p> <p>5 Q. And how many counseling phone calls would you say</p> <p>6 you had with Mr. Baumann while he was employed?</p> <p>7 A. Oh, I don't -- I don't -- it would be a guess. I</p> <p>8 didn't keep track of the phone calls and stuff</p> <p>9 like that.</p> <p>10 Q. Would it be more than five?</p> <p>11 A. I would say so, yes. Over the time that he --</p> <p>12 Q. More than -- yeah.</p> <p>13 A. I would say --</p> <p>14 Q. Would it be more --</p> <p>15 A. Maybe five to ten, yeah.</p> <p>16 Q. Between five and ten?</p> <p>17 A. Yeah.</p> <p>18 Q. Okay. And what would be, like, the length of</p> <p>19 those phone calls, usually?</p> <p>20 A. I have no idea. I don't think they were very</p> <p>21 long, if anything, because I think a lot of times</p> <p>22 he was just looking for questions. Just like</p> <p>23 Mr. Hoover, just looking for questions: What</p> <p>24 about this? What about that? Ask him, Did you</p> <p>25 talk with John, or Christine at the time? That</p>	<p style="text-align: right;">Page 133</p> <p>1 stuff. So that's what that meant.</p> <p>2 Q. And how would he know how to operate the control</p> <p>3 room?</p> <p>4 A. He was shown by Mr. Hoover and through Mr. Randy</p> <p>5 Drake and through John Spears. I don't know if</p> <p>6 Rob worked with -- yeah, the maint- -- the mill</p> <p>7 manager before John, if you want to call it that,</p> <p>8 what we called him at the time, I don't know if he</p> <p>9 worked with Rob, but he's the one that started</p> <p>10 documenting a lot of startup procedures and stuff</p> <p>11 like that. So. . . .</p> <p>12 Q. Okay.</p> <p>13 A. Rob would have been given hands-on instructions as</p> <p>14 well as the document that we have that shows the</p> <p>15 startup and shutdown procedures and how to operate</p> <p>16 and run the control room.</p> <p>17 Q. Okay. And then it talks about mill product and</p> <p>18 production supply inventory. What sort of</p> <p>19 training did he receive to do this task?</p> <p>20 A. Hands-on training. I mean, it's to go over there</p> <p>21 and count. You know, we're giving you the</p> <p>22 spreadsheet that has the items and you just have</p> <p>23 to count the items.</p> <p>24 Q. And was he solely in charge of this or did</p> <p>25 somebody else also have a role with regard to</p>

<p style="text-align: right;">Page 134</p> <p>1 keeping track of inventory?</p> <p>2 A. Mr. -- well, Mr. Baumann would have either done it</p> <p>3 himself or he would have tasked it to one of the</p> <p>4 mill associates so that they could do it, but it</p> <p>5 would have been Mr. Baumann -- you know,</p> <p>6 logically, the chain of command, it would have</p> <p>7 been Mr. Spears, Mr. Baumann, making sure that it</p> <p>8 gets done, and then it could have been -- even</p> <p>9 Mr. Spears has done it. So any of them could have</p> <p>10 done it. So. . . .</p> <p>11 Q. So some of these duties Baumann could have tasked</p> <p>12 to another --</p> <p>13 A. Oh, yeah.</p> <p>14 Q. -- employee to do?</p> <p>15 A. Yes. Yeah. He was advised to do that.</p> <p>16 Q. Do you know if he did that?</p> <p>17 A. He was advised to do that.</p> <p>18 Q. Do you know which of these duties he tasked to</p> <p>19 other employees?</p> <p>20 A. Well, and part of the mill associate's progression</p> <p>21 is the learn the control room; it is to learn</p> <p>22 safety; it is to learn, you know, the inventory,</p> <p>23 forklifts, and everything else. So as</p> <p>24 Mr. Baumann, you know, shared his experience and</p> <p>25 knowledge, he should have been, you know, hey,</p>	<p style="text-align: right;">Page 136</p> <p>1 A. I know Mr. Hoover did; I know Mr. Ronnell Fondren</p> <p>2 did. I can't think of the other guy's name. Oh,</p> <p>3 lives right down the street. I can see his face;</p> <p>4 can't think of his name. R.J. Williams. R.J.</p> <p>5 Williams is another one that was very voiceful</p> <p>6 about Rob. Christine Schreiber. She was the</p> <p>7 operations manager there. She had mentioned</p> <p>8 numerous times about, you know, she's thinking</p> <p>9 about -- we probably just need to replace Rob. We</p> <p>10 need to get rid of him. He's not being</p> <p>11 productive. He's got an attitude. Yeah. So</p> <p>12 that's the kind of feedback I'm getting from them</p> <p>13 concerning Rob.</p> <p>14 Q. Did anyone else make those type of complaints to</p> <p>15 you?</p> <p>16 A. Well, those are the ones that come off the top of</p> <p>17 my head. I think I made notes on those. Those</p> <p>18 should be in the notes that you have.</p> <p>19 Q. I'm just asking now. Do you recall anyone else?</p> <p>20 A. No, not off the -- I don't recall any right now,</p> <p>21 not without looking at my notes. We tried. We</p> <p>22 tried. It just. . . .</p> <p>23 Q. And then it talks about shipping and receiving</p> <p>24 paperwork.</p> <p>25 A. Yes.</p>
<p style="text-align: right;">Page 135</p> <p>1 guys, this is how you do it. You know, you're</p> <p>2 coming up on your 90th day, you know, you should</p> <p>3 know X-Y-Z by now and you're kind of lacking on</p> <p>4 this so here's a little bit of the training so</p> <p>5 that you understand better. Work with John. Work</p> <p>6 with maintenance. Work with the special -- the</p> <p>7 safety specialist about being more proficient in</p> <p>8 your job.</p> <p>9 So he could have tasked all those things out,</p> <p>10 and he was -- he was told or mentored to do that</p> <p>11 because that's part of showing that you're a</p> <p>12 leader and not just a doer. So. . . .</p> <p>13 Q. And do you know if he actually did task out any of</p> <p>14 these duties to anyone?</p> <p>15 A. Honestly, I don't think so because some of the</p> <p>16 complaints that we had from the mill associates</p> <p>17 that Rob didn't know what he was doing, he was in</p> <p>18 over his head, he would get mad and stomp off, he</p> <p>19 had an attitude. You know, those are the comments</p> <p>20 that, especially when you're there in person, they</p> <p>21 want to tell you everything, and then it -- that's</p> <p>22 what just kind of led up to, you know, him not</p> <p>23 being a successful production shift lead, not able</p> <p>24 to get things done.</p> <p>25 Q. Who made those complaints?</p>	<p style="text-align: right;">Page 137</p> <p>1 Q. You say he struggled with this the entire time.</p> <p>2 What was the issue there?</p> <p>3 A. Yeah. So -- okay. The production goes into a</p> <p>4 pallet. A pallet has to have certain -- you know,</p> <p>5 the customer order needs to be a certain amount of</p> <p>6 bags, certain bag size, certain material. Okay.</p> <p>7 If you're the one that's controlling the control</p> <p>8 room, you're the ones that are putting the</p> <p>9 material in the bag, you know. You know what</p> <p>10 you're crushing. You know what you're doing. If</p> <p>11 you -- if you -- you are the one that gets the</p> <p>12 labels for those bags from the operations office,</p> <p>13 you put the labels on the bags, you wrap the bags,</p> <p>14 you put the shipping documents on the bags, and</p> <p>15 then the customer receives it overseas 60 days</p> <p>16 later and it's not -- the bag -- it's not the</p> <p>17 product or the count of what the paperwork says,</p> <p>18 something's wrong.</p> <p>19 So that happened numerous times. I mean,</p> <p>20 even simplest things, because this is why we had</p> <p>21 to get them to start taking pictures of the orders</p> <p>22 when they're being loaded in the truck and when</p> <p>23 the truck is finished, they were shipping product,</p> <p>24 finished product -- you know, it's wrapped, it's</p> <p>25 stretch wrapped, it's got the labels on it and it</p>

<p style="text-align: right;">Page 138</p> <p>1 sits in the warehouse. Well, if they don't close  2 all the windows and the doors when they go home at  3 night, the pigeons fly into the building to stay  4 warm over the evening and they defecate all over  5 the -- drops down to the production floor and  6 these guys would load the material -- the trucks  7 without cleaning all the bird droppings off of it.  8 Well, as it goes through customs overseas,  9 now they're looking at bird flu and everything  10 else. So Mr. Baumann was tasked to look at the  11 order, make sure it's correct, because you're the  12 last control of that. That's that position. You  13 know, that -- it goes right by your door. You're  14 not even taking two steps out the door to make  15 sure this works.  16 So in this, he was told to make sure the  17 paperwork is correct, make sure that the order is  18 correct, make sure it's accurate, because you're  19 the last person to touch that before the customer  20 does. And he struggled. And we had -- we had  21 numerous issues with this. I mean -- okay. In  22 another example, if the order -- if the shift lead  23 states that the order is completed, the shipping  24 department gets that notification and then they  25 call the customer and the customer coordinates the</p>	<p style="text-align: right;">Page 140</p> <p>1 Q. Okay. I think here it talks about how Mr. Baumann  2 was employed from June 16th of 2022 to April 17th  3 of 2023. Would you agree that those were his  4 employment dates?  5 A. Without looking at the time tracker or his  6 paperwork, yes, I think that's right.  7 Q. Okay. That sounds about right? Okay.  8 With regard to preventive maintenance  9 schedule, what was Baumann's role with regard --  10 what was the expected role with that? I  11 understand that that would probably be something  12 the maintenance team did. What did Baumann  13 specifically have to do with regard to that?  14 A. So as part of the progression growth for the mill  15 associates, they need to understand how the  16 machines work so that they can operate the  17 machines efficiently.  18 So the shift lead's role is to collaborate  19 with the maintenance team and update the  20 preventive maintenance schedule as tasks are  21 completed. So if we go down for maintenance, for  22 example, we only have -- preferably we'd have two  23 but we only had one most of the time -- the mill  24 associates are now tasked -- Mr. Baumann or the  25 shift lead would task that mill associate, hey,</p>
<p style="text-align: right;">Page 139</p> <p>1 truckers to show up. Okay.  2 If the truckers show up, that means that they  3 need to receive that product. So if there's 20  4 pallets that are supposed to go on a truck,  5 there's supposed to be 20 pallets getting loaded  6 on the truck.  7 There were times when Mr. Baumann had stated  8 that the order is ready. The shipping department  9 does their part, the truck shows up, and the  10 order's not ready. Now we get a dry run, and a  11 dry run means that the truck leaves from the  12 shipping yard to our location and it returns to  13 the shipping yard empty because the order's not  14 full. And the drivers won't take half orders  15 unless the BOL, the basic order -- bill of lading,  16 states it because it can look like they stole it.  17 So we -- we've got charged numerous times for  18 these dry runs because of Mr. Baumann not checking  19 that. So --  20 Q. Okay.  21 A. Explained --  22 Q. Okay.  23 A. -- you know, get the nod, I understand, I  24 understand, and it just happened again and again.  25 And it just -- it was very expensive.</p>	<p style="text-align: right;">Page 141</p> <p>1 I'm -- you know, since we're not producing, we're  2 down, I need you to go help the maintenance guy,  3 you know, do with -- whatever he tells you to do  4 to fix the machine so that we can get back up and  5 running.  6 So that maintenance person may be, you know,  7 a tool person. Go get this tool. Go get that  8 tool. You know, bring the forklift over here.  9 You know, hold this. You know, whatever the  10 maintenance guy is directing him. And that's  11 why -- and he has to collaborate with the  12 maintenance team as far as any type of preventive  13 maintenance that would be scheduled or if there's  14 any immediate breakdowns. So that way --  15 Q. Okay.  16 A. -- Mr. Baumann is planning his workload with the  17 maintenance -- preventive maintenance. Because we  18 do preventive maintenance on Wednesdays from  19 8:00 a.m. till noon, then we produce in the  20 afternoon, and then every other Friday, if we can,  21 is a full day of preventive maintenance.  22 Q. Okay.  23 A. Okay.  24 Q. I'm going to stop sharing this document and --  25 I think we previously talked about the 40</p>

<p style="text-align: right;">Page 142</p> <p>1 hours a week. Do you know if Baumann ever worked</p> <p>2 more than 40 hours per week?</p> <p>3 A. Not without looking at the schedule. We didn't</p> <p>4 run overtime or anything like that very often, so</p> <p>5 I would say it was very minuscule if any at all.</p> <p>6 Q. Okay.</p> <p>7 A. We used to offer it. We used to offer Saturdays</p> <p>8 and they -- nobody took advantage of it.</p> <p>9 Q. Okay. I'm going to show you -- I'm kind of</p> <p>10 bouncing around numbers here, but I'm going to</p> <p>11 show you what I've marked as Exhibit Number 27.</p> <p>12 (Exhibit No. 27 marked for identification.)</p> <p>13 Q. (By Ms. O'Reilly) And it looks like this is Rob</p> <p>14 Baumann's pay stubs. I can let you have control</p> <p>15 over it if you want to take a look through it. Is</p> <p>16 that correct? Is that what this is?</p> <p>17 A. Yes. I don't normally look at their pay stubs,</p> <p>18 but. . . .</p> <p>19 Q. Okay. And it's showing -- where it says</p> <p>20 "regular," the rate -- that his rate was \$20 an</p> <p>21 hour; is that correct?</p> <p>22 A. Yes.</p> <p>23 Q. And was that his rate throughout his employment,</p> <p>24 do you know?</p> <p>25 A. I do believe so. I don't think -- I'd have to</p>	<p style="text-align: right;">Page 144</p> <p>1 A. It's -- it's standard. We call it --</p> <p>2 Q. And everyone gets paid at the same time?</p> <p>3 A. Yes. Yeah. We followed the same pay schedule</p> <p>4 that they had before. We didn't change anything.</p> <p>5 MS. O'REILLY: Okay. I'm going to stop</p> <p>6 sharing this document, and then I'm going to</p> <p>7 show you another document which I've marked</p> <p>8 as Exhibit 28.</p> <p>9 (Exhibit No. 28 marked for identification.)</p> <p>10 Q. (By Ms. O'Reilly) I'll share my screen and I'll</p> <p>11 give you access to this one, too.</p> <p>12 And do you know what this document is in</p> <p>13 Exhibit 28?</p> <p>14 A. I've never seen it, so I'm assuming that it's just</p> <p>15 payroll dates from 7/1 to 4/23.</p> <p>16 Q. Okay. It says "payroll details." Is this just</p> <p>17 kind of an accumulation of all of his pay dates?</p> <p>18 A. Yeah, mm-hmm. I have to assume so, yes.</p> <p>19 Q. And would this have been something you gathered</p> <p>20 from ADP to respond to discovery?</p> <p>21 A. Yes. Jordan or the bookkeeper would have gotten</p> <p>22 with them.</p> <p>23 Q. And so is this a true and accurate copy of the</p> <p>24 payroll details for Robert Baumann?</p> <p>25 A. Yes.</p>
<p style="text-align: right;">Page 143</p> <p>1 look back at his initial hiring paperwork. I</p> <p>2 don't think he was -- I think he was hired at \$20.</p> <p>3 Q. Okay. And did you pull these pay stubs, I guess,</p> <p>4 is what I'll call them?</p> <p>5 A. I didn't pull them specifically. It would have</p> <p>6 been either Jordan or the bookkeeper that pulled</p> <p>7 them.</p> <p>8 Q. Okay. So these would have come from your --</p> <p>9 whatever your bookkeeper system is?</p> <p>10 A. It's ADP. ADP.</p> <p>11 Q. Okay.</p> <p>12 A. Yeah.</p> <p>13 Q. So you asked them to pull these documents for us</p> <p>14 in response to discovery?</p> <p>15 A. Mm-hmm.</p> <p>16 Q. Okay. And so is this a true and accurate copy of</p> <p>17 Baumann's pay stubs?</p> <p>18 A. Yes.</p> <p>19 Q. Okay. And how often was Baumann paid? Are your</p> <p>20 employees paid, like, every week? Every other</p> <p>21 week? On certain days?</p> <p>22 A. I think it's every two weeks. I know that -- it's</p> <p>23 either every other week or every two weeks. I'm</p> <p>24 not sure the --</p> <p>25 Q. Okay.</p>	<p style="text-align: right;">Page 145</p> <p>1 Q. And then in here, just in a small area, I see</p> <p>2 overtime and then 3. Do you see that up at the</p> <p>3 top?</p> <p>4 A. Mm-hmm. Yeah.</p> <p>5 Q. And what does that mean?</p> <p>6 A. Yeah. So if he would have stayed late one hour,</p> <p>7 one day, you know, or three days during that pay</p> <p>8 period, you know.</p> <p>9 Q. Okay.</p> <p>10 A. Yeah. They -- so in Teams they put on their</p> <p>11 tracker -- time tracker, whatever it's called,</p> <p>12 they -- you know, the shift lead will put that he</p> <p>13 started at 8:00 and he left at 4 -- 5:30, let's</p> <p>14 just say, and that would show that there would be</p> <p>15 one hour of overtime.</p> <p>16 Q. Mm-hmm. Okay.</p> <p>17 A. That's what that is.</p> <p>18 Q. So it looks like this is kind of a cumulative</p> <p>19 document, so does that show that he only worked</p> <p>20 three hours of overtime during his employment?</p> <p>21 A. Yeah. I have to -- the way it looks, yes.</p> <p>22 Q. Okay. Does that seem right to you, that that's</p> <p>23 about the --</p> <p>24 A. Yeah.</p> <p>25 Q. -- amount of overtime he did?</p>

<p style="text-align: right;">Page 146</p> <p>1 A. Yeah, that's probably pretty accurate.</p> <p>2 MS. O'REILLY: Okay. I'm going to stop</p> <p>3 sharing this document.</p> <p>4 I'm going to show you what I have marked as</p> <p>5 Exhibit 29.</p> <p>6 (Exhibit No. 29 marked for identification.)</p> <p>7 Q. (By Ms. O'Reilly) I'll let you have control over</p> <p>8 it if you want to take a look at this.</p> <p>9 And do you know what this document is?</p> <p>10 A. Doesn't look familiar.</p> <p>11 Q. Okay.</p> <p>12 A. I mean, it could be --</p> <p>13 Q. Looks like it's --</p> <p>14 A. Yeah, it could have been something that the</p> <p>15 bookkeeper put together showing their hours.</p> <p>16 Q. It looks like it's, like, showing PTO hours.</p> <p>17 Would that be the paid time off hours?</p> <p>18 A. Yes. Yeah. It's part of their benefits.</p> <p>19 Q. Okay. So is this just, like, some sort of</p> <p>20 cumulative document showing the paid time off he</p> <p>21 used and received?</p> <p>22 A. Yeah.</p> <p>23 Q. And do you know if he had any paid time off left</p> <p>24 over when he was terminated? Does that document</p> <p>25 show that at all?</p>	<p style="text-align: right;">Page 148</p> <p>1 hired him. It was more -- I -- if I remember</p> <p>2 correctly, Christine interviewed him and she liked</p> <p>3 him. You know, she liked the way that he talked</p> <p>4 and --</p> <p>5 Q. And do you know if you would have been involved in</p> <p>6 his employment decision, the employment decision</p> <p>7 to hire Baumann?</p> <p>8 A. I -- no, I took her word for it. She was the</p> <p>9 operations manager.</p> <p>10 MS. O'REILLY: Okay. I'm going to stop</p> <p>11 sharing this document, and I think this might</p> <p>12 be a good time to take a break. Do we want</p> <p>13 to take, like, a 30-minute break so everyone</p> <p>14 can grab lunch and meet back?</p> <p>15 THE WITNESS: Yeah.</p> <p>16 MS. O'REILLY: Does that work? Okay.</p> <p>17 So maybe come back at 12:45 p.m. Central?</p> <p>18 THE WITNESS: Okay.</p> <p>19 MS. O'REILLY: Does that work for</p> <p>20 everyone? Okay. We can go off the record</p> <p>21 and we can be back then. Thank you.</p> <p>22 (A recess was taken from 12:12 p.m.</p> <p>23 until 12:48 p.m.)</p> <p>24 Q. (By Ms. O'Reilly) I want to go back to something</p> <p>25 I think you mentioned earlier. You mentioned you</p>
<p style="text-align: right;">Page 147</p> <p>1 A. He was paid out, if he was.</p> <p>2 Q. Okay. Okay.</p> <p>3 A. Yeah.</p> <p>4 Q. All right. I'm going to stop sharing this</p> <p>5 document.</p> <p>6 A. You know how it is. They're not required to pay</p> <p>7 it out but we -- we always pay it out.</p> <p>8 MS. O'REILLY: Okay. I'm going to show</p> <p>9 you a document I have marked as Exhibit, let</p> <p>10 me see, 30. I'll share that with you.</p> <p>11 (Exhibit No. 30 marked for identification.)</p> <p>12 Q. (By Ms. O'Reilly) And this document -- do you</p> <p>13 know what this document is?</p> <p>14 A. Yeah, looks like an initial employment offer</p> <p>15 letter.</p> <p>16 Q. Okay. And do you know --</p> <p>17 A. Yeah.</p> <p>18 Q. Would you have prepared this document?</p> <p>19 A. Yes.</p> <p>20 Q. And was this document given to Baumann?</p> <p>21 A. I don't know if it was emailed to him or if it was</p> <p>22 handed to him when he first started.</p> <p>23 Q. And do you recall why Mr. Baumann was hired?</p> <p>24 A. Why he was hired? I think he was -- I'd have to</p> <p>25 look back at his resume and see the reasons why we</p>	<p style="text-align: right;">Page 149</p> <p>1 did quarterly or annual performance reviews. Do</p> <p>2 you recall that?</p> <p>3 A. That is our plan, yes. How we got there, no.</p> <p>4 Q. Did you do any quarterly or annual performance</p> <p>5 reviews with Baumann?</p> <p>6 A. Yes.</p> <p>7 Q. And when did you do those?</p> <p>8 A. They were verbal so they wouldn't have been</p> <p>9 documented.</p> <p>10 Q. Do you know when those were?</p> <p>11 A. Not off the top of my head, no.</p> <p>12 Q. Did you do more than one?</p> <p>13 A. Yes. He was counseled numerous times.</p> <p>14 Q. As part of the formal performance review, how many</p> <p>15 of those did you do?</p> <p>16 A. Part of his formal performance reviews? Not</p> <p>17 without looking back through my notes. You have</p> <p>18 those notes.</p> <p>19 Q. Do you know if you did any formal performance</p> <p>20 reviews like you were talking about, like a</p> <p>21 quarterly one or an annual one?</p> <p>22 A. No. The turnover was too high.</p> <p>23 Q. So you didn't do any of those with Baumann, then.</p> <p>24 A. No, the written, formal performance reviews, as</p> <p>25 you're asking, they were not written.</p>

<p style="text-align: right;">Page 150</p> <p>1 Q. Did you do any sort of, like, a verbal performance 2 review going over -- 3 A. Yes. 4 Q. -- his entire performance? 5 A. Mm-hmm. 6 Q. Okay. 7 A. I did -- I don't remember the last time that I was 8 actually there when Mr. Baumann was there, but 9 that was one of them because it was done in 10 control -- that was done in the control room, in 11 his office area, I guess you could say, workplace 12 area. I don't know what date that was, to be 13 honest with you. 14 Q. And what would you have gone over at that review? 15 A. I know we talked about getting production done 16 because he wasn't getting it done, accurately 17 recording what was in the production spreadsheet, 18 having his people growing and learning because 19 that was one of the complaints that Mr. Williams 20 had was that he was -- he didn't feel that 21 Mr. Baumann was helpful at all in his progression. 22 And then you've seen the chats from Mr. Hoover 23 about Mr. Baumann's attitude, so the attitude 24 would have been talked about. 25 That's -- I mean, it wasn't, like, a</p>	<p style="text-align: right;">Page 152</p> <p>1 MSHA, we needed to fix the problem and Mr. Baumann 2 just happened to be part of that problem. 3 Q. So the MSHA citations played a part in his 4 termination? 5 A. The not instructing the guys as far as the proper 6 guarding of the machines, because we didn't know 7 if he was doing the workplace exams, you know, 8 fitting them, just pencil whipping them, or if he 9 was actually doing them because how could he -- if 10 you're reporting that everything is good and all 11 the guards are on and everything else and then the 12 inspector comes in a little bit later and we get 13 citations, how is that? Something's not working 14 right. 15 So -- and trying to find out, you know, then 16 catching an attitude with, you know, the 17 management side when he gets questioned about 18 those citations just makes it that much -- that 19 much more harder. So not necessarily -- 20 Q. At that time -- 21 A. -- citations were the problem, you know, it was 22 just an overall everything. 23 Q. And at that time I believe you had mentioned there 24 was a safety person who was in charge of MSHA 25 complaints; is that right?</p>
<p style="text-align: right;">Page 151</p> <p>1 documented time line or an outline of what we 2 talked about. It was really just about, Come on, 3 man, you've been here long enough to know what 4 you're doing. You really should be starting to 5 help people learn the control room. 6 And I think he started after that 7 conversation of having the mill associates come in 8 the control room and started learning it, but I'm 9 not sure 100 percent on that. 10 So that conversation that him and I did have, 11 that -- what I consider counseling with him did 12 change his demeanor and -- for a short period of 13 time, at least, and he tried to take what was said 14 to him and do something with it, I guess. 15 Q. And now I want to talk about Mr. Baumann's 16 termination. 17 A. Mm-hmm. 18 Q. First I just want to know, who are the people that 19 participated in the decision to terminate Baumann? 20 A. That would have been Jordan and myself. In the 21 conversations we had with John, I mean, it -- you 22 know, it could have been -- led up to whatever, 23 but looking at the actual data and the reporting 24 and then the counseling that we were doing with 25 him and the citations that we were receiving from</p>	<p style="text-align: right;">Page 153</p> <p>1 A. I'd have to look back because I know Jessie Molesi 2 I think was there at the same time that 3 Mr. Baumann was. So they would have -- they would 4 have been collaborating as far as -- or at least 5 Mr. Baumann should have been collaborating with 6 the safety person as far as what, where and how to 7 resolve them and where the training needs to be 8 done, stuff like that. 9 Q. And was Molesi terminated for the MSHA 10 citations -- 11 A. No. 12 Q. -- and the safety -- 13 A. Molesi -- Molesi wasn't terminated. He quit. He 14 moved. 15 Q. Was he disciplined for the MSHA citations? 16 A. Was he disciplined? He was counseled. He wasn't 17 there very long. 18 Q. I'm just trying to get -- you said, you know, 19 Baumann, some of issues were, you know, being out 20 of compliance, but there was also someone above 21 him that was in charge of safety. So did anything 22 happen to Jessie Molesi as a result of those 23 issues? 24 A. Yes. Yeah. Molesi was counseled just like 25 Mr. Baumann was.</p>

<p style="text-align: right;">Page 154</p> <p>1 Q. Do you know when was the day that you decided to 2 terminate Baumann?</p> <p>3 A. It was probably a day or so before he was 4 terminated because it's something that we had been 5 talking about for well over -- months, because 6 Christine -- if I remember correctly, Christine 7 was the one that originally brought that thought 8 process that Mr. Baumann wasn't a very good 9 choice. And I think that's mentioned in one of my 10 notes.</p> <p>11 Q. And when you say "months," about how many months 12 had you been considering terminating him?</p> <p>13 A. Again, the notes that I've taken would have that 14 initial date wherein she said that he probably 15 needs to be let go. So from that point forward.</p> <p>16 But, yeah, I think we went through operations 17 managers and safety people and mill associates. I 18 mean, we went through a lot of mill associates. 19 So --</p> <p>20 Q. Okay.</p> <p>21 A. And it correlates to -- if you think about the 22 messaging that I've shared with you about Jim 23 Hoover's, Jim was a senior guy so his -- his input 24 affected a lot about what was going on with 25 Mr. Baumann.</p>	<p style="text-align: right;">Page 156</p> <p>1 us able to pay employees. Now, if they're doing 2 their job completely, working with the other 3 teammates, working with operations, working with 4 safety, we wouldn't be having these MSHA issues 5 either.</p> <p>6 So -- and from what I understand, a lot of 7 these MSHA inspections were based off anonymous 8 phone calls. Well, are those anonymous phone 9 calls from Mr. Hoover complaining to MSHA because 10 of Baumann? I don't know but that's what we just 11 have to assume because Mr. Baumann -- or 12 Mr. Hoover is -- was very expressive about his 13 discomplaint with Mr. Mr. Baumann.</p> <p>14 The same with Mr. Ronnell Fondren. He was 15 very expressive about his dislike for Mr. Baumann.</p> <p>16 So, you know, we have to take in 17 consideration of, you know, people -- multiple 18 people telling us the same story, not just one 19 person. So it was accumulation over time and 20 actions by Mr. Baumann that led up to his 21 termination, not one thing specific. His 22 performance is really what caused it. So. . . .</p> <p>23 Q. You mentioned some anonymous phone calls. Was 24 there concerns that Baumann was causing other 25 miners to make MSHA complaints?</p>
<p style="text-align: right;">Page 155</p> <p>1 So, you know, if Jim -- Mr. Hoover's telling 2 me that, you know, Mr. Baumann doesn't know what 3 he's doing and he's not doing things right, Jim 4 being the senior guy there, I really got to look 5 to Jim to say, Okay. Well, this guy knows more 6 about it than the operations. Operations just has 7 the authority to terminate someone where, you 8 know, we have to take into consideration the 9 person that has longevity. So even though 10 Mr. Hoover was not in the management position. 11 So. . . .</p> <p>12 Q. I believe you had previously discussed that 13 Baumann was terminated on April 17th of 2023. 14 What was the -- what was the impetus to do it 15 then? Why, after all these months, why then?</p> <p>16 A. It was good -- it was -- like I said before, if we 17 look back on the number of citations and the -- 18 and the production schedule that we were getting 19 done, Mr. Baumann wasn't able to get things done 20 and we needed to fix the problem; otherwise, we're 21 going to keep running into these same issues with 22 MSHA, but also the company's going to fail because 23 we're not getting any production done.</p> <p>24 So it was always about production because 25 production's what makes money which is what makes</p>	<p style="text-align: right;">Page 157</p> <p>1 A. Was that a complaint of mine? Is that what 2 you're --</p> <p>3 Q. Was that a concern of yours?</p> <p>4 A. No. No. I just -- I come from an OSHA 5 background, like we talked about earlier. So, to 6 me, MSHA is supposed to be there to help us make 7 sure that everybody is doing things safely. So 8 I've always preached to our guys at the very 9 beginning who are dealing with certain MSHA 10 inspectors that MSHA's here to help us. You can 11 see it all in my chats. They're here to help us. 12 So there was never any concern that MSHA's back 13 again. No. MSHA's doing their job.</p> <p>14 So to have people complain about one of our 15 employees is the concern. The operations, not 16 getting product done, getting product out the door 17 wrong, so forth, we've got to fix the problem, and 18 that's -- he was the problem.</p> <p>19 Q. And were there any new issues with production in 20 April of 2023 that kind of led to you deciding to 21 fix the problem at that time?</p> <p>22 A. Well, like I said, it was accumulation. It's not 23 just a one-time event.</p> <p>24 Q. I guess I'm just trying to understand -- you know, 25 it seems like there was accumulation in March, and</p>

<p style="text-align: right;">Page 158</p> <p>1 maybe there would have been accumulation from what 2 you're saying in January. So what was different 3 about the accumulation in April versus any other 4 time? 5 A. Yeah, I mean, it's just timing. Everything built 6 up. Like I said, I don't have anything against, 7 you know, Mr. Baumann or Mr. Hoover or anybody 8 personally; it's just we've got to make sure that 9 operations is done. We've got to get product out 10 the door. The business had to make money, and if 11 you're not assisting in that, doing your job that 12 you were hired to do, we've got to terminate you. 13 It had nothing to do with MSHA. That's why I 14 don't understand the whole complaint of 15 discrimination, which we haven't really talked 16 about yet. 17 Q. I'm going to pull up a document, Exhibit 20, which 18 we -- oh. Exhibit 20, which we've looked at 19 before. Share that with you and I'll let you have 20 control over it, too, if you want to. 21 And I was going to ask specifically about 22 interrogatory number 5. I can scroll to that. 23 Okay. Interrogatory number 5 here says: Set 24 forth the reasons Robert Baumann was terminated, 25 who participated in the decision to terminate</p>	<p style="text-align: right;">Page 160</p> <p>1 to review those notes, I can't tell you what's 2 missing from the document. 3 Q. Well, I'm asking what notes would you -- are you 4 talking about? 5 A. Well, all the chats, all the notes that I've taken 6 off that -- my note pad, just everything that's 7 dealing with Mr. Baumann. 8 Q. So there are reasons other than the reasons that 9 you listed here in this interrogatory that Baumann 10 was terminated? Is that what you're saying? 11 A. Yeah. Just like it states, the principles for 12 termination. Mr. Baumann's termination was the 13 result of several factors, including but not 14 limited to. So we added the documentation that we 15 have here. If we're looking for more than what's 16 here, I would need to know the notes and to be 17 able to read through those and decipher the time 18 lines, the events, everything. 19 Q. Okay. And I guess what I'm asking is when you're 20 saying "notes," what are you referring to? Like a 21 specific document or are you referring to -- 22 A. No. No, I'm not stating a specific document. I'm 23 stating everything that deals with Mr. Baumann. 24 Q. Okay. So today you can't -- you can't give me any 25 more information about the reasons Baumann was</p>
<p style="text-align: right;">Page 159</p> <p>1 Robert Baumann, and the date such decision was 2 made. Do you see that? 3 A. Yes. 4 Q. Okay. And you listed here some information, and 5 then said principles for termination, and then had 6 some bullet points. Do you see that? 7 A. Mm-hmm. 8 Q. And then some more detail, looks like, as well. 9 A. Yes. 10 Q. Looking through this, does this include all of the 11 reasons that Baumann was terminated? 12 A. No. 13 Q. Okay. Could you let me know what's missing from 14 here as a reason of why Mr. Baumann was 15 terminated? 16 A. Without having -- I'm sorry. I didn't mean to 17 interrupt you, but without having all the 18 documentation behind it, I can't answer that 19 question. 20 Q. And what do you mean by that? 21 A. All of my notes, everything. 22 Q. What of your notes would help you answer the 23 question of what are the other reasons that 24 Baumann was terminated? 25 A. Again, without having those notes and being able</p>	<p style="text-align: right;">Page 161</p> <p>1 terminated other than what's listed in here? 2 A. Only reason is because you said I couldn't read my 3 notes. If I had everything, I could go into more 4 details but I don't have those details. 5 Q. Okay. So sitting right here, without any other 6 documents, you can't give me any other reasons why 7 Baumann was terminated than the ones listed here? 8 A. Yes. There were several factors, including but 9 not limited to what's listed in the document. 10 MS. O'REILLY: Okay. I'm going to stop 11 sharing. 12 I'm going to pull up another document which 13 I've marked as Exhibit 23. 14 (Exhibit No. 23 marked for identification.) 15 Q. (By Ms. O'Reilly) And then I will let you look at 16 this. Well, do you know what these documents are? 17 A. Looks like an email from me to Mr. Dillingham. 18 Q. And just to confirm for the record, your email 19 address is RTidaback@deedyco.com? 20 A. Yes. That's one of the many mailboxes I manage. 21 Q. And so if these emails -- if it's from that email 22 address, they're coming from you; is that correct? 23 A. Yes. 24 Q. Okay. And what is Deedyco? 25 A. Deedyco is another entity that we own.</p>

<p style="text-align: right;">Page 162</p> <p>1 Q. Okay.</p> <p>2 A. A professional employment organization.</p> <p>3 Q. I think earlier I'd asked some other companies</p> <p>4 that you owned and you didn't list this one. So</p> <p>5 are there any others other than Deedyco and</p> <p>6 Omphalos?</p> <p>7 A. Deedyco has nothing to do with Omphalos.</p> <p>8 Q. You, as a person, what other companies do you own?</p> <p>9 You own Deedyco and Omphalos. Are there others?</p> <p>10 A. Deedyco is really just a shell organization that</p> <p>11 we have our IT -- Microsoft 365 domain in. That's</p> <p>12 why they manage our mail.</p> <p>13 Q. Do you own any other companies?</p> <p>14 A. No.</p> <p>15 Q. And then are these true and accurate copies of</p> <p>16 emails that you've sent to either Michael</p> <p>17 Dillingham or whoever the person was that was</p> <p>18 listed in the "to" column?</p> <p>19 A. Yes, that appears to be correct.</p> <p>20 MS. O'REILLY: Okay. I'm going to stop</p> <p>21 sharing this document. I'm going to pull up</p> <p>22 a document which I've marked as Exhibit</p> <p>23 Number 24. I'll share my screen and give you</p> <p>24 control as well.</p> <p>25 (Exhibit No. 24 marked for identification.)</p>	<p style="text-align: right;">Page 164</p> <p>1 Is that common practice?</p> <p>2 A. Yeah. You know, we try to, because that way if</p> <p>3 they have questions or anything, they can ask.</p> <p>4 And they have -- they've all got my phone number</p> <p>5 so they can contact me directly, but we try to</p> <p>6 provide it so that it's open that they can</p> <p>7 communicate, talk to us, whatever the issues are.</p> <p>8 But obviously, if they're going to be terminated,</p> <p>9 it's not -- it's because they've been talked to</p> <p>10 before over and over and over and over. So. . . .</p> <p>11 Q. Okay. I'm going to stop sharing this document.</p> <p>12 How many employees does American Tripoli</p> <p>13 usually have?</p> <p>14 A. So typically we'll have operations, safety, then</p> <p>15 we have the shift lead, then we'll have either</p> <p>16 three or four mill associates, so let's just say</p> <p>17 four, and then one quarry person. So what's that,</p> <p>18 eight people? That's pretty much average. Eight?</p> <p>19 Q. Okay.</p> <p>20 A. Sorry.</p> <p>21 Q. And I think that you had mentioned earlier that</p> <p>22 you've had some issues with employee retention; is</p> <p>23 that correct?</p> <p>24 A. That is correct.</p> <p>25 Q. And what are those issues?</p>
<p style="text-align: right;">Page 163</p> <p>1 Q. (By Ms. O'Reilly) Do you know what this document</p> <p>2 is?</p> <p>3 A. Yeah. It appears to be Mr. Baumann's termination</p> <p>4 letter.</p> <p>5 Q. And who drafted this document?</p> <p>6 A. It's -- me.</p> <p>7 Q. And when was this written?</p> <p>8 A. It appears the 17th at 9:00 a.m. April 17th,</p> <p>9 2023, 9:00 a.m.</p> <p>10 Q. So 9:00 a.m. would be the time that this was</p> <p>11 drafted? Is that what your understanding of why</p> <p>12 the time is in there?</p> <p>13 A. Yeah, I would assume so.</p> <p>14 Q. And do you know if this letter was provided to</p> <p>15 Mr. Baumann?</p> <p>16 A. Yes. Mr. Spears, if I'm not mistaken, handed it</p> <p>17 to Mr. Baumann.</p> <p>18 Q. And did you instruct Mr. Spears to do that?</p> <p>19 A. Yes. That's normally how we do things. To assist</p> <p>20 Mr. Spears, I will type it up, send it to him, and</p> <p>21 then have him hand it to the person that's been</p> <p>22 terminated.</p> <p>23 Q. And then why did you create this letter?</p> <p>24 A. We were looking to terminate Mr. Baumann.</p> <p>25 Q. I guess, do you always do a termination letter?</p>	<p style="text-align: right;">Page 165</p> <p>1 A. Well, the rest of the United States is having the</p> <p>2 employment issues as well. One, finding qualified</p> <p>3 people that have any type of experience; two,</p> <p>4 people that are not job-hoppers that have held</p> <p>5 employment more than 30 days or 60 days, 90 days;</p> <p>6 and then based on experience. That's not even</p> <p>7 including any type of MSHA experience. Nobody --</p> <p>8 I don't think I've -- I think there was maybe one</p> <p>9 person that had MSHA experience that we've either</p> <p>10 hired or interviewed. I'm not sure.</p> <p>11 Q. And you mentioned about eight employees. Is that</p> <p>12 what you would consider being fully staffed?</p> <p>13 A. Yes. If we had the eight people, then we would be</p> <p>14 fully staffed.</p> <p>15 Q. And how often do you have the eight employees?</p> <p>16 A. I don't think we've had eight -- I don't think</p> <p>17 we've had eight people more than 30 days.</p> <p>18 Q. In a row?</p> <p>19 A. In a row.</p> <p>20 Q. Is that what you mean?</p> <p>21 A. Correct, in a row.</p> <p>22 Q. And does that affect things like production, like</p> <p>23 the ability to produce at the rates you want to</p> <p>24 produce at?</p> <p>25 A. Well, it just depends on the position, because if</p>

<p style="text-align: right;">Page 166</p> <p>1 the safety person's not there, that means John's</p> <p>2 got to pick up their tasking. If maintenance</p> <p>3 isn't there, John's got to take on that tasking.</p> <p>4 You know, the mill associates we've been</p> <p>5 fairly lucky with at -- which is one of the</p> <p>6 reasons why we don't understand not being able to</p> <p>7 get production out if we're able to run because if</p> <p>8 there's the three people there and the shift lead,</p> <p>9 that's four people to run the operations. And in</p> <p>10 the mill, you really only need two mill associates</p> <p>11 and the shift lead. So, yeah, that's -- that's</p> <p>12 been the problem.</p> <p>13 The third -- the third -- we consider the</p> <p>14 mill associates three minimum because two can do</p> <p>15 the job and one is the backup just in case takes</p> <p>16 lunch or, you know, is out sick or whatever. The</p> <p>17 fourth is just an extra backup backup that can</p> <p>18 assist maintenance. So that's the whole thing.</p> <p>19 Q. Okay. I'm going to show you Exhibit 20 again.</p> <p>20 I'll share my screen and I'll let you have</p> <p>21 control.</p> <p>22 I'm going to go specifically to page 10 of</p> <p>23 Exhibit 20, and this interrogatory number 6 says:</p> <p>24 Identify by name, job title, job duties, dates of</p> <p>25 employment, phone number, email address and home</p>	<p style="text-align: right;">Page 168</p> <p>1 reason that you had to go through 37 employees</p> <p>2 during his employment?</p> <p>3 A. Some of them, yes.</p> <p>4 Q. Which ones?</p> <p>5 A. Well, I have -- for example, I know Camrin Bindel.</p> <p>6 He didn't -- he did not talk highly of</p> <p>7 Mr. Baumann.</p> <p>8 Jeff? If I remember right, Jeff and Rob had</p> <p>9 issues. I think they actually got into a argument</p> <p>10 match.</p> <p>11 Juan Trujillo I don't remember.</p> <p>12 Christine obviously told us that she thought</p> <p>13 Rob needed to go a long time ago.</p> <p>14 Hold on. Let me back up. Maybe I'm</p> <p>15 mistaken. Camrin. Camrin? Was it Camrin? Okay.</p> <p>16 So Jubil -- I might be mistaking Jubil and Camrin,</p> <p>17 but one of them -- I don't remember too much about</p> <p>18 Jubil, but he would have complained about Rob.</p> <p>19 Bonnie? Bonnie Bainter, she complained about</p> <p>20 Rob. She had leadership experience. She had</p> <p>21 management experience in safety in Dallas, and</p> <p>22 she -- if I remember correctly, she even counseled</p> <p>23 Rob verbally, you know, trying to help him out.</p> <p>24 I'm trying to help him. And he just -- it didn't</p> <p>25 take.</p>
<p style="text-align: right;">Page 167</p> <p>1 address each individual employed by Respondent at</p> <p>2 MOSenecaManufacturer LLC, d/b/a American Tripoli</p> <p>3 Mine from June 1, 2022, through April 17th, 2023,</p> <p>4 and then you provided a list of employees. I'm</p> <p>5 just kind of scrolling through them now just --</p> <p>6 and it looks like there would have been --</p> <p>7 A. Crazy.</p> <p>8 Q. -- 37 employees in that time period? Does that</p> <p>9 sound right?</p> <p>10 A. Pretty close, yeah.</p> <p>11 Q. Okay. Is that pretty common to go through that</p> <p>12 many employees in that time period?</p> <p>13 A. Lord, I hope not.</p> <p>14 Q. Has it been your experience -- has that been</p> <p>15 common with American Tripoli?</p> <p>16 A. No, not actually.</p> <p>17 Q. Okay.</p> <p>18 A. That's -- that's kind of why we relate it back to,</p> <p>19 Is it some of Rob? Some of -- is this turnover</p> <p>20 because of Mr. Baumann? You know, that's --</p> <p>21 that's part of the troubleshooting and trying to</p> <p>22 figure out. Got to fix the problem and I think we</p> <p>23 have fixed the problem by terminating Mr. Baumann.</p> <p>24 One of the problems.</p> <p>25 Q. So your concern that Baumann may have been the</p>	<p style="text-align: right;">Page 169</p> <p>1 Let's see here. I don't remember Josh Bird.</p> <p>2 Let me see here. Carson? No, I don't remember</p> <p>3 Carson.</p> <p>4 Landry was another one. He was a tall --</p> <p>5 very tall guy. He didn't really care for</p> <p>6 Mr. Baumann either. Didn't say good things about</p> <p>7 him, should I say.</p> <p>8 Q. I guess what I'm asking is, you said maybe Baumann</p> <p>9 was the reason that you went through so many</p> <p>10 employees. So are you trying to say that any of</p> <p>11 these employees who complained about him might</p> <p>12 have --</p> <p>13 A. Yes.</p> <p>14 Q. -- quit or been terminated because of Baumann?</p> <p>15 A. Yes.</p> <p>16 Q. Okay. And what is the basis for that?</p> <p>17 A. Based on their conversations, because we didn't --</p> <p>18 Q. Did any of these people tell you they quit because</p> <p>19 of Baumann?</p> <p>20 A. Did they say that they quit because of Baumann?</p> <p>21 Not -- not directly, no.</p> <p>22 Let's see here. Because there's -- there's</p> <p>23 other guys in here that talked to me specifically</p> <p>24 about -- Gage Wheeler's another one. You know, he</p> <p>25 did not -- he did not like Baumann.</p>

<p style="text-align: right;">Page 170</p> <p>1 Q. What was Wheeler's problem with Baumann?</p> <p>2 A. He was a maintenance guy and he said that Baumann</p> <p>3 was lazy. He would not help with maintenance.</p> <p>4 Ron -- Ronnell Fondren. If I'm not mistaken,</p> <p>5 Ronnell Fondren said that Rob was racist because</p> <p>6 of what he was tasking Ronnell to do instead of</p> <p>7 sharing the workload with all the other mill</p> <p>8 associates. So Ronnell -- if you want to talk</p> <p>9 with someone that would -- probably going to talk</p> <p>10 bad about Rob, it would probably be Ronnell.</p> <p>11 Yeah, I don't remember any of those guys.</p> <p>12 Yeah.</p> <p>13 Q. I'm going to kind of back up a little bit and go</p> <p>14 back through some of these just to get some -- a</p> <p>15 little more information about these.</p> <p>16 So starting with Frank Duran, it looks like</p> <p>17 he was actually terminated or quit before Baumann</p> <p>18 started; is that correct?</p> <p>19 A. Mm-hmm.</p> <p>20 Q. Okay. And why did he leave, do you know?</p> <p>21 A. It was actually a conflict of him telling the mill</p> <p>22 associates that he was going to do it his way</p> <p>23 rather than the company's way, and of course we</p> <p>24 can't have that. We've got to be safe in what</p> <p>25 we're doing.</p>	<p style="text-align: right;">Page 172</p> <p>1 Neosho, which was the town he was from if I</p> <p>2 remember. Yeah. Neosho.</p> <p>3 Roger Chester --</p> <p>4 Q. Sorry. I was going to have a question.</p> <p>5 A. Yeah.</p> <p>6 Q. Did you have any issues with Jeff Willis while he</p> <p>7 was employed?</p> <p>8 A. Did I have any issues with Mr. Willis. I don't</p> <p>9 say we had any issues. You know, he had a</p> <p>10 different opinion on things and nothing -- nothing</p> <p>11 negative. I would hire him back if that was ever</p> <p>12 the case, yeah.</p> <p>13 Q. So you didn't have any major concerns about his</p> <p>14 work performance?</p> <p>15 A. No.</p> <p>16 Q. Okay.</p> <p>17 A. No. I mean, there were certain things, I mean,</p> <p>18 but nothing -- yeah.</p> <p>19 Q. Okay. Roger Chester. Do you know why he left?</p> <p>20 A. Yep. He had 30-plus years there and he was</p> <p>21 looking to retire and he went and found another</p> <p>22 job.</p> <p>23 Q. Okay. And did you have any issues with his work</p> <p>24 performance while he was there?</p> <p>25 A. No. No. I think Roger was just -- I mean, he'd</p>
<p style="text-align: right;">Page 171</p> <p>1 Q. So did you terminate him?</p> <p>2 A. Oh, yes.</p> <p>3 Q. Okay. And then Camrin Bindel. Why did Camrin</p> <p>4 leave?</p> <p>5 A. Yeah, I don't -- I don't remember. I'd have to go</p> <p>6 back and look because I'm trying -- I'm getting --</p> <p>7 I think I'm getting Camrin and Jubil Clark mixed</p> <p>8 together. Oh, no, no, no. Hold on. Camrin, if I</p> <p>9 remember correctly -- if I remember correctly,</p> <p>10 Camrin stabbed Jubil in the leg with a needle --</p> <p>11 pair of needle nose pliers in the bathroom, if I</p> <p>12 remember that correctly.</p> <p>13 Q. Okay.</p> <p>14 A. Now, I don't remember if it broke skin or not</p> <p>15 because Bonnie -- Bonnie was there and Bonnie</p> <p>16 handled all that. So I don't really remember --</p> <p>17 Bonnie and Christine.</p> <p>18 Q. Okay.</p> <p>19 A. And so that's -- if I remember that correctly,</p> <p>20 Camrin was terminated because he attacked another</p> <p>21 employee.</p> <p>22 Q. Yeah. Okay.</p> <p>23 A. Yeah. So -- Jeff.</p> <p>24 Q. And then Jeff -- yeah.</p> <p>25 A. Jeff Willis, he quit. He found another job in</p>	<p style="text-align: right;">Page 173</p> <p>1 been there so long and set in his ways. You know,</p> <p>2 he didn't like getting approvals for purchases and</p> <p>3 stuff like that. That would be the only thing he</p> <p>4 ever complained to me about. Yeah, he did his</p> <p>5 job. I wish he was still there but. . . .</p> <p>6 Q. Who approves purchases at American Tripoli?</p> <p>7 A. That would be the operations manager, and based</p> <p>8 on -- dependent on the amount. They have -- John</p> <p>9 has a credit card. I think -- I don't think Josh</p> <p>10 has one, but John's got a credit card to purchase</p> <p>11 things.</p> <p>12 Q. Up to what level can John purchase things?</p> <p>13 A. I don't know. I'd have to check on the limit that</p> <p>14 he has.</p> <p>15 Q. Is there a certain amount that you would expect</p> <p>16 him to consult with you first?</p> <p>17 A. No. I mean, we talk about everything anyhow so</p> <p>18 it's not -- it's not a certain amount, no.</p> <p>19 Q. And then Juan Trujillo. Do you know why he left?</p> <p>20 A. I think, if I remember correctly, he found other</p> <p>21 employment because he was looking for something</p> <p>22 during the day and at the time we had him at</p> <p>23 night.</p> <p>24 Q. Okay.</p> <p>25 A. If I --</p>

<p style="text-align: right;">Page 174</p> <p>1 Q. Did you have any concerns about -- did you have</p> <p>2 any concerns with his work performance?</p> <p>3 A. No.</p> <p>4 Q. And then Christine Schreiber. Why did she leave?</p> <p>5 A. If I remember right, she was going through</p> <p>6 relationship issues and moving closer to her</p> <p>7 family in Arkansas, if I remember correctly.</p> <p>8 Q. And did you have any concerns with her work</p> <p>9 performance while she was there?</p> <p>10 A. Yes and no. You know, she didn't have -- just</p> <p>11 like we talked about before, she didn't have</p> <p>12 manufacturing experience and leading a team of</p> <p>13 men, as she said. I remember her saying that, but</p> <p>14 yeah. She was just moving on. Wasn't</p> <p>15 anything. . . .</p> <p>16 Q. And then I think we talked at Jubil Clark. Do you</p> <p>17 recall why Jubil left the company?</p> <p>18 A. Yeah, I don't -- I don't remember Jubil Clark.</p> <p>19 Q. And then Cheri Blount. It looks like</p> <p>20 administrative assistant. Would she have been</p> <p>21 a -- is that a direct employee of American</p> <p>22 Tripoli, an administrative assistant?</p> <p>23 A. Yeah. We don't have that role anymore. She found</p> <p>24 a job closer to her home so she wanted to stay</p> <p>25 home. Yeah. She quit, basically.</p>	<p style="text-align: right;">Page 176</p> <p>1 that job and you train someone that can replace</p> <p>2 you, then we can move you to be a quarry manager.</p> <p>3 But right now, we need you to do your job. So</p> <p>4 that was the reason why she quit. She got mad</p> <p>5 because we wouldn't move her to the quarry</p> <p>6 manager.</p> <p>7 Q. Did you have concerns with her work performance in</p> <p>8 the role she had?</p> <p>9 A. No, I think she was a good employee. I think</p> <p>10 her -- just got to her.</p> <p>11 Q. And then Angela Shafer?</p> <p>12 A. Yes. She had --</p> <p>13 Q. Looks like production.</p> <p>14 A. Yes, ma'am. She was our shipping coordinator.</p> <p>15 She had personnel issues. She was -- her and</p> <p>16 Jessie Hodge, if I remember correctly, they were</p> <p>17 married but I don't think they changed names. But</p> <p>18 anyhow, they were taking care of an elderly</p> <p>19 neighbor and that elderly neighbor was needing</p> <p>20 home care and Angela was just in that -- you know,</p> <p>21 the -- what's it called? The probationary period.</p> <p>22 And we needed her to come in to learn the system</p> <p>23 and she couldn't.</p> <p>24 So she basically, I can't come in. You know,</p> <p>25 You're going to have to let me work from home.</p>
<p style="text-align: right;">Page 175</p> <p>1 Q. And what -- you don't have that role anymore.</p> <p>2 Does somebody else do those kind of job duties of</p> <p>3 an administrative assistant? What's the reason</p> <p>4 for not having that?</p> <p>5 A. Yeah, if John needed an assistant--we've offered</p> <p>6 that before--and he said it's -- not yet. John's</p> <p>7 very -- to me, John's very smart as far as</p> <p>8 operation's concerned and trying to keep</p> <p>9 production moving and costs down. He's a very --</p> <p>10 very intelligent guy.</p> <p>11 Q. Okay. And then Bonnie Bainter.</p> <p>12 A. Yeah.</p> <p>13 Q. Why did she leave?</p> <p>14 A. Bonnie Bainter. That's a great story. Bonnie,</p> <p>15 she quit because she wanted to be the quarry</p> <p>16 manager. Basically she wanted to replace Roger</p> <p>17 Chester. But, again, as we explained to her, we</p> <p>18 hired her and we need her in the safety role</p> <p>19 rather than being a quarry manager because she's</p> <p>20 never worked in a quarry. She doesn't know how to</p> <p>21 operate heavy equipment. She had taken the CDL</p> <p>22 test and she failed it, which we paid for, but</p> <p>23 that was -- that was her thing.</p> <p>24 We kept telling her: Just stay in the job</p> <p>25 that we hired you to do, and then as you learn</p>	<p style="text-align: right;">Page 177</p> <p>1 Well, we need you here for the training part.</p> <p>2 We need you to hear to understand all the</p> <p>3 questions and how to do things and see what's</p> <p>4 right before we just let you work from home. So</p> <p>5 she basically said, Well, if I can't work from</p> <p>6 home, I'm going to have to quit. So it was kind a</p> <p>7 mutual thing.</p> <p>8 Q. And do you currently have the role of a production</p> <p>9 shipping coordinator?</p> <p>10 A. We have a contractor do that, yes. It's</p> <p>11 outsourced.</p> <p>12 Q. Okay. And then Joshua Bird. Do you know why he</p> <p>13 left?</p> <p>14 A. I don't really remember Joshua Bird.</p> <p>15 Q. Okay. William Shallenburger. Do you recall why</p> <p>16 he left?</p> <p>17 A. No, I don't remember Shallenburger.</p> <p>18 Q. And Jessie Hodge. Do you recall why he left?</p> <p>19 A. He was maintenance. He -- yeah. He was Angela's</p> <p>20 husband and he was spending more time dealing with</p> <p>21 that neighbor than he was coming to work.</p> <p>22 Q. So was he terminated?</p> <p>23 A. I don't know if he was terminated or if he quit.</p> <p>24 I'd have to look back at the documents. I know he</p> <p>25 had issues with Carson and Terry Newburn, too. So</p>

<p style="text-align: right;">Page 178</p> <p>1 I think it was kind of a mutual thing. I don't</p> <p>2 know if he was terminated or not.</p> <p>3 Q. Did you have concerns with his work performance</p> <p>4 other than, like, not being around as much as he</p> <p>5 should be?</p> <p>6 A. I mean, he portrayed that he knew more than what</p> <p>7 he knew being a safety -- or being a maintenance</p> <p>8 lead, but he was just slow as far as maintenance.</p> <p>9 I think he was used to shadetree mechanic</p> <p>10 maintenance rather than a production line</p> <p>11 maintenance, easiest way to say it.</p> <p>12 Q. And then Carson Allman. Do you recall why he</p> <p>13 left?</p> <p>14 A. Carson and Terry Newburn are -- Carson is Terry's</p> <p>15 sister, if I remember correctly, husband. So</p> <p>16 Carson was Terry's sister's husband. They were</p> <p>17 both let go because they were doing things wrong,</p> <p>18 for example, taking off machine parts and this and</p> <p>19 that during production and then leaving without</p> <p>20 telling anybody. And they did it numerous times</p> <p>21 and, you know, can't -- can't do that in a</p> <p>22 production world.</p> <p>23 They were verbally and not necessarily</p> <p>24 physically -- I don't think either one of them</p> <p>25 were that big of guys -- but verbally abusive and</p>	<p style="text-align: right;">Page 180</p> <p>1 little bit about what's going on with these people</p> <p>2 and their job performance. Is that usually based</p> <p>3 on what other people are telling you, or just</p> <p>4 generally how do you know?</p> <p>5 A. Yeah, it would be through either the chat groups</p> <p>6 or through their direct messaging or them calling</p> <p>7 me directly.</p> <p>8 Q. Okay.</p> <p>9 A. That's what I mean. It's over time; it's not just</p> <p>10 all at once.</p> <p>11 Q. And then Landry Barnes. Do you recall why he</p> <p>12 left?</p> <p>13 A. Yeah. He got a job on the oil rigs, if I remember</p> <p>14 correctly, but I know he was moving south. That's</p> <p>15 all I know. No issues with him.</p> <p>16 Q. And Terry Barlow. Do you know why he left?</p> <p>17 A. I don't really remember Terry Barlow. Yeah, like</p> <p>18 I said, he's --</p> <p>19 Q. Looks like he was only there five days, so --</p> <p>20 okay.</p> <p>21 Richard McClelland. Do you remember why he</p> <p>22 left?</p> <p>23 A. He stopped showing up. He attended the MSHA</p> <p>24 training and then -- yeah, if you look at it,</p> <p>25 November 14th --</p>
<p style="text-align: right;">Page 179</p> <p>1 disrespectful to John, probably also Mr. Baumann,</p> <p>2 if I remember correctly. I think Terry and</p> <p>3 Mr. Baumann got in a argument, from what I</p> <p>4 understand, but they were both terminated. Same</p> <p>5 date, same argument.</p> <p>6 Q. How did you know about the issues with them? Is</p> <p>7 that something someone's reporting back to you?</p> <p>8 A. That could have been through a phone call. I</p> <p>9 don't really remember how I got the information</p> <p>10 but. . .</p> <p>11 Q. Is a lot of your information about employees' work</p> <p>12 performance coming from John Spears or is it</p> <p>13 coming from anyone in particular?</p> <p>14 A. Well, some of it would have been through</p> <p>15 Christine, some through John Spears, some through</p> <p>16 Jim Hoover, some through Mr. Baumann, some</p> <p>17 directly from -- like R.J. Williams. You know, he</p> <p>18 talked to me a few times. Especially when I was</p> <p>19 there. Landry Barnes is another one. He talked</p> <p>20 to me. You know, Jessie Hodge was another one</p> <p>21 that talked to me. You know, that's -- just</p> <p>22 different guys just talking openly, especially</p> <p>23 when I was there.</p> <p>24 Q. Mm-hmm. So when -- since you aren't there every</p> <p>25 day, you seem to have -- you know, know what -- a</p>	<p style="text-align: right;">Page 181</p> <p>1 Q. I see that.</p> <p>2 A. -- basically two days. He didn't show up. Yeah.</p> <p>3 Q. And then Blake Leaf. Do you remember why he left?</p> <p>4 A. No, I don't remember Blake Leaf.</p> <p>5 Q. Justin Campbell?</p> <p>6 A. Yeah, doesn't ring a bell either.</p> <p>7 Q. Okay. Sarah Giberti. Do you remember why she</p> <p>8 left?</p> <p>9 A. Yep. Yep. She was a -- what is it called? An</p> <p>10 attorney has a person that works for them? A</p> <p>11 research --</p> <p>12 Q. Paralegal?</p> <p>13 A. Paralegal. Thank you. Yeah. That's what she was</p> <p>14 doing, she wanted to do. She was going to school</p> <p>15 for it, she finished schooling, and then she got a</p> <p>16 job as a paralegal.</p> <p>17 Q. And then Bryceton Williams?</p> <p>18 A. Bryceton Williams. Yeah, I don't --</p> <p>19 Q. What about Benjamin Waters? Do you recall why he</p> <p>20 left?</p> <p>21 A. Yeah. Benjamin. Yes. Okay. So Ben is one that</p> <p>22 I counseled individually about promotion because</p> <p>23 he wanted to get promoted. He wanted to become a</p> <p>24 safety or maintenance person, I don't remember</p> <p>25 which one it was, but he needed more money. That</p>

<p style="text-align: right;">Page 182</p> <p>1 was basically it. And, you know, he -- we talked</p> <p>2 to him about, you know, this is how you're going</p> <p>3 to get promoted. This is what you got to do. And</p> <p>4 he just wasn't wanting to do it, so he said he was</p> <p>5 just going to find another job. I think -- I</p> <p>6 thought I provided you guys with his last message</p> <p>7 to us. Yeah --</p> <p>8 Q. I may have that.</p> <p>9 Okay. Dakota Fellers. Do you remember --</p> <p>10 doesn't look like --</p> <p>11 A. No.</p> <p>12 Q. -- that person was there very long.</p> <p>13 A. Another person that showed up for the MSHA</p> <p>14 training to get paid and never showed up.</p> <p>15 Q. Kensley Brewer. Do you recall why she left?</p> <p>16 A. She was only there a short period of time and I</p> <p>17 think she lived in -- yeah, she lived in Joplin</p> <p>18 and I think that was too far for her and she</p> <p>19 didn't like her hours.</p> <p>20 Q. Okay. Did you have any concerns with her work</p> <p>21 performance?</p> <p>22 A. Not that I know of.</p> <p>23 Q. And what's production coordinator? What sort</p> <p>24 of -- what is that job title?</p> <p>25 A. So back to the whole thing of making sure that the</p>	<p style="text-align: right;">Page 184</p> <p>1 they get the product in-house to make sure what we</p> <p>2 say we're giving them is what they're getting.</p> <p>3 So we've had that issue where CILAS reports</p> <p>4 weren't being done per the production, and then</p> <p>5 the quality control behind that to make sure what</p> <p>6 is in the bag is what the CILAS report says and</p> <p>7 what is on the shipping documents is what is in</p> <p>8 the pallet and this, that and everything else.</p> <p>9 That's why we were struggling with Rob, so we had</p> <p>10 to hire Kensley. Okay, let's see if we can fix</p> <p>11 this to where we're taking some of that off of Rob</p> <p>12 because he's not doing very well.</p> <p>13 That's what I'm saying. We were trying</p> <p>14 everything we could to help him understand,</p> <p>15 there's not -- you're -- there's more to being a</p> <p>16 leader rather than just showing up. That's an</p> <p>17 employee, just showing up and doing what you're</p> <p>18 told. That's not a leader. So that's why that</p> <p>19 position was hired.</p> <p>20 And Rob --</p> <p>21 Q. Have you had that position at other times?</p> <p>22 A. Yes. John is actually doing that now. So he's</p> <p>23 picking up on all those other things. Yeah.</p> <p>24 Q. And do you know why Andrew Wasson left?</p> <p>25 A. Andrew Wasson was arrested for stealing diesel</p>
<p style="text-align: right;">Page 183</p> <p>1 production is done correctly. So when they do</p> <p>2 production, okay, they -- the shift lead looks at</p> <p>3 the production schedule, puts it on the board,</p> <p>4 lets everybody know what they're doing.</p> <p>5 They go get all the pallets, all the slip</p> <p>6 sheets, all the bags, the stretch wrap that's</p> <p>7 going to be done. Then, when the order's done,</p> <p>8 the shift lead asks the operations to bring over</p> <p>9 the labels and the shipping documents so that it</p> <p>10 can get, you know, labeled and get wrapped. Each</p> <p>11 bag gets a label so the customer, when they</p> <p>12 receive it, they know what's in that.</p> <p>13 During that process, we run what's called a</p> <p>14 particulate analysis report. It's a CILAS report.</p> <p>15 The shift lead, part of that job description, they</p> <p>16 have to go into the maintenance room where the</p> <p>17 CILAS machine is and run a CILAS report. The</p> <p>18 CILAS machine analyzes all the minerals and</p> <p>19 everything that's in that product, and then we</p> <p>20 generate a report and give it to the customer.</p> <p>21 So Rob, struggling at his role, we needed to</p> <p>22 make sure that the customer got the appropriate</p> <p>23 CILAS report, not just some report that they made</p> <p>24 up, because certain customers, like 3M, for</p> <p>25 example, they will run their CILAS report when</p>	<p style="text-align: right;">Page 185</p> <p>1 fuel from us. He broke into the gas tank at the</p> <p>2 quarry and broke into our garage across the street</p> <p>3 from the admin building and stole diesel and DEF</p> <p>4 fluid and gas tanks and all kinds of stuff.</p> <p>5 Q. And then do you know why Gage Wheeler left?</p> <p>6 A. Gage Wheeler. If I remember correctly, Gage</p> <p>7 Wheeler had gotten other employment back in</p> <p>8 Arkansas where he was originally from.</p> <p>9 Q. Did you have any concerns with his work</p> <p>10 performance while he was there?</p> <p>11 A. I didn't personally, the few times that I talked</p> <p>12 to him, but the guys there did. For example,</p> <p>13 Mr. Hoover said he was lazy. He sits in the</p> <p>14 maintenance room rather than trying to be</p> <p>15 proactive and keep the system flowing, stuff like</p> <p>16 that.</p> <p>17 Alex --</p> <p>18 Q. Why did --</p> <p>19 A. -- Snodgrass?</p> <p>20 Q. Yes.</p> <p>21 A. Alex Snodgrass, he got a job in a hospital. He</p> <p>22 was a X-ray technician, if I remember correctly,</p> <p>23 and he was looking for a job, was going to move to</p> <p>24 Joplin, from what I understand, got an Arkansas</p> <p>25 job at a hospital. He moved back to Arkansas.</p>

<p style="text-align: right;">Page 186</p> <p>1 Q. Why did Ronnell Fondren leave the company?</p> <p>2 A. If I remember correctly, Mr. Fondren, I believe he</p> <p>3 was terminated. I don't remember why, but I think</p> <p>4 that he was terminated.</p> <p>5 Q. Okay.</p> <p>6 A. Yeah. And Mr. Moles, he moved.</p> <p>7 And then Mr. Talbert, he was terminated for</p> <p>8 performance and attendance.</p> <p>9 Q. And then, I guess, back up to Fondren.</p> <p>10 A. Yeah.</p> <p>11 Q. You had mentioned that you believe that he was</p> <p>12 terminated. It looks like he was terminated a</p> <p>13 couple days after Baumann. Was that at all</p> <p>14 related to Baumann's termination?</p> <p>15 A. I don't think so. Had nothing to do -- I don't</p> <p>16 think they were related at all. Yeah.</p> <p>17 Q. Okay. And then Patrick Lewis. Do you recall why</p> <p>18 he left the company?</p> <p>19 A. He -- I do believe he got another job. I'm not</p> <p>20 sure where.</p> <p>21 Q. Okay.</p> <p>22 A. Yeah. But he turned in his termination letter, I</p> <p>23 think.</p> <p>24 Q. And then Ryan Closser. Do you recall why he left</p> <p>25 the company?</p>	<p style="text-align: right;">Page 188</p> <p>1 represent that I combined the termination letters</p> <p>2 you sent me into just this one document for</p> <p>3 purposes of this exhibit just to make it easier,</p> <p>4 but if you want to run through that and make sure</p> <p>5 that that looks accurate.</p> <p>6 A. That's fine. I understand.</p> <p>7 Q. Okay. And so do you know what these documents</p> <p>8 are?</p> <p>9 A. Just like you said, the termination letters for</p> <p>10 individuals.</p> <p>11 Q. And, in response to discovery, you compiled -- you</p> <p>12 gathered the terminations letters and provided</p> <p>13 those to us; is that correct?</p> <p>14 A. Gathered them and sent them to you.</p> <p>15 Q. Okay.</p> <p>16 A. Yes.</p> <p>17 Q. And if you want to scroll through them just to</p> <p>18 make sure you've seen them all, and after you've</p> <p>19 done that, if you could let me know if these are</p> <p>20 true and accurate copies of the termination</p> <p>21 letters that you provided during discovery.</p> <p>22 A. Yep. They appear to be so, yes.</p> <p>23 Q. Okay. And when you went in to gather termination</p> <p>24 letters, is that something that you keep in, like,</p> <p>25 an employee's personnel file or where do you kind</p>
<p style="text-align: right;">Page 187</p> <p>1 A. Yes. Mr. Closser had personal issues. He -- his</p> <p>2 wife, I do believe, would not let him use the car</p> <p>3 to get to work.</p> <p>4 Q. And then Raneldon Williams. Is he still an</p> <p>5 employee of American Tripoli?</p> <p>6 A. No. Yeah, he -- he got another job. I'm not sure</p> <p>7 where but he got another job. Yeah, he turned in</p> <p>8 a termination, too.</p> <p>9 Q. Maybe not that long ago because it looks like this</p> <p>10 time is to present. Was it not that long ago?</p> <p>11 A. Yeah, I'd have to look at the notes. Yeah. It</p> <p>12 was after that --</p> <p>13 Q. And then I presume John Spears is still employed,</p> <p>14 correct?</p> <p>15 A. Correct. Mm-hmm.</p> <p>16 MS. O'REILLY: Okay. I'm going to stop</p> <p>17 sharing this document.</p> <p>18 I'm going to share with you a document that</p> <p>19 I've marked as Exhibit 25.</p> <p>20 (Exhibit No. 25 marked for identification.)</p> <p>21 BY MS. O'REILLY:</p> <p>22 Q. I'll put that up. Okay. And I'm going to -- let</p> <p>23 me -- if it lets me. Here we go. I'm going to</p> <p>24 let you see this document. And this is the</p> <p>25 document I've marked as Exhibit 25, and I'll</p>	<p style="text-align: right;">Page 189</p> <p>1 of keep these?</p> <p>2 A. Yeah, we have a HR channel, I guess you could say,</p> <p>3 in Teams that holds private files on each</p> <p>4 individual.</p> <p>5 Q. Okay.</p> <p>6 A. The only person that has access to them is myself,</p> <p>7 Jordan and John.</p> <p>8 Q. Okay. And do these -- what's kind of the purpose</p> <p>9 of these termination letters, I guess?</p> <p>10 A. Well, one, so that the individual knows that</p> <p>11 they're being terminated, but if they have any</p> <p>12 questions that they can ask. Just a notice.</p> <p>13 Q. And does it list out -- does it always list out</p> <p>14 the reasons, the specific reasons, why the</p> <p>15 employee was terminated?</p> <p>16 A. Not necessarily they have to, and dealing with</p> <p>17 Missouri Department of Labor, we don't have to.</p> <p>18 It's a right to work state so we don't have to</p> <p>19 give a reason, according to the Missouri</p> <p>20 Department of Labor. We try to. We try to.</p> <p>21 Q. Okay. And then I'm just going to kind of scroll</p> <p>22 down to -- let me see. So on page 2 there's a</p> <p>23 letter to Carson Allman.</p> <p>24 A. Yes.</p> <p>25 Q. And then on page 3 there's one to Jessie Hodge;</p>

<p style="text-align: right;">Page 190</p> <p>1 and then page 4 there's one to Terry Newburn;  2 page 5, there's one to Ryan Closser; and on 6  3 there's one to Jim Hoover. These all kind of look  4 similar. They all list the one, two, three. They  5 seem to list the same things. Is this kind of  6 like a form that you use for these termination  7 letters?  8 A. Not necessarily. It's not one that's saved or  9 anything.  10 Q. So you tailor these to the --  11 A. Try to.  12 Q. -- employee that you're terminating?  13 A. Yeah. We try to.  14 Q. And who prepares these?  15 A. It would either be John or myself. Like I said, I  16 try to provide backup to John when he's busy on  17 something.  18 Q. Okay. And it lists, like, I guess -- you're on  19 page 6 right now. It lists John Spears. Does  20 that mean that he's the one that prepared the  21 letter, on the signature block?  22 A. Yes and no. I put -- I wouldn't say that for sure  23 because if it's typed up it's and sitting in, you  24 know, in the folder and then he goes back into it  25 and edits it and changes the name on top.</p>	<p style="text-align: right;">Page 192</p> <p>1 A. Yes, I recognize it.  2 Q. Okay. And are you the one who compiled the  3 documents of disciplinary records in response to  4 discovery?  5 A. Yes.  6 Q. And do those come from the same personnel files  7 that we were just talking about?  8 A. Yes.  9 Q. And would you say that these are a true and  10 accurate copy of the disciplinary records you  11 provided to us in response to discovery?  12 A. I can only see this one page, so --  13 Q. Oh, did I not give you control? I'll give you  14 control. I'm sorry.  15 Here we go. I'll give you control so you can  16 scroll through it. I apologize.  17 A. Yeah. Just so you have a better understanding,  18 like we were continuing on in the conversation  19 about the who -- who does what. Just like on this  20 one here for -- is this R.J. Williams? Yeah, you  21 can see that John just -- John was probably in a  22 hurry, took this page, printed it, and then filled  23 in with ink for the rest. So that would be  24 specifically for John.  25 Q. Okay.</p>
<p style="text-align: right;">Page 191</p> <p>1 Q. Okay. So just because John Spears' name might be  2 in the signature block doesn't necessarily mean  3 he's the one that wrote the letter?  4 A. Not necessarily, no.  5 Q. Okay. All right.  6 A. Because the termination letter template is -- you  7 know, the letterhead is sitting in that folder.  8 So if he was to type in, for example, like you  9 said, page 6 for Mr. Hoover, he would save it as  10 Mr. Hoover, type in the information he needed and  11 go from there.  12 MS. O'REILLY: Okay. Okay. I'm going  13 to stop sharing this.  14 I'm going to show you what I've marked as  15 Exhibit 26.  16 (Exhibit No. 26 marked for identification.)  17 Q. (By Ms. O'Reilly) I'll let you have control over  18 this. And I'll say Exhibit 26, I kind of did the  19 same thing as I did with Exhibit 25. You gave us  20 some disciplinary records, some kind of individual  21 file that I kind of just put them all together in  22 this exhibit just to make it a little easier to go  23 through them. But if you want to take a look and  24 let me know if you kind of recognize this document  25 and know what this is.</p>	<p style="text-align: right;">Page 193</p> <p>1 A. Yeah. So, yes, I agree that these are all the --  2 Q. Okay. And with regard to these written  3 disciplinary records, if -- like, let me see. For  4 example, on I guess page 3 where it says it was  5 signed by Christine Schreiber, does that mean that  6 she was the one who would have disciplined the  7 employee?  8 A. She is the operations manager, so yes.  9 Q. Okay. And when, like, a written discipline is  10 given to an employee, is that something that they  11 would need to go through you to do, or could they  12 do that without consulting you?  13 A. Yeah, they did that on their own.  14 Q. Okay.  15 A. Yeah.  16 Q. Okay.  17 A. Normally we were trying to --  18 Q. Okay.  19 A. -- in and assist with them, both Christine and  20 same with John. Even John -- John's got years of  21 experience of managing people but we still  22 provide, you know, the assistance, the wording or  23 the formatting or whatever they may need.  24 Q. Okay. And then, for example, on page 5 it looks  25 like there's one to Carson Allman, and it's not</p>

<p style="text-align: right;">Page 194</p> <p>1 signed by John and it's not signed by Carson. Do</p> <p>2 you know if this one was actually given to him?</p> <p>3 A. I -- yeah, normally if I tell them and if they</p> <p>4 refuse to sign, just like the one above, they</p> <p>5 refused to sign.</p> <p>6 Q. Okay.</p> <p>7 A. Why this one wasn't, I -- I don't know. It could</p> <p>8 have been because they were busy.</p> <p>9 Q. Okay. I'm going to stop sharing this document.</p> <p>10 Were you aware that Rob Baumann was named a</p> <p>11 miners representative at the mine in March of</p> <p>12 2023?</p> <p>13 A. No. First I heard of anything about Mr. Baumann</p> <p>14 even remotely being involved was the receipt of</p> <p>15 the complaint.</p> <p>16 Q. And do you know what a miners representative is?</p> <p>17 A. Yes.</p> <p>18 Q. And what's your understanding of what that is?</p> <p>19 A. It's a individual that is elected or appointed to</p> <p>20 a position to be the representative for the miners</p> <p>21 at that mine site.</p> <p>22 Q. And has American Tripoli, to your knowledge, ever</p> <p>23 had one of those?</p> <p>24 A. Yes. Yeah.</p> <p>25 Q. Who?</p>	<p style="text-align: right;">Page 196</p> <p>1 representative.</p> <p>2 Q. And how did you know that those two individuals</p> <p>3 you just said were miners representatives?</p> <p>4 A. Right. So on the notices that we get, it -- I --</p> <p>5 if I remember correctly, it states that they are</p> <p>6 the miners representative, and Mr. Drake, Max</p> <p>7 Drake, would bring in a copy of the one that he</p> <p>8 received in the mail and he would say, you know,</p> <p>9 Here you go, and give it to John, and John would</p> <p>10 scan it in. So that's how we knew.</p> <p>11 MS. O'REILLY: Okay. I'm going to show</p> <p>12 you a document which I've marked as</p> <p>13 Exhibit 31. I'll share that with you.</p> <p>14 (Exhibit No. 31 marked for identification.)</p> <p>15 Q. (By Ms. O'Reilly) Have you ever seen this</p> <p>16 document before?</p> <p>17 A. No.</p> <p>18 Q. Okay. Do you know if John Spears ever saw this</p> <p>19 document?</p> <p>20 A. Not that I know of, no.</p> <p>21 Q. Did you ever ask John Spears about Baumann's role</p> <p>22 as a miners representative?</p> <p>23 A. After receiving the complaint, and I don't</p> <p>24 remember his response now. But I don't -- we</p> <p>25 never -- like I said, we never had any response or</p>
<p style="text-align: right;">Page 195</p> <p>1 A. When we bought the company and up until this year,</p> <p>2 or 2023 -- and I think that was like October</p> <p>3 2023 -- it was Randy Drake and Max Drake are the</p> <p>4 two miners representatives that the company has</p> <p>5 had for many, many years.</p> <p>6 Q. And were they ever representatives of the miners</p> <p>7 while Omphalos has owned the mine?</p> <p>8 A. Yes. Yes.</p> <p>9 Q. Except for Randy Drake never -- I thought you said</p> <p>10 he quit in 2018.</p> <p>11 A. Randy --</p> <p>12 Q. Before you guys --</p> <p>13 A. -- retired in 2018 but he was still a miners</p> <p>14 representative.</p> <p>15 Q. Okay.</p> <p>16 A. Up until I think October of 2023.</p> <p>17 Q. Okay.</p> <p>18 A. I'd have to check back on that exact date.</p> <p>19 Q. Okay.</p> <p>20 A. But those are the only two miners</p> <p>21 representatives -- and I think I provided the</p> <p>22 emails to you when we inquired MSHA for a list of</p> <p>23 those miners representatives that they were aware</p> <p>24 of, and Mr. Baumann was never recognized or</p> <p>25 acknowledged or even reported as being a miners</p>	<p style="text-align: right;">Page 197</p> <p>1 any indication from Mr. Baumann, you know, if --</p> <p>2 if he would have told us, things would have been</p> <p>3 different, but, you know, he didn't tell us and he</p> <p>4 didn't -- I even asked the other guys if they knew</p> <p>5 and they didn't know. So nobody knew but Rob, it</p> <p>6 appears. So. . . .</p> <p>7 Q. I'm going to stop sharing that document.</p> <p>8 Do you know if John Spears was ever informed</p> <p>9 about Baumann's status as a miners representative</p> <p>10 from MSHA?</p> <p>11 A. Not that I know of. Not that I'm aware of.</p> <p>12 Q. Do you know if Baumann made -- oh. Go ahead.</p> <p>13 A. Because normally if there's any type of paperwork</p> <p>14 or anything that comes in the mail or -- just like</p> <p>15 the citations and stuff, we scan them and they go</p> <p>16 into the Teams folders. So everything is scanned</p> <p>17 and stored online.</p> <p>18 Q. And do you know if Baumann ever made any safety</p> <p>19 complaints to MSHA?</p> <p>20 A. Made any safety complaints to MSHA? No. Not</p> <p>21 specifically.</p> <p>22 Q. Do you know if he ever pointed out safety issues</p> <p>23 or problems to MSHA during inspections?</p> <p>24 A. Well, I wouldn't know what he said during an</p> <p>25 inspection. No, I wouldn't know that.</p>

<p style="text-align: right;">Page 198</p> <p>1 Q. Do you know if Baumann participated in any MSHA 2 inspections while he was employed? 3 A. Yeah, we don't limit anybody from not 4 participating. 5 Q. Do you know specifically that -- if Baumann 6 participated in any MSHA inspections while he was 7 employed? 8 A. Oh, I'm sure he did, yeah. 9 Q. During Baumann's employment, were you ever 10 physically at the mine during an MSHA inspection? 11 A. I believe so, yes. 12 Q. Do you know when? 13 A. No. Because I remember seeing Mr. -- he's retired 14 now. Oh, I can't think of his name. VanDorn. 15 VanDorn. Mr. VanDorn. I've seen him in the mill, 16 passing. They were doing inspection and air 17 samples. 18 I don't recall ever seeing -- there was 19 another MSHA inspector, I think, between 20 Mr. Van Dorn -- no, there wasn't another inspector 21 between Mr. VanDorn and Mr. Markeson and 22 Mr. Licklider and stuff like that, but I have been 23 there during inspections since this year, 24 January -- or January of last year. 25 Q. Did Baumann ever make any safety complaints to you</p>	<p style="text-align: right;">Page 200</p> <p>1 was. 2 Because they stack -- they used to stack bags 3 ten layers high and then they would put them on a 4 wrapper and that wrapper would spin around and we 5 didn't -- we didn't like the way that they looked 6 so we were always looking to get another wrapper, 7 but that was a piece of machinery that was before 8 us. So we bought another wrapper and so that it's 9 not that high. 10 And then we also limited the stacking of 11 pallets to five highs rather than ten highs so we 12 don't have that issue anymore. Yeah, we fix those 13 problems as they bring them forward. 14 Q. Do you ever recall him -- Baumann raising any 15 safety concerns that you didn't fix? 16 A. No. Yeah, I mean, you got to think, it's -- if it 17 was a, you know, life-threatening situation, we 18 were, by all means, going to address it, you know. 19 But dust, I mean, that's what we produce so we've 20 got -- you know, wear your appropriate PPE, wear 21 your masks, you know, limit the control of it, 22 stuff like that. But nothing that we don't fix. 23 Got to think, we're always down maintenance, so 24 maintenance is always an issue we have to take 25 into consideration, too. So. . . .</p>
<p style="text-align: right;">Page 199</p> <p>1 or anyone else in management during his 2 employment? 3 A. Oh, I'm sure he did. We fix things. I mean, the 4 mill's a hundred and something years old. It's 5 150 years old. There's always going to be 6 something, but nothing that we wouldn't fix. 7 Q. Do you recall any specific concerns that Baumann 8 raised while he was employed? 9 A. No. 10 Q. Do you know if he ever raised any concerns about 11 dust? 12 A. Well, yeah. I mean, that's -- that's what we 13 produce, so dust is always an issue. 14 Q. Do you remember Baumann specifically making -- 15 A. No. 16 Q. -- safety complaints about dust? 17 Do you know if Baumann ever raised any safety 18 concerns about stacking bags? 19 A. Statin bags? What's a statin bag? 20 Q. Stacking. Like stacking bags on top of each 21 other. 22 A. Yeah, there was a conversation about stacking bags 23 and he was stating that MSHA said something about 24 height or whatever. And there was a conversation 25 about that but I don't -- I don't remember what it</p>	<p style="text-align: right;">Page 201</p> <p>1 Q. Does American Tripoli have any rules or procedures 2 on what to do during MSHA inspections? 3 A. No. 4 Q. Is there anything specific that employees or John 5 or anyone in management is supposed to do if an 6 MSHA inspection starts? 7 A. No. Normal -- normal operations. 8 Q. Is there any, like, expectation that they're going 9 to contact you if there's an MSHA inspection? 10 A. If they're going to -- say that one more time. 11 Q. Do you expect someone to contact you if there's an 12 MSHA inspection? 13 A. Oh. No. I mean, eventually they're going to tell 14 us that, hey, the inspector's here. They're doing 15 an inspection. 16 Oh, okay. That's good to know. 17 Q. Have you ever expressed concerns to miners about 18 making complaints to MSHA? 19 A. Have I expressed concerns? Like, what do you 20 mean? Can you give me an example? What do you 21 mean? 22 Q. Have you ever told miners that you're concerned 23 with people making complaints to MSHA? 24 A. Not that I recall, no. 25 Q. Have you ever told miners not to talk to MSHA?</p>

<p style="text-align: right;">Page 202</p> <p>1 A. No.</p> <p>2 Q. Have you ever cautioned employees about trusting</p> <p>3 MSHA?</p> <p>4 A. Certain inspectors, yes.</p> <p>5 Q. Could you elaborate on that?</p> <p>6 A. Yeah. So in January of -- I do believe it was</p> <p>7 January. I'd have to check my dates because I</p> <p>8 don't have my notes. In January of 2023 we were</p> <p>9 visited by -- or performed an inspection by</p> <p>10 Inspector Licklider and Mr. Markenson.</p> <p>11 Mr. Licklider threatened our employees with</p> <p>12 having their butts, for a better lack of words,</p> <p>13 hauled off to jail, which you got to take into</p> <p>14 consideration, these guys are barely getting by,</p> <p>15 from what we understand. Certain ones had a</p> <p>16 warrant out for their arrest and quit basically</p> <p>17 because of that, and, you know, we can't have</p> <p>18 that.</p> <p>19 And it shouldn't be that way. To me, you</p> <p>20 know, it -- just like I explained to John, if that</p> <p>21 was the situation, we should have said, Hold on,</p> <p>22 now. Let's just take a step back and come back</p> <p>23 when everybody's level-headed and not threatening</p> <p>24 people. But for an MSHA inspector to threaten the</p> <p>25 livelihood of our employees and stuff like that,</p>	<p style="text-align: right;">Page 204</p> <p>1 railroad on the back ramp and Mr. Pratt leaned</p> <p>2 over to Mr. Markeson and told him, hey, you know,</p> <p>3 we need to hurry up and get out of here. We've</p> <p>4 been here too long. And Mr. Markeson, you know,</p> <p>5 rared back and barked at his supervisor,</p> <p>6 Mr. Pratt, and told him, If you want me to do my</p> <p>7 job, something something -- I'd have to look back</p> <p>8 in my notes -- we're going to be here a while, or</p> <p>9 whatever.</p> <p>10 And you could tell that that reaction</p> <p>11 embarrassed Mr. Pratt because Mr. Pratt leaned</p> <p>12 back and looked over at Jordan and I and we were</p> <p>13 like, oh, sheez, what's going on here? And this</p> <p>14 is -- this is not good.</p> <p>15 And Mr. Pratt had a, you know, disgusted look</p> <p>16 on his face and he looked down and shook his head</p> <p>17 and he just kind of walked off. And Jordan and I</p> <p>18 looked at each other and raised our eyes like,</p> <p>19 whoa, what is going on? You know, because all</p> <p>20 we've heard is Mr. Markeson and Mr. Licklider</p> <p>21 threatened our employees and this, that and</p> <p>22 everything else and now we're here and we're</p> <p>23 finding all these thing that are wrong and the</p> <p>24 person that is doing wrong is now yelling at his</p> <p>25 boss in front of us.</p>
<p style="text-align: right;">Page 203</p> <p>1 that was uncalled for.</p> <p>2 And then Mr. Markeson, after that point, in</p> <p>3 our opinion, has been very vindictive as far as</p> <p>4 his inspections. And it is -- you can note it in</p> <p>5 the wording of the citations and his actions.</p> <p>6 I was there because I actually got the</p> <p>7 district manager involved in that confrontation at</p> <p>8 that time and asked Mr. Sims -- I don't remember</p> <p>9 his first -- Anthony Sims, the district manager at</p> <p>10 the time, to come on site and visit, and he did</p> <p>11 with the field supervisor, which is Mr. Pratt,</p> <p>12 Shawn Pratt, and we started going through the</p> <p>13 inspections that Mr. Licklider and Mr. Keith</p> <p>14 Markeson were finding that were shutting us down.</p> <p>15 And even Mr. Sims had said, You can contest</p> <p>16 that one. And I'm like, Well, why are we shut</p> <p>17 down and why are we contesting things if you're</p> <p>18 even seeing that the inspector made a mistake?</p> <p>19 So during that day, it was numerous citations</p> <p>20 that Mr. Sims agreed that, yeah, you can go ahead</p> <p>21 and contest that one, too. That -- you could tell</p> <p>22 that Mr. Markeson was very agitated and very upset</p> <p>23 about us questioning his authority and his</p> <p>24 findings. To the point so much that Jordan and</p> <p>25 myself were standing in the door going out by the</p>	<p style="text-align: right;">Page 205</p> <p>1 So ever since then, we've just had problems</p> <p>2 with Markeson. I mean, ridiculous problems with</p> <p>3 Inspector Markeson. So --</p> <p>4 Q. I guess my question was actually a little</p> <p>5 different than that. It was: Have you ever</p> <p>6 talked to other employees about being careful</p> <p>7 around MSHA inspectors?</p> <p>8 A. Yeah. So that leads back into my story where</p> <p>9 Mr. Markeson was actually being very vindictive</p> <p>10 and the employees, they could feel that and --</p> <p>11 coming off of that, and even Mr. Hoover, I think</p> <p>12 in the notes that we talked about, or that I</p> <p>13 shared with you guys about the conversation</p> <p>14 between him and I about, you know, his demeanor</p> <p>15 and everything -- Mr. Markeson's demeanor towards</p> <p>16 the employees, you know, how they felt threatened</p> <p>17 about their jobs and how every time that they come</p> <p>18 in, they're scared for their jobs. And it</p> <p>19 shouldn't be that way. It's just an inspection.</p> <p>20 It shouldn't be that way.</p> <p>21 So talking with them, not only Mr. Hoover,</p> <p>22 Mr. -- Mr. Williams was one. The maintenance guy,</p> <p>23 I can't remember his name, Gage Wheeler, he got</p> <p>24 very, very angry about MSHA, and I can't remember</p> <p>25 if it was Licklider or if it was Mr. Markeson, but</p>

<p style="text-align: right;">Page 206</p> <p>1 Gage was one that was very upset with the MSHA 2 inspectors and the way that they were acting 3 towards him and towards John, and that -- that 4 goes back to that whole thing of the conversation 5 about John telling Gage, hey, don't get in a 6 confrontation with him. Let me talk with the 7 inspectors. 8 Gage was a brand-new maintenance guy. You 9 got to think, if we don't have a maintenance guy, 10 that falls back on John's plate. John plate's 11 already full. So if John's -- if we don't have a 12 maintenance guy, which we just hired -- and John 13 liked Gage and he wanted to keep him. So he 14 stepped in and said, Gage, let me -- bring the 15 MSHA guy to me. Let me help. Don't pour gas on 16 this fire because you're a hothead -- Gage was a 17 very hot head. You know, we don't want that. We 18 want the maintenance guy here to help make 19 operations run. We've got to -- we've got to fix 20 these problems. 21 So that's -- that -- all those conversations 22 tied together all circle around this whole thing 23 going on with Mr. Pratt -- Mr. Licklider and 24 Mr. Markeson. 25 So all these guys that -- you know, if you</p>	<p style="text-align: right;">Page 208</p> <p>1 MS. O'REILLY: I'm going to show you a 2 document I've marked as Exhibit Number 18. 3 (Exhibit No. 18 marked for identification.) 4 Q. (By Ms. O'Reilly) And down below -- there's 5 redactions, appears. I'm not asking you about 6 that part of the document but I am asking about 7 this email, and it looks like it's from 8 RTidaback@deedy.com to Maryjo, and is this an 9 email that you sent? 10 A. It appears to be. 11 Q. I can give you control, too. I'm sorry. Once it 12 lets me. Here you go. 13 And do you know, is this a true and accurate 14 copy of this email that you sent to Maryjo Bishop 15 on September 19th? 16 A. It appears to be, yes. 17 Q. And I'm going to stop sharing that one and move on 18 to -- 19 A. Is there a question? 20 MS. O'REILLY: No. I just wanted to 21 make sure I understood what that document 22 was. 23 Okay. I am going to -- I need a little 24 break. So I'm going to take, like, a 15-minute 25 break and then maybe we can get back together at</p>
<p style="text-align: right;">Page 207</p> <p>1 were to talk to all these miners and they were to 2 be open and honest with you, I mean, they're 3 scared of MSHA. I mean, even our guys today, 4 they're threatened every time MSHA comes in that 5 they're not going to be able to work. They're 6 going to have to go find another job. Jobs are 7 not easy to find in Seneca. I mean, it's just 8 not. 9 So, to answer your question, it is very 10 difficult, you know, to have these conversations 11 with these miners about these MSHA inspectors and 12 how they come in and do what they do because 13 it's -- it is perceived that they are not there to 14 help and train or educate or take care of us; they 15 are there to verbally abuse us and try to shut the 16 organization down, and 2023 proved that when 17 you've got vindictive MSHA inspectors, that's what 18 happens. We were shut down a lot because of MSHA 19 for no reason. 20 And I think you -- be honest with you, I 21 think you can really see this and a lot of things 22 that's been going on with the district. And this 23 all has to come to a head and had to end because 24 this is ridiculous. 25 Sorry. Got long-winded.</p>	<p style="text-align: right;">Page 209</p> <p>1 2:20? 2 (A recess was taken from 2:05 p.m. until 3 2:22 p.m.) 4 Q. (By Ms. O'Reilly) I just have a couple more 5 wrap-up questions and then we'll be done here 6 today. 7 One thing I just wanted to clarify, I think 8 you mentioned previously that Omphalos is owned by 9 yourself and Jordan Tidaback; is that correct? 10 A. Correct. 11 Q. And what is the percentage ownership in there? 12 A. 60/40, myself with 60 and Jordan 40. 13 Q. And is -- okay. And then I'm going to go back to 14 Exhibit 11. I'm going to pull that up and share 15 my screen. And I'll go to the top here. This was 16 the interrogatories, and then a little bit further 17 down were chat messages in here. 18 So I'm going to go down here to page 28 of 19 Exhibit 11, and in here we had previously 20 discussed how this purple communication was your 21 communications, and towards the bottom of page 28 22 there's a purple box that says: We need you to 23 make that place rock and roll. I need the 24 justification since Rob's complaint to MSHA about 25 being let go, dot dot dot, just need you to put</p>

<p style="text-align: right;">Page 210</p> <p>1 the cherry on the cake. That's all.</p> <p>2 Do you see that?</p> <p>3 A. Mm-hmm.</p> <p>4 Q. And what did you mean by that statement?</p> <p>5 A. Jim's a heavy guy, so he likes food. That's the</p> <p>6 reference to the cherry on the cake. He likes</p> <p>7 cake.</p> <p>8 Let's see here. Rock and roll. Jim gets</p> <p>9 real excited. He's the individual that got us to</p> <p>10 60,000 pounds the one day that we were able to</p> <p>11 produce the 60,000 pounds, and every time that we</p> <p>12 would produce over -- even over 35,000 pounds, he</p> <p>13 would always, you know, celebrate and, you know,</p> <p>14 hooray, high fives, give a call, everything else,</p> <p>15 send memes. That was just Jim's way of</p> <p>16 celebrating that he got it. He was excited about</p> <p>17 being back in this place -- can I have control of</p> <p>18 the mouse?</p> <p>19 Q. Oh, yep. Let me -- okay.</p> <p>20 A. Because I think there's more to that conversation</p> <p>21 than just that one sentence.</p> <p>22 Q. Well, I guess here I'm trying to ask what this</p> <p>23 question -- this --</p> <p>24 A. Yeah.</p> <p>25 Q. -- one specifically. So --</p>	<p style="text-align: right;">Page 212</p> <p>1 the date we received the complaint but it was</p> <p>2 probably on my mind, hey, we need the</p> <p>3 justification. Make it rock and roll since we're</p> <p>4 all complaining to MSHA about being let go. Okay?</p> <p>5 Rob's being let go had nothing to do with</p> <p>6 discrimination and it had to do with his</p> <p>7 performance, like we've discussed. So that's what</p> <p>8 this communication here is all for.</p> <p>9 And so, as you can see in his response to</p> <p>10 that same message: All right. I'll do my best</p> <p>11 when we're rocking. I haven't shut the feed off</p> <p>12 yet and the socks are still down, so I'm guessing</p> <p>13 that's good. Okay.</p> <p>14 So Rob had issues with the feed. We'd</p> <p>15 always -- you know, Jim's complaints to us was</p> <p>16 he's not feeding properly. He's not getting the</p> <p>17 material and he's not doing his job. So, you</p> <p>18 know, part of managing the material feed and</p> <p>19 managing the socks is part of that person's job.</p> <p>20 And it's been told. I mean, that's why that</p> <p>21 person's in the control room. You just can't walk</p> <p>22 away from it.</p> <p>23 So that one sentence is not anything</p> <p>24 negative. It's about, Jim, here's your time</p> <p>25 again. You got to show that -- you got to show us</p>
<p style="text-align: right;">Page 211</p> <p>1 A. So he --</p> <p>2 Q. Go ahead.</p> <p>3 A. Yeah, to answer your question, he was promoting</p> <p>4 that, hey, we're rolling at 8:49 in the a.m.</p> <p>5 because, you got to remember, we give them an hour</p> <p>6 to start up. So with communications with Jim</p> <p>7 about, you know, let's make sure we're running by</p> <p>8 9:00 and let's shut down by 3:30. So if he was</p> <p>9 starting ten -- ten minutes before 9:00, he's</p> <p>10 excited about it. Okay?</p> <p>11 So you can see -- was that the same day? No.</p> <p>12 So that's the same thing. He's promoting to me</p> <p>13 that, hey, we're rolling early, Boss. We're going</p> <p>14 to get going. Great. Hey, brother, let's do some</p> <p>15 thing good things, okay? Have a good day. And</p> <p>16 he's saying no dust either, okay? Well, what the</p> <p>17 "no dust" means is that they actually properly</p> <p>18 shut down the night before, and then he says, we</p> <p>19 will, and I got you boss, and I need to make that</p> <p>20 place rock and roll like you normally do, Jim.</p> <p>21 You know, Jim is the one that was able to,</p> <p>22 you know, make it run. He was training Rob. He's</p> <p>23 training John. He's getting a lot of information</p> <p>24 from Mr. Randy Drake, you know.</p> <p>25 So -- let's see. I'd have to look back at</p>	<p style="text-align: right;">Page 213</p> <p>1 that you're doing what you're supposed to since</p> <p>2 Rob complained that we let him go. You know, it</p> <p>3 had nothing to with MSHA and it had to do with his</p> <p>4 performance. So that answers your question,</p> <p>5 hopefully.</p> <p>6 Q. And why did you say you need the justification?</p> <p>7 A. Because --</p> <p>8 Q. Because you didn't have justification?</p> <p>9 A. No. Putting -- putting Jim back in that position.</p> <p>10 Not -- it had nothing to do with Rob. It was</p> <p>11 putting -- we need justification to put you back</p> <p>12 in this position, Jim. We need to train you to</p> <p>13 get you to be the manager that you don't think you</p> <p>14 are. That was about him being a good manager,</p> <p>15 making sure things were getting done because the</p> <p>16 guys, the other mill associates, are looking to</p> <p>17 Jim, since he's in that position, to be their</p> <p>18 leader.</p> <p>19 So we need that justification. Since Rob's</p> <p>20 not there, comma -- you know, I guess I could have</p> <p>21 put a comma behind it, Rob complaining to MSHA,</p> <p>22 you know. Rob's not there anymore. Jim, you're</p> <p>23 the man. We've got to make this place rock and</p> <p>24 roll. We need justification for you being in that</p> <p>25 role because if the mill guys don't see that</p>

<p style="text-align: right;">Page 214</p> <p>1 you're a leader, they're going to complain about</p> <p>2 you.</p> <p>3 We don't want that. We want those guys to</p> <p>4 look to Jim, to learn from Jim, you know, to grow</p> <p>5 so that they can eventually be the control room or</p> <p>6 the shift lead soon, you know. That's part of</p> <p>7 their progression. So that's -- that's what that</p> <p>8 whole thing means.</p> <p>9 Q. Okay. And then why does it also say "since Rob</p> <p>10 complained to MSHA about being let go"? It makes</p> <p>11 it seem like justification is related to his</p> <p>12 complaint to MSHA.</p> <p>13 A. No.</p> <p>14 Q. So why is the complaint to MSHA in there?</p> <p>15 A. We need the justification to put Jim back in that</p> <p>16 position. We -- like I said, I'd have to look at</p> <p>17 this to see what else is all in the conversation.</p> <p>18 Did I just get the notification that Rob</p> <p>19 complained that morning? I don't know, not based</p> <p>20 off this setting right now.</p> <p>21 So, like I said, putting Jim in that</p> <p>22 position, we need the justification behind it</p> <p>23 since Rob has been let go. In correlation of</p> <p>24 letting Rob go, Rob complained to MSHA about us</p> <p>25 letting him go. That was really not really</p>	<p style="text-align: right;">Page 216</p> <p>1 DEPONENT'S SIGNATURE PAGE</p> <p>2</p> <p>3</p> <p>4 In Re: ACTING SECRETARY OF LABOR, MSHA And BAUMANN</p> <p>5 v. MOSENECAMANUFACTURER LLC dba AMERICAN</p> <p>6 TRIPOLI</p> <p>7 MSHA COMMISSION, OFFICE OF ADMINISTRATIVE LAW</p> <p>8 JUDGE,CENT 2023-0251</p> <p>9 Taken: January 22, 2024</p> <p>10</p> <p>11</p> <p>12</p> <p>13 _____</p> <p>14 RUSSELL TIDABACK</p> <p>15</p> <p>16 Subscribed and sworn to before me this ____ day of</p> <p>17 _____, 20____.</p> <p>18</p> <p>19</p> <p>20 _____</p> <p>21 Notary Public</p> <p>22</p> <p>23 My commission expires:</p> <p>24 _____</p> <p>25</p>
<p style="text-align: right;">Page 215</p> <p>1 related, but that's -- need justification to put</p> <p>2 Jim in that position so the other guys can grow</p> <p>3 and do their job because that's part of their</p> <p>4 progression chain, you know. We want the mill</p> <p>5 associates to grow, to get paid more, to be able</p> <p>6 to do all the things so we're not just relying on</p> <p>7 one person. Again, that was the reason we hired</p> <p>8 Rob.</p> <p>9 MS. O'REILLY: Okay. I'm going to stop</p> <p>10 sharing this document and then I'm just going</p> <p>11 to look through my notes real quick, but I</p> <p>12 think I'm done with this and that's all the</p> <p>13 questions that I have. Just give me a</p> <p>14 moment.</p> <p>15 THE WITNESS: Can I ask a question?</p> <p>16 MS. O'REILLY: No, I'm not answering</p> <p>17 questions. This is not my deposition.</p> <p>18 THE WITNESS: All right.</p> <p>19 MS. O'REILLY: All right. I'm complete.</p> <p>20 That's all the questions that I had so we can</p> <p>21 go off the record.</p> <p>22 (The deposition concluded at 2:35 p.m.)</p> <p>23</p> <p>24</p> <p>25</p>	<p style="text-align: right;">Page 217</p> <p>1 REPORTER'S CERTIFICATE</p> <p>2 STATE OF MISSOURI )</p> <p>3 )ss</p> <p>4 COUNTY OF GREENE )</p> <p>5 I, MARY S. McCARTY, Certified Court</p> <p>6 Reporter, do hereby certify that the witness</p> <p>7 was duly sworn by me; that the facts stated</p> <p>8 by me in the caption hereof are true; that</p> <p>9 the said witness did make the above and</p> <p>10 foregoing answers in response to questions</p> <p>11 propounded as shown; that I did, in</p> <p>12 stenotype, report said proceedings; and that</p> <p>13 the above and foregoing typewritten pages</p> <p>14 contain a full, true, and correct</p> <p>15 transcription of my shorthand notes taken on</p> <p>16 such occasion.</p> <p>17</p> <p>18 I further certify that I am neither</p> <p>19 attorney for, nor counsel for, nor related</p> <p>20 to, nor employed by any of the parties to the</p> <p>21 action in which this deposition was taken;</p> <p>22 and, further, that I am not a relative or</p> <p>23 employee of any attorney or counsel employed</p> <p>24 by the parties hereto, or financially</p> <p>25 interested in the action.</p> <p>_____</p> <p>MARY S. McCARTY, CCR</p> <p>CCR No. 1491</p>

**RESPONDENTS RESPONSE TO ACTING SECRETARY OF LABOR'S THIRD  
REQUESTS FOR PRODUCTION OF DOCUMENTS**

## **ANSWERS FOR PRODUCTION OF DOCUMENTS**

1. Produce documents reflecting the amounts (including the pounds) produced at the MOSenecaMfr LLC dba American Tr mine on a daily basis from January 1, 2022 through January 1, 2023.

RESPONSE: Please find attached the comprehensive production report that includes the requested information. This report provides a detailed breakdown of daily production, as well as weekly and monthly summaries, covering the entire period in question. We believe this report should fulfill your requirement for production data during the specified time frame.

2. Produce documents reflecting the amounts (including the pounds) produced at the MOSenecaMfr LLC dba American Tr mine on a weekly basis from January 1, 2022 through January 1, 2023.

RESPONSE: Please find attached the comprehensive production report that includes the requested information. This report provides a detailed breakdown of daily production, as well as weekly and monthly summaries, covering the entire period in question. We believe this report should fulfill your requirement for production data during the specified time frame.

3. Produce documents reflecting the amounts (including the pounds) produced at the MOSenecaMfr LLC dba American Tr mine on a monthly basis from January 1, 2022 through January 1, 2023.

RESPONSE: Please find attached the comprehensive production report that includes the requested information. This report provides a detailed breakdown of daily production, as well as weekly and monthly summaries, covering the entire period in question. We believe this report should fulfill your requirement for production data during the specified time frame.

4. Produce the documents reflecting production at the MOSenecaMfr LLC dba American Tr mine from January 1, 2022 through January 1, 2023.

RESPONSE: Please find attached the comprehensive production report that includes the requested information. This report provides a detailed breakdown of daily production, as well as weekly and monthly, covering the entire period in question. We believe this report should fulfill your requirement for production data during the specified time frame.

Respectfully submitted,

Russell Tidaback  
American Tripoli

Exhibit P-43, Page 107

Appellate Case: 25-1349 Page: 2250 Date Filed: 04/07/2025 Entry ID: 5503844

Slip Sheets Used	Major Downtime Events
7	Finish elevator broke
3	Finish elevator completed,worked on packer could not get it going ran bulk bags also
9	
5	Issues with burner valve still sticking
17	3 more to finish
3	
10	Early shutdown to attend to green stack issues,shut down for pulveriser breaking
3	Finish elevator broke,started at 1:30 pm
2	
3	Worked on burner til noon finished up filling partial bulk bags to switch to double ground . packer working but a lil slower and did not kick off a few times
2	Add by Russ
5	
6	
9	
1	
1	Switched to DGR. Product was running slow. Later discovered that the 4th floor shaker was clogged.
3	Shaker drain pipe was clogged and backed up the system. Spent the rest of the afternoon clearing.
7	Slow running. Had to unclog the Finished product tube because the vacuum was weak at times. Also adjusted the shaker.
1	Donaldson filer change,instaled bolts on vibrator
5	
5	The shaker seemed to function a little better.
13	
1	Start up
13	
5	Charged tube mill got lil mac going helping to produce better
6	
15	Ran pretty good today

This image shows a full page of white paper with horizontal blue lines, resembling notebook paper. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

## NOTES

NEED 20 MORE BAGS TO COMPLETE THE ORDER!!!!

Need 24 more bags to complete

Getting more confident at feeding product at closer intervals. Need to keep material hot. Finished product

This image shows a single sheet of white paper with horizontal blue lines, resembling notebook paper. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

ah... yes, Robert **Baumann** can you get the paperwork to John so he can get it scanned to Julie Ann Cureg

Mill Group Chat | You, Brian, Don, +8

Julie Ann Cureg 3/9 5:41 PM

Robert **Baumann** Sorry I didn't know Are you still at the mill? If so, I need the BOL signed by the driver so I can email it to the customer.

Mill Group Chat | You, Brian, Don, +8

Russell Tidaback (You) 3/9 5:41 PM

Nope, you are good, Robert **Baumann** The shipper specific BOLs are a pain to deal with. Julie Ann Cureg will make sure the right one is used moving forward.

Mill Group Chat | You, Brian, Don, +8

Robert **Baumann** 3/9 5:39 PM

Russell Tidaback yep. No ones fault specifically but now we all have a glimpse at why the Production Assistant role of QC is important. Sorry I didn't know...

 You and John

 JS John Spears 12/1/22 12:12 PM

Robert **Baumann** Yes a city worker just stopped at the road and said he caught an oder of gas. I told him they were looking into it He smelled the gas that remained in the pipe after we shut off the main valve. We disassembled the pipe to apply new pipe dope and Teflon tape. No bubbles after reassembled.

 You and John

Russell Tidaback (You) 9/12/22 7:59 PM

Robert **Baumann** The studs were cross threaded when we tried to pull them last week Robert **Baumann** Did you message Jessie Hodge about this?

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/12/22 7:58 PM

I just called him and he is coming in to get these fixed so possibly you guys can run something tonight. Robert **Baumann**

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/12/22 7:56 PM

The studs were cross threaded when we tried to pull them last week...

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/12/22 7:54 PM

The lil Mac they pulled all the filters and broke a couple studs that holds the lids on then I broke one putting one back on tried rigging them up so we can run but they won't work.

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/12/22 7:49 PM

Fill me Robert **Baumann** I dont know what you are referencing.

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/12/22 7:48 PM

Russell Tidaback John Spears this is a no go without getting these studs replaced the lids won't stay on and it's dusting worse than it was when I tried to run...

ATMO - Mill Mgmt | You, Don, John, +2

RB Robert **Baumann** 9/11/22 8:01 AM

Dang it sorry. I will look closer from now on...

**Robert Baumann** 9/8/22 11:44 PM

It eats up a lot of time for sure. The Toyota fork truck literally just quit in the middle of the Isle just now also it won't even light up with key we ran what we could but will have to transfer a lot of this order to the shop for room...

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/8/22 11:25 PM

Thanks Robert **Baumann**. We are going to get a better seal process for that thing. It is ridiculous to have to waste you and RJs time searching for insulation just to seal the tube mill door.

ATMO - Mill Mgmt | You, Don, John, +2

**Robert Baumann** 9/8/22 10:18 PM

Completely took it off found some long piece's of insulation and it's good to go Jim Hoover John Spears Will Shallenburger Russell . It's 🔥 up on that tube mill...

ATMO - Mill Mgmt | You, Don, John, +2

**Robert Baumann** 9/8/22 8:47 PM

It lasted about 10 minutes I found some more insulation on 4th floor so gunna try again and get a few more washers...

ATMO - Mill Mgmt | You, Don, John, +2

**John Spears** 9/8/22 8:40 PM

7:30 am for Mr. Jim is fine. Robert **Baumann** were you able to stop the leak?

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/8/22 8:39 PM

Robert **Baumann**...Robert **Baumann** WHAT??? You mean an actual torque sequence to ensure things dont get warped when tightening?...

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 9/8/22 8:35 PM

Jim Hoover I will be TOBY 🍷 tmrw boss for cup 🍷 of 🍷 Boss Robert **Baumann** You're the man... [image]

Jordan Tidaback is there a location in where I can find the workplace safety check that the Mill lead does. I can't see when **rob** does it

Mill Group Chat | You, Brian, Don, +8

Russell Tidaback (You) 3/24 5:32 PM

Ah, okay. Now that makes sense. Thanks **Rob**.

Mill Group Chat | You, Brian, Don, +8

RF Ronnell Fondren 3/24 12:38 PM

John Spears WHERE ARE YOU @ because I was bagging and stacking pallets and then **Rob** come over and said he would do it for me to go down and clean up what's been sitting for days and he just stood there and didn't even do anything.

Quarry Operations | You, Gwen, John, +2

JS John Spears 3/24 11:49 AM

Good deal. Finish the clean up up top and around the flight feeder (crusher feeder) then see **Rob** about shoveling up the spillage at the finished product cyclone. Please.

ATMO - Maintenance Group | You, Don, Joe, +3

JS John Spears 3/23 2:45 PM

Some of the joints have rusted in the threaded area and doing so has caused holes because the wall is thinner. **Rob** has found a few joints that need reworked.

Office (239) 829-5457

 ATMO - Operations | You, Don, Gwen, +4

 John Spears 1/20 2:31 PM

Russell Tidaback John Spears / Kensley Brewer Okay, so... to unscrew this... how many bulk bags of OGR do we have on the production floor? We need 20 for SO-287-A. We'll get you an accurate count shortly. **Rob** and I have been looking at what we have.

 ATMO - Operations | You, Don, Gwen, +4

 Russell Tidaback (You) 1/20 1:32 PM

Yep, I understand. **Rob** should be inputting in the Daily Production spreadsheet what was produced each day before he leaves for the day. Kensley verifies the correct input with what is on the production floor and the spreadsheet.

 ATMO - Maintenance Group | You, Don, Joe, +3

 John Spears 1/18 1:00 PM

...The shaft that we used (had on hand) was 3-0 inches. I wanted to make sure the bearing slid onto the shaft easy enough so we wouldn't have to beat on it so bad. We experienced the oversized shaft problem with the little MAC blower outside. **Rob** can tell you about that.

 ATMO - Operations | You, Don, Gwen, +4

 Russell Tidaback (You) 1/17 9:45 AM  
Thanks **Rob**

 Quarry Operations | You, Gwen, John, +2

 Russell Tidaback (You) 1/16 10:50 AM  
**Rob** responded so I deleted my post.

 Quarry Operations | You, Gwen, John, +2

 Russell Tidaback (You) 1/16 10:49 AM  
Nope your fine... I didn't see **Rob** in the quarry group.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,

Office (239) 829-5457

Mill Group Chat | You, Brian, Don, +8

Patrick Lewis 1/13 5:08 PM

Thats partially my fault, I failed to let **rob** know they were ready

Mill Group Chat | You, Brian, Don, +8

GW Gage Wheeler 1/6 11:04 AM

Hey **rob** give me a call

ATMO - Maintenance Group | You, Don, Joe, +3

JS John Spears 1/4 12:44 PM

Gage Wheeler **Rob** said there was a backup somewhere that he would like for you to check out and make sure there is nothing else.

Mill Group Chat | You, Brian, Don, +8

BW Benjamin Waters 12/30/22 2:16 PM

287 A is what we been producing the last few days . I asked for specifications and only received verbal comments from **Rob** regarding 287 A which we have OGR 17 bags done

ATMO - Mill Mgmt | You, Don, John, +2

JS John Spears 12/29/22 4:50 PM

Chuck's tips seemed to have worked. The problem looks to have been with the baffles being out of sync. Gage and **Rob** inched the mechanism along until the temp range became stable. We should be able to fire up in the morning, run bulk bags while the maintenance crew works on the packer.

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 12/29/22 2:02 PM

Thanks **Rob**. When we are producing we need to keep the mill team to the minimum. Can't keep paying people when we aren't producing.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

Office (239) 829-5457

ATMO - Maintenance Group | You, Don, Joe, +3

Jordan Tidaback 12/28/22 6:46 PM

Ah yes, **Rob** can show you! John has probably just been so focused on maintenance, but don't worry, we'll get you up to speed.

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 12/28/22 6:44 PM

Wow..okay so tomorrow ..ask **Rob** to show you the schedule

ATMO - Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 12/26/22 11:24 PM

I believe Kensley is going to be able to pick up the slack with Sarah leaving us. So I don't know if we will need to replace Sarah. John, we can discuss this. I want Kensley to assist **Rob** and John administratively. She seems to be catching on quickly.

Mill Group Chat | You, Brian, Don, +8

Sarah Giberti 12/26/22 2:57 PM

Russell Tidaback On SO-287-A it states that there is 17 bags in stock and three bags needed to fulfill order but from what **Rob** says we used that to fulfill orders SO-286-A/B and so we have no bulk bags in stock except for the completed 287-B

Mill Group Chat | You, Brian, Don, +8

Sarah Giberti 12/26/22 1:07 PM

**Rob** has labels and paperwork

Mill Group Chat | You, Brian, Don, +8

Patrick Lewis 12/24/22 12:37 PM

Merry christmas to everyone. Even you **rob**. Lol

Mill Group Chat | You, Brian, Don, +8

SG Sarah Giberti 12/22/22 11:21 AM

Benjamin Waters Well at least we are having a nice dinner tomorrow! Yes sir! Also there may be some frozen chicken still in freezer, its free to whomever. Ask **Rob** if there is any left.

Quarry Operations | You, Gwen, John, +2

JS John Spears 12/22/22 8:54 AM

**Rob** has it warmed up. We should be able to run until 2.

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 12/20/22 10:20 PM

...**Rob**, Over the past couple months, kept mentioning the elevator is full even with adding very little product.....

ATMO - Maintenance Group | You, Don, Joe, +3

BW Bryceton Williams 12/20/22 6:24 PM

...So **Rob** and I went back through all of the solenoids again to see if maybe one of those had stuck again, that was not it. So at the end of the day the last thing I can't think of besides some bit in the plc, is maybe the switch is bad....

Mill Group Chat | You, Brian, Don, +8

BW Benjamin Waters 12/19/22 10:44 AM

Nevermind. Thanks **Rob**

ATMO - Maintenance Group | You, Don, Joe, +3

JS John Spears 12/16/22 12:04 PM

☐ This is what we came up with. I ground a "V" at the break the best I could. Bryceton welded it pretty good. We put a wedge under the other side because there was a space that caused the bearing to rock. Welded a bar strap over the top for further hold down. **Rob** and Bryceton are about to do a test run.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,

Alex Snodgrass John Spears Robert Baumann Good Morning Gentlemen. SO-323, according to the Daily Production spreadsheet is complete. Alex Snodgrass can you confirm 800 bags, 40 pallets and 40 slipsheets? The spreadsheet is showing 800 bags, 33 pallets, and 36 slipsheets. [image]

ATMO Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 4/7 5:45 AM

...Just a reminder... to manage the storage space in the **mill**, you can view the production schedule to see what SO#s are scheduled to be shipped... This way you all know which orders need to be moved to the garage, etc. to make space in the **mill**... you do move orders to the garage, tag Julie in the **Mill** Chat group notifying her...

ATMO Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 4/5 4:52 PM

...Once this pallet loader is electrically disconnected from the palletizer, then over a weekend, yes, 4 people OT would be authorized to disassemble and remove the palletizer pallet loader from the **mill** production floor...

ATMO Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 4/5 4:35 PM

Details still being worked out.

ATMO Mill Mgmt | You, Don, John, +2

John Spears 4/5 4:34 PM

When do we expect the wrapper and rolls?

ATMO Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 4/5 4:34 PM

We are ordering a new automatic stretch wrapper... the details are being worked out now.

ATMO Mill Mgmt | You, Don, John, +2

Russell Tidaback (You) 4/5 4:32 PM

Additional info: We order 80k bags, usually once a year. Our 2023 bag order was scheduled to be delivered in March but now is pushed back until May. Hood packaging our bag supplier has a factory lead time, much like ours currently... many months. Stretch wrap... we need to be cognizant that stretch wrap has a shelf...

ATMO Mill Mgmt | You, Don, John, +2

John Spears 4/5 4:30 PM

Russell Tidaback Also, Alex Snodgrass John Spears, need you guys to start planning ahead and paying attention the required forecasting of needed materials. Looking at the production schedule... need to collaborate on... Will do.

JS John Spears: 4/7 2:50 PM

Somehow this plastic bag made its way up to flour elevator to the 4th floor and plugged up the shaker/vibrator. We need to police up the trash and dispose properly. Thanks.

**Mill Group Chat** | You, Brian, Don, & B

RB Robert Baumann: 4/7 1:21 PM

Jeremy Talbert please come to bagger...

**Mill Group Chat** | You, Brian, Don, & B

JS John Spears: 4/7 11:11 AM

We're getting 250 HT Large this coming Monday.

**Mill Group Chat** | You, Brian, Don, & B

JS John Spears: 4/7 11:08 AM

Good deal.

**Mill Group Chat** | You, Brian, Don, & B

RB Robert Baumann: 4/7 11:03 AM

Got the thumbs up now going to try to fire back up and get everything unclogged...

**Mill Group Chat** | You, Brian, Don, & B

RB Robert Baumann: 4/7 10:25 AM

[Captured photo] Someone hit some lines down the street we are shut down for a while...

**Mill Group Chat** | You, Brian, Don, & B

RB Robert Baumann: 4/7 10:09 AM

Power surge everything kicked out DANG it we are trying to reset everything...

**Mill Group Chat** | You, Brian, Don, & B

JS John Spears: 4/7 7:49 AM

Good morning Crew! We'll continue with the OGR and finish SO-323. The next order is OGR as well. Jeremy Talbert and I will look at the packer nozzle and try to figure out why the "fill assist" air will not shut off. I'll move the bulk bags of Rose over to the quarry garage. Ronnell Fondren will be at the quarry today.

Julie Ann Cureg 3/24 12:59 PM  
Hi John Spears can I have the signed BOL for SO-576 if you already have it? Thanks!

MIII Group Chat | You, Brian, Don, & B

RF Ronnell Fondren 3/24 12:45 PM  
If this has been sitting here for a few days don't you think you should have more than one person on it? THIS IS A TEAM EFFORT RIGHT OR IS THERE A "I" IN TEAM.

MIII Group Chat | You, Brian, Don, & B

JS John Spears 3/24 12:45 PM  
Seen it myself.

**Mill Group Chat** | You, Brian, Don, +8

**Russell Tidaback (You)** 3/21 3:38 PM  
The problem that I have seen is, during the startup and shutdown, many think this is goof off time instead of getting things ready for production today (startup) or getting things closed out for the day (shutdown). Its the mgmt teams responsibility to ensure everything gets done. Task out, verify when complete.

That's what we'll do. I thought I'd seen all of the oddities here at the **mill**. We'll get it traced down. Glad it was discovered.

**Mill Group Chat** | You, Brian, Dorv, + 8

**Russell Tidaback (You)** 3/15 5:37 PM

go ahead and tape the area off to keep people from walking near it until we can find what circuit breaker its on.

**Mill Group Chat** | You, Brian, Dorv, + 8

**Russell Tidaback (You)** 3/15 5:36 PM

stepping on it with boots on wouldnt shock you... walking across barefoot... yes then it would.

**Mill Group Chat** | You, Brian, Dorv, + 8

**RB** Robert Baumann 3/15 5:35 PM

John Spears I wonder how long it's been like that? I will cut power to the whole building in the morning and solve the issue I'm just thankful no one stepped on it...

**Mill Group Chat** | You, Brian, Dorv, + 8

**Russell Tidaback (You)** 3/15 5:35 PM

but yes, we need to find the breaker that controls those wires and if not used for anything else, lock it out until we can get the wires removed. In the meantime, do we have any rubberized dip like you dip your tool handle in to pour over the wires to protect from shocking anyone?

**Mill Group Chat** | You, Brian, Dorv, + 8

**Russell Tidaback (You)** 3/15 5:33 PM

Ask Jim if he knows if a machine was at that location during his employment. Is this area on your right as you are walking from the bagger stand to the control room? What would be on the first floor in that area? The tube **mill** gear box?

yep. No ones fault specifically but now we all have a glimpse at why the Production Assistant role of QC is important.

**MIII Group Chat** | You, Brian, Doris, + 8

**JS** John Spears 3/9 5:31 PM

I sure will. I have wondered about the use of another company's BOL.

**MIII Group Chat** | You, Brian, Doris, + 8

**Russell Tidaback (You)** 3/9 5:26 PM

Guys, remember the BOLs are very important in shipping. It's the official transfer of ownership and liability for the product. When it comes to BOLs make sure these are correct! And remember Rob won't know if it's our BOL or shipper specific. He is only tasked to make sure "a" BOL is signed and pics are taken. We have to...

**MIII Group Chat** | You, Brian, Doris, + 8

**Julie Ann Cureg** 3/9 5:23 PM

Russell Tidaback Julie Ann Cureg make sure we don't create two BOLs... okay 😊 Doing so confuses the guys we they go to print the document. Ok. Sorry.

**MIII Group Chat** | You, Brian, Doris, + 8

**Russell Tidaback (You)** 3/9 5:22 PM

Julie Ann Cureg make sure we don't create two BOLs... okay 😊 Doing so confuses the guys we they go to print the document.

**MIII Group Chat** | You, Brian, Doris, + 8

**Russell Tidaback (You)** 3/9 5:20 PM

John Spears Make sure you verify the BOL when printing. If you don't see a BOL in the folder, ask Julie Ann Cureg to create one as there may be a shipper specific one needed. Don't assume all BOLs are the same.

**MIII Group Chat** | You, Brian, Doris, + 8

**Russell Tidaback (You)** 3/9 5:18 PM

Contact with to pick up the order...

**MIII Group Chat** | You, Brian, Doris, + 8

**Russell Tidaback (You)** 3/9 5:18 PM

You will have to email the shipper contact you made...

**Mailing Address:**

**MIII Group Chat** | You, Brian, Don, +8

**Russell Tidaback (You)** 3/9 5:18 PM  
The driver is gone from the location so that won't work.

**MIII Group Chat** | You, Brian, Don, +8

**Russell Tidaback (You)** 3/9 5:17 PM  
Us reaching out to them acknowledging the mistake, they may quickly make the change...

**MIII Group Chat** | You, Brian, Don, +8

**Julie Ann Cureg** 3/9 5:17 PM  
Russell Tidaback Julie Ann Cureg see if you can email the shipper and let them know the wrong BOL was used. And send them theirs I mean the driver...

**MIII Group Chat** | You, Brian, Don, +8

**Russell Tidaback (You)** 3/9 5:16 PM  
Julie Ann Cureg see if you can email the shipper and let them know the wrong BOL was used. And send them theirs...

**MIII Group Chat** | You, Brian, Don, +8

**Julie Ann Cureg** 3/9 5:16 PM  
Russell Tidaback Julie Ann Cureg this is where you need to only create the BOL that is needed. Having the duplicate BOLs is confusing the guys at the location to print. Sorry for this. They have provided number maybe they can get back for the BOL?

**MIII Group Chat** | You, Brian, Don, +8

**Jordan Tidaback** 3/9 5:16 PM  
They usually send one last minute, but I think we can get better at asking if they have a bol they want us to use or should we use our own, when we reach out to schedule shipping. That way we know ahead of time.

**MIII Group Chat** | You, Brian, Don, +8

**Russell Tidaback (You)** 3/9 5:16 PM  
Not a big deal but let's tighten up on the details.

**MIII Group Chat** | You, Brian, Don, +8

**Russell Tidaback (You)** 3/9 5:15 PM  
With shipper specific BOLs, it's tough to to change last minute.

Jeremy Talbert did the power flicker in the mill?

 **ATMO - Maintenance Group** | You, Dan, Joe, +3

 **Russell Tidaback (You)** 4/7 10:00 AM  
Jordan and Bonnie, two females, helped as well... just sharing so you know, this isnt the first time the palletizer hasnt worked and we had to hand stack bags.

 **ATMO - Maintenance Group** | You, Dan, Joe, +3

 **Russell Tidaback (You)** 4/7 9:58 AM  
we did 20 10'-high pallets one day... sure it was a rough day but it is doable. Plus that was in the heat of summer...

 **ATMO - Maintenance Group** | You, Dan, Joe, +3

 **Russell Tidaback (You)** 4/7 9:57 AM  
Not a bad idea... but hopefully we get the palletizer fixed next week. We have had three people stacking before in the curve corner. 100# bags, two people at a time stacking, grab an end of bag, one person bagging and rotate every 4 bags. 50# bags one person grabs the bag, rotate to the next person, one person bagging...

John Spears 3/25 9:01 PM  
Jeremy Talbert are you available to help Jim and I tomorrow to replace the shaker screens? I'll be glad to come by and pick you up in the morning.

**ATMO - Maintenance Group** | You, Don, Joe, 13

Russell Tidaback (You) 3/25 8:00 AM  
Good Morning. While we are ordering three, possibly five, replacement diaphragm pulse valves (these are getting harder and harder to find since it is old technology) and we have repair kits on-hand already, lets repair what we have. I am researching, changing from a pneumatic to an electromechanical pulse valve system...

**ATMO - Maintenance Group** | You, Don, Joe, 13

Russell Tidaback (You) 3/24 5:50 PM  
Thanks guys!

ATMO - Maintenance Group | You, Don, Joe, 13

JS John Spears 3/24 5:38 PM  
Jeremy Talbert Seems we are losing alot to box outside Yes. We need to replace three of the pulse valves.

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 3/24 5:38 PM  
Jeremy Talbert Seems we are losing alot to box outside Yep, need to revist the diaphragms and see which ones need rebuilt.

ATMO - Maintenance Group | You, Don, Joe, 13

JT Jeremy Talbert 3/24 5:37 PM  
Yes we closed about half way and the inside tanks went from 100-140 psi...

ATMO - Maintenance Group | You, Don, Joe, 13

JT Jeremy Talbert 3/24 5:37 PM  
So with no regulator outside no way to see how much air is going to valves...

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 3/24 5:36 PM  
So can you close the on off valve half way to build pressure?

ATMO - Maintenance Group | You, Don, Joe, 13

JT Jeremy Talbert 3/24 5:36 PM  
Seems we are losing alot to box outside...

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 3/24 5:36 PM  
Jeremy Talbert If you shut off air valve to outside it builds up to 125 psi when opened it goes to barely 87 and if im correct for those valve to fire correctly needs 90-100 Yep, that's definitely a problem.

ATMO - Maintenance Group | You, Don, Joe, 13

JS John Spears 3/24 5:35 PM  
Russell Tidaback No leaks Fantastic.

**JS** John Spears 3/23 7:03 PM  
Jeremy Talbert Thanks for being patient alot to take in so ill be asking alot of questions Thanks a bunch. We'll sit down together and look over the **maintenance** folders in Teams. I certainly appreciate your "get after it" mind set. I'll be there to help as well. Thanks again.

---

**ATMO - Maintenance Group** | You, Don, Joe, 13

**JT** Jeremy Talbert 3/23 6:50 PM  
Thanks for being patient alot to take in so ill be asking alot of questions...

---

**ATMO - Maintenance Group** | You, Don, Joe, 13

**RB** Robert Baumann 3/23 6:48 PM  
Thank you for jumping in and helping today I appreciate it and value your opinion...

---

**ATMO - Maintenance Group** | You, Don, Joe, 13

**R** Russell Tidaback (You) 3/23 6:48 PM  
Yes, sir. We are glad to have you onboard with us. Let us know if you have questions. one key note...if you come across a file that you feel we no longer need, put it in a folder called " Old Files". This way we can review them and delete if necessary.

---

Jeremy Talbert 3/23 6:46 PM  
I found the tab for where i do **maintenance** check sheet once i figure out phone and laptop stuff i think should be okay thank you for opportunity to do position

**ATMO - Maintenance Group** | You, Don, Joe, +3

Russell Tidaback (You) 3/23 4:32 PM  
no such this as over collaboration. 🙄

**ATMO - Maintenance Group** | You, Don, Joe, +3

John Spears 3/23 4:32 PM  
Good deal.

**ATMO - Maintenance Group** | You, Don, Joe, +3

Russell Tidaback (You) 3/23 4:32 PM  
As you guys gain more experience... you'll find "new" ways of doing things and this is good. We are all on the same team and anything that makes it easier, we should all be open too.

**ATMO - Maintenance Group** | You, Don, Joe, +3

Jordan Tidaback 3/23 4:31 PM  
If you need to see what the mill guys are putting in the daily workplace exam or forklift exam, you can find it here. [image]

**ATMO - Maintenance Group** | You, Don, Joe, +3

Russell Tidaback (You) 3/23 4:31 PM  
We try to use forms more than a spreadsheet for ease of use.

**ATMO - Maintenance Group** | You, Don, Joe, +3

Russell Tidaback (You) 3/23 4:31 PM  
A lot of documents you'll see were created but they didnt keep the spreadsheet. So it may be necessary to recreate to capture the data.

**ATMO - Maintenance Group** | You, Don, Joe, +3

Russell Tidaback (You) 3/23 4:30 PM  
Jessie Molesi ok sorry for the confusion. oh no, no confusion. Questions are good! Im glad you found the equipment inspection document.

The Daily Workplace Inspection Form, is the link at the top of the "Mill - Plant - Group"

ATMO - Maintenance Group | You, Don, Joe, + 3

Russell Tidaback (You) 3/23 4:27 PM  
Jessie Molesi Jeremy Talbert Is this what you need This checklist pdf is more for a piece of rolling equipment. We DO NOT want to print and have papers. If a new checklist needs to be created, let us know and we can have the IT team create a new form. With a Form the data can be captured into a spreadsheet for review.

Russell Tidaback (You) 2/26 12:01 PM

Gage Wheeler I am very disappointing in hearing this and your two week notice. I had higher hopes and expectations for you. I hope this is due to you moving back to Arkansas / family related / etc and not due to the job. Will you be there at the Mill tomorrow?

ATMO - Maintenance Group | You, Don, Joe, 13

Gage Wheeler 2/26 11:51 AM

I just spoke with John I am in Arkansas also as of effective tomorrow I am putting in my two week notice...

ATMO - Maintenance Group | You, Don, Joe, 13

John Spears 2/26 10:34 AM

Gage Wheeler RJ and I are at the mill replacing a couple of power cords. RJ is going to help you with the bagger/packer today.

ATMO - Maintenance Group | You, Don, Joe, 13

John Spears 2/25 7:41 PM

Russell Tidaback hmmm... I told him that we need to get the bagger up and going before 8am Monday. Not at 8am, but before, production is scheduled to start at 8am. I've never used the ATF-Acetone...

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/25 7:40 PM

hell of a lot cheaper than Kroil too.

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/25 7:39 PM

John Spears Kroil is good stuff. Yeah, I'm going to try the ATF-Acetone next time for penetrating fluid.

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/25 7:39 PM

hmmm... I told him that we need to get the bagger up and going before 8am Monday. Not at 8am, but before, production is scheduled to start at 8am.

ATMO - Maintenance Group | You, Don, Joe, 13

ATMO - Maintenance Group | You, Don, Joe, +3

JS John Spears 2/17 10:01 AM  
Gage Wheeler **maintenance** meeting.

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 2/15 1:22 PM  
Any citation that has been abated, please let me know ASAP. We are suppose to contact Mr. Shawn Pratt about  
each one. So he can verify that it was abated in their system, (think email trail)

ATMO - Maintenance Group | You, Don, Joe, +3

JS John Spears 2/15 1:20 PM  
Sounds good.

ATMO - Maintenance Group | You, Don, Joe, +3

Russell Tidaback (You) 2/15 1:20 PM  
I am Ccing you in on the Conference Request email to Mr Tony Simms on the few citations that I believe there is  
nothing we can do about them.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

ATMO - Maintenance Group | You, Don, Joe, 13

JS John Spears 2/15 1:18 PM  
Some looked like extra pieces that had been there for a while. I'll make sure.

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/15 1:17 PM  
"lying on the ground"

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/15 1:16 PM  
or not in place...

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/15 1:16 PM  
The guarding is what we should be focusing on as it appears a lot of guarding was/is missing.

ATMO - Maintenance Group | You, Don, Joe, 13

JS John Spears 2/15 1:16 PM  
Oh, ok...

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/15 1:15 PM  
John Spears Yes we do. But if the lights do not come on we would receive a citation for inadequate lighting. Mr. Prewett said a citation would be written either way. yep, I tried deleting my post before you received it as I did recall the insufficient lighting discussion after I sent my message.

ATMO - Maintenance Group | You, Don, Joe, 13

JS John Spears 2/15 1:14 PM  
Yes sir.

ATMO - Maintenance Group | You, Don, Joe, 13

Russell Tidaback (You) 2/15 1:14 PM  
I sent you my suggestion and responses to the citations. There are a couple we need more clarification on from Mr licklider.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,

ATMO - Maintenance Group | You, Don, Joe, + 3

JS John Spears 2/15 1:14 PM

Russell Tidaback John, do we not have a bulb to put into the socket to abate the light socket issue? Yes we do. But if the lights do not come on we would receive a citation for inadequate lighting. Mr. Prewett said a citation would be written either way.

ATMO - Maintenance Group | You, Don, Joe, + 3

JS John Spears 2/15 12:38 PM

On my way to get electrical parts.

ATMO - Maintenance Group | You, Don, Joe, + 3

Jordan Tidaback 2/14 12:49 PM

...The Ops Mgr and **maintenance** person usually work hand in hand when the inspector is there so we can fix the simple things quickly on site before he leaves....

ATMO - Maintenance Group | You, Don, Joe, + 3

Russell Tidaback (You) 2/14 12:49 PM

Gage Wheeler Mike Peterson from Premier Tech is going to call you to help with the bagger.

ATMO - Maintenance Group | You, Don, Joe, + 3

Russell Tidaback (You) 2/14 12:48 PM

Ah... makes sense.

ATMO - Maintenance Group | You, Don, Joe, + 3

GW Gage Wheeler 2/14 12:40 PM

Gage Wheeler do not answer any questions about the that the MSHA inspector may have. Do not go into the mill. I'll be the person who talks to me inspector. Then whats this about and when i asked about it john said he didnt want me volunteering information because of the question i asked about a certin code to keep our...

ATMO - Maintenance Group | You, Don, Joe, + 3

Russell Tidaback (You) 2/14 12:36 PM

Yep, I didn't think you did or would.

ATMO - Maintenance Group | You, Don, Joe, + 3

GW Gage Wheeler 2/14 12:34 PM

And the only thing thats was asked that i told him was about the Ground testing documentation...

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

**GW** Gage Wheeler 2/14 12:33 PM  
Well just make myself absolutely clear i wasnt giving up any information voluntarily thats wasnt directly asked of me by the msha inspector...

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

**Russell Tidaback (You)** 2/14 12:27 PM  
Oh well, thanks for just nodding and agreeing with the inspector. That's all we can do.

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

**Russell Tidaback (You)** 2/14 12:26 PM  
Amen to That!!!

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

**GW** Gage Wheeler 2/14 12:24 PM  
No he doesnt almost all of it is a no go Well regardless of that i wasnt volunteering information heres two logically reasons why 1. why would i create more work for myself than i have to 2. I dont have to point anything out if there is anything wrong with anything hes gonna find it and write it up without the help from...

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

**Russell Tidaback (You)** 2/14 12:21 PM  
What was the question about expanded metal? He didn't like the current guarding?

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

**Russell Tidaback (You)** 2/14 12:20 PM  
It's all good. Have to remember each inspector is going to have a different opinion of what is right...

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

**Russell Tidaback (You)** 2/14 12:19 PM  
Yep, I think the best way to approach the guarding issue is to put a gate entrance at the stairs going down/up from the production floor. Just an idea...

---

**ATMO - Maintenance Group** | You, Don, Joe, +3

**GW** Gage Wheeler 2/14 12:13 PM  
The certin question was about the expanded metel that was used and it is a now go thats all i was doing i wasnt giving information about other things or whatever i didnt even join the inspection **group** till he pointed things that need to be fix because at that point it became my Business

JS John Spears 2/13 11:54 AM

Russell Tidaback It probably has to do with the cold weather/temp of the fuel coming in. I was thinking the same thing about the cold and not being used for two days.

ATMO - Maintenance Group | You, Don, Joe, + 3

Russell Tidaback (You) 2/13 11:44 AM

It probably has to do with the cold weather/temp of the fuel coming in.

ATMO - Maintenance Group | You, Don, Joe, + 3

Russell Tidaback (You) 2/13 11:48 AM

Robert Baumann for now, lets not turn the valve to idle. Just stop just short of idle in case there is carbon build up in the valve.

ATMO - Maintenance Group | You, Don, Joe, + 3

JS John Spears 2/13 11:17 AM

I'll get a hold of Chuck from American Boiler and see if he thinks the valve is sticking.

ATMO - Maintenance Group | You, Don, Joe, + 3

RB Robert Baumann 2/13 11:01 AM

It keeps backing off even when it is set now something has to be going out and it seems like it's getting worse  
John Spears it will run fine for only a minute or two now temp keeps backing off randomly...

ATMO - Maintenance Group | You, Don, Joe, + 3

JS John Spears 2/13 10:56 AM

I tapped on the green valve that has the modulator/actuator attached to it and the valve opened up. The modulator or the valve is sticking when the burner is reduced to idle.

ATMO - Maintenance Group | You, Don, Joe, + 3

RB Robert Baumann 2/13 10:45 AM

[Selected photo] [Selected photo] [Selected photo] Can't get the regulator to work on the burner system usually you tap on the regulator and it gets it going but now it won't work at all. Was working fine til now...

Russell Tidaback (You) 2/13 10:08 AM  
oh yea, I dont think it was anything youve done. Thats not what I was meaning.

ATMO - Maintenance Group | You, Don, Joe, + 3

GW Gage Wheeler 2/13 10:07 AM  
i can ensure you that i didnt cross a hose or wire cause i didnt mess with anything like that pretty much all ive done with make the air automated with a solinoid and make the mottor mannually controled...

ATMO - Maintenance Group | You, Don, Joe, + 3

Russell Tidaback (You) 2/13 10:07 AM  
when looking at the baggers.... keep in mind they are two seperate pieces of equipment. with the jerry rigging thats been done to them. Try to isolate the two machines and troubleshoot from there. We only have 3-4 days left of bulk bag orders so this needs to be an immediate priority.

ATMO - Maintenance Group | You, Don, Joe, + 3

Russell Tidaback (You) 2/13 10:06 AM  
We are contemplating one going ahead buying these, just to have as a contingency plan for the two we have now.

ATMO - Maintenance Group | You, Don, Joe, + 3

Russell Tidaback (You) 2/13 10:05 AM  
Russell Tidaback it will take them 4-6 weeks to get the packer to us. Lets focus on getting the packer working. They have to replace the controllers and have us send them a 50# and 100# bag to program it.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

ATMO - Maintenance Group

You, Don, Joe, + 3

Russell Tidaback (You)

2/13 10:02 AM

plus, someone mentioned something "started working" that jim states hasnt worked in years... what was that something and lets turn that off as it may be related electrically to the issue we are experiencing with the bagger.

ATMO - Maintenance Group

You, Don, Joe, + 3

Russell Tidaback (You)

2/13 10:01 AM

I dont think the PLC programming is the issue. Since we didnt mess with it. my thoughts are someone cross hooked a plug, wire, hose, etc on the machines while trying to help troubleshoot the valve issue.

ATMO - Maintenance Group

You, Don, Joe, + 3

Russell Tidaback (You)

2/13 9:59 AM

Make sure to call the PremierTech guys this morning. They are pretty good about helping. Just be advised that they will push to have one of their guys come out at \$15k for 2-3 days (air flights, hotels, per diem, etc). Thats a no-go at this time. 🙄

ATMO - Maintenance Group

You, Don, Joe, + 3

Russell Tidaback (You)

2/13 9:57 AM

it will take them 4-6 weeks to get the packer to us. Lets focus on getting the packer working.

ATMO - Operations | You, Don, Gwen, i4

John Spears 4/4 5:53 PM  
Yes. We finished SO-316 and moved on to SO-323.

ATMO - Operations | You, Don, Gwen, i4

Jordan Tidaback 4/4 5:52 PM  
Were we able to start on SO-323 today?

ATMO - Operations | You, Don, Gwen, i4

John Spears 4/4 5:02 PM  
I'll pass that along to Rob.

ATMO - Operations | You, Don, Gwen, i4

John Spears 4/4 5:01 PM  
Good plan.

ATMO - Operations | You, Don, Gwen, i4

Jordan Tidaback 4/4 5:00 PM  
No, to keep from having that void, let's do 2, 2, and then 14 stacked double high. That way if they tip over, they'd be tipping onto another pallet rather than onto the floor of the container.

ATMO - Operations | You, Don, Gwen, i4

John Spears 4/4 4:58 PM  
Jordan Tidaback Yes, that's fine. It should be 18 pallets each on 4 containers and 20 pallets on the 5th container. Very good. Will we need to put the big blow up pillows in the void space so that the top pallets of row 4 do not tip over?

ATMO - Operations | You, Don, Gwen, i4

Jordan Tidaback 4/4 4:54 PM  
Yes, that's fine. It should be 18 pallets each on 4 containers and 20 pallets on the 5th container.

ATMO - Operations | You, Don, Gwen, i4

John Spears 4/4 4:52 PM  
Will it be OK for the containers being used for SO-316 to be life on one end? We're going to be putting 360 bags each on four separate containers and 400 bags on the fifth.

**Mailing Address:**

Russell Tidaback (You) 4/4 3:09 PM

John Spears The bags have the old Toa Kasei stickers on them and are now slip sheeted and wrapped on one pallet. Was gonna sticker the outside. They all do say DGC. I dont understand. [image] [image]

**ATMO - Operations** | You, Don, Gwen, 14

Jordan Tidaback 4/4 3:09 PM

Why do they have another customer's labels on it?

**ATMO - Operations** | You, Don, Gwen, 14

John Spears 4/4 3:07 PM

Russell Tidaback This is an international order, we need to make sure to verify the labels are correct, the bags are labelled correct, the pallets are marked correct, and what is loaded per container is correct. Its estimated... The bags have the old Toa Kasei stickers on them and are now slip sheeted and wrapped on one...

**ATMO - Operations** | You, Don, Gwen, 14

Russell Tidaback (You) 4/4 3:02 PM

This is an international order, we need to make sure to verify the labels are correct, the bags are labelled correct, the pallets are marked correct, and what is loaded per container is correct. Its estimated the shipping cost alone is \$10K-\$15k per container. Plus they have been waiting for this shipment for 13 months...

**ATMO - Operations** | You, Don, Gwen, 14

Russell Tidaback (You) 4/4 2:54 PM

I guess I dont understand the question. 1272 OGR TOTAL BAGS: 1260 OGR on 63 "5-highs" pallets 12 remaining bags get stacked with the "8 remaining bags of DGR (12 bags OGR + 8 bags DGR = 20 bags = "5-high") 568 DGR TOTAL BAGS: 560 DGR on 28 "5-highs" pallets 8 remaining bags\* 63 + 28 + 1 = 92 pallets total. Place in...

Jordan Tidaback 4/4 2:39 PM

correct...

ATMO - Operations | You, Don, Gwen, i4

Julie Ann Cureg 4/4 2:39 PM

Jordan Tidaback Oh because they're 100lb bags. Ok so it'll be 400 bags go on 20 large HT pallets for part A. 400 bags go on 20 large HT pallets for part B. Julie Ann Cureg, can you please update the packing lists for SQ-323 A and B? So this will be a total of 40 pallets?

ATMO - Operations | You, Don, Gwen, i4

Jordan Tidaback 4/4 2:34 PM

Oh because they're 100lb bags. Ok so it'll be 400 bags go on 20 large HT pallets for part A. 400 bags go on 20 large HT pallets for part B. Julie Ann Cureg, can you please update the packing lists for SQ-323 A and B?

ATMO - Operations | You, Don, Gwen, i4

RB Robert Baumann 4/4 2:31 PM

Ok thanks that's way more easy to accomplish but it will be 20 pallets double stacked for the 400.

ATMO - Operations | You, Don, Gwen, i4

Jordan Tidaback 4/4 2:30 PM

We have SQ-328 CDEFG coming up next week. We'll get it updated so we can make it more clear what goes to which container.

ATMO - Operations | You, Don, Gwen, i4

Jordan Tidaback 4/4 2:27 PM

For SQ-323, the order is for 800 bags of OGR. 400 bags go on 10 large HT pallets for part A. Please mark these pallets as A and send the weights to Julie. 400 bags go on 10 L HT pallets for part B. Please mark these pallets as B and send the weights to Julie. I updated the production calendar notes section with this...

ATMO - Operations | You, Don, Gwen, i4

Jordan Tidaback 4/4 2:23 PM

Yes, we can split up a little better going forward. This one was a last minute change as we moved from 50 pallets to 92; moving from 10 to 5 highs. Alex has access to the packing lists, so you can see what goes to which container (A, B, C, etc)

**Robert Baumann** 4/4 2:17 PM

Can we get orders like this split up a lil better part a was over 368 and c and d were vague I have them in groups of 360 bags as per what it stated but A was 568 idk maybe I just am not getting the split parts...

**ATMO - Operations** | You, Don, Gwen, 14

**Russell Tidaback (You)** 4/4 2:10 PM

SO-316: Each Container = 368 bags on 10 pallets. Labels need to state: Prior #2022GT-TRIPOLI01 / #14416 / Guangzhou.

**ATMO - Operations** | You, Don, Gwen, 14

**Jordan Tidaback** 4/4 2:10 PM

We'll also need each marked with A, B, C, D, E somewhere on the stretchwrap, so our weights on the paperwork match what is getting loaded into each truck.

**ATMO - Operations** | You, Don, Gwen, 14

**Julie Ann Cureg** 4/4 2:09 PM

Hey, John Spears Alex Snodgrass could you please give me the rest of the weight for SO-316 (if it's completed already)? You only gave me the B part so I need the A, C, D, & E. Refer to the Packing List in its SO folder. Thank you!

**ATMO - Operations** | You, Don, Gwen, 14

**Jordan Tidaback** 4/4 1:07 PM

Hi Alex - could you please put these in the folder? It's in the customers, distributors, sales channel > Files > paperwork for upcoming orders > SO-580? Thank you!

ATMO Safety | You, Don, John, 12

Jessie Moles | 4/13 4:58 PM

The filter classified as a P100 in Part 84 is the only Part 84 filter that is, in all senses, a HEPA filter as required by 1910.1001, the asbestos standard...

ATMO Safety | You, Don, John, 12

Russell Tidaback (You) | 4/13 4:58 PM

its the largest particle size and the heaviest material.

ATMO Safety | You, Don, John, 12

Russell Tidaback (You) | 4/13 4:57 PM

PLUS... MUST, and this should be done every day anyhow, OPEN ALL WINDOWS AND DOORS. On air quality sample day, always run OGR.

ATMO Safety | You, Don, John, 12

John Spears | 4/13 4:57 PM

Yes sir.

ATMO Safety | You, Don, John, 12

Russell Tidaback (You) | 4/13 4:56 PM

just have to play it smart...

ATMO Safety | You, Don, John, 12

Russell Tidaback (You) | 4/13 4:56 PM

maintenance guy, sits in maint office...

ATMO Safety | You, Don, John, 12

Russell Tidaback (You) | 4/13 4:55 PM

usually a person that isnt going to get all in it.. control room person, forklift driver, palletizer person...

ATMO Safety | You, Don, John, 12

John Spears | 4/13 4:55 PM

Russell Tidaback this is why we hardly ever choose Jim to wear a monitor. Jim attracts the dust Yep. Dirty Jimmy.

Office (239) 829-5457

ATMO Safety | You, Don, John, +2

Russell Tidaback (You) 4/13 4:54 PM  
lol...

ATMO Safety | You, Don, John, +2

Russell Tidaback (You) 4/13 4:54 PM  
this is why we hardly ever choose Jim to wear a monitor, Jim attracts the dust...

ATMO Safety | You, Don, John, +2

Russell Tidaback (You) 4/13 4:54 PM  
If they werent wearing a monitor... they wont be included.

ATMO Safety | You, Don, John, +2

JM\_ Jessie Molesti 4/13 4:54 PM  
I believe so just based looking off the chart i posted earlier...

ATMO Safety | You, Don, John, +2

JS John Spears 4/13 4:53 PM  
We'll need at least 4 units. I'm afraid MSHA will ask us about the maintenance personnel. I'm sure they'll be next to be tested.

ATMO Safety | You, Don, John, +2

Russell Tidaback (You) 4/13 4:53 PM  
The 3M 2097 filters can be bought at lowes, ace hardware, etc...

ATMO Safety | You, Don, John, +2

Russell Tidaback (You) 4/13 4:52 PM  
HEPA equivalent to P100, yes?

ATMO Safety | You, Don, John, +2

JS John Spears 4/13 4:51 PM  
I'm sure as long as it is a HEPA.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 4/13 4:50 PM  
Everyone agree the 3M P100 2097 filters should be sufficient?

**ATMO Safety** | You, Don, John, 12

JS John Spears 4/13 4:48 PM  
Yes. N95.

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 4/13 4:47 PM  
N95v ?

**ATMO Safety** | You, Don, John, 12

JM Jessie Moles 4/13 4:46 PM  
Yes for the Admin office an N95v mask or half mask with dual respirators works...

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 4/13 4:46 PM  
I am having her double check the on-hand inventory... she has 4 larges but is confirming this.

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 4/13 4:45 PM  
John is good with the normal N95 as he did not test over due to going to the admin bldg etc throughout the day.

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 4/13 4:44 PM  
Its not EVERYONE ... only those tested to be over exposed.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,

**Jessie Molesi** 4/12 2:35 PM

I will check with Keith to find out what his exact source was and send it to you. I hate being confused and what to make sure I understand....

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 4/12 2:28 PM

Keith likes to add too much of his own opinion rather than keeping to what the regulation guidelines are.

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 4/12 2:27 PM

Jessie Molesi Can you provide the reference to where the CFR states that we NEED to purchase the PAPR system? Im not trying to be a pain, I just dont think we need to purchase \$12k worth of equipment which the company has never used.

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 4/12 2:25 PM

unless I am reading it wrong.

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 4/12 2:25 PM

Again, reading the CFR, it does not state that it is a requirement to purchase a PAPR system.

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 4/12 2:23 PM

Hmmm, interesting, what is "progression on working with our dust ventilation systems"? Opening the doors, windows, and turning on the exhaust fans... this has always worked in the past...

**ATMO Safety** | You, Don, John, 12

**Jessie Molesi** 4/12 2:20 PM

This sucks but I don't think MSHA is wrong they gave us time to show progression on working with our dust ventilation systems but we have not, therefore at that rate even with windows and doors open we will never be under the threshold limit for silica concentration. Also as far as the respirator Markeson explained to...

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 4/12 2:14 PM

John Spears Russell Tidaback because once again we're back to the hand grinder scenario. I agree.

Russell Tidaback because once again we're back to the hand grinder scenario.

**ATMO Safety** | You, Don, John, +2

John Spears 4/12 2:12 PM

Russell Tidaback John Spears I'd like your thoughts on this too. I'm not very happy about this one bit. We requested a retest and time to get everyone health tested. Doing a "fit test" is useless until we find out what forms of breathing apparatuses we are able to use. I figured Mr. Pratt and Mr. Simms would have...

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 4/12 1:57 PM

John Spears I'd like your thoughts on this too.

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 4/12 1:33 PM

Jessie Molesi Have you read over the referenced sections of the CFR (56.5001 (a) / 56.5005)? I'd like to get your thoughts on this citation/order:

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 4/12 1:31 PM

Thanks. I moved them to a 12APR2023 folder. Its understandable that this MSHA stuff is frustrating and aggravating. We can only do what we can do. I guess Mr. Markeson didnt think ordering more M95 masks, the ear plugs, researching to have the Gibraltar calibration done or the scheduling of the cardio tests is effort...

**ATMO Safety** | You, Don, John, +2

Jessie Molesi 4/12 1:13 PM

done...

**ATMO Safety** | You, Don, John, +2

Russell Tidaback (You) 4/12 1:08 PM

Jessie Molesi Its okay, if he issued the order to be closed down, just scan it to a 12APR2023 folder and let me know when this is completed. I have already spoken with Mr. Pratt this morning and will call him again once I see the order. John Spears...

**ATMO Safety** | You, Don, John, +2

Jessie Molesi 4/12 1:05 PM

Yes 220 is the correct amount....

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 4/12 1:05 PM

This is why we have to read and understand the CFR... [image] <https://www.law.cornell.edu/cfr/text/30/56.5001>  
56.5001 Exposure limits for airborne contaminants. "Except as permitted by § 56.5005 -"  
<https://www.law.cornell.edu/cfr/text/30/56.5005> "(a) Respirators approved..."

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 4/12 1:04 PM

So I guess the Shipping info is how we want it sent back to us? I need the measurement of the box so we can look at method of shipping and costs. And the cost is \$220 for the recalibration? Is that correct to put on the PD?

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 4/12 12:51 PM

Jessie Molesi I need the PAPR systems to do fit tests on them. Also he said based on the concentrations of silica we have in the air we are required per MSHA to have either a PAPR system or SCBA system until levels can be lowered. WE have the environmental controls in place... we need to use them and have a resample.

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 4/12 12:39 PM

Yes, I'll look at that form. One moment...

**ATMO Safety** | You, Don, John, 12

**Jessie Molesi** 4/12 12:33 PM

Well for now could you help me with this form so i can get the Giliibrator sent in for recalibration. We need to get the sampling and analysis set up so we can get Citation #9539788 terminated...

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 4/12 12:20 PM

I honestly don't think we'll be going that way, but we will see. That was the whole point of the resample.

**ATMO Safety** | You, Don, John, 12

**Jessie Molesi** 4/12 12:17 PM

I need the PAPR systems to do fit tests on them. Also he said based on the concentrations of silica we have in the air we are required per MSHA to have either a PAPR system or SCBA system until levels can be lowered.

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 4/12 12:14 PM

Have we done the fit tests yet?

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,

Office (239) 829-5457

 **ATMO Safety** | You, Dor, John, 12

 Jordan Tidaback 4/12 12:11 PM

We'll have to see what they say when we hear back from them. Those systems weren't required before and there is nothing in the regs that requires it. Based on our micron size, N95 masks meet that requirement. \$12K is not pocket change.

 **ATMO Safety** | You, Dor, John, 12

 Jessie Molesi 4/12 12:01 PM

The MSHA inspector informed me that the doors and windows were open along with exhaust fans on on the day they did sampling. He also said that we cannot do production until we have the PAPR systems and everybody is medically evaluated and fit tested.

 **ATMO Safety** | You, Dor, John, 12

 Jordan Tidaback 4/12 11:53 AM

We've been in contact with MSHA and will let you all know what we hear.

 **ATMO Safety** | You, Dor, John, 12

 Jordan Tidaback 4/12 11:52 AM

The point of their revisit was to do a resample. Since we weren't running, they should have come back later. When we were cited for this last month, it's possible the "engineering controls" (open doors, windows, exhaust fans) weren't being used, thus resulting in a higher concentration. When the engineering controls are...

---

**ATMO Safety** | You, Don, John, 12

**Jordan Tidaback** 3/31 1:52 PM  
...I'm updating the training plan with the "Live interactive instructor led videoconference" teaching method and also including Jessie as a **Safety** POC....

---

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 3/31 1:13 PM  
It takes time... but we will get there. Any training or related MSHA questions dont hesitate to reach out to Norman Zeman, Zeman.Norman@DOLGOV, he has always been a good reference for things MSHA related. He usually responds with 24 hrs where other people... it make take weeks.

---

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 3/31 1:08 PM  
Again, you are part of the operations team that keeps the employees safe and keeps the company compliant with outside organizations. As you learn the role and its responsibilities, you will understand more of whats right and whats wrong. 99% of the time we receive a citation... its going to be an oversight because...

---

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 3/31 1:05 PM  
Jessie Molesi Anytime you receive a MSHA citation, Always look at the [image] I use the Cornell Law School library for the e-CFR, as they have it broken down to an easier to read format...  
<https://www.law.cornell.edu/cfr/text/30/56.5001> you can jump to specific sections quickly (see arrows) [image]...

---

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 3/31 12:53 PM  
IMO, I dont know why they, who ever built the building, just didnt run chain link fencing around the bottom of the building and remove the floor level walls of the bldg. Air flow problem resolved. [image]

---

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 3/31 12:51 PM  
windows, doors, and exhaust fans... is the "engineering control" to address the air quality issue.

---

**ATMO Safety** | You, Don, John, 12

**Russell Tidaback (You)** 3/31 12:50 PM  
I wouldnt be suprised if they dont, and I wouldnt put too much effort into them. Again, from previous owner and mill management... they were never used in the Mill.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

**ATMO Safety** | You, Don, John, + 2

Jessie Molesi 3/31 12:49 PM

Acknowledged. For now i have these 4 PAPR systems i found and i am seeing if they work...

**ATMO Safety** | You, Don, John, + 2

Russell Tidaback (You) 3/31 12:47 PM

Jessie Molesi please acknowledge.

**ATMO Safety** | You, Don, John, + 2

Russell Tidaback (You) 3/31 12:47 PM

but for the immediate fix... as I dont think, and if I remember correctly, we have those PAPRs but have never used them... have all the doors and windows open anytime the mill is operating AND have all the exhaust fans on. This is part of the Mill start up and shut down steps Rob should be ensuring is done everyday.

**ATMO Safety** | You, Don, John, + 2

Russell Tidaback (You) 3/31 12:45 PM

I will stress with you... any MSHA inspector is not your friend. Anything you say to or in their presence can AND WILL be used against you in a court of law. Hopefully, this will never be needed BUT just be well aware.

**ATMO Safety** | You, Don, John, + 2

Russell Tidaback (You) 3/31 12:43 PM

Jessie Molesi Keith is a good guy, you may want to connect with him on how to build a good tracking and managing system for the citations.

**ATMO Safety** | You, Don, John, + 2

Russell Tidaback (You) 3/31 12:42 PM

Travelers is our carrier. I'll look into this... never heard of this being done but learn something new everyday when dealing with MSHA. 🤔

**ATMO Safety** | You, Don, John, + 2

Jessie Molesi 3/31 12:41 PM

Russell Tidaback who is our carrier insurance the MSHA inspector told me that I could contact them and see if they offer programs to send us the equipment we need to do air surveys and send the equipment back for analysis.

**ATMO Safety** | You, Don, John, + 2

Russell Tidaback (You) 3/31 12:39 PM

Hi Jessie... With the MSHA citations today... "Engineering Controls" are easier and more effective than a respirator. The thing to take in consideration is the amount of air flow through the building during an air sampling. eg open all doors, open all windows on all floors, and turn on all exhaust fans... this probably...

**ATMO Safety** | You, Don, John, 12

Jessie Molesi 3/28 1:22 PM

Do you know where i can find the list for the electrical systems grounding test?

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/28 1:16 PM

Yep, with a 150+ year old company, believe me, it will happen more than once. This is why it is best to create a paper trail when working with a govt agency. Dont be suprised 6 months down the road, you receive an email stating they need an update on the stormwater permit application.

**ATMO Safety** | You, Don, John, 12

Jessie Molesi 3/28 1:08 PM

Copy that they sent me through the ringer and checked everywhere including old systems and found nothing...

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/28 1:07 PM

No worries. If you called OK and they cant find a permit, they wont be coming to look for one.

**ATMO Safety** | You, Don, John, 12

Jessie Molesi 3/28 1:06 PM

Ok all I could find was the Missouri no exposure certification for the mill. Can't find any previous storm water certificates for OK. May be looking in the wrong places. 🤔...

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/28 1:05 PM

I assume that at one time, MO & OK required one but that requirement faded away. Yes, as long as we have the certificate just in case we get asked.

**ATMO Safety** | You, Don, John, 12

Jessie Molesi 3/28 1:04 PM

Okay so can I take that off the reporting schedule since we don't need a storm water permit there...

**ATMO Safety** | You, Don, John, 12

Russell Tidaback (You) 3/28 1:03 PM

And since we do not generate any type of waste... MO states we do not need one...

Reporting Schedule Requirements.xlsx Hi Jessie - was it this? Reporting Schedule Requirements.xlsx

Reporting Schedule ...  
American\_Tripoli\_Seneca2...

ATMO Safety | You, Don, John, 12

JM Jessie Molesi 3/28 9:22 AM

Jordan Tidaback I saw in an old chat that you had sent an annual filing dates for state and federal reports. I was wondering if that is the most updated one and what on that chart am i responsible for. I want to make sure i am doing everything i was hired to do.

ATMO Safety | You, Don, John, 12

Jordan Tidaback 3/27 3:55 PM

Russell Tidaback created it and can point us to where the data is going.

ATMO Safety | You, Don, John, 12

JM Jessie Molesi 3/27 1:52 PM

I can only see mill associate not mill lead or maintenance...

ATMO Safety | You, Don, John, 12

JM Jessie Molesi 3/27 1:51 PM

Jordan Tidaback is there a location in where I can find the workplace **safety** check that the Mill lead does. I can't see when rob does it.

ATMO Safety | You, Don, John, 12

Jordan Tidaback 3/27 12:43 PM

It's true. Each employee should have a baseline audiogram within 6 months of employment. Thereafter, once a year. We were trying to get an annual one going. I think it would make the most sense to have it done in the colder months when we can't produce due to the temperature being below 35 degrees.

ATMO Safety | You, Don, John, 12

JM Jessie Molesi 3/27 12:40 PM

Jordan Tidaback I am editing the **safety** program and I see a section that says we offer and audio gram as part of the annual physical is that true or can I take it out?

2/15 2:24 PM

Russell Tidaback

Guys, don't sweat the MSHA inspection... as we have always stated they are just doing their job.  
Legit citations will be fixed for the guidance we have to follow.

## Exhibit 4

Exhibit P-43, Page 595

The biggest thing to remember is be safe. Guarding must be in place for everyone's safety.

The other stuff we will deal with one by one. Just keep doing your best to make things happen.

This is just another hurdle that we will get through.

Once the inspection is completed and we have a list of what we need to address, let's knock it out so we can get back to producing.

Don't let this inspection get you down.

As you know, this isn't the first cluster f#ck we have had to address from the previous ownership lack of. But guys... this is why MSHA has to do what... by Russell Tidaback

March 6

Good morning everyone. A few things for t... by Russell Tidaback

3/6 8:01 AM

Russell Tidaback

Good morning everyone.

A few things for today we need to make happen.

First thing, each person needs to do their workplace exam.

Next, [Patrick Lewis](#) and [Ronnell Fondren](#) - harness up and were going to be removing the cover and loosening the bearing caps on the classifier elevator in prep for the crane tomorrow. [John Spears](#) please be the ir ground safety and parts chaser.

[Jim Hoover](#) - I will help you work on Conduit replacement by the green monster.

[RJ Williams](#) - please collect all the power tools and electrical cords as you'll be doing continuity testing. [John Spears](#) please show RJ how to do a continuity test and has the white tape to show its been tested.

[Robert Baumann](#) please make sure the power is LOTO for the elevator scroll and green monster scroll for Jim.

Please also make sure these guys take their lunches on time and come back on time, but are also staying gainfully employed.

Once the classifier elevator is ready for tomorrow, Pat and Ron will need to go the maintenance room to learn how to do a continuity test and assist RJ. Once Jim is done, he will also go to maintenance room to assist with continuity testing. (Anything that has a 3 pronged plug all has to have a continuity test)

**Exhibit 4**

Once the continuity testing is all done, then we need to focus on cleaning out the vacuum system. And I will be working on the bagger.  
I've laid out this plan but plans may change. The weather should be nice so let's take advantage of it and get things done today. If you find yourself without something to, ask Rob, John or me and we'll task you. There is a lot that needs to be done.

Robert BaumannWe don't need to shut the building down.Tape off the area so no one can step on it or near it.

We need to run production.

John will troubleshoot where the wires are and deal with it.

Those wires have obviously been there like that for approximately 30+ years.

Ridiculous, I know but now we are aware of the issue it will be addressed. Just keep it taped off, throw some Tripoli back over the exposed wires to create a barrier as a precaution so nothing will fall across the wires and start a fire. Nothing crazy but a couple handfuls should be enough.

I still can't believe someone, probably the palletizer installers, cut the wires at the floor but didn't think to follow up on the other side of the floor.That's just unprofessional and dangerous.

[John Spears](#) please troubleshoot this today. At a minimum find out where the wires run to and see if that circuit is powering anything else. If nothing, turn that breaker off and loto it. Then let's discuss the wire run removal.

Russell Tidaback

That should be a cue [Patrick Lewis](#) that there is so much more to learn about the mill.

The issues Jim brought up

1. G40 scroll bearing.
2. Dust on the 4th floor
3. Sock filters
4. Screens
5. 4th floor horizontal scroll
6. Bulk feed scroll
7. Little Mac air flow
8. Air compressor Air pressure
9. Dusty in mill

All of these items mentioned need to be prioritized and addressed accordingly.

The filter issue first. Jim, you know these filters, take a look. It's probably due to being backed up from

## Exhibit 4

the debris that was in the system.

The air compressor. John will take a look at it and see what's up with it.

We have to remember systems require all parts to work properly together. If one part backs up... it should be expected for the other parts to not function correctly.

Yesterday, you cleaned out the system... now we need to get all the subsystems reset back to "zero" so they can start to function together as a whole system.

We can't run around like chickens with their heads cut off and expect everything to magically happen all at once.

Organizational skills, knowledge, patience and timing is how things happen efficiently.

Standing around complaining/pointing fingers won't fix anything.

As a team of people, we all need to work together to address the issues within the mill.

It's great that Jim pointed these issues out. It helps the mgmt team coordinate what needs to be addressed.

As Patrick pointed out in a joking manner, there is a lot to learn about how the mill works...which is the first promotion step for all mill associates.

John and Rob will devise a plan, task appropriately and together we will make today a successful day. I'm trying to figure out the air pressure i... by Unknown User

Russell Tidaback

Awesome, Rob, thanks.

FYI all, we have three new team members joining us today. Jeremy - Maintenance, Jessie - Safety, and Alex - Production coordinator.

It will take some time this morning to get these guys set up, but you will start seeing them today.

## Exhibit 4

Exhibit P-43, Page 649

We need to finish SO-304 from yesterday and start on SO-316.

316 is a large order. These are 10-highs... Hopefully, one of the last greater than 5 highs we have to do.

We don't advertise more than 5-highs anymore. Not to say that a customer won't order a 7-high, for example, but...it should be seen less often.

The palletizer motor we are addressing. Hopefully, I will have that motor back to repair the palletizer here soon. We don't like you guys' hand stacking bags anymore than you like stacking them. Well, except for [Patrick Lewis](#), since we know he likes hand stacking bags. 😊 lol.

Talking about dust in the Mill. If we follow the instructions given, all mill windows and doors should be open at the beginning of the shift and closed at the end of the shift. This is to help blow out any dust.

This is not only for your comfort but also as a safety precaution for dust levels. Rob, make sure this is done. Especially on days when MSHA is there doing an air sample test... kind of makes sense right.

Make sure we are doing the daily workplace inspections, equipment inspections, etc.

Make sure we are lubricating the classifier elevator bearings and blower bearings outside... let's not forget about these...

It will take time for these new guys to catch on... let's accept them into the team, help them learn. Keep any negative to yourself, let them become part of the team, and let's get things done.

The weather should help with production. Let's keep an eye on the dust output and have a good day today.

preventive maintenance prevents breakdowns.... by Russell Tidaback  
3/30 4:20 PM

Russell Tidaback

preventive maintenance prevents breakdowns.It goes the same with the body.

Same principle when it comes to start up and shut down procedures... if not followed, things get missed and over looked.

Make sure you guys perform stretching exercises every morning and evening.

As the temperatures start to change, so does what our body requires. Drink plenty of water, stretch the muscles you know you are using, especially your legs, back, arms, and neck.

We need each and everyone of you.

John Spears

4/7 3:14 PM

I picked these off of the pick belt before they went into the pulverizer. Whoever is tasked to operate the crusher please keep an eye out for big flint rocks. As you can see from the size of these they originally came from a bigger piece before it went through the crusher. Flint rocks this size can really reek havoc on the pulverizer. Thanks.

Hi Guys. From what we are learning in d... by Russell Tidaback

4/14 8:04 AM

IMPORTANT

Russell Tidaback

Hi Guys.

From what we are learning in dealing with MSHA, and the recent air quality test results...those individuals who were tested as overexposed will need to wear a Powered Air Purifying Respirator (PAPR) until we can get the air readings back down to under the limits.

We have ordered these PAPR masks. These should be in Mon-Wed of next week.

We dont want you guys missing that many days of no pay so John and I are going to discuss later today about how we can keep you guys working mon-when ever the masks come in. I do apologize for yesterday and today.

The plan is as soon as the masks come in, to have Jessie put them together, and notify MSHA so they can modify the Citation/Order on the mill so we can run product. Then he will notify you guys to come in and get fit tested for these new masks (yes, its required to fit test you with each new style/manufacture mask).

As soon as every affected associate is fit tested and we can operate, we need to. Whether this is Tuesday, Wednesday, or Thursday. What ever day it is. We need to get back to pumping out product. Payroll and bills still need to get paid!

This should be a learning lesson for all... the opening of all doors, windows each morning and closing of all doors, windows each afternoon AND turning on all exhaust fans is CRITICAL each and every day.

This simple tasking is on the board in the breakroom... this should not be overlooked!

**Exhibit 4**

Any questions on this post, please collaborate or ask Rob/John/Jessie directly.

Good Morning Everyone. MSHA inspector, Mr... by Russell Tidaback

4/17 11:16 AM

Russell Tidaback

Good Morning Everyone.

MSHA inspector, Mr. Markeson, is suppose to be there in the morning to address the "close tag" issue in the mill. He has also been asked to clarify what "tasks" we can do in the mill while under the Order.

The PAPR masks are scheduled to arrive Tomorrow, so Jessie will get these assembled and you'll need to be fit tested.

Then hopefully by Wednesday, we can get back to operations. Those tested and overexposed will be required to wear the PAPR masks until we get an air quality resample thats under the limits.

Not a big deal, just make sure you are wearing your masks. Work with Jessie to make sure it is comfortable and seals like it should.

Jessie is working on getting the "gilibrator 2" serviced and recalibrated for use. The gilibrator is an air sampling device. This will allow us to do air sample tests as needed to ensure we are staying under the prescribed limits by NIOSH standards.

Even when we are under and are operating, we should be wearing all the PPE provided.

As you can all now see how important it is to open all the doors, windows and turn on the exhaust fans in the Mill. These engineering controls are designed to dilute the air with fresh air and keep the air

## Exhibit 4

moving. The PPE is an administrative control designed to add the extra protection that an engineering control may not.

It is imperative for each of you to make sure these controls are being used. They are for your protection.

February 14

John Spears 2/14 6:35 AM

JS Gage Wheeler do not answer any questions about the that the MSHA inspector may have. Do not go into the mill. I'll be the person who talks to me inspector.

John Spears 2/14 10:13 AM

JS [6:55 AM] John Spears  
I understand. I should have been more specific about not volunteering information. I will escort the inspector.  
like 1

2/14 10:15 AM

MSHA Guide to Equipment Guarding  
<https://arlweb.msha.gov/s%26hinfo/equipguarding2004.pdf>

John Spears 2/14 10:22 AM

JS Those are the best representative pictures I've seen so far.

Unknown User 2/14 11:11 AM

UU There was no Volunteering information i was asking a question about a specific code that way we can get the right kind of material on the way to fix the guards so whe can be in compliance so we can terminate the Citations

The certin question was about the expanded metel that was used and it is a now go thats all i was doing i wasnt giving infomation about other things or whatever i didnt even join the inspection group till he pointed things that need to be fix because at that point it became my buisness

2/14 11:19 AM

Yep, I think the best way to approach the guarding issue is to put a gate entrance at the stairs going down/up from the production floor. Just an idea...

It's all good. Have to remember each inspector is going to have a different opinion of what is right

What was the question about expanded metal? He didn't like the current guarding?

Unknown User 2/14 11:24 AM

UU No he doesnt almost all of it is a no go Well regardless of that i wasnt volunteering infomation heres two logicly reasons why 1. why would i create more work for myself than i have to 2. I dont have to point anything out if there is anything wrong with anything hes gonna find it and write it up without the help from anyone.

2/14 11:26 AM

Amen to That!!!

Oh well, thanks for just noddng and agreeing with the inspector. That's all we can do.

Unknown User 2/14 11:33 AM

UU Well just make myself absoultely clear i wasnt giving up any infomation volunterly thats wasnt directly asked of me by the msha inpector

And the only thing thats was asked that i told him was about the Ground testing documentation

2/14 11:36 AM

Yep, I didn't think you did or would.

Unknown User 2/14 11:33 AM

Well just make myself absolutely clear i wasn't giving up any information voluntarily that's wasn't directly asked of me by the msha inspector

And the only thing that's was asked that i told him was about the Ground testing documentation

2/14 11:36 AM

Yep, I didn't think you did or would.

Unknown User 2/14 11:40 AM

Gage Wheeler do not answer any questions about the that the MSHA inspector may have. Do not go into the mill, I'll be the person who talks to me inspector.

Then what's this about and when i asked about it John said he didn't want me volunteering information because of the question i asked about a certain code to keep our Business in compliance with msha

2/14 11:48 AM

Ah... makes sense.

Gage Wheeler Mike Peterson from Premier Tech is going to call you to help with the bagger.

Jordan Tidaback 2/14 11:49 AM

Hi Gage, we spoke with John about that. You are absolutely allowed to answer questions the MSHA inspector has (obviously). I think John may have meant don't just go up to him and point out everything under the sun. We've had people do that, knowing very well it's an issue being worked on.

The Ops Mgr and maintenance person usually work hand in hand when the inspector is there so we can fix the simple things quickly on site before he leaves.

Hope that makes sense? I know having the inspector there makes for a tense environment, but you guys are a good team and we are all trying our best to get ahead of all the things that need fixed.

February 15

Exhibit P-43, Page 704

Good morning John.

Your message to Gage. I dont think we can legally tell employees not to talk with MSHA inspector...

*During the inspection, the compliance officer may do any of the following:*

1. Inspect the work area for unsafe acts or conditions. They will especially be concentrating on fall hazards, electrical hazards, struck by and caught between type hazards.
2. Ask questions of workers. Questions should be answered truthfully but do not offer any unnecessary information.
3. Interview workers privately.
4. Inspect equipment such as extension cords, backup alarms, scaffolds, etc.
5. Take pictures or video of work activities.

The person accompanying the inspector should take detailed notes of the walk around inspection. If possible, take pictures of anything the compliance officer takes pictures of. Any hazards that are pointed out during the inspection should be corrected immediately. Do not argue with compliance officers, even if you don't agree with them. It is also not a good idea to stop work altogether while the compliance officer is on site. This will only aggravate the compliance officer and prolong the inspection. Abel employees may not be able to accompany MSHA inspectors during their inspections. Generally they are escorted by a representative of the mine owner and our work sites are only a small part of the overall inspection.

<https://www.natlenvtrainers.com/blog/article/osha-and-msha-inspections>

#### OSHA and MSHA Inspections

OSHA and MSHA inspections routinely take place at many facilities throughout the U.S. Find out how to be...

[www.natlenvtrainers.com](http://www.natlenvtrainers.com)

but I would make sure you escort him on-site until he leaves the premises.

I would share with the guys, if asked by MSHA inspector, answer truthfully and direct but do not offer any unnecessary information. If the inspector is asking you specific questions, he/she is not your buddy, he is fishing for problems.

John Spears 2/14 6:55 AM

JS I understand. I should have been more specific about not volunteering information, I will escort the inspector.

2/14 6:56 AM

Just dont want Gage to blurt out to the inspector if asked something, "I was told not to talk to you"... 🤔

I knew what you meant but... these guys...

i dont know.

John Spears 2/14 6:57 AM

JS Yes.

John Spears 2/14 9:50 AM

JS The MSHA inspector is nice enough bit a little too picky for me.

John Spears 2/14 10:25 AM

JS I'm taking Andrew for a drug test.

John Spears 4/14 8:18 AM

We're headed to the PFT test now.

4/14 8:59 AM

I cant see the attachment.

John Spears 4/14 9:08 AM

#### Miners' Representatives - Participating In Inspections

Your representative participates in our inspection without loss of pay under certain circumstances.

### Reporting Possible Violations and Imminent Dangers

### Can I Receive Pay if I Miss Work Because of a Withdrawal Order?

The order is not terminated before the next shift, all the miners on the next shift are entitled to be paid at their regular rate for the time they are idled, up to four hours.

The operator fails to comply with a withdrawal order issued under the Act and keeps you working in the area to which the order applies, you are entitled to receive double pay for the time you worked while the withdrawal order was in effect. NOTE: If you are working to correct the condition that resulted in the withdrawal order, then you are not working in violation of the order and are not entitled to double pay.

Training (Part 45 and Part 46)

Here it is.

4/14 9:09 AM

Yes, I understand...

Check the ATMO Safety chat... Jessie was inquiring as well.

John Spears 4/14 9:11 AM

JS

Looks good.

4/14 9:12 AM

By all means, if Rob thinks we did something "illegal", then he should bring it up...

From Rob...

Looks like we are in titled to up to a week pay because nothing was done about the safety situation until we were under the withdrawal. But legally have to pay us for the 12 hrs then we all file for the other hours and technology we ran illegal on Monday and Tuesday. Don't really want to have to file with msha but we the mine workers were not at fault

Again, it isnt that the 104(b) states we cannot work in the Mill. It states that we cannot create the hazard, aka create a dusty atmosphere.

👍 1

We can pay the guys to come in an do other things... but this is as I mentioned previously... we need them to be productive towards production...

John Spears 4/14 9:13 AM

JS

Russell Tidaback 4/14/2023, 9:12 AM

We can pay the guys to come in an do other things... but this is as I mentioned previously... we need them to be productive towards...

Yes I agree.

 ATMO Safety | You, Don, John, +2

 John Spears 5/30 10:50 AM

Jessie Molesi I calibrated the Escort Elf pumps and we have 6 operational ones that all ran and calibrated within **MSHA** standards of 1.7 LPM. 3 of the bad ones have deficient batteries that cannot hold a charge and the... Good deal. We should be able to run another good test.

 ATMO Safety | You, Don, John, +2

 John Spears 4/18 4:22 PM

Russell Tidaback perfect, then it shouldnt take tooo long. 😊 Then we play the whole waiting game on **MSHA**... Yes sir you are probably correct. Hurry up and wait.

 ATMO - Maintenance Group | You, Don, Joe, +3

 John Spears 4/16 8:45 PM

**MSHA** is supposed to be at the mill in the morning to turn on the power. The mill is still shut down until we get the PAPRs.

 ATMO Safety | You, Don, John, +2

 John Spears 4/14 2:07 PM

...Im telling you guys... Keith is a snake... be cautious on what you say to and around him. Any **MSHA** inspector really. Michael Van Dorn - Ex-**MSHA** employee... good reference 417-684-3288 I spoke with him and he gave me a good run down on Keith, Mr Pratt, etc. He said...

 ATMO Safety | You, Don, John, +2

 John Spears 4/14 1:56 PM

...As for the Withdrawal Order question... we will wait until we get clarification from **MSHA**. I believe they are going to tell us that the 104(b) is a withdrawal order BUT they allowed us to work under certain guidelines. Us sending mill associates home was because no production capability no.....

 ATMO Safety | You, Don, John, +2

 John Spears 4/13 3:53 PM

We'll need at least 4 units. I'm afraid **MSHA** will ask us about the maintenance personnel. I'm sure they'll be next to be tested.

 ATMO Safety | You, Don, John, +2

 John Spears 4/13 3:07 PM

...I like this model. The main question is what kind of filter do we need to meet the requirements for particulate size? Since P-100 mask are only good down to .3 micron and that's not good enough for **MSHA**. I'm researching filter cans now.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 3/31 8:35 AM

Everyone. This is an **MSHA** Citation. Please re-hang all air hoses when finished using them. Everyone please respond.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 3/14 8:06 AM

Jordan Tidaback Robert Baumann is this in reference to the horn? If so, I'll email the **MSHA** guys and get that citation terminated. Yes. The forklift is ready for use.

 ATMO - Maintenance Group | You, Don, Joe, +3

 John Spears 2/14 6:35 AM

Gage Wheeler do not answer any questions about the that the **MSHA** inspector may have. Do not go into the mill. I'll be the person who talks to me inspector.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 1/16 10:21 AM

Be sure to complete the Workplace Exam and be sure to have the crew do the forklift exam as well. I'm afraid this is where **MSHA** will go next. Thanks.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 1/11 8:26 AM

Robert Baumann John Spears Kensley Brewer we are ready for the labels for the 50 and 100 pound bags and shipping paperwork as soon as it's available for so-520 so 527 Julie Ann Cureg We're in **MSHA** training. She'll make them on our break in a little while. Thanks.

 Mill Group Chat | You, Brian, Don, +10

 John Spears 11/22/22 5:17 PM

Sure thing. Sounds good. I'm pretty sure we have smoothed things over with the **MSHA** inspectors. Bryceton is finishing up a couple welding repairs in the morning and that should be the final items on the list. We now have furnace heat in the office building as well. Jim is finished with the tube mill....

ATMO - Mill Mgmt | You, Don, John, +2

John Spears 11/9/22 5:11 PM

...Mr. Barlow and I have abated several of **MSHA**'s concerns. We'll keep plugging away at them. Craig from Bearing HQ is still looking for a less expensive bearing for the outside flour elevator. His only concern is the length of the base. I'm sure I can make an 11 inch base work for us....

Mill Group Chat | You, Brian, Don, +10

John Spears 11/8/22 9:56 AM

Russell Tidaback as of now we are bagging product. I have Mr. Barlow and I working on **MSHA** fixes.

Mill Group Chat | You, Brian, Don, +10

John Spears 11/2/22 12:51 PM

We got the fan shaft and installing now. Just broke for about 15 minutes to woof down a sandwich then back at it. **MSHA** was here doing an inspection and a group of mill wrights were here looking at the tube mill. Kinda put us behind a little. should be able to fire up when you get here.

Mill Group Chat | You, Brian, Don, +10

John Spears 10/26/22 3:27 PM

Is Justin Campbell's company email the same format as mine? He was not able to find the **MSHA** coarse. He was wondering if the material was sent to his personal email by chance.

April 17,

4/17 10:51 AM

Changes made. Hopefully you like them.

Jim Hoover 4/17 12:36 PM

What you mean

4/17 12:53 PM

We are making a change... or have made a change.

Unfortunately, we had to let Rob go today. The data shows he wasn't meeting the daily quotas, or responding to John's suggestions and advice.

So... we are going to change how we operate.

When we get back to producing... probably Wednesday... We will have you run the control room.

YOU HAVE TO UNDERSTAND, the daily quota, per the production schedule is 42k lbs per day.

Some days it's 40k, some days 42k...

We cannot keep pushing production days back, and back, and back...

You won't have to do the computer work...

this will be for the Production Assistant...

The production assistant will be responsible for the administrative computer work. You will need to inform this person on how what was produced, how many bags produced, weights, etc. But this can be communicated via Teams.

or in person

each day

Jim Hoover 4/17 1:10 PM

Wait what are we talking about brother..

Jim Hoover 4/17 1:26 PM

So I'm guessing we are going to come to some sort of negotiation because from a year ago or even from June 15 two years ago I have learned more than you can imagine and worked with John on several projects and I know the mill office and I take maintenance to what needs fixed every time I know the flow of the product and will and can do anything in the mill that you ask and have so I want the mill running like it was a year ago and I know I can get those numbers without a doubt when John and I and RJ was running and I had John sit in the mill and had 20 pallets at lunch, it has been held back so we will need to talk before then, I am very confident and what can be produced at this mill.

4/17 2:01 PM

Jim, you kill me sometimes with these conversations... I have to assume you are referencing a pay increase.

A promotion in pay should be when you have proven yourself in a certain position.

We gave you a promotion last time to do certain things... and you didn't do so well at all of the expected tasks.

Then we had to hire Rob. We didn't want to take pay away from you so we left you at the \$20 /hr.

Now, we are making changes to accommodate or address your shortcomings with leadership of people, organization, and lack of computer skills.

You won't be managing people. You won't be responsible for using the computer. You will only be responsible for daily production of product, per the production schedule.

I'm not saying that you cannot get a pay increase BUT we need you to be successful in this newly assigned position for you to earn a pay increase.

Let's give yourself 12 months in this position, successfully meeting the production calendar quotas, getting product successfully out the door, working with John and the rest of the team, again successfully... THEN we can talk about a pay increase.

**Exhibit 10**

Exhibit P-43, Page 713

Jim Hoover 4/17 5:58 PM

So this 12 months again with the mill production like the last time around it wasn't the problem.me running the mill that was the problem brother and you know that and so do I also you didn't fill your side of the deal within 90 days like you said. I let that go because I knew you wouldn't hold up your side of the deal. I always bend over backwards to you and Jordan to help you guys and I. The very first meeting you told us we wouldn't go backwards and that is all that has happen accept the boots you have done that for us better but I just bought a different pair because the ones I got from red wings suck, you said we wouldn't go backwards and my pay has my insurance has nothing has went up my pay should of never went down period you have hired maintenance people after maintenance and then they watch me do there job and they are making more than I am for some reason I shouldn't be making less than what I was 2 years ago now for sure I have learned 10 times what I knew 2 years ago when you bought this company and what have I got for this like you said more I learn the better pay comes with learning I got the little mac air problem.fixed back to where it was after 8 maintenance guys look at it and still didn't fix it I run and go right to the problem everytime boss and do everything that you would expect me to do it as loyal to you guys as they come but damn, I know you don't have money coming in I understand that and you have a scroll not paid for but I go in and give my all to keep hour business going. you taking me out of control room and putting rob in there caused more problems than you realize and I'm sure there will be more to come from that with him. he wasn't going to push to get a high count for you and push the fuck to get caught up there were days he didn't have shit running until I saw something then I would go fix it and then go tell him.

Jim Hoover 4/17 6:06 PM

I have done the mill for a year and I can run it great no questions ask so I think the negotiation that you have just told me isn't correct at all considering the things I do for you and Jordan, im not mad or pissed boss but I do things you don't even know about to keep this place going because one I love my job and two I want this place to be here a whole long ass time after im done and gone you need Saturdays im there you need Sundays I would be there you known will do whatever it takes to get us caught up...

Jim Hoover 4/17 6:12 PM

I'm not arguing with you but we are going to talk about this brother because this isn't a one sided conversation and there why you and I talk and why we are a great team.. I'm not mad or pissed boss but you just assume the worst out of me u guess when we talk.. Rob fucked you over so many times but if I would of told you that you wouldn't of listen to me would you the next one to go needs to be Ronald he calls msha every freaking day and it's bullshit

Worthless

Jim Hoover 4/17 6:19 PM

Anyway I will let you be boss im.sure you are busy, but we need to discuss what you want from me since you just put someone else in there that shouldn't of been there in first place and never lifted a finger to go and find the problem or the solution to fix it.. Anyway I will let you go and we can talk later I have worked with John 7 months and everytime I have ran this mill when rob was gone I got better numbers and know the numbers you want are reachable that is if equipment holds up which I think will just need to get the motor and that would help ten fold

Talk to you later brother

**Exhibit 10**

Exhibit P-43, Page 714

4/17 6:59 PM

Yep, now out of all that. Prove yourself, and let's get things done.

April 19

Jim Hoover 4/19 8:48 PM

This is some shit boss

4/19 8:49 PM

Yes it is!

I am trying my best to get you guys back to work brother.

Jim Hoover 4/19 8:50 PM

If I would of told you this shit was going to happen would you of believed me

4/19 8:50 PM

no, because this should have never happened

what you guys don't see is that we requested an extension...

to resolve these issues when the citation was given to us.

we requested this the day of the citation

Jim Hoover 4/19 8:51 PM

I'm talking as this whole bullshit mega

Msha

Someone that was making it worse

Is what im talking about

4/19 8:52 PM

as we knew it was going to take longer than a week to complete...

what? I don't know what you are referring to.

Jim Hoover 4/19 8:52 PM

Fueling the fire

4/19 8:52 PM

?

## Exhibit 10

Exhibit P-43, Page 715

Jim Hoover 4/19 8:54 PM  
Not getting numbers . locking main down instead of just locking tube mill out. you lock it down we don't run didn't have to lock mains down  
Locking mains

4/19 8:54 PM  
Are you referring to Rob?

Jim Hoover 4/19 8:54 PM  
Yes

4/19 8:55 PM  
yea I don't understand that who thing either...  
to me, that was dumb on both Rob and the inspector...  
there is a whole big case building on on this...  
I've already got Senators involved and the heats coming...  
they are fucking with your guys livelihood and that is wrong!  
this is fucked up  
I am fighting every single citation given...  
I am doing everything I possibly can to get you guys back to work and us producing...

Jim Hoover 4/19 8:58 PM  
Boss I was trying to tell you straight up months ago but you wouldn't of believed me but out of everyone there you should know my loyalty by now

4/19 8:59 PM  
I've never questioned your loyalty Jim.

## Exhibit 10

Jim Hoover 4/19 9:02 PM

That is bullshit and you tell me how rob test came back the worst and full of shit you know and I know that was done on purpose and he didn't ever get dirty

4/19 9:03 PM

I don't know what was up with Rob. Why was he disgruntled?

Jim Hoover 4/19 9:03 PM

I don't talk to him really msha guy

4/19 9:03 PM

I don't get it...

I talked to Rob repeatedly about having the doors and windows open and the exhaust fans on...

I don't understand why he just didn't do as he was told...

John and I had been discussing him and counseling him for months now...

Jim Hoover 4/19 9:06 PM

I will tell you this I have went around behind and have had to turn on green dust collector green air compressor he doesn't turn on in order and that is how shit has got tore up and im being dead serious

That's was a lot of the problem

4/19 9:06 PM

then we had a guy who was suppose to replace him... he was supposed to start Monday and the fucker didn't show up for the training or call or respond to calls... nothing.

I knew Rob was lacking... but didn't know it was that bad.

I don't like letting people go but at some point... you just gotta cut the cord

this is why I think the best thing to do is have you in the control room... possibly the 6am-230pm shift like we talked before...

Jim Hoover 4/19 9:08 PM

You can't start the flour elevator first thing man he was doing that I said rob it's going over the screens and screens aren't moving yet he said he was doing it that way I said well your going to fuck it up

4/19 9:09 PM

have a shift lead do all the shipment QC, time keeping, computer work etc...

good point about the flour elevator

that might be why the screens deteriorated so fast...

holding the weight of the cold material...

## Exhibit 10

Exhibit P-43, Page 717

Jim Hoover 4/19 9:11 PM  
There is a order to do this shit and it's in place for a reason I turn on and turn off same way everyday no questions ask and it doesn't take one hour and thirty minutes to clean out it takes 20 minutes period (FACT) .

That is correct

I would go up there and blow of that shit to get what we got

4/19 9:12 PM

Jim Hoover 4/19/2023, 9:11 PM  
There is a order to do this shit and it's in place for a reason I turn on and turn off same way everyday no questions ask and it doesn't take...

Yep, I agree. I believe Rob was just being lazy

We will fix this...

I believe we learn from each new person we go through there...

Jim Hoover 4/19 9:13 PM  
I was fighting a battle that shouldn't of been there you know

4/19 9:13 PM

Jim Hoover 4/19/2023, 9:13 PM  
I was fighting a battle that shouldn't of been there you know

I know now...

we are going to try things different now...

Jim Hoover 4/19 9:13 PM  
That's why I would take off running to top floor and unclog shit

👍 1

Number one priority shit has to be hot

4/19 9:14 PM

to get better you have to make mistakes and learn from them.

Jim Hoover 4/19/2023, 9:14 PM  
Number one priority shit has to be hot  
exactly

Jim Hoover 4/19 9:15 PM  
I told him a thousand times rob it has got to be hot if that yellow pipe is not hot you will have problems he didn't understand  
hot

👍 1

I took Jeremy over to pipe said put hand on this you want to know the secret about Tripoli this is it, he said fuck that is hot as fuck I said that's the secret lol

## Exhibit 10

Jim Hoover 4/19 9:18 PM

That's the difference between rob and me he didn't understand the material or the flow of the product or what breaker fixed what and so on you know you got to know that to run the mill.

4/19 9:19 PM

I don't think he was taking the time to learn it either...

Jim Hoover 4/19 9:19 PM

Once it gets hot you back down to where the percent can be as low as 60% and still hold best

4/19 9:19 PM

I think he had the best intentions at first but something fell apart. What? I don't know.

## Exhibit 10

Exhibit P-43, Page 719

Jim Hoover 4/19 10:11 PM  
I only ran one day for 3 hours I set up for John when rob wasn't there and it was John rj and myself and we kicked ass so I know for a fact it is doable

4/19 10:12 PM  
I too believe that we will start doing really well once we get past this MSHA BS. This shit has been going on with them since January...

Jim Hoover 4/19/2023, 10:11 PM  
I only ran one day for 3 hours I set up for John when rob wasn't there and it was John rj and myself and we kicked ass so I know for a fact i...  
That was the deciding factor for John and I to terminate Rob.

Jim Hoover 4/19 10:12 PM  
Yes it's costing me money and I don't like that

4/19 10:13 PM  
Yes, it is! It really is...

Jim Hoover 4/19 10:14 PM  
Oh shit my bad doesn't mean for him to look bad I just ran it like I do there is no other way to run it accept full throttle  
I didnt mean to make him look bad I mean

4/19 10:14 PM  
Nope... John and I were discussing Robs issues a long time ago... we just didnt know how to approach it.  
You just put the icing on the cake.

Jim Hoover 4/19 10:15 PM  
Oh shit

4/19 10:15 PM  
it had nothing to do with you.  
We knew there needed to be change but wanted to give the guy an opportunity to fix the issues we were seeing.  
He didnt make improvement and... got terminated.

Jim Hoover 4/19 10:16 PM  
I mean I had to tell him to put rock in to charge tube mill it was below 50 I said damn man we got to charge this

4/19 10:16 PM  
yep, thats why he is no longer with us.  
Tomorrow is a new day

Jim Hoover 4/19 10:17 PM  
Yes sir

## Exhibit 10

Exhibit P-43, Page 720

Jim Hoover 5/7 1:43 PM

Pat is going thru some shit not good but we had a talk Saturday I can't go into detail because I just can't it wouldn't be a good thing but he surprised me after the fact of what happen but long story short I will nip it in the bud

True story

Boss this Msha thing can I speak to you freely without you thinking I'm on there side because I'm not I always tell you what I hear

Those other guys think I'm a company man , if you want to call me that for doing what I do then I guess I am but I know that you ask of me to get a certain number and I know how to do that and she happens and I'm pushing them to get there ass in gear and I'm going out there and packing bagging and hand stacking and fork trucking pallets because I know if I don't go out and do that it will over flow that's how I run it I don't shut it off tell it can't handle no more you know but the shit is hot and I can't touch the yellow pipe you know

5/7 1:57 PM

Its not necessarily a MSHA thing or a "company man" thing...

hear me out...

Do you remember me talking with you a long time ago about Robs general negative attitude about everything?

Jim Hoover 5/7 1:58 PM

I didn't read the book on it rob telling them something and it not being true brother

Oh I know

You didn't have to tell me I worked with him

Or around him more less

5/7 1:59 PM

Well, IMO, this attitude bled over to RJ and I do believe Carson and Terry... then Patrick and probably Gage too

John and I both spoke to Rob about it many times...

Jim Hoover 5/7 2:00 PM

I had to go behind and fix shit.

5/7 2:00 PM

he wanted to blame you guys all the time about not being able to get things done

stupid things like... cleaning the bathroom.

He lacked leadership skills.

## Exhibit 10

Exhibit P-43, Page 721

Jim Hoover 5/7 2:01 PM  
I didn't know you all did I was trying to stay in my lane but I didn't want to be down longer  
I agree

5/7 2:01 PM  
I told him he needed to get use to reading online books  
he told me he didnt like reading online  
he was advised to take some leadership classes online...  
I gave him plenty of resources to read about.... plenty of free classes

Jim Hoover 5/7 2:02 PM  
Oh wow

5/7 2:02 PM  
Then the whole MSHA thing in February...

Jim Hoover 5/7 2:02 PM  
Oh he fucked us over on that deal sorry for cussing

5/7 2:03 PM  
thats when Rob started to really buck back against what John was telling him to do

Jim Hoover 5/7/2023, 2:02 PM  
Oh he fucked us over on that deal sorry for cussing  
Oh I know...  
again... we had to prioritize things...

Jim Hoover 5/7 2:03 PM  
He was yelling at John alot screaming

5/7 2:03 PM  
we were constantly looking at how to replace him  
Alex was being trained to replace Rob..  
then Alex quit

## Exhibit 10

5/7 2:04 PM

We thought Kensley could...maybe... but she didnt work out either...

so, then we hired this last guy... what a f-ing hassle

We have requested MSHA to give us an exception to policy and let us fall under the Part 46 training requirements...

that way we would just have to provide 4 hours of initial safety training and then have the guy start working...

this way if he/she decided it wasnt for them we werent out the 3 days paid training AND the \$250 - \$400 instructor expense for EACH new hire.

MSHA is f-ing choking us out...

Rob's issues go way back, even before starting days...

Christine wanted to replace him...

Jeff didnt like him

Jessie didnt either...

Carson thought Rob was lazy

Jim Hoover 5/7 2:09 PM

Man if you put all his days together he wouldn't get as Dirty as Jordan working one day brother

5/7 2:09 PM

Rob's problem was he didnt want to take the advice of anyone else and thought he knew it all.

Jim Hoover 5/7/2023, 2:09 PM

Man if you put all his days together he wouldn't get as Dirty as Jordan working one day brother

Oh I know...

and now...

that he has made a friend at MSHA... Keith... Robs a fool to think Keith is his friend.

Im just glad Rob is gone. That was a longggg time coming.

## Exhibit 10

Exhibit P-43, Page 723

Jim Hoover 5/7 2:12 PM

Rob didn't know a thing .... My opinoin he would always come and ask me what to do or how to fix it I really wanted him to burn after the third day there when he started he told my guys I didn't know anything ..and then he comes and ask me shit 2 seconds later I just blew it off

5/7 2:12 PM

August of last year, Christine was telling me we need to replace Rob.

Jim Hoover 5/7 2:13 PM

I could of told you boss but you wouldnt of believed me

5/7 2:13 PM

Jim Hoover 5/7/2023, 2:12 PM

Rob didn't know a thing .... My opinoin he would always come and ask me what to do or how to fix it I really wanted him to burn after the...

yea, he was full of himself. I could see it back when we were having screen problems..

Jim Hoover 5/7/2023, 2:13 PM

I could of told you boss but you wouldnt of believed me

Its not that...its there are a lot of other pieces moving behind the scenes too

Jim Hoover 5/7 2:14 PM

I see these people come and go brother

Everyone of them

5/7 2:14 PM

See, im having to now fight MSHA because Rob thinks he was discriminated against

Jim Hoover 5/7 2:14 PM

I can tell you in the first 2 days if they will make it because of all the hear say bullshit

5/7 2:15 PM

I just dont understand why they cant just do what they are asked to do...

## Exhibit 10

Jim Hoover 5/7 2:15 PM  
Well probably are to lazy mother fuckers I can't stand shit like that  
🔥 1  
LoL  
Do you want to know what he told me

5/7 2:16 PM  
I just hope Patrick and RJ arent too infected by his BS

Jim Hoover 5/7/2023, 2:16 PM  
Do you want to know what he told me  
whats that?

Jim Hoover 5/7 2:17 PM  
That you wanted to fire me long ass time ago then when Sara was here he told me again  
That you told him this

5/7 2:17 PM  
Jim Hoover 5/7/2023, 2:17 PM  
That you wanted to fire me long ass time ago then when Sara was here he told me again  
uh, no Rob and I were never that close...

Jim Hoover 5/7 2:17 PM  
I said well it's his company to do with what he feels will help the company  
I didn't lose any sleep over it brother

5/7 2:18 PM  
I have only mentioned letting you go when you were having feet problem and not showing up to work as scheduled.  
As ive told you before, its not personal

## Exhibit 10

Jim Hoover 5/7 3:14 PM

See how the holes are rounded at some of the ends like a bigger hole

That's not good it's letting some of the small rocks get thru there but we got in there and fixed the serious problems that's for sure I told Jeremy we needed to get in there and look at that end and we found the problem it was killing the screens

On the fourth I told Rob the scrolls needed to be cut shorter he said no it will be alright I told him the product is going past the hole and covering the screens and making everything go back into return and he said how do you no that and I showed him and still blew me off

5/7 3:20 PM

he was a dick wad...

Jim Hoover 5/7 3:20 PM

It just really pissed me off that I would find the problem and he would just ignore it

I agree

Jim Hoover 5/7 3:25 PM

Also just to let you know Robs BS TALK ABOUT taking 1:30 mins to shut down and run product all out is total BS it takes 20 mins from start to finish approximately 30 at most

5/7 3:39 PM

30 mins is what we discussed before Rob... he was just lazy

Jim Hoover 5/7 4:03 PM

True

May 9

"Production Lead, Seneca, MO" - Posted on April 17, 2023 Job Details \_ Indeed.com.pdf

Additionally, the mine operator utilized various online platforms, including Facebook community and job posting groups, to reach a broader audience for job postings and employment opportunities. These platforms were chosen to maximize the visibility of the job openings and attract potential candidates.

While the mine operator did post these job openings to replace Robert Baumann, it's important to note that records of job offers made to the numerous prospective employees who were not accepted with the intent to replace Robert Baumann were not retained by the mine operator. However, the mine operator can provide the names of the individuals who received job offers and subsequently accepted employment with the company:

Aaron Duke

Alex Snodgrass

David Dagle

Richard McClelland

Will Shallenburger

These individuals were extended job offers and accepted positions with the mine operator. Any additional details or documents related to these job offers or the hiring process can be provided upon further request.

**INTERROGATORY NO. 2:** To the extent you are making a financial hardship claim in this case, describe how the proposed penalties in this docket would affect Respondent's ability to remain in business, including a description of the current business climate as it relates to your business and how that has changed in the past two years. Such description should include any sales increases or decreases, opening/closing of different mines, and any unexpected expenses or loans.

**ANSWER:** In response to the interrogatory and regarding the financial impact of the proposed penalties, it is imperative to highlight the severe adverse effects that these penalties would have on American Tripoli's ability to remain in business. The current business climate has presented numerous challenges, and the imposition of substantial penalties would exacerbate the company's precarious financial situation.

Over the past two years, American Tripoli has faced several significant challenges that have strained its financial stability. These challenges include:

Employee High Turnover and Quiet Quitting: American Tripoli has experienced a high turnover rate among employees, with over 30 employees leaving the company since June 2021. This level of turnover is exceptionally high for a small company that typically employs 12-15 workers. The phenomenon of "quiet quitting," where employees disengage and become less productive, has also been a significant concern.

Impact of COVID-19: The aftermath of the COVID-19 pandemic has had a lasting impact on the business. The pandemic disrupted the labor market and created uncertainty in the workforce, making it challenging to attract and retain skilled workers.

Supply Chain Disruptions: The global supply chain disruptions in 2022 further compounded the challenges faced by American Tripoli. The costs of building a new mill, which might have allowed for expansion and increased revenue, were estimated to be prohibitively high, hindering any expansion plans.

Operational Shutdowns: The company has experienced prolonged operational shutdowns due to ongoing MSHA inspections and enforcement actions. These interruptions have cumulatively resulted in approximately 12 weeks of downtime, during which the company missed out on an estimated \$3,000,000 in revenue-generating operations. The company has asked the district numerous times for assisted visits to help us but to no avail.

Accumulated Debt: American Tripoli is currently burdened with a debt of approximately \$900,000, not including the \$2,000,000 balance on notes acquired to purchase the business.

Given the aforementioned challenges and the delicate financial state of the company, the proposed penalties in this docket would have a devastating impact on American Tripoli's ability to remain in business. These penalties would further exacerbate the company's debt burden, potentially pushing it towards bankruptcy.

The imposition of substantial fines by MSHA would strain the already limited financial resources, making it increasingly difficult for American Tripoli to meet its financial obligations, retain employees, and continue its operations. The company urges a thorough consideration of these

extenuating circumstances and the potential dire consequences of imposing such penalties.

### DECLARATION

I, RUSSELL TIDABACK state that I am authorized to answer the foregoing interrogatories on behalf of MoSenecaManufacturer Limited Liability Company d/b/a American Tripoli. I have read the foregoing interrogatories and answers thereto and know the content thereof. Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing answers to the interrogatories are true and correct.

By: *Russell Tidaback*

## **REQUESTS FOR PRODUCTION OF DOCUMENTS**

1. Produce all documents identified or referred to in your answers to the interrogatories above.

RESPONSE: The inquiry and request for information regarding Interrogatory No. 1. To assist you in obtaining the necessary details related to this matter, we kindly direct your attention to the uploaded documents contained in our case file. These documents are organized into folders labeled "Interrogatory 1" and "Interrogatory 2."

For your convenience and to facilitate your review, we have included the relevant documents in the respective folders as follows:

Interrogatory 1 Folder:

June 13, 2022 - Robert Baumann Application - Candidates \_ Indeed.com.pdf

August 1, 2022 - Production Controller, Seneca, MO - Job Details \_ Indeed.com.pdf

August 1, 2022 - Production Control Manager, Seneca, MO - Job Details \_  
Indeed.com.pdf

August 1, 2022 - Production Supervisor, Seneca, MO - Job Details \_ Indeed.com.pdf

April 17, 2023 - Production Lead, Seneca, MO - Job Details \_ Indeed.com.pdf

Aaron Duke\_American Tripoli\_Offer Letter\_25APR23 - signed.pdf

Alex Snodgrass Resume.pdf

David Daigle Employment Offer Letter.pdf

Richard McClelland\_American Tripoli Position Offer Letter.pdf

Will Shallenburger - American Tripoli Position Offer Letter.pdf

Interrogatory 2 Folder:

MOSENECAMANUFACTURER LLC - 2021 Balance Sheet.pdf

MOSENECAMANUFACTURER LLC - 2021 Income Statement.pdf

MOSENECAMANUFACTURER LLC - 2021 Tax Returns.pdf

MOSENECAMANUFACTURER LLC - 2022 Balance Sheet.pdf

MOSENECAMANUFACTURER LLC - 2022 Income Statement.pdf

MOSENECAMANUFACTURER LLC - 2022 Tax Returns.pdf

MOSENECAMANUFACTURER LLC - 2023 Balance Sheet.pdf

MOSENECAMANUFACTURER LLC - 2023 Income Statement.pdf

These documents contain relevant information pertaining to the job postings, hiring process, and financial records as outlined in Interrogatory No. 1 and Interrogatory No. 2.

We encourage you to refer to these documents to access the specific details requested.

Should you require any further clarification or additional information, please do not hesitate to reach out to us. We are committed to providing a comprehensive and accurate response to your inquiries.

2. Produce documents reflecting the final paycheck provided to Robert Baumann, including any associated pay stub.

RESPONSE: We have reviewed our records and have identified that the requested document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf" was already included in our initial response within the "First Interrogatories Responses" submission. This document was attached for your reference in that submission.

3. Produce records of hours worked by Baumann on a weekly or bi-weekly basis, including any pay stubs showing hours worked for each pay period.

RESPONSE: We have reviewed our records and have identified that the requested document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf" was already included in our initial response within the "First Interrogatories Responses" submission. This document was attached for your reference in that submission.

4. Produce each pay stub related to each payment made by Respondent to Robert Baumann.

RESPONSE: Upon reviewing your request, we have noted that Request Number 4, which seeks "each pay stub related to each payment made by Respondent to Robert Baumann," appears to be a duplicate of Request Number 2, where we have already provided the requested document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf."

To avoid redundancy and to streamline the document retrieval process, we kindly refer you to our response for Request Number 2, where you will find the document you are seeking. This document includes the necessary information related to Robert Baumann's pay stubs during the specified period.

5. Produce Respondent's No Gossip Policy or any similar policy and/or procedure regarding gossiping, including any documents regarding when this policy was implemented.

RESPONSE: The request for the production of documents, specifically regarding Respondent's No Gossip Policy or any similar policy and/or procedure related to gossiping.

We would like to inform you that the No Gossip Policy, which you have requested, was discussed and implemented at our organization with due consideration for guidelines set forth by the National Labor Relations Board (NLRB). Our intention in crafting this policy was to ensure a productive and respectful work environment, in compliance with the law and the protection of our employees' rights.

The No Gossip Policy was introduced during an employee meeting on 9th August 2022. This policy aligns with the NLRB's rulings and adheres to their guidelines, which we take very seriously. We recognize the importance of allowing employees to discuss work-

related matters, including wages, benefits, and terms and conditions of employment, without interference or discouragement.

To maintain clarity and transparency, our policy clearly is not intended to discourage concerted activity or the discussion of working conditions. It provides specific examples of prohibited conduct, such as abusive and profane language towards another individual not present or in a negative light, to ensure that our employees understand the boundaries of respectful communication.

Additionally, the policy avoids overly broad or ambiguous language, as we understand that ambiguous rules can be construed against the employer. We have taken care to define permissible conduct clearly to encourage a safe and open workplace environment where employees feel comfortable discussing protected activities.

Please see the file labeled “No gossip letter.pdf”.

6. Produce the original documents, including the Word documents, Excel spreadsheets, Microsoft Teams Notes from which such PDF’s originated, with all metadata intact for the following documents you produced in response to the Acting Secretary’s First Requests for Production of Documents: Carson Allman – 4NOV2022 -Termination Letter; Terry Newborn – 4NOV22 Termination Letter; Christine Schreiber Russell Notes; Jim Hoover Russell Notes; Daily Workplace Inspections 1JUNE2022 – 17APR2023; American Tripoli Employee Handbook; Robert Baumann\_American Tripoli Position Offer Letter; and 13OCT2022- Carson Allman – Letter of Reprimand.

RESPONSE: We appreciate your follow-up request regarding the production of original documents, including Word documents, Excel spreadsheets, and Microsoft Teams Notes, along with all metadata intact, for the documents previously provided in response to the Acting Secretary's First Requests for Production of Documents.

As you are aware, we take your requests seriously and have been diligently working to ensure full compliance with your inquiry. It's important to clarify that the documents you have listed, including termination letters, notes, workplace inspections, our Employee Handbook, position offer letters, and letters of reprimand, were provided in PDF format as part of our initial responses.

Regrettably, the documents you requested were initially produced as PDFs, and they were not originally created as Word documents or Excel spreadsheets. Additionally, the information contained in our Microsoft Teams Notes is not stored in a format that allows for direct extraction as Word or Excel documents.

Given the nature of these documents and the format in which they were originally created, we trust that the provided PDFs accurately represent the content and intent of the materials requested. However, if you require any specific information or additional details related to these documents, we are more than willing to assist you in any way possible to address your needs.

7. Produce the training documents you allege were used to provide New Miner Training to Robert Baumann on July 5, 2022.

RESPONSE: In response to your request for the production of training documents related to the New Miner Training provided to Robert Baumann on July 5, 2022.

The New Miner Training for Robert Baumann on July 5, 2022, was documented by Bonnie Bainter, our Safety and Environmental Specialist at the time. Mrs. Bainter followed the established training protocols and utilized a variety of training materials and documents to ensure that Mr. Baumann received comprehensive training in compliance with the required subjects.

It is important to note that during the New Miner Training sessions, trainers like Mrs. Bainter often employ a range of training aids, presentations, and reference materials to cover the necessary topics thoroughly. These training aids and documents may include, but are not limited to, written materials, presentations, handouts, safety guidelines, and other instructional resources. All the training files the company maintains were submitted in the first response files.

Given the dynamic nature of the training process and the need to adapt to participants' questions and specific needs, it is challenging to identify and isolate specific training documents that were utilized during a particular training session. Each instructor may use their own resources that fits best for their class and attendees. Furthermore, our training records encompass a wide array of subjects, which are part of the standard curriculum for New Miner Training, the specific subjects required by MSHA.

While we maintain records of training sessions, including signed forms such as the MSHA 5000-23, we do have a specific set of documents that represents the materials that could have been used during Mr. Baumann's training session on July 5, 2022. The training process is dynamic and customized to address the unique circumstances and questions that may arise during each training session. We would not have a record of the specific questions Mr. Baumann may have asked during the training that may have directed Mrs. Bainter to utilize different training resources.

However, we would like to highlight that Mr. Baumann verified his completion of the documented training by signing the MSHA 5000-23 form, which attests to his acknowledgment of having received the training and his understanding of the subject matter covered during the session on 07/05/2022. This form is a standard practice in our

training procedures, ensuring that employees acknowledge their training and affirm their commitment to safety.

We want to assure you that our commitment to safety and training is unwavering, and we take all necessary steps to ensure that our training programs comply with MSHA regulations and provide our employees with the knowledge and skills required for their roles.

8. Produce documents reflecting the Paid Time Off or vacation leave Baumann had accrued as of April 17, 2023, and any documents reflecting any payments to Baumann for any such accrued Paid Time Off or vacation leave.

RESPONSE: Upon reviewing your request, we have noted that Request Number 8, which seeks "reflecting the Paid Time Off or vacation leave Baumann had accrued as of April 17, 2023", please see document labeled "Robert Baumann Payroll Detail 07.01.22 - 04.21.23 (1).pdf."

9. To the extent you are making a financial hardship claim in this case, produce the following financial records for Respondent:

- a. Respondent's state and federal tax returns for the past three years.
- b. Any Tax Form K-1 for American Tripoli from the past three years.
- c. The balance sheets for Respondent, including year-end assets and liabilities of Respondent from the past three years.
- d. Income Statements, showing all revenue and expense items for Respondent from the last three years.
- e. Respondent's most recent auditor's report and footnotes, including details about the methods used to compile the accounting data.
- f. Any bankruptcy petition(s) filed by Respondent.

- g. Chart of the accounts, disbursements ledgers, journal entries, and general ledger, and accounting work papers for Respondent since June 2021.
- h. Documents showing any loans made to owners or managers of the company from Respondent from the past three years.
- i. Transfers of funds from Respondent to related companies or owners from the past three years.
- j. Transfers of funds from Respondent to any entity owned by any owner of Respondent from the past three years.

RESPONSE: In response to Request for Production No. 14 and in accordance with the financial hardship claim made in this case, please note that while American Tripoli is committed to providing the requested financial records, some records may not be immediately available, and the production timeline may vary depending on the complexity and availability of the documents. American Tripoli will make a good-faith effort to produce the requested financial records in a timely manner. If you have any further specific requests or need additional information, please feel free to contact us to facilitate the process.

10. Produce an unredacted, complete copy of Russell Tidaback's Microsoft Teams' communications with Jim Hoover from April 17, 2023 through May 7, 2023.

RESPONSE: Please see the following chat:

April 17

4/17 10:51 AM

Changes made. Hopefully you like them.

Jim Hoover 4/17 12:36 PM

What you mean

4/17 12:53 PM

We are making a change... or have made a change.

Unfortunately, we had to let Rob go today. The data shows he wasn't meeting the daily quotas, or responding to John's suggestions and advice.

So... we are going to change how we operate.

When we get back to producing... probably Wednesday... We will have you run the control room.

YOU HAVE TO UNDERSTAND: the daily quota, per the production schedule is 42k lbs per day.

Some days it's 40k, some days 42k...

We cannot keep pushing production days back, and back, and back...

You won't have to do the computer work...

this will be for the Production Assistant...

The production assistant will be responsible for the administrative computer work. You will need to inform this person on how what was produced, how many bags produced, weights, etc. But this can be communicated via Teams.

or in person

each day

Jim Hoover 4/17 1:10 PM

Wait what are we talking about brother..

Jim Hoover 4/17 1:26 PM

So I'm guessing we are going to come to some sort of negotiation because from a year ago or even from June 15 two years ago I have learned more than you can imagine and worked with John on several projects and I know the mill office and I take maintenance to what needs fixed every time I know the flow of the product and will and can do anything in the mill that you ask and have so I want the mill running like it was a year ago and I know I can get those numbers without a doubt when John and I and RJ was running and I had John sit in the mill and had 20 pallets at lunch, it has been held back so we will need to talk before then, I am very confident and what can be produced at this mill.

Jim, you kill me sometimes with these conversations... I have to assume you are referencing a pay increase.

A promotion in pay should be when you have proven yourself in a certain position.

We gave you a promotion last time to do certain things... and you didnt do so well at all of the expected tasks..

Then we had to hire Rob. We didnt want to take pay away from you so we left you at the \$20 /hr.

Now, we are making changes to accomodate or address your short comings with leadership of people, organization, and lack of computer skills.

You wont be managing people. You wont be responsible for using the computer. You will only be responsible for daily production of product, per the production schedule.

Im not saying that you cannot get a pay increase BUT we need you to be successful in this newly assigned position for you to earn a pay increase.

lets give yourself 12 months in this position, successfully meeting the production calendar quotas, getting product successfully out the door, working with John and the rest of the team, again successfully... THEN we can talk about a pay increase.

Jim Hoover 4/17 5:58 PM

So this 12 months again with the mill production like the last time around it wasn't the problem me running the mill that was the problem brother and you know that and so do I also you didn't fill your side of the deal within 90 days like you said . I let that go because I knew you wouldn't hold up your side of the deal. I always bend over backwards to you and Jordan to help you guys and I. The very first meeting you told us we wouldn't go backwards and that is all that has happen accept the boots you have done that for us better but I just bought a different pair because the ones I got from red wings suck, you said we wouldn't go backwards and my pay has my insurance has nothing has went up my pay should of never went down period you have hired maintenance people after maintenance and then they watch me do there job and they are making more than I am for some reason I shouldn't be making less than what I was 2 years ago now for sure I have learned 10 times what I knew 2 years ago when you bought this company and what have I got for this like you said more I learn the better pay comes with learning I got the little mac air problem.fixed back to where it was after 8 maintenance guys look at it and still didn't fix it I run and go right to the problem everytime boss and do everything that you would expect me to do it as loyal to you guys as they come but damn, I know you don't have money coming in I understand that and you have a scroll not paid for but I go in and give my all to keep hour business going, you taking me out of control room and putting rob in there caused more problems than you realize and I'm sure there will be more to come from that with him. he wasn't going to push to get a high count for you and push the fuck to get caught up there were days he didn't have shit running until I saw something then I would go fix it and then go tell him ..

Jim Hoover 4/17 6:06 PM

I have done the mill for a year and I can run it great no questions ask so I think the negotiation that you have just told me isn't correct at all considering the things I do for you and Jordan, im not mad or pissed boss but I do things you don't even know about to keep this place going because one I love my job and two I want this place to be here a whole long ass time after im done and gone you need Saturdays im there you need Sundays I would be there you known will do whatever it takes to get us caught up...

Jim Hoover 4/17 6:12 PM

I'm not arguing with you but we are going to talk about this brother because this isn't a one sided conversation and there why you and I talk and why we are a great team.. I'm not mad or pissed boss but you just assume the worst out of me u guess when we talk.. Rob fucked you over so many times but if I would of told you that you wouldn't of listen to me would you the next one to go needs to be Ronald he calls msha every freaking day and it's bullshit

Worthless

Jim Hoover 4/17 6:19 PM

Anyway I will let you be boss im.sure you are busy, but we need to discuss what you want from me since you just put someone else in there that shouldn't of been there in first place and never lifted a finger to go and find the problem or the solution to fix it.. Anyway I will let you go and we can talk later I have worked with John 7 months and everytime I have ran this mill when rob was gone I got better numbers and know the numbers you want are reachable that is if equipment holds up which I think will just need to get the motor and that would help ten fold

👍 1

Talk to you later brother

👍 1

4/17 6:59 PM

Yep, now out of all that. Prove yourself, and let's get things done.

April 19

Jim Hoover 4/19 8:48 PM

This is some shit boss

👍 1

4/19 8:49 PM

Yes it is!

I am trying my best to get you guys back to work brother.

Jim Hoover 4/19 8:50 PM

If I would of told you this shit was going to happen would you of believed me

4/19 8:50 PM

no, because this should have never happened

what you guys don't see is that we requested an extension...

to resolve these issues when the citation was given to us.

we requested this the day of the citation

Jim Hoover 4/19 8:51 PM

I'm talking as this whole bullshit mega

Msha

Someone that was making it worse

Is what im talking about

4/19 8:52 PM

as we knew it was going to take longer than a week to complete...

what? I don't know what you are referring to.

Jim Hoover 4/19 8:52 PM

Fueling the fire

4/19 8:52 PM

?

Jim Hoover 4/19 8:54 PM

Not getting numbers.. licking main down instead of just locking tube mill out. you lock it down we don't run didn't have to lock mains down

Locking mains

4/19 8:54 PM

Are you referring to Rob?

Jim Hoover 4/19 8:54 PM

Yes

4/19 8:55 PM

yea I don't understand that who thing either...

to me, that was dumb on both Rob and the inspector...

there is a whole big case building on on this...

I've already got Senators involved and the heats coming...

they are fucking with your guys livelihood and that is wrong!

this is fucked up

I am fighting every single citation given...

I am doing everything I possibly can to get you guys back to work and us producing...

Jim Hoover 4/19 8:58 PM

Boss I was trying to tell you straight up months ago but you wouldn't of believed me but out of everyone there you should know my loyalty by now

4/19 8:59 PM

I've never questioned your loyalty Jim.

Jim Hoover 4/19 8:59 PM

The dust collector is firing like a mother fucker

👍 1

Like awesome as fuck

I haven't heard it fire that good in long time

Every 24 seconds

4/19 8:59 PM

that's good... now we just need to get past this air sample

as we've discussed before... maintenance has been the problem... since day one!

Jim Hoover 4/19 9:00 PM

Donaldson every four seconds and little mac every five seconds.

We just need the big mac firing I think it needs a memory board

4/19 9:00 PM

MSHA just compounds the problem 10x but not working with us and being fucking dicks

Jim Hoover 4/19 9:01 PM

100% agree

4/19 9:01 PM

This Keith jackass... he gets his jolly off handing out citations....

this fucker is a snake. When he's around, you'd better watch what you say and do...

he is out to fuck you or anyone else he can

Jim Hoover 4/19 9:02 PM

That is bullshit and you tell me how rob test came back the worst and full of shit you know and I know that was done on purpose and he didn't ever get dirty

4/19 9:03 PM

I don't know what was up with Rob. Why was he disgruntled?

Jim Hoover 4/19 9:03 PM

I don't talk to him really msha guy

👍 1

4/19 9:03 PM

I don't get it...

I talked to Rob repeatedly about having the doors and windows open and the exhaust fans on...

I don't understand why he just didn't do as he was told...

John and I had been discussing him and counseling him for months now...

Jim Hoover 4/19 9:06 PM

I will tell you this I have went around behind and have had to turn on green dust collector green air compressor he doesn't turn on in order and that is how shit has got tore up and im being dead serious

That's was a lot of the problem

4/19 9:06 PM

then we had a guy who was suppose to replace him... he was supposed to start Monday and the fucker didn't show up for the training or call or respond to calls... nothing.

I knew Rob was lacking... but didn't know it was that bad.

I don't like letting people go but at some point... you just gotta cut the cord

this is why I think the best thing to do is ha e you in the control room... possibly the 6am-230pm shift like we talked before...

Jim Hoover 4/19 9:08 PM

You can't start the flour elevator first thing man he was doing that I said rob it's going over the screens and screens aren't moving yet he said he was doing it that way I said well your going to fuck it up

4/19 9:09 PM

have a shift lead do all the shipment QC, time keeping, computer work etc...

good point about the flour elevator

that might be why the screens deteriorated so fast...

holding the weight of the cold material...

ripping the edge...

until the system heated up...

Jim Hoover 4/19 9:11 PM

There is a order to do this shit and it's in place for a reason I turn on and turn off same way everyday no questions ask and it doesn't take one hour and thirty minutes to clean out it takes 20 minutes period (FACT) .

That is correct

I would go up there and blow of that shit to get what we got

4/19 9:12 PM

Jim Hoover 4/19/2023, 9:11 PM

There is a order to do this shit and it's in place for a reason I turn on and turn off same way everyday no questions ask and it doesn't...

Yep, I agree. I believe Rob was just being lazy

We will fix this...

I believe we learn from each new person we go through there...

Jim Hoover 4/19 9:13 PM

I was fighting a battle that shouldn't of been there you know

4/19 9:13 PM

Jim Hoover 4/19/2023, 9:13 PM  
I was fighting a battle that shouldn't of been there you know

I know now...

we are going to try things different now...

Jim Hoover 4/19 9:13 PM

That's why I would take off running to top floor and unclog shit

🔥 1

Number one priority shit has to be hot

4/19 9:14 PM

to get better you have to make mistakes and learn from them.

Jim Hoover 4/19/2023, 9:14 PM  
Number one priority shit has to be hot exactly

Jim Hoover 4/19 9:15 PM

I told him a thousand times rob it has got to be hot if that yellow pipe is not hot you will have problems he didn't understand hot

🔥 1

I took Jeremy over to pipe said put hand on this you want to know the secret about Tripoli this is it, he said fuck that is hot as fuck I said that's the secret lol

4/19 9:17 PM

I don't think he or anyone else (MSHA fuckers) are understanding that when it's hot, the material flows like water and doesn't create a lot of dust in the air.

Jim Hoover 4/19/2023, 9:16 PM  
I took Jeremy over to pipe said put hand on this you want to know the secret about Tripoli this is it, he said fuck that is hot as fuck I...

yep... that is the secret!

but we need to be efficient with the heat... we spend anywhere between \$8k - \$20k a month on natural gas for that heat.

Jim Hoover 4/19 9:18 PM

That's the difference between rob and me he didn't understand the material or the flow of the product or what breaker fixed what and so on you know you got to know that to run the mill .

4/19 9:19 PM

I don't think he was taking the time to learn it either...

Jim Hoover 4/19 9:19 PM

Once it gets hot you back down to where the percent can be as low as 60% and still hold best

4/19 9:19 PM

I think he had the best intentions at first but something feel apart. What? I don't know.

Jim Hoover 4/19 9:19 PM

Heat

4/19 9:19 PM

Jim Hoover 4/19/2023, 9:19 PM  
Once it gets hot you back down to where the percent can be as low as 60% and still hold best

yep, I agree.

If we make it through this MSHA bullshit and get back to producing... part of our plans before it gets cold again is to enclose the classifier elevator etc outside...

To retain the heat when it's cold outside...

this winter was a bitch...

Jim Hoover 4/19 9:21 PM

 Jeremy is smart as hell to fixing shit and working on it for real I like the hell out of him we worked on dust collector today sharp he worked out on oil rigs where my brothers did but at different times

Boss I will be honest with you if you don't mind me saying

4/19 9:22 PM

That's cool, I like him too, I just hope he isn't a sprinter and can keep up the work ethic for the long haul

Jim Hoover 4/19/2023, 9:22 PM

Boss I will be honest with you if you don't mind me saying

yes, this is a private chat, I always want you to be honest with me.

I may not do as you say or think that I should do but I do appreciate your input.

Jim Hoover 4/19 9:24 PM

 We never EVER took days off because cold its been below zero and the shit ran just fine we just have to have people get their earlier and tube mill running early to get hot

We have got to get the dry insulated this summer at some point

4/19 9:25 PM

I do not like to make decisions solely based on my opinions, I want feedback so I can make the best decision I can

Jim Hoover 4/19/2023, 9:24 PM

We never EVER took days off because cold its been below zero and the shit ran just fine we just have to have people get their earlier...

I agree

Jim Hoover 4/19/2023, 9:25 PM

We have got to get the dry insulated this summer at some point

I agree... the maintenance team and John are discussing it.

Jim Hoover 4/19 9:29 PM

 I promise you we do not need to shut down if its below 45 that's crazy talk the tube mill needs to be running everyday possible including Saturdays tell these orders are caught up my opinion just saying Sundays if need be but these customers have waited long enough damn brother 6 months who is going to wait 6 months from something to be delivered from Amazon NO ONE!! SO Let's get this shit out the door

 1

That's what I think about all this bullshit going on

 1

Jim Hoover 4/19 9:40 PM

 Boss the palletizer I know you don't like it because old and all but less than a year ago I packed and put 140 bags a hour on myself that's why I know the numbers, also I will tell you this if we stack five highs on the palletizer two people would have to be down there and I would have to stop bagging because they couldn't keep up man couldn't keep up with the machine so I know 100 percent that is not the problem yes it's old but that bitch will run you just have to love on her you know

4/19 9:47 PM

its not that I dont like the palletizer... its just hard to get replacement parts for,

Jim Hoover 4/19 9:49 PM

 She will run if we take care of her

4/19 9:49 PM

Just like this motor... there were none available when ours went bad. There was one available but no gear...

Jim Hoover 4/19 9:49 PM

 Just like tube mill it will last as long as we take care of her you know

4/19 9:49 PM

I have found a couple but they are the 3HP and not the 5HP.

Jim Hoover 4/19/2023, 9:49 PM  
Just like tube mill it will last as long as we take care of her you know

I know... the problem since we bought the company has been maintenance personnel.

plain and simple

Jim Hoover 4/19 9:50 PM

Jeff had one ordered but not sure where he had it ordered from

Correct

Motor for palletizer

4/19 9:51 PM

we have a good team now... we just need to get through the MSHA. BS... understand WHY I tell you guys to do the shit on the board in the breakroom...doors and windows...

and get back to producing...

It isnt that we dont have Sales... we have plenty of sales....

we just cant seem to get a break on the production side.

Jim Hoover 4/19 9:52 PM

Oh I know we could have more if you open the flood gates

👍 1

4/19 9:52 PM

Common sense would tell you... no product going to the customers means no money coming in to replace equipment, parts, etc

Jim Hoover 4/19 9:52 PM

But producing is killing us and msha

I agree

4/19 9:52 PM

Jim Hoover 4/19/2023, 9:52 PM  
Oh I know we could have more if you open the flood gates

OH YES WE COULD!!!

This is why we need to follow the instructions given... to make sure MSHA stays off our back

so we can produce...

Jim Hoover 4/19 9:54 PM

I know your philosophy I believe you that's why im still here

4/19 9:54 PM

but think about it... we have been through a lot of people this past year...

Jim Hoover 4/19 9:54 PM

To many

4/19 9:54 PM

you are our most experienced person...

you cant run the entire show off of one persons experience.

Jim Hoover 4/19 9:55 PM

I know I have learned that one loud and clear

4/19 9:55 PM

This is why its good that Patrick has hung around, John has hung around, Max...

we need RJ to stick around and work

Jim Hoover 4/19 9:55 PM  
 I was showing pat the control room 2 weeks ago and the flow of things  
 4/19 9:55 PM  
 we need Ronnell to mature some, grow up and hang around  
 We need Jessie to hang around and do his part...

Jim Hoover 4/19 9:56 PM  
 He needs to stop calling MSHA  
 4/19 9:56 PM  
 EVERYONE needs to stop calling MSHA

Jim Hoover 4/19 9:56 PM  
 No shit  
 Pisses me off  
 4/19 9:56 PM  
 I cannot terminate Ronnell just because he has called MSHA  
 Jim Hoover 4/19/2023, 9:56 PM  
 Pisses me off  
 Me too!

Jim Hoover 4/19 9:57 PM  
 I have been there along time and never have called them  
 4/19 9:57 PM  
 He will either get on board on he will get fired.  
 I know Ronnell is looking for work elsewhere...

Jim Hoover 4/19 9:58 PM  
 I will go for second one one  
 4/19 9:58 PM  
 I see his FB posts and even called him out on it.

Jim Hoover 4/19 9:58 PM  
 What you mean  
 LAZY LAZY LAZY BAD  
 I was wrapping ten highs today and he wouldn't even do that he thought to high I guess so I said I will do it if your worried about it  
 4/19 10:00 PM  
 he's such a pussy.

Jim Hoover 4/19 10:00 PM  
 I'm saying lazy he was in break room a lot  
 4/19 10:01 PM  
 Let john know... so John can counsel him and we can let him go

Jim Hoover 4/19 10:01 PM  
 I heard him say I wish dozer would get fixed  
 4/19 10:01 PM  
 He doesnt know it yet but we have a new quarry guy starting Monday...  
 Ronnells dozer days are pretty much done for a while

Jim Hoover 4/19 10:01 PM  
 I already did today he saw him in there eyes shut im pretty sure to me he is dead weight  
 Don't need him don't want him but I will make him or break him I will give him a chance and see if he can step up to plate  
 Like I always tell you I know who the next one will be brother

4/19 10:04 PM

Share with John your thoughts and what you see, in private of course.

I have no problem letting go dead weight.

Jim Hoover 4/19 10:05 PM

I always talk to John I really respect John damn good man

We talk in private a lot brother

4/19 10:05 PM

we just have to do the right process and the right thing. Counsel him and then let him go.

Jim Hoover 4/19/2023, 10:05 PM

I always talk to John I really respect John damn good man

I agree and that is good you guys talk.

Jim Hoover 4/19 10:05 PM

Our daughters are same age

4/19 10:06 PM

I didnt know that.

Jim Hoover 4/19 10:06 PM

He calls his daughter Button lol

🤔 1

Boss im telling you if that palletizer was going and msha wasn't on our ass being dicks I would gamble and say the equipment is at point when we would be running over 60K or better I haven't been able to talk to you but after I got the little mac suction going it takes longer that fuck to get the socks to fill-up on flour elevator

4/19 10:11 PM

yep, we will get there.

Jim Hoover 4/19 10:11 PM

I only ran one day for 3 hours I set up for John when rob wasn't there and it was John rj and myself and we kicked ass so I know for a fact it is doable

4/19 10:12 PM

I too believe that we will start doing really well once we get past this MSHA BS. This shit has been going on with them since January..

Jim Hoover 4/19/2023, 10:11 PM

I only ran one day for 3 hours I set up for John when rob wasn't there and it was John rj and myself and we kicked ass so I know f..

That was the deciding factor for John and I to terminate Rob.

Jim Hoover 4/19 10:12 PM

Yes it's costing me money and I don't like that

4/19 10:13 PM

Yes, it is! It really is...

Jim Hoover 4/19 10:14 PM

Oh shit my bad doesn't mean for him to look bad I just ran it like I do there is no other way to run it accept full throttle

I didnt mean to make him look bad I mean

4/19 10:14 PM

Nope... John and I were discussing Robs issues a long time ago... we just didnt know how to approach it.

You just put the icing on the cake.

Jim Hoover 4/19 10:15 PM

Oh shit

4/19 10:15 PM

It had nothing to do with you.

We knew there needed to be change but wanted to give the guy an opportunity to fix the issues we were seeing.

He didnt make improvement and... got terminated,

Jim Hoover 4/19 10:16 PM

I mean I had to tell him to put rock in to charge tube mill it was below 50 I said damn man we got to charge this

4/19 10:16 PM

yep, thats why he is no longer with us.

Tomorrow is a new day

Jim Hoover 4/19 10:17 PM

Yes sir

So are we going to do Saturdays or what's your game plan after this horse shit with msha when can we start running production

Jim Hoover 4/19 10:26 PM

Tomorrow is a new day also attitude is 95% of how your day is going to turn out good or bad, have good attitude have great day have bad attitude have bad day try learning something new everyday challenge yourself and things will be okay I have learned one day at a time brother

Sometimes hour by hour lol

4/19 10:26 PM

So... for the next two days we are only allowed to run to make repairs and adjustments to the filtration systems and the engineering controls (windows, doors and exhaust fan)

We will run as normal, get the system hot, produce and bag as instructed by Jessie and John.

Jim Hoover 4/19 10:27 PM

Good or bad we are in it together so let's just get this shit done and go sit on the beach

Sounds good to me

4/19 10:28 PM

We will need to stop the feed at noon, let maintenance do their checks, adjustments, and any repairs needed. Then we will start the feed again and produce until 3:30 as normal, shut down, let maintenance do their checks, adjustments, and any repairs needed.

and repeat Friday.

Jim Hoover 4/19 10:31 PM

Okay wait a second I was told we are doing a whole lot of cleaning tmrw so we are running from 8-12 then let them do there things then run tell 3:30 ?

4/19 10:31 PM

just follow Johns guidance tomorrow.

Jim Hoover 4/19 10:31 PM

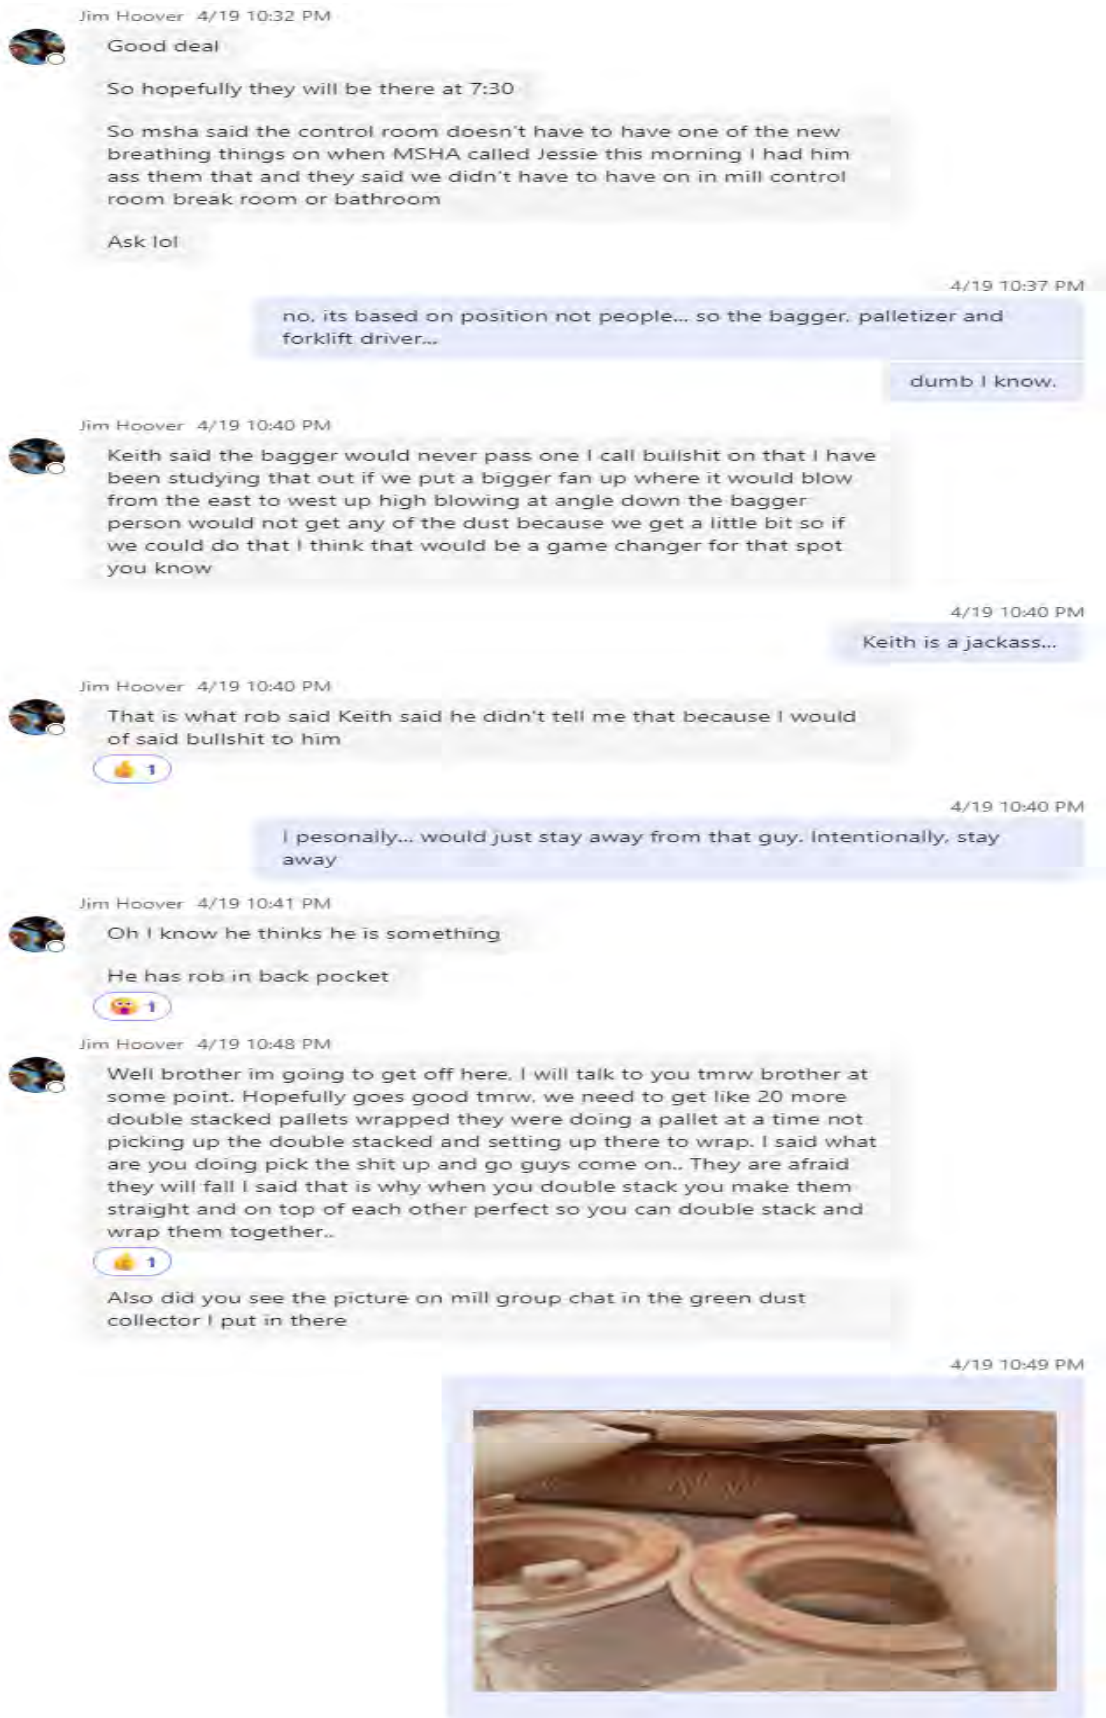

Okay

So did you get assholes to let us take locks off yet

Msha I mean lol

4/19 10:32 PM

tomorrow morning...

Jim Hoover 4/19 10:50 PM

4/19 10:50 PM

I dont know what that is.

Jim Hoover 4/19 10:51 PM

Those bars running across there with the holes facing down into the socks

That's the bars on side that hold them up they are all rusted out bad and one of those bars falls out of the slots

4/19 10:52 PM Edited

You'll need to show Ryan/Jeremy

Jim Hoover 4/19 10:53 PM

Jeremy and I were discussing it today when we were up there

I just wanted you to be aware of it to put your thinking cap on about what you think you would want to do with it if that is replaceable at some point

I'm sure Jeremy can design something he is pretty awesome at that shit he is by far better than anyone you have had in past as far as hands on and getting shit done ten fold

April 20

4/20 7:29 PM

Better day?

April 28

Jim Hoover 4/28 8:49 AM

We are rolling

4/28 8:50 AM

Hey hey brother... let's do good things okay. Have a good day

Jim Hoover 4/28 8:50 AM

No dust either

We will boss

I gotcha you

4/28 8:51 AM

We need you to make that place rock and roll. I need the justification since Robs complained to MSHA about being let go...

just need you to put the cherry on the cake that's all.

Jim Hoover 4/28 8:58 AM

Alright I will do my best we are rocking I haven't shut feed off yet and socks are still down so that's good

4/28 8:59 AM

RJ & Patrick bagging?

Jim Hoover 4/28 9:01 AM  
Yes sir

4/28 9:02 AM  
pretty steady?

Jim Hoover 4/28 9:02 AM  
Yes sir

Im going to put load of rock in Saturday or Sunday going to have Rj jhelp me

Also still feeding socks still down whoop whoop

Jim Hoover 4/28 10:09 AM  
8 ,000 pounds first hour

Jim Hoover 4/28 12:26 PM  
On pallet 15

4/28 12:56 PM  
Make sure to share this info in the Mill Group Chat.  
Keep your and I chat as personal private.

Jim Hoover 4/28 1:38 PM  
Ok

Jim Hoover 4/28 10:10 PM  
Hey Brother how was your day

4/28 10:10 PM  
Good and you?

Jim Hoover 4/28 10:11 PM  
Oh well , not to bad

I think you will be happy with the number we got for today

4/28 10:12 PM  
I heard... 52k lbs. Fucking ridiculous!!!!

Jim Hoover 4/28 10:12 PM  
No we got 56  
28 pallets

4/28 10:13 PM  
Oh shit. that's awesome!

Jim Hoover 4/28 10:13 PM  
 Not to bad, ran like gravy

4/28 10:14 PM  
 That's awesome. You feel good about that.

Jim Hoover 4/28 10:15 PM  
 Not one over flow or anything  
 1  
 Oh well we could of done a couple things different . but first day we for sure are moving in right direction

4/28 10:17 PM  
 Like what?

Jim Hoover 4/28 10:21 PM  
 we just need another body out there because I packed 99% of the bags and ran the mill but I temped out a couple of times when I was bagging it kicked out, but the other person would be labeling and wrapping because they didn't get labeled or wrapped yet.  
 But I'm not complaining for first day they did pretty good.

4/28 10:22 PM  
 I agree. Hopefully by next week. 2 peeps applied today so that's good...

Jim Hoover 4/28 10:23 PM  
 For sure , John helped out a lot and so did Jeremy

4/28 10:23 PM  
 that's good.

Jim Hoover 4/28 10:27 PM  
 Jeremy stacked for me , he went over to yellow air pipe and felt pipe and goes damn . I said now you know secret to tripoli now .  
 1  
 He couldn't believe the difference in flow  
 1

4/28 10:28 PM  
 yep...gotta be hot to flow

Jim Hoover 4/28 10:28 PM  
 He is damn good maint.  
 1  
 Ryan I think is great in his own way  
 1  
 As well

4/28 10:29 PM  
 Me too. He's just quiet

Jim Hoover 4/28 10:29 PM  
 He is more electronic and Jeremy more hands on get shit done  
 1  
 Well maybe at first lol  
 We would of Dust test today boss  
 100% for sure  
 The environmental lady came by did you hear about this

4/28 10:33 PM  
 Yep from what I understand she was very pleased as well

Jim Hoover 4/28 10:33 PM  
 Yes sir

4/28 10:34 PM  
 Jim Hoover 4/28/2023, 10:31 PM  
 We would of Dust test today boss  
 all good, leta just repeat that one Monday

Jim Hoover 4/28 10:36 PM  
 We would of passed the Dust Test I mean . For sure will do as well or better

4/28 10:36 PM  
 Yep, we will get it monday

Jim Hoover 4/28 10:37 PM  
 The low bin light didnt come on one time before noon .

4/28 10:37 PM  
 Hmmm...

Jim Hoover 4/28 10:41 PM  
 Boss have good evening just wanted you to have some positive things from here I'm sure it has been awhile you know . also just wanted to thank you and Jordan for the paychecks im sure you haven't heard that in awhile but appreciate you guys hanging in there for me but us as a team .

4/28 10:41 PM  
 Brother, it's been tough. But we will get better  
 have a good night

Jim Hoover 4/28 10:47 PM  
 Thank goodness you two are tougher than the situation you know .

4/28 10:48 PM  
 I'm glad you think so. I dont do failure very well..

Jim Hoover 4/28 10:53 PM  
 I have noticed that lol ... As Im not a person that gives up and just quits when times get rough  

May 1

Jim Hoover 5/1 5:07 AM  
 Hey I can text you private brother it's locked on adm. Side and mill side under mine anyway

5/1 6:28 AM  
 Did you call John?

Jim Hoover 5/1 6:04 PM  
 Hey Brother

5/1 6:33 PM  
 What's up.

May 2

Jim Hoover 5/2 9:12 AM  
 Hanger Bering out on scroll bringing all the dust collector product in saw when doing walk thru this morning Jeremy is fixing it now . we have product coming out of finish pipe on outside from fourth floor socks one must have hole in it but blowing product out of it .

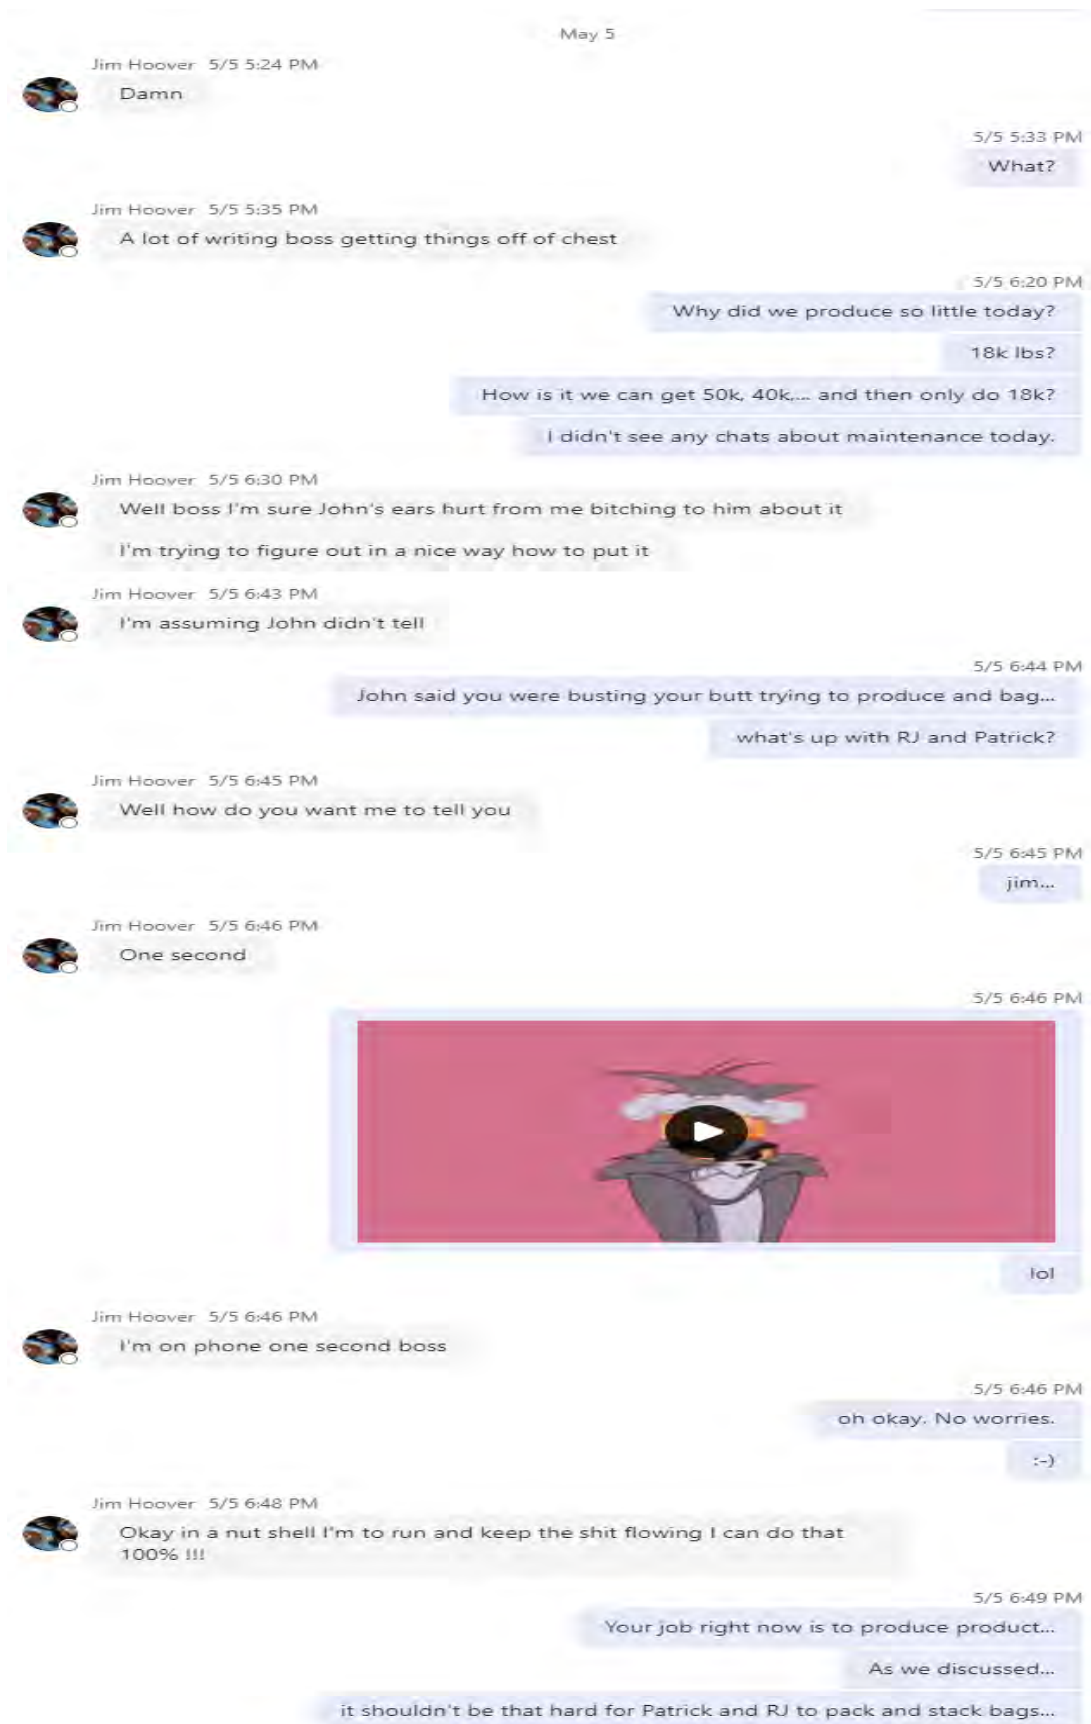

Jim Hoover 5/2 6:16 PM  
 Hey  
 Where is it to where I can text you private

5/2 7:30 PM  
 This is private, Just me and you.

May 3

Jim Hoover 5/3 8:52 PM  
 Hey boss

5/3 10:16 PM  
 What's up

Jim Hoover 5/5 6:49 PM

What I have a problem doing is I haven't to do the control room , then I go and pack bags , then I go hand stack then I go wrap the fucking pallets

I can't be in four places at once

5/5 6:49 PM

that's exactly what John said...

Jim Hoover 5/5 6:49 PM

I'm not cussing at you

👍 1

5/5 6:50 PM

you can't do it all

Jim Hoover 5/5/2023 6:49 PM

I'm not cussing at you

I know. I'm not taking it that way.

Jim Hoover 5/5 6:50 PM

But I know boss but if you need a number it's my job to make sure it's done

5/5 6:50 PM

I'm upset with RJ and Patrick

Jim Hoover 5/5 6:50 PM

You don't know how pissed I am

5/5 6:50 PM

Jim Hoover 5/5/2023 6:50 PM

But I know boss but if you need a number it's my job to make sure it's done

yep and I'm not faulting you.

I just don't understand...

Jim Hoover 5/5 6:51 PM

At 3oclock I shut it off

😡 1

5/5 6:51 PM

what's up with these two guys...

I don't understand...

Jim Hoover 5/5 6:53 PM

Because I was wasting your money by running product then going out and bagging 4 bags then running around over there and stacking them so I said fuck it and I went and staged SO-323 A.B they are ready and weighed

5/5 6:53 PM

I guess we're are going to have to hire some contractors...

Jim Hoover 5/5 6:54 PM

They were pissed about there hours

5/5 6:54 PM

if RJ and Patrick pull this BS Monday, they are done.

what about their hours?

Jim Hoover 5/5 6:54 PM

John had a talk with them I think

5/5 6:54 PM

they were offered to work this weekend and turned it down.

Jim Hoover 5/5 6:54 PM

I was staging the orders

5/5 6:55 PM  
I can't help people who don't want to help themselves

Jim Hoover: 5/5 6:55 PM  
And I'm going to work tmrw

5/5 6:55 PM  
you can't go in by yourself

Jim Hoover: 5/5 6:56 PM  
I have got to get some room people fucking run into pallets some how  
fn stupid  
I know that boss  
👍 1  
You think I'm new hire lol  
👍 1

5/5 6:56 PM  
Make sure you work it out with John

Jim Hoover: 5/5 6:57 PM  
I already told him I will call him later I was pissed

5/5 6:57 PM  
PLUS... gotta wear that fing mask

Jim Hoover: 5/5 6:57 PM  
Only if we are running  
No machine is running

5/5 6:57 PM  
oh that's right...  
you are right.

Jim Hoover: 5/5 6:57 PM  
I think John and myself could run more by ourself

5/5 6:58 PM  
I agree  
I don't understand what up with Patrick. Do you?

Jim Hoover: 5/5 6:59 PM  
I get it they are tired of stacking I get it but they go to break lunch or  
whatever and they watch me go in control room keep in running go  
and put bags on them go stack them and move them with fork truck so  
tell me what the fuck is wrong with this picture brother  
I'm 50 and out work these two figure this one out

5/5 7:00 PM  
Yeah I don't understand where the laziness comes in...

Jim Hoover: 5/5 7:00 PM  
In a nut shell that is why we only got 18 John wasn't there to help me  
with the control room  
But also I kept on having to go in control room because the product  
was damp or was different than normal and temperature dropped fast  
as shit you know  
Not making excuses for this just telling you

5/5 7:03 PM  
oh yeah I understand...  
I just don't understand wtf is up with these two guys...  
we have the palletizer motor on order...

Jim Hoover: 5/5 7:04 PM  
I know my job is to produce what you need me to do but am I to tell  
them to speed the fuck up or what I know what you ask of me as to  
keep the shit going if I just do that it will be on the floor  
👍 1

Jim Hoover 5/5 7:04 PM

I know my job is to produce what you need me to do but am I to tell them to speed the fuck up or what I know what you ask of me as to keep the shit going if I just do that it will be on the floor

👍 1

5/5 7:04 PM

we can make them ship it any fmg faster...

you are doing fine... just keeping working with john...

Patrick and rjs days are probably done.

if they don't want to work then we will just get rid of them.

I told John to have a talk with all the guys...

on Monday morning

Jim Hoover 5/5 7:06 PM

Good deal...

5/5 7:06 PM

it's everyone's responsibility to ensure product gets produced and out the door..

if this doesn't happen everyone's job is in jeopardy.

too simple

Edited

we will replace those that don't want to work with the rest of the team

Jim Hoover 5/5 7:07 PM

I know without a shadow of doubt we can produce more than 50 thousand

👍 1

If we can just hang in there tell that motor

5/5 7:07 PM

I believe we can too... just need the right people with the right attitudes

the motor or palletizer shouldn't be the crutch...

I'm sure the motor will be delivered next Thursday, I believe

Jim Hoover 5/5 7:10 PM

I think there is other issues going on also

5/5 7:10 PM

What issues?

Jim Hoover 5/5 7:10 PM

If it was Rj and myself it's good

If it's pat and myself it's good

5/5 7:10 PM

??

RJ and Pat don't get along?

Jim Hoover 5/5 7:11 PM

But it's like those two together it's like pat and Landry if you get what I'm saying

Yes they get along to good

5/5 7:11 PM

??

Jim Hoover 5/5 7:11 PM

It's like if me and you are working we get shit done right

👍 1

Jim Hoover 5/5 7:11 PM  
 It's like if me and you are working we get shit done right  
 1

5/5 7:12 PM  
 who's making who lazy?  
 who's the bad seed?

Jim Hoover 5/5 7:13 PM  
 No grab assing just work right that is not the way it is if they are together

5/5 7:13 PM  
 or should i ask... who's next jim?  
 lol  
 50 = 50 guess or???

Jim Hoover 5/5 7:14 PM  
 That's funny shit  
 Well I will say this I could tell you that

5/5 7:15 PM  
 but...???  
 what's your guess?

Jim Hoover 5/5 7:15 PM  
 It's no guess  
 1

5/5 7:16 PM  
 I gotta run here in a few minutes...  
 who do you think "is next"?

Jim Hoover 5/5 7:18 PM  
 But If I tell you something you can not do anything about it , also you don't pay me enough to put up with this bullshit that happen I will talk to you in a bit boss text me when you are done  
 I'm serious  
 Text me later okay

5/5 7:19 PM  
 Tell me now... I'll be out for a couple of hours... probably after midnight.  
 You've got my attention... what's up?  
 jim???  
 Playing games huh???  
 unprofessional...  
 you don't end a conversation that way  

May 6

5/6 12:24 AM  
 So???

5/6 9:21 AM

May 7

Jim Hoover 5/7 1:31 PM  
Hey sorry boss

5/7 1:32 PM  
lol...slacker. 🤔

Jim Hoover 5/7 1:32 PM  
I will take care of the situation brother

5/7 1:32 PM  
How was your weekend?  
What was/is the situation?

Jim Hoover 5/7 1:36 PM

Oh same as always doing some things with Kennedy she walked up to me Saturday morning and gave me this

5/7 1:36 PM  
So cute!

Girls will always love their dad!

Jim Hoover 5/5/2023, 7:18 PM  
But If I tell you something you can not do anything about it , also you don't pay me enough to put up with this bullshit that happen...

Jim Hoover 5/5/2023, 7:10 PM  
I think there is other issues going on also

What issues are you referencing?

Jim Hoover 5/7 1:40 PM

And this with a bracelet it was good I never think I'm doing enough for her that's for her we go on long walks in evening I got that good advice from you and Jordan and you don't think I listen to you.

👍 1

Well the Friday thing that was a problem

5/7 1:41 PM

just like planting a seed. If you take care of it while its young then it will grow bountiful.

the time you spend with her now, will pay off in the long run.

sometimes its hard to see but the simple things matter the most.

TIME/memories is more important than any object that can be bought.

Jim Hoover 5/7 1:43 PM

Pat is going thru some shit not good but we had a talk Saturday I can't go into detail because I just can't it wouldn't be a good thing but he surprised me after the fact of what happen but long story short I will nip it in the bud

👍 1

True story

Boss this Msha thing can I speak to you freely without you thinking I'm on there side because I'm not I always tell you what I hear

Those other guys think I'm a company man , if you want to call me that for doing what I do then I guess I am but I know that you ask of me to get a certain number and I know how to do that and she happens and I'm pushing them to get there ass in gear and I'm going out there and packing bagging and hand stacking and fork trucking pallets because I know if I don't go out and do that it will over flow that's how I run it I don't shut it off tell it can't handle no more you know but the shit is hot and I can't touch the yellow pipe you know

5/7 1:57 PM

Its not necessarily a MSHA thing or a "company man" thing...

hear me out...

Do you remember me talking with you a long time ago about Robs general negative attitude about everything?

Jim Hoover 5/7 1:58 PM

I didn't read the book on it rob telling them something and it not being true brother

Oh I know

You didn't have to tell me I worked with him

Or around him more less

5/7 1:59 PM

Well, IMO, this attitude bled over to RJ and I do believe Carson and Terry... then Patrick, and probably Gage too

John and I both spoke to Rob about it many times...

Jim Hoover 5/7 2:00 PM

I had to go behind and fix shit

5/7 2:00 PM

he wanted to blame you guys all the time about not being able to get things done

stupid things like... cleaning the bathroom.

He lacked leadership skills

Jim Hoover 5/7 2:01 PM

I didn't know you all did I was trying to stay in my lane but I didn't want to be down longer

Jim Hoover 5/7 2:01 PM

I didn't know you all did I was trying to stay in my lane but I didn't want to be down longer

I agree

5/7 2:01 PM

I told him he needed to get use to reading online books

he told me he didnt like reading online

he was advised to take some leadership classes online...

I gave him plenty of resources to read about.... plenty of free classes

Jim Hoover 5/7 2:02 PM

Oh wow

5/7 2:02 PM

Then the whole MSHA thing in February...

Jim Hoover 5/7 2:02 PM

Oh he fucked us over on that deal sorry for cussing

5/7 2:03 PM

thats when Rob started to really buck back against what John was telling him to do

Jim Hoover 5/7/2023, 2:02 PM

Oh he fucked us over on that deal sorry for cussing

Oh I know...

again... we had to prioritize things...

Jim Hoover 5/7 2:03 PM

He was yelling at john alot screaming

5/7 2:03 PM

we were constantly looking at how to replace him

Alex was being trained to replace Rob...

then Alex quit

Jim Hoover 5/7 2:04 PM

Wow

5/7 2:04 PM

We thought Kensley could...maybe... but she didnt work out either...

so, then we hired this last guy... what a f-ing hassle

We have requested MSHA to give us an exception to policy and let us fall under the Part 46 training requirements...

that way we would just have to provide 4 hours of initial safety training and then have the guy start working...

this way if he/she decided it wasnt for them we werent out the 3 days paid training AND the \$250 - \$400 instructor expense for EACH new hire.

MSHA is f-ing choking us out...

Rob's issues go way back. even before starting days...

Christine wanted to replace him...

Jeff didnt like him

Jessie didnt either...

Carson thought Rob was lazy

Jim Hoover 5/7 2:09 PM

Man if you put all his days together he wouldn't get as Dirty as Jordan working one day brother

5/7 2:09 PM

Rob's problem was he didn't want to take the advice of anyone else and thought he knew it all.

Jim Hoover 5/7/2023, 2:09 PM  
Man if you put all his days together he wouldn't get as Dirty as Jordan working one day brother

Oh I know...

and now...

that he has made a friend at MSHA... Keith... Robs a fool to think Keith is his friend.

Im just glad Rob is gone. That was a longggg time coming.

Jim Hoover 5/7 2:12 PM

Rob didn't know a thing .... My opinoin he would always come and ask me what to do or how to fix it I really wanted him to burn after the third day there when he started he told my guys I didn't know anything , and then he comes and ask me shit 2 seconds later I just blew it off

5/7 2:12 PM

August of last year. Christine was telling me we need to replace Rob.

Jim Hoover 5/7 2:13 PM

I could of told you boss but you wouldnt of believed me.

5/7 2:13 PM

Jim Hoover 5/7/2023, 2:12 PM  
Rob didn't know a thing .... My opinoin he would always come and ask me what to do or how to fix it I really wanted him to burn after...

yea, he was full of himself. I could see it back when we were having screen problems...

Jim Hoover 5/7/2023, 2:13 PM  
I could of told you boss but you wouldnt of believed me

Its not that... its there are a lot of other pieces moving behind the scenes too.

Jim Hoover 5/7 2:14 PM

I see these people come and go brother

Everyone of them

5/7 2:14 PM

See, im having to now fight MSHA because Rob thinks he was discriminated against

Jim Hoover 5/7 2:14 PM

I can tell you in the first 2 days if they will make it because of all the hear say bullshit

👍 1

5/7 2:15 PM

I just dont understand why they cant just do what they are asked to do...

Jim Hoover 5/7 2:15 PM

Well probably are to lazy mother fuckers I can't stand shit like that

👍 1

Lol

Do you want to know what he told me

5/7 2:16 PM

I just hope Patrick and RJ arent too infected by his BS

Jim Hoover 5/7/2023, 2:16 PM  
Do you want to know what he told me

whats that?

Jim Hoover 5/7 2:17 PM

That you wanted to fire me long ass time ago then when Sara was here he told me again

That you told him this

5/7 2:17 PM

Jim Hoover 5/7/2023, 2:17 PM  
That you wanted to fire me long ass time ago then when Sara was here he told me again

uh, no Rob and I were never that close...

Jim Hoover 5/7 2:17 PM  
I said well it's his company to do with what he feels will help the company

I didn't lose any sleep over it brother

5/7 2:18 PM

I have only mentioned letting you go when you were having feet problem and not showing up to work as scheduled.

As ive told you before, its not personal

Jim Hoover 5/7 2:18 PM  
I know I got a new pair of boots by the way lol

Alot better now

5/7 2:19 PM

I like you. or we wouldnt be chatting like we do...

Jim Hoover 5/7 2:19 PM  
I know

5/7 2:19 PM

Jim Hoover 5/7/2023, 2:18 PM  
I know I got a new pair of boots by the way lol about time.

did you get to see a foot Dr?

Jim Hoover 5/7 2:19 PM  
Wolverines

I went to Dr. Just the one in Seneca

5/7 2:19 PM

Hey if thats what you like... then thats your decision

Jim Hoover 5/7 2:20 PM  
Witch doctor

5/7 2:20 PM

Gotta take care of those feet.

Jim Hoover 5/7 2:20 PM  
That's why the young guys can't keep up with me boss.

She gave me witch med.

5/7 2:21 PM

the younger guys just didnt have a good upbringing in my opinion... the work ethic isnt there for most of them.

Jim Hoover 5/7 2:21 PM  
I feel no pain

That's a fucking fact AMEN AMEN AMEN PREACH IT

5/7 2:22 PM

So...

Jim Hoover 5/7 2:22 PM  
so what are we looking at how far down

5/7 2:22 PM  
Dude... we are REALLY behind...

Jim Hoover 5/7 2:22 PM  
4 months

5/7 2:23 PM  
no, more like 5-1/2 months behind

Jim Hoover 5/7 2:23 PM  
Is that about right

Oh shit 6months half a year

5/7 2:23 PM  
put in an order today and it gets scheduled for mid-september

yep, pretty much

AND that is with NO SALESMEN!

Jim Hoover 5/7 2:24 PM  
We were only down 4 when I was in mill we were catching up

5/7 2:24 PM  
just repeat business

Jim Hoover 5/7 2:24 PM  
That won't work

5/7 2:24 PM  
Jim Hoover 5/7/2023, 2:24 PM  
We were only down 4 when I was in mill we were catching up  
we will get there....

Jim Hoover 5/7 2:24 PM  
Yes, we will

5/7 2:24 PM  
it takes time... now, just as before, we need people to stay and just work...

thats it.

We have to keep MSHA off our back....

keep the maintenance team happy

keep production pumping.... EVEN when we are tired.

I want to replace the palletizer...with a robotic one but we have to catch up...

the schedule is FULL everyday.

we can have these half-ass days....

each day, the minimum is 40k lbs.... per the sales orders....

that is what we have scheduled for...

just 40k lbs

Jim Hoover 5/7 2:27 PM  
Boss I have done 140 a hour on palletizer find the parts and I will make it run , 100 run great on it swear

5/7 2:27 PM  
if we do 50k, hey thats great

The palletizer motor will be here this week.

Jim Hoover 5/7 2:27 PM  
We don't have all pieces it though

5/7 2:27 PM  
the guys just need to know and take care of it when it is working...

Jim Hoover 5/7 2:27 PM  
For it though

5/7 2:28 PM  
you talking about the gear?

Jim Hoover 5/7 2:28 PM  
Yes and break

5/7 2:28 PM  
this isnt just any motor... its the same one that came off of it...

Jim Hoover 5/7 2:28 PM  
And another piece I heard

5/7 2:28 PM  
there is only one like it being sold...  
the palletizer is old  
thats why it took so long to get...  
the old one we have at CEMCO is/has been rebuilt

Jim Hoover 5/7 2:29 PM  
I know but john said there is parts on the other one up there that he needs for the motor

5/7 2:29 PM  
we are working with CEMCO to get the gear...  
the gear isnt the problem... its the motor  
the motor manufacturer has an 18-month backlog...

Jim Hoover 5/7 2:30 PM  
Okay awesome when that things gets going that will be a game changer

5/7 2:30 PM  
the factory rep says he has 6,000+ motors that he is being told not to expect delivery until 2025-26  
thats a lot of machines not running... and thats across the US

Jim Hoover 5/7 2:31 PM  
The guys will be much happier and less bitchy they tell me I'm working them like niggars I said I have to make up for robs lack of effort

5/7 2:31 PM  
stacking 5 highs... really?

Jim Hoover 5/7 2:32 PM  
They said that N word not me lol  
👍 1

5/7 2:32 PM  
thats not that damn hard...  
I mean come on...

Jim Hoover 5/7 2:32 PM  
I know right..  
I forgot to tell you something  
So you know how I do my calculations on the packer

5/7 2:33 PM

I also want to have a framer come in and give us a quote to frame and drywall off the production floor from the rest of the area so we can eliminate the air quality BS

Jim Hoover 5/7/2023, 2:32 PM  
I forgot to tell you something  
whats that?

Jim Hoover 5/7 2:33 PM

I heard you telling John something how many bags we are doing time wise

Well so I timed it thru the day several times and I'm packing 3 bags in one minute 7 seconds

👍 1

So not bad I think you had us only doing 2 bags a minute I think

👍 1

5/7 2:35 PM

OGX, DGX, AFX, PremiumX, TrifilX:  
50 bags per hour production

Microgrades (X45 - X30):  
20 bags per hour production

Microgrades (X15 - X10):  
10 bags per hour production

Bulk bags:  
6 bulk bags per hour

Jim Hoover 5/7 2:35 PM

Plus socks are taking long ass time to feel up now

👍 1

5/7 2:35 PM

thats good

Jim Hoover 5/7 2:36 PM

Which is good on elevator

5/7 2:36 PM

fixing the air leaks i think solved a lot of issues.

Jim Hoover 5/7 2:36 PM

Yes sir

So I think I got this insurance thing called AmBetter have you heard of it

5/7 2:38 PM

? no

Jim Hoover 5/7 2:38 PM

Which will pay for my insurance and Kennedy insurance so I won't have to carry it thru work

👍 1

5/7 2:39 PM

If its cheaper... then by all means go for it.

Jim Hoover 5/7 2:39 PM

It's something you told me to look into so I did boss

5/7 2:39 PM

thats good.

Jim Hoover 5/7 2:40 PM

Just another example of me LISTENING to the man

Lol

5/7 2:40 PM

IMO, since the OBAMAcare BS... where the government requires you to have health insurance...

its sometimes better to get your own plan than it is through a company.

Jim Hoover 5/7 2:41 PM

God gave me two ears to listen more and one mouth to talk less

That's how I take it anyway

5/7 2:41 PM

let us know your premiums... so we can share with the rest of the guys....

Jim Hoover 5/7/2023, 2:41 PM

God gave me two ears to listen more and one mouth to talk less

only if we all took this advice more often...

me too

Russell Tidaback 5/7/2023, 2:41 PM

let us know your premiums... so we can share with the rest of the guys....

if they can get cheaper rates then we should cancel the company plan.

Jim Hoover 5/7 2:43 PM

5/7 2:44 PM

as a company, we have to jump through hoops for insurance, that you don't as an individual.

Jim Hoover 5/7 2:44 PM

I hate that

I have another paper I'm looking for for you to see

5/7 2:45 PM

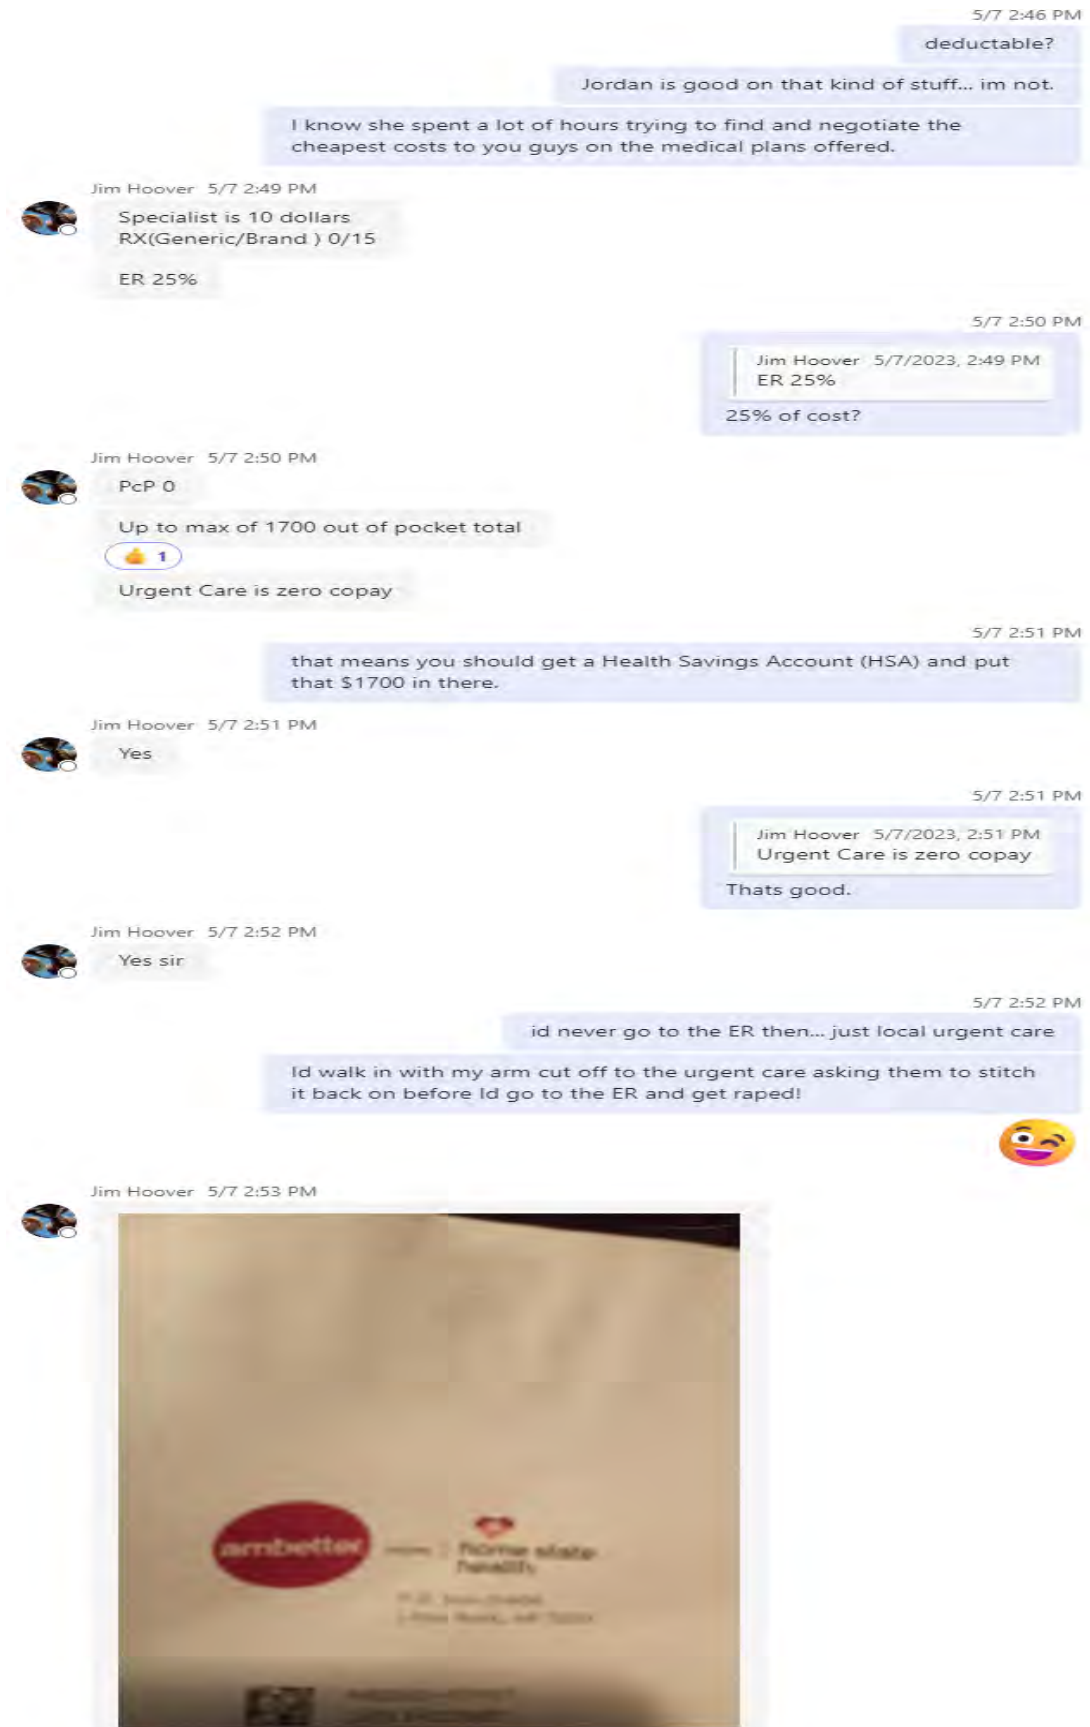

that looks like it \$900 monthly but at the end of the year they give you a tax credit...

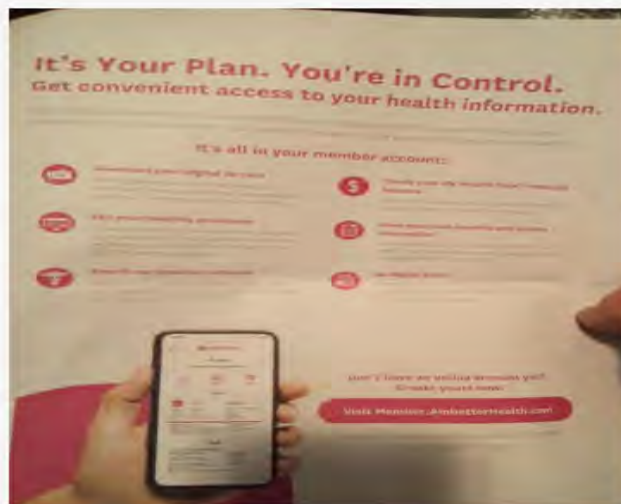

Jim Hoover 5/7 2:45 PM

Max out of pocket is 1,700 I think

Just showing if it helps

5/7 2:55 PM

if they are cheaper... thats good.

yeah

Jim Hoover 5/7 2:56 PM

Anyway so what is on your mind just keep running running running mill

5/7 2:58 PM

so, with the Mill.

We are interviewing a Production Assistant on Monday....

Jim Hoover 5/7 2:58 PM

Oh boy

5/7 2:58 PM

I think the PA. needs to be your back up...

you run the control room and just produce material....

Jim Hoover 5/7 2:59 PM

Yes

5/7 2:59 PM

the PA manages the workload

does all the paperwork

the QC

Jim Hoover 5/7 2:59 PM

100%

5/7 2:59 PM

etc...

Jim Hoover 5/7 2:59 PM

That's good

5/7 2:59 PM

BUT... he needs to know how to run the control room so when you take a vacation, sick, etc...

then John would be the PAs backup for the control room

I think your strength is producing product.

You can help the guys understand the machines... when issues arise

but you are at your best when producing product

NO EATING OR DRINKING IN THE CONTROL ROOM!

I repeat

Jim Hoover 5/7 3:01 PM  
Yes sir glad you think that  
I hear you

5/7 3:01 PM  
NO EATING OR DRINKING...

Jim Hoover 5/7 3:01 PM  
No eating or drinking

5/7 3:01 PM  
okay so you hear me!

Jim Hoover 5/7 3:01 PM  
Got that

5/7 3:02 PM  
Now...

Jim Hoover 5/7 3:02 PM  
GD IT JIM  
👍 1  
Now ....?

5/7 3:02 PM  
my thoughts are if we could get you and possibly Jeremy to come in at 6am and get the mill ready to produce...  
at 8am...  
then you two leave at 230pm...  
that would, I believe help you with production numbers but also...  
allow you to leave earlier in the day, when you start to peter out (tired)....  
just my thoughts...  
the mill associates and PA would come in at 8am - 430.  
the PA would do the shut down...

Jim Hoover 5/7 3:05 PM  
It takes 30 mintues to get the mill to roll 7 is plenty it would be rolling by 7:30

5/7 3:06 PM  
7 would work too..

Jim Hoover 5/7 3:06 PM  
I can have it rolling really in less than 20 mintues

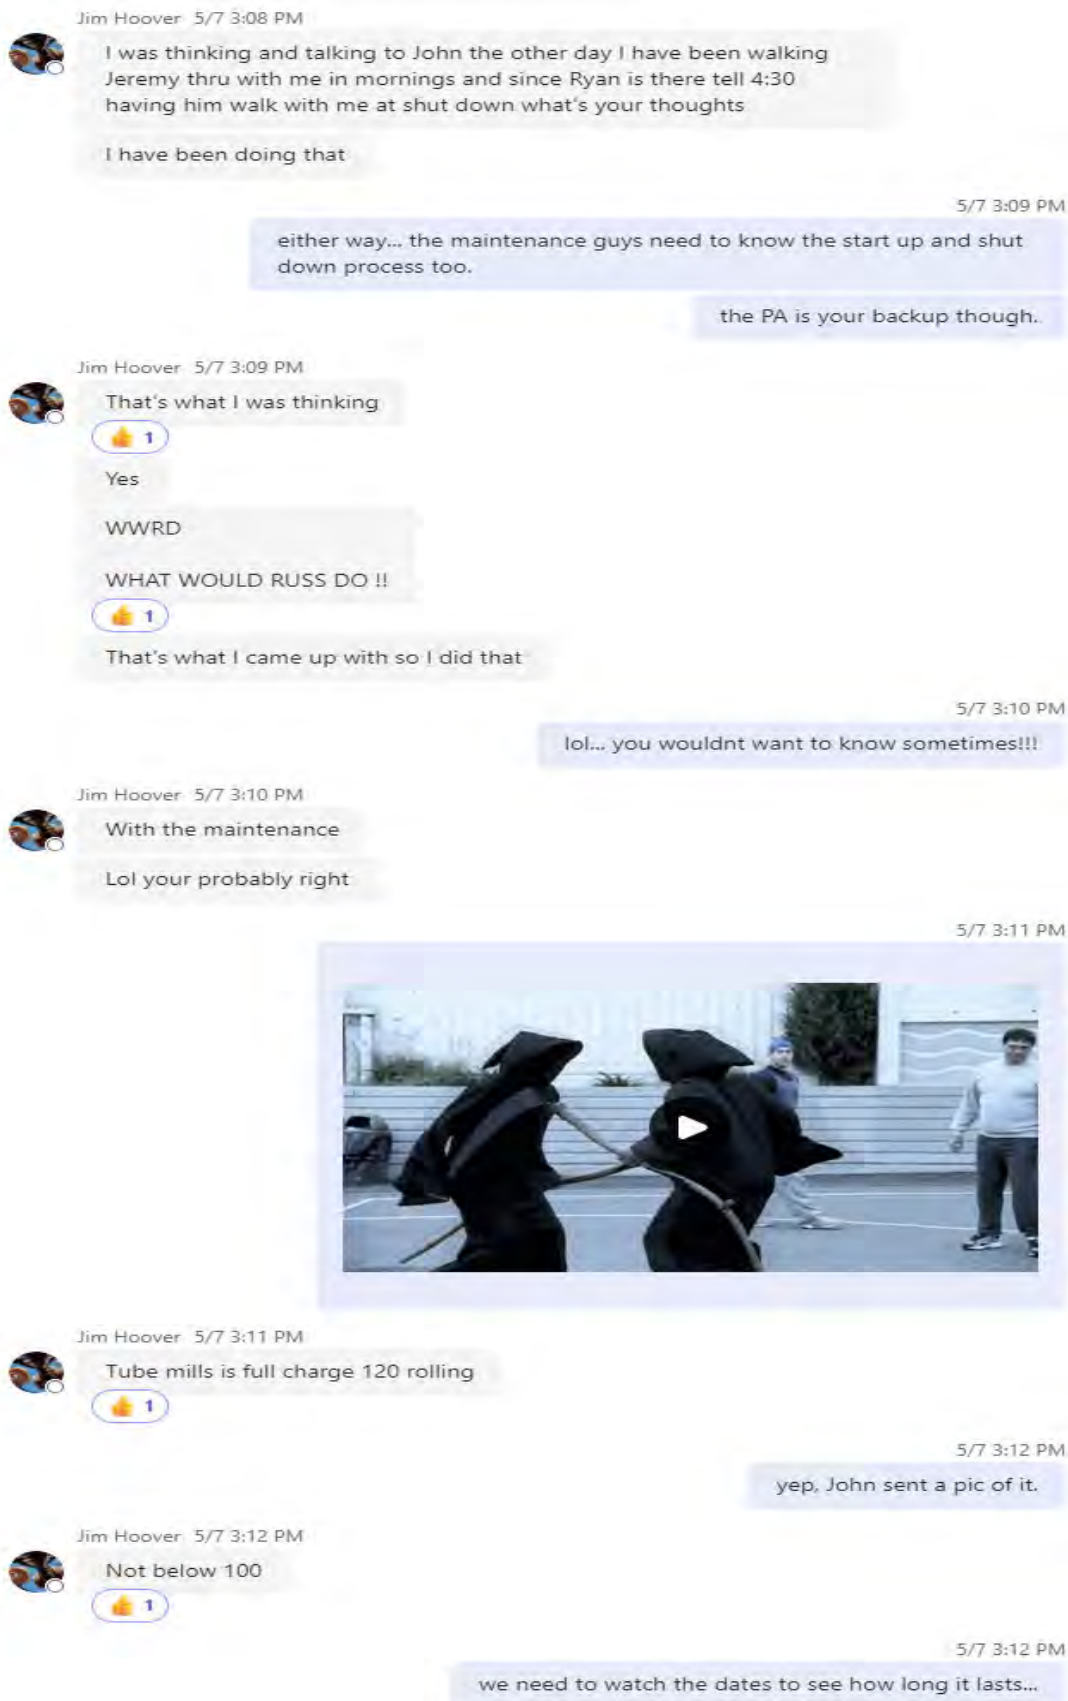

5/7 3:06 PM  
700 - 330

Jim Hoover 5/7 3:06 PM  
Sure

5/7 3:06 PM  
lets give the PA some time to get use to the shut down process... and then bring it to John.

Jim Hoover 5/7 3:07 PM  
If that's what you want I will work tell 4:30 to help us get more of a number tell we start catching up

5/7 3:07 PM  
would need to work it out with Jeremy or someone else to come in at 7am.

Jim Hoover 5/7 3:14 PM

See how the holes are rounded at some of the ends like a bigger hole

That's not good it's letting some of the small rocks get thru there but we got in there and fixed the serious problems that's for sure I told Jeremy we needed to get in there and look at that end and we found the problem it was killing the screens

On the fourth I told Rob the scrolls needed to be cut shorter he said no it will be alright I told him the product is going past the hole and covering the screens and making everything go back into return and he said how do you no that and I showed him and still blew me off

5/7 3:20 PM

he was a dick wad...

Jim Hoover 5/7 3:20 PM

It just really pissed me off that I would find the problem and he would just ignore it

I agree

Jim Hoover 5/7 3:25 PM

Also just to let you know Robs BS TALK ABOUT taking 1:30 mins to shut down and run product all out is total BS it takes 20 mins from start to finish approximately 30 at most

5/7 3:39 PM

30 mins is what we discussed before Rob... he was just lazy

Jim Hoover 5/7 4:03 PM

True

May 9

11. Produce an unredacted, complete copy the Mill Group Chat, Microsoft Teams chat, from June 26, 2023.

RESPONSE: Please see the chat on June 26, 2023:

June 26

Jim Hoover 6/26 8:19 AM

So who is helping Ron and Rj today do we have any takers since pat is crushing

John Spears 6/26 8:20 AM

Pat can get us started in the crush room. Jeremy can take over after he does his maintenance rounds. Ryan can run the packer of and on as well.

Jim Hoover 6/26 8:27 AM

Alrighty thanks 🙌

Jim Hoover 6/26 8:59 AM

Delta we have a problem , we are losing a lot of heat

John Spears 6/26 9:01 AM

That needs looked into. [Jeremy Talbert](#) go see Jim. I'm on my way.

Jim Hoover 6/26 9:02 AM

Ryan is down there

John Spears 6/26 9:03 AM

Very good.

Jim Hoover 6/26 9:23 AM

We are going to be down for a little to repair the dryer

6/26 2:06 PM

Everyone make sure we are using LOTO and the established safety procedures. There is no reason for anyone to get injured at our location.

<https://www.msha.gov/data-reports/fatality-reports/2023/june-8-2023-fatality/fatality-alert>

You should expect MSHA to be diligently looking in the causes of this fatality at our location.

John Spears 6/26 2:09 PM

Russell Tidaback 6/26/2023, 2:08 PM

You should expect MSHA to be diligently looking in the causes of this fatality at our location.

That would not surprise me that we would be picked out.

I am running samples on the Cilas machine.

June 27

12. Produce documents related to the fatality referred to in John Spears' Mill Group Chat message on June 26, 2023, produced by Respondent in the document titled ALL Communications regarding MSHA.

RESPONSE: In response to your request for the production of documents related to the fatality referred to in John Spears' Mill Group Chat message on June 26, 2023. We appreciate your inquiry and the opportunity to clarify the information requested.

In the Mill Group Chat conversation on June 26, 2023, the mine operator posted a link to the June 8, 2023, fatality alert notice issued by the Mine Safety and Health Administration (MSHA). The referenced fatality is the same incident that is detailed in the MSHA's official alert notice.

As the requested documents are directly related to the MSHA fatality alert notice, we would like to clarify that the details and information regarding this fatality are available in the official MSHA documentation, including the alert notice itself. We do not possess any additional internal documents or materials related to this specific incident beyond what has already been publicly communicated by MSHA.

To provide you with the most accurate and complete information regarding this fatality, we recommend referring directly to the official MSHA fatality alert notice dated June 8, 2023. This notice contains all relevant details and findings related to the incident, as compiled and reported by the regulatory authority responsible for investigating and documenting such events.

Should you require access to the official MSHA fatality alert notice or have any further questions related to this incident or other matters, please do not hesitate to let us know.

13. Produce the Microsoft Teams chats regarding the following incidents/entries into the document titled Rob Baumann-Notes from Russell Tidaback employee journal:

- a. 26JUL2022 - Jeff states the shaker screen ripped because Rob didn't put bolts back in and just ran it like that. Rob told Miguel that he didn't care and that Miguel needed to get down. Rob shut things down sent everyone home early.
- b. 27JUL2022 - Christine states Rob is having the guys run straight 8 hours and bypassing the given break so they can go home earlier. I explained the break should be rotated so we can continue to produce for the 8.5 hours. The breaks are precautionary for employees dust exposure too. MO doesn't require breaks to be given. Plus they are only running bulk bags and that can be done with two people.
- c. 1AUG2022 - Christine states If Rob cannot get it done, we just need to replace him.
- d. 5AUG2022 - Jessie states there is no emphasis for the guys to help him. When he brings it to Rob, he shrugs his shoulders and walks away.
- e. 8AUG2022 - Christine wants to bring Rob to first shift as she doesn't believe Rob is doing what he is suppose to be doing without someone overseeing him. We cannot put Jim on nights due to being a single father and a young child at home.
- f. 9AUG2022 - Christine thinks we should train someone to replace Rob on the night shift.
- g. 16AUG2022 - Advised Christine to counsel Rob regarding shutting down and letting people go earlier than scheduled.
- h. 25AUG2022 - Rob needs counseling on filling out the BOL correctly. A shipper complained that he did it wrong and wasted their time.
- i. 31AUG2022 - Had discussion with Rob on the importance of inputting the daily production information in the spreadsheet. He said he would log in and get it done.
- j. 3SEP2022 - Had discussion with Rob regarding the daily production numbers and updating the spreadsheet accurately. I don't know if he is incompetent or just lazy.
- k. 28SEPT2022 - Rob not doing the CILAS reports as required for orders produced.
- l. 8OCT2022 - Jessie and Carson were waiting for Rob to get there. Rob was late getting there.
- m. 12OCT2022 - Had discussion with Rob regarding notifying and working with Carson to address the maintenance issues. Carson said Rob gets mad at everything and is hard to work with. I explained that getting angry and combative with others is not going to solve the issue any quicker.
- n. 13OCT2022 - Had to counsel Rob on following the production schedule as it is presented. He was not producing what was on the schedule. Rob said he didn't like having to check the computer or phone to do his job. I explained that the computer work was part of the role.
- o. 17OCT2022 - Had to explain Rob about the flow of the system and asked him why he wasn't reviewing the operating documents in the maintenance team files. His excuse was he didn't like to read on a computer.
- p. 26OCT2022 - Had to explain to Rob why the MAC vacuum system was spewing dust from the exhaust and that we had to shut the system down so DEQ doesn't get called. Jim states Rob doesn't know what he is doing.
- q. 2NOV2022 - John mentioned Rob showing his poor attitude again.

- r. 5NOV2022 - Had to get onto Rob about not properly keeping team shift hours correct in Shifts. He was writing them down on scratch paper and forgetting to update shifts. I don't know if he is just lazy or what. I explained that he can do this any time from the computer or his phone.
- s. 8NOV2022 - Had to inquire with Rob if he was shutting down early letting people go home early. The systems were showing shut down before the end of the shift.
- t. 1DEC2022 - While at AT had a discussion with Rob regarding his lack of attentiveness regarding ensuring the proper things were done with his team. The checklists werent being completed. The inspections werent being completed. The breakroom was a disaster. The fridge was disgusting. The trash wasn't taken out the day before, some of the windows were still open. The production floor was a mess. The back roll up door was off track. The bathroom was disgusting. The circuit breakers in Warehouse A was blocked by slip sheets.
- u. 16DEC2022 - Discussion regarding keeping the production team informed of what is expected to produce that day. Rob is lacking in managerial purpose for his team members.
- v. 26DEC2022 - Discussion with Rob regarding not meeting the daily production goals, team members complaining that he doesn't know what he is doing and that he just gets angry and stomps around like a child. He isnt a leader and allows his team to push him around. His response was just nodding his head. I stressed filling out the tasking board everyday and making sure the things get done. If he has problems with someone, take it to John and john will get it resolved. Jim blames Rob.
- w. 20JAN2023 - Kensley posted in the Ops chat group a pic of dust blowing out the back of the bldg. Again, had to stress to Rob that he needs to watch for any dust blowing out of the building. We cant have the Sheriff or DNR receiving complaints about us. We had to reiterate in the group that is was Robs responsibility to be inputting in the daily production worksheet what was produced each day before he leaves for the day. This wasn't been done.
- x. 25JAN2023 - Had to get onto Rob regarding keeping the completed bag inventory up to date. John and I discussed Robs attitude.
- y. 28FEB2023 - discussed with Rob about the task board. Starting to think we need to let Rob go. His attitude is one that he doesn't care about getting things done. He jokingly mentioned he liked being paid for not working.
- z. 20MAR2022 - Alex Snodgrass hired to eventually replace Rob.
- aa. 24MAR2023 - Discussion with John regarding Robs push back on stacking the bags today. I believe Robs attitude is infectious. We need Alex to take over for Rob and just let Rob go for performance issues.
- bb. 30MAR2023 - ATMO Safety discussion with Jessie about ensuring that Rob gets the tasks done. The tasks are established, just not getting enforced by Rob.
- cc. 5APR2023 - Alex informed us regarding accepting a neurology position at a hospital in Little Rock. Neurology is his degree is in. John and I discussed just letting Rob go.
- dd. 7APR2023 - John, Jordan and I discussed letting Rob go.
- ee. 12APR2023 - Time to let Rob go. He is afraid to make the system work and cant meet the simple daily quotas. If Jim can get it done why cant Rob. Need to look at the mill structure again. Jim can run the Mill, we just need to get a manager of people to manage the team. Hopefully, Brian Edwards can do it. He can manage the people, QC, inventory and the reporting. Jim can run the mill. Brian will need to learn how to as a back up to Jim.

ff. 14APR2023 - Warned John about an MSHA complaint when we let Rob go. Robs termination will be based on production performance, not following guidance given by management, not ensuring the safety of the mill associated by utilizing the proper controls, etc. Send John the termination letter.

gg. 16APR2023 - Ask Keith about miner pay and withdrawl order. Robs termination letter sent to John.

RESPONSE: These notes were from Mr. Tidabacks personal daily notes journal which is done on a Rocketbook wipeable notebook. These were not input into a Microsoft Teams Chat.

14. Produce all Microsoft Teams chats between Robert Baumann and any owner, supervisor or manager of Respondent.

RESPONSE: In your request for the production of all Microsoft Teams chats between Robert Baumann and any owner, supervisor, or manager of Respondent. We appreciate your patience as we work diligently to fulfill this highly technical request.

Due to the specialized nature of retrieving Microsoft Teams chats, we are currently in the process of coaching our managers and supervisors on the necessary steps to access and compile the requested information. This process involves ensuring that all relevant chats are securely retrieved and properly documented to meet your requirements.

We understand the importance of providing a comprehensive and accurate response to your request and are committed to delivering the requested Microsoft Teams chats as soon as they are available. Our team is actively working on this matter, and we anticipate completing the retrieval process within a reasonable timeframe.

Please be assured that we take your request seriously and are making every effort to facilitate the retrieval of the requested chats efficiently and effectively. We will notify you as soon as the information is ready for submission.

**RESPONDENT'S THIRD INTERROGATORIES ANSWERS AND RESPONSE FOR  
PRODUCTION OF DOCUMENTS**

**FIRST DISCOVERY REQUESTS**

**INTERROGATORIES**

**INTERROGATORY NO. 4:** If Respondent claims that a defense or affirmative defense is applicable to the claims at issue in this case, please identify each such defense and state with particularity the material facts supporting such defense.

**ANSWER:** In response to Interrogatory No. 4, we acknowledge the importance of providing clarity regarding our defenses in this matter. While we understand the need for transparency and adherence to legal processes, we firmly contend that requiring the immediate identification of defenses with particularity may not be suitable for the complex and evolving nature of this case. It is essential to uphold the principles of fairness, due process, and the right to develop a comprehensive defense.

Our defense in this case revolves around the following key points, each supported by specific material facts:

**1. Compliance with Regulations:** Throughout the course of our operations, we have consistently prioritized compliance with all relevant regulations and guidelines, particularly those set forth by the Mine Safety and Health Administration (MSHA). We have diligently enforced safety protocols and measures in line with MSHA standards to ensure the safety of our workforce.

**2. Safety Measures and Training:** We have invested significant resources in training and educating our employees, emphasizing safety procedures and the importance of adhering to MSHA regulations. Our commitment to safety extends to providing comprehensive training programs and resources, which we have made available to all our employees, including Mr. Robert Baumann.

**3. Mitigation of Citations:** It is important to note that the mining industry can be inherently challenging in terms of regulatory compliance. Despite our best efforts, occasional citations may occur. Our defense involves demonstrating that we have taken prompt corrective actions in response to any citations received, including addressing safety concerns and implementing necessary changes to prevent recurrence.

**4. Employee Responsibilities:** Employees, including Mr. Baumann, have individual responsibilities under MSHA regulations to ensure their safety and that of their colleagues. These responsibilities include reporting unsafe conditions and practices, complying with safety guidelines, and actively participating in safety training. Our defense highlights the expectations placed on all employees, including Mr. Baumann, in fulfilling these responsibilities.

In conclusion, our defense in this case is built upon our unwavering commitment to safety, compliance, and the well-being of our workforce. The material facts supporting this defense include our rigorous safety measures, training programs, and our proactive approach to

addressing any citations received. We remain steadfast in our dedication to transparency, cooperation, and upholding the highest standards of safety within our operations. We have also included a November 13, 2023 email chain from Mr. Randall Boyd, Supervisory Special Investigations, Supervisory Conference & Litigations, Madisonville district office, stating there is not anyone recorded as a representative of miners at our location as Mr. Baumann has claimed he is/was one.

**INTERROGATORY NO. 5:** Set forth the reasons Robert Baumann was terminated, who participated in the decision to terminate Robert Baumann, and the date such decision was made.

**ANSWER:** A comprehensive response to your request regarding the reasons for the termination of Mr. Robert Baumann, the individuals involved in the decision, and the date when this decision was made. We understand the importance of clarity in this regard and aim to address your concerns.

**Reasons for Termination:**

The decision to terminate Mr. Robert Baumann was based on a combination of factors that collectively led to this outcome. It is important to emphasize that termination of employment is never taken lightly, and the welfare of our employees and the overall safety and efficiency of our operations remain paramount. The following factors contributed to Mr. Baumann's termination:

**Poor Performance:** Mr. Baumann's performance as a shift lead consistently fell below the acceptable standards established for his role. His inability to meet the performance expectations and responsibilities associated with his position was a primary concern.

**Lack of Leadership Skills:** As a shift lead, strong leadership skills are essential for success. Mr. Baumann's performance was hindered by his lack of effective leadership, which was a crucial aspect of his role.

**Failure to Follow Procedures and Guidance:** Despite several attempts to address these issues through coaching, feedback sessions, and open communication channels, Mr. Baumann did not demonstrate any substantial improvement in his performance or attitude. This failure to adapt to guidance and correct his behavior raised significant concerns.

**Safety Concerns:** Safety is a paramount concern in our operations. Mr. Baumann's disregard for safety guidelines, failure to take safety matters seriously, and his actions that created an unsafe work environment for himself and his colleagues were alarming.

**Compliance with Employment-At-Will Doctrine:** It is essential to note that Missouri follows the Employment-At-Will doctrine, allowing both the employer and employee to terminate the employment relationship at any time and for any non-discriminatory reason. This doctrine serves as the legal basis for Mr. Baumann's termination.

**Participants in the Decision:**

The decision to terminate Mr. Baumann was a collective one, involving key members of our management team. While we initially referred to "management personnel" in our previous response, we want to provide you with specific names and titles of the individuals who participated in this decision:

**Russell Tidaback:** As the final decision maker for the company, Mr. Russell Tidaback played a crucial role in the deliberation and final decision-making process.

**Jordan Tidaback:** As a decision maker for the company, Ms. Jordan Tidaback played a crucial role in the deliberation and decision-making process.

**John Spears:** As a member of our management team, Mr. John Spears was also involved in the decision-making process.

**Date of the Decision:**

The decision to terminate Mr. Baumann was reached during the evening of April 16, 2023. We recognize the importance of providing an exact date, and we sincerely apologize for any previous lack of specificity on this matter.

In conclusion, we hope this elaboration provides the clarity and detail you seek regarding Mr. Baumann's termination. We remain committed to cooperation and transparency throughout this process and appreciate your diligence in seeking this information.

### DECLARATION

I, RUSSELL TIDABACK state that I am authorized to answer the foregoing interrogatories on behalf of MoSenecaManufacturer Limited Liability Company d/b/a American Tripoli. I have read the foregoing interrogatories and answers thereto and know the content thereof. Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing answers to the interrogatories are true and correct.

By: Russell Tidaback

Name: RUSSELL TIDABACK

Title: MANAGING MEMBER

Dated: 20NOV2023

## **FIRST DISCOVERY REQUESTS**

### **REQUESTS FOR PRODUCTION OF DOCUMENTS**

11. Produce the documents reflecting any discipline of Robert Baumann.

RESPONSE: In response to your request, we want to clarify the company's disciplinary process as outlined in our employee handbook. Our progressive discipline process is designed to provide associates with opportunities to address and correct behavior when possible. The handbook explicitly outlines the three steps of increasing severity in this process: verbal warning, formal meeting with a supervisor and written reprimand, and termination. It's important to note that managers have discretion in applying this process and may skip or repeat steps as necessary.

Considering this framework, we must emphasize that Robert Baumann's employment with American Tripoli was "at-will," as is the case with all our employees in the U.S. This means that either the employee or the company may terminate the employment relationship at any time and for any non-discriminatory reason. The termination of Mr. Baumann falls under the category of "for cause termination" as outlined in our handbook.

Regarding your specific request for discipline records for Mr. Baumann, we do not possess traditional documents reflecting discipline actions, such as written reprimands, in this case. The decision to terminate Mr. Baumann was the culmination of ongoing discussions, evaluations, and attempts to address performance issues and safety concerns, which are consistent with our progressive discipline process.

While we do not have written records of discipline actions in this case, we want to assure you that Mr. Baumann's termination was thoroughly assessed and justified based on well-established principles of employment and operational policies. Our commitment to acting fairly and lawfully is unwavering.

24. Produce the documents reflecting any communications, including Microsoft Teams chats, text message, emails, to employees of Respondent at the MoSenecaMfr LLC dba American Tr mine regarding MSHA inspections and/or any MSHA inspectors.

In addition, we ask that you also look for inspectors' names which would include either the first and last name together or just the first name or just the last name:

- Keith and Markeson
- Bryan and Licklider
- Randall or Randy and Hill
- Michael and/or Mike and Van Dorn and/or VanDorn
- David and/or Dave and Prewett
- Michael and/or Doc and Dillingham
- Shawn and Pratt
- Adam and Larkins
- Also inspector would be another relevant search term.

RESPONSE: In response to Request No. 24, we acknowledge the importance of providing relevant communications pertaining to MSHA inspections and inspectors. However, it is important to note that local communications at our mine, particularly below the level of the operations manager, often occur face-to-face or through other forms of verbal communication rather than electronic messages. As such, while we have made a diligent effort to retrieve electronic communications, we may not have specific messages that directly address MSHA inspections or inspectors. Below are what was found using the terms requested above, please let us know if you need further details surrounding any specific date & time message:

**Keith:**

ATMO Safety | You, Don, John, +2

John Spears 4/14 2:07 PM

...Im telling you guys... **Keith** is a snake... be cautious on what you say to and around him. Any MSHA inspector really....employee... good reference 417-684-3288 I spoke with him and he gave me a good run down on **Keith**, Mr Pratt, etc. He said he would help us in any w.....

ATMO Safety | You, Don, John, +2

You 4/14 10:50 AM

Jessie Moles thanks for including me in on emails to **Keith**... im responding now.

ATMO Safety | You, Don, John, +2

You 4/14 7:16 AM

...once we get the gilibrator back from service, do an air sample and let **Keith** know that we'd like an air sample redone based on your recent readings....

ATMO Safety | You, Don, John, +2

You 4/14 7:16 AM  
...once we get the gilirator back from service, do an air sample and let **Keith** know that we'd like an air sample redone based on your recent readings....

---

ATMO Safety | You, Don, John, +2

You 4/12 2:00 PM  
No worries... I want you to research the CFR based on the paperwork **Keith** gave you....I dont want **Keith's** opinion, I want you to research the details. Remember, an inspector is suppose to give you a non-bias, non-opinionated inspection....

---

ATMO Safety | You, Don, John, +2

JM Jessie Moles 4/12 1:35 PM  
I will check with **Keith** to find out what his exact source was and send it to you. I hate being confused and what to make sure I understand

---

ATMO Safety | You, Don, John, +2

You 4/12 1:28 PM  
**Keith** likes to add too much of his own opinion rather than keeping to what the regulation guidelines are.

---

ATMO Safety | You, Don, John, +2

You 4/6 10:09 AM  
So, Id expect **Keith** on site tomorrow.

---

ATMO Safety | You, Don, John, +2

You 4/6 10:04 AM  
I will send **Keith** an email asking for an air resample.

---

ATMO Safety | You, Don, John, +2

You 4/3 8:34 AM  
yes, the audiogram testing bus... we will have to look up who performed it in the past. It would be best to schedule it for a Wednesday morning. If we can get it scheduled, we can get an extension for the citation from **Keith**. John Spears we may need to assist Jessie with this since he in on Drill orders.

---

ATMO Safety | You, Don, John, +2

You 3/31 11:43 AM  
Jessie Molesi **Keith** is a good guy, you may want to connect with him on how to build a good tracking and managing system for the citations.

 You

---

 Jim Hoover 3/28 7:28 PM  
I know I won't be throwing 10 highs all day long im not as young as used to be im 50 Sunday and yes **Keith**

---

 Jim Hoover

---

 You 3/28 7:27 PM  
who was the MSHA inspector today? **Keith**?

**Markeson:**

 ATMO Safety | You, Don, John, +2

---

 Jessie Molesi 4/13 6:17 PM  
Also I sent an email to **markeson** asking for some reference material but also if he or someone else could come out and at the very least allow lighting and power to the maintenance shop still awaiting response

---

 ATMO Safety | You, Don, John, +2

---

 Jessie Molesi 4/12 1:20 PM  
...Also as far as the respirator **Markeson** explained to me that we need a PAPR system for milk associates due to air concentration and we were given time to order them. I was told as long as we showed that these were being worked on we could have had the termination date extended and avoided the B Order.

---

 ATMO Safety | You, Don, John, +2

---

 You 4/12 12:31 PM  
...I guess Mr. **Markeson** didnt think ordering more M95 masks, the ear plugs, researching to have the Gibraltar calibration done or the scheduling of the cardio tests is effort made?...

**Bryan:** We couldn't find any results for 'Bryan'.

## Licklider:

 ATMO - Maintenance Group | You, Don, Joe, +3

---

 You 2/15 12:14 PM

I sent you my suggestion and responses to the citations. There are a couple we need more clarification on from Mr **licklider**.

**Randall:** We couldn't find any results for 'Randall'.

## Randy:

 You, John and Jordan

---

 Gage Wheeler 1/6 4:44 PM

Did john ever talk to **randy** hill and see if i can come in there when we are not running

## Hill:

 You, John and Jordan

---

 Gage Wheeler 1/6 4:44 PM

Did john ever talk to **randy** hill and see if i can come in there when we are not running

## Michael:

 ATMO Safety | You, Don, John, +2

---

 JS John Spears 4/14 2:07 PM

...Im telling you guys... Keith is a snake... be cautious on what you say to and around him. Any MSHA inspector really. **Michael** Van Dorn - Ex-MSHA employee... good reference 417-684-3288 I spoke with him and he gave me a good run down on Keith, Mr Pratt, etc. He said he would help us in any w.....

 ATMO Safety | You, Don, John, +2

 You 4/14 2:01 PM

...**Michael** Van Dorn - Ex-MSHA employee... good reference 417-684-3288...

 ATMO - Mill Mgmt | You, Don, John, +2

 BB Bonnie Bainter 7/14/22 4:55 PM

...I asked **Michael** today if it is truly a shift will I have to report it as OSHA requires. He started it will need to be reported as a recordable incident....

 ATMO - Mill Mgmt | You, Don, John, +2

 BB Bonnie Bainter 7/6/22 4:17 PM

Just a heads up, I received a call from **Michael** VanDorn our MSHA inspector. He advised that in compliance with the current Silica study each mill that has received violations in the past, are required to undergo an air and noise test....

### Mike:

 You

 JT Jeremy Talbert 4/13 5:39 PM

Im sure you talked to john about **Mike** Vandorn he was my msha guy at my last job and i managed to get to where he is a phone call away if i needed him if you havent call him i think he can help us get around this issue he told me what we needed to do but be better for your or john to call and he would be willing...

### Van Dorn:

 ATMO Safety | You, Don, John, +2

 JS John Spears 4/14 2:07 PM

...Michael **Van Dorn** - Ex-MSHA employee... good reference 417-684-3288 I spoke with him and he gave me a good run down on Keith, Mr Pratt, etc. He said...Mr. **Van Dorn** was very respective to the business. He understood that the condition of the equipment, due to age, was going to be very difficult to secure to dustin...

**Vandorn:**

 ATMO - Mill Mgmt | You, Don, John, +2

 Bonnie Bainter 7/6/22 4:17 PM

Just a heads up, I received a call from Michael **VanDorn** our MSHA inspector. He advised that in compliance with the current Silica study each mill that has received violations in the past, are required to undergo an air and noise test....

**David:** We couldn't find any results for 'David'.

**Dave:** We couldn't find any results for 'Dave'.

**Prewett:**

 ATMO - Maintenance Group | You, Don, Joe, +3

 John Spears 2/15 12:14 PM

Russell Tidaback John, do we not have a bulb to put into the socket to abate the light socket issue? Yes we do. But if the lights do not come on we would receive a citation for inadequate lighting. Mr. **Prewett** said a citation would be written either way.

**Doc:** We couldn't find any results for 'Doc'.

**Dillingham:** We couldn't find any results for 'Dillingham'.

**Shawn:**

 ATMO - Maintenance Group | You, Don, Joe, +3

 You 2/15 12:22 PM

Any citation that has been abated, please let me know ASAP. We are suppose to contact Mr. **Shawn** Pratt about each one. So he can verify that it was abated in their system. (think email trail)

## Pratt:

 ATMO Safety | You, Don, John, +2

 JS John Spears 4/14 2:07 PM

...Im telling you guys... Keith is a snake... be cautious on what you say to and around him. Any MSHA inspector really. Michael Van Dorn - Ex-MSHA employee... good reference 417-684-3288 I spoke with him and he gave me a good run down on Keith, Mr **Pratt** etc. He said he would help us in any w.....

 ATMO Safety | You, Don, John, +2

 You 4/14 2:01 PM

...I spoke with him and he gave me a good run down on Keith, Mr **Pratt** etc. He said he would help us in any way he can. He retired from MSHA... states he loved the job of helping people but does not agree with the way MSHA does things.

 ATMO Safety | You, Don, John, +2

 You 4/14 7:16 AM

...I am still a little grey on the whole air resample process, and am inquiring Mr. **Pratt** about it all.....

 ATMO Safety | You, Don, John, +2

 JM Jessie Molesi 4/13 2:09 PM

The email from Mr. **Pratt**

 ATMO Safety | You, Don, John, +2

 JS John Spears 4/12 1:12 PM

...Doing a "fit test" is useless until we find out what forms of breathing apparatuses we are able to use. I figured Mr. **Pratt** and Mr. Simms would have granted our request before an undue financial burden was placed on us. Because like you said, doctors and equipment just don't happen the next day.

 ATMO Safety | You, Don, John, +2

 You 4/12 12:31 PM

...I tried calling Mr. **Pratt** again, I assume their office is out to lunch. I'll try again after 1pm.

 ATMO Safety | You, Don, John, +2

 You 4/12 12:08 PM

Jessie Molesi Its okay, if he issued the order to be closed down, just scan it to a 12APR2023 folder and let me know when this is completed. I have already spoken with Mr. **Pratt** this morning and will call him again once I see the order. John Spears

 ATMO - Maintenance Group | You, Don, Joe, +3

 You 2/15 12:22 PM

Any citation that has been abated, please let me know ASAP. We are suppose to contact Mr. Shawn **Pratt** about each one. So he can verify that it was abated in their system. (think email trail)

**Adam:** We couldn't find any results for 'Adam'.

**Larkins:** We couldn't find any results for 'Larkins'.

**Inspector:**

ATMO Safety | You, Don, John, +2

John Spears 4/14 2:07 PM

...Im telling you guys... Keith is a snake... be cautious on what you say to and around him. Any MSHA **inspector** really. Michael Van Dorn - Ex-MSHA employee... good reference 417-684-3288 I spoke with him and he gave me a good run down on Keith, Mr Pratt, etc. He said he would help us in any w.....

ATMO Safety | You, Don, John, +2

You 4/14 2:01 PM

Im telling you guys... Keith is a snake... be cautious on what you say to and around him. Any MSHA **inspector** really....

ATMO Safety | You, Don, John, +2

You 4/14 9:09 AM

Oh no, I think you are doing a stand up job... State to State will have different "guidelines". Unfortunately, from an **inspectors** point of view, to protect yourself as an **inspector**, you need to be sure of your source and reference that source.

ATMO Safety | You, Don, John, +2

You 4/12 2:00 PM

...I dont want Keiths opinion, I want you to research the details. Remember, an **inspector** is suppose to give you a non-bias, non-opinionated inspection....

ATMO Safety | You, Don, John, +2

Jessie Molesi 4/12 11:01 AM

The MSHA **inspector** informed me that the doors and windows were open along with exhaust fans on on the day they did sampling. He also said that we cannot do production until we have the PAPR systems and everybody is medically evaluated and fit tested.

ATMO Safety | You, Don, John, +2

You 3/31 12:05 PM

...The thing to remember is the MSHA **inspector** has the cite you for going against a defined regulation. ANY opinion, and everyone has opinion, even MSHA **inspectors**, is not correct. Its not our job to argue with the **inspector**. After accepting the citation, we then need to justify his/her findings regarding the regulation....

ATMO Safety | You, Don, John, +2

You 3/31 11:45 AM

I will stress with you.... any MSHA **inspector** is not your friend. Anything you say to or in their presence can AND WILL be used against you in a court of law. Hopefully, this will never be needed BUT just be well aware.

ATMO Safety | You, Don, John, +2

JM Jessie Molesi 3/31 11:41 AM

Russell Tidaback who is our carrier insurance the MSHA **inspector** told me that I could contact them and see if they offer programs to send us the equipment we need to do air surveys and send the equipment back for analysis.

ATMO Safety | You, Don, John, +2

JM Jessie Molesi 3/30 10:05 AM

Of course and we are working on this other air tank so i can get the fire **inspector** out here for our pressure vessel inspection.

Jim Hoover

You 3/28 7:27 PM

who was the MSHA **inspector** today? Keith?

 Jim Hoover

You 3/28 7:26 PM

without being combative, when an MSHA **inspector** states something, ask them for a reference so you can educate yourself on the proper regulations to keep everyone safe.

 Jim Hoover

You 3/28 7:21 PM

Jim Hoover I get along with them great remember... MSHA **inspectors** are NOT your friend. They can and will us anything and everything against you in a court of law.

ATMO Safety | You, Don, John, +2

You 3/28 9:39 AM

Nice... then yes. Ask John, what is needed to hook up the other air tank before scheduling. This way we aren't having an empty tank sitting there and the **inspector** possibly need to come back. Are you familiar with the inspection? What they look for etc? If not, read up on it so we can be ahead of the **inspector**.

ATMO Safety | You, Don, John, +2

JM Jessie Molesi 3/28 9:32 AM

...I'm about to call the traveling **inspector** to set up an appointment for the pressure vessel inspection. I wanted to make sure that is fine before i call. They will also send the invoice to the office here and i wanted to know who i send that to once it arrives so we can pay them and get the object codes current.

ATMO Safety | You, Don, John, +2

Jordan Tidaback 3/28 8:33 AM

...Also, I did want to point these docs out to you in the link below, as the last MSHA **inspector** shared them with me. It includes the checklists MSHA uses when the do inspections....

ATMO Safety | You, Don, John, +2

Jordan Tidaback 3/24 4:04 PM

...These are the spots (in red) on the 5000-23 sheet that the MSHA **inspector** told me to fill out for tasks trainings. If you look in the 5000-23 booklet we have, you'll see one already filled out for Ronnell, Jim, Patrick, and RJ....

New Task Training 500... ...

ATMO Safety | You, Don, John, +2

Jordan Tidaback 3/24 1:47 PM

Did you see the 5000-23 book yesterday and the task trainings in it? The MSHA **inspector** recently showed me how to fill it out. I can show you, if needed.

You

Jim Hoover 3/22 11:10 PM

...we will wait till the complaints start pouring in, we just had **inspectors** tell us what to do if it starts dusting you told us what to do if it starts dusting but I guess it's okay if **inspectors** aren't there.

Mill Group Chat | You, Brian, Don, +10

You 3/21 11:07 AM

Also, ask the MSHA **inspector** for the MSHA reference as to how high a pallet can be stacked. We are not finding the reference.

ATMO - Maintenance Group | You, Don, Joe, +3

You 2/20 2:34 PM

Perfect. Hopefully the **inspector** will be there early and we will get to producing. Since that's done, can we get some time on the bagger switch?

Mill Group Chat | You, Brian, Don, +10

You 2/16 11:12 AM

Probably another reason why this MSHA **inspector** is here... [image]

 ATMO - Maintenance Group | You, Don, Joe, +3

Jordan Tidaback 2/14 11:49 AM

Hi Gage, we spoke with John about that. You are absolutely allowed to answer questions the MSHA **inspector** has (obviously)....The Ops Mgr and maintenance person usually work hand in hand when the **inspector** is there so we can fix the simple things quickly on site before he leaves....I know having the **inspector** there makes for...

 ATMO - Maintenance Group | You, Don, Joe, +3

Gage Wheeler 2/14 11:40 AM

Gage Wheeler do not answer any questions about the that the MSHA **inspector** may have. Do not go into the mill. I'll be the person who talks to me **inspector**....

You

Robert Baumann 2/14 11:39 AM

Msha **inspector** told me to lock the doors and no one was allowed in until he okayed it

 ATMO - Maintenance Group | You, Don, Joe, +3

You 2/14 11:27 AM

Oh well, thanks for just nodding and agreeing with the **inspector**. That's all we can do.

 ATMO - Maintenance Group | You, Don, Joe, +3

You 2/14 11:20 AM

It's all good. Have to remember each **inspector** is going to have a different opinion of what is right

 ATMO - Maintenance Group | You, Don, Joe, +3

John Spears 2/14 10:13 AM

[6:55 AM] John Spears I understand. I should have been more specific about not volunteering information. I will escort the **inspector**. like 1

ATMO - Maintenance Group | You, Don, Joe, +3

John Spears 2/14 6:35 AM  
Gage Wheeler do not answer any questions about the that the MSHA **inspector** may have. Do not go into the mill. I'll be the person who talks to me **inspector**.

Mill Group Chat | You, Brian, Don, +10

John Spears 11/22/22 5:17 PM  
Sure thing. Sounds good. I'm pretty sure we have smoothed things over with the MSHA **inspectors**. Bryceton is finishing up a couple welding repairs in the morning and that should be the final items on the list. We now have furnace heat in the office building as well. Jim is finished with the tube mill....

Mill Group Chat | You, Brian, Don, +10

You 11/14/22 11:48 AM  
...Last I heard msha **inspector** said they was expired and terry our safety manager had to cut them up right on the spot . If you know where one is at please inform us...

Mill Group Chat | You, Brian, Don, +10

Benjamin Waters 11/14/22 11:12 AM  
Last I heard msha **inspector** said they was expired and terry our safety manager had to cut them up right on the spot . If you know where one is at please inform us

You

Jim Hoover 11/8/22 10:42 PM  
I'm not complaining about anything brother terry I'd working on the **inspectors** shit which is okay

You

Jim Hoover 11/7/22 12:48 PM  
VID\_20221107\_124644271.mp4 Went and got the **inspector** and he said that's damn good

 ATMO - Operations | You, Don, Gwen, +4

 You 11/3/22 5:21 PM  
Terry Newburn did you receive the MSHA list from the **inspector**?

 Mill Group Chat | You, Brian, Don, +10

 You 11/2/22 6:32 PM  
...From what I understand today was a busy day with outside visitors, **inspectors** as well as the maintenance issue....

 Terry Newburn

 You 11/2/22 1:09 PM  
...to the Safety and Environmental channel and we can build a plan to address these ASAP so we wont have these come up again when the **inspector** comes back. The MSHA **inspector**, if its the same guy I spoke with, he is a pretty good guy. He's just doing his job and I dont question anything he finds....

 Mill Group Chat | You, Brian, Don, +10

 You 7/13/22 8:49 PM  
Just be cautious is the main point. Do what you know you should do, like wearing your hard hat in the mill at all times. Dont cut corners. The **inspector** is just doing his job.

 Mill Group Chat | You, Brian, Don, +10

 You 7/13/22 8:36 PM  
... 😊 and if you are asked a question by the **inspector** keep your answer short and simple. Dont be "that guy", Camrin lol, that thinks he knows it all and starts pointing out of all the faults etc. (I only name drop Camrin since he doesnt work with us any longer. 😊 )

 ATMO - Mill Mgmt | You, Don, John, +2

 Bonnie Bainter 7/6/22 4:17 PM  
Just a heads up, I received a call from Michael VanDorn our MSHA **inspector**. He advised that in compliance with the current Silica study each mill that has received violations in the past, are required to undergo an air and noise test....

## Mill Group Chat

Monday, April 3

John Spears 4/3 7:03 AM

Good morning Crew! Let's continue with SO-316. We're about to finish the OGR for this order. Be sure to check in with your Safety exams.

3

John Spears 4/3 8:05 AM

I'm in the mill.

4/3 10:48 PM

## Exhibit 13

4/3 10:49 PM

Everyone be weather wise tomorrow...

## Moderate potential for severe weather Tuesday announced by National Weather Service

Jeff Smithpeters April 3, 2023

1

Tuesday, April 4

John Spears 4/4 7:15 AM

Everyone done very well yesterday. Let's keep this going. Keep an eye out for hazards. Let's keep up with the safety exams.

John Spears 4/4 8:10 AM

Taking Ronnell to quarry.

John Spears 4/4 5:10 PM

Good job today everyone. I realize we were a man short but y'all stepped up and we had a good day. We'll continue with OGR for our next order. Then we have a couple of cream orders. I drove everyone of the forklifts today. Did an exam on each. Hope you all are doing the same. If you see a potential problem, let Rob know and he'll contact a maintenance man. Thanks again.

Wednesday, April 5

Ronnell Fondren 4/5 7:10 AM

2 loads of rock is being brought down from the dry sheds

Patrick Lewis 4/5 7:31 AM

That's nice lol thanks sir

Julie Ann Cureg 4/5 9:14 AM

Good morning Alex Snodgrass John Spears just a heads up. SO-594 will be picked up today. They didn't give a specific pick-up time but per carrier, it should be noon. Just waiting for the BOL from the carrier to send it back to us they are just doing a quick revision.

4/5 9:23 AM

Julie Ann Cureg Who is the trucking company, so we know who to look for?

Julie Ann Cureg 4/5 9:26 AM

It's Primo. I added it to the Prod Calendar

Alex Snodgrass John Spears I just added the Bag Label and BOL. Ready for printing.

John Spears 4/5 9:40 AM

Julie Ann Cureg we're using Primo's BOL only and not one of ours. Correct?

Julie Ann Cureg 4/5 9:41 AM

Yes. I deleted ours

John Spears 4/5 9:41 AM

Very good. Thank you.

Exhibit 13

Exhibit P-43, Page 807

We'll have it ready in 30 minutes.

Thursday, April 6

Ronnell Fondren 4/6 12:00 PM

Robert Baumann someone needs to check and make sure the primary tank isn't low, and if it is then, rock will need to be sent up. Please n thank u

John Spears 4/6 12:02 PM

The primary rose tank is a little below half when I checked at 1030am today. Auxiliary tank is full.

Robert Baumann 4/6 12:04 PM

Yep I am planning on Jim crushing this AF

John Spears 4/6 12:04 PM

Very good.

Ronnell Fondren 4/6 12:05 PM

Robert Baumann 4/6/2023 12:04 PM

Yep I am planning on Jim crushing this AF

Gotcha, well I already started it when everyone took break

John Spears 4/6 12:07 PM

Ronnell Fondren thank you but you need to communicate with Robert Baumann before you move to another area.

Robert Baumann 4/6 12:08 PM

Ronnell Fondren I discussed speaking with John Spears or I about tasking assignments

John Spears 4/6 12:08 PM

Very good.

Ronnell Fondren 4/6 12:09 PM

Mmmmmk

Robert Baumann 4/6/2023 12:08 PM

Ronnell Fondren I discussed speaking with John Spears or I about tasking assignments

Why is it that when I take initiative there's always this and that, when no one else has been on top of it but "ME".. but it's whatev..

John Spears 4/6 12:12 PM

Since we're trying to establish a culture of safety, we need to know were everyone is incase someone needs help. Personal initiative is great but we need to communicate with the chain of command for safety first.

Robert Baumann 4/6 12:13 PM

Ronnell Fondren everything is still running we can't just walk off of especially this "crushing"

Ronnell Fondren 4/6 12:16 PM

Robert Baumann 4/6/2023 12:13 PM

Ronnell Fondren everything is still running we can't just walk off of especially this "crushing"

I didn't just walk off, I was told it was break and that the tank light was on n it needed to fill up n that whoever was feeding stopped. So when every disbursed I started the crusher up. So no I just don't walk off

SO-594 has been shipped

Friday, April 7

John Spears 4/7 6:49 AM

Good morning Crew! We'll continue with the OGR and finish SO-323. The next order is OGR as well. [Jeremy Talbert](#) and I will look at the packer nozzle and try to figure out why the "fill assist" air will not shut off. I'll move the bulk bags of Rose over to the quarry garage. [Ronnell Fondren](#) will be at the quarry today. Let's have a good Friday on Good Friday.

👍 1

Robert Baumann 4/7 9:09 AM

Power surge everything kicked out DANG it we are trying to reset everything

👍 1

**Exhibit 13**

Exhibit P-43, Page 810

Robert Baumann 4/7 9:25 AM

Someone hit some lines down the street we are shut down for a awhile

Robert Baumann 4/7 10:03 AM

Got the thumbs up now going to try to fire back up and get everything unclogged

John Spears 4/7 10:08 AM

Good deal.

We're getting 250 HT Large this coming Monday.

Robert Baumann 4/7 12:21 PM

[Jeremy Talbert](#) please come to bagger

John Spears 4/7 1:50 PM

Somehow this plastic bag made its way up to flour elevator to the 4th floor and plugged up the shaker/vibrator. We need to police up the trash and dispose properly. Thanks.

Robert Baumann 4/7 1:56 PM

Good point of reference to really watch while crushing

Here are a few examples. Before we go home today everyone needs to scour the mill and pick up the trash please. I appreciate y'all's hard work and I enjoy providing soda every now and then but we gotta keep the trash picked up. Thanks.

1

## Exhibit 13

Exhibit P-43, Page 814

JS

John Spears 4/7 3:09 PM

I picked these off of the pick belt before they went into the pulverizer. Whoever is tasked to operate the crusher please keep an eye out for big flint rocks. As you can see from the size of these they originally came from a bigger piece before it went through the crusher. Flint rocks this size can really reek havoc on the pulverizer. Thanks.

JM

Jessie Moles 4/7 3:45 PM

Everyone make sure to shave over the weekend so i can do a fit test Monday morning. Rob will send you over one at a time so not to interfere with production.

Also bearing in the filler screw will need replaced very soon losing a lot of product while filling and even pouring out while not turning

John Spears 4/10 9:50 AM

Robert Baumann 4/10/2023 9:49 AM

Also bearing in the filler screw will need replaced very soon losing a lot of product while filling and even pouring out while not turning

Thank you.

Jeremy Talbert 4/10 9:57 AM

I noticed this friday i was gonna see about doing it Saturday when i make up today if johb was okay with that i think the bearingbis in the maintenance shop

Ryan Closser 4/10 10:02 AM

The valve that was shut off was the 4" main directly above the air dryer... Downstairs. It's a 4" ball valve and feeds the entire system. NOT the little 1/2" Gate valve on the second floor next to the packer.

Jeremy Talbert 4/10 10:04 AM

Yeah i know which one your talking about what about the others where they all opened i drain the air tanks everyday theres never any moisture

Ryan Closser 4/10 10:53 AM

The valve on the end of the air tank closest to the second floor steps or right outside the shop door it was closed as well. It seemed as if somebody closed it in an effort to try to lock air in the system for the weekend. If we're trying to do that we're inviting problems.

It's just my personal opinion

John Spears 4/10 12:19 PM

Robert Baumann don't feed. We're working on the impeller bearing.

Tuesday, April 11

John Spears 4/11 7:08 AM

Good morning Crew! We'll finish SO-325 this morning. Everyone did very well yesterday with pallets, impeller bearing and staging product. Thank you.

I've have to see Lehar's diesel this morning. They open at 8am. I'll be on to the mill directly afterwards.

Robert Baumann 4/11 10:45 AM

Alex Snodgrass can we get the labels for the maverick order please

Alex Snodgrass 4/11 10:45 AM

On it

**Exhibit 13**

Jessie Molesi 4/11 10:53 AM

Jim Hoover, Patrick Lewis, Ronnell Fondren, and RJ Williams I have you guys scheduled for both an audiogram and Pulmonary function tests (PFT) for Wednesday (4/12/2023) at 0900 am at Express Wellness/ 2518 N Main St, Miami, OK 74354. I have forms that you have to bring with you to the appointment that I will bring to you. Ronnell when you get a chance could you stop by the office to grab the form before you leave for the day.

1
 1

Please acknowledge when you read this message

Jim Hoover 4/11 11:46 AM

Okay

John Spears 4/11 4:04 PM

Be sure to bring your paper for the breathing and hearing test tomorrow. I will drive y'all.

Jessie Molesi 4/11 4:49 PM

Ronnell Fondren RJ Williams Jim Hoover Patrick Lewis

Hey everybody make sure to fill out the top portion of the sheet I gave you with your information that I left blank. Also can each one of you private message me with your birthdate and phone number so I can send it to express wellness. Please acknowledge when you get this

Wednesday, April 12

John Spears 4/12 6:52 AM

Jim Hoover Ronnell Fondren Patrick Lewis RJ Williams be sure to bring back your paper for the lung test today. Don't be late. I'm driving you over there.

Patrick Lewis 4/12 6:55 AM

We get ice cream too right?

John Spears 4/12 8:13 AM

We're headed to Miami, OK for health test at Xpress Wellness

John Spears 4/12 8:53 AM

We have arrived.

Robert Baumann 4/12 9:08 AM

John Spears 4/12/2023 8:53 AM

We have arrived.

Call me asap

Patrick Lewis 4/12 9:09 AM

ASAP

Friday, April 14

4/14 8:04 AM

**IMPORTANT!**

Hi Guys.

From what we are learning in dealing with MSHA, and the recent air quality test results... those individuals who were tested as overexposed will need to wear a Powered Air Purifying Respirator (PAPR) until we can get the air readings back down to under the limits.

We have ordered these PAPR masks. These should be in Mon-Wed of next week.

We dont want you guys missing that many days of no pay so John and I are going to discuss later today about how we can keep you guys working mon-when ever the masks come in. I do apologize for yesterday and today.

The plan is as soon as the masks come in, to have Jessie put them together, and notify MSHA so they can modify the Citation/Order on the mill so we can run product. Then he will notify you guys to come in and get fit tested for these new masks (yes, its required to fit test you with each new style/manufacture mask).

As soon as every affected associate is fit tested and we can operate, we need to. Whether this is Tuesday, Wednesday, or Thursday. What ever day it is. We need to get back to pumping out product. Payroll and bills still need to get paid!

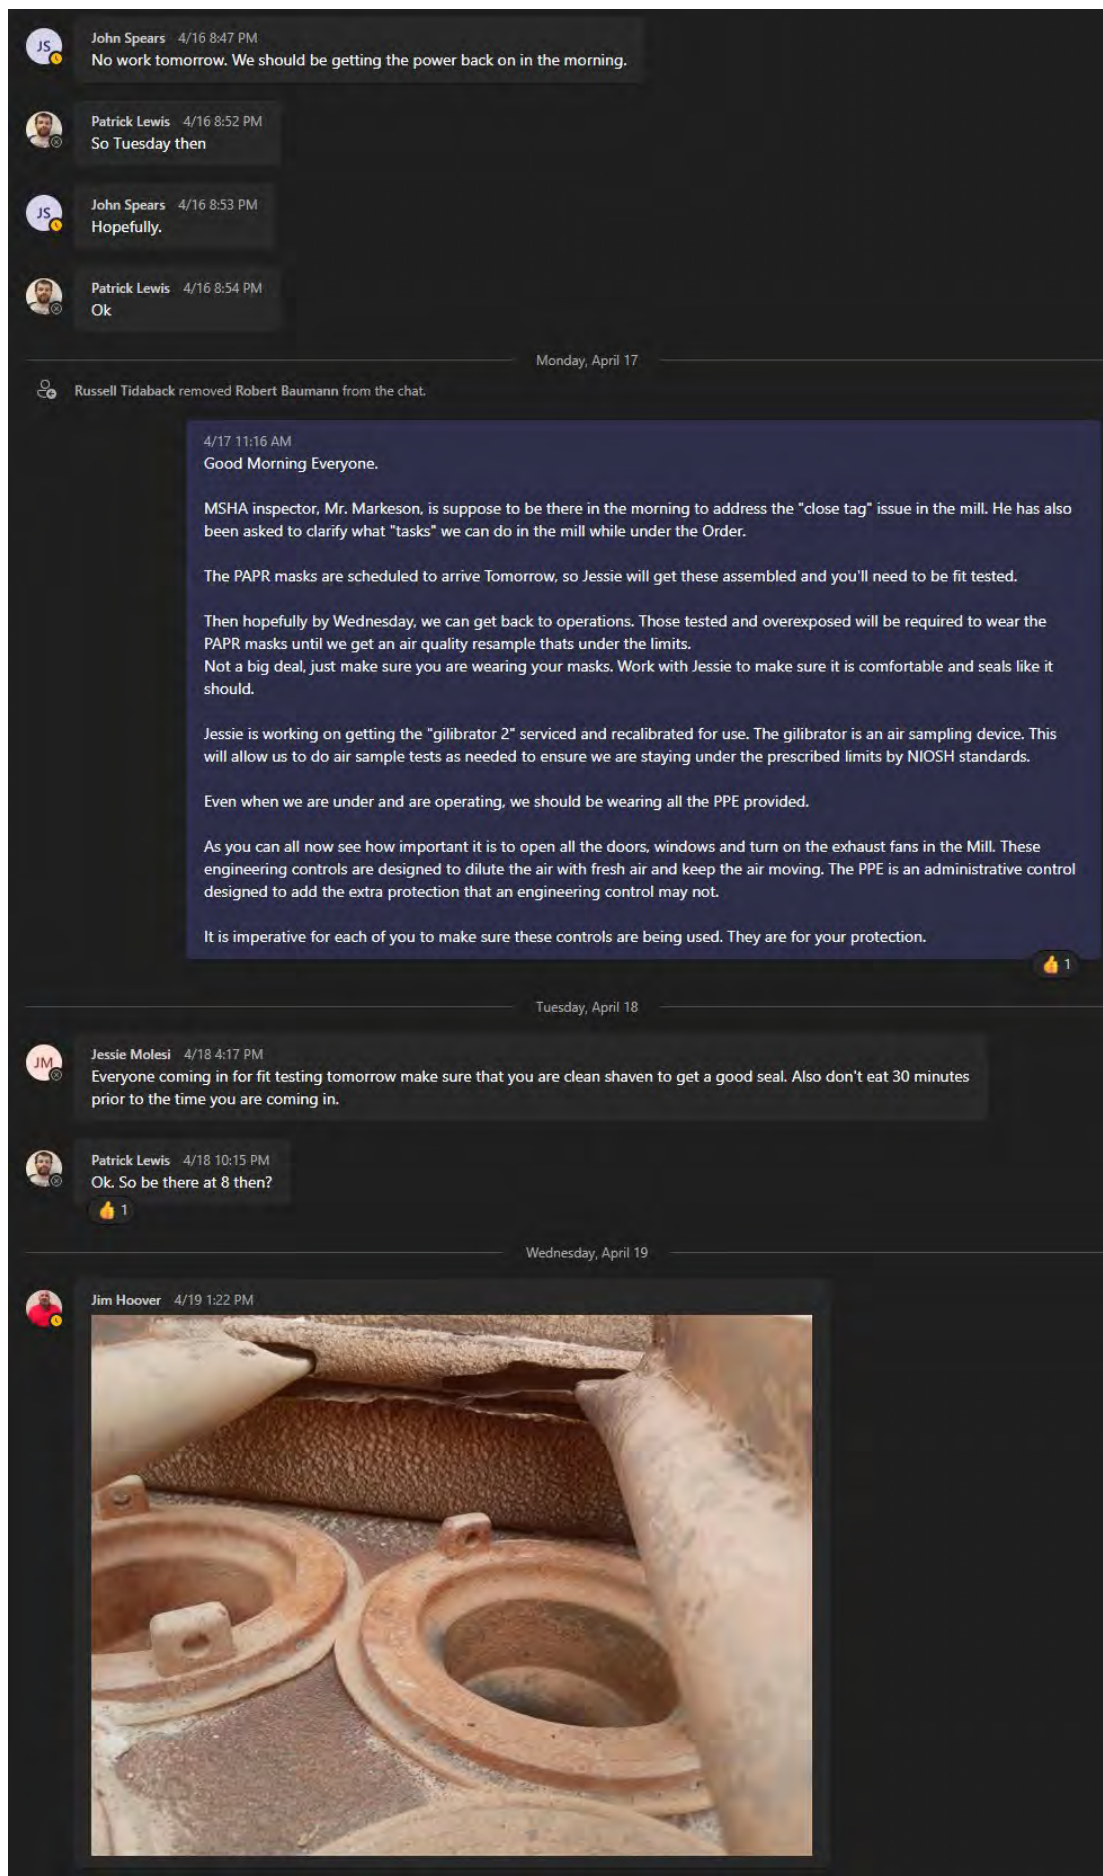

This should be a learning lesson for all... the opening of all doors, windows each morning and closing of all doors, windows each afternoon AND turning on all exhaust fans is CRITICAL each and every day.

This simple tasking is on the board in the breakroom... this should not be overlooked!

Any questions on this post, please collaborate or ask Rob/John/Jessie directly.

Sunday, April 16

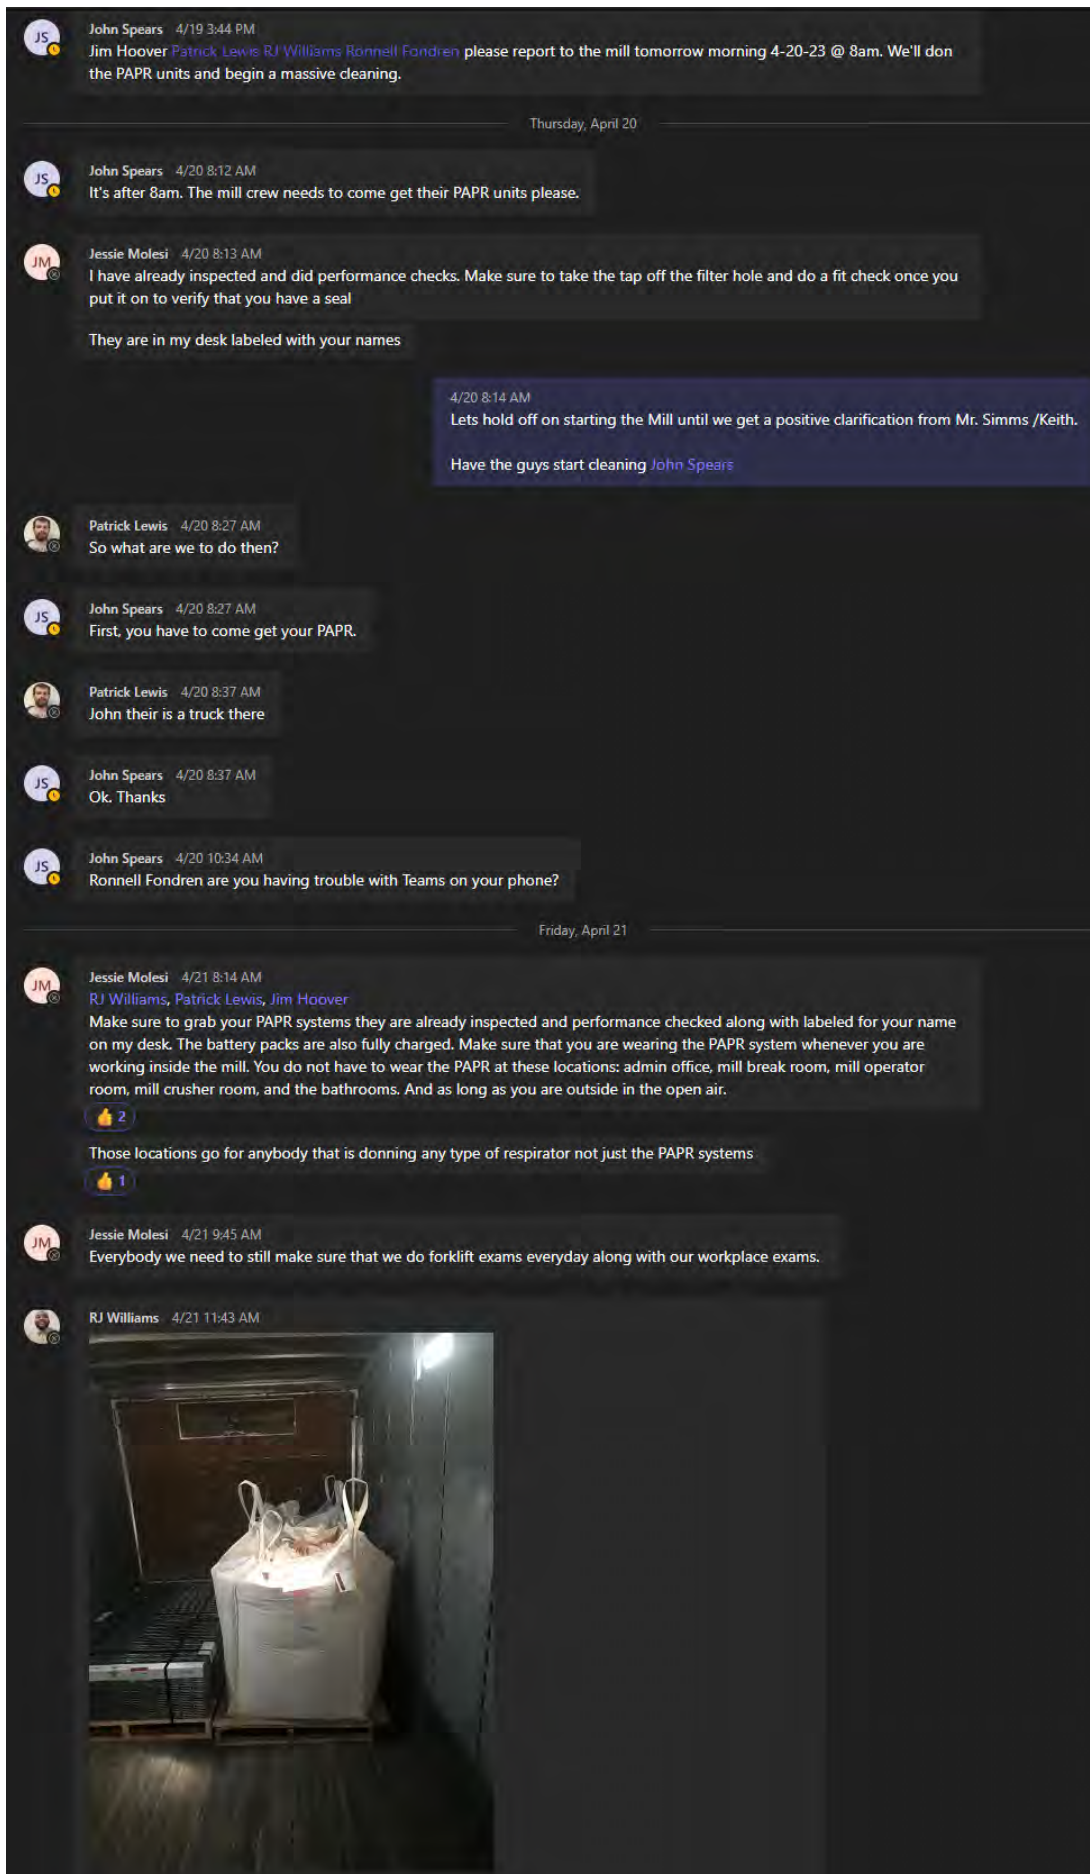

Russell Tidaback removed Alex Snodgrass from the chat.

Hi RJ Williams John Spears, could you please upload the signed BOL to the folder? Thanks!

Sure will.

1

RJ Williams

4/21 11:58 AM

JS

John Spears 4/21 11:59 AM

Thanks RJ. When I get back I'll scan the BOL

1

Sunday, April 23

4/23 11:42 AM

Guys, When the driver signs the BOL, if the drivers name is unreadable, please have the driver print their name under their signature. Trucking companies, just like our company, are going through a lot of employee change over. To save a lot of hassle, make sure you can read the drivers name.

The Bill of Lading (BOL) is the official document that transfers the buyers order risk of completion from us (the seller) to the trucking company. We need to know by name and truck/trailer number WHO signed for the order. This is to protect not only us but also the buyer.

2

Monday, April 24

JM

Jessie Molesi 4/24 8:55 AM

Everybody make sure we keep doing the workplace safety exams everyday along with the forklift inspections exam. Also the PAPR systems are in the main office and they have been both inspected and performance checked.

1

### NO GOSSIP POLICY

In our workplace, gossip is an activity that can drain, distract and downshift our job satisfaction. We all have participated in this, yet most say we don't like it. To create a more professional workplace, we are committing to making a gossip-free environment.

**Gossip n.** Rumor or talk of a personal, sensational, or intimate nature. A person who habitually spreads intimate or private rumors or facts. Trivial, chatty talk, or writing.

You will notice that gossip is a noun, meaning it is something you DO. That also means that gossip is something you choose to do, and you can choose NOT to do. You enter into gossip by choice-you can opt out of the activity at work. To end gossip means to end a particular type of communication – and that can be talk, text, social media, or email communications.

- Gossip always involves a person who is not present.
- Unwelcome and negative gossip involved criticizing another person.
- Gossip often is about conjecture that can injure another person's credibility or reputation.

#### **To have a more professional, gossip-free workplace, I promise to:**

1. Not speak or insinuate another person's name when that person is not present unless it is to complement or reference that individual regarding work matters.
2. Refuse to participate when another mentions a person who is not present in a negative light. I will change the subject or tell them I have agreed not to talk about another individual.
3. Choose not to respond to negative emails, texts, or social media posts, or use emails, texts, or social media posts to pass on private or derogatory information about another individual from the workplace.
4. While off the job, I will not speak to another co-worker about people at work in a derogatory light. If I have feelings, I will select to talk to someone, not at the workplace.
5. If a co-worker does something unethical, against procedures, or disruptive, I will use the proper channel to report this to the operations manager to take corrective action.
6. I will mind my own business, do good work, be a professional adult, and expect the same from others.

**By signing below, I acknowledge that I have read the above No Gossip Policy and intend to abide by the above mention guidelines. I am aware that if I fail to abide by said guidelines, I may face disciplinary action, including possible termination.**

## Welcome

Hello and welcome! Thank you for joining the American Tripoli team, where we strive to emphasize product quality, consistency, and excellent customer service. We can't wait to see what you will achieve with us.

This associate handbook defines who we are and how we work together. We will do everything possible to create a fair and productive workplace, but we need your help. We've created this handbook to guide you.

This handbook isn't a contract or a guarantee of employment. It's a collection of the expectations, commitments, and responsibilities. Please read this associate handbook carefully and consult it whenever you need to.

## Getting To Know The Company

American Tripoli has been in business since 1869. It has been sold and changed ownership numerous times throughout its history. The underlining purpose of the company has not changed through all of this. The company surrounds itself in the basic concept of open-pit mining, processing, manufacturing, advertising, selling, and distributing the product(s).

Make sure you utilize the company website to learn about the product(s) we manufacture and sell.

We are a growing company that will be using all available resources to make this company grow and multiple in not only in gross revenue but also global market share.

## Employment Basics

In this section, we explain the associate contract types and define the basic employment policies.

### Employment Contract Types

Full-time associates work at least 30 hours per week or 120 hours per month on average.

Independent Contractor - common situations may arise when we need for projects of short or specific

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

duration where specialize knowledge or expertise is required or exigent circumstances such as meeting the operational needs when an associate goes on an extended leave of absence. Part-time associates are those who work fewer than 30 hours per week.

Full-time and part-time associates can have either temporary or indefinite duration employment contracts. Full-time associates under an indefinite duration contract are entitled to the company's medical and dental benefits package after their first 90-day employment period.

We remind you that, in the U.S., employment is "at-will". This means that you or the company may terminate the employment relationship at any time and for any non-discriminatory reason(s).

## Equal Opportunity Employment

American Tripoli is an equal opportunity employer. We don't tolerate discrimination against protected characteristics (gender, age, sexual orientation, race, nationality, ethnicity, religion, disability, veteran status). We want all associates to treat others with respect and professionalism. In practice, this means that we:

- Hire and promote people based on skills, experience or potential and try to reduce bias in every process (e.g. through structured interviews.)
- Make accommodations to help people with disabilities move about safely on the premises and use the products, services, and equipment.
- Use inclusive, diversity-sensitive language in all official documents, signs and job ads.
- Conduct diversity and communication training.

Apart from those actions, we commit to penalizing every discriminatory, offensive, or inappropriate behavior. To do this properly, we ask you to report any discriminatory action against yourself or your colleagues to your manager. If it is your manager, report it to their manager. The company will not retaliate against you if you file a complaint or discrimination lawsuit. Any associate who retaliates or discriminates will face disciplinary action.

## Recruitment and Selection Process

The hiring steps might vary across roles, but we always aim for a process that is fair and effective in hiring great people. As a Department Manager, If you are hiring for an open role, you will likely go through these steps:

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- I. Identify the need for a new job opening.
  - II. Decide whether to hire externally or internally.
  - III. Review job descriptions and write a job ad.
  - IV. Get approval from Senior Management for your job ad.
  - V. Select appropriate sources (external or internal) to post your job opening.
  - VI. Decide on hiring stages and possible timeframes.
  - VII. Review resumes in the company database.
  - VIII. Source passive candidates.
  - IX. Shortlist applicants.
  - X. Screen and interview candidates.
  - XI. Run background checks and check references.
  - XII. Select the most suitable candidate.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

**XIII. Make an official offer.**

Steps may overlap, so skip steps when appropriate. Each member of a hiring team might have different responsibilities (e.g. recruiters source and hiring managers interview candidates.)

Throughout this process, we aim to keep candidates informed, communicate well with each other, and give everyone an equal opportunity to work with us. Ask the recruiters for help whenever you need to enhance candidate experience or write an inclusive job description.

**Background checks**

If you want to run background checks on candidates, ask the Operations Manager for guidance. This process is sensitive, and we must always abide by laws and ensure candidates understand the intentions. As a rule, commission a background check for finalists only. Use the contracted provider and ensure you have your candidates' permission.

**Referrals**

If you know someone who you think would be a good fit for a position at the company, feel free to refer them. If we end up hiring your referred candidate, you are eligible for \$600 referral bonus. The associate referral rewards may be higher if we hire your referred candidate in a hard-to fill role. For example, if we hire your referral for the position of Manager, you may receive \$1200.

**Additional rules for rewards:**

- Reward payout schedule is 1/3 within a month of the date we hired a referred candidate. Second 1/3 at the completion of the referred candidates first 180 days of employment. If Candidate quits, resigns, or is terminated for any reason before the completing first 180 days of employment the second ½ reward is provided. Final 1/3 at the completion of the referred candidates first 360 days of employment. If Candidate quits, resigns, or is terminated for any reason before the completing first 360 days of employment the second and or final 1/3 reward is provided

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- There is no cap on the number of referrals an associate can make.
  - If two or more associates refer the same candidate, only the first referrer will receive the referral incentives.
  - Candidates can only be referred once; all referrals are recorded.
  - Referrers are still eligible for rewards even if a candidate is hired later for same position. It is the referrers responsibility to keep a record of who they refer and when. Any discrepancy, results go to the company.

**Who can be referred?**

We have two conditions for candidates who can qualify you for the rewards. They should:

- Have not applied to the company before
- Be hired as permanent full- or part-time associates (not as temporary associates or contractors)

The company may use an online form or a platform where associates may refer candidates. You can also reach out directly to your Manager with referrals. Generally, we encourage you to check the open positions and consider your social networks and external networks as potential resources for referred candidates. Keep in mind that rewards may be subject to taxation. Please contact your Manager for more information.

**Attendance Policy**

Team Members' absence/ tardiness will be assessed using a points system. This points system starts after the first 90 days of employment. The occurrence of point 1 is forgiven, the occurrence of point 2 is a verbal warning, the occurrence of point 3 is a "written" warning, and the occurrence of point 4 results in termination. This point system resets every year, for example, if a Team Member started work on March 1st, their 90-day mark would be May 30th and they would begin the points system. Any points accrued between May 30th and May 29th of the following year would drop off, and the Team Member would restart with 0 points on May 30th that next year.

Absences count as points when they are non-approved and non-PTO. Unexpected absences still count as points, even if the Team Member notifies their manager prior to the start of the shift. Missed work without notification is a serious offense. More than 2 days in a row missed without giving notification will result in immediate termination.

Tardiness over 15 minutes will be counted as 0.5 points. Leaving work early or for some time during the day is also generally 0.5 points, but will be counted as 1 full point, if more than 2 hours of work are

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

missed. Excessive tardiness where less than 15 minutes of work is missed can still be grounds for termination.

If an emergency occurs, Team Members are allotted 2 emergency days per year. These are days missed for good reason that will not count as points. The year for emergency days works the same as the year for points, starting at the 90th day of employment.

Overtime, not to exceed 50 hours per week, may be required. If overtime is required, Team Members will be given at least 2-day notice. Required overtime is considered working hours, and the points system will still apply. Volunteers may be taken for overtime work that comes up without a 2-day notification.

Absences within the first 90 days of employment are more serious. More than one absence within the first 90 days may be grounds for termination, depending on the situation.

## Workplace Policies

This section describes policies that apply to everyone at the company: associates, contractors, volunteers, vendors, and stakeholders alike. These policies help us build a productive, lawful, and pleasant workplace.

## Confidentiality and Data Protection

We want to ensure that private information about clients, associates, partners, and the company is well-protected. **Examples of confidential information are:**

- Associate records
- Unpublished financial information
- Data of customers/partners/vendors
- Customer lists (existing and prospective)
- Unpublished goals, forecasts and initiatives marked or unmarked

As part of the hiring process, we will ask you to sign non-compete and non-disclosure agreements (NDAs.) We are also committed to:

- Restrict and monitor access to sensitive data.
- Develop transparent data collection procedures.
- Train associates in online privacy and security measures.
- Build secure networks to protect online data from cyberattacks.
- Unpublished goals, forecasts and initiatives marked or unmarked

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

We also expect you to act responsibly when handling any company internal information and treat it all as confidential information.

**You must:**

- Lock or secure company information at all times.
- Make sure you view confidential information on secure devices only.
- Only disclose information to other associates when it's necessary and authorized.
- Keep confidential documents inside the company's premises unless it's necessary to move them.
- There should be NO or absolute minimal printing of anything. Printing is ONLY allowed for customer shipping documents or for MSHA documentation (since they like to have a hard copy on each inspection).
- If you acquire a receipt from a purchase, delivery, mail, etc., scan the document into the system. The easiest method to do this is by using your cellphone's camera to take a picture, then upload the picture straight into the respective folder in Teams or by using the scanner in the admin building. Once you have verified the receipt is scanned and stored online, throw the paper copy away.
- We do not want paper copies of anything. We want a digital copy of every document. We want the administration of the business to be as lean as we possibly can. We want all documentation stored online. 100% no paper office is the goal. This is very important, and we cannot stress this enough. We want the assurance that if something such as a flood, a fire, a tornado, or we build a new mill building we will not be lost or struggling to quickly break from the Seneca location.
- It is your responsibility to preserve, scan, verify and store the documentation in the approved file storage provided.

**You must not:**

- Use confidential information for your personal benefit or profit.
- Disclose confidential information to anyone outside of the company.
- Replicate confidential documents and files and store them on insecure devices.

This policy is important for the company's legality and reputation. We will terminate any associate who breaches the confidentiality guidelines for personal profit and seek legal recourse. We may also

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

discipline any unintentional breach of this policy depending on its frequency and seriousness. We will terminate associates who repeatedly disregard this policy, even when they do so unintentionally.

## Harassment and Violence

To build a happy and productive workplace, we need everyone to treat others well and help them feel safe. Each of us should do the part to prevent harassment and workplace violence.

### Workplace harassment

Harassment is a broad term and may include seemingly harmless actions, like gossip. We can't create an exhaustive list, but here are some instances that we consider harassment:

- Sabotaging someone's work on purpose.
- Commenting derogatorily on a person's ethnic heritage, religious beliefs, or sexual preference.
- Train associates in online privacy and security measures.
- Starting or spreading rumors about a person's personal life.
- Ridiculing someone in front of others or singling them out to perform tasks unrelated to their job (e.g. bringing coffee) against their will.

Sexual harassment is illegal, and we will seriously investigate relevant reports. If an associate is found guilty of sexual harassment, they will be terminated immediately.

If you're being harassed, whether by a colleague, customer, or vendor, you can choose to talk to any of these people:

- Offenders. If you suspect that an offender doesn't realize they are guilty of harassment, you could talk to them directly to resolve the harassment. This tactic is appropriate for cases of minor harassment (e.g., inappropriate jokes between colleagues. It may not seem inappropriate to those in the conversation where it is being said but can be inappropriate to those overhearing the conversation).
- Your manager. If customers, vendors, or team members are involved in your claim, you may reach out to your manager. Your manager will assess your situation

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Senior Management. Feel free to reach out to Senior Management in any case of harassment no matter how minor it may seem. For your safety, Senior and may his/her manager if appropriate.
- Starting or spreading rumors about a person's personal life.
- Ridiculing someone in front of others or singling them out to perform tasks unrelated to their job (e.g. bringing coffee) against their will.

Management as soon as possible in cases of serious harassment (e.g., sexual advances) or if your manager is involved in your claim. Anything you disclose will remain confidential.

**Workplace violence**

Violence in the workplace is a serious form of harassment. It includes physical and sexual assault, destruction of property, threats to harm a person or property and verbal and psychological abuse. We want to avoid those incidents altogether, but we also want to be ready to respond if needed.

For this reason, we ask you to:

- Report to Senior Management if you suspect or know that someone is being violent. Your report will be confidential, and we will investigate the situation with discretion
- Call 911 if you witness incidents of severe physical violence (e.g., ones that involve a lethal weapon.) For your safety, avoid getting involved.

We will treat associates who verbally threaten others as high risk and they will receive an appropriate penalty. If Senior Management finds that an associate commits an act of violence, we will terminate that associate and seek to press criminal charges. Associates who damage property deliberately will be solely responsible for paying for it.

Supporting victims:

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

To support victims of workplace violence, we may, provide victims with the lawyer's services to help them file lawsuits.

Get help early on :

Seek help from others early on to mitigate conflicts. For example:

- If you experience conflicts with a colleague, ask your manager for advice before tensions escalate. If these conflicts persist, ask Senior Management whether you could attend conflict resolution seminars with your colleague.
- If you are experiencing personal or work troubles, ask for help from a mental health professional. Check with your insurance provider to determine whether cover any mental health services. Your discussions will remain confidential.

The workplace is founded on mutual respect, and we won't allow anyone to compromise this foundation.

## **Workplace Safety and Health**

The company is committed to creating a hazard-free workplace. To this end, we will ensure workplace safety through preventative action and emergency management.

### **Preventative action**

Preventative actions are any actions we take to avoid injuries or illnesses related to the workplace. We will periodically conduct risk assessments and job hazard analyses through a workplace safety committee to uncover health risks to associates. And we will establish preventative measures to address risks accordingly

At a minimum, we will:

- Hold associate training sessions on safety standards and procedures

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Make sure associates who work in dangerous locations are safe.
  - Provide protective gear like gloves, protective uniforms and goggles.
  - Direct inspectors and quality control associates to evaluate equipment and infrastructure regularly.

We also expect you to take safety seriously. Always use protective equipment and follow standards whenever necessary. If you deliberately disregard the guidelines, we may terminate you for your own and others' safety.

**Emergency management**

Emergency management refers to the plan to deal with sudden catastrophes like fire, floods, earthquakes, or explosions. The emergency management provisions include:

- Functional smoke alarms and sprinklers that are regularly inspected.
- Technicians (external or internal) available to repair leakages, damages, and blackouts quickly.
- Fire extinguishers and other fire protection equipment that are easily accessible. An evacuation plan posted on each floor and online.
- Fire escapes and safety exits that are clearly indicated.

**Smoking**

American Tripoli is a smoke-free workplace. You can smoke in designated smoking areas and outer premises, like sidewalks. Any other area in the workplace (like restrooms, lobby, offices, staircases, warehouses) is strictly smoke-free to protect non-smokers.

**Emergency management**

Emergency management refers to the plan to deal with sudden catastrophes like fire, floods, earthquakes, or explosions. The emergency management provisions include:

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

We also advise you to:

- Extinguish your cigarettes and discard them appropriately.
- Avoid smoking when you have scheduled meetings.
- Avoid smoking near flammable objects and areas.

Setting off fire alarms and causing fires by smoking are serious offenses. If you are found responsible, you may face disciplinary action up to and including termination.

**Drug-free workplace**

American Tripoli is a drug-free workplace. Whether you are an associate, contractor, or visitor, you must not bring, use, give away or sell any drugs on company premises. If you are caught with illegal drugs or show that you are under the influence of substances, you will face disciplinary action up to and including termination.

A list of prohibited drugs and substances includes, but isn't limited to, in any form:

- Heroin .
- Cocaine
- Methamphetamine

**Alcohol:**

We prohibit associates from consuming alcohol during working hours, but they may consume alcoholic drinks in moderation at company events.

**Prescription drugs:**

If you feel that a prescription drug (e.g. an anxiety medication) unexpectedly affects your senses, thinking or movement, ask for the rest of your day off. If your manager suspects substance abuse, you may face disciplinary action.

You **MUST NOT** use medical marijuana in the workplace. We have the right to terminate you if your off duty use of medical marijuana makes you unable to complete your job duties correctly.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

We expect associates who hold safety-sensitive jobs (e.g., machine operators or drivers) to be fully alert and capable of always performing their duties. We may terminate you if we conclude your prescription drug use creates severe safety risks. If you need to use prescription drugs for a limited time and you think they may impair your abilities, use your PTO.

If your job includes secondary tasks that are safety-sensitive and your prescribed drugs affect your ability to perform these tasks, we can make reasonable accommodations to ensure you and your colleagues' safety. If your job includes secondary tasks that are safety-sensitive and your prescribed drugs affect your ability to perform these tasks, we can make reasonable accommodations to ensure you and your colleagues' safety.

**Dealing with addiction :**

Being sober is a prerequisite to thriving at the company and we want to help you as much as possible.

We won't tolerate substance addiction that results in violent, offensive, or inappropriate behavior.

## **Expense Approval and Reporting Policy**

**Purpose of Policy**

This policy outlined applies to all employees who spend money on work-related activities. It is used to standardize the procedure for getting pre-approval, making payments, and submitting documentation for work-related expenses.

**Scope of Policy**

**This policy applies to the following expense types:**

- Immediate expenses necessary for daily operations.
- Procurement for non-immediate needs
- Service providers and other specific expenses
- Expenses needing reimbursement

**Procedure**

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

**The approval process for immediate expenses necessary for daily operations:**

- Expenses under \$50 may be purchased without pre-approval.
- Expenses over \$50 should be submitted to the Operations Manager via Teams direct message for approval BEFORE purchase.
- The Operations Manager will then submit the expense request to a Managing Member.
- The Managing Member will communicate the approval or denial of the request to the Operations Manager, who will share it with the team member who requested the expense.

**The approval process for non-immediate procurement needs:**

- Expenses of this type require a quote from THREE DIFFERENT VENDORS.
- All vendor quotes and the selected vendor should be submitted to the Operations Manager via Teams..
- The Operations Manager will communicate with the Manager Member for approval of these expenses.
- The Operations Manager will share the approval or denial of the expense with the requesting team member. The Managing Member may also be a part of this communication..

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

**Documentation process for all expenses once approved:**

- The requestor should communicate the approved requests to the Front Desk Team Member who will create a PO.
- Receipts for expenses purchased via credit card, including those under \$50, should be signed and submitted to the Front Desk Team Member within 24 hours.
- Receipts or invoices with PO numbers will be scanned or saved by the Front Desk Team Member and added to Teams in the appropriate folder.

**Service providers and other specific expenses:**

- Service providers that require payment at the time of service should be approved BEFORE BOOKING to ensure payment is available at that time.
- Using service providers for non-immediate needs should follow the same process as the other non-immediate expenses. Therefore, three quotes are needed..
- Immediate need service providers charging via invoice will be documented by the Front Desk Team Member.
- Non-immediate expenses of goods that cannot be purchased from more than one location still need approval and to follow the same process, but only one quote is required.

**Expenses needing reimbursement:**

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Expenses needing reimbursement may include expenses purchased before receiving a company-issued credit card or mileage reimbursement, among other things.
  - All vendor quotes and the selected vendor should be submitted to the Operations Manager via Teams..
  - Expenses of this kind require PRE-APPROVAL, following the same approval process as other expenses.
  - Documentation of these expenses, which must have receipts, should be documented by the team member responsible for the charges and submitted to the Front Desk Team Member for reimbursement via check once per month.

## Associate Code of Conduct

As an associate, all company policies mentioned above apply to you. We have some additional expectations about your behavior at work, which we outline here. We can't cover every single case of conduct, but we trust you to always use your best judgement. Reach out to your manager if you face any issues or have any questions.

### Dress Code

The company's official dress code is casual. This includes shoulder covered t-shirts, shorts no shorter than mid-thigh and open toed shoes (admin staff only). However, an associate's manager may also inform how they should dress. If you frequently meet with clients or prospects, conform to a more formal dress code. If you work in the Mill/Plant or the Quarry you are required to wear appropriate clothing with safety first in mind and as directed by your manager. We expect you to be clean when coming to work and avoid wearing clothes that are unprofessional (e.g., workout clothes, holes in clothing, tank tops, revealing or dirty, smelly clothing.) Dress code is ultimately the responsibility of the department manager.

### Cyber Security and Digital Devices

This section deals with all things digital at work. We want to set some guidelines for using computers, phones, the internet connection, and social media to ensure security and protect the assets.

#### Internet usage

The corporate internet connection is primarily for business. But you can occasionally use the connection for personal purposes as long as they don't interfere with your job responsibilities. Also, we expect you to temporarily halt personal activities that slow down the internet connection (e.g., uploading photos) if you're asked to.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

You MUST NOT use the internet connection to:

- Stream music or videos.
- Make or receive personal video calls.
- Send confidential information to unauthorized recipients.
- Invade another person's privacy and gain access to sensitive information.
- Download or upload pirated movies, music, material, or software.
- Visit potentially dangerous websites that can compromise the network and computers' safety.
- Perform unauthorized or illegal actions, like hacking, fraud or buying/selling illegal goods.

**Cell phone**

We allow use of cell phones at work. But we also want to ensure that your devices won't distract you from your work or disrupt the workplace. We ask you to follow a few simple rules:

- Use your cell phone in a manner that benefits your work (business calls, productivity apps, calendars).
- Keep personal calls brief and use an empty meeting room or common area so as not to disturb your colleagues.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Avoid playing games on your phone or texting excessively.
- Avoid using your phone for any reason while driving a company vehicle.
- Don't use your phone to record confidential information.

Also, you must not use your phone in areas where cell phone use is explicitly prohibited (e.g. laboratories, meetings, driving company vehicles, or operating company equipment.)

**Corporate email**

Email is essential to the work. You should use your company email primarily for work, but we allow some uses of your company email for personal reasons.

- Work-related use. You can use your corporate email for work-related purposes without limitations. For example, you can sign up for newsletters and online pservices that will help you in your job or professional growth.
- Personal use. You can use your email for personal reasons if you keep it safe and avoid spamming and disclosing confidential information. For example, you can send emails to friends and family and download eBooks, guides, and other safe content for your personal use.

The general expectations

No matter how you use your corporate email, we expect you to avoid:

- Signing up for illegal, unreliable, disreputable, or suspect websites and services.
- Sending unauthorized marketing content or emails.
- Registering for a competitor's services, unless authorized.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Sending insulting or discriminatory messages and content.

- Intentionally spamming other people's emails, including your coworkers.

In general, use strong passwords and be vigilant in catching emails that carry malware or phishing attempts. If you are not sure that an email you received is safe, ask the IT support team.

**Social media**

We want to provide practical advice to prevent careless use of social media in the workplace.

We address two types of social media uses: using personal social media at work and representing the company through social media.

**Using personal social media at work**

You are permitted to access your personal accounts at work. But we expect you to act responsibly, according to the policies and ensure that you stay productive. Specifically, we ask you to:

- Discipline yourself. Avoid getting sidetracked by your social platforms.
- Ensure others know that your personal account or statements don't represent the company. For example, use a disclaimer such as "opinions are my own."
- Avoid sharing intellectual property (e.g. trademarks) or confidential information. Ask your manager first before you share company news that's not officially .
- Avoid any defamatory, offensive, or derogatory content. You may violate the company's anti-harassment policy if you direct such content towards colleagues, clients, or partners.

**Representing the company through social media**

If you handle the social media accounts or speak on the company's behalf, we expect you to protect the company's image and reputation. Specifically, you should:

- Be respectful, polite, and patient.
- Avoid speaking on matters outside your field of expertise when possible."

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Follow the confidentiality and data protection policies and observe laws governing copyrights, trademarks, plagiarism, and fair use.
- Coordinate with the Marketing department when you're about to share any major-impact content.
- Avoid deleting or ignoring comments for no reason.
- Correct or remove any misleading or false content as quickly as possible

**Conflict Of Interest**

When you are experiencing a conflict of interest, your personal goals are no longer aligned with your responsibilities towards us. For example, accepting a bribe may benefit you financially, but it is illegal and against the business code of ethics. If we become aware of such behavior, you will lose your job and may face legal trouble.

For this reason, conflicts of interest are a serious issue for all of us. We expect you to be vigilant to spot circumstances that create conflicts of interest, either to yourself or for your direct reports. Follow the policies and always act in the company's best interests. Whenever possible, do not let personal or financial interests get in the way of your job. If you are experiencing an ethical dilemma, talk to your manager and we will try to help you resolve it.

**Associate Relationships**

We want to ensure that relationships between associates are appropriate and harmonious. We outline the guidelines, and we ask you to always behave professionally.

**Fraternization**

Fraternization refers to dating or being friends with your colleagues. In this policy, "dating" equals consensual romantic relationships and sexual relations. Non-consensual relationships constitute sexual violence, and we prohibit them explicitly.

**Dating colleagues**

If you start dating a colleague, we expect you to maintain professionalism and keep personal discussions outside of the workplace.

You are also obliged to respect your colleagues who date each other. We won't tolerate sexual jokes,

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

malicious gossip, and improper comments. If you witness this kind of behavior, please report it your Manager or Senior Management.

**Dating managers**

To avoid accusations of favoritism, abuse of authority and sexual harassment, supervisors must not date their direct reports. This restriction extends to every manager above an associate.

Also, if you act as a hiring manager, you aren't allowed to hire your partner to your team. You can refer them for employment to other teams or departments where you don't have any managerial or hiring authority.

**Friendships at work**

Associates who work together may naturally form friendships either in or outside of the workplace. We encourage this relationship between peers, as it can help you communicate and collaborate. But we expect you to focus on your work and keep personal disputes outside of the workplace.

**Gifts**

Nothing valued at more than \$25 from a customer, vendor, or other third party can be accepted by an associate. Gifts are allowed but "significantly expensive ones, greater than \$25" must be reported to HR. Guidelines say no gifts can be solicited, and only gifts of minimal value can be accepted.

**Employment of relatives**

Everyone in the company should be hired, recognized, or promoted because of their skills, character, and work ethic. We would not like to see phenomena of nepotism, favoritism, or conflicts of interest, so we place some restrictions on hiring associates' relatives.

To the company, a "relative" is related by blood or marriage within the third degree to an associate. This includes parents, grandparents, in-laws, spouses or domestic partners, children, grandchildren, siblings, uncles, aunts, nieces, nephews, stepparents, stepchildren and adopted children.

As an associate, you can refer your relatives to work with the company. Here are the only restrictions:

- You must not be involved in a supervisory/reporting relationship with a relative.
- You cannot be transferred, promoted, or hired inside a reporting relationship with a relative.
- You cannot be part of a hiring committee, when your relative is interviewed for that position.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

If you become related to a manager or direct report after you both become employed by the company, we may have to transfer one of you or transfer report responsibility.

## Workplace Visitors

If you want to invite a visitor to the offices, please ask for permission from your manager first. Your manager will need to notify the Operations Manager. Also, inform the front office/reception area of your visitor's arrival. Visitors are required to sign in and show identification. You will be asked to return your visitors to front office and have them sign out once their visit is complete.

When you have office visitors, you also have responsibilities. You will be responsible for:

- Always tend to your visitors, especially when they are underage, Never leave a visitor unattended, anywhere on company property, inside or outside the building
- Keep your visitors away from areas where there are dangerous machines, chemicals, confidential records, or sensitive equipment.
- Prevent your visitors from proselytizing your colleagues, gathering donations, or requesting participation in non-company related activities while on the premises.

Anyone who delivers orders, mail or packages for associates should remain at the admin building's reception area. If you are expecting a delivery, the front office will notify you so you may collect it.

## Solicitation and Distribution

Solicitation is any form of requesting money, support or participation for products, groups, organizations or causes which are unrelated to the company (e.g. religious proselytism, asking for petition signatures.) Distribution means disseminating literature or material for commercial or political purposes.

We don't allow solicitation and distribution by non-associates in the workplace. As an associate, you may solicit from your colleagues only when you want to:

- Ask colleagues to help organize events for another associate (e.g., adoption/birth of a child, promotion, retiring).

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Seek support for a cause, charity or fundraising event sponsored, funded, organized, or authorized by the company.
- Invite colleagues to associate activities for an authorized non-business purpose (e.g., recreation, volunteering.)

In all cases, we ask that you do not disturb or distract colleagues from their work.

## Compensation & Development

In this section, we outline the guidelines for compensating associates according to their employment status. We also describe the performance management and associate development policies.

### Compensation Status

Department of Labor & Industrial Relation.

General for further details.

There are two types of associates under FLSA guidelines:

- Non-exempt associates, who are covered by the FLSA's minimum wage and overtime provisions.
- Exempt associates, who aren't covered by the FLSA because they meet three exemption criteria: (a) they are paid at least \$23,600 per year (\$455 per week), (b) they are paid on a salary basis, and (c) they perform exempt job duties ("executive," "professional" and "administrative.") Most associates must meet all three criteria to be exempt.

If you are unsure as to whether you should be exempt or not, please ask your manager to clarify your status.

The FLSA excludes some types of jobs (e.g. railroad workers, truck drivers) because they are covered by other federal laws. Some other workers, like outside salespeople, are excluded. Feel free to ask your manager for clarifications any time.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

**Overtime**

Occasionally, we may need you to work more than your regular working hours. The US Fair Labor Standards Act (FLSA) states unless exempt, employees must receive overtime (OT) pay for hours worked over 40 in a workweek at a rate not less than time and one-half their regular rates of pay.

It is a supervisory responsibility to justify and reduce costs everywhere possible. Therefore, it is at the supervisor's discretion to offer the opportunity for an associate to work for overtime pay. The supervisor should be managing the workload across the team members to avoid burnout.

No overtime is automatically authorized. Any requested overtime is required to get written prior approval with both the requesting department manager and senior management signatures. Any department manager submitting a timesheet with OT on it will need to provide the admin office team with the signed authorized OT letter.

If you are an exempt associate, you are not entitled to overtime pay by federal law. If an exempt associate must work overtime, we will set a cap for overtime hours at 10 hours per week to prevent overworking and burnout.

If you are a non-exempt associate, you are entitled to overtime pay of one and a half times your wage. Please record your overtime hours accurately, so we can calculate your pay correctly. We also ask you to work overtime only after its authorized by your supervisor to make the record-keeping easier.

Am I an exempt employee? In summary, to be an exempt employee must (a) be paid at least \$23,600 per year, and (b) be paid on a salary basis, and also (c) perform exempt job duties. These requirements are outlined in the FLSA Regulations (promulgated by the U.S. Department of Labor).

**Payroll**

For hourly and salary associates, wages are paid biweekly by direct deposit. Please notify your manager if your banking information has changed.

**Performance Management**

**We have built the performance management practices to:**

- Ensure you understand your job responsibilities and have specific goals to meet.
- Provide you with actionable and timely feedback on your work.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Invest in development opportunities that help you grow professionally.
  - Recognize and reward your work in financial or non-financial ways (e.g. associate awards.)

**To meet these objectives, we have:**

- Established quarterly performance reviews. During these reviews, your manager will fill out your performance report and arrange a one-on-one meeting with you to discuss it. Through these discussions, managers aim to recognize associates who are good at their jobs, identify areas of improvement and talk about career moves. Pay increases or bonuses are not guaranteed. But we encourage managers to recommend rewards for their team members when they deserve them. There won't be any forced ranking or other comparison between associates, as the goal is to help all associates improve and develop their careers.
- All managers have been instructed to meet with their team members once per month to provide feedback and talk about their work and motivations. These usually are informal and unscheduled. This way, you can receive feedback in a timely manner and avoid surprises during your quarterly performance preview. If an associate feels that they need feedback they should ask their manager for additional feedback.

**How we expect managers to lead associates**

If you manage a team, you are responsible for your team members' performance. To conduct effective regular meetings and performance evaluations, we expect you to:

- **Set clear objectives.** Your team members should know what you expect of them. When you first hire someone to your team, ensure they understand their job duties. Set

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

specific goals for each team member (and team-wide if applicable.) Revisit those goals during quarterly performance reviews.

- **Provide useful feedback.** During scheduled meetings with your team members, give them both guidance and praise, as appropriate. Be fair and specific to help them understand and implement your feedback.
- **Keep your team members involved.** There should be two-way communication between you and your team. Make your expectations clear, but always take your team members' motivations and aspirations into account. Discuss training and development opportunities that may interest your team members.
- **Keep detailed online notes with important incidents about each one of your team members.** These notes help you evaluate your team, but may also prove useful when rewarding, promoting, or terminating your team members.

## Associate Training and Development

We owe the success to the associate's. To show the gratitude, we want to invest in the associate's professional development. We want associates to feel confident about improving their efficiency and productivity. We also want to help the associates achieve personal growth and success.

We will match up to \$500 annually for each associate to spend on educational activities or material. Talk with your manager about this as the educational activity or material must be beneficial to your position and/or development plan. E.g., if you are a quarry associate it would not be beneficial for your position to be requesting history or art classes.

**Apart from online courses, we offer these training opportunities:**

- Formal training sessions

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- Associate coaching and mentoring.
- Seats at industry conferences.
- On-the-job training
- Job shadowing
- Job rotation

Development is a collective process. Team members and managers should regularly discuss learning needs and opportunities. And it is your managers responsibility to facilitate any development activities and processes.

Required Training for certain roles:

[MSHA CFR 30 Part 48\(b\) Training and Retraining of Miners](#)

## Benefits And Perks

In this section, we describe what we offer to the associates. We provide information on the health insurance plans and benefits like work from home options and company issued equipment.

## Retirement

The company wants to help you invest in your future as you grow with the company. You can join the American Tripoli 401(k) plan once you work 90 days during a 12 month period with the company. Additionally, the company offers employer matching on your 401(k) contributions up to 5%. The company will make a matching contribution in an amount equal to a percentage of your salary deferrals, the specified matching percentage for the corresponding level of your salary deferrals as shown in the following table. However, any salary deferrals that are "catch-up contributions" will not be matched. Please speak with your manager about enrolling in the 401(k) plan or scheduling time with our plan administrator to discuss how much to contribute or how to invest.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

Salary Deferral Tier	Match
First 4	
Next 2	

**Associate Health**

American Tripoli offers medical and dental insurance. Eligible employees may participate in either plan or both plans subject to all terms and conditions of the agreement between American Tripoli and the insurance carrier. A change in employment classification that would result in loss of eligibility to participate in the plan(s) may qualify an employee for benefits continuation under the Consolidated Omnibus Budget Reconciliation Act (COBRA).

**Dental Plan – Mutual of Omaha****Medical Plan – Anthem**

American Tripoli currently offers the following insurance premium coverage. This is for the total premiums, not for each insurance premium. For additional questions about the insurance package, talk with your manager.

Contribution	Single Coverage
Employer Premium Contribution	83%
Employee Premium	17%

You must submit your insurance enrollment form(s) for before your 90th day of employment with American Tripoli to join the insurance plans. Once you have reached your 90th day, your insurance should become effective on that date, unless notified otherwise. Failure to submit the appropriate

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

Seneca, MO 64865  
Office (239) 829-5457

forms before your 90th day will require you to wait until the open enrollment period to enroll on the insurance plans.

If you need health insurance before your 90th day or need it before the open enrollment period, please contact Natalie Miller, [Natalie.Miller@HealthMarkets.com](mailto:Natalie.Miller@HealthMarkets.com), (816) 868-6350. She will be able to discuss individual plan options available to you.

American Tripoli will annually review employee/employer contributions against the Kaiser Family Foundation Employer Health Benefits Report<sup>1</sup> for the physical year to provide employees the best benefits.

## **Workers' Compensation**

We strive to keep the workplace safe, but accidents may happen occasionally. Associates who are injured at work can receive wage replacement, medical care, and rehabilitation benefits according to workers' compensation laws, when appropriate. Please inform your manager of your injury as soon as possible. Ask your manager for forms that you need to file a claim or contact your state agency for workers' compensation.

The company has a workers' compensation policy according to guidelines of the state of Missouri.

## **Work From Home**

If your position doesn't require you to be present at the premises, you can occasionally work from home (WFH). We normally allow one day per week, with manager approval. If you need to telecommute for more days per week, talk to your manager.

Please inform your manager that you want to work from home at least one week in advance. You can also set a recurring WFH day per week. If there's a rare emergency, you may work from home without having received prior approval but call or email your manager as soon as possible.

When you are working from home, please use an internet connection and devices that are fast and secure. Choose a place without loud noises or distractions. And check in with your manager frequently to make collaboration easier.

If there is inclement weather (e.g., a blizzard) please check your Teams account to see if the office is officially closed. If you judge that your commute during inclement weather is dangerous, let your manager know. We will not force you to come to work if your safety is at stake or if there is an official travel warning.

## **Remote working**

Remote working refers to working from a non-office location on a temporary or permanent basis.

If you're an office-based associate, you may work remotely for a maximum of two consecutive weeks per year. You may arrange this if you are a new parent or suffer from a short-term disability. If you have another reason, talk to your manager. Submit your remote working requests through your

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

manager at least one week in advance.

If you're an office-based associate, you may work remotely for a maximum of two consecutive weeks per year. You may arrange this if you are a new parent or suffer from a short-term disability. If you have another reason, talk to your manager. Submit your remote working requests through your manager at least one week in advance.

If you work remotely permanently, we ask that you adhere to the security, confidentiality, and equal opportunity policies just like your office-based colleagues.

### **Associate Expenses**

There are some expenses that we will pay directly on your behalf (e.g., hotel rooms for work-related travel.) But we ask you to keep track and report on those reimbursable expenses that you pay yourself. We reimburse associate expenses that are related to:

- Business travel
- Relocation
- Education and training
- Upon approval, outings with business partners or colleagues
- We use the General Services Administration (GSA) per diem rates, excluding incidentals.

To review rates: <https://www.gsa.gov/travel/plan-book/per-diem-rates>

Not all travel expenses are reimbursable. For example, we will pay for your transportation to an airport for work-related travel, but not to a museum for a personal visit. Before traveling for business, ask your manager to clarify which expenses are reimbursable within your trip.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

Please keep an online copy of receipts for all reimbursable expenses. You can submit them to your manager within 5 business days after the date of each expense. If your manager approves your expenses, you will receive your reimbursement within two pay periods by check.

Remote working refers to working from a non-office location on a temporary or permanent basis.

If you're an office-based associate, you may work remotely for a maximum of two consecutive weeks per year. You may arrange this if you are a new parent or suffer from a short-term disability. If you have another reason, talk to your manager. Submit your remote working requests through your manager at least one week in advance.

If you work remotely permanently, we ask that you adhere to the security, confidentiality, and equal opportunity policies just like your office-based colleagues.

## **Company Car**

**You may drive a company car if you:**

- Need it as an indispensable part of your job (e.g., truck drivers and delivery drivers).
- Receive it as a benefit attached to your position.

Either way, your car belongs to the company. You may use your company vehicle for personal reasons as the policy permits. You will get reimbursed only for approved, business-related expenses.

To get a company car, you should have a valid driver's license and a clean driving record for at least two years. Drive safe and sober and respect traffic laws and fellow motorists. You should also check your car regularly to ensure gas, tire pressure and all car fluids are at appropriate levels.

**We expect you to avoid:**

- Smoking in a company vehicle.
- Leasing, selling or lending a company car.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Using a company car to teach someone how to drive.
  - Leaving your company car unlocked, unattended or parked in dangerous areas.
  - Allowing unauthorized people to drive a company car unless an emergency mandates it.

On the part, we will ensure that the cars are safe and in good condition, as well as appropriately insured.

**Accidents**

If you are involved in an accident with a company car, contact your manager immediately, so we can get in touch with the insurance provider. You shouldn't accept responsibility or guarantee payment to another person.

Follow this policy's guidelines to avoid disciplinary action. For minor offenses, like allowing unauthorized people to drive a company car, we will reprimand you or reclaim your car. But for more serious offenses, like causing an accident while intoxicated, we may terminate you.

**Parking**

We will prioritize parking spaces on a first-come, first-served basis. If you want to receive a reserved parking spot, file your request with your manager to start the approval process.

We expect you to keep the parking lot clean and not park in assigned spaces. Please behave responsibly to avoid causing damage, injury, or loss of property.

We will not assume any liability for theft, vandalism, fire, or damage regarding an associate's vehicle in the parking lot.

**Company-Issued Equipment**

As an associate, you may receive a company cell phone, a laptop, or other device. Unless otherwise mentioned in your contract, any equipment we offer belongs to the company and you may not sell it or give it away. You are also responsible for keeping the equipment safe and in as good condition as possible. If your equipment breaks or malfunctions, let your manager know so they can arrange to get it repaired.

If you are part of the corporate cell phone plan, please use your phone within the plan's restraints. You may have to pay any extra charges yourself.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

**Theft and damage of company equipment**

The equipment is insured for theft and damage. We ask you to inform us within 24 hours if your equipment is stolen or damaged. We might be able to trace stolen laptops and cell phones. Please also file a theft statement (affidavit) with the police and submit a copy to us.

**Security of company issued devices**

We advise you to keep your company-issued computer, tablet, and cell phone secure. **You can do this if you:**

- Keep all devices password protected.
- Ensure you do not leave your devices unattended.
- Install security updates for browsers and other systems as soon as updates are available.
- Log into company accounts and systems through secure and private networks only.
- Follow all instructions for disk encryption, anti-malware protection and password management that you received along with your equipment.

**Position-Related Clothing Allowance**

If an associate is a quarry or mill associate, they are required to wear steel toe boots while working. We want to ensure they have the appropriate high quality protective footwear for their position. Per OSHA rule 1917.96 - Payment for protective equipment, An employer is not required to pay for non-specialty safety-toe protective footwear (including steel-toe shoes or steel-toe boots) and non-specialty prescription safety eyewear, provided that the employer permits such items to be worn off the job-site.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

With this regulation noted, the company will reimburse the associate for one pair of boots up to \$200.00 annually. The only brand of reimbursed steel-toe boots is Red Wings, no exceptions unless prescribed by a doctor and get this prescription gets preapproved by their manager.

Once the associate signs the steel-toe boot reimbursement agreement they will be required to not wear these boots home or leave the worksite with them. If the associate decides to wear the boots home, they are forfeiting the reimbursement agreement and will not be allowed to participate in the reimbursement program at any future date. This is an annual agreement. The agreement states the associate is responsible for the care and security of his/her work boots. Lockable storage lockers are provided in the Mill and the Maintenance shop; the associate will need to provide the lock.

After your 90-day probationary period, you will receive a digital voucher to present at the Red Wing store. If the associate resigns or is terminated prior to the annual agreement completion date the reimbursement will be prorated over the 12 month period and the remaining balance will be withheld from the associates last paycheck. If you need to purchase boots before your 90th day and wish to be reimbursed, submit your Red Wing boot purchase receipt to the Safety Manager. After your 90th day, the Safety Manager will submit your receipt to the finance department for reimbursement on your following paycheck for up to the reimbursable limit.

## Time

### Working Hours

The company operates between 8:00 a.m to 4:30 p.m on Monday through Friday. We try our best to not work evenings or weekends.

Some departments may work after hours(e.g., customer support, shipping, marketing). If you work in these departments, you will follow a shift schedule as needed.

#### Time Clock for Hourly Employees

Hourly employee are required to clock in and clock out for their shifts and lunch break. Here are the instructions listed in the picture below.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

## Clock in

1. In Shifts, tap  **Time clock**, and then select the shift you want to clock in for.
2. Press and hold down  under  **Shift**, and you'll be clocked in.

**Note:** GPS locations are approximate. Occasionally you may be inaccurately marked as off location. Notify your manager if this happens.

## Take a break

- Press and hold down  under  **Break**, and you'll be clocked out to start your break.

From there, you can end your break by pressing and holding down  under  **Break**.

## Clock out

- Press and hold down  under  **Shift** when you're ready to clock out.

## Time sheet

You can view previous time clock activity or correct your information using the time sheet.

- In Shifts, select **Time clock**, tap  at the upper right corner to open your time sheet.

From here, you can view your time sheet, add missing clock-in and clock-out information using the + button at the top right corner, and edit or confirm existing time clock activity from up to a month earlier.

**Note:** Any changes you make using Time Sheet will be recorded on your manager's exported time clock report.

## Paid Time Off (PTO)

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

PTO means just that, paid/personal time off. PTO accrual begins on your 90th day of employment, after the probationary period. Your PTO will increase on your work anniversary based on the corresponding years described below.

Years of Service	0-3 *	4-10	11-20
Hours Accumulated Per Pay Period	3.08	4.62	6.15
Maximum Hours Allowed	80	120	160
Maximum Days Allowed	10	15	20

\*PTO accrual begins on 90th day of employment, after probationary period.

We highly encourage every associate to use earned PTO as they see fit throughout the year. PTO is accrued per pay period. Associates and their manager are responsible to ensure they successfully utilize the associates' PTO throughout the year and not all at once or all at the end of the year. Associates cannot transfer any remaining PTO to the next year. There is no cash out of unused PTO. It is a use-or-lose policy.

If an associate leaves the company, any unused accrued PTO will be pro-rated and the company may compensate accrued PTO to associates who were not terminated for cause. Missouri state law does not require payment of earned PTO time at the time of termination. It is at the company's discretion to provide vacation pay, holiday pay, or severance pay benefits.

We advise every associate to properly utilize their earned PTO. Everyone will abide by the Handbook PTO allotment.

To request time off, please submit a request to your manager via the Shifts app in your Microsoft Teams mobile or desktop app. [Click here for the instructions](#)

**Working Remotely vs PTO**

Some positions have the capability to work remotely. Remote work is approved at the senior managers' discretion.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

A couple of questions the senior manager will need to be answered first would be:

When and how many business days are you planning on being away from the office?

What is the Operations/Mill/Quarry department schedule for that timeframe?

Are all issues and processes foreseeably covered?

Are you going to be "remote working" or taking PTO?

## Holidays

**The company observes the following holidays:**

- New Year's Day
- Memorial Day
- Independence Day
- Labor Day
- Veterans Day
- Thanksgiving Day
- Day before or Day after Thanksgiving depending on where the long weekend falls
- Christmas Eve
- Christmas Day

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

If you want to observe a religious holiday that isn't included in the list, we may allow you to take unpaid time off for that day. Or you may use your PTO. Coordinate the approval through your manager.

**Holiday pay**

- Exempt associates are entitled to their normal compensation without any deductions.
- Permanent, non-exempt associates may receive their regular hour rate for their normal workday hours as a benefit after they have worked with us for more than 90 days.

**Working on a holiday**

These holidays are considered "off-days" for most associates. [Managers] If you need a team member to work on a holiday, inform them at least three days in advance.

Holiday pay rate is 1.5 times regular hour rate for hourly associates. We will not count hours you worked on a holiday to decide whether you are entitled to overtime pay.

**Bereavement Leave**

Losing a loved one is traumatizing. If this happens to you while you work with us, we want to support you and give you time to cope and mourn.

**For this reason, we offer three days of paid bereavement leave. You may take your bereavement leave on consecutive days to:**

- Arrange a funeral or memorial service.
- Attend a funeral or memorial service.
- Resolve matters of inheritance.

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- 
- Fulfill other family obligations.
  
  - Mourn

If you must travel long-distance for a funeral or service, you can take two additional unpaid days off. If you require more time, please use your PTO.

## **Jury Duty and Voting**

As an exempt associate, if you are called for Jury Duty, you can take one day off without deduction from your salary. Anything beyond one day should be through PTO or unpaid leave.

As an hourly associate, at the discretion of your manager, if you are called for Jury Duty, if Jury duty is less than 4 hours and you were able to put in 4 hours of work that day, you will be paid for the full 8-hour day. If you are not able to put in 4 hours of work that day, due to Jury duty and all full days missed should be considered unpaid leave or at managers discretion, use of PTO.

To keep good records, all associates need to provide the company a copy of your summons for jury duty and a document that proves you served.

One election day, Managers will try to schedule the workload for the day to end one hour early so everyone has the opportunity to vote. If you need to travel a distance greater than one hour to vote, request to use your PTO.

Missouri Juror Info: [https:// www.courts.mo.gov/ page.jsp?id=103118](https://www.courts.mo.gov/page.jsp?id=103118)

## **Parental Leave**

### **Paternity and maternity leave**

The company does not offer paid maternity and paternity leave. We ask you to be proactive in your use of PTO. If timing of end of year PTO carry over becomes an issue, please discuss with your manager.

If you are about to be a new mother or father (either through childbirth or adoption), talk with your manager to arrange your leave. Please give at least three months' notice before your leave begins.

If you suffer complications during childbirth or have other issues, you can ask for an unpaid leave extension of up to two months. Contact your manager as soon as possible to arrange this.

## **Leaving The Company**

**Mailing Address:**

2701 East Grauwlyer Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

In this section, we describe the procedures regarding resignation and termination of the associates. We also refer to the progressive discipline process that may sometimes result in termination.

We remind you that in the U.S. employment is “at-will.” This means that you or the company may terminate the employment relationship at any time and for any non-discriminatory reason.

## Progressive Discipline

The progressive discipline process has three steps of increasing severity. **These steps are:**

Here we outline steps we will take to address associate misconduct. We want to give associates a chance to correct their behavior when possible and assist them in doing so. We also want to ensure that we thoroughly investigate and handle serious offenses.

- i. Verbal warning
- ii. Formal meeting with supervisor and written reprimand
- iii. Termination

If you manage associates, inform them when you launch a progressive discipline process. Be direct that you are giving them a verbal warning reprimand. Pointing out a performance issue is not necessarily a verbal warning and may be part of your regular feedback. If you judge that progressive discipline is appropriate, let your team member know and ask your manager to help you explain the full procedure.

Managers may skip or repeat steps at their discretion. The company may treat circumstances differently from that described in this policy. But we are always obliged to act fairly and lawfully and document every stage of the progressive discipline process.

Keep in mind that the company isn’t obliged to follow the steps of the progressive discipline process. As you are employed “at-will” in the U.S, we may terminate you directly without launching a progressive discipline process. For serious offenses (e.g., sexual harassment), we may terminate you without warning.

## Resignation

You resign when you voluntarily inform your manager that you will stop working for the company. We also consider you resigned if you don’t come to work for two consecutive days without notice.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

You are not obliged to give us advance notice before resigning. But, for efficiency's sake, and to make sure the workplace runs smoothly, we ask that you give at least two weeks' notice, if possible. If you hold a highly specialized or managerial position, we ask that you give us at least a month's notice, when possible.

We accept verbal resignations, but we prefer that you submit a written and signed notice of resignation for the HR records. We will reply with an acceptance of resignation letter within two days. Whether you want to announce your resignation to your team is up to you, but we encourage you to be open. Doing so helps squelch the rumor mill.

**Tuition or relocation reimbursement**

If you have relocated or studied at the company's expense, you are bound by your contract to remain with us for at least two years or year for year of expense. If you resign before that period, you may have to reimburse us for all these expenses.

**Forced resignation**

You can resign anytime at your own free will and nobody should force you into resignation. Forcing someone into resigning (directly or indirectly) is constructive dismissal and we won't tolerate it. Specifically, we prohibit associates from:

- Creating a hostile or unpleasant environment.
- Demanding or coaxing an associate to resign.
- Victimizing, harassing, or retaliating against an associate.
- Forcing an associate to resign by taking unofficial adverse actions (e.g. demotions, increased workload).

**Termination**

Terminating an associate is always unpleasant but sometimes necessary. If that happens, we want to ensure we act lawfully and respectfully.

**We may terminate an associate either for cause or without cause**

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

- For cause termination is justified when an associate breach their contract, engages in illegal activities (e.g., embezzlement), disrupts the workplace (e.g. harasses colleagues), performs below acceptable standards or causes damage or financial loss to the company.
- Without cause termination refers to redundancies or layoffs that may be necessary if we cease some of the operations or re-assign job duties within teams. We will follow applicable laws regarding notice and payouts.

We will offer severance pay to eligible associates. We may also help associates who were terminated without cause to find work elsewhere, if possible.

We may also compensate accrued vacation and sick leave upon termination, depending on local law. Whenever local law doesn't have relevant stipulations, we will pay accrued leave only to those who weren't terminated for cause.

If you manage team members, avoid wrongful dismissal. When you terminate an associate for cause, we expect you to be certain you made the right choice and keep accurate performance and/or disciplinary records to support your decision.

## References

When we terminate associates, we may provide references for those who leave in good standing. This means that associates shouldn't have been terminated for cause. If you are laid off, you may receive references. Please ask your manager.

If you resign, you may ask for references and your manager have a right to oblige or refuse.

## Policy Revision

We will always strive for fairness and equal opportunity and penalize offensive and illegal behaviors. But, as laws and the environment change, we may revise and modify some of the policies.

We have established an annual revision of the handbook to bring it up to date with legislation and employment trends. We also ask you to notify your manager if you recognize any inconsistencies or mistakes. And, if you have any ideas about how to improve the workplace, we are happy to hear them. Please relay these ideas through your manager.

Certificate of Training

U.S. Department of Labor  
Mine Safety and Health Administration

Approved OMB Number 1219-0009, Expires May 31, 2024.  
This certificate is required under Public Law 91-173 as amended by Public Law 95-164.  
Failure to comply may result in penalties and other sanctions as provided by sections 108 and 110, Public Law 91-173 as amended by Public Law 95-164.

➔ Issue Certificate Immediately Upon Completion of Training

Serial Number (for operator's use)

1. Print Full Name of Person Trained (first, middle, last)

Rob BAUMANN

2. Check Type of Approved Training Received:

☐ Annual Refresher

☐ Experienced Miner

☐ Hazard Training

☐ New Task (specify below)

☒ New Miner

☐ Other (specify)

Date	Task	Initials		Date	Task	Initials	
		Instr	Studt			Instr	Studt

3. Check Type of Operation and Related Industry:

A. ☒ Surface

☐ Construction

☐ Underground

☐ Shaft & Slope

B. ☐ Coal

☐ Metal

☒ Nonmetal

4. Date Training Requirements Completed

☐ Check if not completed and go to item 5, below.

➔ If completed, go to item 6, below.

5. Check Subjects Completed (use only for partially completed training):

☒ Introduction to Work Environment

☐ Roof/Ground Control & Ventilation

☒ Health

☒ Hazard Recognition

☐ Mine Map; Escapeways; Emergency Evacuation; Barricading

☒ Electrical Hazards

☒ Emergency Medical Procedures

☐ Cleanup; Rock Dusting

☒ First Aid

☒ H&S Aspects of Tasks Assigned

☐ Mandatory Health & Safety Standards

☐ Mine Gases

☒ Statutory Rights of Miners

☐ Authority & Responsibility of Supervisors & Miners' Representatives

☐ Explosives

☒ Self-Rescue & Respiratory Devices

☐ Prevention of Accidents

☒ Transport & Communication Systems

☐ Other (specify)

6. False certification is punishable under section 110 (a) and (f) of the Federal Mine Safety & Health Act (P. L. 91-173 as amended by P. L. 95-164).

I certify that the above training has been completed (signature of person responsible for training)  
[Signature]

7. Mine Name, ID, & Location of Training (if institution, give name & address)

**Subject:** Request for Clarification on Recent MSHA Inspection  
**Importance:** High

**CAUTION: This email originated from outside of the Department of Labor. Do not click (select) links or open attachments unless you recognize the sender and know the content is safe. Report suspicious emails through the "Report Phishing" button on your email toolbar.**

Hello Maryjo,

I have included the American Tripoli team in this email, if you would reply all to include them.

I trust this correspondence finds you in good health. I am seeking your guidance regarding a recent inspection conducted by Mr. Pratt and Mr. Pruitt at our mining facility on September 19, 2023, pursuant to complaint ID 2671642 (attached).

The complaint, submitted to MSHA on September 17, 2023, alleged that "miners have to reach inside the electrical box to push the reset button" and that our "plant operator is not task trained."

Notably, this complaint was lodged three days after the termination of a specific employee who would be the only person to have known about any electrical box needing to be opened to push a reset button. But that isn't the problem.

**Exhibit 18**

Exhibit P-43, Page 888

The problem with this complaint is that we had an issue with a very specific circuit breaker earlier today. We have not experienced any issues with the circuit breaker in the past. At approximately 12:30 PM today, Mr. Spears started troubleshooting this specific circuit breaker and the cause for the breaker to trip. The issue was solved, and the team moved on to other issues.

Then, at approximately 2:30 PM, Mr. Pratt and Mr. Pruitt arrived on site, advising Mr. Townsend about Complaint ID 2671642, and while here, they might as well terminate two open citations, 9579847 and 9579095. Both citations were terminated.

Upon reviewing the complaint allegations summary. Allegation #1: if a circuit breaker has a reset button, then yes, the "electrical box" would have to be opened to "push the reset button." So, I immediately think this must be another nuisance complaint from an ex-employee.

Where the entire issue becomes suspicious is upon entering the mill, Mr. Pratt and Mr. Pruitt proceeded directly to the aforementioned circuit breaker we experienced an issue with earlier in the day. This is not a casual walk-by or even a circuit breaker you would know it is precisely there as it "blends in" with the rest of the electrical panel wall.

To go to this specific wall panel, this specific breaker box, and this specific breaker... you would need to be coached just like I was when I was communicating with John regarding which circuit breaker was "tripping" during his maintenance troubleshooting diagnosis.

This sequence of events prompts several questions:

How was the complainant aware of a malfunction with this specific circuit breaker, which had not exhibited any issues before today's start-up procedures?

What led the MSHA inspectors directly to this particular circuit breaker among our facility's numerous other circuit breakers? If the allegation only states about an electrical box... Were they coached along with specific details about what specific circuit breaker would have been sabotaged so they would find something wrong with that specific circuit breaker?

Were we sabotaged the night prior, with the complainant knowing that MSHA would be out to inspect this particular circuit breaker the very next day? This whole complaint inspection looks very suspicious. From a certain point of view, it appears to be intentional harassment and sabotage.

Furthermore, it raises concerns about potential after-hours trespassing by the recently terminated employee, who may be causing disruptions and lodging complaints with MSHA—all to cause even more disruption and financial burden by MSHA inspections on a small struggling company.

As a mine operator, protecting our operations from malicious intent, whether from former employees or others, is crucial. How do we file a complaint against someone knowingly making false statements or representations, e.g., complaints, to MSHA? Is it through the OIG Hotline or something internal to the district? This ex-employee is a miner, and any false statements to MSHA would be a crime. Your team would have to follow the same procedures and investigate this complaint against a miner, correct?

Also, is this when a Written Notice would be given? From your 14SEPT2023 email, "A Written Notice is given during a 103(g) complaint investigation when no violations are found (negative findings)."

Based on conversations today between approximately 2:30 and 4:20 PM, there were no findings on allegation #2, but on allegation #1, Mr. Pruitt inferred such activity despite not witnessing unauthorized individuals resetting the circuit breaker. Since, at this time, we do not have any maintenance personnel, Mr. Spears is now our only authorized "competent person." Mr. Spears is currently training Mr. Hale, as we discussed in our conference meeting a week ago, so he can become another competent person on the team. Mr. Pratt may have more details on this allegation result since we didn't receive any citations or perform an inspection close out today and were told that Mr. Pruitt would be back tomorrow. We will have to see tomorrow.

Additionally, we seek clarification on whether MSHA inspectors must sign into our visitor's log like all other visitors. We were advised that this was not required, but we wish to ensure compliance with all protocols.

Our commitment to maintaining a safe and compliant operation is unwavering, and we take all allegations of safety violations seriously. However, we believe it is imperative that inspections and subsequent conclusions are grounded in factual observations rather than assumptions.

Your guidance on these matters would be greatly appreciated.

Best regards,

Russell Tidaback  
Managing Member  
American Tripoli

### Production Lead Duties

- Oversee mill associates
  - Daily – assign and ensure completed start-up and shut-down tasks on board(s) in breakroom
  - Daily – Assign roles, rotation schedule, and tasks
  - Daily – track/add their worked hours, PTO, or unpaid leave to Shifts
  - As needed, remind mill associates to wear appropriate PPE; collaborate with the Environmental and Safety Specialist to ensure all associates are following all MSHA and company guidelines
  - Utilize MS Teams to collaborate with all team members
- Control Room backup assistance (**NEED TO KNOW IN 90 DAYS**)
  - Operate control room while Control Room Mill Associate is on PTO/absent
  - Startup and Shutdown procedures
  - Collaborate with Quarry Associate/Operations Manager regarding needing more material delivered, and crushed in holding tanks
- Mill product and Production supply inventory [[OPERATIONS MANAGER](#)] (**NEED TO KNOW IN 14 DAYS**)
  - Do a **daily** overrun count and add to the On Hand tab in the Daily Production Report
  - Monthly inventory count of unused paper bags for 50 lb and 100 lb individually
  - monthly inventory of retail bags, Full and empty
  - Monthly inventory count of unused pallets for the 48 x 40 (domestic pallets), Large Heat Treated pallets and Small Heat Treated pallets individually (export pallets)
  - Monthly inventory count on full stretch wrap rolls
  - Monthly inventory count on slip sheets
  - Monthly measurement on oil (oil room large container)
- Shipping / receiving paperwork [[Shipping dept/OPERATIONS MANAGER](#)] (**NEED TO KNOW IN 14 DAYS**)
  - Check daily production schedule : <https://calendar.online/ShiftLead>
  - Print bag labels for orders to be produced that day ([Rollo Printer](#))
  - Print shipping paperwork for shipments going out each day
  - Verify paperwork is complete and appropriate documents are included

### **Exhibit 19**

- Assist truck driver with paperwork (where to sign) and any questions
- Send pictures of trailer/container empty and full, trailer #, and signed BOL in mill group chat tagging @Julie (shipping dept)
- Mailing/preparing the easy-to-handle (retail bags) **(NEED TO KNOW IN 14 DAYS)**
- Quality Control / CILAS reports [OPERATIONS MANAGER] **(NEED TO KNOW IN 14 DAYS)**
  - Run a CILAS report after each grade of product is produced
- Preventive maintenance schedule [OPERATIONS MANAGER/MAINTENANCE TECHNICIAN] **(NEED TO KNOW IN 60 DAYS)**
  - Work with maintenance team to update the preventative maintenance schedule when certain tasks are completed or need to be added to the schedule
- Mill Parts / Supplies requests [OPERATIONS MANAGER/MAINTENANCE TECHNICIAN] **(NEED TO KNOW IN 30 DAYS)**
  - Work with maintenance team to search for parts/supplies online and submit the quote(s) to the operations manager for approval and purchasing
  - This includes mill bathroom supplies
- Any additional tasks requested across the departments
- Collaborate with Operations Manager regarding mill associate professional development counseling session (if not monthly, quarterly)

The Operations Manager is your direct supervisor, the Mill Associates direct supervisor, and the Quarry Associates direct supervisor.

Elaine Smith  
smith.elaine.m@dol.gov

Dear Ms. Laura Orielly,

Responding to the interrogatories, requests for production of documents, and requests for admission on behalf of Respondent American Tripoli:

### **INTERROGATORIES**

**INTERROGATORY NO. 1:** State the facts you contend support your claim that you did not violate Section 105(c) of the of the Mine Act, 30 U.S.C. § 815(c), by terminating Robert Baumann.

**ANSWER:** The termination of Mr. Robert Baumann was not related to his engagement in protected activities under the Mine Act, but rather due to his consistently poor performance and the necessity for an appropriate timing of a new hire to replace him.

1. **Performance Issues:** Throughout Mr. Baumann's employment at American Tripoli, there were ongoing documented performance issues that were discussed for months prior to his termination. These issues included concerns about his competence, work ethic, and ability to fulfill his role as a shift lead. The decision to terminate Mr. Baumann's employment was primarily based on his performance during his tenure at American Tripoli. Numerous personal notes and discussions over the months prior to his termination demonstrate that his job performance was consistently unsatisfactory. These records attest to his inability to perform his duties satisfactorily as a shift lead, including failing to ensure proper work was completed within his specified work group, missing deadlines, and displaying an inability to accept

Office (239) 829-5457

---

and provide feedback to his team members.

Mr. Baumann consistently demonstrated incompetence and a poor work ethic, as evidenced by the excessive number of citations received for his area of responsibility during his relatively short employment with American Tripoli.

2. **Replacements and Competency:** American Tripoli made multiple efforts to find a suitable replacement for Mr. Baumann. The hiring of Mr. David Daigle in April 2022 was part of these efforts. Unfortunately, Mr. Daigle resigned a week later. Subsequent hires in August 2022 (Mr. Will Shallenburger), November 2022 (Mr. Richard McClelland), and March 2023 (Mr. Alex Snodgrass) were also made in an attempt to replace Mr. Baumann, each candidate demonstrating greater competency and leadership skills than Mr. Baumann. It is important to note that it was Mr. Alex Snodgrass's hiring in March 2023 that seemed to signal to Mr. Baumann that his tenure was being challenged, leading to a further decline in his attitude.
3. **Proactive Safety Measures:** American Tripoli is committed to maintaining a safe and compliant work environment. We have established policies and procedures that encourage open communication and reporting of safety concerns by all employees, including Mr. Baumann. Active communication channels were in place for all miners to express their concerns regarding safety and compliance. During his tenure, Mr. Baumann and other miners were encouraged to bring forward safety issues, and the mine operator consistently took swift action to address these concerns.
4. **Absence of Official Engagement in Protected Activities:** It is imperative to emphasize that Mr. Baumann did not serve as a designated representative of miners, nor did he submit any relevant information to the MSHA District Manager or to the mine operator, as required by 30 CFR Part 40. Every miner possesses the right to engage and accompany an MSHA inspector during an inspection, as stipulated by the Miner's Act. However, it's important to clarify that mere participation in such activities does not automatically confer upon a miner the designation of a miners' representative. In his claim, he states that he served as a representative of miners in an official capacity. However, the mine operator had no prior knowledge of any such intent or stated performance. If the mine operator had been

[CustomerService@AmericanTripoli.com](mailto:CustomerService@AmericanTripoli.com)

**Exhibit 20**

Exhibit P-43, Page 894

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

informed of Mr. Baumann's desire to act as a miners' representative, they would have readily provided support and assistance to facilitate their involvement. This support would have included a more comprehensive briefing on the operations, ensuring that the designated person had the necessary insights to effectively address any inquiries from an inspector. This, another example of Mr. Baumann's lack of communication and leadership skills or experience. Regrettably, the mine operator was only made aware of Mr. Baumann's claim or supposed intention to serve as a representative of miners when the complaint was received by the commission. These points clarify the timeline and the lack of awareness regarding Mr. Baumann's purported role as a representative of miners and that his termination was entirely unrelated to protected activities under the Mine Act.

5. **Inconsistent Claims:** Mr. Baumann's current assertions about unaddressed safety concerns are inconsistent with the documented history of safety communication and resolution during his tenure. It is crucial to consider the inconsistency between his current claims and the historical record of safety communication and resolution within the company.
6. **Questioning the Timing:** We urge you to consider the timing of Mr. Baumann's claims about any unresolved safety issues. The mine operator offers numerous communication channels to express or bring forward and safety concerns. If Mr. Baumann had concerns, he did not utilize any of the available opportunities. Notably, he has only made any claims such claims after his termination. This timing raises questions about his motives and the credibility of his assertions.
7. **Notice of Termination:** Mr. Baumann received his notice of termination on April 17, 2023. It is notable that, as evidenced by the Kansas Department of Labor's rules and Unemployment Benefits Form 2023, Mr. Baumann applied for unemployment insurance benefits on April 16, 2023, potentially indicating his intention to quit the next day. Therefore, his termination was not related to his protected activities, but rather based on his poor performance.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

8. **Legal and Ethical Obligations:** The mine operator has a legal and ethical obligation to ensure a safe work environment for all employees. We remain committed to supporting employees' rights to report safety issues without fear of retaliation.

In conclusion, American Tripoli vehemently denies that Mr. Baumann's termination was in violation of Section 105(c) of the Mine Act. The decision to terminate Mr. Baumann was a result of his consistent poor performance, inability to fulfill his responsibilities, and the company's efforts to maintain the safety and efficiency of its operations, and not because of any protected activities he may have engaged in under the Mine Act. The proposed civil penalty is excessive and unwarranted, considering the specific circumstances of the case.

**INTERROGATORY NO. 2:** State the facts you contend support your claim that you did not violate Section 105(c) of the Mine Act, 30 U.S.C. § 815(c) by interfering with miners' rights at the MoSenecaMfr LLC dba American Tr mine, as outlined in Count II of the Complaint filed in this docket.

**ANSWER:** In response to Count II of the Complaint, which alleges interference with miners' rights under Section 105(c)(1) of the Mine Act, the Respondent vehemently denies the allegations and submits the following arguments and facts to refute the claim of interference.

**1. INTENT OF COMMUNICATION:**

The primary argument against the interference complaint centers around the intent behind Mr. John Spears' message to Mr. Gage Wheeler during the MSHA inspection on 14FEB2023. The message was not intended to interfere with miners' rights but rather to facilitate communication and ensure accurate information transfer to the MSHA inspector. We want to clarify that the communication on February 14, 2023, was directed to a specific miner, Gage Wheeler, and was not a message sent to all miners. Mr. Gage Wheeler, who had a history of being confrontational during past MSHA inspections. Therefore, it was crucial to address potential issues in communication. This communication has been included in the "ALL Communications regarding MSHA.pdf, 14FEB2023 - John message to Gage about MSHA inspector.png, 14FEB2023 - John message to Gage about

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

MSHA inspector 2nd part.png, 14FEB2023 - Russell message to John about not telling Gage to speak with MSHA inspectors.png" document for your reference. See folder "Request for Documents 20". Therefore, it was crucial to address potential issues in communication. This is a testament to the mine operator's commitment to ensuring smooth inspection processes.

**2. RESPECT FOR MINER RIGHTS:**

The Respondent reaffirms its unwavering commitment to respecting miners' rights to report safety or health issues to MSHA and to participate in inspections without interference. The mine operator has always upheld these rights and encouraged employees to express their concerns regarding safety and compliance without fear of retaliation. This commitment to miner rights was consistently maintained throughout Mr. Baumann's tenure, as well as during the MSHA inspection in question. There were no actions taken to undermine miners' rights to engage with MSHA inspectors.

**3. DISMISSAL OF INTERFERENCE CLAIM:**

The allegations in the interference complaint, as detailed in Count II, are not substantiated by concrete evidence or facts. While the complaint alleges that Respondent interfered with miners' statutory rights, there is no proof that Mr. Baumann was told not to speak with MSHA inspectors or that his rights were compromised in any way. Furthermore, the Respondent addressed any potential misunderstandings with miners, such as Mr. Gage Wheeler, to clarify that they were free to speak with MSHA inspectors. Mr. Gage Wheeler, having undergone MSHA training on miners' rights, confirmed that he did not feel that Respondent's message interfered with his rights.

In conclusion, the interference allegations in Count II of the Complaint lack substantial evidence and should be dismissed. The Respondent's actions have consistently been aimed at ensuring safety and compliance while respecting miners' rights. The complaint does not establish any violation of Section 105(c)(1) of the Mine Act. The proposed civil penalty is unwarranted in this case, as there is no basis for the interference claim, and the Respondent remains committed to maintaining a safe and healthy work environment.

**Mailing Address:**

**INTERROGATORY NO. 3:** Set forth the job duties, title and responsibilities of Robert Baumann while he was employed by Respondent, including the dates of his employment in each role.

**ANSWER:** Mr. Robert Baumann served as a Shift Lead at our facility from June 16, 2022, to April 17, 2023. As a Shift Lead, Mr. Baumann had specific responsibilities to ensure the efficient and safe operation of our mill facility. His duties and responsibilities included but were not limited to the following:

**Shift Lead Duties:**

**Oversee Mill Associates:** While Mr. Baumann was not a supervisor, he provided guidance and support to Mill Associates, ensuring they carried out their tasks efficiently and complied with safety and operational guidelines.

**Daily Assignment of Start-Up and Shut-Down Tasks:** On a daily basis, Mr. Baumann was tasked to assign and ensured the completion of start-up and shut-down tasks on the boards located in the breakroom, contributing to the mill's daily operations efficiencies.

**Rotation Schedule and Task Assignments:** Daily, Mr. Baumann was tasked to assign roles, follow rotation schedules, and delegate specific tasks to Mill Associates to ensure the smooth functioning of the mill.

**Time Tracking:** Mr. Baumann was tasked to maintain records of worked hours, paid time off (PTO), or unpaid leave for Mill Associates, which was crucial for time management and payroll purposes.

**Enforcement of Safety Procedures:** He was responsible for reminding Mill Associates to wear appropriate personal protective equipment (PPE) and collaborated with the Environmental and Safety Specialist to ensure compliance with MSHA and company safety regulations. Which he lacked tremendously and the citations received during his tenure exemplify this.

**Utilization of MS Teams for Collaboration:** Mr. Baumann was tasked to actively use Microsoft Teams to foster collaboration and communication among team members, contributing to a cohesive and efficient work environment for which he failed at.

---

Control Room Backup: He was tasked as the backup for the control room, which entailed operating the control room in the absence of the more experience Mill Associate.

Control Room Operation: In the absence of the more senior Mill Associate due to leave or other circumstances, Mr. Baumann was tasked for operating the control room, which is a mission-critical aspect of mill operations.

Startup and Shutdown Procedures: Mr. Baumann was tasked with the startup and shutdown procedures of the mill, ensuring they were executed according to established protocols.

Collaboration with Quarry Associate/Operations Manager: He was tasked to collaborate with the Quarry Associate and Operations Manager, specifically regarding material deliveries, crushing operations, and any material-related requirements for mill production.

Mill Product and Production Supply Inventory: Mr. Baumann was tasked to conduct monthly inventory counts for various supplies and materials, including bags, pallets, stretch wrap rolls, slip sheets, and oil, ensuring accurate records for operational purposes for which he failed at miserably.

Shipping/Receiving Paperwork: He was tasked in the preparation and verification of shipping and receiving paperwork, ensuring all relevant documents were complete and accurate. He also assisted truck drivers with paperwork-related inquiries and processing for which he struggled with the entire time.

Mailing/Preparing Easy-to-Handle Bags: Mr. Baumann was tasked with preparation of easy-to-handle retail bags, contributing to our efficient order fulfillment process for which his performance was so lacking that we were never able to get him to do this tasking.

Quality Control/CILAS Reports: He was tasked to run CILAS (Coupled Ion Chromatography and Light Scattering) reports after each grade of product was produced, maintaining quality control records. Again his performance was so lacking that we were never able to get him to do this tasking.

Preventive Maintenance Schedule: Mr. Baumann was tasked to collaborate with the maintenance team to update the preventive maintenance schedule as tasks were completed or needed to be added, ensuring the

equipment's reliability and longevity. Again, his performance was so lacking that we were never able to get him to do this tasking.

Mill Parts/Supplies Requests: He was tasked to work closely with the maintenance team to identify and request necessary parts and supplies, including online searches and submission of quotes to the Operations Manager for approval and purchasing. Again, his performance was so lacking that we were never able to get him to do this tasking.

Additional Tasks: Mr. Baumann struggled with effectively completing the above tasks and responsibilities as requested by different departments, showcasing his flexibility and dedication to the smooth operation of the facility that he was not respected by his peers.

Professional Development Counseling: He was tasked to work with the Operations Manager to conduct professional development counseling sessions, focusing on the growth and development of Mill Associates. These, due to his poor performance, never happened.

While Mr. Baumann was a shift lead, not a supervisor, this role is instrumental in various aspects of mill operations. This detailed overview of his job duties during his employment at our facility accurately represents the nature of his role at American Tripoli.

**INTERROGATORY NO. 4:** If Respondent claims that a defense or affirmative defense is applicable to the claims at issue in this case, please identify each such defense and state with particularity the material facts supporting such defense.

**ANSWER:** While we understand the need for transparency and adherence to legal processes, we firmly contend that requiring the immediate identification of defenses with particularity may not be suitable for the complex and evolving nature of this case. It is essential to uphold the principles of fairness, due process, and the right to develop a comprehensive defense. We propose that the Respondent be allowed to identify defenses as the case unfolds, ensuring that both parties have an equal opportunity to present their positions

effectively. This approach will safeguard the integrity of the legal process while preserving the rights of all parties involved.

**INTERROGATORY NO. 5:** Set forth the reasons Robert Baumann was terminated, who participated in the decision to terminate Robert Baumann, and the date such decision was made.

**ANSWER:** The termination of Mr. Robert Baumann was based on well-established principles of employment and operational policies. The decision to terminate an employee is never taken lightly and is made in consideration of multiple factors, including the overall safety and efficiency of our operations. Below, we provide a general outline of the principles that guided Mr. Baumann's termination and the individuals involved in the decision.

**Principles for Termination:**

Mr. Baumann's termination was the result of several factors, including but not limited to:

- **Poor Performance:** Mr. Baumann's performance as a shift lead consistently fell below acceptable standards, demonstrating an inability to fulfill his role effectively.
- **Lack of Leadership Skills:** Mr. Baumann's performance was hindered by a lack of leadership skills, which were essential for his position.
- **Failure to Follow Procedures and Guidance:** Despite several attempts to address these issues through coaching, feedback sessions, and open communication channels, Mr. Baumann did not exhibit any signs of improvement in his performance or attitude.
- **Safety Concerns:** Safety is a paramount concern in our operations. Mr. Baumann's disregard for safety guidelines, and failure to take safety matters seriously, created an unsafe work environment for himself and his colleagues.
- **Also following the Missouri Department of Labor Discharged Employees and Final Wages,** Missouri follows the Employment-At-Will doctrine. This means that both the employer and

---

employee can terminate the employment relationship at any time and for any reason, as long as there is no employment contract to the contrary, there is no discrimination under civil rights laws (based on race, color, age, national origin, religion, ancestry, sex, or physical/mental disability), no merit laws apply, or the state's limited public policy exception does not apply.(  
<https://labor.mo.gov/dls/general/termination-final-wages>)

**Participants in the Decision:**

The decision to terminate Mr. Baumann was made collectively by management personnel within our organization. It is important to emphasize that the decision was based on a thorough assessment of Mr. Baumann's performance, through different managers' feedback, in alignment with established company policies.

**Date of the Decision:**

The decision to terminate Mr. Baumann was made in accordance with company protocols and procedures, and it was communicated to Mr. Baumann on April 17, 2023. It is important to note that termination is not an abrupt action but a culmination of ongoing discussions, evaluations, and attempts to improve an employee's performance over time.

In conclusion, the decision to terminate Mr. Baumann was based on general principles of employment and operational policies to ensure the safety and efficiency of our operations. We remain committed to safeguarding both individual rights and operational integrity while adhering to legal and ethical standards.

**INTERROGATORY NO. 6:** Identify by name, job title, job duties, dates of employment, phone number, email address, and home address, each individual employed by Respondent at the MoSenecaMfr LLC dba American Tr mine from June 1, 2022 through April 17, 2023.

**ANSWER:** Respondent provides the following information regarding individuals employed at American Tripoli from June 1, 2022, through April 17, 2023:

**REQUESTS FOR PRODUCTION OF DOCUMENTS**

1. Produce all documents identified or referred to in your answers to the interrogatories above.

**RESPONSE:** In response to your request for production of documents, we have provided attachments that include all documents identified or referred to in our answers to the interrogatories. Please find these documents attached to this response in the respective labeled folder. If you have any specific questions or require further clarification regarding any of these documents, please do not hesitate to reach out, and we will be happy to assist further.

2. Produce the documents related to the terminations identified in response to Interrogatory No. 7.

**RESPONSE:** In accordance with your request to produce documents related to the terminations identified in response to Interrogatory No. 7, You will find these letters in the attached document labeled '*Individual name* - date - Termination Letter' in folder labeled "Request for Documents 2". If you require any further information or have additional questions, please feel free to contact us for clarification or any other assistance needed.

3. Produce all documents which you contend support any claims or defenses you have or may raise to the claims at issue in this docket.

**RESPONSE:** In response to your request to produce documents that support any claims or defenses we have or may raise in this docket, we acknowledge the importance of transparency and cooperation in the legal process. While we understand your desire for particularity, it's crucial to note the complex and evolving nature of this case. Requiring the immediate identification of defenses may not align with the principles of fairness, due process, and the right to develop a comprehensive defense.

We propose an approach that allows both parties to identify defenses as the case unfolds, ensuring a balanced opportunity to present positions effectively. This approach will safeguard the integrity of the legal process while respecting the rights of all parties involved.

We are fully committed to complying with our legal obligations and cooperating in the discovery process. As such, we are providing all relevant documents and will promptly provide any additional relevant documents as they become available and maintain open communication with your team. If you require specific documents or have further inquiries related to this request, please do not hesitate to reach out to us for clarification and assistance.

4. Produce the documents pertaining to any of Respondent's denials that it did not commit the alleged 105(c) violations set forth in the Complaint in this docket.

**RESPONSE:** In response to your request to produce documents related to any of our denials concerning the alleged 105(c) violations set forth in the Complaint in this docket, we understand the significance of transparency and adherence to the legal process. We are fully committed to cooperating and complying with our legal obligations.

We have provided the Operator's Answer, Document No. CENT 2023-0251 – Operator's Answer.pdf, to the complaint, located in folder "Request for Documents 4", and will continue to promptly provide documents related to any denials as they become available in the course of this legal proceeding. This approach ensures that both parties have equal opportunities to present their positions effectively and maintains the integrity of the legal process.

If you require specific documents or have further inquiries concerning this request, please feel free to contact us for clarification and assistance. We are dedicated to upholding the principles of due process and a fair legal process, and we look forward to working cooperatively with your team throughout the discovery process.

5. Produce Robert Baumann's personnel file.

**RESPONSE:** In response to your request for Robert Baumann's personnel file, please find attached the requested personnel file for Robert Baumann labelled "Request for Documents 5". This file contains all

Office (239) 829-5457

relevant information regarding his employment, performance, and any related matters during his tenure with our organization.

We are committed to providing the necessary documents and information as part of our cooperation in this legal process. If you have any further requests, require additional information, or have any specific questions regarding the personnel file, please do not hesitate to contact us. We are dedicated to ensuring a transparent and fair process throughout the course of this legal proceeding.

6. Produce the documents showing all training provided to Robert Baumann while he was employed by Respondent.

**RESPONSE:** We acknowledge your request for all training records related to Robert Baumann during his employment with our company. Please be advised that Robert Baumann received mandatory training required by the Mine Safety and Health Administration (MSHA) during his tenure with our organization. This training includes but is not limited to new miner training and other MSHA-required safety and health courses.

It's important to note that our company primarily provides MSHA-mandated training, and any additional training is often self-driven or related to specific tasks and equipment operation.

We will provide all records related to the MSHA-required training received by Robert Baumann as part of this response. However, please understand that there may be limited records for additional training beyond MSHA requirements as most of his responsibilities were covered by the mandatory safety training. All presented and available 24/7 employee training, see the documents in the attached folder labeled "Request for Documents 6".

If you have specific questions or require further clarification regarding the provided training records, please do not hesitate to contact us. We are dedicated to ensuring transparency and compliance with all aspects of this legal proceeding.

Office (239) 829-5457

7. Produce the documents showing all payments and compensation made to Robert Baumann by Respondent.

**RESPONSE:** We acknowledge your request for documents showing all payments and compensation made to Robert Baumann by our company. Please find attached the document 'Robert Baumann Payroll Detail 07.01.22-04.21.23.pdf,' in folder "Request for Documents 7", which contains the relevant payroll information for Mr. Baumann during his employment with us.

The attached document includes detailed payroll records, payment history, and compensation breakdowns, and it should address your request adequately.

We are committed to providing any additional information or clarifications you may require during the discovery process. If you have any further questions or need additional documents, please don't hesitate to reach out.

8. Produce the documents showing all benefits provided to Robert Baumann by Respondent, including insurance benefits, retirement benefits, and paid leave.

**RESPONSE:** We provided Robert Baumann with the opportunity to enroll in medical and dental insurance benefits; however, he chose not to apply for these benefits during his employment with us. Additionally, Mr. Baumann was offered a Red Wing boot voucher but did not utilize it.

For a comprehensive overview of Mr. Baumann's benefits, including insurance benefits, retirement benefits, and paid leave, please refer to the attached document labeled "American Tripoli Employee Handbook.pdf." This document outlines the summary of benefits made available to him during his employment with Respondent.

In addition, for Mr. Baumann's accrued paid time off, consult the attached document titled "Paid Time Off Accruals for Mr. Baumann.pdf." This document provides details about his paid time off accruals. Both of the above-mentioned documents are in folder labelled "Request for Documents 8".

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

9. Produce the documents showing the hours worked by Robert Baumann while he was employed by Respondent.

**RESPONSE:** Please find attached the document labeled "Robert Baumann Payroll Detail 07.01.22-04.21.23.pdf." located in folder labelled "Request for Documents 9". This document provides a detailed record of the hours worked by Robert Baumann during his employment with Respondent, covering the period from July 1, 2022, through April 21, 2023. The hours worked are accurately recorded in this document.

10. Produce your employee handbook and/or any other documents which set forth the conditions and/or terms of employment for employees at the MoSenecaMfr LLC dba American Tr mine in effect at any time from June 1, 2022 through April 17, 2023.

**RESPONSE:** See attachments Robert Baumann\_American Tripoli Position Offer Letter.pdf and the American Tripoli Employee Handbook.pdf in folder labelled "Request for Documents 10".

11. Produce the documents reflecting any discipline of Robert Baumann.

**RESPONSE:** We acknowledge that there were instances where disciplinary actions were taken concerning Mr. Robert Baumann; however, it is important to note that the company's disciplinary process, as outlined in the employee handbook, allows for flexibility in addressing employment issues. While the handbook provides for a progressive discipline process, it also clarifies that the company is not bound by a specific sequence and reserves the right to address matters promptly, in accordance with the "at-will" employment relationship. We are committed to providing any available records reflecting the disciplinary actions taken. Please note that while the "written" part of the progressive discipline process was not consistently documented, appropriate actions were taken to address the concerns and maintain compliance with company policies.

**Mailing Address:**

2701 East Grauwylers Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

12. Produce the documents reflecting any safety complaints made or safety concerns raised by Robert Baumann to any of Respondent's managers, owners or supervisors.

**RESPONSE:** While we take safety concerns seriously and maintain a robust system for addressing them, we do not have specific documentation of safety complaints or concerns raised by Mr. Robert Baumann. Our safety protocols encourage open communication, and our managers, owners, and supervisors are committed to promptly addressing any safety-related matters. While we have not found records of such complaints or concerns pertaining to Mr. Baumann, we emphasize that we actively encourage employees to report any safety issues, and we remain vigilant in ensuring a safe working environment. If any specific concerns emerge during the course of this case, we will promptly provide relevant documentation.

13. Produce the documents reflecting Robert Baumann's designation as a representative of the miners at the MoSenecaMfr LLC dba American Tr mine.

**RESPONSE:** Mr. Robert Baumann never provided any documents designating himself as a representative of the miners at the MoSenecaMfr LLC dba American Tr mine. The first indication of such a designation came to our attention when the complaint was received by MSHA. We have not found any records or documents related to Mr. Baumann's official designation as a miner representative.

14. Produce the native document, in its native format with all metadata, of the PDF document Respondent produced to MSHA during the investigation of this case titled "Rob Baumann-Notes".

**RESPONSE:** The PDF document titled "Rob Baumann-Notes" produced to MSHA during the investigation of this case is the native document in its original format. Mr. Tidaback's personal notes regarding personnel matters are periodically transcribed from a Rocketbook wipeable notebook he carries with him. The PDF provided accurately represents the content and format of the original notes.

**Mailing Address:**

2701 East Grauwyler Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

15. Produce Robert Baumann's "employee journal" or any other document where you kept notes and/or information about Robert Baumann and his job performance.

**RESPONSE:** The document titled "Rob Baumann Russell Notes.pdf" produced to MSHA during the investigation of this case is the employee journal or document where notes and information about Robert Baumann and his job performance were kept. Please refer to this document for the requested information.

16. Produce the "employee journal" or any other documents where you kept notes and/or information about employees employed by Respondent at the MoSenecaMfr LLC dba American Tr mine at any time from June 1, 2022 through April 17, 2023.

**RESPONSE:** The attached documents titled "Rob Baumann Russell Notes.pdf," "Christine Schreiber Russell Notes.pdf," and "Jim Hoover Russell Notes.pdf", see folder labelled "Request for Documents 16", are the employee journals or documents where notes and information about employees employed by Respondent at the MoSenecaMfr LLC dba American Tr mine from June 1, 2022, through April 17, 2023, were kept. Please refer to these documents for the requested information.

17. Produce the workplace examinations and/or workplace inspections from the MoSenecaMfr LLC dba American Tr mine from June 1, 2022 through April 17, 2023.

**RESPONSE:** The workplace examinations and workplace inspections conducted at the MoSenecaMfr LLC dba American Tr mine from June 1, 2022, through April 17, 2023, are contained in the attached document titled "Daily Workplace Inspections 1JUNE2022 - 17APR2023.pdf.", see folder labelled "Request for Documents 17". Please refer to this document for the requested workplace examination and inspection information.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

18. Produce the Microsoft Teams chats or messages involving any employee of Respondent, including owners, managers, supervisors, maintenance personnel, etc., regarding Robert Baumann's discrimination complaint, Robert Baumann's termination, Robert Baumann's job performance, safety related concerns or complaints raised by Robert Baumann, complaints about Robert Baumann, and/or Robert Baumann's workplace examinations.

**RESPONSE:** Producing the entire Microsoft Teams chats or messages involving any employee of Respondent, as specified in your request, is overly broad and would entail disclosing vast amounts of irrelevant information. Unfortunately, we do not have the capacity to retrieve messages from employees' accounts, as they are maintained on their individual devices. Also unless Mr. Baumann's name is specifically in the messages there is no way to search for generics. To maintain the integrity of the discovery process, we propose a more targeted approach.

Given that the only employees still employed by Respondent since the termination of Mr. Baumann are Mr. Williams, and Mr. Spears, we can provide group messages involving these individuals for the specified purposes. If you could kindly specify the date ranges, topics, or any other relevant details for these chats and messages, we will make a good faith effort to assist in obtaining any relevant messages. In the folder labeled "Request for Documents 18", there is a document titled "Communication between Jim are Russ regard Rob post 17APR2023.pdf", this running conversation points out Mr. Jim Hoover's opinions, distrust, aggravation and hassle when dealing with Mr. Baumann. Mr. Hoover was the most senior employee with over four years of experience at the mine site.

19. Produce the documents reflecting any "counseling and guidance" provided to Robert Baumann while he was employed by Respondent.

**RESPONSE:** While we acknowledge that counseling and guidance were provided to Robert Baumann during his employment, these interactions were primarily conducted verbally, and no formal written records were maintained. Any guidance or counseling discussions were aimed at improving his job performance, ensuring compliance with safety protocols, and fostering a better work environment. We

**Mailing Address:**

remain committed to maintaining open lines of communication and providing support to our employees as needed.

20. Produce the text messages, emails, Microsoft Teams chat, and/or any other communication from John Spears to any employees regarding MSHA inspections, including the February 14, 2023 message to miners regarding MSHA's inspection.

**RESPONSE:** All communications related to MSHA inspections and interactions with MSHA inspectors have been consolidated into a comprehensive document labeled "ALL Communications regarding MSHA.pdf." This document contains a thorough record of all communications, including Microsoft Teams chats, text messages, and emails exchanged between employees of Respondent at the MoSenecaMfr LLC dba American Tr mine concerning MSHA inspections and interactions with MSHA inspectors.

By consolidating these communications into a single document, we aim to provide a complete and organized account of our interactions with MSHA and MSHA inspectors. This approach is intended to streamline the document production process and ensure clarity in our responses.

If you have any specific questions or need further information regarding these communications, please do not hesitate to contact us. We are committed to transparency and open communication throughout this process.

21. Produce the text messages, emails, Microsoft Teams chat, and/or any other communication from and/or between Robert Baumann, Respondent, John Spears, Russell Tidaback, and/or Jordan Tidaback regarding the MSHA 104(b) Order issued on April 12, 2023 or payment during the withdrawal order.

**RESPONSE:** Please find attached the requested communications regarding the MSHA 104(b) Order issued on April 12, 2023, and payment during the withdrawal order, "Request for Documents 21". We wish to emphasize that, in full compliance with MSHA regulations and with a commitment to the well-

Office (239) 829-5457

being of our miners, Respondent promptly paid the miners as required by the 104(b) Order, without any delay.

1. Chat messages between Robert Baumann to John Spears and John Spears to Ms. Tidaback and Mr. Tidaback (labeled as "14APR2022 – Chat messages showing Robs misunderstanding regarding a 104(b) order and pay.pdf").
2. Email chain involving Mr. Markeson, Respondent, John Spears, and Russell Tidaback (labeled as "Email Chain w Markeson regarding miner compensation - RE\_ 12APR2023 - B Order #9539789 & 9539790.pdf").
3. Text messages between Robert Baumann and John Spears (labeled as "12APR2023 - Text message between Mr. Baumann and Mr. Spears regarding work and being paid.png").

These documents encompass the pertinent communications and discussions surrounding the MSHA 104(b) Order and issues related to payment during the withdrawal order. We would like to reiterate that all miners were paid appropriately and without delay in accordance with MSHA regulations. Should you require any further specific information or have additional inquiries, please do not hesitate to reach out.

22. Produce Respondent's disciplinary policy in effect at the MoSenecaMfr LLC dba American Tr mine at any time from June 1, 2022 through April 17, 2023.

**RESPONSE:** Our disciplinary policy in effect at the MoSenecaMfr LLC dba American Tr mine during the specified period can be found in the attached document titled "American Tripoli Employee Handbook.pdf.", see folder labeled "Request for Documents 22". The relevant information regarding our Progressive Discipline policy can be located in the handbook, specifically in the paragraph that addresses Progressive Discipline.

23. Produce the documents reflecting any discipline given to employees of Respondent at the MoSenecaMfr LLC dba American Tr mine at any time from June 1, 2021 through April 17, 2023.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

**RESPONSE:** Please find the attached documents in labelled folder “Request for Documents 23”, which reflect instances of discipline given to employees of Respondent at the MoSenecaMfr LLC dba American Tr mine during the specified timeframe from June 1, 2021, through April 17, 2023. These documents provide details of the written disciplinary actions, including warnings, reprimands, counseling, and terminations, that were administered and recorded in accordance with company policies and procedures.

Attached documents:

24. Produce the documents reflecting any communications, including Microsoft Teams chats, text message, emails, to employees of Respondent at the MoSenecaMfr LLC dba American Tr mine regarding MSHA inspections and/or any MSHA inspectors.

**RESPONSE:** All communications related to MSHA inspections and interactions with MSHA inspectors have been consolidated into a comprehensive document labeled "ALL Communications regarding MSHA.pdf.", in folder labeled "Request for Documents 24". This document contains a thorough record of all communications, including Microsoft Teams chats, text messages, and emails exchanged between employees of Respondent at the MoSenecaMfr LLC dba American Tr mine concerning MSHA inspections and interactions with MSHA inspectors.

By consolidating these communications into a single document, we aim to provide a complete and organized account of our interactions with MSHA and MSHA inspectors. This approach is intended to streamline the document production process and ensure clarity in our responses.

If you have any specific questions or need further information regarding these communications, please do not hesitate to contact us. We are committed to transparency and open communication throughout this process.

If you have any additional requests or require further documents related to this matter, please feel free to specify your needs, and we will do our best to accommodate them. Your understanding and cooperation in this matter are greatly appreciated.

25. Produce the documents discussing Robert Baumann's termination.

**RESPONSE:** We appreciate your request. We want to clarify that discussions related to Mr. Baumann's termination primarily took place in person or during video calls, which may not have generated electronic records.

**Mailing Address:**

Should you need further clarification or additional information, please feel free to contact us, and we will do our best to assist.

26. Produce the documents you intend to use at the hearing in this matter.

**RESPONSE:** We are fully committed to complying with our legal obligations and cooperating in the discovery process. As such, we are providing all relevant documents and will promptly provide any additional relevant documents as they become available and maintain open communication with your team. If you require specific documents or have further inquiries related to this request, please do not hesitate to reach out to us for clarification and assistance.

### **REQUESTS FOR ADMISSION**

1. Admit that the MOSenecaMfr LLC dba American Tr mine is a mine as defined in Section 3(h) of the Federal Mine Safety and Health Act of 1977, 30 U.S.C. § 802(h).

**ANSWER:** Admit. The operator acknowledges that the MOSenecaMfr LLC dba American Tr mine falls within the definition of a mine as provided in the Mine Act. This acknowledgment is consistent with the operator's understanding of its activities and operations. However, this admission should not be construed as an admission of liability or wrongdoing with respect to the allegations in this case. The operator maintains that its operations have consistently aimed to comply with the Mine Act and relevant regulations, ensuring the safety and well-being of its workforce.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

2. Admit that the products of the MOSenecaMfr LLC dba American Tr mine enter commerce or the operations or products thereof affect commerce within the meaning and scope of the Federal Mine Safety and Health Act of 1977.

**ANSWER:** Admit. The operator acknowledges that, in the ordinary course of its mining operations, its products may be intended for commercial use or distribution, and as such, they have the potential to enter or affect commerce. However, this acknowledgment should not be construed as an admission of liability or wrongdoing with respect to the allegations in this case. The operator maintains that its operations have consistently aimed to comply with the Mine Act and relevant regulations, ensuring the safety and well-being of its workforce and the quality of its products.

3. Admit that MOSenecaManufacturer Limited Liability Company d/b/a American Tripoli is the operator of the MOSenecaMfr LLC dba American Tr mine and was the operator of the mine from at least June 1, 2022 through April 17, 2023.

**ANSWER:** Admit. MOSenecaManufacturer Limited Liability Company d/b/a American Tripoli, herein referred to as 'the operator,' is the entity responsible for the operation of the MOSenecaMfr LLC dba American Tr mine. The operator acknowledges that it assumed the role of the mine operator at the specified mine location, and this responsibility was held from at least June 1, 2022, through April 17, 2023.

While the operator admits to its role as the mine operator during the specified time frame, it is important to clarify that this acknowledgment does not constitute an admission of liability or wrongdoing with respect to the allegations contained within the case. The operator is committed to maintaining a safe and compliant workplace for its employees and remains steadfast in its position that the actions taken during this period were in accordance with applicable regulations and without any intent to discriminate or infringe upon the rights of miners.

**Mailing Address:**

2701 East Grauwylar Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

---

4. Admit that while Robert Baumann was employed by Respondent at the MOSenecaMfr LLC dba American Tr mine he was a “miner” as defined in Section 3(g) of the Mine Act, 30 U.S.C. § 802(g).

**ANSWER:** Admit. While Robert Baumann was employed by Respondent at the MOSenecaMfr LLC dba American Tr mine, he met the criteria to be considered a 'miner' under the definition provided in Section 3(g) of the Mine Act, 30 U.S.C. § 802(g). The operator acknowledges that Mr. Baumann was an employee involved in mining operations at the specified mine location during the relevant timeframe.

It is essential to clarify that the acknowledgment of Mr. Baumann's status as a 'miner' does not alter the operator's position that the actions taken regarding his employment were based on performance issues and not related to any form of discrimination or interference with miner's rights. The operator remains committed to providing a safe and compliant workplace for all its employees, including those meeting the definition of a 'miner' under the Mine Act.

5. Admit that Robert Baumann served as a representative of miners at the MOSenecaMfr LLC dba American Tr mine from March 21, 2023 through April 17, 2023.

**ANSWER:** Deny. The mine operator was not made aware of Robert Baumann serving as a representative of miners at the MOSenecaMfr LLC dba American Tr mine from March 21, 2023, through April 17, 2023. To the best of our knowledge and records, no formal notification or communication regarding Mr. Baumann's representation of miners was received by the mine operator during the specified period.

The mine operator is committed to adhering to all relevant regulations and compliance requirements under the Mine Act, including those pertaining to miner's representatives. In the absence of formal notice or awareness of Mr. Baumann's role as a representative of miners, the operator was unable to address any concerns or considerations related to his representation.

**Mailing Address:**

2701 East Grauwylers Road, Bldg 1,  
Dept# 1008, Irving, TX 75061-3414

**Shipping/Receiving Address:**

5 Oneida Street,  
Seneca, MO 64865  
Office (239) 829-5457

It is crucial to clarify that the mine operator is dedicated to maintaining a safe working environment and complying with all applicable legal obligations. We welcome a comprehensive review of the facts and evidence related to Mr. Baumann's representation during the specified timeframe to ensure a just and equitable resolution.

6. Admit that the Federal Mine Safety and Health Review Commission has jurisdiction over this case under Section 105(c)(2) and 113 of the Mine Act, 30 U.S.C. §§ 815(c)(2), 823.

**ANSWER:** Deny. The mine operator contests the assertion that the Federal Mine Safety and Health Review Commission (FMSHRC) has jurisdiction over this case under Section 105(c)(2) and 113 of the Mine Act, 30 U.S.C. §§ 815(c)(2), 823. The mine operator believes that the actions taken, including the dismissal of the miner, were solely based on performance issues and not discriminatory in nature. As such, it is our position that the circumstances of this case do not fall within the purview of the aforementioned statutory provisions.

The mine operator strongly maintains that the miner's dismissal was a result of legitimate performance-related concerns in accordance with the established company policies, the state of Missouri guidelines and not a violation of any miner's rights under the Mine Act. Therefore, we contend that the jurisdiction of the FMSHRC does not apply in this case. However, we are open to a thorough examination of the facts and circumstances surrounding this matter to arrive at a just resolution.

Hello Mr. Dillingham.

Following 29 CFR 2700.43 Answer., I didn't know if it needed to be on company letterhead or if an email response would suffice.

Respondent Answer:

Mr. Rob Baumann was terminated with cause; poor performance, lack of leadership skills, and failure to follow procedures and guidance given by his supervisor(s), as stated in the termination letter given to him at his last counseling session. (attached)

His work history performance does not correlate to any relatable discussions that we were made aware of between him and MSHA representatives. Plus, this isn't a one-time event/issue, and we have been working on his performance issues for many months.

Regarding "everyones pay" is covered in the Miners Rights and Responsibilities handbook, and every miner is paid accordingly.

We are unaware of any miner not receiving pay or having pay issues at this time.

I believe Mr. Baumann is simply striking out in anger, which is one reason why he was terminated.

Hello Mr. Dillingham.

So, we can efficiently and effectively assist you with this investigation, please follow up on the FIVE (5) questions below.

**1.** If MSHA Procedural rules 29 CFR states, "2700.43 Answer. Within 30 days after service of a discrimination complaint, the respondent shall file an answer responding to each allegation of the complaint." (<https://arlweb.msha.gov/SOLICITOR/FMSHRC/RULES/RULES.htm#43>) and according to the UPS tracking number, we received the packet Thursday, May 04 at 9:57 A.M. **Why are we being held to a different standard and not given the 30 days to file an answer responding to each allegation?**

**2.** Referring to your statement below, "From looking at the response it doesn't have any reprimands for Mr. Baumann to relate to the allegations we received ." The only allegation I see in the attached discrimination report is "terminated without cause" (24APR2023 Rob Baumann MSHA discrimination report claim filed.pdf). **Please elaborate on what allegations you have received?**

**3.** Referring to your statement below, "From looking at the response it doesn't have any reprimands for Mr. Baumann to relate to the allegations we received .", I have attached a copy of the employee notes journal (Rob Baumann - Notes.pdf) that I maintain on each employee. It will give you a timeline of the counseling and professional development conversations that I have personally had with Mr. Baumann and regarding Mr. Baumann with others. This information is above and beyond what you were asking for. We have worked with Mr. Baumann for many months trying to guide and mentor him. Also, attached (Leaving the Company section in the company employee handbook.pdf) is the section in our employee handbook discussing our progressive disciplined approach and outline the steps we will take to address associate misconduct. Mr. Baumann's termination had to do with his performance, the timing being at the end of pay period for payroll purposes, and successfully hiring a competent replacement. It is our statement that he was terminated with cause due to his poor performance. **Are you stating as an employer we are required to provide written reprimands to our miners?**

**4.** Referring to your statement below, "#4 is and Excel Spreadsheet, is there a company form that should be submitted also.", I don't see this as relevant to the allegation/complaint filed but we didn't see the need to give a written termination letter to Mr. Andrew Wasson as it was assumed during our last discussion with Mr. Wasson the police report of him being arrested on company property for damage and theft of company

property was sufficient enough termination cause. In reference to Mr. Baumann, his termination letter is in his provided HR file. **Is there a specific "company form" you are looking for?**

5. Referring to your statement below, "If you read the #6 request it is not the same as #3." Again, I do not see this as relevant to the allegation/complaint but the attached MAR-APR 2023 ON-SHIFT REPORT.pdf, is what we used for payroll purposes. **Is this what you are looking for?**

6. Referring to your statement below, "MSHA is requesting a copy of the On-shift workplace examinations whether it be a paper version or an electronic version." Again, I do not see this as relevant to the allegation/complaint but attached (Daily Safety Workplace Inspections Results.pdf) is the workplace examinations.

7. Referring to your statement below, "#8 specifically request for the Microsoft Teams correspondence whether it be a paper version or an electronic version." Please see the attached (MSHA requested Teams chat 1APR-30APR23.pdf). You will see numerous occasions where myself, Mr. Spears, and even Mr. Molesi have to communicate to the Mill associates about issues in the Mill where if Mr. Baumann was performing his duties successfully, we would not have had to communicate the information ourselves. Simple signs that he was not effectively managing his team, he didn't communicate effectively with anyone, he didn't give feedback, he didn't lead by example, and he didn't care about the development of his team. Every person we have hired in the mill has had something negative to say about Rob. A good example of this poor leadership is with Mr. Ronnell Fondren, during his short tenure with us, as you can see in the chat history, he struggled with Mr. Baumann's lack of leadership skills.

Please let me know if there is any additional information you need so we can work with you to diligently resolve this complaint/allegation.

**Subject:** RE: Request for Information

Thank you for your responses. From looking at the response it doesn't have any reprimands for Mr. Baumann to relate to the allegations we received. #4 is an Excel Spreadsheet, is there a company form that should be submitted also. If you read the #6 request it is not the same as #3. MSHA is requesting a copy of the On-shift workplace examinations whether it be a paper version or an electronic version. Also #7 request specifically request maintenance records whether

it be a paper version or an electronic version. #8 specifically request for the Microsoft Teams correspondence whether it be a paper version or an electronic version. These requests are specific to the ongoing 105 (c) investigation. Due to the nature of the case and the stringent timelines without compliance of these request impedes our investigation. Please submit these requests to the investigator promptly as we are working diligently to resolve. Thanks.

**Subject:** FW: Request for Information

Hello Mr. Dillingham.

Following 29 CFR 2700.43 Answer., I didn't know if it needed to be on company letterhead or if an email response would suffice.

Respondent Answer:

Mr. Rob Baumann was terminated with cause; poor performance, lack of leadership skills, and failure to follow procedures and guidance given by his supervisor(s), as stated in the termination letter given to him at his last counseling session. (attached)

His work history performance does not correlate to any relatable discussions that we were made aware of between him and MSHA representatives. Plus, this isn't a one-time event/issue, and we have been working on his performance issues for many months.

Regarding "everyones pay" is covered in the Miners Rights and Responsibilities handbook, and every miner is paid accordingly.

We are unaware of any miner not receiving pay or having pay issues at this time.

I believe Mr. Baumann is simply striking out in anger, which is one reason why he was terminated.

Dear Robert Baumann,

I regret to inform you that your employment with American Tripoli will be terminated effective immediately due to poor performance, lack of leadership skills, and for failure to follow procedures and guidance given by your supervisor.

We have made several attempts to address these issues with you through coaching, feedback sessions and open communication channels, but unfortunately, we have not seen any improvement in your performance and the data reflects this.

Please note that you will receive your final paycheck, as scheduled, on the upcoming pay date, which will include any accrued benefits owed to you.

I am very disappointed that this opportunity did not work out as I had high hopes for you.

If you have any questions or concerns about this decision, please do not hesitate to contact me.

Sincerely,

*Russell Tidaback*

From: Christine Schreiber  
Date prepared: 06/06/2022  
Letter of Termination

This letter is formal documentation of the poor performance you have exhibited on the job leading to termination. Your work, despite the encouragement and guidance given, is not improving.

We have expressed on numerous occasions that we are a collaborative and teamwork-based company. As part of this collaborative and teamwork-based environment, it is the management team's responsibility to provide tasking/responsibility direction and assistance and then to hold associates accountable for the tasks/responsibilities given. We strive to create a healthy, positive environment and do everything we can to help you succeed.

Specific areas of complaint include:

- Not finishing tasks in a timely manner
- Talking back when directions are given
- Spending extended periods of time in your supervisor's office despite signage stating not to and being told not to multiple times
- Looking through your supervisor's computer when he was not present, and permission was not given
- Using a pair of needle-nose pliers to stab other employees' legs while they were in the restroom
- Harassing other employees to look through their phones to see if they said negative comments about you
- Asking your supervisor to look through his phone to see if he said negative comments about you

Your termination is effective immediately due to your behavior. Your behavior continues to happen despite several warnings, including a written warning given via message from Russell Tidaback on 05/31/2022.

Date: 11-4-2022

Dear Mr. Carson Allman,

Re: Termination of Employment

It is with deep regret that I must inform you that your employment with American Tripoli is terminated, effective 11/4/2022, in accordance with our standard employee practices and after careful consideration by the management team.

Over the past few months, your performance has been closely monitored, and it has been observed that you have consistently failed to meet the standards and expectations set forth by the company. We have had multiple discussions and interventions to address various concerns related to your conduct and performance. Specifically, we have discussed your failure to communicate your intentions effectively, particularly in relation to production matters within the mill. These concerns encompass actions such as leaving your workstation without authorization, leaving company property without notice, and neglecting planned maintenance tasks, among others.

It is essential to highlight that you were provided with numerous opportunities and guidance to rectify these issues, as our standard of conduct and disciplinary process is designed to be a fair and progressive system. This process consists of three steps:

1. Verbal Warning: As a first step, employees are provided with a verbal warning to address any behavioral or performance issues. This serves as an initial opportunity to understand and rectify the concerns raised.
2. Written Warning Letter: Following the initial verbal warning, if the issues persist, a written warning letter is issued to formally document the concerns and expectations. This step is intended to emphasize the seriousness of the situation and to provide clear guidance on the necessary improvements.
3. Termination: Regrettably, despite the verbal and written warnings provided and the numerous opportunities for improvement, your actions and conduct have not met the company's expectations. As a result, we are left with no alternative but to proceed with your termination, effective 11/4/2022.

Please be aware that this decision is not taken lightly, and it is made in the best interest of the company and its employees. We genuinely regret that it has come to this point and sincerely hope that you will find success in your future endeavors.

You are required to return all company property, keys, hardhat, and any other company materials or equipment in your possession by 11/4/2022. Your final paycheck, including any accrued but unused PTO days, will be provided to you as per our standard payroll schedule.

If you have any questions or need clarification regarding the termination process or any related matters, please do not hesitate to contact me.

Sincerely,

John Spears  
Operations Manager

Re: Letter of Reprimand

This letter is a formal reprimand for the performance you have exhibited on the job. Your work, despite encouragement and guidance given, is not improving. In the employee hand book it outlines the 3-step progressive discipline process.

We have expressed on numerous occasions that we are a collaborative and team work based company. As part of this collaborative and team work based environment it is the management teams responsibility to provide tasking/responsibility direction and assistance and then to hold employees accountable for the tasks/responsibilities given. We strive to create a healthy, positive environment and do everything we can to help you succeed.

When your manager, or one of the company owners, specifically task you with something you need to ensure the task(s) are completed efficiently and effectively in a timely manner. We will address a few instances where this type of incident has come up.

- The natural gas contract. You were tasked to reach out to vendors and when asked the status you stated you hadn't heard anything and would follow up. This occurred numerous times. We eventually had to resolve this tasking at the management level.

- Having Teams on your phone for collaboration. This has been an ongoing issue since October. The last response from you when inquired is that you just didn't want to as it caused you to check it all the time. Having Teams on your phone and being collaborative is part of the job responsibilities and team work.

- Preparing the smaller retail bags for inventory. This was asked of you for more than a month. We had to do this at the management level to get it done.

- Taking the provided company laptop home with you each evening. We have been discussing the purpose of taking the company laptop home each evening since June 2021. Now that the company has provided a laptop, when asked why you are not taking the laptop home each night, the response from you was that you just didn't want to.

All of these incidents are taken as either not understanding the company hierarchy, tasks and responsibilities, what being a team player is, or blatant disrespect.

You have approximately thirty days, although if we don't see early progress, you will not get the full thirty days, to demonstrate that you can perform this job, effectively complete the tasks given, and participate as a company team player. If you don't demonstrate immediate progress, we will terminate your employment.

We will place a copy of this formal, written reprimand in your personnel file in Human Resources.

Camrin Bindle  
Mill Associate  
201 N. Vine St.  
Commerce, OK 74339

Date: 6/7/2022

Dear Camrin Bindel,

This is regarding your resignation notice on 6/7/2022 wherein you requested to be relived of your services immediately. We want to inform you that your resignation is accepted, and you're relieved from your position as Mill Associate with American Tripoli with the effective date 6/7/2022.

We sincerely appreciate your contributions to American Tripoli for the following time period 3/28/2022 – 6/7/2022. To receive a professional recommendation will require a more personal relationship with someone within the company.

Respectfully,

Christine Schreiber  
Operations Manager

RE: Letter of Reprimand

This letter is to inform you that your performance is not meeting the expected requirements for your position as a maintenance technician. We're concerned and want to see you succeed.

You are officially failing to perform for the following reason(s):

- Understand the priority of maintenance needs for production
- Complying with responding to maintenance calls
- Demonstrating lack of sense of urgency
- Demonstrating lack of maintenance experience as represented on resume

Based on position description, role discussions, verbal, and written communications, you are failing to meet the performance measurements for your role. These performance requirements affect not only the success of American Tripoli's operations but also the success of our customer which rely on our products to be produced and delivered so they can support their employees and customers.

As a result, If we do not see improvements immediately, additional disciplinary action will occur up to and including termination of employment. This letter will be added to your personnel file.

What can we do to support you in your role? Comment below.

Re: Letter of Reprimand for performance **ATTENTION** **4/21/2023 5/8/2023**  
**4/27/2023 5/9/2023**

This letter is an official written reprimand for your failure to perform the functions of your mill associate position appropriately. Your consistency and dependability are a problem when we are trying to fill customer orders. We can't count on you to do your part.

You have received verbal counseling before this letter. There is a daily performance production goal and tasks that must be completed by you. By not following the instructions and guidance given by your supervisor or a teammate placed in position to make things happen you are jeopardizing operations and the safety of all. This cannot be tolerated.

You have approximately two weeks, although if we don't see early progress, you will not get the full two weeks, to demonstrate that you are fully trying to improve on your performance of this job. If you don't demonstrate immediate progress, we will be forced to terminate your employment. We do not want this.

Please take this advice seriously as our preference is always to have you succeed and be happy while at work.

We will place a copy of this formal, written reprimand in your personnel file.

To: Jim Hoover

From: John Spears, Operations Manager

Re: Failure to communicate and follow planned instructions

Dear Jim Hoover,

This is a warning letter that your failure to adhere to Standard Communication practices and planned instructions will no longer be tolerated. The management team has been closely monitoring your performance over the past few months and it has been concluded that you have failed to meet the standards expected of you.

In our last meeting you and I discussed your failure to communicate your intentions as they pertain to production in the mill. These include leaving your work station, leaving company property, not following planned maintenance, et al. You were also informed that due to frequent absenteeism, you are unable to manage the workload and as a result, you are unable to meet the standards. Considering your situation, you were numerous opportunities to correct these actions which has caused serious loss to the company and still the production was behind schedule.

You must understand that this kind of poor performance adversely affects the company and individual employee performance affects the company financially.

Reminder, our standard of conduct and disciplinary process is a 3-step process. 1<sup>st</sup> offense is a verbal warning. The 2<sup>nd</sup> offense is a written warning letter and the 3<sup>rd</sup> offense is termination.

We are hopeful that you will be more sincere and dedicated in your job and will meet all your standards within the given time frame or else we will have to the next step disciplinary actions. You will have 10 business days to correct the unsatisfactory performance noted in this letter. If you fail to improve despite everything then this can even lead to your termination. In case, you have any doubts on being able to complete your taskings within the standards then please let me know.

John Spears  
Operations Manager  
American Tripoli

I Agree / Disagree (Circle one) with the issue as state above and agreeing to remediate the behavior as stated above. If I disagree with the statement above, I will provide a written statement to the Operations Manager before the close of the next business day. This written statement can be on the back side of this letter.

Re: Failure to communicate and follow planned instructions

Dear Raneldon Williams,

This is a warning letter that your failure to adhere to Standard Communication practices and planned instructions will no longer be tolerated. The management team has been closely monitoring your performance over the past few months and it has been concluded that you have failed to meet the standards expected of you.

Last week, you had stated that were not going to perform the tasks as asked due to you not getting paid a maintenance wage. The taskings of your position include assisting maintenance. You are not trained or experience to perform maintenance tasks alone or without instruction and supervision from a maintenance team member. Failure to comply with directions from your supervisor is a dereliction of duty and will not be tolerated. Also you and I discussed your failure to communicate your intentions as they pertain to production in the mill. These include leaving your work station, leaving company property, et al. You were also informed that due to frequent tardiness and or absenteeism, you are unable to manage the workload and as a result, you are unable to meet the standards. Considering your situation, you were numerous opportunities to correct these actions.

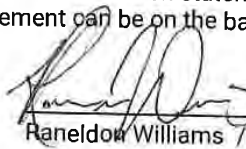

You must understand that this kind of poor performance adversely affects the company and individual employee performance affects the company financially.

Reminder, our standard of conduct and disciplinary process is a 3-step process. 1<sup>st</sup> offense is a verbal warning. The 2<sup>nd</sup> offense is a written warning letter and the 3<sup>rd</sup> offense is termination.

We are hopeful that you will be more sincere and dedicated in your job and will meet all your standards within the given time frame or else we will have to the next step disciplinary actions. Robert Baumann

Columbus, KS 66725

Dear Robert Baumann:

American Tripoli is excited to bring you on board as a Shift Lead.

We're just a few formalities away from getting down to work. Please take the time to review our offer. It includes important details about your compensation, benefits and the terms and conditions of your anticipated employment with American Tripoli.

American Tripoli is offering a full-time position for you as a Shift Lead, reporting to Christine Schreiber starting on June 16, 2022 at 222 Onieda Street, Seneca, MO 64865. Expected hours of work are Monday through Friday, 8:00 – 4:30 pm central time.

In this position, American Tripoli is offering to start you at \$20.00 per hour. You will be paid on a biweekly basis.

As part of your compensation, we're also offering PTO, health insurance and 401(k) matching. After your 90-day probationary period, you will begin accruing 3.08 hours of PTO per pay period for the first 3 years. You may enroll for medical and dental insurance before your 90<sup>th</sup> day, in which it will become effective on your 91<sup>st</sup> day, or you may wait until the Open Enrollment Period in June. You may contribute immediately to the 401(k) plan, in which the company will match up to 5%. After your 90-day probationary period, you may request a Red Wing Boot voucher for up to \$200. If you purchase Red Wing steel-toed boots before your 90<sup>th</sup> day, bring in your receipt and you may be reimbursed for up to \$200 after your 90<sup>th</sup> day.

Sincerely,

Russell Tidaback  
Owner / Managing Member

## Reset Form

## Representative of Miners Designation Form

U.S. Department of Labor  
Mine Safety and Health Administration

Approved OMB Control Number 1219-0042, is approved for use through 12/31/2023

Purpose: 30 CFR 40.3 authorizes a written declaration of any person or organization which represents two or more miners at a coal or other mine.

Public reporting burden for this collection of information estimated to average 45 minutes per response; including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Persons are not required to respond to this collection of information unless it displays a current OMB Control Number. The DOL offers no pledge of confidentiality in association with these information collections unless Item 2 is checked and DOL will keep the miners' names and contact information confidential (Item 7) if Item 2 is checked. Section 103(f) and (g) of the Federal Mine Safety and Health Act, as amended, (30 U.S.C. § 813(f) and (g)) and 43 FR 29508, 29509. As a practical matter, the DOL would only release this information in accordance with provisions of the Freedom of Information Act (5 U.S.C. § 552); the Privacy Act (5 U.S.C. § 552a); and attendant regulations, 29 C.F.R. parts 70 and 71. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: **Office of Standards, Regulation and Variances, Mine Safety and Health Administration, 201 12th Street South, Suite 401, Arlington, VA 22202-5452. DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.** Instructions for this form contain further information on the need and use of this form. A false or representation is punishable under Section 110(a) and (f) of the Federal Mine Safety and Health Act, as amended (30 U.S.C. § 820 (a) and (f)).
